CITY OF BOSTON.

SUPPLY DEPARTMENT.

PROPOSALS FOR INNERSOLES AND OUTSOLES.

The Supply Department of the City of Boston invites proposals for furnishing innersoles and outsoles to the House of Correction, Eastern Avenue Wharf, for Deer Island, Penal Institutions, as per specifications to be obtained at the Supply Department, Room 801, City Hall Annex. *There will be a charge of twenty cents ($0.20) for each set of blank proposals taken out.* The bidder must leave his proposal and a certified check for $100, payable to and to become the property of the City of Boston if the proposal is not carried out, at the office of the Supply Department. A duplicate bid, without check, must be left at the office of the City Auditor prior to the time named for opening bids. The bids will be publicly opened and read on Tuesday, May 15, 1934, at 12 m., at Room 801, City Hall Annex. The successful bidder must furnish a bond for one quarter the total estimated amount of the contract with a surety company authorized to do business in Massachusetts as surety for the faithful performance of the contract. The Superintendent reserves the right to accept or reject any or all bids, or any part of a bid, and to award the contract as he deems for the best interests of the city. All contracts made subject to appropriations to meet payments thereunder.

WARREN W. LOOMIS,
(May 5.) *Superintendent of Supplies.*

CITY OF BOSTON.

SCHOOL COMMITTEE.

Address all questions in regard to these examinations to Board of Examiners, 15 Beacon street, Boston.

PHILIP J. BOND,
(May 5.) *Chief Examiner.*

POPULATION OF NEW ENGLAND, 1930.

Total population, 8,166,341 (4,024,657 males and 4,141,684 females); total white, 8,065,113 (3,972,465 males and 4,092,648 females); total native white, 6,230,803 (3,067,723 males and 3,163,080 females); native white of native parentage, 3,167,082 (1,572,885 males and 1,594,197 females); native white of foreign or mixed parentage, 3,063,721 (1,494,838 males and 1,568,883 females); foreign-born white 1,834,310 (904,742 males and 929,568 females); Negro, 94,086 (46,963 males and 47,123 females); Indian, 2,466 (1,273 males and 1,193 females); Chinese, 3,794 (3,233 males and 561 females); Japanese, 352 (277 males and 75 females); Mexican, 107 (69 males and 38 females); all other races, 423 (377 males and 46 females).

CITY OF BOSTON.

DEPARTMENT OF SCHOOL BUILDINGS.

TO GENERAL CONTRACTORS.

The Superintendent of Construction of the Department of School Buildings of the City of Boston invites sealed proposals for furnishing and setting up new tables, etc., in the Jeremiah E. Burke High School for Girls, Washington street, Dorchester, Boston, and giving bond of a surety company satisfactory to the Superintendent of Construction therefor in the full amount of the contract price. Only proposals obtained at the office of the Superintendent of Construction, eighth floor, 11 Beacon street, Boston, signed by the bidder and left before 2 o'clock p. m. of Monday, May 14, 1934, at said office, with a certified check for $500, payable to the city if the proposal is not carried out will then and there be publicly opened and read. The proposal shall be made in duplicate, the one with the check to be submitted as indicated above, the other to be deposited with the City Auditor, City Hall, previous to the time named for opening proposals. The Superintendent of Construction reserves the right to reject any or all proposals. A deposit of a certified check in the sum of $25 will be required in order to procure a complete set of plans and specifications, said sum to be refunded to all but the successful bidder. If all unused plans and specifications are not returned prior to noon of Monday, May 21, 1934, said deposit for specifications shall be forfeited. Mutilation of the plans and specifications will be deemed sufficient cause for the forfeiture of the said deposit.

WM. W. DRUMMEY,
(May 5.) *Superintendent of Construction.*

SCHOOL COMMITTEE OF THE CITY OF BOSTON.

ADMINISTRATION BUILDING, 15 BEACON STREET, OFFICE OF THE BUSINESS MANAGER, TENTH FLOOR.

PROPOSALS FOR FURNISHING FUEL OIL FOR BOSTON PUBLIC SCHOOLS.

The School Committee of the City of Boston invites bids for furnishing fuel oil required for the school buildings from June 16, 1934, to December 31, 1934, deliveries to be continued until June 15, 1935, provided appropriation is made therefor and the School Committee so orders. Proposal forms are obtainable at the office of the Business Manager of the School Committee, tenth floor, 15 Beacon street. Envelopes containing proposals must be sealed and plainly marked, "Proposal for Furnishing Fuel Oil for Boston Public Schools." The bid must be in duplicate. One copy signed by the bidder and accompanied by a certified check for three hundred dollars ($300), payable to the City of Boston, must be left at the office of the Business Manager on or before 12 o'clock m. on Monday, May 14, 1934. Copies filed with the Business Manager will be publicly opened and read at 12 o'clock m. of the day stated. The other copy, also signed by the bidder, must be filed with the City Auditor, City Hall, Boston, Mass., previous to the time named for the opening of the bids. Fuel oil is to be delivered in the tanks of the several buildings and the price per gallon named in the proposal must include the delivery in said tanks in a manner satisfactory to the School Committee. The total estimated quantity of fuel oil required during the period June 16, 1934, to June 15, 1935, both dates included, is as follows:

1,500,000 gallons of heavy fuel oil.
325,000 gallons of medium fuel oil.

The School Committee reserves the right to reject any or all bids and to accept such bid, or part of bid, as may be deemed best for the interests of the city. The successful bidder will be required to furnish a bond for not less than fifty (50) per cent of the amount of the contract.

ALEXANDER M. SULLIVAN,
Business Manager of the School Committee.
(May 5.)

CITY OF BOSTON.

PROPOSALS FOR $945,000 COUPON SERIAL CITY OF BOSTON LOAN. BONDS EXEMPT FROM TAXATION IN MASSACHUSETTS AND FROM THE FEDERAL INCOME TAX.

TREASURY DEPARTMENT.
OFFICE OF THE CITY TREASURER.
CITY HALL, BOSTON, MASS., May 4, 1934.

In pursuance of the authority given by orders of the City Council of Boston and Acts of Massachusetts, the undersigned will receive proposals until 12 o'clock m., Tuesday, May 8, 1934, for the purchase of the following described coupon serial bonds, bidder to name rate of interest in multiples of ¼ of 1 per cent; no bid to be less than par and accrued interest and the rate of interest bid may be changed for all but no part of each purpose loan to be issued.

RECONSTRUCTION OF STREETS, $310,000.

Orders of the City Council of Boston of July 27, 1933, and February 27, 1934. Payable $31,000 annually, May 1, 1935, to May 1, 1944, inclusive.

CITY OF BOSTON, CENTRE STREET IMPROVEMENT LOAN, ACT OF 1929, $25,000.

Order of the City Council of Boston of June 16, 1930. Payable $3,000 annually, May 1, 1935, to May 1, 1939, inclusive, and $2,000 annually, May 1, 1940, to May 1, 1944, inclusive.

HOSPITAL DEPARTMENT, KITCHEN BUILDING, ETC., $120,000.

Order of the City Council of Boston of June 10, 1933. Payable $8,000 annually, May 1, 1935, to May 1, 1949, inclusive.

HOSPITAL DEPARTMENT, OLD LAUNDRY BUILDING, REMODELING, ETC., $40,000.

Order of the City Council of Boston of June 10, 1933. Payable $3,000 annually, May 1, 1935, to May 1, 1944, inclusive, and $2,000 annually, May 1, 1945, to May 1, 1949, inclusive.

FIRE ALARM SIGNAL SYSTEM, EXTENSION OF, $50,000.

Order of the City Council of Boston of December 12, 1933. Payable $3,000 annually, May 1, 1935, to May 1, 1944, inclusive, and $2,000 annually, May 1, 1945, to May 1, 1954, inclusive.

SEWERAGE WORKS, $200,000.

Order of the City Council of Boston of March 11, 1933. Payable $10,000 annually, May 1, 1935, to May 1, 1954, inclusive.

HIGHWAYS, MAKING OF, $200,000.

Order of the City Council of Boston of April 26, 1932. Payable $10,000 annually, May 1, 1935, to May 1, 1954, inclusive.

All loans will be issued in Coupon Bond Certificates of $1,000 each, and will be paid on the dates specified for each loan, all with interest payable semi-annually on the first days of May and November in each year, at the office of the City Treasurer, Boston.

These bonds are exempt from taxation in Massachusetts and from the Federal Income Tax.

The bonds will be dated May 1, 1934, and will be ready for delivery and payment May 25, 1934. Interest will begin May 1, 1934, and will cease on the date on which the bonds are payable.

Proposals must be sealed and addressed to John H. Dorsey, City Treasurer, Boston, Mass., indorsed "Proposals for Loans." Each proposal must be accompanied by a certified check on a Boston national bank or trust company, or by cash, equal to one per cent of the amount of loans bid for, the check made payable to the City of Boston, John H. Dorsey, City Treasurer. The check or cash of any bidder to whom an award is made will be retained as part payment for the loan or loans awarded, but no interest will be allowed thereon. All other checks or cash will be returned.

Accrued interest from May 1, 1934, to date of delivery is to be paid by the purchaser.

All proposals will be opened in the office of the City Treasurer, Tuesday, May 8, 1934, at 12 o'clock m. The City Treasurer reserves the right to reject any or all bids or to accept such bid or bids as may seem to him to be the most advantageous to the city.

JOHN H. DORSEY,
City Treasurer.

Daylight Saving Time.

CITY OF BOSTON.

SUPPLY DEPARTMENT.

PROPOSALS FOR FURNISHING SODS TO THE PARK DEPARTMENT.

Proposals on blanks obtained at the office of the Supply Department, 801 City Hall Annex, for furnishing sods to the Park Department, signed by the bidder and left before 12 o'clock noon on Friday, May 11, 1934, at the office of the Supply Department, with a certified check for $200, payable to and to be the property of the city if the proposal is not carried out, will then and there be publicly opened and read. *There will be a charge of twentu cents ($0.20) for each set of blank proposals taken out.* A duplicate proposal, without check, must be deposited with the City Auditor previous to the time named for opening bids. The successful bidder must furnish a bond for one quarter the total estimated amount of the contract with a surety company authorized to do business in Massachusetts as surety for the faithful performance of the contract. The Superintendent reserves the right to accept or reject any or all bids, or any part of a bid, and to award the contract as he deems for the best interests of the city. All contracts made subject to appropriations to meet payments thereunder.

WARREN W. LOOMIS,
(May 5.) *Superintendent of Supplies.*

CITY OF BOSTON.

PUBLIC WORKS DEPARTMENT.

PROPOSALS FOR SEWERAGE WORKS IN EVERETT COURT, FROM EVERETT STREET ABOUT 120 FEET NORTHERLY, EAST BOSTON.

The Commissioner of Public Works of the City of Boston, office 508 City Hall Annex, invites proposals from citizens of the United States and corporations or other legal associations wherein the controlling interest to the extent of at least over one half thereof is owned by a citizen or citizens of the United States, for sewerage works in Everett court, from Everett street about 120 feet northerly, East Boston. A bond will be required for doing the work of a surety company approved by the Commissioner in the sum of 100 per cent of the amount of the contract, to secure the due performance of the contract and the full protection of the city. Forms of proposals may be obtained at Room 508, City Hall Annex. Each proposal should be inclosed in an envelope, sealed, marked "Proposal for Sewerage Works in Everett Court," and left at Room 508, fifth floor, City Hall Annex, before 12 m. of Friday, May 18, 1934, with a certified check for one hundred (100) dollars payable to and to become the property of the city if the proposal after acceptance is not carried out. The proposals will then and there be publicly opened and read. Proposals must be made in duplicate, the sealed duplicate, without check, to be deposited by the bidder with the City Auditor previous to the time named for opening the bids. *There will be a charge of two dollars ($2) for each set of plans and specifications taken out.* If the price of any item appears to the Commissioner to be abnormally high or low, or the bidder neglects to bid on each and every item, it may lead to the rejection of the proposal containing such price. The undersigned reserves the right to reject any or all proposals or to award the contract as he deems best.

C. J. CARVEN,
(May 5.) *Commissioner of Public Works.*

CITY OF BOSTON.

TRANSIT DEPARTMENT.

PROPOSALS FOR PAVING CROSS STREET, FROM HANOVER STREET TO HAYMARKET SQUARE, TRAFFIC TUNNEL, SERIES B.

The Transit Department of the City of Boston, 1 Beacon street, invites proposals for paving Cross street, from Hanover street to Haymarket square, Traffic Tunnel, Series B. Specifications may be obtained on or after Friday, May 4, 1934, at the office of the Department. The bids will be publicly opened and read at 12 o'clock noon, Thursday, May 17, 1934. A properly certified check in the sum of two thousand (2,000) dollars, payable to the city, must accompany the proposal. The Department reserves the right to reject any or all proposals.

By order of the CITY OF BOSTON TRANSIT DEPARTMENT.

EDWARD F. CONDON,
(May 5.) *Secretary.*

CITY OF BOSTON.

PUBLIC WORKS DEPARTMENT.

NATIONAL INDUSTRIAL RECOVERY PROJECT P. W. A., DOCKET NO. 4214.

NOTICE TO CONTRACTORS.

Sealed proposals addressed to the Commissioner of Public Works, and indorsed, "Proposal for Furnishing and Laying and Relaying Water Pipes in Brookline Avenue," will be received at Room 508, City Hall Annex, until 12 m. of Wednesday, the 16th day of May, 1934, and at that time and place will be publicly opened and read. Bids must be made upon the prescribed proposal form. Special attention of bidders is called to all provisions of the Federal Emergency Administration of Public Works which form a part of the contract, including the prescribed minimum rates of $1.20 per hour for skilled labor and $0.50 per hour for unskilled labor, and to the special provision as to semi-skilled labor. No bids will be accepted unless the bidder submits therewith a signed copy of P. W. A., Form 61 (revised March, 1934), entitled "Certificate of Compliance with N. R. A. in Connection with P. W. A. Projects." Plans, specifications and contract form may be obtained at Room 508, City Hall Annex, upon deposit of the sum of two dollars ($2). Bids must be accompanied by a properly certified check on, or a certificate of deposit issued by, a responsible bank or trust company in the sum of ten thousand dollars ($10,000) payable to the City of Boston. Checks will be returned after execution of the contract upon demand. A surety bond by an approved surety company will be required from the successful bidder in an amount not less than the full amount of the contract. The right is reserved to reject any or all proposals, or to accept any proposal deemed best for the interest of the City of Boston, and no award can be made without the approval of the State Engineer, P. W. A. The name and address of the local registration office of the National Re-employment Service, from which employee lists for this contract shall be obtained, is as follows: State Public Employment Office (Everett L. Hanna, Manager), 100 Nashua street, Boston.

BOSTON TRAFFIC COMMISSION.

CHANGES IN TRAFFIC REGULATIONS.

Voted, That the Traffic Regulations are amended as follows, for a period of ninety (90) days, effective May 14, 1934:

That section 17, Part 3, is amended by striking out the following:

Batterymarch Street.
Northeast side, from Water street to High street.
Kilby Street.
Both sides, from Water street to State street.
Milk Street.
Both sides, from Broad street to India street.

That section 17, Part 3, is amended by adding the following:

Milk Street.
Northwest side, from Broad street to India street.

That section 40, Part 1, is amended by striking out the following:

Central Street.
From Broad street to Kilby street.
From India street to Atlantic avenue.

That section 40, Part 1, is amended by adding the following:

Batterymarch Street.
From High street to Water street.
Central Street.
From Atlantic avenue to Kilby street.
Franklin Street.
From India street to Federal street.
High Street.
From Broad street to Summer street.
Kilby Street.
From Water street to State street.
Milk Street.
From Oliver street to Atlantic avenue.
Oliver Street.
From Milk street to Atlantic avenue.
Pearl Street.
From Atlantic avenue to Milk street.
Purchase Street.
From Summer street to Broad street.

That the provision of section 40, Part 2, of the Street Traffic Regulations which prohibits parking in the left side of one-way streets is not to apply to the above streets.

WILLIAM P. HICKEY,
(May 5-12.) *Commissioner.*

CITY OF BOSTON.

PUBLIC WORKS DEPARTMENT.

PROPOSALS FOR LAYING AND RELAYING ABOUT 1,300 LINEAR FEET OF 12-INCH WATER PIPE IN CROSS STREET, BETWEEN HANOVER STREET AND HAYMARKET SQUARE; ENDICOTT STREET, BETWEEN CROSS STREET AND STILLMAN STREET, IN HAYMARKET SQUARE; LAYING ABOUT 600 LINEAR FEET OF 12-INCH HIGH PRESSURE FIRE PIPE IN CROSS STREET, BETWEEN HANOVER STREET AND HAYMARKET SQUARE.

The Commissioner of Public Works of the City of Boston, office 508 City Hall Annex, invites proposals from citizens of the United States and corporations or other legal associations wherein the controlling interest to the extent of at least over one half thereof is owned by a citizen or citizens of the United States, for laying and relaying about 1,300 linear feet of 12-inch water pipe in Cross street, between Hanover street and Haymarket square; Endicott street, between Cross street and Stillman street, in Haymarket square; laying about 600 linear feet of 12-inch high pressure fire pipe in Cross street, between Hanover street and Haymarket square. A bond will be required for doing the work of a surety company approved by the Commissioner in the sum of 100 per cent of the amount of the contract, to secure the due performance of the contract and the full protection of the city. Forms of proposals may be obtained at Room 508, City Hall Annex. Each proposal should be inclosed in an envelope, sealed, marked "Proposal for Laying and Relaying about 1,300 Linear Feet of 12-Inch Water Pipe in Cross Street, Between Hanover Street and Haymarket Square; Endicott Street, Between Cross Street and Stillman Street, in Haymarket Square; Laying about 600 Linear Feet of 12-Inch High Pressure Fire Pipe in Cross Street, Between Hanover Street and Haymarket Square," and left at Room 508, fifth floor, City Hall Annex, before 12 m. of Thursday, May 17, 1934, with a certified check for three hundred (300) dollars payable to and to become the property of the city if the proposal after acceptance is not carried out. The proposals will then and there be publicly opened and read. Proposals must be made in duplicate, the sealed duplicate, without check, to be deposited by the bidder with the City Auditor previous to the time named for opening the bids. *There will be a charge of two dollars ($2) for each set of plans and specifications taken out.* If the price of any item appears to the Commissioner to be abnormally high or low, or the bidder neglects to bid on each and every item, it may lead to the rejection of the proposal containing such price. The undersigned reserves the right to reject any or all proposals or to award the contract as he deems best.

—

ASSIGNMENT

A communication was received from the Superintendent, under date of Apr. 16, 1934, reporting that subject to the approval of the School Committee, he has assigned Alice H. Kelley, assistant, elementary, Shurtleff District, to Speech Improvement Classes, without change of rank or salary, to take effect Apr. 23, 1934, and to continue during the school year ending Aug. 31, 1934, unless earlier terminated by the Superintendent with the approval of the School Committee.

Placed on file and the assignment approved, to take effect on the date stated.

—

TOOLKEEPERS

A communication was received from the Superintendent, under date of Apr. 16, 1934, reporting that subject to the approval of the School Committee and in accordance with the orders passed at the meeting of Oct. 23, 1933 (see pp. 183-184), he has appointed the following-named persons to the Saturday morning class for apprentices in sheet metal work in the South Boston High School, to take effect on the dates stated:

Leo Carleton, toolkeeper, Mar. 3 and 10, 1934 (two days); John Conley, toolkeeper, Mar. 17, 1934.

Approved.

—

COURSE OF STUDY

On motion of the Superintendent, it was

ORDERED, That the accompanying outline of Geometry, Part I, is hereby adopted as a tentative course of study for the English High School, and that one thousand (1,000) copies be printed as a school document.

—

APPROPRIATIONS — ADMINISTRATION EXPENSES ON ACCOUNT OF ALTERATIONS AND REPAIRS AND LAND AND BUILDINGS FOR SCHOOLS.

The following communication was received:

City of Boston—Department of School Buildings
April 12, 1934.

School Committee,
City of Boston,
15 Beacon Street,
Boston, Mass.

Gentlemen:

Under date of April 9th, 1934, the School Committee forwarded to the Board of Commissioners of School Buildings for their report the following proposed orders:

ORDERED, That in accordance with the provisions of Chapter 206 of the Special Acts of 1919, as amended by Chapter 524 of the Acts of 1920, as amended by Chapter 488 of the Acts of 1923, as amended by Chapter 327 of the Acts of 1925, as amended by Chapter 314 of the Acts of 1926, the following appropriations are hereby made on account:

Land and Buildings for Schools

Item 1—Administration Expenses, Department of School Buildings	$32,520.00
Item 9—Rent of hired accommodations	9,833.00
Total	$42,353.00

ORDERED, That to provide for the cost of administration expenses of the Department of School Buildings in connection with the alteration and repair of school buildings, and for furniture, fixtures, and means of escape in case of fire, and for fire protection for existing buildings, and for improving existing schoolyards during the financial year January 1 to December 31, 1934, the sum of $63,400.00 is hereby appropriated on account.

ORDERED, That to provide for the cost of alterations and repairs of school buildings, and for furniture, fixtures and means of escape in case of fire, and for fire protection for existing buildings and for improving existing schoolyards, during the financial year January 1 to December 31, 1934, the sum of $400,000.00 is hereby appropriated on account.

These appropriations are on account of administration expenses in this department, rent of hired accommodations, and cost of alterations and repairs of school buildings.

More than three months of the present financial year have already expired and this department has been operating under statutory authority to expend one-third of the amount appropriated last year for the same purpose. It is necessary, however, to receive the amount stated in these three orders on account of the total appropriation to be made this year for the same purpose, in order to enable this department to carry on the work it is designated by statute to perform. The sums appropriated on account are of course within the statutory limit that the department is authorized to expend and it is necessary for the School Committee to appropriate at this time the amounts set forth in these orders, on account.

The Commissioners of School Buildings therefore approve said orders.

Respectfully yours,

Board of Commissioners of School Buildings,

Richard J. Lane,
Chairman.

Placed on file.

Secretary

CITY OF BOSTON PRINTING DEPARTMENT

CITY RECORD

OFFICIAL CHRONICLE OF BOSTON MUNICIPAL AFFAIRS.

VOL. 26. SATURDAY, MAY 12, 1934. NO. 19

MUNICIPAL ADMINISTRATION, BY RECENT ACCOMPLISHMENTS IN ECONOMIES, NOW ENTITLED TO SUPPORT BY TAXPAYERS — CITY COLLECTOR JOHN F. DOHERTY, IN SUBSTITUTING FOR MAYOR MANSFIELD IN REGULAR WEEKLY BROADCAST FROM CITY HALL STATION OF WNAC, POINTS TO GROWING NUMBER OF DELINQUENTS, AMONG WHOM ARE MANY WELL ABLE TO PAY LEVIES — ALSO CALLS ATTENTION TO FACT TAXPAYER GETS MORE FOR HIS TAX DOLLAR THAN ANY OTHER FORM OF INVESTMENT.

Substituting for Mayor Mansfield in the regular weekly broadcast from the City Hall station of WNAC, City Collector John F. Doherty discussed city taxes and their collections, as follows:

The most important question affecting any municipality is the amount of its revenue. Unfortunately, for the last few years the revenue of most cities has been seriously affected. Tax delinquency has increased to such an extent that it is now of alarming proportion. However, many municipalities, believing that business has started on its long climb back to normal, backed up by local newspapers, financial institutions, Chambers of Commerce and public-spirited agencies, are instituting campaigns to speed up tax collections.

One of the most serious consequences of the depression has been the tremendous shrinkage in municipal collections. This has increased to such an extent that in many of the municipalities long-term credit has been denied without regard to financial soundness. Fortunately, this has not been the experience of the City of Boston.

There is no lack of sympathy for the property owner who is actually unable to pay his taxes. It unfortunately is a fact that a substantial part of the tremendous accumulation of unpaid taxes represents amounts due from property owners who take advantage of the long period afforded them before any act of the city can make effective the actual collection of taxes. Others have been encouraged to believe that delay in paying taxes affords an opportunity to force economy. By effecting substantial economies, municipalities have done about all they can to solve the problem. They now need and by their present accomplishments are entitled to the support of the taxpayers.

Much intelligent study has been given by various organizations to the problem of the preservation of municipal government. Municipal government is the outstanding agent for social service to over one hundred million people.

Tax Collections Needed.

This study clearly shows that if municipal service is to be continued there is the necessity of collecting taxes. It is a matter of fact that with a well-regulated municipality no greater return can be had than what is obtained for the dollar expended by the taxpayer.

Police, fire, school, public works and the preservation of health are truly essential for the taxpayer, and the taxpayer must be made to understand that taxes must be paid, and paid promptly, if municipal government is to be carried on.

The taxpayer must be made to understand that taxes, once levied, are a first lien on his property and that sooner or later this lien must be satisfied. He must be made to understand that the taxpayer who fails to pay his taxes increases the cost of local government and destroys the efficiency and morale of municipal officers and employees. He must be made to understand that it is his civic and patriotic duty to pay his taxes. He must be educated to understand how much service he received for his tax dollar, compared with the dollar paid to public utilities. In spite of all of the alleged graft and extravagance, the typical American city furnishes the most modern and effective service in the world. He must be made to understand that it is for his own selfish interest to pay, and that it is not only profitable for himself but for his children. Clearly, it seems as if the time has arrived to instruct the people and if need be to introduce more effective plans and more collection methods.

Legislation to Compel Payments.

In some states, in order to more efficiently reach the willful tax delinquent, legislation has been recently enacted. In our state there is nothing that can be termed drastic, as far as municipal taxes are concerned. Here property is divided into real and personal assessments. It is assessed as of April 1st, covering a yearly period, and the taxpayer receives one charge throughout the year.

Motor excise taxes are assessed at a uniform rate throughout the state and assessed monthly. Beginning 1935, the taxes will thereafter be assessed to the owner of record on January 1st and shall be payable in two equal installments, on June 1st and October 1st of each year, and bills for same shall be sent out not later than June 14th of each year. Causing taxes to become due twice during the year should make the collections easier, both for the property owner and the municipality. The fact that a municipality does not operate for the purpose of creating a surplus and creates no revenue as a result of its operation shows quite clearly the absolute necessity of recovering taxes. That fact clearly shows the additional burden that may be placed upon those who pay as a result of continued delinquencies.

(Continued on page 443.)

"O Boston, fair City enthroned like a radiant queen,
From thy hills looking down on the ship-teeming plain of the ocean,
May thy future be bright, thy skies beam with light all serene,
Ensured by thy sons' and thy daughters' unselfish devotion!"
From Boston Centennial Poem by
NATHAN HASKELL DOLE.

Advertising.

A rate of $2 per inch of 12 lines (set solid) has been established for such advertisements as under the law must be printed in the *City Record*. Advertising and other copy must be in hand by Thursday of each week to insure its publication in the Saturday issue.

Copies for sale at the Statistics Department, Room 73, City Hall.

MUNICIPAL CALENDAR.

Meeting of the City Council Monday, May 21, 1934, at 2 p. m.

Meetings of the Transit Department are held on Monday and Thursday of each week at 11 a. m.

Board of Zoning Adjustment. Public hearings and executive meetings are held on the first Friday of each month, Room 30, City Hall, at 2 p. m.

MUNICIPAL SERVICE.

Complaints, inquiries or suggestions regarding the work of municipal departments should be made in writing to the officials directly in charge. The failure of such official to make reply within a reasonable length of time should be brought to the attention of the Mayor. Communications should be directed as follows:

TO THE BOARD OF STREET COMMISSIONERS, Room 401, City Hall Annex, for information relative to the laying out, relocation, widening, and the discontinuance of highways; the taking of rear property for municipal purposes; the assessments of betterments for streets and sewers; the plotting of undeveloped area for streets and the opening of private ways; the granting of licenses for the storage or sale of merchandise in public streets; the making of specific repairs in public streets; the naming of public streets; the planting and removal of trees in public ways; the issuing of licenses for the storage of gasolene, oil, and other inflammable substances or explosive compounds; the use of the public ways for any permanent or temporary obstruction or projection in, under or over the same, including the location of conduits, poles and posts for telephone, telegraph, street railway or illuminating purposes, signs, marquises, bay windows, coal holes and vaults.

TO THE BOSTON TRAFFIC COMMISSION, 22 Court street, for information relative to regulation of vehicular street traffic on all or any streets, ways, highways, roads and parkways under the control of the City of Boston, the issuing of all permits in connection therewith.

TO THE COMMISSIONER OF PUBLIC WORKS, Room 511, City Hall Annex, for information as to the watering, cleaning, lighting and repairing of streets, the construction and care of sewers and catch-basins, the operation of the ferries, the maintenance of bridges and drawbridges and the removal of ashes and offal.

To Room 604, City Hall Annex, for information relative to the supplying or metering of water and the water charges of the city.

TO THE HEALTH DEPARTMENT, Room 1107, City Hall Annex, for information relative to the inspection of milk, vinegar, meat, fish and vegetables, the issuance of permits for stables, slaughter houses, etc., smoke nuisances, the existence of contagious diseases, of public health nuisances.

TO THE BOARD OF PARK COMMISSIONERS, 33 Beacon street, for information as to the care of the Common, Public Garden, Franklin Park, Franklin Field, Commonwealth avenue, Back Bay Fens, Marine Park, and the small parks and playgrounds in general throughout the city, and as to the extermination of gypsy moths and the charges made for such service. Application may be made to this department for information regarding the public baths and gymnasiums maintained by the city, and with regard to municipal indoor concerts and band concerts, also information relative to Mt. Hope, Evergreen, Fairview and other public cemeteries owned by the City of Boston.

TO THE SCHOOL COMMITTEE, 15 Beacon street, for information relative to the operation of the schools of the city.

TO THE DEPARTMENT OF SCHOOL BUILDINGS, 11 Beacon street, for information as to the construction and repair of school buildings.

TO THE BOARD OF EXAMINERS, Room 1001, City Hall Annex, for information regarding the licensing of persons having charge or control of the work of construction, alteration, removal or tearing down buildings.

TO THE WIRE DIVISION OF THE FIRE DEPARTMENT, Fire Department Headquarters, 60 Bristol street, for all information relative to the erection of poles, building of conduits, the installation of all overhead and underground construction and electrical apparatus, as well as for general information relative to the entire division. To Room 1007, City Hall Annex, for permits for the installing of wires and electrical apparatus within buildings of the City of Boston, and for the payment of fees incident to the granting of the privileges above named, and which must be paid in advance.

TO THE BOARD OF ZONING ADJUSTMENT, Room 30, City Hall, relative to changes in the boundary lines of zoning districts of the City of Boston as established by chapter 488 of the Acts of 1924, and amendments thereto.

MORTALITY REPORT.

For the week ending May 5, 1934:

Population estimated July, 1934, United States Census Bureau estimate, 795,256; number of deaths (stillbirths excluded): Residents, 191; nonresidents, 35; total, 226.

Death rate per 1,000 of population: All deaths, 14.78; nonresidents deducted, 12.49.

Death rate per 1,000 of population: Last week, 16.35; corresponding week last year, 14.25.

Deaths by age periods, sex, etc.: Under one year, 23; one year to four years, inclusive, 3; sixty years and over, 144. Total deaths: Male, 125; female, 101; deaths in hospitals and institutions, 144; deaths of colored, 9.

BROADCAST BY CITY COLLECTOR.

(*Continued from page 441.*)

The total amount of real estate, personal property and poll taxes outstanding as of January 1, 1934, was $22,650,302.98. The amount remaining due as of April 30, 1934, was $18,151,872.01, subdivided as follows: 1933 — $12,358,598.29; 1932 —$4,762,876.61; 1931—$309,122.26; 1930 and prior years, $721,274.85.

The total amount due for motor vehicle excise taxes was $920,081.61. Of this amount there was due of 1929 and prior years thereto $239,737.02. The amount collected on real estate tax on April 30 was 77.303 per cent of the assessment for 1933. A year ago, at the same date, the amount collected was 78.97 per cent of the assessment for that year. On the same date, in 1928, the amount collected of the assessment for that year was 92.808 per cent. In 1927 the amount collected was 94.115 per cent of the assessment, showing the comparative shrinkage. The larger balance that remains due from previous years has a natural tendency to reduce the collections for the ensuing year, as many of the receipts instead of being applied to the current year are applied to those of the previous years.

The tax titles on the books of the city for April 30, 1934, was $1,696,845.44. By the provision of the law, the city has a lien upon the property for two years from the due date. Having failed to exercise it within that time, the rights of the municipality are thereby lost. The taxpayer has two years from the date on which the city receives a tax title to redeem the property. Otherwise the city may proceed to wipe out any right of redemption, thus defeating a mortgage and any other right whatsoever in the property. Most municipalities have a shorter plan in which the tax deed can be redeemed, and as a result of such, mortagees and other persons interested make some effort to redeem the property.

The statute provides that interest at the rate of 6 per cent is to be recovered by the municipality and in addition thereto an added interest as a penalty of 2 per cent. It is a question of serious doubt as to what extent this penalty forces the payment of taxes. Many states, including New York, have increased the penalty to 4 per cent and their statement is that it has had a helpful effect in forcing payment.

For the year 1933 there remains approximatily 29,000 real estate owners in default; in 1932 about 2,500 in default. In 1933 there are about 3,800 personal property owners in default and in 1932 about 3,800. It can be said that there is a total of approximately 30,000 delinquent property owners in default.

The city of Chicago experienced considerable difficulty in making collection of taxes. On April 28, 1933, there was enacted in that state what is termed the Skarda Act, which provides, substantially, that any time any taxes assessed upon real property shall have been delinquent for more than six months, the Collector may make application to any court of competent jurisdiction to be appointed receiver of rents of such real property for the purpose of collecting and satisfying the taxes upon such real property. He may pay out of the income only such expenses in connection with the maintenance of the property as may be necessary in order to secure the greatest income from said property, the payment of said taxes to have preference. That on any petition for abatement, he may be allowed to retain 75 per cent of the amount of the tax pending the determination on the petition for abatement.

It must be remembered that in this state petitions for abatement do not stay the collection of taxes. On account of the long period of time under our own statutes, before the city may be able to take any positive action, many petitioners for abatement refuse to make payment.

There is no question but what the Skarda Act in Illinois has worked successfully. The Collector for the city of Chicago, in a report filed with the Court, states as follows:

"Considering the full year from April 28, 1933, when the Skarda Act took effect, to April 27, 1934, the collections of real estate taxes in the county treasury was $104,277,261.49 more than they were for the full twelve months preceding the passage of the Skarda Act."

That would seem to show quite clearly that there is a willful delinquency, that can be overcome if effective means be had to collect the tax.

The reports from Philadelphia, New York City and Newark and other places clearly show that the tax receipts have increased to a great extent as a result of new activities manifested in the collections. If a taxpayer can be made to realize that the delinquent taxpayer is liable to develop into a burden on other taxpayers, a mass consciousness of this situation will undoubtedly be created, and find its reflection in increased receipts.

FIRE DEPARTMENT ORDERS.

General Order No. 37.

I. CAPTAIN MAURICE J. PRENDERGAST.

It is with deep regret that the Fire Commissioner announces the death on May 5, 1934, of Capt. Maurice J. Prendergast of Ladder Company 18. Captain Prendergast was appointed to the Fire Department on March 31, 1905. He was promoted to lieutenant on September 16, 1919, and to captain on July 30, 1923.

The funeral was held from his late home, 62 Howard avenue, Dorchester, at 9 a. m., Wednesday, May 9, 1934, followed by services at St. Paul's Church, Hartford street, at 10 a. m.

The Chief of Deprtment made the customary detail to act as an escort from this department. The members of Ladder Company 18 were excused from duty in order to attend the funeral.

II. RETIREMENTS.

The following retirement is hereby announced to take effect at 8 a. m., Thursday, May 10, 1934:

Deputy Chief Albert J. Caulfield of the Fire Prevention Division.

Deputy Chief Caulfield was appointed to the Fire Department on May 16, 1891. His promotions were as follows: To lieutenant, February 18, 1898; to captain June 26, 1908; to district chief, December 22, 1916; to deputy chief, February 1, 1924. He has been in charge of the Fire Prevention Division since February 18, 1928.

He leaves the department with the best wishes of his associates.

The following retirements, which took effect at 8 a. m., May 1, 1934, by order of the Boston Retirement Board, are hereby announced:

John J. King, Jr., Engine Company 4.

James J. Rodden, Fire Alarm Division.

Hoseman King was appointed to the Fire Department on June 14, 1926. Lineman Rodden was appointed to the Fire Department on December 31, 1925. Both these men leave the department with the best wishes of their associates.

III. EXAMINATION FOR PROMOTION TO DEPUTY CHIEF.

The Department of Civil Service and Registration of the Commonwealth of Massachusetts has announced that an examination will be held on Saturday, June 23, 1934, for promotion to the rank of deputy chief in the Boston Fire Department. This examination is open to all districts chiefs in the Boston Fire Department.

The subjects of examination together with their respective weights will be as follows: Seniority, 5; report 2; practical questions, 10; personality and fitness, as determined by an oral interview, 3; total, 20. Applicants will be required to obtain at least 70 per cent in each subject of the examination in order to become eligible.

Physical examination.

Application blanks will be distributed to the department today. The vouchers on these blanks need not be filled out. When complete applications should be returned to the Division of Civil Service, Rooms 145–152, State House, Boston, Mass., not later than Saturday, June 9, 1934, at 12 o'clock noon.

Applicants will be notified of the precise time and place of examination.

IV. HOUSE JOURNALS.

Company commanders will forward to headquarters requests for the annual supply of house journals, from June 1, 1934. These requests are to be submitted on Form 5 and should be at headquarters not later than May 17, 1934. The Fire Commissioner expects to see a substantial reduction in the number of house journals ordered this year in order to conserve the operating expenses of the department.

V. BOSTON AUTOMATIC FIRE ALARM ASSIGNMENT CARD.

A new card for the Boston Automatic Fire Alarm Assignment Book is being issued to the department today. This card is marked page 26 and is dated April 24, 1934. It is to replace old page 26, dated April 1, 1929. Old cards will be returned to headquarters in the envelopes provided on or before Saturday, May 12, 1934.

VI. COMMENDATIONS.

Capt. Joseph P. Hanton of Engine Company 33 is hereby commended for responding to and working at fire, Box 2237, on April 25, 1934, while off duty.

Ladderman Walter S. Fields of Ladder Company 9 is hereby commended for responding to and working at fire, Box 4154, April 27, 1934, while off duty.

Hoseman Henry M. Whecler of Engine Company 33 is hereby commended for submitting to a blood transfusion at the Boston City Hospital on April 27, 1934.

By order of Fire Commissioner EDWARD F. MCLAUGHLIN.

HENRY A. FOX,
Chief of Department.

INSPECTION OF STATE AND LOCAL ROAD PROJECTS.

Supervision and inspection of road projects of states and counties financed by P. W. A. have been transferred from the P. W. A. Inspection Division to the U. S. Bureau of Public Roads, Administrator Harold L. Ickes announced last month.

PROPOSALS ADVERTISED.

Bids have been asked by advertisement in the *City Record* for the following departments. The attention of contractors and others is especially called to the closing time of receipt of such proposals. This will be published weekly.

DEPARTMENT OF SCHOOL BUILDINGS.

Advertises for proposals for furnishing and setting up new tables, etc., in the Jeremiah E. Burke High School for Girls. Surety bond will be required in a sum equivalent to the full amount of the contract price. Blank forms for proposals may be obtained at the office of the Department of School Buildings, 11 Beacon street, Boston. Bids, accompanied by certified check in the sum of $500, to be filed at the same office. Duplicate bid, without check, to be filed with the City Auditor.

Bids close Monday, May 14, at 2 p. m.

PUBLIC WORKS DEPARTMENT.

Advertises for proposals for recut granite block pavement in Alford street, Ward 2, from Malden Bridge to Everett line, on P. W. A. Project 4205. Surety bond will be required in a sum equivalent to the full amount of the contract price. Blank forms for proposals may be obtained at the office of the Public Works Department, Room 508, City Hall Annex, Boston. Bids, accompanied by certified check in the sum of $1,300, to be filed at the same office. Duplicate bid, without check, to be filed with the City Auditor.

Bids close Monday, May 14, at 12 m.

Advertises for proposals for laying and relaying water pipes in Brookline avenue, under National Industrial Recovery Project P. W. A., Docket No. 4214. Surety bond will be required in a sum equivalent to the full amount of the contract price. Blank forms for proposals may be obtained at the office of the Public Works Department, Room 508, City Hall Annex, Boston. Bids, accompanied by certified check in the sum of $10,000, to be filed at the same office. Duplicate bid, without check, to be filed with the City Auditor.

Bids close Wednesday May 16, at 12 m.

Advertises for proposals for sewerage works in Stony brook, Section 12, between 150 feet northwest of Florence street and Neponset avenue, West Roxbury. Surety bond will be required in a sum equivalent to the full amount of the contract price. Blank forms for proposals may be obtained at the office of the Public Works Department, Room 508, City Hall Annex, Boston. Bids, accompanied by certified check in the sum of $5,000, to be filed at the same office. Duplicate bid, without check, to be filed with the City Auditor.

Bids close Tuesday, May 22, at 12 m.

PUBLIC WORKS DEPARTMENT (Bridge Service).

Advertises for proposals for repairing floor beams of the Bennington Street Bridge over the Boston, Revere Beach & Lynn Railroad. Surety bond will be required in a sum equivalent to the full amount of the contract price. Blank forms for proposals may be obtained at the office of the Public Works Department, Room 508, City Hall Annex, Boston. Bids, accompanied by certified check in the sum of $300, to be filed at the same office. Duplicate bid, without check, to be filed with the City Auditor.

Bids close Monday, May 21, at 12 m.

PUBLIC WORKS DEPARTMENT (Sewer Service).

Advertises for proposals for sewerage works in Everett court, from Everett street about 120 feet northerly, East Boston. Surety bond will be required in a sum equivalent to the full amount of the contract price. Blank forms for proposals may be obtained at the office of the Public Works Department, Room 508, City Hall Annex, Boston. Bids, accompanied by certified check in the sum of $100, to be filed at the same office. Duplicate bid, without check, to be filed with the City Auditor.

Bids close Friday, May 18, at 12 m.

Advertises for proposals for sewerage works in Cross street, at Salem street, city proper. Surety bond will be required in a sum equivalent to the full amount of the contract price. Blank forms for proposals may be obtained at the office of the Public Works Department, Room 508, City Hall Annex, Boston. Bids, accompanied by certified check in the sum of $100, to be filed at the same office. Duplicate bid, without check, to be filed with the City Auditor.

Bids close Monday, May 21, at 12 m.

Advertises for proposals for sewerage works in Haven avenue, from existing sewer 376 feet west of Blue Hill avenue 165 feet westerly, Dorchester. Surety bond will be required in a sum equivalent to the full amount of the contract price. Blank forms for proposals may be obtained at the office of the Public Works Department, Room 508, City Hall Annex, Boston. Bids, accompanied by certified check in the sum of $100, to be filed at the same office. Duplicate bid, without check, to be filed with the City Auditor.

SUPPLY DEPARTMENT.

Upon April 25 the Mayor approved contracts with bidders as indicated for furnishing groceries and canned goods to the various city institutions.

After the opening of bids samples were requested on the various items. These samples were submitted to the United States Department of Agriculture for tests. The samples submitted by the lowest bidders were inspected first, and if they met specifications the awards were made to them. If the lowest bidders' samples were not satisfactory, the samples submitted by the next lowest bidders were examined, and the awards made to these bidders if the specifications were met. This method was pursued until satisfactory samples were obtained, and awards made to the lowest bidders submitting these samples. Where samples were not required lowest bids were accepted. The approximate awards to the various bidders were as follows:

H. A. Johnson Company, $15,472.07; Globe Grocery Company, $7,677.29; Webster-Thomas Company, $5,476.82; George D. Emerson Company, $5,337.13; Reid-Murdoch & Co., $4,636.04; Eldridge, Baker Company, $3,184.70; Suffolk Grocery Company, $3,071.70; Libby, McNeill & Libby, $2,526.70; Gumpert Company, $2,203.71; Heinz & Co., $1,111.06; Swift & Co., $816.30; J. J. White Company, $358.82; Standard Brands, Inc., $207.91; Armour & Co., $34.90; National Biscuit Company, $7.13—total, $52,122.28.

Bids, opened March 9, were as follows:

H. A. Johnson Company does not guarantee same code mark on all deliveries, but does guarantee all deliveries to be equal, tax clause.

* Contracts awarded.

DAMAGES AWARDED.

The Mayor has approved the following vote of the Board of Street Commissioners:

Voted, That this Board determines that no person sustains damages in his estate by the taking of an easement for sewerage purposes in private land, between Hyde Park avenue and the Neponset river, under the order of the Board, of April 27, 1934, and awards no damages therefor.

The New York, New Haven & Hartford Railroad Company, lessee, 4,041 square feet.....Nothing.
The New York, New Haven & Hartford Railroad Company, lessee, 14,853 square feet.....Nothing.

POLICE DEPARTMENT ORDERS.

General Order No. 455.

A trial board consisting of Captains Campbell, Casey and Daley, having heard by reference a complaint made by Harry T. Grace, captain, Division 15, against Joseph F. Normile, patrolman, Division 15, for alleged violation of Rules 27, 36 and 41 of the Rules and Regulations of the Police Department, to wit:

Charge 1: Neglect of duty.

Specification 1: In that on the twenty-fifth day of April, 1934, the said Patrolman Joseph F. Normile, while on duty and in uniform, being assigned to Route 2, did fail to make his 12.30 and 1.10 p. m. "on duty" calls, although the police rules require him to signal from his route every forty minutes, and did not call the station at 1.25 p. m., to report going to dinner, nor did he report to the station at 2.45 p. m. roll call, knowing that the police rules require him to do so.

Specification 2: In that on the twenty-fifth day of April, 1934, the said Patrolman Joseph F. Normile, while on duty and in uniform, assigned to Route 2, did enter a building at 44 High street, Charlestown, not on his route and not on police business, and remained in said building for a period of time, thereby exposing his route to the depredations of the criminal elements.

Charge 2: Conduct unbecoming an officer.

Specification: That on the twenty-fifth day of April, 1934, the said Patrolman Joseph F. Normile, while on duty and in uniform, was under the influence of intoxicating liquor to such an extent that he was unable to perform police duty, and on February 28, 1934, before a trial board, he promised to abstain from intoxicating liquor, which he has failed to do, these acts being contrary to good order and discipline and tending to bring into disrepute and criticism his brother officers and the Police Department as a whole,—

has submitted the following finding and recommendation:

"The Board having heard and carefully considered all the evidence as presented, accepts the plea of guilty made by the said Patrolman Joseph F. Normile. The Board has also considered that this is the second offence within a short period of time on which this officer has been before a trial board, and would be inclined to inflict the extreme penalty of dismissal; however, in view of the recommendation of Captain Grace that Patrolman Normile be retained in the department; the fact that Patrolman Normile has filed a pledge card to abstain from the use of intoxicating liquor in the future, and that he has promised that if there is a recurrence of such an episode he will place his resignation on his captain's desk; the Board respectfully recommends that the said Patrolman Joseph F. Normile be suspended from duty for a period of sixty days, effective as of April 26, 1934, at 7.45 o'clock a. m."

The commissioner accepts the finding and the recommendation of the Trial Board and hereby orders that the said Patrolman Joseph F. Normile be suspended from duty for a period of sixty days, effective as of April 26, 1934, at 7.45 o'clock a. m.

Civil Service Rule 23, Section 3, requires approval of the Civil Service Commission before reinstatement.

Rule 23.

"Section 3. With the consent of the Commissioner upon good cause shown, an appointing officer may reinstate in the same position or in a position in the same class and grade any person who has been separated from the service; provided, however, that the Commissioner shall not allow reinstatement of a person discharged for cause."

The Superintendent of Police will promulgate this order.

EUGENE C. HULTMAN,
Commissioner.

REPORT OF HELEN F. McCAFFREY, A SUPERVISING NURSE, ATTENDING CONVENTION OF NATIONAL ORGANIZATIONS FOR NURSING, HELD AT WASHINGTON.

The School Committee has approved the report of Miss Helen F. McCaffrey, supervising nurse, on her attendance at the Biennial Convention of the National Organizations for Nursing, held in Washington, during the week April 23 to 27.

BOSTON, May 3, 1934.

MR. PATRICK T. CAMPBELL,
Superintendent of Public Schools.

DEAR MR. CAMPBELL,—I respectfully submit the following report of my attendance at and participation in the Biennial Convention of the National Organizations for Nursing held in Washington, D. C., during the week April 23 to 27, 1934, both dates included.

The convention opened in the Washington Auditorium on Monday, April 23, 1934, at 11 o'clock a. m.

Meetings participated in:

Tuesday, April 24, 1934—School Nursing Round Table. Subject presented: "The Survey of Public Health Nursing as it Relates to the School Nurse," discussed by Pearl McIver, R. N., special nurse, United States Public Health Service, Washington, D. C.; Helen F. McCaffrey, R. N., supervising nurse, Department of School Hygiene, Boston Public Schools, Boston, Mass.; and Miss Marie Swanson, R. N., supervising nurse, State Department of Education, Albany, New York.

Subjects of survey report discussed by Miss McCaffrey were as follows:

Records. Qualifications. Staff education and supervision. Manuals and guides. Health of staff. Student affiliation. Monthly and yearly reports. Community relationships. Knowledge of and use of social service exchange. Council of social agencies. Comparison of services of public health nursing.

Meetings attended:

Monday, April 23—Opening Business Meeting, National Organization for Public Health Nursing. Presiding: Sophie C. Nelson, R. N., president, N. O. P. H. N. Report of N. O. P. H. N. Activities, by Katharine Tucker, R. N., general director, N. O. P. H. N.

8 p. m., Joint Opening Session. Presiding: Elnora E. Thomson, R. N., president, American Nurses' Association.

Participating organizations: Graduate Nurses' Association of the District of Columbia. American Nurses' Association. National League of Nursing Education. National Organization for Public Health Nursing. American Red Cross Nursing Service.

Tuesday, April 24, 1934:

9.15 a. m., Joint Session. Presiding: Effie J. Taylor, R. N., president, National League of Nursing Education.

Subjects: What Does the Public Expect from Nursing? Mrs. Franklin D. Roosevelt. What Can the Public Do to Insure Good Nursing Service? C. Rufus Rorem, associate for Medical Service, Julius Rosenwald Fund, Chicago.

11.15 a. m., Joint Session. Presiding: Miss Sophie C. Nelson, R. N., president, N. O. P. H. N.

Subjects: New Developments in Public Health, Hugh S. Cumming, M. D., surgeon-general, United States Public Health Service, Washington, D. C. New Developments in Social Work, Joanna C. Colcord, director, Charity Organization Department, Russell Sage Foundation. New York, N. Y.

4.15 p. m., Joint Session. Presiding: Mary Ella Chayer, R. N., chairman, School Nursing Section, N. O. P. H. N., and instructor in Nursing Education, Teachers College, Columbia University, New York.

Subjects: The Survey of Public Health Nursing—Administrative and Practice—as it Relates to the School Nurse, Hortense Hilbert, R. N., formerly Director of Survey, N. O. P. H. N. Discussion by Pearl McIver, R. N., Helen F. McCaffrey, R. N., and Marie Swanson, R. N.

Wednesday, April 25, 1934:

11.15 a. m., Joint Session. Presiding: Sophie C. Nelson, R. N.

Subjects: Personnel Policies for Official Agencies, Robert T. Lansdale, field representative, Federal Emergency Relief Administration, Washington, D. C. Challenges of the Future, C. E. A. Winslow, Dr. P. H., professor of Public Health, Yale University School of Medicine, New Haven, Conn.

1 p. m., luncheon, School Nursing Section. Presiding: Mary Ella Chayer, R. N.

Subject: Looking Forward with the School Nurse, Frederick A. Rogers, Director, Federal Bureau, Washington, D. C.

7 p. m., Dinner Meeting, State Organizations of Public Health Nursing.

Thursday, April 26, 1934:

9.25, Joint Session. Sophie C. Nelson, R. N., president, N. O. P. H. N., presiding.

Subjects: Health Aspects of Social Legislation, Hon. Royal S. Copeland, United States Senator, Washington, D. C. Legislation and the Future of Nursing, Adda Eldredge, R. N., Director, Bureau of Nursing Education, State Board of Health, Madison, Wis.

1 p. m., luncheon, Membership Rally N. O. P. H. N., Mary S. Gardner, R. N., presiding.

2.30 p. m., Joint Session. Mrs. Anne L. Hansen, R. N., Director, Visiting Nursing Association, Buffalo, N. Y., presiding.

Subjects: Acute Communicable Disease Control, Clifford E. Walker, M. D., Assistant Surgeon-General, United States Public Health Service, Washington, D. C. Is the Public Health Nurse Behavior Conscious? Esther Loring Richards, M. D., associate professor of psychiatry, John Hopkins University, Baltimore, Md.

Friday, April 27, 1934:

9.15 a. m., Joint Session. Presiding: Eva S. Waldron, R. N., director, Visiting Nurse Association, Springfield, Mass.

Subject: Open Forum on Current Problems in Public Health Nursing in Cities of 50,000 to 200,000.

11.15, Closing Session. American Organization for Public Health Nursing. Sophie C. Nelson, R. N., president, presiding.

Sincerely yours,

HELEN F. McCAFFREY,
Supervising Nurse.

PROCEEDINGS OF CITY COUNCIL.

Monday, April 30, 1934.

Regular meeting of the City Council held in the Council Chamber, City Hall, at 2 p. m., President DOWD in the chair. Absent, Coun. Gleason.

APPOINTMENTS OF WEIGHERS OF GOODS.

The following was received:

City of Boston,
Office of the Mayor, April 27, 1934.

To the City Council.

Gentlemen,—Subject to confirmation by your honorable body, I have this day appointed the following-named weighers of goods:

Edward E. Sheehy, 12 Playstead road, Dorchester; Jeremiah J. P. O'Sullivan, 111 West Sixth street, South Boston; Herbert P. Barton, 24 Ward street, Roxbury; Thomas R. Kelley, 372 Meridian street, East Boston.

Respectfully,
FREDERICK W. MANSFIELD, Mayor.

Laid over for one week under the law.

APPOINTMENT OF CONSTABLE JOHN A. O'BRIEN.

The following was received:

City of Boston,
Office of the Mayor, April 30, 1934.

To the City Council.

Gentlemen,—Subject to confirmation by your honorable body, I hereby appoint John J. O'Brien, 110 Elm street, Ward 2, constable of the City of Boston for the term of one year, beginning with the first day of May, 1934, without power to serve civil process and to serve without bond.

Respectfully,
FREDERICK W. MANSFIELD, Mayor.

Laid over a week under the law.

WITHDRAWAL AND APPOINTMENT OF CONSTABLES.

The following was received:

City of Boston,
Office of the Mayor, April 30, 1934.

To the City Council.

Gentlemen,—The following names are withdrawn from the list of constables submitted by me to your honorable body last week:

William J. Campbell, 19 Trull street, Ward 15; Pasquale delGrosso, 124 Bremen street, Ward 1; Joseph W. Ferris, 18 Westover street, Ward 20; William A. Kelley, 11 Bullard street, Ward 14; Joseph F. McDonald, 1057 Saratoga street, Ward 1; Arthur R. Merritt, 411 Saratoga street, Ward 1; Edward M. Richardson, 1706 Commonwealth avenue, Ward 21; Edward Sandler, 207 Woodrow avenue, Ward 14; Stephen J. Siney, 37 Woodcliff street, Ward 13; Thomas H. Staples, 224 South street, Ward 11.

With further reference to the said list submitted by me and for your information I beg to advise you that Edward J. Leary, Emory D. Morgan and Timothy F. Regan were appointed constables because they held other official positions which made it desirable for them to be constables as well, but they receive no compensation from the city as constables.

The four constables named for service with the Animal Rescue League and the Mass. S. P. C. T. A., and the two van drivers appointed by the court also serve without compensation from the city as constables.

I am informed by the Budget Commissioner that thirty-eight is the minimum number of constables actually required in all departments, as follows:

Building, 1; Collecting, 8; Fire, 1; Health, 2; Law, 8; Public Welfare, 1; Public Works, Paving, 1; Public Works, Sanitary, 7; Public Works, Sewer, 1; Registry, 1; Street Laying-Out, 6; Penal Institutions, 1.

The difference between the thirty-eight listed above and the forty-five contained in the list now before the Council for approval are to be assigned to the Collector's office, where for the remainder of this year there will be an intensive effort to collect taxes now due to the city and where, I think, they can do good service for the city.

I am also resubmitting the names of the following persons, who if confirmed as constables will be assigned to the Law Department:

Joseph Leo Duffley, 15 Spencer street, Dorchester; Sidney E. Sullivan, 7 Mt. Everett street, Dorchester; Archibald P. McNeil, 14 Blanche street, Dorchester; Clarence A. Nado, 41 Old Morton street, Dorchester.

This makes a total of forty-nine paid constables as against sixty last year.

If during the year it shall develop that the services of any of these constables are not needed they may be dropped.

Respectfully,
FREDERICK W. MANSFIELD, Mayor.

Laid over for one week under the law.

IMPROVEMENTS AT TENEAN BEACH.

The following were received:

City of Boston,
Office of the Mayor, April 28, 1934.

To the City Council.

Gentlemen,—I transmit herewith a letter from the Park Department, relative to your order of April 23, 1934, concerning the erection of a shelter at Tenean Beach, Dorchester.

Respectfully,
FREDERICK W. MANSFIELD, Mayor.

—

City of Boston,
Park Department, April 27, 1934.

Hon. Frederick W. Mansfield,
Mayor of Boston.

Dear Sir,—I am in receipt of an order from the City Council that the Park Commissioner be requested to erect a shelter at Tenean Beach, Dorchester.

I regret exceedingly to inform you that the Park Department has no funds available for this purpose.

Very respectfully yours,
WILLIAM P. LONG, Chairman.

—

City of Boston,
Office of the Mayor, April 28, 1934.

To the City Council.

Gentlemen,—I transmit herewith a letter from the Park Department, relative to your order of April 23, 1934, concerning the laying of a cement walk to replace the present board walk at Tenean Beach, Dorchester.

Respectfully,
FREDERICK W. MANSFIELD, Mayor.

—

City of Boston,
Park Department, April 27, 1934.

Hon. Frederick W. Mansfield,
Mayor of Boston.

Dear Sir,—I am in receipt of an order from the City Council that the Park Commissioner be requested to lay a cement walk to replace the present board walk at Tenean Beach, Dorchester.

I regret exceedingly to inform you that the Park Department has no funds available for this purpose. I will be very pleased to repair the present board walk and put it in proper condition for the summer bathing season.

Very respectfully yours,
WILLIAM P. LONG, Chairman.

—

City of Boston,
Office of the Mayor, April 28, 1934.

To the City Council.

Gentlemen,—I transmit herewith a letter from the Park Department, relative to your order of April 23, 1934, concerning the installation of drinking fountains at Tenean Beach, Dorchester.

Respectfully,
FREDERICK W. MANSFIELD, Mayor.

—

City of Boston,
Park Department, April 27, 1934.

Hon. Frederick W. Mansfield,
Mayor of Boston.

Dear Sir,—I am in receipt of an order from the City Council that the Park Commissioner be requested to install drinking fountains at Tenean Beach, Dorchester.

There are two drinking fountains at Tenean Beach at the present time. If it is possible to install another drinking fountain at no expense, outside of our regular maintenance, it will be a pleasure to do so.

Very respectfully yours,
WILLIAM P. LONG, Chairman.

Severally placed on file.

RECREATION PIER, EAST BOSTON.

The following was received:

City of Boston,
Office of the Mayor, April 28, 1934.

To the City Council.

Gentlemen—I transmit herewith a letter from the Commisioner of Public Works, relative to your order of April 23, 1934, concerning the building of a recreation pier at the site of the North Ferry slip in Ward 1, East Boston.

Respectfully,
FREDERICK W. MANSFIELD, Mayor.

City of Boston,
Public Works Department,
April 27, 1934.

To the Hon. Frederick W. Mansfield,
Mayor of Boston.

I return order of City Council dated April 23, 1934, reading:

"To arrange under the F. E. R. A. for the building of a recreation pier at the site of the North Ferry slip in Ward 1, East Boston,"—

and to state that the Public Works Department budget has no available money either to build a recreation pier or to maintain said recreation pier after its construction.

This type of project more properly should come under the jurisdiction of the Park Department as the Public Works Department maintains no piers or parks for recreation purposes.

Respectfully,
C. J. CARVEN,
Commissioner of Public Works.

Placed on file.

JOHN H. L. NOYES PLAYGROUND.

The following was received:

City of Boston,
Office of the Mayor, April 28, 1934.

To the City Council.

Gentlemen,—I transmit herewith a letter from the Park Department, relative to your order of April 23, 1934, concerning plans to enlarge the right field area of the John H. L. Noyes Playground in Ward 1, East Boston.

Respectfully,
FREDERICK W. MANSFIELD, Mayor.

—

City of Boston,
Park Department, April 27, 1934.

Hon. Frederick W. Mansfield,
Mayor of Boston.

Dear Sir,—I am in receipt of an order from the City Council that the Park Commissioner be requested to arrange under the F. E. R. A. plans to enlarge the right field area of the John H. L. Noyes Playground in Ward 1, East Boston.

One of the projects now in operation is the enlarging of this field. When the E. R. A. goes into effect again, operations will be continued. The department will try to make a first-class playground of this area out of E. R. A. funds.

Very respectfully yours,
WILLIAM P. LONG, Chairman.

Placed on file.

LOCKER BUILDING, AMERICAN LEGION PARK.

The following was received:

City of Boston,
Office of the Mayor, April 28, 1934.

To the City Council.

Gentlemen,—I transmit herewith a letter from the Park Department, relative to your order of April 23, 1934, concerning the erection of a suitable locker building and shower facilities at American Legion Park, Ward 1, East Boston.

Respectfully,
FREDERICK W. MANSFIELD, Mayor.

—

City of Boston,
Park Department, April 27, 1934.

Hon. Frederick W. Mansfield,
Mayor of Boston.

Dear Sir,—I am in receipt of an order from the City Council that the Park Commissioner be requested to arrange under the F. E. R. A. for the erection of a suitable locker building and shower facilities at American Legion Park, Ward 1, East Boston.

A suitable playground building would cost approximately $25,000, of which at least $14,000 would be for material. Under the E. R. A. the government will not allow any money for materials.

The department has no money that can be utilized for this purpose. I regret exceedingly under the conditions that I cannot comply with the order of the City Council.

Very respectfully yours,
WILLIAM P. LONG, Chairman.

Placed on file.

POLICE DEPARTMENT COMMUNICATIONS SYSTEM.

The following was received:

City of Boston,
Office of the Mayor, April 30, 1934.

To the Honorable the City Council.

Gentlemen,—I have received from the Federal Emergency Administration of Public

Works, with letter of transmittal dated April 27, 1934, forms of grant agreement between the City of Boston and the United States of America relating to the project of Police Department communications system, P. W. A. Docket No. 8200, one copy of which I submit herewith.

I also submit herewith an order authorizing me to execute and deliver to the United States of America for and in behalf of the City of Boston three counter-parts of said grant agreement and approving said grant agreement.

I recommend prompt consideration and passage by your honorable body of this order, because of the limited time available for the execution and delivery of this agreement and because of the desirability of commencing work on this project without delay.

Respectfully,
FREDERICK W. MANSFIELD, Mayor.

—

Ordered, That the Mayor be, and he hereby is, authorized to execute and deliver to the United States of America for and in behalf of the City of Boston three counter-parts of the grant agreement between the City of Boston and the United States of America relating to the project of Police Department communications system, P. W. A. Docket No. 8200, and providing for the grant to the City of Boston by the United States of America of certain funds upon the terms and conditions in said grant agreement set forth, one copy of which grant agreement has been submitted to this meeting and is made a part of the minutes hereof, and that said grant agreement be, and the same hereby is, approved.

(Appended was the grant agreement referred to.)

Referred to Executive Committee.

APPOINTMENT OF EDWARD A. FAY.

The following was received:

City of Boston,
Office of the Mayor, April 30, 1934.

To the City Council.

Gentlemen,—Subject to confirmation by your honorable body, I have this day appointed Edward A. Fay, 38 Dunreath street, Roxbury, as a weigher of goods.

Respectfully,
FREDERICK W. MANSFIELD, Mayor.

Laid over a week under the law.

PETITIONS REFERRED.

The following petitions were received and referred to the committees named, viz.:

Claims.

John Alexander, for compensation for damage to property at 99 Falcon street, caused by break in water pipe.

Americo Baldassare, for compensation for injuries caused by an alleged defect at 6 Noyes place.

T. J. Edwards, for refund on refuse tickets.

John Glynn, for compensation for injuries caused by an alleged defect in Appleton street.

Jenny B. and Mrs. Asa A. Goddard, for compensation for injuries caused by an alleged defect at 44 Mt. Vernon street.

Clarence Day Horrigan, for compensation for damage to car by traffic sign.

Mary Littlefield, for compensation for injuries caused by an alleged defect in Parker street, Roxbury.

Charles B. McNulty, to be reimbursed for judgment issued against him on account of his acts as an employee of the city.

Cathreen Morgan, for compensation for damage to property by police car.

D. H. Pickering, for compensation for damage to car caused by an alleged defect in Carver street.

Theodore W. Robinson, for compensation for injuries caused by negligent operation of elevator in City Hall.

John J. Tierney, for compensation for injuries caused by an alleged defect in Washington street.

Mabel A. Walsh, for compensation for damage to property at 7 Cushing Hill road, caused by lowering of street.

Rose Freedman, for compensation for injuries caused by snow and ice at 82 Ellington street.

Frank A. Durgin, for compensation for injuries caused by defective shoe machine at Deer Island.

Executive.

Petitions for children under fifteen years of age to appear at places of public amusement, viz.:

Benjamin H. Russell, Jordan Hall, April 29.

Gertrude Westling, Repertory Theatre, May 21.

Gertrude Goodman, Repertory Theatre, May 22.

Dorothy M. Oliver, Fields Corner Theatre, May 3.

APPOINTMENT OF ELIOT WADSWORTH.

Notice was received from the Mayor of appointment of Eliot Wadsworth of 180 Marlborough street, as Sinking Funds Commissioner for term of three years beginning May 1, 1934.

Placed on file.

CONSTABLES' BONDS.

The bonds of the following-named constables, having been duly approved by the City Treasurer, were received, viz.:

William A. Amsie, Henry Atwood, Thomas F. Brett, Carl Birger Berg, George A. Borofski, Warren A. Brown, Thomas Cannizarro, Thomas C. Carr, William K. Coburn, Sydney Cohen, Samuel Coulter, John J. Daunt, Charles M. Daley, Walter A. Donlan, Stephen J. Dunleavy, Albert G. Gilbert, Louis Goldberg, Meyer Goldstein, Edmund C. Grady, Sears H. Grant, George W. Green, William C. Gregory, John F. Halligan, Joseph Herman, John H. Howard, Jacob Isgur, Max Jacobs, Charles C. Knibbs, Mark H. Krafsur, Albert A. Levine, Isie Martin, John T. McGovern, Harold C. Mitchell, Nathan Neitlich, Louis H. Oppenheim, William T. Rosengarten, Samuel Shain, Frank Shaw, Henry J. D. Small, Isaac Shulman, John Sualich, Jerome Suvalle, Benjamin J. Tackeff, David Tobey, Joseph M. Torr, Frederick J. Wright, John A. Wragg, Louis Yacker.

The question came on approval of the bonds.

Coun. AGNEW—Mr. President, there is one name that I heard read there upon which at the present time I object to the approval of the bond.

President DOWD—What is the name?

Coun. AGNEW—The name is Joseph Herman.

The bond of Joseph Herman was excepted, and all the others were approved.

DUMP PERMITS TO J. P. McCABE COMPANY.

Coun. FISH offered the following:

Ordered, That the Board of Health Commissioner be requested, through his Honor the Mayor, to revoke the dump permits issued to J. P. McCabe Company, at the following locations:

Hallet street, Ward 16, Tenean Beach, Ward 16.

Coun. FISH—Mr. President, I have received numerous complaints in regard to these two dumps from people in my ward. Therefore, I have introduced this order requesting the revocation of the dumps at Tenean Beach and Hallet street, Dorchester.

Passed under suspension of the rule.

REPAVING OF WARD 10 STREETS.

Coun. DOHERTY offered the following:

Ordered, That the Commissioner of Public Works be requested, through his Honor the Mayor, to repave with smooth pavement Priesing street, Ward 10.

—

Ordered, That the Commissioner of Public Works be requested, through his Honor the Mayor, to repave with smooth pavement Walden street, Ward 10.

Severally passed under suspension of the rule.

WARD 14 IMPROVEMENTS.

Coun. GOLDMAN offered the following:

Ordered, That the Board of Street Commissioners be requested, through his Honor the Mayor, to accept and lay out Harvard road, Ward 14, as a public highway.

—

Ordered, That the Commissioner of Public Works be requested, through his Honor the Mayor, to repave with smooth pavement Bradshaw street, Ward 14.

—

Ordered, That the Commissioner of Public Works be requested, through his Honor the Mayor, to repave with smooth pavement Woolson street, Ward 14.

—

Ordered, That the Commissioner of Public Works be requested, through his Honor the Mayor, to repave with smooth pavement Floyd street, Ward 14.

—

Ordered, That the Commissioner of Public Works make a sidewalk along Floyd street, from Blue Hill avenue to Lucerne street, Ward 14, in front of the estates bordering thereon; said sidewalk to be from 3 to 10 inches above the gutter adjoining, to be from 5 to 12 feet in width, and to be built of granolithic, with granite edgestones, under the provisions of chapter 196 of the Special Acts of 1917.

Ordered, That the Commissioner of Public Works make a sidewalk, in front of property at 23 Kingsdale street, Ward 14, in front of the estates bordering thereon; said sidewalk to be from 3 to 10 inches above the gutter adjoining, to be from 5 to 12 feet in width, and to be built of granolithic, with granite edgestones, under the provisions of chapter 196 of the Special Acts of 1917.

Severally passed under suspension of the rule.

WELFARE CASES IN WARD 1.

Coun. WILSON offered the following:

Ordered, That the Overseers of Public Welfare be instructed, through his Honor the Mayor, to advise the City Council forthwith with reference to the 2,935 active cases as of April 4, 1934, in Ward 1:

a. How many of said cases were aliens?

b. How many of said cases were registered voters in the City of Boston?

c. How many of said cases were last paid by check?

d. How many of said cases were last paid in cash?

—

Ordered, That the Overseers of Public Welfare be instructed, through his Honor the Mayor, to advise the City Council forthwith:

1. The number of visitors assigned to and actively doing work in Ward 1 during December, 1933, together with the name of each visitor.

2. The number of visitors assigned to and actively doing work in Ward 1 during April, 1934, together with the name of each visitor.

3. The number of visitors assigned to and actively doing work in Ward 1 as of April 1, 1934, together with the name of each visitor.

—

Ordered, That the Overseers of Public Welfare be instructed, through his Honor the Mayor, to obtain from every recipient of aid in Ward 1, not later than May 10, 1934,

1. The signature of the recipient.

2. The present residence address of the recipient.

—

Ordered, That the Overseers of Public Welfare be instructed, through his Honor the Mayor, to advise the City Council forthwith as to what most recent date all cases still active on the Public Welfare lists as of April 1, 1934, in Ward 1, have been personally visited or otherwise checked up by any visitor of the Public Welfare Department.

Coun. SELVITELLA—Mr. President, I would like to hear more on those orders from my good friend from Ward 17—why he has singled out Ward 1?

Coun. WILSON—Mr. President, I am going to talk on some other orders there later, with regard to Public Welfare. As will probably be explained by the chairman of the Special Committee on Public Welfare, popular opinion perhaps to the contrary, the committee have not been in a state of coma, but have been having hearings. It seems entirely proper, in starting in with a list of wards of the city, that we should begin with Ward 1. This order looks to the furnishing of further information to the Special Committee on Investigation of the Public Welfare Department, commencing with Ward 1.

The orders were passed under suspension of the rule.

INFORMATION FROM PUBLIC WELFARE DEPARTMENT.

Coun. WILSON offered the following:

Ordered, That the Trustees of the Boston City Hospital be instructed, through his Honor the Mayor, to advise the City Council forthwith:

1. The total number of non-residents of Boston who were patients at the Boston City Hospital during

a. 1934. b. 1933. c. 1932. d. 1931. e. 1930.

2. The total number of the above non-residents for care of whom at the Boston City Hospital, in the year stated, the City of Boston has been reimbursed by the proper city or town of settlement.

3. The total amount recovered for each year.

—

Ordered, That the Overseers of Public Welfare be instructed, through his Honor the Mayor, to advise the City Council forthwith:

1. The number of recipients of aid from that department still receiving aid as of April 1, 1934, who have not been residents of Boston for five consecutive years prior thereto.

2. Exactly what efforts, if any, have been made by the Public Welfare Department to have the proper city or town of settlement

reimburse the City of Boston for any and all payments made to such recipients during the past five years.

3. What amount, if any, was collected during 1933 from other cities and towns to reimburse the City of Boston for aid given.

4. What amount, if any, the City of Boston paid during 1933 to reimburse other cities and towns for welfare aid.

Passed under suspension of the rule.

SALE OF CONVALESCENT HOSPITAL PROPERTY.

Coun. WILSON offered the following:

Ordered, That the Trustees of the Boston City Hospital, through his Honor the Mayor, be requested to provide for an early sale of the so-called Convalescent Hospital property on Dorchester avenue, consisting of over 600,000 square feet of land and no longer in use by the city.

Passed under suspension of the rule.

RESURFACING OF NIXON STREET.

Coun. WILSON offered the following:

Ordered, That the Public Works Department, through his Honor the Mayor, be requested to resurface Nixon street.

Passed under suspension of the rule.

SURVEY OF CITY-OWNED LAND.

Coun. WILSON offered the following:

Ordered, That his Honor the Mayor be, and he hereby is, requested to have a survey made of all city-owned land and buildings not now occupied and used by any city department with a view to a possible sale of the same.

Passed under suspension of the rule.

LUCY STONE SCHOOL.

Coun. WILSON offered the following:

Ordered, That the School Committee of the City of Boston, through his Honor the Mayor, be respectfully requested to comply at an early date with the urgent need for permanent additional quarters properly to house pupils at the Lucy Stone School in Dorchester.

Coun. WILSON—Mr. President, on that particular order I would ask that there be printed in the minutes the form of petition presented to the Boston School Committee, and also the letter from Miss Cronin of the School Committee with regard to the present attitude of the School Board. I would like the whole matter set forth as a matter of record, having in mind that, when it is now proposed to build the high schools in West Roxbury and South Boston, as well as in other sections, it is unfortunate that a school for the younger children, like the Lucy Stone School, should be crowded as it is in the present building. Certainly, there should be something approaching proper housing there.

(Appended are the petition and letter referred to.)

The School Committee of the City of Boston.

Gentlemen,—The Lucy Stone School, which is one of the five "special class centers" in the Boston school district and which is located on Regina road, Dorchester, in the John Marshall District, is in urgent need of permanent additional quarters properly to house even its present pupils.

Out of the present school membership of 150 there are 64 of these backward children housed in old portables; the remaining 86 are seated daily in classrooms so small as to necessitate the inadvisable close contact of double desk arrangements, with narrow aisles, inadequate space for necessary equipment and furniture and a complete elimination from the school program of those physical training exercises and other activities so necessary for all growing children but especially those already handicapped in other respects.

Numerous pupils enrolled in the special classes, although now eligible because of age and achievement for promotion to other schools, have been refused advancement because of overcrowding and are thereby frequently obliged to remain with much younger children in special classes to the detriment of both.

The land on which a new and adequate building should be erected adjacent to the present school is already available as a result of purchase made by the city several years ago for the very purpose; therefore unless backward children, due to inadequate school facilities, are in effect to be educationally abandoned at the age of twelve, the undersigned urge the prompt erection of a reasonably adequate school building on said land already provided for the purpose on Regina road.

City Councilor Robert Gardiner Wilson, Jr., and others.

—

City of Boston,
School Committee, April 26, 1934.

Mr. Robert Gardiner Wilson, Jr.,
57 Codman Hill Avenue, Dorchester.

Dear Sir,—The School Committee in conference on Monday evening of this week received your petition for the erection of a new building to house the special class center now located in the Lucy Stone School on vacant land owned by the city on Regina road.

The School Committee has directed me to say that the committee appreciates the need for a larger and more suitable building for this center and had hoped to be able to transfer the center to the Henry L. Pierce School building upon the opening of the Jeremiah E. Burke High School. The committee now finds, however, that it will be necessary for another year to continue to use the Henry L. Pierce building as an annex to the Dorchester High School. By September, 1935, it is hoped that the building may be released by the Dorchester High School.

Under the circumstances it seems to the committee inadvisable to consider the erection of a new building for the special class center, particularly in view of the fact that there will be but a very small sum available for construction of school buildings this year.

The committee assures you that the need of more suitable accommodations for the Lucy Stone Center will be kept in mind by the committee, and the committee thanks you for bringing the matter to its attention at this time.

Very truly yours,
ELLEN M. CRONIN, Secretary.

The order was passed under suspension of the rule.

COMMUNISM AMONG SCHOOL CHILDREN.

Coun. WILSON offered the following:

Ordered, That the Board of Street Commissioners be requested, through his Honor the Mayor, to withdraw permit for May Day parade under the auspices of the United Front May Day Conference, unless assured that no children of grammar or high school age are to participate.

—

Ordered, That the Boston School Committee, through his Honor the Mayor, be requested to fully investigate in order to determine to what extent the recent strikes and other conduct by students in the Boston schools have been caused or instigated by the activities of communistic organizations, and further to take proper action to eliminate the spreading of radical propaganda in the schools of Boston.

Coun. WILSON—Mr. President, I would ask for the passage of those orders at this time, because those who have followed for six or eight years what has been going on among the school children of Boston say that the recent instances of lawlessness we have seen in our schools are no sudden outbreak of these communistic activities, but that at present, and for some time, there have been efforts exerted by the National Students League, of 114 East Fourteenth street, New York City, to organize radical student movements among the school children of our nation, and that there are continuous efforts of the organization to spread radical propaganda in the schools of Boston, as in other parts of the country. The events of the past few months represent no spasmodic or isolated outburst, for I remember as long ago as March, 1927, when an order was passed by this body to stop the communistic circularizing of the Boston schools by the so-called "Young Pioneers," who were particularly endeavoring to hold up to ridicule such patriotic organizations as the Boy Scouts and Girl Scouts of America. There is also this paper called "The Young Comrade," or some such name, which has been widely distributed. I am well aware of the fact that the Superintendent of Schools has sent out orders forbidding school children to absent themselves from classrooms tomorrow to participate in the May Day parade; but I am also advised that it is contemplated that the first two divisions of the parade to start tomorrow at 11 a. m. at Hanover and Prince streets, will be composed wholly or primarily of school children. I introduce the second order having in mind the order recently introduced in the Massachusetts Legislature, on March 31, demanding an investigation by the State Commissioner of Education. While no doubt that was a praiseworthy effort, I feel that any such housecleaning in Boston should be done not by the state but by our own Boston school authorities.

The order was passed under suspension of the rule.

OPINION OF CORPORATION COUNSEL IN RE SMALLPOX HOSPITAL.

Coun. McGRATH offered the following:

Ordered, That the Corporation Counsel be requested to furnish the City Council with an opinion as to whether or not his Honor the Mayor has the authority to abandon the smallpox hospital, so called, on Southampton street or to transfer the care and control of said hospital from the Health Department to the Hospital Department without the consent of the City Council, in view of the provisions of chapter III, section 92, of the General Laws, and chapter 16, section 3, of the Revised Ordinances of 1926.

Passed under suspension of the rule.

INFORMATION FROM HEALTH COMMISSIONER IN RE SMALLPOX.

Coun. McGRATH offered the following:

Ordered, That the Health Commissioner be requested by his Honor the Mayor to advise the City Council as to what facilities his department now has for handling any case of smallpox or leprosy that may come to the notice of that department.

Passed under suspension of the rule.

CHECK-UP OF ELEVATED FINANCES.

Coun. McGRATH offered the following:

Ordered, That his Honor the Mayor be requested to give immediate attention to the order recently introduced in the Council for a check-up of the Boston Elevated finances by the Metropolitan Transit Council.

Coun. McGRATH—Mr. President, in connection with that last order I would like to file a copy of the last letter I received from Mr. Swan, the public accountant, in regard to this matter. I understand that a copy was sent to every member of the Council.

The letter referred to was as follows:

James T. Swan Co.,
Certified Public Accountants,
68 Devonshire Street,
Boston, April 28, 1934.

To the President and Members, Boston City Council.

Gentlemen,—Referring to a vote passed by you on Monday, April 16, 1934, requesting his Honor the Mayor to call a meeting of the Metropolitan Transit Council to consider certain matters relating to the operating results of the Boston Elevated Railway which were brought to your attention, and which seriously affect the finances of the City of Boston, and having no information of any action yet taken we call your attention to the fact that the fiscal year of the Elevated Railway will close on June 30, 1934, and under the acts of 1918 and 1931 the treasurer and receiver general of the Commonwealth is obligated to thereupon pay over to the company the amount of any deficit reported by the Public Trustees for the fiscal year. You can therefore realize that any further delay by the Mayor will jeopardize any possible chance to effect a large saving in the proportion of the deficit to be borne later by the City of Boston, that proportion being approximately 65 per cent.

It will be remembered that at the meeting of April 16, 1934, among other items, the annual charge now made for depreciation was called to your attention and from the annual report of the company filed with the Department of Public Utilities it appears that from January 1, 1918, to December 31, 1933, there has been charged to cost of operation for depreciation more than $38,000,000 and if an amount equal to the average for the last five years is charged annually during the balance of the term of public control this total will be increased to more than $104,000,000, or approximately four times the total amount of the capital stock outstanding on December 31, 1933. Had the Public Trustees, when they took over the public operation of the company, continued the rate of depreciation then being charged to cost of operation by the directors of the Elevated the total charge for this account covering the entire period of public control would have amounted to only about $16,000,000 instead of $104,000,000, a difference of $86,000,000, the proportion of which is borne by the City of Boston being about $64,000,000, which is far in excess of the entire city budget for a full year.

Respectfully submitted,
JAMES T. SWAN,
C. P. A.

The order was passed under suspension of the rule.

REOPENING OF CONVALESCENT HOSPITAL.

Coun. FISH offered the following:

Ordered, That the Board of Trustees of the

Boston City Hospital reopen the Convalescent Hospital located on Dorchester avenue.

Passed under suspension of the rule.

RECREATION PIER, WARD 1.

Coun. SELVITELLA offered the following:

Ordered, That the Park Commissioner be requested, through his Honor the Mayor, to arrange under the F. E. R. A. for the building of a recreation pier at the site of the North Ferry slip in Ward 1, East Boston.

Coun. Selvitella was given unanimous consent to file the following with the order:

The purpose of the proposed project is for the extension of project which is now known as 6187-34 in order to have the proper amount of space non-encumbered by objectionable buildings now on the location adjacent to the area of the original project. A further purpose is to be noted here that in carrying on the extension of this project it will allow employment of over two hundred men, 60 per cent of whom can be drawn from the immediate area around the location described. In accepting the proposed extension of this original project it will give to this locality a very much needed structure.

The new plans and specifications together with the new application for this extension of the original Project 2005 contains in detail proper apparatus for children and improvements toward health in general. It also includes other apparatus for grown-ups to enjoy and receive very noticeable benefits from. Furthermore it has been suggested in the plans and specifications that the North Ferry office building which is now idle and nonproductive as to income to the city be turned into a concession building from which a revenue can be received from two sources, namely, from refreshments to be sold there and a miniature municipal bath containing showers from which a revenue may also be obtained. In razing the buildings, as shown on the plans, there will be furnished to the Welfare Department for distribution approximately one hundred and sixty cords of fine quality firewood, this being a very conservative estimate and will save the Welfare Department of the City of Boston a considerable amount of money.

There will be no real change in the procedure of the work to be carried on in the new proposal as it is the same sort of work except that the original idea is much smaller and less desirable than the one now suggested. In order to carry on the procedure of the new proposed project it will simply necessitate larger crews of workmen and a small expenditure of money by the City of Boston.

There will be produced on this project by labor paid for by the United States Government as stated above 160 big cords of fine quality firewood coming from the structures to be torn down. This will amount to approximately $2,000 in value and saving which will directly benefit the Welfare Department. From the welfare lists according to the E. R. A. code of employment, there can be furnished an amount of labor which will total up to $36,000 in money. This also can be deducted from the welfare expenses of the City of Boston. However, taking into consideration the cost to the City of Boston in money this cannot be compared to the contentment and ease and benefits that will be derived from such an extended structure in this locality, in which this project appears. It is a project believed by many to have been long sought for as well as badly needed and will assist greatly toward the health and contentment of East Boston. While the government is willing to expend approximately $58,000 it would seem that the City of Boston according to the savings shown in the above paragraph should be willing to expend the sum asked for in the application, including material and tools that are necessary, which sum amounts to approximately $6,000. Detailed plans and specifications of this proposed area have been completed and the cost and estimates for this job have been carefully figured, and it is the opinion of the writer that these figures are correct.

The order was passed under suspension of the rule.

BROADCASTING OF BASEBALL GAMES.

Coun. NORTON offered the following:

Ordered, That the Commissioner of Parks, through his Honor the Mayor, be requested to consider the advisability of broadcasting baseball games from the Parkman Bandstand, Boston Common.

Coun. NORTON—Mr. President, on Boston Common we have a broadcasting outfit, which I think may well be used to broadcast baseball games.

The order was passed under suspension of the rule.

POLICY IN MUNICIPAL EXPENSES.

Coun. NORTON offered the following:

Ordered, That the Mayor of Boston be requested to consider the advisability of adopting a broad, general policy of reducing municipal expenses.

Coun. NORTON—Mr. President, I have introduced an order here calling upon his Honor the Mayor of Boston to formulate a broad and general policy as to what his procedure will be in reducing the general expenses of the City of Boston. I claim that up to today he has been drifting, not planning, pecking and not surveying. The cost of government in Boston for the year 1933 was $58,919,410.64, considerably more than the cost for the city of Detroit, which, for the year ended June 30, 1933—a city with approximately twice the population of Boston—operated its city government for approximately $51,000,000. In other words, we have here taxes double what they would be, practically, in any other American city, based on population. The latest available comparative figures of the United States Bureau of the Census show that the cost of operating and maintaining the general departments of Boston's municipal government, during the year 1932 amounted to $81.19 for every man woman and child in Boston. In Detroit this charge amounted to $42.51. Philadelphia, $40.66. Pittsburgh, $51.63. Cleveland, $44.68. Baltimore, $42.72. New York City, $67.77. From these figures it would appear that the people of Boston pay almost twice as much for their city government as do the people in many other large American cities. Comparisons are in many ways unfair, but the fact that the cost of operating Boston's city government is so much greater than the cost of operating any other large American municipality, that these figures should at least create a presumption that our costs are too high. Perhaps high taxation is one reason why Boston has been steadily going down as a business center and has not been increasing as it should in population. A small home, located in Boston, pays higher taxes than it would in any other large American city of half a million or more in population. Perhaps this is one of the reasons why Boston has the smallest percentage of home owners of any large American city. High taxes also mean high rents. The time is now opportune for Boston's Mayor to vigorously look into the matter of adopting a broad general policy of retrenchment to reduce Boston's tax burden. The editor of one of the great Boston newspapers claims that it costs $3 a week more to live in Boston than to live in the adjacent town of Brookline. I am asking the Mayor of Boston in this order to stop drifting and to formulate a general policy, to send it to this Council, and in that way let it be known to the public. Let us not have merely a continuance of what has been going on, the Mayor announcing a policy today and changing it tomorrow.

The order was passed under suspension of the rule.

CLEAN-UP CAMPAIGN.

Coun. BRACKMAN offered the following:

Ordered, That his Honor the Mayor be requested to appoint a Temporary Committee, consisting of the Public Works Commissioner, Fire Commissioner, Health and Building Commissioners, to take charge of a so-called "Clean-up Campaign" in Boston, giving proper publicity to same.

Coun. BRACKMAN—Mr. President, this is the time of year when we notice the filth and litter around in the residential sections. I think if the Mayor will appoint this committee, including these heads of departments, it would probably help to popularize the clean-up campaign in Boston, seeing that the people clean up rubbish and filth in their back yards and around their homes, thereby improving conditions here in Boston a lot. I hope the order will pass.

The order was passed under suspension of the rule.

GARAGING OF CITY MOTOR VEHICLES.

Coun. BRACKMAN offered the following:

Ordered, That the Commissioner of Public Works be requested, through his Honor the Mayor, to submit to the City Council a report as to the amount of money now paid, each month, by the City of Boston for motor vehicles storaged in garages not owned by the City of Boston, and the names and addresses of said garages, together with the number of motor vehicles stored in each garage.

Passed under suspension of the rule.

RECESS.

The Council voted at 2.47 p. m., on motion of Coun. FINLEY, to take a recess subject to the call of the Chair. The members reassembled in the Council Chamber at 4.27 p. m. and were called to order by President DOWD.

LOAN FOR NORTHERN AVENUE BRIDGE.

Coun. DONOVAN called up, under unfinished business, No. 4 on the calendar, viz.:

4. Ordered, That under the provisions of chapter 366 of the Acts of 1933, and acts in amendment thereof or in addition thereto, the sum of $375,000 be, and hereby is, appropriated, to be expended under the direction of the Commissioner of Public Works, for Reconstruction and Repair of Northern Avenue Bridge, and that to meet said appropriation the City Treasurer be authorized to issue, from time to time, upon request of the Mayor, bonds or certificates of indebtedness of the city to said amount.

On April 16, 1934, the foregoing order was read once and passed, yeas 18, nays 0.

The order was given its second and final reading and passage, yeas 16, nays 5:

Yeas—Coun. Agnew, Brackman, Doherty, Donovan, Dowd, Finley, Fitzgerald, Gallagher, Goldman, Green, Kerrigan, Norton, Roberts, Selvitella, Shattuck, Tobin—16.

Nays—Coun. Englert, Fish, McGrath, Murray, Wilson—5.

EXECUTIVE COMMITTEE REPORT.

Coun. WILSON, for the Executive Committee, submitted the following:

1. Report on petitions (referred today) for children under fifteen years of age to appear at places of public amusement, viz.:

Benjamin H. Russell, Jordan Hall, April 29; Gertrude Westling, Repertory Theatre, May 21; Gertrude Goodman, Repertory Theatre, May 22; Dorothy M. Oliver, Fields Corner Theatre, May 3—recommending that leave be granted on usual conditions.

Report accepted; leave granted on the usual conditions.

SALE OF OLD POLICE STATION 12.

Coun. KERRIGAN called up, under unfinished business, No. 5 on the calendar, viz.:

5. Ordered, That the Superintendent of Public Buildings be hereby authorized to sell, at a duly advertised public auction, the property on East Fourth street, near K street, South Boston, formerly occupied for Police Station 12, at an upset price of $5,000.

On April 16, 1934, the foregoing order was read once and passed, yeas 16, nays 0.

The order was given its second and final reading and passage, yeas 21, nays 0.

REPORT OF COMMITTEE ON PUBLIC WELFARE.

Coun. McGRATH, for the Committee on Public Welfare, submitted the following:

The Special Committee on Public Welfare, in filing a partial report, wish to emphasize the value of a complete re-check of every recipient of dependent aid, whether classified as unemployed or regular dependent aid recipient, to be made not later than May 25, 1934, the method of this complete re-check to be determined by the Public Welfare Department, but in every instance, whether by visit to the Welfare office or by a personal visit to the home of the welfare recipient, together with the address as of the exact date that the contact is made.

The report was accepted.

REPORT ON CONSTABLES.

Coun. GOLDMAN, for the Committee on Constables, submitted the following:

Report of the second meeting of the Constables' Committee with respect to the constables appointed for the term of one year, beginning May 1, 1934, authorized to serve civil process upon filing of bonds. In other words, the constables who work for themselves and not as employees of the City of Boston.

The committee unanimously reports that the following eighteen ought to be confirmed:

Charles B. Broad, Joseph Caviello, Emory Douglass, Maurice J. Glick, Jacob Goldberg, St. Clair E. Hale, William R. Kenney, Thomas H. King, Louis Levine, Leslie P. Mann, John B. Howack, Emil Ober, Phillip S. Phillips, Leonard M. Pike, Walter E. Bogan, Albert H. Sacks, Aber Uckerman, Roman J. Vasil.

So far this body has confirmed 104 at its meeting of April 23, 1934, and the eighteen asked for by the within committee report makes a total of 122.

By way of a committee report your chairman desires to report that his Honor the

Mayor submitted under date of April 16, 1934, 156 names as constables to serve civil process upon filing bonds, of which I have already explained that 104 were confirmed at the meeting of April 23, 1934, and 18 requested today. Four of the appointed constables have withdrawn, requesting that they shall not be confirmed as they do not desire to be constables. Two are being held by the committee for further investigation, one a group of complaints filed against and awaiting committee action and twenty-six have failed to appear before the committee. This indicates exactly what happened to the 156 submitted by the Mayor on April 16, 1934.

Further hearings will be had at a later date. I now ask that these constables be confirmed.

The report was accepted and the question came on confirmation.

Coun. ROBERTS—Mr. President, I voted with the committee, of course, on these particular appointments. I now simply wish to raise the question why many constables' names have not been sent to the body, men who for many years have been constables of the city. I don't know whether it is because of political reasons, or what the reasons are, because no explanation was given to our committee. But I have in mind particularly two constables, one in my ward, a brother of a captain of Cambridge police. This information has never been brought before the committee or before the Council as a whole, and I now feel obliged to make a public record of that fact.

The question came on confirmation. Committee, Coun. Donovan and Agnew. Whole number of ballots 21; yeas 21, and the appointments were confirmed.

President DOWD—A further report of the Committee on Constables.

Coun. GOLDMAN—Mr. President, with reference to the constables appointed by his Honor the Mayor on April 23, in what is commonly referred to as Document 55, constables connected with official positions, I will first report that nine of those are connected with some department of the city and will not receive any pay as constables, as such. They are constables whose respective duties require their being constables in connection with their regular appointment as city officials. The names are as follows:

City Messenger Edward J. Leary, Emory D. Morgan, Timothy F. Regan, connected with the Animal Rescue League, William E. Brigham, Frederick O. Houghton and Archibald D. McDonald, with the Massachusetts Society for the Prevention of Cruelty to Animals, Harry L. Allen, van drivers, appointed by the court, Patrick A. Gargan and Charles M. Shea. I will ask that these constables be confirmed now.

The report was accepted and the question came on the confirmation of the above nine appointments. Committee, Coun. Gallagher and Selvitella. Whole number of ballots 20; yeas 16, nays 4, and the appointments were confirmed.

Coun. GOLDMAN—Mr. President, for the Committee on Constables, I will now report on the constables connected with official positions, those who will be paid by the city of Boston as constables. Your committee, by a majority vote, recommend that the remaining names in Document 55, except Hyman Slate, and those withdrawn or already confirmed, be approved.

The report was accepted.

Coun. McGRATH—Mr. President, I would offer an amendment, that the names that I have checked be confirmed.

Coun. McGrath's amendment included the following-named constables:

Kenneth W. Blennerhassett, George J. Brackman, Frank Broderick, William W. Brooks, James D. Collins, Barney C. DeLuca, Charles E. Dowd, James J. Garvey, John L. Gleason, Max Goldfarb, Gabriel Grappocio, James V. Hartrey, Harry A. Higgins, William P. Kelley, Robert F. Leahy, John J. Linehan, Charles H. McCue, Joseph M. McKenna, Lewis J. Polak, Peter E. Rasnick, William J. Ryan, Leovy Sussman.

The question came on the acceptance of Coun. McGrath's amendment.

Coun. McGRATH—Mr. President, I would simply say this, that these are men who have been holding over from last year and have proved to be faithful employees of the city, together with other men who have, to my mind, been sufficiently recommended to be known as qualified men to serve the City of Boston.

Coun. ROBERTS—Mr. President, at this time I would like to amend Councilor McGrath's motion, so that we may vote separately on the names of Barney C. DeLuca, Charles E. Dowd, Max Goldfarb, Gabriel Grappocio, James V. Hartrey, John J. Linehan and Charles H. McCue. With regard to these seven men, may I say that they are now in the employ of the City of Boston, and are coming before this body for reappointment. In the majority of instances, these men have served the city during one or two administrations and are now working in their particular positions, and in my opinion they should be immediately confirmed by the body.

Coun. NORTON—Mr. President, I am now going to vote for confirmation of these constables who are now holding official positions in the City of Boston. They have unquestionably been performing their duties in a satisfactory manner, should be confirmed, and I am going to vote for them. I am going to vote against all other constables, however. I certainly think it would be wrong at this time, when we have been handing notices to city employees that, in the interest of economy, their services must be dispensed with, to put on our list more constables than are necessary. I have stood on this floor for years and attempted to head off the inevitable. It is a most sorrowful and terrible thing to turn out into the street hundreds of faithful city employees. If these constables were necessary, I would vote for them, but the constables are not necessary. Here is what the Boston Finance Commission said in its report dated April 30, 1928:

"Included in the amended budget for the current year are nine new positions for constables."

Bear in mind that when this report was written, in 1928, we had but fourteen constables according to the report I have here. The colleague tells me that the number was twenty-five. We still have double the number that we had when this report was written. The Finance Commission said:

"Included in the amended budget for the current year are nine new positions for constables: Four in the Collecting Department, three in the Street Laying-Out Department, and two in the Sanitary Division of the Public Works Department. Allowance for these constables did not appear in the budget sheets sent to the Finance Commisison but was inserted later. They are unnecessary positions, created for political purposes and for the purpose of avoiding civil service regulations, as these positions are not within the classified service and consequently do not require civil service certification. In the Street Laying-Out Department the appointment of additional constables is scandalous, as the present force have no definite work to do and are free lances, parading the city, ostensibly looking for signs maintained in violation of law, but in reality doing no effective work and making no detailed reports."

Now if that was so when the city did not have half the constables it now has, what is the situation today when we are asked to load all these men on the pay rolls? If these were ordinary times, Mr. President, there might be some excuse, but here is the expert report recommending that, on account of the condition of the city finances, we let the nurses go,—nurses who have been working in the sore spot areas of Boston for ten, fifteen or twenty years. Here is the report of the expert commission stating that we cannot have nurses enough today on account of having no money, and that they can see no alternative in the present emergency but to cut the personnel.

There are names on this list from my ward, personal friends of mine, people who have helped me, but I have no right to come in and ask that they be loaded on to the city pay roll at this time when we are discharging people who have worked for the city faithfully for twenty, twenty-five and thirty years. Here is a chance to practice economy. Nobody will be hurt if men are not appointed to these unnecessary positions. A very able writer in one of our great Boston newspapers said yesterday:

"To expect our politicians to reduce taxes is out of the question. But in time, and in a short time, too, this heavy taxation program will collapse of its own weight. We will see a wholesale repudiation of city, county and state debts. We will see payless weeks for city and town employees a general thing all over the country. We will see home owners confess their inability to pay up back taxes. We will see the whole structure of city and town finance disrupted. We have now reached the point where the taxing power is actually used for the purpose of destruction. Any property owner knows that increasing taxation each year will finally rob him of his property."

Certainly those who have an interest in the welfare of our city employees, 20,000 or more, now worrying about their jobs, must have an interest in the question of whether the city will collect enough taxes to meet the pay roll. We started out to collect $58,919,000 in 1933, on September 15, and up to date we have not collected $46,000,000, while our pay roll of last year was over $38,000,000. You don't have to be a graduate of a grammar school to understand what that means. As the brilliant editor of a Boston newspaper—and a conservative editor—said yesterday, the crisis is here; we are in the midst of a terrible cataclysm, the most terrible thing that ever faced our city, with 150,000 men, women and children asking for food, charity, and God only knowing where the money is coming from to feed them. And still we come into this Council Chamber this afternoon and vote to load the tax roll with over $70,000 for unnecessary positions that are to be given to men not because they are worthy, not because the positions are needed, but because through the accident of political faith they have been cast into the cauldron of success in the last mayoralty campaign. Therefore, to pay political debts, to help political friends to get on the municipal pay roll, we are doing this sort of thing, in spite of the fact that within a year, if we do not watch out, we will have payless pay days. We are loading them on to a city that cannot collect $50,000,000 a year, and still it is proposed to put on to our pay roll these unnecessary constables, to the tune of $70,000. I am opposing all constables, for the same reason that since I have come into the body I have opposed all unnecessary expenditures. I want to see no worthy city employee fired, and I don't want to take action that will accelerate the day when they will be allowed to go because we cannot meet our pay roll.

Coun. GREEN—Mr. President, if agreeable to the gentleman from Ward 4 (Coun. Roberts) I would like to take one ballot on these seven names.

Coun. GOLDMAN—Mr. President, I want to say a word about both amendments. I am opposed to both. There is no need of segregating the list under any set of circumstances. I understand that my colleague from Ward 18 (Coun. Norton) will vote in favor of these names, because these men were here in the past. He forgets to tell you, however, that from time immemorial the fruits of a political campaign have been in patronage. He forgets to tell you that in every single year constables have been appointed again, and if he looks at his own record he will find that he has really voted for constables in the last four years before Mayor Mansfield was elected. Before bringing the names of these constables before the body, each of them has been carefully investigated. They are all residents of Boston and they are all tabulated here. In a good many instances they are family men with five and six children. As the Mayor has pointed out in Document 55, by virtue of the law all these constables' terms expire on April 30 of each year and thereafter all such persons cease to be constables, their commissions expiring, if not acted upon. By refusing to confirm these constables we will virtually be doing what our colleague so much criticizes and deplores, and what other members have in the past been criticizing, firing city employees. When the question of firing second assistant assessors came up, we went as a committee with our President to the Mayor downstairs, and voiced our objection to the firing of faithful employees. Again, when the wire inspectors were discharged, and when several of our colleagues raised a turmoil concerning that, insisting that each of them, appointees under the ex-Mayor of Boston, be reinstated, we again protested. And now, because the Mayor wants to make some appointments here, they bring up the cry of poverty as far as the City of Boston is concerned. It seems to me in this case that the fault is not with the particular constables that the Mayor appointed, but with the fact that the Mayor himself appointed them, and I say it would not make any difference what the Mayor did you would find fault with him. When he felt that he was forced in the name of economy to cut down second assessors, you objected, on the question of similar action on wire inspectors you objected, and now he is making some appointments and you likewise object. In other words, it seems to me that we are becoming a fault-finding rather than a constructive body. In going over the list I find that the Mayor appointed seven from Ward 1, with one withdrawn, making six, one from Ward 2, five from Ward 3, one from Ward 4, three from Ward 5, four from Ward 6, two from Ward 7, one from Ward 8, two from Ward 9, two from Ward 10, none from Ward 11, four from Ward 12, four from Ward 13, one from Ward 14, two from Ward 15, one from Ward 16, one from Ward 17, one from Ward 18, two from Ward 19, three from Ward 20, one from Ward 21, and one from Ward 22. The Mayor has been very fair, geographically. We find also that about 54 per cent of them are married, and that about 85 per cent have dependents. In other words, instead of being merely a fault-finding body, I suggest that we stand with the Mayor in this matter, and that we vote down both of these amendments.

Coun. SHATTUCK—Mr. President, I shall vote for the amendment offered by the gentleman from Ward 4 (Coun. Roberts) which covers seven constables who are reappointments, but I shall vote for no more, and

if the question is not separated I shall vote against them all. In times past we have not had any need of such a large number of constables, in times when financial conditions were much easier with the city than they are at the present time. I have before me a table of the number of constables employed by the City of Boston from 1924 to date. I find that in 1924 there were 29, in 1925, 31, in 1926, 33, in 1927 they got along with 12, in 1928, 11, in 1929, 15. Then the number began to jump. In 1930 there were 39, in 1931, 45, in 1932, 53, and in 1933, 60. And I believe the number is now sixty-five, an even larger number, at a time when the city is in the least favorable position to meet the pay roll. If we need additional men to serve notices why not take them from the departments in which the work is done? For instance, the Collector's Department already has twenty-two or twenty-three deputy collectors; why not empower them as constables and let them do the work, instead of appointing these new men, and then perhaps turning around and discharging people from the collector's office because there are too many to do the work that remains? That certainly is not a logical thing to do. Far better is it to keep, so far as we can, the people who are now employed, to whom the city certainly owes a greater obligation than to those who are picked up without any prior employment or any prior experience. If these were persons of outstanding experience and if they were necessary, it might be one thing, but they are not persons of outstanding experience, and employees who might otherwise be discharged can do the work. Therefore, sir, I hope we shall adopt the first amendment and then vote against all the others.

Coun. ROBERTS—Mr. President, because it appears that the councilors are talking on both amendments, I would like to say just a word at this time. Several weeks ago there were numerous conferences in the Mayor's office with regard to the discharge of widowed ladies in the employ of the Assessing Department and later conferences, which you attended, Mr. President, with reference to the scrubwomen in the City Hospital; and I think we can recall very bitterly today just what the Mayor's answer was with regard to the position of those widowed women, that he said, "We cannot tell where the next dollar is to come from, cannot tell how soon the time will come when the Mayor and you members cannot be paid." I accuse the Mayor of being insincere with the employees and of being insincere with the taxpayers. In every radio address he has told the public that he must be economical, he has told the labor men that certain things could not be done because the city taxes would not stand it, and now he sends down in all sixty appointments to be added to the pay roll, although a large number of other employees have been thrown out of work. I say to the Mayor of Boston that he has been insincere with both the city worker and the taxpayers of the city, if we are to really have economy in mind. I assume that this body is going to vote against these appointments which are not reappointments and are not necessary. Let me say another thing. As a member of the Committee on Constables, let me say that we called these gentlemen before us. While we have seen some comment in the public press in regard to the qualifications or the record of some of the men, I say this, that the Mayor sent the list to this body with incorrect names and addresses, and it appeared that he did not know anything about the addresses of these men or about their qualifications. As the councilor from Ward 5 (Coun. Shattuck) says, there must be men already in the departments qualified to do this work. Why not use them, instead of discharging some of them? Why, instead of discharging deputies or others in some of the departments, why not give them a chance to do the work contemplated here, if the work is necessary, and thus save some real money for the City of Boston?

Coun. NORTON—Mr. President, the colleague from Ward 14 (Coun. Goldman) said that in previous years I had voted for confirmation of constables, allowing it to appear that my action at this time was the result of personal feeling against the Mayor. I want to clarify that situation with this statement, because I feel that my activities of the last few years have left more or less stripes on me, so far as my attitude towards the Mayor of Boston has been concerned, and I don't like to start another three or four years' term by continually quarreling with the present Mayor. But I find no record among the official records of the body showing that I have voted for the confirmation of constables and I don't think my worst enemy will accuse me of being partial in this body to ex-Mayor Curley. Some one once said that "consistency is a virtue." I think it is an art! No man living can be consistent, but we can at least try to be so. I have never voted for the confirmation of constables. I am proud to stand here today, when we cannot find enough money for our own pay rolls, and attempt to stop the imposition of unnecessary employees on the already sinking pay rolls of the City of Boston. Every other large city in America uses members of the police force for the performance of this constable work, and I understand from one who has made a study of the subject that nine-tenths of the work can be performed through the medium of registered letter and that most of the constables do nothing whatever. Now, in the name of common sense, when you have allowed a valuable editorial man upstairs to go, a man who has been in the employ of the city for over thirty years and who has furnished valuable information to you whenever you desired it, because, as we were told, in the interest of economy his services must be dispensed with, and when you have laid off an important man in your Ferry Service, who had been there for many years, a valuable man in the history of this city as his father was before him, and a graduate of Harvard, simply stating to him, "Your services are no longer needed, because the finances of the City of Boston at this time do not warrant your retention on the pay roll," a man who was within six months of a pension, how does that sort of thing fit in with the appointment of these constables? Where do you men stand on that question? You cannot be both ways. You must be either for or against, and how in the name of common sense can any man stand here today and vote to load up the pay roll with unnecessary political appointments?

Coun. GOLDMAN—Mr. President, just a word in answer to my colleague from Ward 18 (Coun. Norton). Let me first remind him that in looking through the City Council records of the past, you will never find a man's stand on the question of confirmation, because it does not appear in the record by a yea and nay or yes and no vote. And I am simply referring to that fact, Councilor Norton, when you say that you never voted to confirm constables. No one can say that our President is friendly to the Mayor, and I quote him when he says that he always votes for the constables. In the matter of economy, the Mayor, in his message of today with reference to constables, says:

"I am informed by the Budget Commissioner that thirty-eight is the minimum number of constables actually required in all departments, as follows,—Building, 1, Collecting, 8, Fire, 1, Health, 2, Law, 8, Public Welfare, 1, Public Works, Paving, 1, Public Works, Sanitary, 7, Public Works, Sewer, 1, Registry, 1, Street Laying-Out, 6, Penal Institutions, 1. The difference between the thirty-eight listed above and the forty-five contained in the list now before the Council for approval are to be assigned to the collector's office where, for the remainder of this year, there will be an intensive effort to collect taxes now due to the city and where, I think, they can do good service for the city."

So you can see that the difference is there accounted for.

Coun. NORTON—Mr. President, one word in answer to the statement of the colleague. The records do not show, of course, the way I voted last year, and it is not a question whether the President is friendly or unfriendly with the present or the past Mayor. I am not going to discuss his statements in regard to the President's activities last year or this year. But I will say, while the record does not show how I voted, I don't think I have ever ducked or side-stepped a vote, and I think if you will refer to my colleagues here on the one side or the other they will tell you that for a number of years here, when the question of confirmation of constables has been up, I have opposed confirmation. I think my position in this matter has been well known. And let me reiterate that this is only loading the pay roll with unnecessary political employees.

Coun. Roberts' amendment was adopted, and the question came on confirmation of the seven names. Committee, Coun. Gallagher and Selvitella. Whole number of ballots 19; yeas 18, nays 1, and the seven names were confirmed.

The question came on the motion offered by Coun. McGrath, as amended, in reference to the remaining fifteen names. The question came on confirmation. Committee, Coun. Finley and Fitzgerald. Whole number of ballots 21, yeas 16, nays 5, and the appointments were confirmed.

Coun. McGRATH—I now move you, Mr. President, that all the names that have not been balloted upon be laid on the table.

Coun. McGrath's motion was declared carried.

Coun. ROBERTS doubted the vote, and asked for the yeas and nays.

Coun. GREEN—Mr. President, I object to any roll call on this motion.

President DOWD—The question is raised about having a roll call on laying the matter on the table but the matter has already been laid on the table.

Coun. ROBERTS—Mr. President, I rise to a point of order. Is there any rule that requires a motion to be put in a certain way in this matter? Are we not entitled to a roll call vote?

President DOWD—The Chair would rule that you would ordinarily be entitled to a roll call, but inasmuch as Councilor Green raised an objection and the Chair recognized that the Council had agreed to a voice vote he declared the motion carried.

Coun. GREEN—Mr. President, I made that objection because I believed that we were carrying out a general agreement here. We made an agreement in the back room, and I do not intend to violate it. I never have, and I will not now.

Coun. SHATTUCK—Mr. President, the gentleman refers to some agreement in the back room. I don't know anything about any agreement. I don't know what it was or who made it.

President DOWD—The motion was made to lay on the table, and the matter is now on the table, and no further debate is in order.

HANDBALL COURTS, MOUNT IDA PLAYGROUND.

Coun. TOBIN offered the following:

Ordered, That the Park Commission be requested, through his Honor the Mayor, to provide for the erection of two handball courts in the Mount Ida Playground, Dorchester.

Passed under suspension of the rule.

USE OF CHRISTOPHER J. LEE PLAYGROUND.

Coun. DONOVAN offered the following.

Ordered, That the Park Commission be requested, through his Honor the Mayor, to allow the baseball team known as Kelley's All-Stars to use the Christopher J. Lee Playground one evening a week.

Passed under suspension of the rule.

SEWER IN PHILLIPS PLACE.

Coun. KERRIGAN offered the following:

Ordered, That the Commissioner of Public Works be requested, through his Honor the Mayor, to construct a sewer in Phillips place, Ward 7.

Passed under suspension of the rule.

REPAIRING OF NORTH MEAD STREET STEPS.

Coun. GREEN offered the following:

Ordered, That the Commissioner of Public Works be requested, through his Honor the Mayor, to instruct the contractor who started the work of repairing the North Mead street steps last fall, and who suspended operations during the severe winter weather, to proceed with the completion of this work as soon as possible.

Passed under suspension of the rule.

JUNE 17TH CELEBRATION.

Coun. GREEN offered the following:

Ordered, That his Honor the Mayor be requested to communicate with the members of Congress from Massachusetts with a view to having that part of the Pacific Coast fleet which is coming East assigned to the Boston Navy Yard to participate in the celebration of Bunker Hill Day, June 17.

Passed under suspension of the rule.

TAX TITLES TO PROPERTY.

Coun. NORTON offered the following:

Ordered, That the Mayor of Boston consider the advisability of requesting the Corporation Counsel to go into the Land Court and take tax titles to property that now owes the city over $2,500,000 in back taxes up to and including the year 1931, but no title to be taken on property where the City Collector, after due investigation, decides that the family occupying a home has faithfully attempted to meet all tax obligations but has been unable to do so because of unemployment and the depression.

Coun. NORTON—Mr. President, the City of Boston can collect $2,500,000 in back taxes owed to and including the year 1931. It will not need to sell homes that families live in if it will take advantage of the prerogative that the law gives to our city, going to the Land Court and securing titles to some of these large buildings, corporation property, where taxes have not been collected for years. There is $2,500,000 right there.

The order was passed under suspension of the rule.

ESMOND STREET, WARD 14.

Coun. GOLDMAN offered the following:

Ordered, That the Commissioner of Public Works be requested, through his Honor the Mayor, to repave with smooth pavement Esmond street, Ward 14.

Passed under suspension of the rule.

DECENTRALIZATION OF PUBLIC WELFARE DEPARTMENT.

Coun. NORTON offered the following:

Ordered, That his Honor the Mayor consider the advisability of requesting the Board of Public Welfare to decentralize the department into various sections of Boston.

Coun. NORTON—Mr. President, this is the thousandth order I have introduced to decentralize the Welfare Department of the City of Boston. We can save money and take better care of the people on Welfare by decentralizing the functions of that department in every section of Boston, the same as is being done today in the Ward 18 section.

The order was passed under suspension of the rule.

Adjourned at 5.15 p. m., on motion of Coun. TOBIN, to meet on Monday, May 7, 1934, at 2 p. m.

TRAFFIC COMMISSION RULINGS.

Voted, During the period of building demolishing, estimated to be one (1) month, parking of vehicles is prohibited in the following streets, effective May 4, 1934:

India Street.

Southwest side, from Custom House street to Franklin street.

Custom House Street.

Northeast side, from Well street to India street.

Voted, During the period of track repair work by the Union Freight Railroad, estimated to be ten (10) days, parking of vehicles is prohibited in Atlantic avenue, both sides, from State street to Broad street, effective May 3, 1934.

Voted, During the period of baseball games at Fenway Park, parking of vehicles is prohibited in Queensberry street, north side, from Jersey street to Kilmarnock street, effective May 4, 1934.

Voted, During the period of fence repairs by the Boston Lying-In Hospital, estimated to be two (2) weeks, parking of vehicles is prohibited in Avenue Louis Pasteur, east side, from Longwood avenue to a point four hundred (400) feet north of Longwood avenue, effective May 7, 1934.

Voted, During the period of sewerage construction, estimated to be ten (10) days, parking of vehicles is prohibited in Brookline avenue, both sides, from Commonwealth avenue, to Newbury street, effective May 7, 1934.

LIFE-GIVING PATRIOTISM IS LOCAL.

By civic patriotism is meant the feeling and the taking of a deep, unselfish, earnest, ever-wakeful, active interest in the affairs of one's own city or local community, regarding it as having an autonomy, a distinct personality, a name and interests of its own, and, if one pleases, endowed with a sense of personal honor and with all laudable ambitions for the promotion of the welfare of its people.

Where such civic virtues exist the local community will neither suffer from the dry-rot of public indifference and neglect nor become tainted with graft or corruption. Its life will be healthful, and, like the ocean, will be kept pure by its own ceaseless flow and movement. All life-giving patriotism is local.

Show a good municipal citizen and one will see a citizen who loves his state, and who loves his nation, and who will discharge all the duties of this triple relation. Good government in local affairs is the best assurance of good government in state and national affairs

POPULATION OF UNITED STATES, NEW ENGLAND AND MASSACHUSETTS.

Continental United States (*i. e.*, 48 states and the District of Columbia) in 1930, 122,775,046; outlying possessions, 14,233,389; total, 137,008,435; New England, 8,166,341; Massachusetts, 4,249,614 or 52.04 per cent of New England and ranking eighth in the Union. In density of population Massachusetts ranks second, *i. e.*, 528 per square mile of land, Rhode Island ranking first, with 644 per square mile of land.

Population of the other New England States in 1930, ranking from the highest total: Connecticut, 1,606,903; Maine, 797,423; Rhode Island, 687,497; New Hampshire, 465,293; Vermont, 359,611. Density for New England, 132 per sq. m.; for U. S. (48 states and the District of Columbia) 41 per sq. m.

The population of the United States increased 16.1 per cent since 1920; that of New England 10.3 per cent and that of Massachusetts 10.3 per cent.

REVENUE RECEIPTS, PER CAPITA, IN TWELVE LEADING CITIES, 1928 (BY RANK).

Los Angeles, $138.53; Detroit, $109.33; Boston, $101.74; New York, $90.86; Buffalo, $86.28; Cleveland, $85.17; Pittsburgh, $79.85; Milwaukee, $76.52; San Francisco, $75.99; Chicago, $74.12; Philadelphia, $68.90; St. Louis, $62.58.

CITY OF BOSTON.

SUPPLY DEPARTMENT.

PROPOSALS FOR FURNISHING FRUITS AND VEGETABLES.

The Supply Department of the City of Boston invites proposals for furnishing to the various city departments, fruits and vegetables, as per specifications to be obtained at the office of the Superintendent of Supplies, Room 801, City Hall Annex. *There will be a charge of thirty cents ($0.30) for each set of blank proposals taken out.* The bidder must leave his proposal with a certified check for $300, payable to and to become the property of the City of Boston, if the proposal is not carried out, at the above office. A duplicate bid, without check, must be left at the office of the City Auditor prior to the time named for opening bids. The bids will be publicly opened and read Wednesday, May 23, 1934, at 12 m., at Room 801, City Hall Annex. The successful bidder must furnish a bond for one quarter the total estimated amount of the contract with a surety company authorized to do business in Massachusetts as surety for the faithful performance of the contract. The Superintendent reserves the right to accept or reject any or all bids, or any part of a bid, and to award the contract as he deems for the best interests of the city. All contracts made subject to appropriations to meet payments thereunder.

WARREN W. LOOMIS,
(May 12.) *Superintendent of Supplies.*

CITY OF BOSTON.

PUBLIC WORKS DEPARTMENT.

PROPOSALS FOR SEWERAGE WORKS IN HAVEN AVENUE, FROM EXISTING SEWER 376 FEET WEST OF BLUE HILL AVENUE 165 FEET WESTERLY, DORCHESTER.

The Commissioner of Public Works of the City of Boston, office 508 City Hall Annex, invites proposals from citizens of the United States and corporations or other legal associations wherein the controlling interest to the extent of at least over one half thereof is owned by a citizen or citizens of the United States, for sewerage works in Haven avenue, from existing sewer 376 feet west of Blue Hill avenue 165 feet westerly, Dorchester. A bond will be required for doing the work of a surety company approved by the Commissioner in the sum of 100 per cent of the amount of the contract, to secure the due performance of the contract and the full protection of the city. Forms of proposals may be obtained at Room 508, City Hall Annex. Each proposal should be inclosed in an envelope, sealed, marked "Proposal for Sewerage Works in Haven Avenue," and left at Room 508, fifth floor, City Hall Annex, before 12 m. of Wednesday, May 23, 1934, with a certified check for one hundred (100) dollars payable to and to become the property of the city if the proposal after acceptance is not carried out. The proposals will then and there be publicly opened and read. Proposals must be made in duplicate, the sealed duplicate, without check, to be deposited by the bidder with the City Auditor previous to the time named for opening the bids. *There will be a charge of two dollars ($2) for each set of plans and specifications taken out.* If the price of any item appears to the Commissioner to be abnormally high or low, or the bidder neglects to bid on each and every item, it may lead to the rejection of the proposal containing such price. The undersigned reserves the right to reject any or all proposals or to award the contract as he deems best.

C. J. CARVEN,
(May 12.) *Commissioner of Public Works.*

CITY OF BOSTON.

PUBLIC WORKS DEPARTMENT.

NATIONAL INDUSTRIAL RECOVERY PROJECT P. W. A., DOCKET NO. 4214.

NOTICE TO CONTRACTORS.

Sealed proposals addressed to the Commissioner of Public Works, and indorsed, "Proposal for Furnishing and Laying and Relaying Water Pipes in Brookline Avenue," will be received at Room 508, City Hall Annex, until 12 m. of Wednesday, the 16th day of May, 1934, and at that time and place will be publicly opened and read. Bids must be made upon the prescribed proposal form. Special attention of bidders is called to all provisions of the Federal Emergency Administration of Public Works which form a part of the contract, including the prescribed minimum rates of $1.20 per hour for skilled labor and $0.50 per hour for unskilled labor, and to the special provision as to semi-skilled labor. No bids will be accepted unless the bidder submits therewith a signed copy of P. W. A., Form 61 (revised March, 1934), entitled "Certificate of Compliance with N. R. A. in Connection with P. W. A. Projects." Plans, specifications and contract form may be obtained at Room 508, City Hall Annex, upon deposit of the sum of two dollars ($2). Bids must be accompanied by a properly certified check on, or a certificate of deposit issued by, a responsible bank or trust company in the sum of ten thousand dollars ($10,000) payable to the City of Boston. Checks will be returned after execution of the contract upon demand. A surety bond by an approved surety company will be required from the successful bidder in an amount not less than the full amount of the contract. The right is reserved to reject any or all proposals, or to accept any proposal deemed best for the interest of the City of Boston, and no award can be made without the approval of the State Engineer, P. W. A. The name and address of the local registration office of the National Re-employment Service, from which employee lists for this contract shall be obtained, is as follows: State Public Employment Office (Everett L. Hanna, Manager), 100 Nashua street, Boston.

CITY OF BOSTON.

BOSTON TRAFFIC COMMISSION.

CHANGES IN TRAFFIC REGULATIONS.

Voted, That the Traffic Regulations are amended as follows, for a period of ninety (90) days, effective May 14, 1934:

That section 17, Part 3, is amended by striking out the following:

Batterymarch Street.
Northeast side, from Water street to High street.
Kilby Street.
Both sides, from Water street to State street.
Milk Street.
Both sides, from Broad street to India street.

That section 17, Part 3, is amended by adding the following:

Milk Street.
Northwest side, from Broad street to India street.

That section 40, Part 1, is amended by striking out the following:

Central Street.
From Broad street to Kilby street.
From India street to Atlantic avenue.

That section 40, Part 1, is amended by adding the following:

Batterymarch Street.
From High street to Water street.
Central Street.
From Atlantic avenue to Kilby street.
Franklin Street.
From India street to Federal street.
High Street.
From Broad street to Summer street.
Kilby Street.
From Water street to State street.
Milk Street.
From Oliver street to Atlantic avenue.
Oliver Street.
From Milk street to Atlantic avenue.
Pearl Street.
From Atlantic avenue to Milk street.
Purchase Street.
From Summer street to Broad street.

That the provision of section 40, Part 2, of the Street Traffic Regulations which prohibits parking in the left side of one-way streets is not to apply to the above streets.

FIVE PER CENT OF CITY BUDGET PAID FOR REFUSE DISPOSAL.

Nearly one million dollars, or about 5 per cent of the total cost of the general city government of Los Angeles, Cal., is spent every year for the collection and disposal of refuse, under the direction of the Bureau of Engineering of that city. The Refuse Collection Division operates six days a week, and enough men are provided to compensate for a five-day week for all the personnel employed.

CITY OF BOSTON.

PUBLIC WORKS DEPARTMENT.

NATIONAL INDUSTRIAL RECOVERY PROJECT, P. W. A., DOCKET NO. 4193.

NOTICE TO CONTRACTORS.

Sealed proposal addressed to the Commissioner of Public Works of the City of Boston, and indorsed "Sewerage Works in Stony Brook, Section 12, Between 150 Feet Northwest of Florence Street and Neponset Avenue, West Roxbury," will be received at Room 508, fifth floor, City Hall Annex, Boston, Mass., before 12 m. on Tuesday, the 22d day of May, 1934, and at that time and place will be publicly opened and read. Bids must be made upon the prescribed proposal form. Special attention of bidders is called to all provisions of the Federal Emergency Administration of Public Works, which form a part of the contract, including the prescribed minimum rates of $1.20 per hour for skilled labor and 50 cents per hour for unskilled labor, and to the special provision as to semi-skilled labor. "Pursuant to Executive Order 6646, dated March 14, 1934, no bid will be considered unless it includes or is accompanied by a certificate (worded in accordance with P. W. A. 61 revised March 19, 1934) duly executed by the bidder, stating that the bidder is complying with and will continue to comply with each approved code of fair competition to which he is subject, and if engaged in any trade and industry for which there is no approved code of fair competition, then stating as to such trade or industry he has become a part to and is complying with and will continue to comply with an agreement with the President (President's Re-employment Agreement) under Section 4 (*a*) of the National Industry Recovery Act." "Every contractor who bids upon a project financed in whole or in part by loans or grants from the P. W. A. shall submit in a sealed envelope with his bid to the contracting authority the names of all subcontractors and their bids upon which his bid is based. The sealed envelope so submitted shall have on it the name of the contractor with the words thereon 'Bids of Subcontractors.' Such submission shall be deemed to constitute an acceptance by the contractor, if awarded the contract, of the bid of each subcontractor. Any alteration therein, after the award of the contract, shall be subject to the approval of the P. W. A. engineers." Plans, specifications and contract form may be obtained at Room 508, City Hall Annex, Boston, upon deposit of the sum of $2. Bids must be accompanied by a properly certified check on, or a certificate of deposit issued by a responsible bank in the sum of five thousand (5,000) dollars, payable to the City of Boston. Checks will be returned after execution of the contract upon demand. A surety bond by an approved surety company will be required from the successful bidder in an amount not less than the full amount of the contract. The right is reserved to reject any or all proposals, or to accept any proposal deemed best for the interest of the City of Boston, and no award can be made without the approval of the State Engineer, P. W. A. The name and address of the local registration office of the National Re-employment Service, from which employee lists for this contract shall be obtained, is as follows: State Public Employment Office (Everett L. Hanna, Manager), 100 Nashua street, Boston, Mass.

C. J. CARVEN,
(May 12-19.) *Commissioner of Public Works.*

POLICE DEPARTMENT ORDERS.

General Order No. 472.

Commencing Monday, May 14, 1934, at 7.45 o'clock a. m., and continuing until further orders, all sergeants in each division will be divided into three equal platoons, designated as Platoons A, B and C. Platoon A will immediately assume day duty. Platoons B and C will assume night duty, alternating first and last half as at present. On the first day of each succeeding month platoons will shift in rotation from day duty.

The Superintendent of Police will promulgate this order.

EUGENE C. HULTMAN,
Commissioner.

General Order No. 473.

Patrolman James J. Mooney of Division 19 is commended and given two days' additional vacation for meritorious police duty performed on the night of March 17, 1934. While off duty and on his way to the station to do a "morning watch," Patrolman Mooney heard screaming and went into a yard from which he believed the sound came. Upon his return to the street he saw two men running towards a parked automobile. They were pursued by Patrolman Mooney and taken to Division 19 and booked as suspicious persons. While the prisoners were being booked a citizen telephoned that he had been assaulted and an attempt had been made to rob him. The operator of the car in which these men intended to escape was subsequently arrested.

The commissioner is pleased to recognize and commend Patrolman Mooney for the zeal and devotion to duty shown by him, while off duty, in accomplishing the arrest and successful prosecution of these dangerous characters.

The Superintendent of Police will promulgate this order.

EUGENE C. HULTMAN,
Commissioner.

General Order No. 474.

At 9.30 o'clock a. m., Friday, April 27, 1934, a trial board consisting of Captains Campbell, McGrath and Daley, having heard by reference a complaint made by Thomas F. Casey, captain, Division 10, against Harold E. Gildersleeve, patrolman, Division 10, for alleged violation of Rules 35, 38 and 41 of the Rules and Regulations of the Police Department, to wit:

Charge 1: Leaving the city without permission.

Specification: In that on the 19th day of April, 1934, the said Patrolman Harold E. Gildersleeve, while not in uniform and not upon any police duty, did leave the City of Boston and its harbor, without having received permission from the Police Commissioner, the superintendent or his commanding officer.

Charge 2: Absence without leave

Specification: In that on the 19th day of April, 1934, the said Patrolman Harold E. Gildersleeve, did absent himself from the 7.45 a. m. roll call without having received permission from the Police Commissioner, superintendent, or his commanding officer.

Charge 3: Conduct unbecoming an officer.

Specification: In that on the 19th day of April, 1934, the said Patrolman Harold E. Gildersleeve was under the influence of intoxicating liquor to such an extent that he was unable to perform police duty if called upon so to do, and that, by

so doing, he was guilty of an act contrary to good order and discipline of the department and tended to bring into disrepute and criticism his associates on the force and the department as a whole,— has submitted the following finding and recommendation:

"The Board having heard and carefully considered all the evidence as presented, accepts the plea of guilty made by the said Patrolman Harold E. Gildersleeve. The Board has also taken into consideration the testimony of Captain Casey that he has never had occasion to warn this officer regarding the use of intoxicating liquor and that he believes Gildersleeve is a reliable man; the fact that Patrolman Gildersleeve has filed a pledge card to refrain from the use of intoxicating liquor in the future; the fact that this officer has suffered a severe mental strain due to the recent accidental death of his wife, which misfortune has necessitated treatment of this officer by a physician for a nervous disorder; and the fact that he is the sole support of his mother. In view of the fact that Patrolman Gildersleeve was before a trial board in February of 1932 for a similar offense, the Board would be inclined to inflict the extreme penalty, but the Board has every confidence that this man will redeem himself and, therefore, respectfully recommends that the said Patrolman Harold E. Gildersleeve be suspended from duty for a period of thirty days, effective as of April 19, 1934, at 7.45 o'clock a. m., and that at the expiration of the said period of suspension the said Patrolman Harold E. Gildersleeve be ordered to perform 210 hours of punishment duty."

The commissioner accepts the finding and the recommendation of the Trial Board and hereby orders that the said Patrolman Harold E. Gildersleeve be suspended from duty for a period of thirty days, effective as of April 19, 1934, at 7.45 o clock a. m., and that at the expiration of the said period of suspension the said Patrolman Harold E. Gildersleeve perform 210 hours of punishment duty.

Civil Service Rule 23, Section 3, requires approval of the Civil Service Commission before reinstatement.

Rule 23.

"Section 3. With the consent of the Commissioner upon good cause shown, an appointing officer may reinstate in the same position or in a position in the same class and grade any person who has been separated from the service; provided, however, that the Commissioner shall not allow reinstatement of a person discharged for cause."

The Superintendent of Police will promulgate this order.

EUGENE C. HULTMAN,
Commissioner.

CONSTRUCTION WORK.

The Mayor has approved the request of the Public Works Department for the following construction work:

Twenty catch-basins and connections in Alford street, between Malden Bridge and Everett line, in the Charlestown district, at an estimated cost of $8,000.

A surface drain of 12-inch pipe in Woodard road, between 140 feet east of Saville street and 80 feet easterly, in the West Roxbury district, at an estimated cost of $400.

A sanitary sewer of 12-inch pipe in Everett court, between Everett street and 120 feet northerly, in the East Boston district, at an estimated cost of $900.

CIVIL SERVICE EXAMINATIONS. (STATE.)

STATE EXAMINERS OF ELECTRICIANS.

Examinations, 1934.

Examinations will be held at the following points and on the following dates:

Boston, Monday, June 4.
Boston, Monday, September 17.
Worcester, Wednesday, September 19.
Springfield, Thursday, October 25.
Pittsfield, Friday, October 26.
Boston, Monday, November 5.
Lowell, Wednesday, November 7.
Boston, Monday, December 3.
New Bedford, Thursday, December 6.
New Bedford, Friday, December 7.

RULES FOR EXAMINATIONS.

All examinations shall be given in English.

Applicants for Class B or journeyman's certificate must be at least eighteen years of age and have had at least two years' practical experience or the equivalent in the installation of wires, conduits, apparatus, fixtures and other appliances for carrying or using electricity for light, heat or power purposes.

Applicants for Class A or master's certificate must be at least twenty-one years of age and have had at least two years' experience in the business of installing wires, conduits, apparatus, fixtures and other appliances for carrying or using electricity for light, heat or power purposes.

Examinations shall consist of applicant's knowledge of the National Electrical Code and practical electrical work.

All persons desiring to be examined, either for a Master or Journeyman Certificate, shall have application on file at least ten days previous to the date of such examination.

Applicants for examination will be required to obtain at least 70 per cent in order to obtain a certificate.

Applicants who fail to obtain the required 70 per cent will not be entitled to re-examination until a period of three months has elapsed, and those who receive less than 50 per cent, or who fail on the practical demonstration, will not be re-examined for a period of six months.

Any person found referring to notes or books, or misbehaving during an examination, will be debarred from that examination.

Notice will be sent to applicants for certificates when and where examination will be held, and only those so notified will be examined on that day.

JAMES M. HURLEY,
PAYSON SMITH,
STEPHEN C. GARRITY,
State Examiners of Electricians.

For application blanks or other information apply to State Examiners of Electricians, Room 413A, State House, Boston, Mass.

CLAIMS ALLOWED.

Upon recommendation of the Corporation Counsel, the Mayor has approved the following claims:

Charles G. Snyder, care of *Daily Record*, 5 Winthrop square, Boston, in the sum of $25, as compensation for damage to automobile caused by defect in highway on Summer street, about 100 feet from Atlantic avenue, near safety zone, September 19, 1933.

Helen A. Murray, 361 Ashmont street, Dorchester, in the sum of $9, as compensation for damage to automobile caused by depression in highway in front of No. 445 Adams street, Dorchester, October 28, 1933.

Gem Loan Company, 573 Columbus avenue, Boston, in the sum of 55 cents, as refund on five unused refuse tickets purchased on December 6, 1932, and which were returned to the Public Works Department.

Morris Sanderson, 1294 Blue Hill avenue, Mattapan, in the sum of 60 cents, as refund on four unused refuse tickets purchased in 1929 and 1930, and which were returned to the Public Works Department.

American Curtain Company, 76 Essex street, Boston, in the sum of $1.35, as refund on nine unused refuse tickets purchased August 22, 1930, and which were returned to the Public Works Department.

Hyman Blotcher, care of Ralph H. Cooper, 1 Beacon street, Boston, in the sum of $20, as compensation for damage to truck caused by defect in highway, opposite 21 Gaylord street, Dorchester, November 21, 1933.

Theodore Gerloff, 29 Park street, West Roxbury, in the sum of $4.75, as compensation for damage to automobile caused by spike left sticking up in road by contractor on Louder's lane, West Roxbury, near the southwesterly end, October 11, 1933.

West Roxbury Pharmacy, Incorporated, 1904 Centre street, West Roxbury, in the sum of $4.65, as refund on thirty-one unused refuse tickets which were returned to the Public Works Department.

Mary V. Driscoll, 31 Woodville street, Roxbury, in the sum of $75, as compensation for personal injuries and damages to clothing caused by defective sidewalk in front of 33 Woodville street, September 25, 1933.

Barney Tocio, 21 North Side, Faneuil Hall Market, Boston, in the sum of $13.55, as compensation for damage to automobile caused by hole in roadway on Beverly street, opposite the Boston & Maine Railroad Industrial Building, October 9, 1933.

Stephen J. Hoar, 25 Whitman street, Dorchester, in the sum of $10, as reimbursement for damage to property at above address caused by negligence of Water Service employees in leaving faucets open in vacant apartment after new meter was installed January 15, 1934, resulting in water flowing over sink and flooding two floors.

SLUM CLEARANCE STARTS—C. W. A. TO TEAR DOWN BUILDINGS.

The National Association of Housing Officials is urging its members to cooperate with C. W. A. authorities in getting under way local projects for tearing down useless and unsanitary structures—the kind that make up slums. A recent bulletin from Harry Hopkins, C. W. A. head, authorized the undertaking of such projects.

CITY OF BOSTON PRINTING DEPARTMENT

CITY RECORD

OFFICIAL CHRONICLE OF BOSTON MUNICIPAL AFFAIRS.

VOL. 26. SATURDAY, MAY 19, 1934. NO. 20

MAYOR MANSFIELD TAKES BATTLE OF TAXPAYERS TO VOTERS OF STATE IN EFFORT TO EFFECT ECONOMIES AND SAVE PROPERTY FROM GREATLY INCREASED ASSESSMENT — BLAMES COUNTY RING, SCHOOL TEACHERS AND POLICE FOR IMPENDING DISASTER IN NOT CO-OPERATING TO SHARE BURDEN OF SALARY REDUCTIONS FOR WHICH HE ASKED — WANTS BILL TO RESTORE PARTIAL SALARY CUTS DEFEATED IN LEGISLATURE — MEANS GRIEVOUS HARDSHIP OTHERWISE ON THOSE WHO WILL BE FORCED TO GO PAYLESS DURING YEAR.

The following is the radio address of Mayor Mansfield over Station WBZ on May 17, in which he discussed the city's financial condition and the employment pay rolls:

What I have to say to you tonight is addressed primarily to the home owner, the taxpayer, and the rent payer. It also affects every citizen of Boston and of the entire state, because much of the prosperity of the state depends upon the prosperity of Boston.

Boston is in danger. We may as well face that fact squarely in order that we may realize the perils that surround us. When I became Mayor on January 1, less than five months ago, I found a huge burden left by my predecessors in office, caused by their waste and extravagance, and one that is too heavy for the citizens and taxpayers to carry unless they receive the aid and support of all private citizens and of all elective officers. On behalf of those citizens and taxpayers I now ask for your earnest support.

The outlook for the taxpayer is gloomy indeed. He insists that he has reached the end of his rope and that he cannot pay higher taxes. He wants not only a lower tax rate but a lower assessment upon his property — two things which are absolutely opposed to each other, for it is inevitable if the assessed values are lowered generally throughout the city, that the tax rate must go up. There cannot be a general reduction in assessed value and a lower tax rate at the same time.

Want Tax Reduction.

And the whole city is clamoring for a reduction in assessed valuation. Twice this year the City Council adopted orders calling for a reduction in the valuation of real estate in Boston by at least $200,000,000. A reduction of only $80,000,000 means a tax rate of $37 per thousand. A reduction of $200,000,000 would mean a loss of over $7,000,000 in taxes and would add $4 to the tax rate. If I should accede to the request of the City Council and order a horizontal slash in the value of all real estate the result would be a tax rate of more than $40 per thousand for 1934.

Taxpayers of Boston, can you stand a $40 tax rate in 1934? Can you stand a $43 or a $45 tax rate for 1935? Twice within ten days the Legislature, first in the House and then in the Senate, took action that forecasts just such a rate. Last week the House passed a bill depriving me of the right to continue during 1935 the pay cuts which had been authorized in April, 1933; and on Tuesday of this week the Senate passed a bill which, if it becomes law, will compel me to restore one third of the pay cuts in 1934, dating back to April 1.

I am confident that this last bill will not go through when the people, and the legislators themselves, become aware of what it may mean for Boston; but if it does go through I shall be compelled to find somewhere this year an additional $1,250,000 for the municipal pay roll which, taken with the restoration of the annual step-rates, if I do restore them, would add to this year's tax rate practically another dollar.

And what about the year 1935? When the House voted to deprive me of the power to continue the pay cuts in force for 1935, regardless of whether such action might be absolutely necessary to save the city, they put upon me the burden of raising an additional $5,000,000 next year. That will mean $2.80 added to your tax bill for the year 1935.

And here I want to say a word about those legislators who are posing as friends of the municipal employee — for they are only posing. They are not their real friends, because if they compel me to spend more of the public money to pay municipal salaries I shall have to find that money somewhere.

Where am I going to find it?

Where am I going to get the money to restore one third of the pay cuts for 1934? And where am I going to find the money during 1935 to restore the full pay cuts for the entire year? It must all fall on the taxpayer who is already taxed to the limit of his endurance, and thus we find ourselves in this position:

The money can only be raised by taxation and it means a higher tax; but the taxpayer cannot afford to pay a higher tax, and the money to pay the city employees may not be forthcoming, and the only alternative and the only course which I may be forced to adopt will be to suspend or to discharge hundreds, yes, perhaps thousands, of city employees. And these very men who are posing as the friends of the city employee will be responsible for that situation if it arises.

(Continued on page 473.)

"O Boston, fair City enthroned like a radiant queen,
From thy hills looking down on the ship-teeming plain of the ocean,
May thy future be bright, thy skies beam with light all serene,
Ensured by thy sons' and thy daughters' unselfish devotion!"
From Boston Centennial Poem by
NATHAN HASKELL DOLE.

MUNICIPAL CALENDAR.

Meeting of the City Council Monday, May 21, 1934, at 2 p. m.

A regular meeting of the School Committee of the City of Boston will be held in the Administration Building, 15 Beacon street, on Monday, May 21, 1934, at 5.30 o'clock, p. m.

Meetings of the Transit Department are held on Monday and Thursday of each week at 11 a. m.

Board of Zoning Adjustment. Public hearings and executive meetings are held on the first Friday of each month, Room 30, City Hall, at 2 p. m.

MUNICIPAL SERVICE.

Complaints, inquiries or suggestions regarding the work of municipal departments should be made in writing to the officials directly in charge. The failure of such official to make reply within a reasonable length of time should be brought to the attention of the Mayor. Communications should be directed as follows:

To THE BOARD OF STREET COMMISSIONERS, Room 401, City Hall Annex, for information relative to the laying out, relocation, widening, and the discontinuance of highways; the taking of rear property for municipal purposes; the assessments of betterments for streets and sewers; the plotting of undeveloped area for streets and the opening of private ways; the granting of licenses for the storage or sale of merchandise in public streets; the making of specific repairs in public streets; the naming of public streets; the planting and removal of trees in public ways; the issuing of licenses for the storage of gasolene, oil, and other inflammable substances or explosive compounds; the use of the public ways for any permanent or temporary obstruction or projection in, under or over the same, including the location of conduits, poles and posts for telephone, telegraph, street railway or illuminating purposes, signs, marquises, bay windows, coal holes and vaults.

To THE BOSTON TRAFFIC COMMISSION, 22 Court street, for information relative to regulation of vehicular street traffic on all or any streets, ways, highways, roads and parkways under the control of the City of Boston, the issuing of all permits in connection therewith.

To THE COMMISSIONER OF PUBLIC WORKS, Room 511, City Hall Annex, for information as to the watering, cleaning, lighting and repairing of streets, the construction and care of sewers and catch-basins, the operation of the ferries, the maintenance of bridges and drawbridges and the removal of ashes and offal.

To Room 604, City Hall Annex, for information relative to the supplying or metering of water and the water charges of the city.

To THE HEALTH DEPARTMENT, Room 1107, City Hall Annex, for information relative to the inspection of milk, vinegar, meat, fish and vegetables, the issuance of permits for stables, slaughter houses, etc., smoke nuisances, the existence of contagious diseases, of public health nuisances.

To THE BOARD OF PARK COMMISSIONERS, 33 Beacon street, for information as to the care of the Common, Public Garden, Franklin Park, Franklin Field, Commonwealth avenue, Back Bay Fens, Marine Park, and the small parks and playgrounds in general throughout the city, and as to the extermination of gypsy moths and the charges made for such service. Application may be made to this department for information regarding the public baths and gymnasiums maintained by the city, and with regard to municipal indoor concerts and band concerts, also information relative to Mt. Hope, Evergreen, Fairview and other public cemeteries owned by the City of Boston.

To THE SCHOOL COMMITTEE, 15 Beacon street, for information relative to the operation of the schools of the city.

To THE DEPARTMENT OF SCHOOL BUILDINGS, 11 Beacon street, for information as to the construction and repair of school buildings.

To THE BOARD OF EXAMINERS, Room 1001, City Hall Annex, for information regarding the licensing of persons having charge or control of the work of construction, alteration, removal or tearing down buildings.

To THE WIRE DIVISION OF THE FIRE DEPARTMENT, Fire Department Headquarters, 60 Bristol street, for all information relative to the erection of poles, building of conduits, the installation of all overhead and underground construction and electrical apparatus, as well as for general information relative to the entire division. To Room 1007, City Hall Annex, for permits for the installing of wires and electrical apparatus within buildings of the City of Boston, and for the payment of fees incident to the granting of the privileges above named, and which must be paid in advance.

To THE BOARD OF ZONING ADJUSTMENT, Room 30, City Hall, relative to changes in the boundary lines of zoning districts of the City of Boston as established by chapter 488 of the Acts of 1924, and amendments thereto.

MORTALITY REPORT.

For the week ending May 12, 1934:

Population estimated July, 1934, United States Census Bureau estimate, 795,256; number of deaths (stillbirths excluded): Residents, 196; nonresidents, 39; total, 235.

Death rate per 1,000 of population: All deaths, 15.37; nonresidents deducted, 12.81.

Death rate per 1,000 of population: Last week, 14.78; corresponding week last year, 13.85.

Deaths by age periods, sex, etc.: Under one year, 25; one year to four years, inclusive, 6; sixty years and over, 110. Total deaths: Male, 135; female, 100; deaths in hospitals and institutions, 147; deaths of colored, 7.

REPORTABLE DISEASES: CASES AND DEATHS.*

MAYOR MANSFIELD APPEALS TO CITY EMPLOYEES IN DEPARTMENTS DIRECTLY UNDER HIS CONTROL TO VOLUNTARILY TAKE TWO WEEKS ON PAYLESS FURLOUGHS VOLUNTARILY, IN ORDER TO MEET FINANCIAL EMERGENCIES CONFRONTING CITY THIS YEAR — ASKS CO-OPERATION IN PLAN — CALLS ATTENTION TO REFUSAL OF SCHOOL, COUNTY AND POLICE DEPARTMENT EMPLOYEES TO SHARE BURDEN, THUS PLACING ADDED HARDSHIP ON THOSE FORCED TO BEAR BRUNT OF PRESENT NECESSITY — DISCUSSES SITUATION IN WEEKLY BROADCAST FROM CITY HALL STATION OF WNAC.

In a radio address, on May 14, over Station WNAC, Mayor Mansfield said in part as follows:

With the enactment last week of the so-called "tax limit" bill by the Legislature, the stage has been set for submission to the City Council, at its next regular meeting, of my budget recommendations for the current fiscal year. When these recommendations are forwarded to the Council next Monday they will be accompanied by a message and statistical tables which will explain in considerable detail the important aspects and features of the 1934 budget. In anticipation of the submission of this budget message, I desire to discuss today with the members of my invisible audience one feature of the budget for the current year which has constituted a most serious and perplexing problem.

The budget of any municipality is the medium through which funds are allocated for the maintenance of activities and the conduct of services which the city is required to render for the benefit of its inhabitants. To conduct services and maintain activities it is necessary to employ a large personnel. It is only natural, therefore, to find that in a metropolitan city like Boston a major portion of the funds allocated through the budget is used for the payment of pay rolls.

In my early studies of the budget estimates, submitted by department heads, it became very clear that if any substantial reduction in the total of the budget was to be made, it would be necessary to adopt some plan or policy which, without imposing undue hardship on the rank and file of municipal employees, would nevertheless result in a reduced allotment of funds for pay roll purposes. In my first conference with the heads of city departments I stressed the fact that all nonessential positions must be eliminated and that all unnecessary and purely political employees must be removed from the official family of the city. As a result of these conferences department heads agreed to reductions in personal service appropriations of approximately $1,000,000.

Up to Department Heads.

In agreeing to these reductions it was understood that the details in connection with their administration and execution should be the direct responsibility of the department heads involved. Subsequent developments clearly indicated that in a few departments the reductions agreed upon could only be secured by a most stringent curtailment of department activities. In order to remedy this situation and to provide for a more equitable distribution of the total reduction which it was evident must be made in the pay rolls of the city to prevent an abnormal increase in the tax rate, I had prepared a general contribution schedule or plan. This plan was intended to apply to all employees receiving compensation from the city treasury.

Before making this plan public I conferred with the heads of those departments which do not come directly under the control of the Mayor, namely, the heads of the School, County and Police Departments. I emphasized to these officials the serious financial emergency confronting the city and explained to them that the adoption of the proposed plan was, in my opinion, desirable and necessary in order to assure a fair and equitable distribution of pay roll reductions. The schedule which I proposed is as follows:

1. Department heads, members of Boards and Commissions, division chiefs, deputies, or other officials and employees, whose present rate of compensation is in excess of $4,250 per year, a contribution equal to 10 per cent of their basic compensation.

2. Officials and employees whose present rates of compensation on an annual basis range between $2,551 and $4,250, both inclusive, a contribution equivalent to four weeks' pay at rates as they now exist.

3. Officials and employees whose present rates of compensation on an annual basis range between $1,786 and $2,550, both inclusive, a contribution equivalent to three weeks' pay at rates as they now exist.

4. Employees whose present rates of compensation on an annual basis range between $1,441 and $1,785, both inclusive, a contribution equivalent to two weeks' pay at rates as they now exist.

5. Employees whose present rates of compensation on an annual basis range between $950 and $1,440, both inclusive, a contribution equivalent to one week's pay at rates as they now exist.

6. Employees receiving less than $950 on annual basis will not be required to make any contribution.

In presenting this schedule for consideration by the officials previously mentioned, I pointed out that with the restoration of sliding scale increases, authority for which I confidently expected to receive from the Legislature, the employees in their particular departments would according to estimates prepared, receive very substantial benefits. In fact, the increases of this character which a large number of their employees would receive would more than offset the contribution which they would be required to make under the proposed plan.

I also gave assurance that if, for those officials and employees whose present rates of compensation are on the border lines of the various groups, an injustice would work out through the strict interpretation of the above schedule, adjustments would be made so as to prevent the annual income of an employee now receiving the minimum rate in any group being lowered below the annual income of an employee now receiving the maximum rate in the next lower group.

Three weeks or more have elapsed since these conferences. With one or two exceptions the officials with whom I conferred have failed to make any formal response to my proposal. From information which has come to me, however, I do not believe it would be wise to proceed in accordance with the old adage "silence gives consent." I am forced to assume that the failure of the officials in question to formally reply to my proposal is indicative of their unwillingness to have their respective departments participate in sharing the total reduction which must be secured in pay roll appropriations. I regret exceedingly the evident unwillingness of these departments which are beyond my control to cooperate in the present emergency. It means that we must go forward along the lines originally mapped out and that the personnel of certain city departments will be forced to bear a much heavier burden than would have been necessary if my contribution plan had been accepted.

While it is evident that it is impossible for me to put into effect a plan of contributions which would embrace all employees receiving compensation from the city treasury, nevertheless, I feel I should take steps at this time to afford some measure of relief for the employees of those city departments in which substantial reductions in pay roll appropriations were originally made.

Payless Furloughs.

I therefore plan to place before the employees of all departments directly under my control a proposal that they agree either to contribute the equivalent of two weeks' pay to the city treasury, or

to take a two weeks' payless furlough. In the event of the adoption of either of these proposals, the money so released or saved to the city will be utilized to relieve in part, at least, the heavy burden which otherwise employees of city departments, such as the Building, Wire, Health, Traffic, and Public Works will be required to bear. I confidently expect that the justice of this proposal will appeal to the employees to whom it will be made and that in a friendly and cooperative spirit they will gladly agree to assume a share and portion of the total reduction which it is clearly evident must be made in the pay rolls of the city if we are to prevent an abnormal increase in the tax rate of the current year.

I had hoped for cooperation from the School, County and Police Departments, and if I had received it the burden of contribution would have been scattered very thinly over a large number of employees. Not having received it, it is apparent that the burden must fall more heavily upon those departments which are contributing. I have given most careful thought to the whole matter and have striven to find some way which would distribute more evenly the burden of contribution which falls upon city departments which are entirely within the Mayor's control. Differing forms of contribution are now in effect in those departments and some of the employees are more seriously affected than others.

If this proposed plan of contributing two weeks' pay or of accepting a two weeks' payless furlough is adopted it will take the place of more uneven plans which are now in contemplation and in some cases already in effect.

Manifestly it is something that the city employees affected must agree to voluntarily, and I earnestly bespeak their hearty support of this plan which, instead of making it compulsory for certain departments to have payless furloughs of three months or more, substitutes a more humane method where all share equally.

AUTHORITY TO DO WORK.

The Mayor has approved the request of the Public Works Department for authority to grade approaches to Delano park, West Roxbury, to conform to the new grade of this street and make safe for traffic, with department forces, without advertising, the estimated cost for labor and material being $1,000.

The Mayor has approved the request of the Public Works Department for authority to reconstruct easterly side of Bennington Street Bridge, East Boston, with department force. This bridge is over the Boston, Revere Beach & Lynn Railroad, without advertising, the estimated cost for labor and material being $2,500.

CONTRACT AMENDED.

A. R. Doyle, Incorporated, has been allowed to amend the contract for Section D, North street widening and Cross street widening, Boston, Traffic Tunnel, by striking out on page 8, first paragraph, the words "ninety days" and substituting therefor the words "two hundred days," so that the contract as amended shall read on page 8, first paragraph, "The Contractor agrees to complete the work within two hundred days from notification by the Department to begin"—and that all provisions of said contract, excepting as modified herein, shall continue in full force and effect.

POLICE DEPARTMENT ORDERS.

General Order No. 480.

The report entitled, "Return A, Monthly Return of Offences Known to the Police," for the month of April, has been forwarded to Mr. J. E. Hoover, Director, Division of Investigation, Department of Justice, Washington, D. C.

This monthly return is composed of the following offences:

1. Criminal Homicide:
   - *a.* Murder and non-negligent manslaughter.
   - *b.* Manslaughter by negligence. (Assault with intent to murder.)
2. Rape. (Abuse of female child.) (Rape, assault to.)
3. Robbery (assault to, robbery armed and unarmed).
4. Aggravated assault (assault and battery with dangerous weapon, mayhem).
5. Burglary—breaking and entering.
6. Larceny—theft (except auto theft):
   - *a.* $50 and over in value.
   - *b.* Under $50 in value.
7. Auto theft (larceny of automobile and attempted larceny of automobile).

Divisions of this department reported on the above-mentioned offences collectively for the month of April as follows:

Division.	Number of Offences Reported.	Unfounded.	Actual.	Cleared.	Per Cent Cleared.
9	127	42	85	77	90.58
2	71	36	35	30	85.71
1	76	39	37	26	70.27
7	17	2	15	10	66.66
4	148	57	91	54	59.34
6	76	16	60	35	58.33
13	41	11	30	16	53.33
10	123	37	86	38	44.18
18	19	5	14	6	42.85
16	114	59	55	23	41.81
15	62	22	40	16	40.00
14	82	37	45	14	31.11
11	108	27	81	24	29.63
17	45	14	31	9	29.03
19	86	16	70	11	15.71

It will be noted upon examination of the percentage of cases cleared by the various divisions that Division 9 has the highest score.

The attention of the inspectors of divisions and commanding officers is called to the number of larceny cases reported for the month of April involving amounts up to $100 in value, and the small number of such cases that have been cleared by some divisions. It is believed that if these reported cases of larceny involving small amounts were more thoroughly investigated that many such reports would prove to be erroneous.

The percentage of cases reported cleared shows to good advantage in the more serious offences, and as such cases are generally given a more thorough investigation it is reasonable to assume that if greater effort were given to the investigation of small larceny cases a higher percentage of these cases cleared would prevail in the monthly report submitted by divisions.

The following percentage of cleared cases represents the combined averages of divisions by districts:

	Per Cent Cleared.
District B: (Divisions 1, 2, 7, 15 and 16)	60.89
District C: (Divisions 4, 6, 9, 10 and 11)	56.41
District A: (Divisions 13, 14, 17, 18 and 19)	34.41

The commissioner is pleased to note the improvement shown by many divisions in the percentage of cases cleared for the month of April.

The Superintendent of Police will promulgate this order.

EUGENE C. HULTMAN,
Commissioner.

General Order No. 481.

Roland W. Garrison, former member of the Police Department of the City of Boston, retired under General Order No. 1190, effective as of January 11, 1928, for physical disability resulting from injuries received while in the actual performance of his duty as a police officer, having, under the provisions of chapter 3 of the Acts of 1929, submitted to an examination by the Medical Board designated by said act, and having been certified by said Board as both physically and mentally fit for service in the Police Department of the City of Boston, is hereby restored to duty as a patrolman in the Police Department of the City of Boston, in the same grade as at the time of his retirement, with pay at the rate of $2,000 per annum, less 15 per cent.

The said Roland W. Garrison will be notified in writing by the chief clerk of this department to report for duty at Station 9, on Friday, May 18, 1934, at 7.45 o'clock a. m.

The Superintendent of Police will promulgate this order.

EUGENE C. HULTMAN,
Commissioner.

TRAFFIC COMMISSION RULINGS.

Voted, During the period of sewerage construction, estimated to be thirty (30) days, vehicles are excluded from Hunneman street, Roxbury district, between Fellows street and Harrison avenue, effective May 10, 1934.

Voted, That the temporary traffic regulation adopted February 1, 1934, which made Raleigh street a one-way street from Bay State road to Beacon street from February 12, 1934, to May 12, 1934, is hereby extended to August 12, 1934.

Voted, During the period of roadway resurfacing in Arlington avenue, estimated to be six (6) weeks, Dorrance street is a two-way street, between Main street and Arlington avenue, and parking of vehicles is prohibited in both sides, effective May 18, 1934.

Voted, During the period of installing heavy steel girders, vehicles are excluded from Winter street, between Washington street and Tremont street, on May 18, 1934, from 7 p. m. to 10 p. m.

BROADCAST BY MAYOR.

(*Continued from page 469.*)

SHORT-SIGHTED POLICY.

Well, indeed, did Senator Knowlton say in reference to the bill passed last Tuesday in the Senate that it ought to be entitled "A bill to put Boston into bankruptcy or to put the city employees out of a job." And, city employees, that is exactly what that bill means. These men who pretend to be your friends and who tell you that they are acting in your interests are your worst enemies. I am striving to save you your jobs—but all of my efforts will be useless and your jobs will be in jeopardy if the short-sighted policies of selfish political candidates is to prevail.

If everything that I try to do to reduce the cost of government is to be blocked by these politicians who have their own axes to grind, then the result inevitably will be that instead of temporary lay-offs or mild contributions to the city treasury, there will be many discharges and suspensions. It will not be my fault. It will be the fault of those men who ought to support me but who, instead, are destroying you.

I read with care the debate in the Senate on the bill to restore one third of the pay cuts in 1934. Many voices were raised on behalf of the city employee because the politician thinks that is the popular thing for him to do. But not one voice was raised for the taxpayer among those who voted in favor of compelling me to restore these pay cuts.

In other words, the politician is choosing between the taxpayer who pays the city employee his salary and the city employee who, without the taxpayer, cannot be paid at all. But I am giving these men fair warning that they are backing the wrong horse. They have future political ambitions. They think that their future political life depends upon catering to the city employee. But I tell them that the taxpayers far outweigh the city employees, and when it comes to a struggle between the two—and that struggle is rapidly approaching—the taxpayer will overwhelm the selfish city employee who insists on retaining his job and his full salary regardless of the ability of the taxpayer to find the money with which to pay him.

And how short-sighted city employees are. You have all read of my attempt to get contributions from the School Department and the employees of the county. Boston has to pay the bills for these departments, but they are not under the control of the Mayor. The result is that the only contributions I can get are from about one third of the entire municipal pay roll.

The school teachers refuse to contribute. It is time to say something about the school teachers. They have been, for many years, a very favored class. They have had fair pay, they have worked on an average of only five days a week, with short hours each day, and they have had from eight to ten weeks vacation each summer with pay. They refuse contribution in this critical hour of the city's need — one group of the municipal employees who can best afford to contribute. They are highly organized and they have their associations and their clubs. They have entered politics, and the same politicians who pretend to serve the interests of the city employees who are under the Mayor's control, also pretend to serve the school teachers. But they are blind, with all their intelligence and training. They cannot see that insisting upon the last pound of flesh and the last drop of blood may drain the city to the point where they can no longer be retained or paid. They may face payless pay days. They surely will face payless pay days if the taxpayer is driven to the point where he cannot pay his taxes.

RESULT INEVITABLE.

The result will be inevitable. If the tax rate is driven too high and the taxes can't be collected there will be no money to pay any city employees and we will be in the position of Chicago, Fall River, and dozens of other cities throughout this country.

And what about the county employees? The County of Suffolk is composed of Boston, Chelsea, Revere and Winthrop, and Boston pays practically the entire county expense. You know, from what you have read in the papers recently, that I asked the county employees to contribute in this emergency. I received absolutely no encouragement from any of the departments in the County of Suffolk. I have no power over them. My request for contributions was ignored.

The county rings are permeated by politics. Many heads of the county departments refused to contribute or even to submit the plan to their employees. Some say that they have to run for re-election and that campaigns are expensive, but I do not think that that is an adequate excuse for not submitting the plan to their subordinates.

Well, taxpayers, it is time for the county to go. There is no excuse any longer in these modern days for the existence of the county government. It is a useless encumbrance—a worn-out and extravagant institution that serves no useful purpose whatever.

This refusal by the county employees to contribute in this emergency to the City of Boston marks the beginning of the end of county government in this state. I know the strength of the county rings. I know what a battle it will be when legislation is introduced next year to abolish county government in this Commonwealth. I know that such legislation may not succeed at once, but I also know that public opinion will drive the county out of business, and it won't take many years to do it.

All I asked of the school and police department and the county employees was merely to share the burden which is falling heavily upon the remaining municipal departments which are under the Mayor's control. It called for only a small contribution. It seemed to me to be fair—it was graduated so that those contributed most who could afford most and yet it spread the contribution out so thinly over the entire 22,000 employees that it would not have caused hardship anywhere.

EMERGENCY GREAT.

But, as I have said, those departments representing about two thirds of the entire personnel refused to contribute.

There is the situation and it is your fight that I am making. Pressed on the one hand for relief by the taxpayer who wants lower rates and lower assessments, and on the other hand by politicians, who think they are following the popular trend, to increase expenditures, with the credit and the fair name of the city trembling in the balance, these representatives of ours fiddle while the city burns.

The emergency is so great and the outlook for Boston so alarming that today I filed with the Committee on Rules a petition to restore to me the power to continue the pay cuts during the year 1935. I feel so certain that failure to give me this power will result in a ruinous tax rate which will not only deprive many people of their homes and many real estate owners of their property but will necessarily force many of them into bankruptcy, and indeed with bankruptcy for the city looming close in the background, that I have felt impelled to take this extraordinary step. I do not think the Legislature who voted to take this power away from me in 1935 understood the full importance of their act as applied to the City of Boston. I need your help, citizens, and I am talking now to every citizen from Pittsfield to Provincetown. Not only is the City of Boston in danger but the entire state is in danger. I earnestly urge you to telegraph or write immediately to your representatives and senators at Boston urging them to get behind this bill so that at least I may have the power of averting disaster to Boston in 1935. I pledge myself that the power will not be exercised unless in my opinion it is absolutely necessary to exercise it. But I ought to have that power.

Arouse yourselves, taxpayers! I am fighting this battle for you — and I am fighting it alone. But I need your help. Get behind me in this fight. Warn those representatives and senators of yours to reverse their stand or take the consequences. But if you do not help me I shall not give up. I am going through. I have told you before and I repeat that I have no future political ambitions. All I want to do is the very best that I can for Boston and I propose to do that. If I get no help from the taxpayers, nevertheless I shall win out in this fight. If my hand is forced as these politicians are forcing it now the result will merely be more drastic policies of retrenchment because the city must be saved. I am confident that public opinion is behind me and that the force of that opinion will compel these men who are strolling so unconcernedly on the brink of a precipice to face about and retrench while there is yet time.

AMENDED DAMAGES.

The Mayor has approved the following vote of the Board of Street Commissioners:

Voted, That the order of the Street Commissioners and Mayor of December 30, 1932, determining damages caused by the making of the public improvement, consisting of the extension of Wilmington avenue, be, and the same hereby is, amended, by striking from said order the amount $130 awarded to William P. Graham and Catherine A. Graham in said order and inserting in place thereof the amount $160 and the names William P. Graham and Catherine C. Graham; that the amount $160 be, and the same hereby is, awarded to William P. Graham and Catherine C. Graham for the damages so sustained.

SLUM CLEARANCE STARTS—C. W. A. TO TEAR DOWN BUILDINGS.

The National Association of Housing Officials is urging its members to cooperate with C. W. A. authorities in getting under way local projects for tearing down useless and unsanitary structures—the kind that make up slums. A recent bulletin from Harry Hopkins, C. W. A. head, authorized the undertaking of such projects.

National Meter Company, Nash meters; Neptune Meter Company, Trident cold water meters; Union Water Meter Company, tax clause; Buffalo Meter Company, 2 per cent, ten days, American bronze meters; Pittsburgh Equitable Meter Company, Arctic.

*Contract awarded.

—

Upon May 11 the Mayor approved a contract with the H. E. Fletcher Company for furnishing granite edgestones for the Public Works Department.

The lowest bidder is the Pease Company of Nashua, N. H., whose bid, including cash discount, is $43,063.16. The next lowest bidder is H. E. Fletcher Company of West Chelmsford, whose bid, including cash discount, is $43,342.20, or $279.04 higher than the low bid.

The Pease Company of Nashua, N. H., has never supplied any edgestone to the City of Boston and if the contract is awarded to them, it would be necessary for the Public Works Department to keep an inspector at the contractor's plant to insure material delivered meeting specifications. This item of expense for inspection would more than overbalance the difference in the bids of $279.04. Bids, opened April 30, were as follows.

Approximate Amounts on All Items.

40,000 Linear Feet Straight Edgestones, Per Linear Foot.—T. H. McVey, $1.06; H. E. Fletcher Company, 97 cents; Pease Company, 98 cents.

2,400 Linear Feet Circular Edgestones, Per Linear Foot.—T. H. McVey, $2; H. E. Fletcher Company, $1.27; Pease Company, $1.33.

400 Small Corners, Each.—T. H. McVey, $6.50; H. E. Fletcher Company, $4; Pease Company, $3.50.

100 Linear Feet Special Edgestones, Per Linear Foot.—T. H. McVey, $1.85; H. E. Fletcher Company, $1.12; Pease Company, $1.50.

Total.—T. H. McVey, $49,985; H. E. Fletcher Company, $43,560; Pease Company, $43.942.

Cash Discount, Ten Days.—T. H. McVey, one half of 1 per cent; H. E. Fletcher Company, one half of 1 per cent; Pease Company, no cash discount in Supply copy of bid; 2 per cent cash discount in auditor's copy of bid.

Net Total.—T. H. McVey, $49,735.08; H. E. Fletcher Company, $43,342.20; Pease Company, $43,063.16.

—

Upon May 11 the Mayor approved a contract with the Somerset Bituminous Company for furnishing approximately 84,500 gallons nonasphaltic road oil to the Park Department. Bids, opened Wednesday, April 11, were as follows:

Approximately 84,500 Gallons Non-asphaltic Road Oil, Per Gallon Applied.—Somerset Bituminous Company, 7.19 cents; Shell Eastern Petroleum Products, Incorporated, 9.25 cents; Trimount Oil Company, 9.4 cents; Eastern Asphalt and Oil Company, 9.5 cents; American Oil Products Company, 9.6 cents; Standard Oil Company of New York, Incorporated, 9.75 cents.

Total.—Somerset Bituminous Company, $6,075.55; Shell Eastern Petroleum Products, Incorporated, $7,816.25; Trimount Oil Company, $7,943; Eastern Asphalt and Oil Company, $8,027.50; American Oil Products Company, $8,112; Standard Oil Company of New York, Incorporated, $8,238.75.

Cash Discount, Ten Days.—Somerset Bituminous Company, 3 per cent; Shell Eastern Petroleum Products, Incorporated, 2 per cent; Trimount Oil Company, 2 per cent; Eastern Asphalt and Oil Company, 2 per cent; American Oil Products Company, 2 per cent; Standard Oil Company of New York, Incorporated, 2 per cent.

Source of Crude Oil.—Somerset Bituminous Company, Venezuelan or Mexican; Shell Eastern Petroleum Products, Incorporated, Venezuela; Trimount Oil Company, Mexican; Standard Oil Company of New York, Incorporated, Mexico.

—

Upon May 11 the Mayor approved contracts with the Cities Service Refining Company and the Standard Oil Company of New York, Incorporated, for furnishing gasolene and kerosene for the various city departments for the balance of the calendar year 1934. Bids, opened March 26, were as follows:

Privilege of purchasing on same terms and conditions extended to March 31, 1935. Prices on gasolene to be exclusive of Federal tax.

Excerpts from CD–1 on gasolene: Price shall be seller's tank wagon price in effect at time and place of delivery, as posted at seller's plant from or at which delivery is made.

Discounts on 60 Octane and above: From 3,000 gallons to 10,000 gallons per month, 1 cent a gallon; over 10,000 gallons per month, 2 cents a gallon. If single deliveries of less than 100 gallons are made the retail service station price will apply without discount.

Approximately 928,000 Gallons Gasolene (Including 3 Cents State Tax, Tank Wagon Price, March 26, 1934).

Above 70 Octane, Per Gallon.—The Atlantic Refining Company, as per CD–1, Atlantic, Ethyl, 14 cents; quantity per year, minimum, 100 gallons, maximum,

100,000 gallons; Atlas Petroleum Company, Incorporated, as per CD–1, no bid in auditor's proposal; Cities Service Refining Company, as per CD–1, Ethyl, 16 cents; Colonial Beacon Oil Company, Incorporated, as per CD–1, Esso Motor Fuel, 16 cents; Gulf Refining Company, as per CD–1, No-Nox, Ethyl, 16 cents; Jenney Manufacturing Company, as per CD–1, 16 cents; Lincoln Oil Company, as per CD–1, 16 cents; E. F. Loonie, Jr., Distributor for Quincy Oil Company,* 16 cents; National Oil Company, as per CD–1, above 65 Octane, National, 13 cents; Pennsylvania Oil Company, as per CD–1, 16 cents; Standard Oil Company of New York, Incorporated, as per CD–1, 13.5 cents; Superior Petroleum Products Company,† as per CD–1, Richfield Ethyl, 16 cents; The Texas Company, as per CD–1, Texaco, with Ethyl, 16 cents; Tide Water Oil Company,‡ as per CD–1, Tydol Ethyl, 15 cents; Gold Seal Oil and Supply Company,§ 15 cents.

60 to 70 Octane, Per Gallon.—The Atlantic Refining Company, as per CD–1, Atlantic White Flash Plus, 14 cents; quantity per year, minimum, 300,000 gallons, maximum, 1,500,000 gallons; Atlas Petroleum Company, Incorporated, as per CD–1, no bid in auditor's proposal; Cities Service Refining Company, as per CD–1, Koolmotor, 14 cents; U. S. Motor, 12 cents; Colonial Beacon Oil Company, Incorporated, as per CD–1, Essolene, 14 cents; Gulf Refining Company, as per CD–1, Good Gulf, 14 cents; Jenney Manufacturing Company, Hy-Power, 14 cents; Third Grade, 12 cents; Lincoln Oil Company, as per CD–1, 11.5 cents; E. F. Loonie, Jr., Distributor for Quincy Oil Company,* 12 cents; National Oil Company, as per CD–1, above 65 Octane National, 13 cents; Pennsylvania Oil Company, as per CD–1, 14 cents; Standard Oil Company of New York, Incorporated, as per CD–1, 13.5 cents; Socony Mobilgas, proposal at auditor's office unsigned; Superior Petroleum Products Company,† as per CD–1, Richfield Golden, 14 cents; The Texas Company, as per CD–1, Texaco Fire Chief, 14 cents; Tide Water Oil Company,‡ as per CD–1, Triple X Tydol, 15 cents; Gold Seal Oil and Supply Company,§ 13 cents.

Approximately 78,600 Gallons Commercial Quality Kerosene, Per Gallon Less Than Current Tank Wagon Price.—American Oil Company, 8.5 cents a gallon delivered, current tank wagon price; The Atlantic Refining Company, 2 cents less than bidder's current tank wagon price at time and point of delivery, delivered by tank truck; Atlas Petroleum Company, Incorporated, tank wagon price day of delivery, no bid in auditor's proposal; Cities Service Refining Company, seller's posted tank wagon price, present price is 8.5 cents per gallon; Colonial Beacon Oil Company, Incorporated, Colonial-Beacon's posted tank wagon price at time and place of delivery, March 26, 1934, price is 8.5 cents a gallon; Gulf Refining Company, tank wagon price at time and point of delivery, March 26, 1934, price is 8.5 cents a gallon; Jenney Manufacturing Company, posted tank wagon price at time of delivery; Lincoln Oil Company, 1½ cents March 26, 1934, price, 7 cents a gallon; E. F. Loonie, Jr., Distributor for Quincy Oil Company, 1½ cents; National Oil Company, 1 cent; Pennsylvania Oil Company, 1 cent; Standard Oil Company of New York, Incorporated, Socony burning oil, 2.3 cents, March 26, 1934, tank wagon price, 8.5 cents a gallon; Superior Petroleum Products Company, 5 cents; The Texas Company, Crystalite, 2 cents, March 26, 1934 tank wagon price, 8.5 cents a gallon; Tide Water Oil Company, price posted by Tide Water at its bulk plant on date of each delivery less 1 cent per gallon, both copies of bid filed at Supply Department; Gold Seal Oil and Supply Company, 1 cent, March 26, 1934, posted tank wagon price, 8.5 cents a gallon, minimum of 1¾ cents per gallon above the Boston District market wholesale tank car price at all times, no copy of bid at auditor's.

* Two cents below tank wagon price on date of delivery.

† Bidder guarantees gasolene to be supplied will be at all times between the range of 68 degrees and 70 degrees Octane.

‡ Both copies of bid filed at Supply Department.

§ Two cents per gallon below bidder's posted tank wagon prices, minimum of 1¾ cents per gallon above the Boston District Market wholesale tank car price at all times. No copy of bid at auditor's.

Upon May 14 the Mayor approved a contract with the Eagle Electric Supply Company, Incorporated, for furnishing flashlight equipment to the various city departments until December 31, 1934. Bids, opened May 4, were as follows:

Approximate Amounts on All Items.

6 Flashlights Complete, Burgess, or Equal, F-23, Black, Each.—General Electric Supply Corporation, 75 cents, E. R., No. 2672; Milhender, Incorporated, 99 cents, No. 3203, 3 cells, Bond; Green & Swett Company, 75 cents; Wetmore-Savage Electric Supply Company, 75 cents, No. 2672, E. R.; George H. Wahn Company, 75 cents; Sager Electric Supply Company, 87 cents, No. 3203, Bond; Graybar Electric Company, Incorporated, 75 cents, No. 2672, E. R.; Eagle Electric Supply Company, Incorporated, 71 cents.*

Flashlight Cases.

3 Uni Cell, No. 1, Burgess, or Equal, Each.—General Electric Supply Corporation, 4 cents, E. R., No. 935; Milhender, Incorporated, 4 cents, No. 101, Bond; Green & Swett Company, 4 cents; Wetmore-Savage Electric Supply Company, 4 cents, No. 935, E. R.; George H. Wahn Company, 4 cents; Sager Electric Supply Company, 4 cents, No. 101, Bond; Graybar Electric Company, Incorporated, 4 cents, No. 935, E. R.; Eagle Electric Supply Company, Incorporated, 4 cents.*

3 Uni Cell, No. 2, Burgess, or Equal, Each.—General Electric Supply Corporation, 4 cents, E. R., No. 950; Milhender. Incorporated, 4 cents, No. 102, Bond; Green & Swett Company, 4 cents; Wetmore-Savage Electric Supply Company, 4 cents, No. 950, E. R.; George H. Wahn Company, 4 cents; Sager Electric Supply Company, 4 cents, No. 102, Bond; Graybar Electric Company, Incorporated, 4 cents, No. 950, E. R.; Eagle Electric Supply Company, Incorporated, 4 cents.*

24 No. 705, Eveready, or Equal, Each.—General Electric Supply Corporation, 12 cents; Milhender, Incorporated, 12 cents, No. 112, Bond; Green & Swett Company, 12 cents; Wetmore-Savage Electric Supply Company, 12 cents; George H. Wahn Company, 12 cents; Sager Electric Supply Company, 15 cents, No. 112, Bond; Graybar Electric Company, Incorporated, 12 cents; Eagle Electric Supply Company, Incorporated, 12 cents.*

12 No. 950, Eveready, or Equal, Each.—General Electric Supply Corporation, 4 cents; Milhender, Incorporated, 4 cents, No. 102, Bond; Green & Swett Company, 4 cents; Wetmore-Savage Electric Supply Company, 4 cents; George H. Wahn Company, 4 cents; Sager Electric Supply Company, 4 cents, No. 102, Bond; Graybar Electric Company, Incorporated, 4 cents; Eagle Electric Supply Company, Incorporated, 4 cents.*

18 No. 2612, Eveready, or Equal, Each.—General Electric Supply Corporation, 74.5 cents; Milhender, Incorporated, 63 cents, No. 3101, Bond; Green & Swett Company, 77 cents; Wetmore-Savage Electric Supply Company, 74.5 cents; George H. Wahn Company, 74.5 cents; Sager Electric Supply Company, 63 cents, No. 3101, Bond; Graybar Electric Company, Incorporated, 74.5 cents; Eagle Electric Supply Company, Incorporated, 62 cents.*

100 No. 2619, Eveready, or Equal, Each.—General Electric Supply Corporation, 75 cents; Milhender, Incorporated, 87 cents, No. 3203, Bond; Wetmore-Savage Electric Supply Company, 75 cents; George H. Wahn Company, 75 cents; Sager Electric Supply Company, 86 cents, No. 3203, Bond; Graybar Electric Company, Incorporated, 75 cents; Eagle Electric Supply Company, Incorporated, 85 cents.*

12 No. 2634, Eveready, or Equal, Each.—General Electric Supply Corporation, 54 cents; Milhender, Incorporated, 42 cents, No. 2292, Bond; Wetmore-Savage Electric Supply Company, 54 cents, No. 2671; George H. Wahn Company, 54 cents; Sager Electric Supply Company, 67 cents, No. 2203, Bond; Graybar Electric Company, Incorporated, 54 cents; Eagle Electric Supply Company, Incorporated, 65 cents.*

18 3-Cell, Focusing Style No. 2642, Eveready, or Equal, Each.—General Electric Supply Company, $1.13; Milhender, Incorporated, 40 cents, No. 3216, Bond; Green & Swett Company, 87 cents; Wetmore-Savage Electric Supply Company, $1.13; George H. Wahn Company, $1.13; Sager Electric Supply Company, $1.13, No. 3205, Bond; Graybar Electric Company, Incorporated, $1.13; Eagle Electric Supply Company, Incorporated, 85 cents.*

12 No. 102, Bond, or Equal, Each.—General Electric Supply Corporation, 4 cents, No. 950, E. R.; Milhender, Incorporated, 4 cents; Green & Swett Company, 4 cents; Wetmore-Savage Electric Supply Company, 4 cents, No. 950, E. R.; George H. Wahn Company, 4 cents; Sager Electric Supply Company, 4 cents; Graybar Electric Company, Incorporated, 4 cents, No. 950, E. R.; Eagle Electric Supply Company, Incorporated, 4 cents.*

72 2-Cell, No. 2201, or Equal, Bond, or Equal, Each.—General Electric Supply Corporation, 54 cents, No. 2671, E. R.; Milhender, Incorporated, 52 cents; Green & Swett Company, 51 cents; Wetmore-Savage Electric Supply Company, 54 cents, No. 2671, E. R.; George H. Wahn

Company, 54 cents; Sager Electric Supply Company, 51 cents; Graybar Electric Company, Incorporated, 54 cents, No. 2671, E. R.; Eagle Electric Supply Company, Incorporated, 50 cents.*

24 Spotlight, No. 2292, Bond, or Equal, Each.—General Electric Supply Corporation, 26 cents, No. 251, E. R.; Milhender, Incorporated, 42 cents; Wetmore-Savage Electric Supply Company, 26 cents, No. 251, E. R.; George H. Wahn Company, 26 cents; Sager Electric Supply Company, 39.5 cents; Graybar Electric Company, Incorporated, 26 cents, No. 251, E. R.; Eagle Electric Supply Company, Incorporated, 40 cents.*

24 3-Cell, No. 3101, Bond, or Equal, Each.—General Electric Supply Corporation, 74.5 cents, No. 2612, E. R.; Milhender, Incorporated, 63 cents; Green & Swett Company, 77 cents; Wetmore-Savage Electric Supply Company, 74.5 cents, No. 2612, E. R.; George H. Wahn Company, 74.5 cents; Sager Electric Supply Company, 63 cents; Graybar Electric Company, Incorporated, 74.5 cents, No. 2612, E. R.; Eagle Electric Supply Company, Incorporated, 62 cents.*

R.; George H. Wahn Company, 26 cents; Sager Electric Supply Company, 39.5 cents; Graybar Electric Company, Incorporated, 26 cents, No. 251, E. R.; Eagle Electric Supply Company, Incorporated, 40 cents.*

Total.—General Electric Supply Corporation, $1,780.29; Milhender, Incorporated, $1,749.82; Green & Swett Company, $1,668.06; Wetmore-Savage Electric Supply Company, $1,780.29; George H. Wahn Company, $1,780.29; Sager Electric Supply Company, $1,860; Graybar Electric Company, Incorporated, $1,780.29; Eagle Electric Supply Company, Incorporated, $1,720.62.*

Cash Discount, Ten Days.—General Electric Supply Corporation, 2 per cent; Milhender, Incorporated, 2 per cent; Green & Swett Company, 2 per cent; flashlites and batteries maunfactured by the Ray-O-Vac Company, Clinton, Mass.; prices good until November 4, 1934; Wetmore-Savage Electric Supply Company, 2 per cent; George H. Wahn Company, 2 per cent; Sager Electric Supply Company, 2 per cent; contract must be awarded in its entirety; Graybar Electric Company, Incorporated, 2 per cent; Eagle Electric Supply Company, Incorporated, 2 per cent.

Contract awarded.

—

Upon May 17 the Mayor approved a contract with Joseph H. Wright for furnishing approximately 300,000 square feet sods to the Park System and cemeteries. Bids, opened May 11, were as follows:

Approximately 300,000 Square Feet Sods.—Thomas E. Bryan 3.5 cents per square foot; total, $10,500; T. J. McCue Construction Company, Incorporated, 3.9 cents per square foot; total, $11,700; one half of 1 per cent, ten days; Joseph H. Wright, 3 cents per square foot; total, $9,000; 2 per cent, ten days.

15,000 square feet to be charged to Cemetery Division and balance to be charged to the Park Department.

TRANSIT DEPARTMENT.

Upon May 4 the Mayor approved a contract with H. M. Haley Electric Company, Incorporated, for installing communication and signal systems, Traffic Tunnel. Bids, opened May 2, were as follows:

M. B. Foster Electric Company, $4,784; Lord Electric Company, Incorporated, $3,887; Hixon Electric Company, $3,800; Massachusetts Electric

Construction Company, Incorporated, $2,600; Kenworthy & Taylor, Incorporated, $2,559; Quinn Brothers, $1,850; J. & M. Brown Company, Incorporated, $1,845; H. M. Haley Electric Company, Incorporated, $1,735.

Upon May 5 the Mayor approved a contract with the American-LaFrance & Foamite Industries, Incorporated, for furnishing and delivering fifty-seven carbon monoxide anti-freeze fire extinguishers for the Traffic Tunnel, as follows:

Walter Kidde & Co., Incorporated, $2,539.35; American-LaFrance & Foamite Industries, Incorporated, $2,539.35.

Upon May 10 the Mayor approved a contract with the W. A. Snow Iron Works, Incorporated, for furnishing and erecting a fence at the Boston Ventilation Building, Traffic Tunnel. Bids, opened Monday, May 7, were as follows:

E. Van Noorden Company, $1,180; West End Iron Works, $887; Hub Steel and Iron Works, Incorporated, $793; W. A. Snow Iron Works, Incorporated, $747.

Upon May 14 the Mayor approved a contract with the American Chain Link Fence Company for furnishing and erecting chain link fences at the inclines to the Traffic Tunnel. Bids, opened Thursday, May 10, were as follows:

Hub Wire Cloth and Wire Work Company, $1,508.80; P. J. Dinn & Co., $1,246.40; American Chain Link Fence Company, $1,048.78.

WITHOUT ADVERTISING.

Upon varying dates, as indicated, the Mayor approved a contract with firms and companies for supplies and work as follows. Communications from the heads of the several departments were as follows:

ASSESSING DEPARTMENT.

BOSTON, May 9, 1934.

HON. FREDERICK W. MANSFIELD,
Mayor of Boston.

DEAR SIR,— We desire your permission to make a contract with Rose F. Healy (as Healy's Office Service), without advertising, in the preparation of the assessed poll list for the year 1934, which lincludes the typing of the Assessors' Poll Tax Book and Collector's Poll Tax Manuscript, and the writing of the poll tax bills and coupons. The advertising of the poll tax list at this time would delay the final delivery of poll tax bills and their collection.

This work will necessitate preparing two copies of the Police List, showing the name, residence, ward and serial number of each male person over twenty years of age. In order to give a consecutively numbered list it will be necessary to eliminate all females, businesses, vacant dwellings, stores, etc., by the process of striking out upward of 275,000 items; then number the remaining male residents consecutively, beginning with number one for each ward, approximately 243,000 items.

From the list thus created, it is desired that they write poll tax bills and coupons, giving name, street and number, ward number, precinct number, and serial number on both the tax bill and the coupon.

Time is an essential element in this contract, and it is therefore necessary to have the poll tax bills written as early as possible, so that deliveries may be made and payments insured without delay.

The contractor will complete the delivery of tax bills not later than June 25, and will make such inserts and corrections as may be found necessary from time to time, after the completion of the original list, at no additional cost.

The Healy Office Service are fully equipped to complete the work, in the time specified, and have fireproof facilities, thus affording the necessary protection of the records during the progress of the work.

It is, therefore, believed that the best interests of the city will be served by awarding the contract to the Healy Office Service.

We request your permission to make this contract with Healy's Office Service of Boston, without advertising, at a total cost not to exceed $7,250, which is less than the cost in 1933, and which is based upon a charge of three cents per item, approximately. If the total number of items is less than the estimate of 243,000, the final cost of this contract is to be accordingly reduced.

Respectfully,

BOARD OF ASSESSORS.
by EDWARD KELLY,
Chairman.

PUBLIC WORKS DEPARTMENT,

BOSTON, May 8, 1934.

To the Mayor of Boston.

Your permission is respectfully requested to the award of a contract for the construction of artificial stone sidewalks in the public streets, without advertising, to P. J. Cantwell & Son of 82 Dwinell street, West Roxbury, on the ground that this contractor is not selected by the city in the first instance but by the abutters; secondly, the expense of construction is to be divided by the city and abutters; and also because such contracts vary greatly in amounts and seldom involve $1,000.

Respectfully yours,

C. J. CARVEN,
Commissioner of Public Works.

BOSTON, May 10, 1934.

To the Mayor of Boston.

Your permission is respectfully requested to the award of a contract for the construction of artificial stone sidewalks in the public streets, without advertising, to Dennis F. Reardon of 200 Riverway, Roxbury, on the ground that this contractor is not selected by the city in the first instance but by the abutters; secondly, the expense of construction is to be divided by the city and abutters; and also because such contracts vary greatly in amounts and seldom involve $1,000.

Respectfully yours,

C. J. CARVEN,
Commissioner of Public Works.

SUPPLY DEPARTMENT.

801 CITY HALL ANNEX,
BOSTON, May 9, 1934.

HON. FREDERICK W. MANSFIELD,
Mayor of Boston.

DEAR SIR,—In accordance with your approval of March 22, 1934, under which permission was granted to purchase material needed for F. E. R. A. work, where the value of such purchase exceeded $1,000, without the formality of advertising in the *City Record*, I would request that you sanction the purchase of the following:

1 No. S60-10 Monarch steam boiler to be delivered to the Roxbury Courthouse at a price of $1,039 delivered.

1 3-inch Massachusetts police safety valve at a price of $21.45 delivered to the Roxbury Courthouse, above prices being subject to a cash discount of 5 per cent if paid fifteen days from date of invoice.

I am attaching copy of letter from the Superintendent of Public Buildings in which he informs this department that the Federal authorities will withdraw the men after approximately fourteen more working days on this project, and as the boiler is being purchased from the manufacturer under the N. R. A. code, which protects the City of Boston on price, I would respectfully request that permission asked for be granted.

Yours respectfully,

WARREN W. LOOMIS,
Superintendent of Supplies.

ADDITIONS TO CONTRACT.

DEPARTMENT OF SCHOOL BUILDINGS.

Rugo Construction Company, Incorporated, has been allowed to add for the following changes in the contract for the William Barton Rogers School addition, on account of the present rock conditions where new driveway occurs, it is necessary to build a concrete wall in order to have it level and safe: 28 cubic yards reinforced concrete at $16, $416; 750 square feet carborundum finish at 8 cents, $60; 20 cubic yards of backfill at 50 cents, $10; loam and seeding, $20; drilling and dowels, $15; 130 feet of remold expansion joint material at 20 cents, $26. Total, $547, and the amount of $547 will be added therefor, making the account as follows: Contract price, $217,221; total additions, $27,697; amount of contract, $244,918.60.

REQUESTS FOR CONSTRUCTION WORK.

PUBLIC WORKS DEPARTMENT.

The Mayor has approved the following requests for construction work from the Public Works Department:

BOSTON, May 1, 1934.

To the Honorable Mayor.

A certificate of inspection issued by the Department of Commerce under which the ferryboat "General Sumner" operates expires May 10, 1934. Before a new certificate is issued the ferryboat must be taken out of the water, the hull examined and the boiler and main steam line to the throttle tested. At the same time that the Federal inspection is required miscellaneous repairs to the hull, superstructure and power plant are also required.

This work is always performed under an advertised contract in the *City Record* and the cost will probably amount to $5,000.

I respectfully request your permission to advertise and to receive bids for placing the ferryboat "General Sumner" in condition suitable for the passing of an inspection by the Steam Inspection Service, Department of Commerce.

Respectfully,

C. J. CARVEN,
Commissioner of Public Works.

BOSTON, May 2, 1934.

To the Honorable the Mayor.

The widening of Cross street between Hanover street and Haymarket square,

on account of the construction of the East Boston Tunnel, necessitates the Water Division of the Public Works Department to lay 350 linear feet of 12-inch pipe and 650 feet of 12-inch high pressure fire pipe in said street widening.

In order not to interfere with the paving contract to be advertised by the Transit Department, the advertising of bids for the water pipe laying should be in this Saturday's *Record*.

I respectfully request permission to advertise for bids for the above work. The estimated cost of the work to be done is $6,500.

Respectfully,

C. J. CARVEN,
Commissioner of Public Works.

—

BOSTON, May 4, 1934.

To the Honorable the Mayor.

Last fall a petition was received from a building contractor to lay approximately 160 linear feet of 12-inch drain pipe to care for four prospective houses to be built in Haven avenue, Mattapan, said Haven avenue being a private way. The contractor, before starting to build, was assured that in due time after building operations were started that the Public Works Department would install the drain pipe, etc.

Building construction has reached a point where the laying of the drain pipe is essential. In private ways it has been the policy to grant such petitions as an encouragement for developing and building on said private ways thereby creating taxable property to the benefit of the city's revenue.

The estimated cost is $1,600 and I respectfully request permission to advertise and receive bids for the laying of 160 linear feet of 12-inch drain pipe in Haven avenue, Mattapan.

Respectfully,

C. J. CARVEN,
Commissioner of Public Works.

—

BOSTON, May 8, 1934.

To the Honorable the Mayor.

In repairing the wooden flooring of the Bennington Street Bridge over the Boston, Revere Beach & Lynn Railroad, it has been found that three of the steel beams carrying the flooring are so badly rusted that immediate need of replacement arises.

I respectfully request your permission to advertise and receive bids for replacing the steel floor beams necessary on the Bennington Street Bridge.

The cost of the work to be done is approximately $1,000.

Respectfully,

C. J. CARVEN,
Commissioner of Public Works.

—

BOSTON, May 15, 1934.

JOSEPH F. MELLYN,
Secretary, Mayor's Office.

DEAR SIR,—Reporting on the attached communication from R. E. Carrigan to the Honorable Mayor relative to the construction of a sewer in Orient avenue, beg leave to state that at the present time four houses on Orient avenue have no drainage connection and the Carrigan Sales Company are now building five additional houses on said Orient avenue.

It is very essential that a sewer be laid in Orient avenue to care for the above buildings and this sewer will call for the laying of 384 linear feet of 10-inch pipe drain, also 384 linear feet of pipe surface drain at an estimated cost of $4,000.

I respectfully request permission to advertise and receive bids for this construction work as the project is a necessary one for the improvement of the building operations of the Carrigan Sales Company.

Respectfully,

C. J. CARVEN,
Commissioner of Public Works.

CIVIL SERVICE EXAMINATIONS. (STATE.)

STATE EXAMINERS OF ELECTRICIANS.

Examinations, 1934.

Examinations will be held at the following points and on the following dates:

Boston, Monday, June 4.
Boston, Monday, September 17.
Worcester, Wednesday, September 19.
Springfield, Thursday, October 25.
Pittsfield, Friday, October 26.
Boston, Monday, November 5.
Lowell, Wednesday, November 7.
Boston, Monday, December 3.
New Bedford, Thursday, December 6.
New Bedford, Friday, December 7.

RULES FOR EXAMINATIONS.

All examinations shall be given in English.

Applicants for Class B or journeyman's certificate must be at least eighteen years of age and have had at least two years' practical experience or the equivalent in the installation of wires, conduits, apparatus, fixtures and other appliances for carrying or using electricity for light, heat or power purposes.

Applicants for Class A or master's certificate must be at least twenty-one years of age and have had at least two years' experience in the business of installing wires, conduits, apparatus, fixtures and other appliances for carrying or using electricity for light, heat or power purposes.

Examinations shall consist of applicant's knowledge of the National Electrical Code and practical electrical work.

All persons desiring to be examined, either for a Master or Journeyman Certificate, shall have application on file at least ten days previous to the date of such examination.

Applicants for examination will be required to obtain at least 70 per cent in order to obtain a certificate.

Applicants who fail to obtain the required 70 per cent will not be entitled to re-examination until a period of three months has elapsed, and those who receive less than 50 per cent, or who fail on the practical demonstration, will not be re-examined for a period of six months.

Any person found referring to notes or books, or misbehaving during an examination, will be debarred from that examination.

Notice will be sent to applicants for certificates when and where examination will be held, and only those so notified will be examined on that day.

JAMES M. HURLEY,
PAYSON SMITH,
STEPHEN C. GARRITY,
State Examiners of Electricians.

—

For application blanks or other information apply to State Examiners of Electricians, Room 413A, State House, Boston, Mass.

BOSTON'S POPULATION ON APRIL 1, 1930, BY WARDS.

Ward 1, 61,454; Ward 2, 31,663; Ward 3, 66,219; Ward 4, 31,010; Ward 5, 30,771; Ward 6, 34,689; Ward 7, 32,482; Ward 8, 31,943; Ward 9, 30,362; Ward 10, 29,694; Ward 11, 30,034; Ward 12, 36,123; Ward 13, 29,019; Ward 14, 55,914; Ward 15, 27,729; Ward 16, 31,329; Ward 17, 30,099; Ward 18, 41,152; Ward 19, 27,423; Ward 20, 31,540; Ward 21, 29,752; Ward 22, 30,987.

Total population by U. S. Census, 781,188.

HISTORICAL DATA ABOUT WARDS.

The term "ward" first appears in a fire-protection order, approved by the Town on August 29, 1679, dividing the Town into 4 quarters with 2 wards each. The 8 wards had previously been military districts.

On August 11, 1713, the Selectmen "agreed upon a distribution of the Town into distinct Wards or Precincts."

On February 1, 1715, it was "voted to make a new division of the Town into eight distinct Wards."

On March 9, 1735, it was voted to divide the Town into 12 wards to facilitate the work of the Overseers of the Poor.

On March 13, 1822, the Selectmen divided the Town into 12 wards on the basis of the U. S. Census of 1820.

By an ordinance which took effect on the second Monday of December, 1838, there was a revision of the wards.

On April 29, 1850, the City Council accepted Chap. 167 of the Acts of 1850, which altered the wards on the basis of legal voters rather than on the number of inhabitants.

By ordinance taking effect on November 15, 1865 new ward lines were established.

In the annexation period, 1865-1875, the number of wards was increased from twelve to twenty-one.

By Chap. 243, Acts 1875, the City Council was ordered to cause a new division of the City into twenty-four wards in the year 1875 in such manner as to include an equal number of voters in each ward. This division was made, taking effect on December 13, 1875. On May 27, 1876, the City Council, in accordance with Chap. 242, Acts of 1876, divided one of the wards in two, making a total of 25 wards for the City.

By ordinance passed April 20, 1895, under authority of Chap. 437, Acts of 1888, and Section 96 of Chap. 417, Acts of 1893, ward lines were established on the basis of the number of voters registered at the City election of 1894, there still being 25 wards.

The annexation of Hyde Park, effective January 1, 1912, made an additional ward.

By enactment of December 28, 1914, under authority of Chap. 630, Acts of 1914, the City Council redivided the City into 26 wards.

The latest redivision, established December 30, 1924, under authority of Chap. 410, Acts of 1924, consists of 22 wards.

TAX LEVY, 1932.

Total, $67,574,773 ($5,414,540 more than in 1931) or $62,260,762 on realty, $4,834,415 on personalty, and $479,596 on male polls.

POLICE DEPARTMENT ORDERS.

General Order No. 476.

Lieut. Francis M. Tiernan, Patrolmen Arthur McK. Eunson, Patrick Davin, Robert J. Dalton and Anthony G. Tobin, all of Division 6, are commended for meritorious police duty performed in connection with the apprehension of a band of young men who were responsible for a series of vicious assault and robbery cases committed in the South Boston district in recent months, one of which resulted in the death of one of the victims.

The commissioner is pleased to recognize the zeal and effective police duty performed by these officers in accomplishing the arrest and successful prosecution of these dangerous and vicious criminals.

The Superintendent of Police will promulgate this order.

EUGENE C. HULTMAN,
Commissioner.

General Order No. 477.

It gives the commissioner great pleasure to publish the following letter for the information of the department:

WILDEY SAVINGS BANK,
22 BOYLSTON STREET,
BOSTON, May 9, 1934.

POLICE COMMISSIONER HULTMAN,
City of Boston.

DEAR COMMISSIONER,—Through a series of unfortunate incidents the American District Telegraph bank signal was set off three times last week and same caused police alarms to be sent in. The resulting action was such that I am prompted to write you expressing our appreciation of the efforts of the police in responding to what was to them a genuine alarm.

The time in arriving was not known to us because we were not aware that the alarm had been set off, there being no gong in connection with the system. The first information that we had was the entry of the police who had arrived within the bank without any previous evidence of their approach, a very important detail in the apprehension of would-be hold-up men. We are fully aware of the hazard created by such a quick response, especially in wet weather, but are sure that you will be pleased to know that the matter was handled in such an efficient manner.

We are sorry for the alarms but are much gratified with the cooperation and prompt response of the police. The special precautions taken for the protection of the banks seems to us to be very efficient and our experience with the men who have been assigned at the opening and closing hours has been most pleasant and satisfactory. The bank squad car which calls during the day seems to us to be of especial advantage as was demonstrated on the first day the alarm went off last week. Though it had left the bank from the regular call just a short time before it was the first to arrive in response to the alarm.

We are sure that the precautions that are being taken in the City of Boston must be a decided restraint to anyone contemplating a bank hold-up.

Although we realize that such work is recognized by the police as their duty, may we ask you to accept in their behalf

the inclosed check to be turned over to the Boston Police Relief Association.

Very truly yours,

GEORGE E. TABER,
Treasurer.

The Superintendent of Police will promulgate this order.

EUGENE C. HULTMAN,
Commissioner.

General Order No. 478.

A trial board, consisting of Captains Campbell, Casey and Daley, having heard by reference a complaint made by John J. Mullen, captain, Division 1, against Thomas F. Coyne, patrolman, Division 1, for alleged violation of Rules 38 and 41 of the Rules and Regulations of the Police Department, to wit:

Charge: Absent without leave.

Specification: In that on the thirtieth day of April, 1934, the said Patrolman Thomas F. Coyne did fail to report for duty at the 5.45 o'clock p. m. roll call and did not report to his station until 11.45 o'clock p. m. on said April 30, 1934, said absence from duty being without the permission of the commissioner, the superintendent, or his commanding officer,—

has submitted the following finding and recommendation:

The Board having heard and carefully considered all the evidence as presented, accepts the plea of guilty made by the said Patrolman Thomas F. Coyne. The Board has also taken into consideration the fact that this officer was before a trial board in 1929 and in 1930 for similar offenses, and the high recommendations of Patrolman Coyne's captain, lieutenant and sergeant in addition to their testimony that he (Coyne) is an efficient, painstaking officer, one who is interested in his work and one in whom they have a great deal of confidence; therefore the Board respectfully recommends that the said Patrolman Thomas F. Coyne be ordered to perform 210 hours of punishment duty.

The commissioner accepts the finding of guilty by the trial board, but in view of the fact that this is the third offense of the same nature, the commissioner cannot accept the recommendation of the trial board as to the punishment; therefore, the commissioner hereby orders that the said Patrolman Thomas F. Coyne be suspended from duty for a period of thirty days, effective as of May 9, 1934, at 5.45 o'clock p. m., and that at the expiration of the said period of suspension the said Patrolman Thomas F. Coyne perform 210 hours of punishment duty.

Civil Service Rule 23, section 3, requires approval of the Civil Service Commission before reinstatement.

Rule 23.

"Section 3. With the consent of the Commissioner upon good cause shown, an appointing officer may reinstate in the same position or in a position in the same class and grade any person who has been separated from the service; provided, however, that the Commissioner shall not allow reinstatement of a person discharged for cause."

The Superintendent of Police will promulgate this order.

EUGENE C. HULTMAN,
Commissioner.

General Order No. 479.

A trial board consisting of Captains Campbell, Casey and Daley, having heard by reference a complaint made by James R. Claflin, captain, Division 4, against Lawrence J. Higgins, patrolman, Division 4, charging him with conduct unbecoming an officer and neglect of duty, reported to the commissioner a finding of guilty as charged. In accordance with which the said Patrolman Lawrence J. Higgins was on April 25, 1934, dismissed from the Police Department.

Due written notice of such dismissal with the reasons therefor was duly and specifically given in hand on April 27, 1934, to the said Lawrence J. Higgins.

On the twenty-seventh day of April, 1934, the said Lawrence J. Higgins requested in writing a public hearing as provided by law, and the Police Commissioner set down Tuesday, May 8, 1934, at 9.30 o'clock a. m., at the office of the Police Commissioner, as the time and place for said hearing and duly notified said Lawrence J. Higgins.

The said Lawrence J. Higgins was present at said time and place and was heard with his witnesses. Whereupon, after hearing the complaint, the commissioner finds as follows:

The evidence shows that Lieut. James J. Hinchey of Division 4 violated an order of the commissioner (to the effect that a sergeant was to be at all times assigned to duty on the new signal desk) in allowing Patrolman Higgins to do service on the signal desk at the time the offense for which Higgins was tried was committed; in view of this circumstance and the recommendations of Patrolman Higgins' superior officers, and the fact that Patrolman Higgins alleges that he will show due consideration for his wife and children in the future by behaving properly and performing the duty to which he is sworn in this department, the commissioner accepts the finding of guilty by the trial board; hereby remits the order of dismissal and imposes a penalty of ninety days' suspension, without pay, effective as of April 11, 1934, at 5.45 o'clock p. m., upon the said Patrolman Lawrence J. Higgins.

Civil Service Rule 23, Section 3, requires approval of the Civil Service Commission before reinstatement.

Rule 23.

"Section 3. With the consent of the Commissioner upon good cause shown, an appointing officer may reinstate in the same position or in a position in the same class and grade any person who has been separated from the service; provided, however, that the Commissioner shall not allow reinstatement of a person discharged for cause."

The Superintendent of Police will promulgate this order.

EUGENE C. HULTMAN,
Commissioner.

PLUMBING PERMITS ISSUED MAY 10 TO MAY 16.

CIRCULAR LETTER NO. 9.

MAYOR'S OFFICE,
BOSTON, May 7, 1934.

To the Heads of City and County Departments.

GENTLEMEN,—Section 27 of chapter 486 of the Acts of Massachusetts Legislature of 1909, as amended, provides that every officer and board in charge of a department of the city or county shall on or before the sixth day of June in each year prepare and furnish to the City Auditor a list of the officials and employees under said officer or board and paid by the city or county on the first day of June preceding, giving the name, residence by street and ward, designation, compensation and date of election or appointment of each of said officials and employees and the date when each first entered the employ of the city or county.

In order to facilitate compliance with the provisions of this law the City Auditor has prepared uniform blanks to be used by every department making the return required.

The preparation of these lists is a matter of considerable importance and should command your personal attention.

Very truly yours,
FREDERICK W. MANSFIELD,
Mayor.

LAND-TAKING IN HYDE PARK.

The Mayor has approved the order of the Board of Street Commissioners for the taking of land for sewerage works to be constructed as follows:

The right and easement is taken to lay and maintain sewerage works in the following described lands, exclusive of any interest in trees, buildings or other structures standing thereon, reserving to the owners thereof the right to use the lands for any purpose except such as may injure or obstruct said works, and except for placing or maintaining any structure on said lands not authorized in writing by the Mayor of said city; trees, buildings or other structures standing upon or affixed to the land in which an easement is hereby taken are to be removed therefrom within sixty days following a notice of the city's intention to enter upon said taking for the purpose of constructing said sewerage works. Said lands are in that part of Boston formerly Hyde Park and are bounded as follows:

A parcel of land, supposed to belong to the New York, New Haven and Hartford Railroad Company, lessee, bounded:

Southwesterly by Hyde Park avenue, ten and 42–100 feet; northwesterly by other land supposed to belong to said lessee, by two measurements, one hundred twenty-three and 27–100 feet and two hundred eighty-eight and 25–100 feet; easterly by Wolcott court, nineteen and 69–100 feet, and southeasterly by other land supposed to belong to said lessee by two measurements, two hundred seventy and 88–100 feet and one hundred twenty-five and 79–100 feet, containing forty hundred and forty-one square feet, more or less.

A parcel of land, supposed to belong to the New York, New Haven and Hartford Railroad Company, lessee, bounded:

Northwesterly by other land supposed to belong to said lessee, sixteen and 50–100 feet; northeasterly by the same, five hundred seventy-three and 52–100 feet; northwesterly by the same, fifteen and 73–100 feet; westerly by the same, two hundred fifty-nine and 62–100 feet; northerly by the same, five hundred ninety-five and 49–100 feet; easterly by land supposed to belong to Commonwealth of Massachusetts, ten and 4–100 feet; southerly by other land supposed to belong to said lessee, five hundred seventy-eight and 67–100 feet; southeasterly by the same, fifteen and 80–100 feet; easterly by the same, two hundred sixty-eight and 2–100 feet; southwesterly by the same, five hundred eighty-six and 28–100 feet; southeasterly by the same, five feet, and southwesterly by the same, twenty and 29–100 feet, containing fourteen thousand eight hundred and fifty-three square feet, more or less.

The sewerage works to be constructed are as follows: 1,980 linear feet of 4-foot 6-inch circular concrete conduit.

No betterments are to be assessed for the making of the aforesaid improvement.

NEWTON REDUCES WATER RATES.

The city of Newton reduced its water rates 10 per cent in 1932, from 25 to 22.5 cents per 100 cubic feet, and for 1934 has reduced them 11.5 per cent, to a flat price of 20 cents per 100 cubic feet. This reduction was made possible by savings effected by reorganizing the administration and maintenance methods and equipment of the department before and since the beginning of the city's "four-year plan" of water development in 1931.

PROCEEDINGS OF CITY COUNCIL.

Monday, May 7, 1934.

Regular meeting of the City Council in the Council Chamber, City Hall, at 2 p. m., President DOWD in the chair. Absent, Coun. Gleason.

JURORS DRAWN.

Jurors were drawn under the law, Coun. BRACKMAN presiding at the box in the absence of his Honor the Mayor, as follows:

Thirty traverse jurors, Superior Criminal Court, Second Session, to appear May 9, 1934:

Thomas J. Barrett, Ward 1; Louis Belliveau, Ward 1; Duncan Livingstone, Ward 1; James A. Sheffield, Jr., Ward 1; John Broughton, Ward 2; William P. Halley, Ward 2; Paul Andolino, Ward 3; William Napolitano, Ward 3; William N. Sweeney, Ward 3; Charles E. O'Donnell, Ward 4; G. Stewart Sanders, Ward 4; John R. Stevens, Ward 4; Clayton W. Thomas, Ward 4; Michael Francis Kiley, Ward 6; Michael F. Nihill, Ward 6; James P. O'Brien, Ward 6; James A. Markas, Ward 7; Archibald MacDonell, Ward 8; Percy A. Webb, Ward 8; John McDonald, Ward 10; Bernard M. McManus, Ward 10; Joseph W. Galligan, Ward 11; James Rogan, Ward 12; Frank H. Ryder, Ward 12; Thomas J. Kelley, Jr., Ward 14; Benjamin Snyder, Ward 15; Charles A. Kennedy, Ward 17; John G. Frech, Jr., Ward 19; Frank C. Withington, Ward 20; Chester L. Beck, Ward 22.

Twenty traverse jurors, Superior Criminal Court, Second Session, to appear June 4, 1934:

John J. Corrigan, Ward 1; Charles D. McPhee, Ward 1; Frank Daly, Ward 2; Francis A. Danahy, Ward 2; John J. Leydon, Ward 2; Michael M. J. Lynch, Ward 3; Daniel J. Anderson, Ward 8; Stephen Callahan, Ward 9; John Malk, Ward 9; Cecil Clark, Ward 10; Walter A. Sullivan, Ward 10; Francis X. W. Doyle, Ward 13; Samuel Kliman, Ward 13; William M. Morison, Ward 14; Paul T. Budrow, Ward 15; Henry F. Kehoe, Ward 17; Joseph H. Boyd, Ward 18; Frederick W. Adams, Ward 19; Frederick W. Perkins, Ward 21; John Doherty, Jr., Ward 22.

Twenty-six traverse jurors, Superior Criminal Court, Third Session, to appear June 4, 1934:

Henry E. Bradley, Ward 1; James H. O'Brien, Ward 1; Charles W. McMinn, Ward 2; George W. Armstrong, Ward 4; John B. Patterson, Ward 4; Stanley Anthony, Ward 5; Luther P. Benedict, Ward 5; James E. McNally, Ward 6; William F. Mulrean, Ward 10; Augustus Welling, Ward 11; Philip L. Wolfe, Ward 12; Harry J. Doyle, Ward 13; Louis M. P. Goggin, Ward 13; Thomas E. Mullen, Ward 13; William J. Carroll, Ward 14; Saul Golden, Ward 14; John J. Watters, Ward 15; Edmund Q. Brown, Ward 17; George H. E. Hanlon, Ward 17; Bernard Porter, Ward 17; Kenneth C. Gordon, Ward 18; John J. Cunningham, Ward 19; Herman L. Brauer, Ward 20; Frederick O. Payson, Ward 20; Frank L. Black, Ward 21; Frederick M. A. Moody, Ward 21.

Twenty-nine traverse jurors, Superior Criminal Court, Fourth Session, to appear June 4, 1934:

Thomas F. Rush, Ward 1; Frank E. Baker, Ward 2; Frank L. McNamara, Ward 2; William J. Redgate, Ward 2; John T. Ryder, Ward 3; William E. Downey, Ward 4; Walter G. Hall, Ward 4; George T. Mills, Ward 7; Edward L. Bessey, Ward 8; William J. Geddis, Ward 9; Edward T. Ryan, Ward 10; Joseph H. Smith, Ward 11; Edward J. Marston, Ward 12; Benjamin White, Ward 12; Harry Gilder, Ward 13; George E. Bissonette, Ward 14; Roswell J. Tobin, Ward 16; Mathias Monahan, Ward 17; Louis M. Bauer, Ward 18; William E. Curley, Ward 18; William H. T. DeMerritt, Ward 18; Joseph S. Lipford, Ward 18; Karl A. Morlock, Ward 18; James F. Welch, Ward 18; Regnard E. Jensen, Ward 19; William Ronan, Ward 19; James A. Armstrong, Ward 20; Edgar L. Kelley, Jr., Ward 20; Orick E. Nickerson, Ward 22.

Twenty-nine traverse jurors, Superior Criminal Court, Fifth Session, to appear June 4, 1934:

Louis R. Soldani, Ward 1; Albert J. Devine, Ward 2; William F. McLaughlin, Ward 3; William J. LaPierre, Ward 4; Bartholomew A. O'Connor, Ward 5; Harold S. Donovan, Ward 7; Robert Gordon, Ward 9; James Collins, Ward 10; Charles J. Enos, Ward 10; John M. Therio, Ward 10; Martin F. Downey, Ward 11; George G. Haughn, Ward 11; Herbert S. Foster, Ward 12; Thomas N. Healy, Ward 12; Walter A. Buckley, Ward 13; William P. Cross, Ward 14; Frederick F. Jenness, Ward 14; Morris Karsh, Ward 14; Joseph Peracchi, Ward 14; George E. O'Brien, Ward 16; Robert S. Tobin, Ward 16; James H. Wells, Ward 16; Guy H. Sargent, Ward 17; Guy W. Sherman, Ward 17; Henry J. Kelsch, Ward 18; John H. Tileston, Ward 18; Allen H. Wood, Ward 19; Frederick W. Burke, Ward 21; George Weinfield, Ward 21.

Twenty-four traverse jurors, Superior Civil Court, First Session, April Sitting, to appear June 4, 1934:

William H. Stevens, Ward 1; Joseph P. Goggin, Ward 1; Daniel J. O'Leary, Ward 2; Gaetano Calabro, Ward 3; George A. Nelson, Ward 4; John J. Murphy, Jr., Ward 6; Daniel S. Santry, Jr., Ward 6; John P. Donaher, Ward 8; Timothy A. Murphy, Jr., Ward 8; William T. Frank, Ward 11; Patrick Bernard Hanbury, Ward 11; Joseph Horgan, Ward 11; Robert I. Stewart, Ward 12; George B. Bere, Jr., Ward 13; Peter C. Lawson, Ward 13; Dennis F. McKay, Ward 13; John F. Golden, Ward 16; Daniel F. Smith, Ward 16; Clas E. Carlson, Ward 17; Isaac Wilson, Ward 17; Walter J. Lawlor, Ward 18; Nelson Curtis, Jr., Ward 19; Charles E. Savell, Ward 19; John E. Jacobson, Ward 20.

Twenty-three traverse jurors, Superior Civil Court, Third Session, April Sitting, to appear June 4, 1934:

William J. Canty, Ward 2; Edward F. Cronan, Ward 2; George McMahon, Ward 4; Edwin D. Griswold, Ward 5; Thomas King, Ward 6; Michael Day, Ward 10; Wilson W. M. Johnson, Ward 12; Patrick Mahoney, Ward 12; William S. Clement, Ward 13; Peter Cronin, Ward 15; Edward J. McMorrow, Ward 15; Daniel F. Sullivan, Ward 15; Charles E. Grover, Ward 16; John C. Hosmer, Ward 16; Charles W. Sprague, Ward 16; William H. Bridgham, Ward 17; Charles H. Hergt, Ward 19; John J. Fichter, Ward 20; Walter R. Kirk, Ward 20; William O. B. Little, Ward 20; Louis Schneider, Ward 20; Aubrey C. Trethewey, Ward 20; William J. Houghton, Ward 21.

Twenty-three traverse jurors, Superior Civil Court, Fourth Session, April Sitting, to appear June 4, 1934:

Charles DeFrancesco, Ward 1; Guy Wilcox, Ward 1; Joseph Hopkins, Ward 5; James T. Collins, Ward 6; Henry P. Collins, Ward 7; Vincent E. Hayes, Ward 7; Charles R. Tyner, Ward 7; James P. Cullen, Ward 10; William A. Moore, Ward 10; John Salmon, Ward 12; Charles H. Stewart, Ward 12; Patrick H. Cronin, Ward 14; William E. Dizel, Ward 14; Michael King, Ward 14; George F. Mahoney, Ward 16, William L. Johnson, Ward 17; George A. Weeks, Ward 17; Harry H. Hall, Ward 18; Robert McIlwrath, Ward 18; John Selmer, Ward 19; Alexander W. Clark, Ward 20; Michael L. Daley, Ward 20; Richard F. Bates, Ward 22.

Twenty-four traverse jurors, Superior Civil Court, Fifth Session, April Sitting, to appear June 4, 1934:

Joseph M. Beaton, Ward 1; John D. Henry, Ward 5; Patrick Kearney, Ward 7; George E. Kittredge, Ward 7; John J. Daly, Ward 8; William R. Lavis, Ward 9; Christopher J. Brady, Ward 10; Joseph Kneeland, Ward 10; Walter W. Crawshaw, Ward 11; William F. Cullen, Ward 12; James J. Bacon, Ward 13; Warren E. Baxter, Ward 13; William F. Breen, Ward 13; William Richards, Ward 13; Kingdom R. Watt, Ward 13; Irving Cabitt, Ward 14; Michael Spinelli, Jr., Ward 14; Blasi J. DeFranc, Ward 15; James B. Robinson, Ward 17; Charles F. Campbell, Ward 18; Peder H. Olsen, Ward 18; Frederic A. Newcomb, Ward 20; Richard D. Young, Ward 20; James W. Anglin, Ward 21.

Twenty traverse jurors, Superior Civil Court, Sixth Session, April Sitting, to appear June 4, 1934:

Michael T. Gibbons, Ward 1; John J. Fitzpatrick, Ward 2; Frank H. Hudson, Ward 2; John P. O'Gorman, Ward 3; Frederick A. Lambert, Ward 4; Frank H. Hurley, Ward 7; William H. Selby, Ward 9; Louis Shapiro, Ward 9; George Egan, Ward 11; John Rosario Lentine, Ward 11; John F. Donahue, Ward 12; Harry Newman, Ward 12; Arthur Karlsberg, Ward 14; Charles F. Coyle, Ward 15; John F. McKittrick, Ward 17; John J. Toland, Ward 17; Wesley Day, Ward 19; William H. Kohlus, Ward 20; Granville W. Seaverns, Ward 20; Frederick G. Wicks, Ward 20.

Twenty-one traverse jurors, Superior Civil Court, Seventh Session, April Sitting, to appear June 4, 1934:

Joseph H. Casey, Ward 2; Gerald J. Stuart, Ward 4; Paul Sullivan, Ward 5; Joseph D. Harrison, Ward 6; Patrick C. Kelley, Ward 7; John J. Flynn, Ward 9; William H. Robinson, Ward 10; William A. Coleman, Ward 12; Harold A. Lane, Ward 12; Patrick O'Neill, Ward 13; Walter V. Riley, Ward 13; Joseph F. Eaton, Ward 14; Ernest V. Brown, Ward 16; Paul R. Allen, Ward 18; Roy T. MacMasters, Ward 19; Thomas S. Burns, Ward 20; Max Herbert Fischer, Ward 20; Michael J. O'Rourke, Ward 20; Austin J. McAdam, Ward 21; Harry J. Lionett, Ward 22; Clinton Smith, Ward 22.

APPOINTMENTS OF WEIGHERS OF GOODS.

Subject to confirmation by the Council, the following appointments were submitted by the Mayor, viz.:

Weighers of Goods: Hugh P. McColgan, 86 Bailey road, Somerville; Martin J. Finn, 4959 Washington street, West Roxbury.

Severally laid over a week under the law.

REPORT ON SMALLPOX HOSPITAL.

The following was received:

City of Boston,
Office of the Mayor, May 7, 1934.

To the City Council.

Gentlemen,—I transmit herewith a letter from the Health Commissioner relative to your orders of April twenty-third and April thirtieth, containing information as to the facilities of the Health Department for caring for leprosy and smallpox cases.

Respectfully,
FREDERICK W. MANSFIELD. Mayor.

City of Boston,
Health Department, May 2, 1934.

Hon. Frederick W. Mansfield,
Mayor of Boston.

Dear Sir,—Pursuant to your instructions of April 27, 1934, I am submitting herewith my reply to the order of the City Council, of April 23, 1934, reading as follows:

"Ordered, That the Health Commissioner, through his Honor the Mayor, inform the City Council whether it is necessary in the interest of public health that a separate building or a special ward be maintained for cases of leprosy and smallpox."

It is not necessary in the interest of public health that a separate building be maintained for cases of leprosy. For some reason, not understood, no case of leprosy, so far as can be discovered, has ever been contracted in Massachusetts, not even by other members of a family living for years with a case of leprosy.

Although it be therefore not necessary in the interest of public health that a special ward be maintained for a case of leprosy, as a concession to the popular attitude toward leprosy, it is advisable to have a special ward for a case, particularly if the case be so advanced as to make the patient objectionable to others, by reason of his appearance.

In my opinion, it is necessary in the interest of public health that a special detached building be maintained for cases of smallpox. It can doubtless be shown that cases of smallpox have been treated like diphtheria or scarlet fever in cubicles or other subdivisions of a hospital designed for the care of miscellaneous contagious diseases, without the spread of smallpox having occurred. This procedure, however, cannot be advised, not even if all persons presumably exposed to contagion are vaccinated. Unlike diphtheria or scarlet fever, for example, there is evidence which cannot be ignored that the contagion of smallpox may be carried some distance through the air. At any rate, experience has shown that the treatment of virulent cases of smallpox other than in a detached isolated building is likely to prove disastrous to persons who were not supposed to be exposed.

In this connection, may I be permitted to observe that the successful handling of an outbreak of smallpox and the suppression of an epidemic in a large city calls for a readily available suitable place where irresponsible persons who have been exposed to discovered cases of smallpox may be detained under surveillance, more than for a special hospital for treating the sick.

Also pursuant to your instructions, I am submitting my reply to the order of the City Council, of April 30, 1934, as follows:

"That the Health Commissioner be requested by his Honor the Mayor to advise the City Council as to what facilities his department now has for handling any case of smallpox or leprosy that may come to the notice of the department."

I beg to state, in reply, that the present Detention Hospital is available at a moment's notice, to house and care for any such cases as may come to our attention. The Detention Hospital building has been closed, but both the building and the grounds are under the care of an employee of this department.

Yours respectfully,
F. X. MAHONEY, M. D.,
Health Commissioner.

Placed on file.

REPORT ON DUMP PERMITS.

The following was received:

City of Boston,
Office of the Mayor, May 4, 1934.

To the City Council.

Gentlemen,—I transmit herewith a letter from the Health Commissioner, relative to your order of April 16, 1934, concerning the proposed cancellation of the permit of the Coleman Disposal Company to dump refuse and waste matter along the South Boston waterfront.

Respectfully,
FREDERICK W. MANSFIELD, Mayor.

—

City of Boston,
Health Department, May 4, 1934.

Hon. Frederick W. Mansfield,
Mayor of Boston.

Dear Sir,—Pursuant to your instructions of April 27, 1934, I am submitting this report in answer to the order of the City Council of April 16, reading as follows:

"Ordered, That the Health Commissioner be requested, through his Honor the Mayor, to cancel the permit of the Coleman Disposal Company to dump refuse and waste matter along the South Boston waterfront as it constitutes a menace to the health of residents of the district and, if allowed to continue, will pollute the waters of the bathing beaches in South Boston.

In City Council, April 16, 1934. Passed.
Attest:
W. J. DOYLE,
City Clerk."

The Coleman Disposal Company has stopped all dumping of refuse anywhere in the southern part of the city in proximity to the shore where the material might possibly go overboard and pollute the bathing beaches.

In view of the fact that some further clean filling and placing of rip rap where the so-called "Mile Road" dump approaches the water is required by the conditions of the Disposal Company's permit from the city, as is also the covering with clean filling and levelling of the territory back from the shore, it would seem inadvisable to revoke the Disposal Company's permit at the present time, before the Disposal Company has had time to complete the work above mentioned which the company is expected to do before the locality is permanently abandoned as a dump.

Respectfully submitted,
F. X. MAHONEY, M. D.,
Health Commissioner.

Placed on file.

BIDDING FOR STREET PAVING.

The following was received:

City of Boston,
Office of the Mayor, May 3, 1934.

To the City Council.

Gentlemen,—I transmit herewith letters from the Public Works Department and Park Department, relative to your order of April 23, 1934, concerning fair and competitive bidding for street paving and less expensive paving on minor streets.

Respectfully,
FREDERICK W. MANSFIELD, Mayor.

—

City of Boston,
Public Works Department,
April 30, 1934.

To the Honorable F. W. Mansfield,
Mayor of Boston.

Dear Sir,—Replying to the order of the City Council, dated April 23, reading:

"Concerning the insuring of fair and competitive bidding for street paving contracts, and preparation of specifications for less expensive paving on minor streets, as recommended by the Boston Finance Commission",—beg leave to state that all contracts for street pavement are being advertised in the *City Record*, thereby insuring open, fair and competitive bidding.

Consideration is being given to adopting a less expensive surface than street asphalt on the minor streets which are under consideration for improvement during the year.

Respectfully,
C. J. CARVEN,
Commissioner of Public Works.

—

City of Boston,
Park Department, May 1, 1934.

Hon. Frederick W. Mansfield,
Mayor of Boston.

Dear Sir,—I am in receipt of an order from the City Council that your Honor direct the Park Department to take such steps as may be necessary to insure fair and competitive bidding for street paving contracts; and also to prepare specifications for less expensive paving on minor streets, as has been recommended by the Boston Finance Commission.

I respectfully beg leave to state I have carefully read the report of the Boston Finance Commission and cannot see where it mentions the Park Department roads. It does mention dead-end streets, etc., but as all the Park Department roads are boulevard roads with heavy traffic, we feel that the types of pavement laid by the department under our specifications are the best for our conditions and result in a saving for the city.

Very respectfully yours,
WILLIAM P. LONG, Chairman.

Placed on file.

APPROVAL BY STATE EMERGENCY FINANCE BOARD.

Copies of votes of the State Emergency Finance Board approving public works projects, under chapter 366 of the Acts of 1933, for Reconstruction of Streets, Sewerage Works, Hospital Buildings, School Buildings, Brookline Avenue Water Main, Police Communications System and High Service Water Main, were received and placed on file.

APPROPRIATIONS FOR PUBLIC WELFARE DEPARTMENT.

The following was received:

City of Boston,
Office of the Mayor, May 7, 1934.

To the City Council.

Gentlemen,—I submit herewith two appropriation orders for the Public Welfare Department. One order provides for the appropriation of amounts which it is estimated will be required to cover the relief disbursements of the department for the first five months of the current year, that is to say, from January 1st to June 1st. The other order provides for the appropriation on the basis of a full year of those amounts which it is estimated will be required for the administrative expenses of the department.

I am advised that at the close of today's business the Public Welfare Department will have expended an amount equal to one third of the total appropriations of the department for 1933, or, in other words, will have reached the limit of expenditures which the department is permitted to make under existing statute in anticipation of the passage of the budget. It is essential in order to avoid undue suffering among those who are dependent upon the city for a mere existence that no suspension in relief disbursements be permitted to occur. While legislation is pending at the State House increasing the limit which departments may expend prior to the passage of the budget from one third to one half of the previous year's expenditures, there is no assurance that this legislation will be enacted in time.

In order to remedy this situation I respectfully recommend that the first order previously mentioned, namely, that providing for five months, relief requirements, be given immediate passage by your honorable body. Such action will make available sufficient funds to provide for the estimated needs of the department for the balance of the current month. I assume that with reference to the second order, namely, that covering the administrative expenses of the department, the Council will desire to conduct the usual hearings and investigations connected with consideration of the annual budget recommendations.

Respectfully,
FREDERICK W. MANSFIELD, Mayor.

—

Ordered, That to meet the current expenses payable during the financial year beginning with the first day of January, 1934, for performing the duties and exercising the powers devolved by statute or ordinance, or by vote of the City Council during the year upon the City of Boston, or the departments or officers thereof, the respective sums of money allowed in the table hereinafter set forth be, and the same are hereby, appropriated, to be expended for the objects and purposes hereinafter stated, that the sums be raised by taxation upon the polls and estates taxable in the City of Boston, and that all orders heretofore or subsequently passed by the City Council relating to appropriations and taxes and the interest thereon apply to the taxes herein provided for.

OBJECT OF EXPENDITURE.	1924 Expenditures.	1933 Expenditures.	1934 Request.	Allowed by Mayor, 1934.
Public Welfare Department, Central Office:				
F. Special Items:				
9. Care of Dependents	$778,627 03	* $6,495,307 08	$10,000,000 00	$4,500,000 00
10. Mothers' Aid	697,813 92	1,090,307 47	1,100,000 00	525,000 00
14. Old Age Assistance	.....	1,185,109 18	1,200,000 00	575,000 00

Referred to Executive Committee.

POLICE COMMUNICATIONS SYSTEM GRANT.

The following was received:

City of Boston,
Office of the Mayor, May 7, 1934.

To the Honorable the City Council.

Gentlemen,—On April 30, 1934, I submitted to your honorable body a form of grant agreement between the City of Boston and the United States of America relating to the project of Police Department communications system, P. W. A., Docket No. 8200, and an order approving said grant agreement and authorizing me to execute and deliver to the United States of America for and in behalf of the City of Boston three counterparts of said grant agreement.

Several members of your honorable body have suggested that said order of approval and

authorization include the amount of the grant as set forth in said grant agreement, namely, an amount not to exceed 30 per cent of the cost of labor and materials employed upon said project (other than the cost of any labor or materials which may have been employed upon said project prior to April 26, 1934), and not to exceed $88,500.

I accordingly submit a new order of approval and authorization and recommend prompt passage thereof by your honorable body.

Respectfully,
FREDERICK W. MANSFIELD, Mayor.

—

Ordered, That the Mayor be, and he hereby is, authorized to execute and deliver to the United States of America for and in behalf of the City of Boston three counterparts of the grant agreement between the City of Boston and the United States of America relating to the project of Police Department communications system, P. W. A., Docket No. 8200, and providing for the grant to the City of Boston by the United States of America of an amount not to exceed 30 per cent of the cost of the labor and materials employed upon said project (other than the cost of any labor or materials which may have been employed upon said project prior to April 26, 1934), and not to exceed $88,500, upon the terms and conditions in said grant agreement set forth, one copy of which grant agreement has been submitted to this meeting and is made a part of the minutes hereof, and that said grant agreement be, and the same hereby is, approved.

Referred to Executive Committee.

WATER MAIN CONSTRUCTION GRANT.

The following was received:

City of Boston,
Office of the Mayor, May 7, 1934.

To the Honorable the City Council.

Gentlemen,—On February 26, 1934, your honorable body gave a second and final reading and passage to, and on February 27, 1934, I approved, an order appropriating the sum of $700,000 for water main construction, under the provisions of chapter 366 of the Acts of 1933, as amended. This order relates to P. W. A., Docket No. 7223, for the installation of a new 48-inch steel water main connecting the Metropolitan Water District with the Elm Hill district.

I have received from the Federal Emergency Administration of Public Works, with letter of transmittal dated May 1, 1934, forms of grant agreement between the City of Boston and the United States of America relating to said project and providing for a grant to the City of Boston of an amount not to exceed 30 per cent of the cost of the labor and materials employed upon said project, said grant not to exceed $200,000. I submit herewith one copy of said grant agreement.

I also submit herewith an order authorizing me to execute and deliver to the United States of America for and in behalf of the City of Boston three counterparts of said grant agreement and approving said grant agreement.

I recommend prompt consideration and passage by your honorable body of this order, because of the limited time available for the execution and delivery of this agreement and because of the desirability of commencing work on this project without delay.

Respectfully,
FREDERICK W. MANSFIELD, Mayor.

—

Ordered, That the Mayor be, and he hereby is, authorized to execute and deliver to the United States of America for and in behalf of the City of Boston three counterparts of the grant agreement between the City of Boston and the United States of America relating to the project of water main construction, P. W. A., Docket No. 7223, and providing for the grant to the City of Boston by the United States of America of an amount not to exceed 30 per cent of the cost of the labor and materials employed upon said project and not to exceed $200,000, upon the terms and conditions in said grant agreement set forth, one copy of which grant agreement has been submitted to this meeting and is made a part of the minutes hereof, and that said grant agreement be, and the same hereby is, approved.

Referred to Executive Committee.

RESCISSION OF PUBLIC WORKS PROJECTS ORDERS.

The following was received:

City of Boston,
Office of the Mayor, May 7, 1934.

To the Honorable the City Council.

Gentlemen,—Loan orders relating to the following public works projects were given their second and final reading and passage by your honorable body and approved by the Mayor on the dates hereinafter set forth.

No.	Project.	Amount.	Date, Second Reading.	Date, Approval.
1.	Reconstruction of streets	$1,000,000	Nov. 27, 1933	Nov. 29, 1933
2.	Construction, etc., of sewers	1,000,000	Nov. 27, 1933	Nov. 29, 1933
3.	Brookline avenue water main	350,000	Nov. 27, 1933	Nov. 29, 1933
4.	One new high school and one new intermediate school.	2,000,000	Nov. 27, 1933	Nov. 29, 1933
5.	New buildings, City Hospital	2,000,000	Nov. 27, 1933	Nov. 29, 1933
6.	Reconstruction of streets	1,000,000	Dec. 11, 1933	Dec. 12, 1933
7.	Sewerage works	1,000,000	Dec. 11, 1933	Dec. 12, 1933
8.	Water main construction	700,000	Dec. 11, 1933	Dec. 12, 1933

Because of the inclusion therein of the words "outside the limit of indebtedness," I was advised that these orders were of doubtful validity; and I accordingly submitted new orders which were passed by your honorable body and approved by me. The original orders, however, have not been rescinded and are shown in the Monthly Exhibit issued by the Auditing Department.

I submit herewith orders formally rescinding the above described original loan orders and respectfully recommend passage thereof by your honorable body.

Respectfully,
FREDERICK W. MANSFIELD, Mayor.

—

Ordered, That the order given its second and final reading and passage on November 27, 1933, and approved by the Mayor on November 29, 1933, to wit:

"Ordered, That in accordance with the provisions of chapter 366 of the Acts of 1933 the sum of $1,000,000 be, and hereby is, appropriated, to be expended, under the direction of the Commissioner of Public Works, for Reconstruction of Streets, and that to meet said appropriation the City Treasurer be authorized to issue, from time to time, upon request of the Mayor, bonds or certificates of indebtedness of the city to said amount, the same to be issued outside the limit of indebtedness",—

be, and the same hereby is, rescinded.

Ordered, That the order given its second and final reading and passage on November 27, 1933, and approved by the Mayor on November 29, 1933, to wit:

"Ordered, That in accordance with the provisions of chapter 366 of the Acts of 1933 the sum of $1,000,000 be, and hereby is, appropriated, to be expended, under the direction of the Commissioner of Public Works, for Construction, Reconstruction and Replacement of Sewers, and the Covering of Open Water Courses, and that to meet said appropriation the City Treasurer be authorized to issue, from time to time, upon request of the Mayor, bonds or certificates of indebtedness of the city to said amount, the same to be issued outside the limit of indebtedness",—

be, and the same hereby is, rescinded.

—

Ordered, That the order given its second and final reading and passage on November 27, 1933, and approved by the Mayor on November 29, 1933, to wit:

"Ordered, That in accordance with the provisions of chapter 366 of the Acts of 1933, and chapter 324 of the Acts of 1914, the sum of $350,000 be, and hereby is, appropriated, to be expended, under the direction of the Commissioner of Public Works, for Replacement of Brookline Avenue Water Main from the Brookline line to Beacon street, and that to meet said appropriation the City Treasurer be authorized to issue, from time to time, upon request of the Mayor, bonds or certificates of indebtedness of the city to said amount, the same to be issued outside the limit of indebtedness",—

be, and the same hereby is, rescinded.

Ordered, That the order given its second and final reading and passage on November 27, 1933, and approved by the Mayor on November 29, 1933, to wit:

"Ordered, That in accordance with the provisions of chapter 366 of the Acts of 1933 the sum of $2,000,000 be, and hereby is, appropriated, to be expended, under the direction of the School Committee, for one new High School and one new Intermediate School, and that to meet said appropriation the City Treasurer be authorized to issue, from time to time, upon request of the Mayor, bonds or certificates of indebtedness of the city to said amount, the same to be issued outside the limit of indebtedness",—

be, and the same hereby is, rescinded.

—

Ordered, That the order given its second and final reading and passage on November 27, 1933, and approved by the Mayor on November 29, 1933, to wit:

"Ordered, That in accordance with the provisions of chapter 366 of the Acts of 1933 the sum of $2,000,000 be, and hereby is, appropriated, to be expended, under the direction of the Hospital Trustees, for New Buildings and Alterations and Equipment, and that to meet said appropriation the City Treasurer be authorized to issue, from time to time, upon request of the Mayor, bonds or certificates of indebtedness of the city to said amount, the same to be issued outside the limit of indebtedness",—

be, and the same hereby is, rescinded.

—

Ordered, That the order given its second and final reading and passage on December 11, 1933, and approved by the Mayor on December 12, 1933, to wit:

"Ordered, That in accordance with the provisions of chapter 366 of the Acts of 1933 the sum of $1,000,000 be, and hereby is, appropriated, to be expended, under the direction of the Commissioner of Public Works, for Reconstruction of Streets, and that to meet said appropriation the City Treasurer be authorized to issue, from time to time, upon request of the Mayor, bonds or certificates of indebtedness of the city to said amount, the same to be issued outside the limit of indebtedness",—

be, and the same hereby is, rescinded.

—

Ordered, That the order given its second and final reading and passage on December 11, 1933, and approved by the Mayor on December 12, 1933, to wit:

"Ordered, That in accordance with the provisions of chapter 366 of the Acts of 1933 the sum of $1,000,000 be, and hereby is, appropriated, to be expended, under the direction of the Commissioner of Public Works, for Sewerage Works, and that to meet said appropriation the City Treasurer be authorized to issue, from time to time, upon request of the Mayor, bonds or certificates of indebtedness of the city to said amount, the same to be issued outside the limit of indebtedness",—

be, and the same hereby is, rescinded.

—

Ordered, That the order given its second and final reading and passage on December 11, 1933, and approved by the Mayor on December 12, 1933, to wit:

"Ordered, That in accordance with the provisions of chapter 366 of the Acts of 1933 the sum of $700,000 be, and hereby is, appropriated, to be expended, under the direction of the Commissioner of Public Works, for Water Main Construction, and that to meet said appropriation the City Treasurer be authorized to issue, from time to time, upon request of the Mayor, bonds or certificates of indebtedness of the city to said amount, the same to be issued outside the limit of indebtedness",—

be, and the same hereby is, rescinded.

Referred to Executive Committee.

PETITIONS REFERRED.

The following petitions were received and referred to the committees named, viz.:

Claims.

William Bagnall, for refund on victualer's license.

Eva A. Baker, for compensation for injuries caused by an alleged defect in Hollis street.

Joseph L. Clapp, for compensation for damage to clothing by city car.

John A. Courakis, for refund on license.

Augusta Courtney, for compensation for damage to property at 808 Tremont street, caused by break in water pipe.

Gordon A. Cumming, for compensation for loss of overcoat by fire at Hancock Street Yard.

Pearl I. Cummings, for compensation for damage to car by fire engine.

Edmund Currie, to be reimbursed for execution issued against him on account of his acts as an employee of the Public Works Department.

Olive DiNapoli, for compensation for damage to clothing by paint on bench in Public Garden.

Mrs. Daniel Howard, for compensation for injuries caused by an alleged defect at Centre street and Greaton road.

Caroline Kelley, for compensation for injuries caused by an alleged defect at 256 Warren street, Roxbury.

Morris Kesner, for refund on refuse tickets.

Grace O. Kimball, for compensation for injuries caused by city team.

Teresia M. Labbe, for compensation for injuries caused by an alleged defect in Oakland street.

Michael Maffeo, for compensation for damage to property at 8 and 9 Brigham street, caused by water from street.

Thomas Mahon, for compensation for collapse of water boiler, by water being shut off, at 351 Geneva avenue, Dorchester.

Minevitz, Inc., for refund on victualer's license.

Lavinia B. Nelson, for compensation for damage to property at 344 Park street, Dorchester, caused by leak in water pipe.

N. E. Coal and Coke Company, for compensation for damage to lighter due to being grounded at Deer Island.

Hannah O'Connor, for compensation for damage to property at 44 Clarendon street, caused by water in cellar.

Angelo Rando, for refund on victualer's license.

Evonne Rogers, for compensation for damage to car by city truck.

Stanley W. Russell, for compensation for damage to car by fire apparatus.

George Schwartz, for compensation for damage to truck by city truck.

Helen Solomon, for compensation for injuries caused by an alleged defect in Tyler Street Bath House.

Shirley Taylor, for compensation for damage to clothing by paint on bench in Public Garden.

Mrs. D. J. Welby, for compensation for damage to garbage can by men of Sanitary Division.

Lester M. West, for compensation for damage to car by city truck.

Nunzio Masiello, for compensation for damage to car by city wagon.

Executive.

Petitions for children under fifteen years of age to appear at places of public amusement, viz.:

Freyda Pronsky, Repertory Theatre, June 19.

Gertrude Dolan, Repertory Theatre, June 20.

Ruth M. McShane, Municipal Building, South Boston, June 7.

Delbert M. Staley, Repertory Theatre, May 9.

Alice Burke, Repertory Theatre, June 8.

Edna Stertz-Shirley Ruby School, Colonial Theatre, May 28.

Mary V. Hayes, Repertory Theatre, June 1.

Lucille Perry Hall, Repertory Theatre, May 28.

Petition of Gaels of Boston, Inc., for license for Sunday sports in Celtic Park, on Metropolitan avenue, Hyde Park.

Petition of William R. Welch for license for Sunday sports on premises on Gerard and Island streets, Lincoln Park.

APPOINTMENTS BY THE MAYOR.

Notices were received from the Mayor of the following appointments:

Clifford P. Warren, 26 Park street, West Roxbury, member of Board of Overseers of Public Welfare for term expiring May 1, 1936, to fill vacancy caused by resignation of Morris Bronstein.

Laurence M. Lombard, 88 Chestnut street, Boston, member of Board of Overseers of Public Welfare for term expiring May 1, 1936, to fill vacancy caused by resignation of Charles J. Mahoney.

Louis E. Kirstein, 506 Commonwealth avenue, to Board of Library Trustees for term of five years beginning May 1, 1934.

Severally placed on file.

CONSTABLES' BONDS.

The bonds of the following-named constables, having been duly approved by the City Treasurer, were received and approved, viz.:

Chester A. Bailey, David Belson, Joseph L. Bennett, James A. Canton, Daniel B. Carmody, Joseph Coviello, Walter F. Delaney, John J. Dillon, Paul R. Gast, Samuel Goldstein, Solomon Gorfinkle, Charles H. Jackson, Harry Kahn, Thomas H. King, Abraham Krinsky, Abraham Landfield, Frank F. Lane, Leslie P. Mann, John J. Miller, Bernard M. Mullen, Michael W. Ober, Frederick Partridge, James G. Peters, Phillip S. Phillips, Leonard M. Pike, David I. Rattet, Abraham Rosenberg, Maurice Rosenberg, Albert M. Sacks, Sidney J. Sheinfeld, Joseph Simansky, Roman J. Vasil, Harry A. Webber, Maurice Zeeman.

The bonds were severally approved.

SIDEWALK ASSESSMENTS.

Communications were received from the Commissioner of Public Works together with orders assessing half-cost of construction of sidewalks in front of estates on following streets, viz.:

	Half-Cost.
Field street, Ward 4	$404 71
South street, Ward 11	241 97
South street, Ward 11	104 40
Foster street, Ward 22	235 29
Sutherland road, Ward 21	56 16
Davis street, Ward 13	1,408 33
Burnett street, Ward 11	886 20
Dunreath street, Ward 12	86 40
Calumet street, Ward 10	52 25
Centre street, Ward 19	1,407 69
Cliff street, Ward 12	113 98

The orders were severally passed.

SOLDIERS' RELIEF.

Coun. KERRIGAN, for the Committee on Soldiers' Relief, submitted report recommending passage of order for payment of aid to soldiers and sailors and their families in the City of Boston for month of May, 1934.

Report accepted; said order passed.

CONFIRMATION OF CONSTABLES.

Coun. GOLDMAN called up, under unfinished business, Nos. 2 and 3 on the calendar, viz.:

2. Action on appointments submitted by the Mayor April 23, 1934, of Constables connected with official positions, without power to serve civil process and to serve without bond, as follows:

Felix Carroll, Timothy J. Collins, Francis J. Desmond, Andrew DiPietro, Arthur J. Driscoll, Cornelius J. Dundon, James F. Farrell, Edmund B. Flaherty, Harold Goldstein, Joseph A. Grover, George S. Halliday, Charles W. Kelley, Walter P. Kirby, Thomas J. Lane, Thomas J. McDonough, Michael F. Murray, James O'Hearn, John Skelly, Hyman Slate, William D. Sweeney, Joseph Tedesco, Joseph Thomas, Herbert Timson.

3. Action on appointments submitted by the Mayor April 30, 1934, of Constables connected with official positions, without power to serve civil process and to serve without bonds, as follows:

Joseph L. Duffly, Sidney E. Sullivan, Archibald P. McNeil, Clarence A. Nado, John J. O'Brien.

Coun. GOLDMAN moved that all the Constables named in Nos. 2 and 3 be confirmed, with the exception of Hyman Slate in No. 2.

Coun. SHATTUCK—Mr. President, I find on looking at page 161 of the record, being the record of the last meeting of the Council, that the chairman of the Committee on Constables, in making a report for the committee, stated that "your committee by a majority vote recommend that the remaining names in Document 55, except Hyman Slate and those withdrawn or already confirmed, be approved." I observed also that the name of Hyman Slate, one of the last names in No. 2 on the calendar, was omitted when the list of those for whom confirmation was recommended was just read by the chairman of the committee. This special exception of Mr. Slate is a matter upon which I desire to ask for information. I have known Mr. Slate for many years. He is an honorable and capable man, and I should like to ask the committee why he alone of all these persons was struck off the list?

President DOWD—Does the chairman of the committee desire to explain?

Coun. GOLDMAN—Yes, Mr. President. We have that name still under investigation. We have not yet completed our investigation of Mr. Slate. When I have received further information, I shall be glad to give it.

Coun. FISH—Mr. President, owing to the fact that one of the constables whom the chairman of the committee has just reported on happens to be a resident of Braintree, I cannot see my way clear to vote for the confirmation of that gentleman. We have gone on record as opposed to the Mayor's policy of selecting nonresidents as commissioners of the City of Boston, although we have no power of action in that matter. We do, however, have power to turn this gentleman down as a nonresident of Boston.

Coun. WILSON—Mr. President, I was glad to hear the explanation of the chairman of the Committee on Constables, that the reason for holding out at least one name was because of the fact that much care and discrimination is being shown this year and that the appointments of those who have served under former administrations have been gone over with a fine-toothed comb. That assurance is particularly gratifying in view of the explanation we received from a minority member of the committee last week that when this list of sixty names came from the Mayor's office the committee failed to find that even the names were correct, and, in many instances, the correct address was lacking. I submit to the members of the Council, although words of protest are in vain, that the members of the City Council have something to answer for in approving what will amount to a block of sixty of these political appointments. We are supposed to be in the midst or in the throes of a reform administration. So far this year, since January, we have seen scores of men fired from numerous city departments, and it must be most gratifying to those men who lost their jobs, many of them after years of faithful service, and who saw members of the Council go down, on specially appointed committees, to weep in their behalf on the Mayor's shoulder, to see what is now happening in this matter. Those employees were dropped from the Assessing and various other departments, when their jobs might have been saved, even though it meant enforced vacations, the installation of the stagger system or reduced pay. We have seen those committees from this body go downstairs and weep softly on the Mayor's shoulder in regard to those particular office holders who had been fired; and how inconsistent it must seem to those discharged employees, who saw the tears fall, whether crocodile or otherwise, to now see members of the City Council playing with the Mayor to the extent of filling jobs in the very departments from which men for whom committees of the City Council have gone down to the Mayor's office and wept have been fired. Some of these constables, most of them virgin constables as far as constable service is concerned, will be placed in the very departments where other employees have been on the firing end. I have looked at City Document 47, containing the list of constables for 1925, the last year of a Curley administration—an administration which in the past has had the finger of scorn pointed at it as a spoils administration—and have seen a grand, magnificent total of thirty-six constables appointed to official positions to serve without bonds, and then I have looked at Document 49, in the initial year of the Nichols administration. You would naturally expect, if, as the chairman of the Constable Committee assures us, the fruits of a political campaign are in patronage, that some of the really important places in which to put the faithful are as constables of the City of Boston, and you would naturally suppose, after Mayor Nichols came in, following the terrible Curley administration, so called, that the Curley constables would have been shot out the window, and there would be a new deal; and yet even in that administration we find thirty-three of the thirty-six Curley constables in the Nichols list, only three being dropped, I don't know whether as the result of death or otherwise. But certainly, there was no demonstration of the working of a spoils system. But when the 1934 list comes in, we find recognition in a reform administration of the principle that "to the victors belong the spoils" in Boston, even against the vociferous cries to the contrary of those who supported the reform administration. And in the carrying out of that principle, that "to the victors belong the spoils," I find, according to the list, that all but seven of those who had held the positions are wiped out. I understand that the chairman of the Committee on Constables has been in fairly close touch with the Mayor on this most important question of constables, and I was informed last week that one constable who had served in a department of the City of Boston for six or seven years efficiently and well was not appointed, a constable living in my district, in Dorchester, the reason being that he had worked for Councilor Wilson in the recent election, the unfortunate part of it being that I did not see the man on election

day or for two or three weeks before election, and that, so far as I knew, he did not do a stroke in supporting my election. That, of course, is only a side issue, but it simply shows that even these $1,440 positions are being filled as political plums by the present Mayor and his supporters in the Council, and that the men who have held the positions are being fired for political reasons. Bearing in mind the fact that many of the members of this body are members of the bar, and that all three on the committee are lawyers, which is their good or bad fortune, and bearing in mind the fact that we as lawyers feel that one of the prime requisites naturally to be considered in constables, whether they serve writs or work for the city, is the faithful and efficient discharge of their duty as constables, it does seem strange that other qualifications are being considered. It appears to me strange also that the custom of past years has not been followed and that those men in the city departments, who have been under past so-called political administrations at least treated with courtesy and consideration, are now to be treated as if they had shady records. When it comes to appointing men who are to go out on the highways and byways of the city and drive in poll taxes, it does seem—and I speak with all due regard to many on the list who are no doubt estimable gentlemen—that that is one of the last places in which to put political bums; that when it comes to responsible positions like this in our city, men who are to go out and collect poll taxes and who are given considerable authority in dealing with our citizens, the administration should at least know enough about the men to know their correct names and addresses, that at least enough attention should be given to the matter to find out that they live in the City of Boston. And so I say the members of this body should think a long while before passing favorably upon the balance of this list numbering over sixty in toto. We should think twice before confirming these men, of whom we do not even know the correct names and addresses, and we should also bear in mind the fact that these men whom we are putting on the street, friends of the Mayor and of certain members of the Council, men who are to get this $1,440 a year, are to be placed in departments from which men have been fired, men concerning whom members of this Council have gone down to the Mayor's office, as I have said before, and wept bitter tears. So I say we should go slowly on the ratification of the list as it stands, the remaining names, and I move that the matter be allowed to still remain on the calendar.

Coun. NORTON—Mr. President, I am opposed to these constables, anyway, for the reasons I explained last week—first, that they are unnecessary; second, that there should not be these additions to the city pay roll at this time; third, that there are police officers who can do the work, the same as is done in other large cities; fourth, I understand that most of the work can be done by registered mail; and, fifth, because, as pointed out in a report of the Finance Commission, the number of constables which they at the time thought was scandalous has already been largely increased.

Coun. ROBERTS—Mr. President, I am against taking these names off the table and am against their confirmation, for substantially the same reasons that I gave last week. We were told awhile ago that a number of discharges of men in city departments was in the interest of economy. What a mockery that now seems, in the face of these appointments. Widows, people depending upon the city for a livelihood, who had always worked satisfactorily and efficiently, were discharged without notice, being simply told that their services were not required in the interests of economy. Of course, the Mayor was not sincere in his position at that time, and that is all the more apparent in view of what we have seen here since. He has now sent in these names for confirmation, and all the appointments are political in their nature. I would like to answer, in closing, the councilor from Ward 5 (Coun. Shattuck) in regard to one constable. I don't know anything against Slate. When I was present in the committee I did not hear anything particularly against him more than any other constable. But I raise the question that perhaps the position taken in his case is because the gentleman from Ward 5 was not going to vote for the confirmation of these constables. I am not one who has a constable on this list and if I did have, I would still feel the same way, that if economy is needed, according to the Mayor, he should not have discharged widows and others who were recently discharged from the civil service, people who in a few months will probably be on the Welfare Department, and then take the position he is taking in regard to these constables.

Coun. SHATTUCK—Mr. President, the answer of the chairman of the committee (Coun. Goldman) seems to me hardly satisfying. I find Mr. Slate's name, which is in the list that appears on the calendar, the only name omitted by him. The name has apparently not been withdrawn by the Mayor, but apparently is the only name that has been withdrawn by the committee. I wonder what further investigation they are making? I wonder whether Mr. Slate appeared before them, as the others did, and gave them the information that was desired? Why is he alone, the only person duly accredited to my district out of the sixty, the one person omitted by the action of the committee? I still maintain that more names were put in than were justified by the jobs, and I propose to stand by that position; but I do feel that, in justice to an honorable man, I should know why he alone in this list was omitted by the committee, when he gave them all the information requested.

Coun. NORTON—Mr. President, I dislike very much to add to anything I have already said on this matter, but I think the councilor from Ward 4 (Coun. Roberts) just told the councilor from Ward 5 (Coun. Shattuck) in so many words why this honorable man's name was stricken from the list.

President DOWD—The question comes on taking from the table. Those in favor will say "yes" [a number responded], those opposed "no" [a number responded]. The Chair is in doubt and will order a rising vote.

On motion of Coun. SELVITELLA, a roll call was ordered.

The motion to take from the table prevailed, yeas 12, nays 8:

Yeas—Coun. Agnew, Brackman, Doherty, Donovan, Dowd, Finley, Fitzgerald, Goldman, Green, Kerrigan, Murray, Tobin—12.

Nays—Coun. Englert, Fish, McGrath, Norton, Roberts, Selvitella, Shattuck, Wilson—8.

The question came on confirmation. Committee, Coun. Finley and Fitzgerald. Whole number of ballots 19, yeas 12, nays 7, and the appointments were confirmed.

CONFIRMATION OF WEIGHERS OF GOODS.

President DOWD called up, under unfinished business, No. 4 on the calendar, viz.:

4. Action on appointments submitted by the Mayor April 30, 1934, of Edward E. Sheehy, Jeremiah J. P. O'Sullivan, Herbert P. Barton, Thomas R. Kelley and Edward A. Fay, to be Weighers of Goods.

The question came on confirmation. Committee, Coun. Agnew and Selvitella. Whole number of ballots 19, yeas 17, nays 2, and the appointments were confirmed.

CONFIRMATION OF CIVIL PROCESS CONSTABLES.

Coun. GOLDMAN—Mr. President, with reference to constables authorized to serve civil process, I now move that the following names be taken from No. 1 on the calendar, under unfinished business, and confirmed:

Louis Budd, Gilbert I. Favor, Abner Goulston, Leon Small, Gustav Spanier, Frank J. Staula and Abraham I. Weiss.

Coun. Goldman's motion was carried, and the question came on confirmation of the appointments named. Committee, Coun. Norton and Donovan. Whole number of ballots 19; yeas 17, nays 2, and the appointments were confirmed.

BOND OF JOSEPH HERMAN APPROVED.

Coun. GOLDMAN moved that the bond of Joseph Herman, which was presented at the last meeting, be approved.

The motion was carried.

APPOINTMENTS INDEFINITELY POSTPONED.

Coun. GOLDMAN called up, under unfinished business, No. 5 on the calendar, viz.:

5. Action on appointments submitted by the Mayor March 19, 1934, of the following-named persons to be Constables, for the term ending April 30, 1934, without authority to serve civil process and to be connected with official positions: Joseph Leo Duffly, Sidney E. Sullivan, Archibald P. McNeil, Clarence A. Nado.

The Council voted, on motion of Coun. GOLDMAN, to indefinitely postpone action on said appointments.

REPORT OF COMMITTEE ON CONSTABLES.

Coun. GOLDMAN, for the Special Committee on Constables, submitted the following preliminary report:

Under the law the Mayor may appoint 175.

April 16, 156 submitted by Mayor.

April 23, 104 confirmed by Council.

April 30, 18 confirmed by Council.

April 30, 6 resigned.

April 30, 2 held for information (Michael F. Simmons, Henry G. Dahlquist).

May 4, 7 approved by Constable Committee.

May 4, 1 held pending complaint adjustment (William Tepper).

May 4, 18, no appearance before Constable Committee.

Total, 156.

The Mayor has the right to appoint at this time balance of nineteen plus six resigned, (25), thus making 175.

Respectfully submitted,

MAURICE M. GOLDMAN,

Councilor, Chairman of Constable Committee.

The preliminary report was accepted.

STREET RAILWAY POLICE.

Notice was received of appointment by the city of Cambridge of railway police to serve on Boston Elevated Railway.

Placed on file.

TAXES ON SYMPHONY HALL AND REPERTORY THEATRE.

Coun. McGRATH offered the following:

Ordered, That the Board of Assessors be requested, through his Honor the Mayor, to inform the City Council, if information given is correct, as follows:

1. On what basis can Symphony Hall, assessed for $800,000, and always having paid taxes, be tax-exempt for the year 1934?

2. On what basis can the Repertory Theatre be tax-exempt for the year 1934?

Passed under suspension of the rule.

WARD 20 IMPROVEMENTS.

Coun. FINLEY offered the following:

Ordered, That the Board of Street Commissioners be requested, through his Honor the Mayor, to widen Corey street, between Weld street and the new boulevard, Ward 20.

—

Ordered, That the Board of Street Commissioners be requested, through his Honor the Mayor, to widen Weld street, between Maple and Corey streets, Ward 20.

—

Ordered, That the Commissioner of Public Works be requested, through his Honor the Mayor, to resurface Corey street, from Weld street to the new boulevard, Ward 20.

—

Ordered, That the Commissioner of Public Works be requested, through his Honor the Mayor, to resurface Weld street, from Maple to Corey streets, Ward 20.

—

Ordered, That the Commissioner of Public Works make a sidewalk along Corey street, from Weld street to the new boulevard, entire length, both sides, Ward 20, in front of the estates bordering thereon; said sidewalk to be from 3 to 10 inches above the gutter adjoining, to be from 5 to 12 feet in width, and to be built of granolithic, with granite edgestones, under the provisions of chapter 196 of the Special Acts of 1917.

Ordered, That the Commissioner of Public Works make a sidewalk along Weld street, from Maple to Corey streets, entire length, both sides, Ward 20, in front of the estates bordering thereon; said sidewalk to be from 3 to 10 inches above the gutter adjoining, to be from 5 to 12 feet in width, and to be built of granolithic, with granite edgestones, under the provisions of chapter 196 of the Special Acts of 1917.

Severally passed under suspension of the rule.

REMOVAL OF TREE.

Coun. MURRAY offered the following:

Ordered, That the Park Department, through his Honor the Mayor, be respectfully requested to remove a tree at 43 Boylston street, Ward 19.

Passed under suspension of the rule.

ARC LIGHT, CHISWICK ROAD.

Coun. AGNEW offered the following:

Ordered, That the Commissioner of Public Works be requested, through his Honor the Mayor, to install an arc light in front of the premises Nos. 66-70 Chiswick road, Ward 21.

Passed under suspension of the rule.

TRAFFIC SIGNS, EMILY FIFIELD SCHOOL.

Coun. WILSON offered the following:

Ordered, That the Traffic Commission, through his Honor the Mayor, be respectfully requested to install warning traffic signs adjacent to the Emily Fifield School on Torrey street, Dorchester.

Passed under suspension of the rule.

FENCE, HENRY L. PIERCE SCHOOL.

Coun. WILSON offered the following:

Ordered, That the Boston School Committee, through his Honor the Mayor, be requested to make adequate repairs to the fence between the Henry L. Pierce School and the private property on Walton street, having in mind not only the safety of the school children at said location, but also the reasonable rights of the property owners adjacent.

Passed under suspension of the rule.

INFORMATION FROM MUNICIPAL EMPLOYMENT BUREAU.

Coun. WILSON offered the following:

Ordered, That the Municipal Employment Bureau, through his Honor the Mayor, advise the City Council separately as to each month from January 1, 1933, to May 1, 1934:

A—The number of men and the number of women who filed new applications at the Bureau for employment.

B—The number of jobs for men and the number of jobs for women obtained by the Bureau each month.

C—The number of days of employment for men and the number of days of employment for women obtained by the Bureau each month.

D—The number of said jobs and the number of said days of employment, consisting of work at the Boston City Hospital.

Passed under suspension of the rule.

REPAIRS TO NORTHERN AVENUE BRIDGE.

Coun. WILSON offered the following:

Ordered, That his Honor the Mayor be requested, in the contemplated substantial repairs to be made on the Northern Avenue Bridge, to consider the advisability of requiring a proportionate part of the expense to be borne by the railroad company or railroad companies holding track rights across said bridge, having in mind that a very substantial part of the heavy traffic over the bridge consists of railroad freight, as approximately 28,000 freight cars utilized said bridge during the past year.

Coun. WILSON—Mr. President, I have favored repairs on the Northern Avenue Bridge, although I voted against the order last week, having in mind that the estimate given the Council even for repairs ranged all the way from $75,000 to $375,000, and the order called for the top figure. I voted against the order last week, realizing that the only estimate we had before us was an estimate that cost the city $2,500, made by a bridge company interested primarily in replacing and not repairing the bridge, and that no estimate had even been requested from another concern, the members of which made the original bridge, the reason probably being that it was felt that that particular company was prejudiced in the matter of repairs. I realize that probably every third opening on that Northern Avenue Bridge is because of the scows of the Coleman Disposal Company making progress back and forth from their dump, and from their unfortunately being located on the wrong side of the bridge. But one of the chief reasons for the wearing out of the bridge as soon as it has, I am informed, is that 28,000 freight cars with produce went across the bridge, the Union Freight Railroad having a franchise to use not only Atlantic avenue but also this bridge. It occurs to me that, inasmuch as the heaviest freight and traffic, which causes the most damage, is carried on by the Union Freight Railway, as compensation for the franchise they have they should at least bear a part of the repair charges on the bridge.

The order was passed under suspension of the rule.

WORK ON NORTHERN AVENUE BRIDGE BY TRANSIT DEPARTMENT.

Coun. WILSON offered the following:

Ordered, That his Honor the Mayor be, and he hereby is, respectfully requested to direct the Transit Department of the City of Boston to make such repairs as are contemplated, with reference to the Northern Avenue Bridge.

Coun. WILSON—Mr. President, this is an order in reference to the same bridge, and I urge the availability of the Transit Department in this work. Having in mind the fact that we are told that a number in that department are to be let go, and knowing the experience they have had in construction work in the City of Boston, I see no reason why that experience should not be utilized in connection with the repairs to be made.

The order was passed under suspension of the rule.

EDITORIAL FROM BOSTON "TRAVELER."

Coun. WILSON offered the following:

Ordered, That the attached editorial from the Boston *Traveler* be spread on the records.

Law and Order Laid on the Table.

Does the City Council think Police Commissioner Hultman is a grafter? Does the City Council think it knows more about a communications system than M. I. T.?

Then what is the reason for the delay in giving consent necessary to the already approved modernization of our police signal system? Dozens of little cities and towns in the state are away ahead of Boston simply because the City Council is frittering away valuable time while criminals ply their trade, armed with modern equipment which the police are trying to combat with equipment that dates back to 1887. In one month the police had over two hundred failures of the signal-box cable system.

Mayor Curley approved what Hultman asked. Mayor Mansfield approved. The Council itself approved. Then Hultman got a grant of $88,500 from P. W. A. This is an outright gift, a saving to the city. But P. W. A. wants the Council's approval as well as that of the Mayor. The Council "laid the matter on the table."

And there it stays. Why? Has the Council some particular equipment it would like the commissioner to install? He has a contract with General Electric, given after competitive bidding open to every manufacturer in the country capable of installing the necessary equipment. What sort of equipment does the Council want, and why? The Council's delay is costing the city money. When the survey was turned in, the price of copper was six cents. Now it is eight. Every day's delay may mean greater cost.

It might be a good idea, now that the public knows what it is all about, or, rather, most all of what it is about, for the Council to call a meeting and approve the project.

Coun. WILSON—Mr. President, not being aware how much the price of copper has changed between last Monday, when this matter was laid on the table, and today, I am desirous that this editorial shall appear in our record, not because of any literary merit, but as a classic of its kind, an example of how misunderstandings and misstatements in regard to the action of this Council sometimes appear in the public press. In connection with this editorial in our records, I also desire to have certain other facts appear. On February 5 of this year the Mayor's loan order of $350,000 for a modern police communications system, to be established under chapter 306 of the Acts of 1933, came into the Council for the first time this year. On the 12th of February the order was given a first reading, even prior to any real consideration by the Committee on Finance, to save time should the committee report be favorable. On the 19th of February the Mayor sent through various loan agreements, but nothing in reference to this particular police order, and the Council requested of the Corporation Counsel an opinion as to the emergency powers of the Police Commissioner in view of his reported closing of the contract for the communications system. On February 26 a second reading was given to various other projects and a motion of one of the councilors to lay the police order on the table was defeated by a vote of 7 to 13, and the order was given its second reading by a vote of 19 to 1. Accordingly, within a period of sixteen days, or but two days over the minimum required by law, the order was given its second and final reading and passage by a vote of 19 to 1, and that was done prior to receiving from the Corporation Counsel the opinion the Council had asked for. On April 9 the Mayor asked for the rescission of the various loan grants upon which we had acted, four of them, not including this particular order. On April 16 the Council finally received the opinion that was asked for from the Corporation Counsel as to the power of the Police Commissioner, in the month following the month in which the original order had received its second reading and passage; and the Mayor then asked for the rescission of this fifth loan and grant agreement passed February 28, and the passage of the agreement in a new form, merely changing the record in that way. But there was nothing accompanying the order that changed the figures. The money was merely to be divided between the City and the Federal Government. On those facts the Council quite properly allowed the order to lie over for one week, so that we should obtain some information, and with such good reason that the Mayor today brought in a new order, giving us the information to which we were entitled, so that we could properly pass upon the matter. I am very sorry, Mr. President, to take so much time, but it does seem to me that the papers of Boston should be fair, as they usually are, in their criticisms. I merely wish to have this editorial, with the facts I have stated, appear upon our records, as a classic example of incomplete and erroneous information, as shown by the facts I have stated.

The order was passed under suspension of the rule.

STAMPS USED BY WELFARE DEPARTMENT.

Coun. WILSON offered the following:

Ordered, That the Public Welfare Department, through his Honor the Mayor, advise the City Council forthwith:

A—The total number of stamps for use on Public Welfare work cards ordered and received by the department.

B—The name of the present custodian of each stamp, together with the official number of the stamp in the possession of each person.

C—The total number of official welfare stamps now outstanding, for the stamping of so-called Work Cards, of men assigned to some form of work for the city by the Welfare Department.

D—The total number of such authorized stamps outstanding as of January 1, 1934.

E—The name of each and every city official or employee having possession on April 1, 1934, of an authorized stamp for the stamping of Welfare Work Cards.

F—The official rating or city position held by each of said persons so named as having possession of a Welfare Department stamp as of April 1, 1934.

G—The official number of the stamp in each case.

H—Reporting with reference to each stamp by number, state for each of the four weeks during April, 1934, how many separate cards bearing each of the beforementioned numbers, were presented to the Welfare Department, and payment made.

I—The numbers of any and all stamps reported lost or stolen, missing or replaced, since January 1, 1933.

J—The name of the person employed by the city reporting the loss, or requesting a replacement or duplicate stamp, in the cases of such city stamps as have been lost or reported missing.

—

Ordered, That his Honor the Mayor be, and he hereby is, respectfully requested to ascertain for and advise the City Council forthwith as to each of the four weeks in April, 1934:

A—What city departments had Public Welfare workers assigned or working for them.

B—The number of Public Welfare recipients working in each department so specified.

C—The official numbers of the various Welfare worker stamps in the possession of each department so named.

D—The number of Welfare workers actually reporting for work each week in each department, according to the records of each department.

E—Where more than one division or branch of any of said departments has a record of Welfare workers, then state the official number of any and all Welfare stamps in the possession of each of said divisions or branches.

F—Where more than one division or branch of any said departments has a record of Welfare workers, then state the number of Welfare workers actually reporting for work each week in each of said divisions or branches, as per the records of said department.

Coun. McGRATH—Mr. President, I simply wish to say that I congratulate the councilor from Dorchester for the courage he shows in even asking the Welfare Department for information. It may be a long story, and it may be an old story, but for some two years I have carried on an intensive campaign in an endeavor to ascertain from the Welfare Department something about the expenditures of the department, and because of that I have been accused of baiting that Board and of attempting to take from the poor widow the crust of bread that was rightfully hers, and so forth, and I have been told on every occasion that there was no such thing known in this city as a fraudulent recipient of public welfare. From the very first speech I ever

made upon the matter up to my last utterance, I have always taken the ground that it was primarily the God-given duty of a city to properly provide for its poor, and that I know of no more despicable thief than the man who steals from hungry children. Where a table is set for such children, or for a hungry family, with barely food enough to feed those under-nourished ones, I claim that there is no more despicable character than the man who would walk into the Welfare Department, a man employed and receiving a salary, pull his chair up to the table and reach out and take most of the food from the plates of those hungry ones. I can imagine no more despicable person than the man who would reach in and take from those hungry children and starving people that which they need to keep body and soul together. But when either McGrath or Wilson objects to abuses in that department, when we object to assistance being improperly expended to those who are simply grafting on the department, we are told that we are baiting the recipients of public welfare. There is no member of the twenty-two in this Council, as I have said before, who wants to harm a hair of the honest recipient of welfare; there is no man in the Council who is not more than glad to give every dollar necessary to properly house and feed them. But you know, Mr. President, we all know, the Mayor knows, and those connected with the charitable societies all through the community know, the situation in this city in the matter of distribution of relief. We know that the societies who are engaged in this charitable work have during the last three or four years broken down and have transferred their recipients in toto to the shoulders of the small taxpayer; and when you or I, in the interest of that taxpayer, fight against graft and corruption in this distribution of public welfare, when we try to deal with this matter in a square and honest way, in the interest of the deserving recipients, you and I must expect that we will be pictured in a dishonest light, when we have the courage to stand up and battle for the honest poor who are trying to keep their homes together; these poor people who, having a little real estate which has really become a burden to them, are told that they cannot therefore obtain relief, the little property which they have and which they cannot eat becoming a drawback to them. The taxes obtained from $400,000,000 of real estate out of a total of $1,600,000,000 of taxable real estate in this city, Mr. President, will go this year to recipients of welfare alone. In other words, every cent raised upon every single piece of taxable real estate, business or residential, in twelve Boston wards, starting with Ward 7 in South Boston and ending with Ward 18, will go for this one purpose; every single cent raised on every piece of that taxable real estate, with all the pathos, tragedy and bitter tears suffered by those home owners who pay it, will go in its entirety to recipients of welfare. Hasn't the time arrived for men to have courage enough, even in face of having their position improperly represented to the public, to stand up and say for the home owners in those twelve wards out of the twenty-two, "We will make a fight for you?" You know that conditions down there are rotten, sir; but every time that a man asks an honest question, every time he rises to honestly criticize, he is condemned in certain quarters. I say that the tide is rising so rapidly that there can be no honest reduction in the taxes of the City of Boston until you get rid of the fraudulent recipients of welfare; that there will be a further wholesale cut in the salaries and wages of city employees, there will be further curtailment in such vital and necessary departments of the city as Long Island, the Hospital Department, the Sanatorium, the Health Department, in all of these services so necessary and valuable to our people. We will see playgrounds closed and health units closed unless those in charge of this city—and I do not blame it on this administration—have courage enough to stand up and tell the truth, even if their utterances are purposely misconstrued when they make an honest fight. Those who are fighting to protect the city against applicants for welfare who do not belong there must expect certain interested ones to yell, "Look at him, attempting to take the bread off the table of hungry families!" In spite of that, however, let us have courage enough to continue in this fight to protect the homes of honest and God-fearing Boston citizens. Therefore, I want to congratulate the councilor from Ward 17, who is wise enough to know what the opposition means, who is wise enough to know how far they will go in order to bring disgrace on his head, as they have attempted so often to bring it on mine, going to the extent of charging me with wanting to tax Catholic churches, parochial schools, Protestant churches and synagogues. I was told to stop my attacks, or they would chase me into political oblivion. The councilor will hear, or no doubt has already heard, the same thing. But let us be red-blooded. We know that we are fighting for the homes of Boston citizens, homes in twelve wards, where every hard-earned dollar paid upon real estate goes to welfare. So let us stand up and fight until we have on the run every fakir and crook who is getting from the city what he is not properly entitled to. Let us have the intestinal fortitude, now that we have started and are getting them on the run, to go through to the very end, sir.

The order was passed under suspension of the rule.

IOLA STREET, WARD 14.

Coun. GOLDMAN offered the following:

Ordered, That the Board of Street Commissioners be requested, through his Honor the Mayor, to accept and lay out Iola street, Ward 14, as a public highway.

Passed under suspension of the rule.

SIDEWALK ON DUNCAN STREET.

Coun. TOBIN offered the following:

Ordered, That the Commissioner of Public Works make a sidewalk along Duncan street, entire length, both sides, Ward 15, in front of the estates bordering thereon; said sidewalk to be from 3 to 10 inches above the gutter adjoining, to be from 5 to 12 feet in width, and to be built of granolithic, with granite edgestones, under the provisions of chapter 196 of the Special Acts of 1917.

Passed under suspension of the rule.

DECENTRALIZATION OF WELFARE DEPARTMENT.

Coun. NORTON offered the following:

Ordered, That the Mayor of Boston be requested to consider the advisability of requesting the Board of Public Welfare to decentralize the work of the department.

Coun. NORTON—Mr. President, the colleagues here smile at that order, but until the Welfare Department of this city is decentralized in twenty-two wards in Boston, as it is in my ward, you are bound to have chaos and waste. Out in your ward a man or a woman across the street from you is in need. You and the people out there know the circumstances. In my ward what does such a person have to do? He simply goes to the place in the ward where that relief is given. In your ward, what does such a person have to do? Go down to that house of horrors on Hawkins street and report, and then has to go back again. In my ward, as I say, he goes into the municipal building, sits in a comfortable seat, tells his story, and within eight hours there is a report. What are you men in wards where that arrangement is not made going to do about it? How long are you going to stand for the present condition? You can do something about it when the budget comes in. We will then be the bosses in this town. We appropriate the money. When are you going to act?

The order was passed under suspension of the rule.

REPORT OF SURVEY COMMITTEE ON HEALTH DEPARTMENT.

Coun. NORTON offered the following:

Ordered, That the Mayor of Boston be requested to consider the advisability of furnishing the Council with the Report of the Survey Committee on the Boston Health Department and report to the Council what has been done to date regarding the carrying out of any or all of the recommendations of this committee.

Passed under suspension of the rule.

REAL ESTATE TAXES IN VARIOUS CITIES.

Coun. NORTON offered the following:

Ordered, That the Mayor of Boston be requested to consider the advisability of having a study made as to the reasons why the real estate of Boston, our buildings, homes and land, for the fiscal year 1933, was taxed a total of $54,221,680, while Cleveland's real estate, a city with over 100,000 more in population than Boston, was taxed a total of $26,940,750.09, less that half that of Boston. Detroit, with almost double the population of Boston, for the year 1933, taxed its real estate for a total of $45,385,956.60. Philadelphia, with almost three times the population of Boston, taxed its real estate a total of $89,085,936. Chicago is collecting this year, 1934, on its real estate, a total of $118,149,742. Perhaps this study will show why Boston has the smallest percentage of home owners of any large American cities, and losing our industries because of the highest adjustable tax rate of any large American cities.

Coun. NORTON—Mr. President, what I am saying in that order is this, that that building across the street pays double the taxes to the City of Boston that it would pay to any other large American city in which it might be located. In my ward 400 small homes are being sold this year because of inability to pay the taxes. That is the best thing that Boston has done in the last few years—grab the homes where the owners have been unable to pay the taxes, the homes of the poor! That is the best thing we have done, grab those little homes, selling them for taxes and making it doubly hard for the owners to get them back! I am simply giving figures here which I challenge anybody to dispute. I want to know why Boston for the fiscal year 1933 was taxed a total of $54,000,000 on its real estate, while Cleveland, a city with over 100,000 more population than Boston, was taxed on its real estate a total of $26,900,000, or less than half the amount of the tax in Boston. And I want to know why the same relative situation prevails in other large American cities, as compared with Boston.

Coun. McGRATH—Mr. President, I hesitate to offer information to my colleague from Ward 18, but I would say this, that Boston is practically a city of 2,000,000 people, but a large proportion of that 2,000,000, while working in and depending upon the City of Boston for a livelihood, have their homes and their communities outside the city. We were told by our friends of the Municipal Research Bureau a few months ago, through Mr. Loeffler, that the people of Boston have a home ownership of a far smaller percentage than other large cities in this country, that the percentage of home ownership here is but 25, while in Buffalo, for example, it is 59 per cent; by which Mr. Loeffler would seek to prove that Boston is not a fit city to live in, as shown by the fact that 59 per cent of the people of Buffalo own their own homes as against 25 per cent in the City of Boston. Well, anybody who knows Buffalo knows how spread out it is, how it goes from Tonawanda over to Niagara Falls, how you travel along for twenty miles in the wilderness along the great shore boulevard there, still in Buffalo, before you run into a location sizable enough to warrant high priced real estate. The reason why Boston has only 25 per cent of home ownership is because of the bedrooms of the people in the outside cities and towns—Brookline, Newton, Quincy, and all the others. We must also take into consideration the fact that 4,000 of our own city employees do not live in the City of Boston, including 1,868 of those in the School Department. Then, look at those in the Library Department, who not only do not live in the City of Boston, but who own their own homes in towns outside of Boston. Of course, some of those who object when we say that city employees should live in this city, shout "Provincialism! Why not build a Chinese wall around the City of Boston? Why invite anybody to trade here, if you don't want them here?" Well, there was a concern recently that made a survey in Dorchester, and got together a few statistics. There are in the Dorchester wards, as the survey awhile ago showed, 468 habitable places, from the smallest tenement to the largest single house, unoccupied. That certainly made it harder for those 468 to pay their taxes, and perhaps if it were checked up you would find that they did not pay them. And yet if some of these employees of the School Department who live outside of Boston would occupy these 468 apartments or houses, there would not be that unused and unremunerative vacant property in those five wards and we would perhaps not be forced into a drive in order to collect $18,000,000 or $19,000,000 of outstanding taxes. It is fair to assume that if all city employees moved back to the City of Boston, our tax problem would be a simple one. But we know that when we built the Dorchester Rapid Transit System, it not only resulted in bringing people into the downtown area from Milton and other places within twenty minutes, but also resulted in people moving from Boston farther out. We know that every such move in the Legislature in the last fifteen or twenty years has been along that line, to carry people quickly and easily outside of the City of Boston. When we hear of these rapid transit schemes and the development of fine roads, it means largely getting people to and from Newton more quickly, or to and from some other outlying city or town. Our Dorchester rapid transit carries people to the town of Milton and beyond, and we are making it easier for people to get to and from Brookline and other outlying suburbs, where they join the improvement associations

and rail about poor government in the City of Boston. If one half the people who work in this city and do not live here made their homes here, our financial condition and our general condition would be much better than it is. Our downtown real estate would not be suffering as it is today; Boston would be a better city to live in. So there is a simple answer to all this criticism about Boston not being a city of home owners. Boston is the center, the business community. It is really a city of 2,000,000 people, but when you are figuring on home ownership, while it is practically a city of 2,000,000 people, a large part of the population lives and sleeps outside of the city, and Boston alone must meet its bills. And Boston has other burdens to bear in connection with these suburban communities. When the city of Cambridge built a twelve-story building in Central square, the suggestion was made that there should be a new fire station to house an 85-foot ladder in case of a fire in such a building. But they said, "Why should we do that? At any time when fire apparatus is needed, we send to Boston, and at any time when there is a riot we call on the Boston police." Also, we are keeping a hospital which is used largely by those coming from other places, and our Welfare Department serves surrounding communities. Therefore, we must keep the Boston Police Department right at the peak, must keep our Fire Department at the peak, to meet the needs of these other cities and towns in case of a riot or a conflagration. The wealthy cities and towns around our borders depend upon us. There are certain fire boxes in Milton and Brookline that bring the Boston apparatus; and these communities sit quietly by, knowing that they can depend upon the City of Boston in emergencies, and then condemn the City of Boston where, they say, 65 cents of every dollar goes for waste, graft and corruption, and only 35 cents represents honest expenditure. And so we continue, 750,000 people spending money for 2,000,000 people in police and fire protection and other activities, while we continue to be the football of those outside, who have nothing but criticism for us after they have enjoyed the hearty meal.

Coun. NORTON—Mr. President, I hesitate to answer the colleague on his real estate statistics, but I have no hesitation in answering his argument, the only one that has been used in the past, as to why Boston's cost of government has been so tremendously high. There are two and one quarter million people in the 450 square miles covered by the forty-three cities and towns of what is known as Boston metropolitan area, an area somewhat analogous to the Pittsburgh metropolitan area. When you take into account in those 450 square miles the hospitals, fire stations and police stations in Brookline, Cambridge, Somerville, everyone of these adjacent towns and cities, you will find in those 450 square miles of the metropolitan area more money spent on government than is spent on any other two and one quarter million people in the world. Let me ask the colleague, Does he realize that the city of Cleveland, which took but $27,000,000 out of its real estate last year as against the $54,000,000 taken by Boston, although Cleveland had 100,000 more population than Boston, also has its county district, school district, other such expenses to meet? And I ask the gentleman how he answers this. In the borough of Manhattan alone, where at the corner of Forty-Second street and Broadway you have the busiest corner in this hemisphere, and taking in forty-three square miles, the same as Boston, I challenge him to show where in that biggest, most thickly populated area in this hemisphere there is as large a proportionate cost of government as we have here in Boston. Waste and extravagance throughout the years have robbed this city of its industry, have destroyed incentive to home ownership. But every time when we show the indubitable fact there is only one argument that they can draw upon, and that is the stereotyped argument that Boston is different from other cities. I challenge them to show wherein it is different. We have here forty-three square miles, a very small city in area. If you want to reduce expenditures, certainly you should be able to do it in a place that is so consolidated, so built up. But here you have the figures. Cleveland, with three times our area and a larger population, raises half the amount we raise from real estate; Detroit, with three times our area and almost double our population, last year taxed its real estate for a total of $45,000,000 against our $54,000,000. Los Angeles is as large as our whole metropolitan area put together, 450 square miles, and yet the amount of taxes that it raises from its real estate is far less than the amount we raise. Pittsburgh has an area analogous to Boston, but its taxpayers do not suffer as ours do. How in the name of common sense does the fact that people live out in Brookline, riding to Boston and then go home in a car, increase our expenditure? How in the world, outside of hospitalization, does that increase the expenses of Boston? And some time I would like to answer that one hospitalization argument that they have. I have devoted four years to collecting data upon that argument, and I claim that it is a fallacious one. I wonder how the colleague can explain this. At the Bellevue Hospital, with 2,200 ward patients, the cost of food was not as large as it was at our City Hospital, with 1,300 ward patients. The City of Boston different? The American Health Association claims that the food in both hospitals is A1. No, Mr. President, the arguments used by the gentleman do not explain away the waste and extravagance through the years in Boston, the cost of which is placed upon the shoulders of every man, woman and child in Boston. Municipal government in Boston costs every man, woman and child over $80 per year, while the expense of governing New York City costs every man, woman and child there but $67 a year, while in Detroit, Cleveland, St. Louis, Pittsburgh, Baltimore, Philadelphia, the per capita cost is $42 to $43 per year. How can what business we have stay here under those conditions? How can you expect a man or woman to own a home with such a handicap? And you simply say that Boston is different! You say that more people come into the forty-three square miles of Boston than into any other large city. My answer is that real estate assessments in Boston, because of the cost of municipal government, are far, far beyond what they should be; and I will take an area—Manhattan, New York—with double the number coming in, and show that our costs of government per capita for our forty-three square miles is greater than it is in Manhattan. This is the result of long years of waste and extravagance. Why should we in my ward pay more than double what is paid in Cleveland, Detroit or New York? But they say "We are different." How? No, Mr. President, this talk about the metropolitan district here simply is to throw dust in our eyes. We are not different. There are other cities that have the same problems that we have. But why has Boston been able to stand this waste and extravagance? Simply because, as an inheritance from the past, we have been the most stable city in America, due to geographical and other reasons. Our old American families here were thrifty, accumulated wealth, were conservative, established solid banking and other institutions. They have hung on to their property. There has not been the continual change from one kind of building to another. In Philadelphia, if they felt that a certain building would not pay, over it would go. There has not been here the velocity in the turnover of real estate that you find in other large American centers twice as large as Boston. Our old families have prided themselves in holding on to their old buildings, have been prudent and conservative in handling their affairs and Boston has thereby benefitted financially. But I deny the contention that because people come into Boston from Brookline, Milton, Dedham and other places, that is the reason why we have these tremendous costs. My answer is that the other communities about us in the metropolitan district have their fire departments, their police departments, their hospital service, taking care of their own needs. The colleague speaks of boxes on the Milton line where our fire engines can be called into Milton in an emergency, running up the street half a mile into Milton. What does that cost? In other words, my contention is that instead of our situation costing us more money, it should cost us less, because we have only forty-three square miles, with 788,000-odd people, in the smallest area of any large American city. With such concentration of course costs should be less. What would it cost us if we had to run water mains to Lexington, if we had to run them away out into the country as they have to do in Los Angeles, if we had to build hospitals in Arlington and had to run fire engines out to Somerville right along? This is simply an answer to the contention that, on account of Boston having the smallest area and the largest number of people emptying into the city, we are charged double the cost of these other American cities on real estate.

Coun. McGRATH—Mr. President, not wishing to prolong this debate, let me simply say this, that I think the mistake made when they talk about reducing the taxable value of property in Boston is that they forget that if the $1,600,000,000 of property were cut in half, the chances are that the tax rate would go, say, from $32.50 to $65 per thousand. We must maintain hospitals, we must maintain a police force, we must maintain water, sewer and other services that are very vital. And over 70 per cent of those costs must come from real estate, even though the figures are cut to the bone. And the claims that have been made from year to year that great reductions could be made here or there in the expenses of Boston have always been extremely problematical, to say the least. We have seen a reform group in operation here since the first of January—in fact, since the first part of November, when they were preparing to come into control. I quoted awhile ago from a speech of the Mayor showing that this group were firmly convinced that every member of the Council who had voted in 1932 or 1933 for the budget as submitted had done something that resulted in waste, graft and corruption to the extent of 65 per cent. We heard the Good Government Association—I trust that I will be pardoned for using that name, an association that has now been displaced by the Municipal Research Bureau—say to the man who was their candidate, "You go out into every ward of Boston, raise your right hand, and make this statement: 'I am an honest man. The man now in City Hall is a grafter, is corrupt. The budget passed by the City Council and put into effect by his Honor the Mayor for 1933 contained 65 cents on every dollar that went for waste, graft and corruption, and,' using his own words, 'went into the hands of political pirates'." Men and women who had voted for me for years stopped me on the street in my home district and said, "We cannot vote for you this year, Mr. McGrath, because by your vote you condoned the extravagant and wasteful expenditure of 65 cents in every dollar. In other words, of every dollar we paid in taxes on our little home, 65 cents, through the action of the Mayor and the Council of which you were President, went into the hands of political pirates, because we heard Mr. Mansfield, who is an honest man, as we believe,"—and I do not criticize him, as far as I know, he is an honest and reputable citizen,—"say that that was the case." There is no doubt that he did sell the idea in my ward and in other wards of the city that the moment he took office he would cut 65 cents out of every dollar of taxes, because it went for waste, graft and corruption. But as soon as they took over office, they found that they were in error, and so the Good Government Association disbanded, so that when anybody wanted to hold them up to their statement that 65 cents in every dollar represented waste, graft and corruption and was going to political pirates, their address would be unknown. But the Municipal Research Bureau took over the function of the Good Government Association and said, "Now, we will make good." And they have cut the budget for 1934 by 3 per cent! Four weeks ago I introduced an order into the Council asking the Mayor certain questions, based on statements made by him in the Boston *Herald* in October of last year, to the effect that 65 per cent of every dollar paid by the people of the city for taxes in the last twelve years had been stolen by political pirates; that the budget of 1933 was $36,750,000 as against the budget submitted by Mayor Mansfield for 1934 of $35,474,000, a decrease of slightly over 3 per cent; and asked him if, in view of the fact, his charge that 65 per cent went to political pirates was unwarranted and false, or whether, in his present opinion, 62 per cent of the budget of 1934 represented waste, graft and corruption. It is one thing or the other, sir. So, when we hear this talk about cutting expenses, and about eliminating waste, graft and corruption, let us now look at the figures of the Municipal Research Bureau, which have been worked out in book form, in their relation with every large city in the country. And in seeking a man to pass upon Boston affairs they went very far afield, when they could have obtained in Boston men very much more familiar with the situation and whose statements would be very much more to be trusted. The man whom they picked, however, is the one responsible for the statement that Boston has only a 25 per cent home ownership, and who has pointed out how much more it costs here for government than it costs in certain other of these cities. But, Mr. President, we are the only big city in the country that pays the county expenses in their entirety. We pay for the courts in Chelsea; we pay for the entire Chelsea police work, as far as the courts are concerned, and when in the year 1925 Chelsea collected $16,000 and expenses, that went into Chelsea's treasury. In other cities they not only do not take care of county expenses, but the counties take care of such things as hospitals. In New York City the borough takes care of the hospitals. In Boston we take care of the city and the county expenses in their entirety. The other day in the Legislature, when a new park building on Metropolitan waterworks land in Somerville was under discussion, a member said, "Why worry about it, because the city of Somerville will have to pay only 40 per cent and Boston will pay 60 per cent?" Until those charges levied on Boston by the state are taken into consideration, presenting a situation different from that which appears in any other city in the country, comparisons with these other cities are not fair. They are different from

Boston, and that difference must be taken into consideration. We bear the entire load, and therefore the percentage figures issued by the Municipal Research Bureau are absolutely unfair to the City of Boston. And the hypocrisy which has led to these unfair statements and unfair figures has been very harmful to our city. Our people should know that the figures presented are unfair. Boston is a good city to live in. Those dissatisfied, of course, can always move out of it. But we have got along for a great many years without the assistance of outside men from Detroit, St. Louis and other places, who have come here and tried to tell us about our horrible management. We have the brains centered around Boston that are available for any emergency, for the study of any problem confronting us, and they can be called on. This Council has been fortunate in the past in having outstanding men, men who would have made far more excellent mayors of Boston than men who have served in the Mayor's office, men who have certainly measured up to the mayors of Chicago, New York, Cleveland or any other city. Let us start to boost old Boston. It is not a bad town to live in. Of course, at times, as in any other city, there are things that are wrong. But we don't need to have Mr. Loeffler, the man from Detroit, come over here and hurl unfair charges against Boston. We are proud of our city, Mr. Loeffler and Mayor Mansfield. It has got along pretty well and must have been a pretty good city to stand the kicking that the reform administration has given it. Now that you are in control, we will see what you will do.

On motion of Coun. SHATTUCK, the previous question was ordered, and the order was passed under suspension of the rule.

LONG ISLAND HOSPITAL NURSES.

Coun. NORTON offered the following:

Ordered, That the Institutions Commissioner be requested, through his Honor the Mayor, not to discharge from the employ of the city any nurses now in the Training School at Long Island Hospital until they at least get their diplomas.

Coun. NORTON—Mr. President, we have seen something of the waving of the American flag and hollering that Boston is a good town to live in. That is the argument of those who have wasted the city's money. The colleague says that this is a county city. I want him to answer this. The city of Cleveland, located in Cuyahoga county, pays the expenses of the city, and also pays its pro rata expense of Cuyahoga county and Wayne county; and Los Angeles is located in Los Angeles county and most of the city and county functions are carried on and paid for out of the Los Angeles budget. Now, do I represent Loeffler? Do I represent the Municipal Research Bureau? Does any member of this body think, since I have been here, that I have represented any organization? Do I represent Loeffler in presenting figures? Do you know how many hours it takes to get this data? From listening to some of the things that have been said here, you might think that this material came from Mr. Loeffler's research bureau. I have to take the opportunity to answer some of these things. The statement has been made that in New York State the boroughs run the hospitals. The boroughs run the hospitals? That is wrong, they do not. They are run by Mr. S. S. Goldwater, Commissioner of Hospitals in the city of New York. Borough functions dealing with certain things are run by the boroughs, hospital functions are run in New York City by Dr. S. S. Goldwater, Commissioner of Hospitals in the city of New York. As you know, I have stated that, as a result of waste and extravagance, the cost of city government in Boston is double that of any other large city that comes in the same category. The moment I make that statement I am attacked as an emissary of the Municipal Research Bureau. It has been said that I have represented the Good Government Association here on this floor. Mr. President, since I have been a member of the body, neither the Municipal Research Bureau nor the Good Government Association has ever asked me to do one thing, right or wrong; but because I have obtained and have produced figures here, which took long hours of research to compile and involved months of inquiry, the insinuation has been made that I have obtained these figures, not on my own account, but from the Boston Municipal Research Bureau. I can say to you, colleagues, that while I have made a number of statements here on this floor, I have made them in my own individual capacity, from my own research, and that I have not been assisted in my study by Mr. Loeffler, the Municipal Research Bureau, or the Good Government Association. When I say that the cost of government in Boston is double that of any other large American city, and that it is getting to a point where it will destroy our resources and be a menace to our homes, I do not put out that statement as representing the gentleman from Detroit. No, Mr. President. We have wasted money in this city. There has been an excessive expenditure on 300 school buildings in Boston, costing $68,000,000. There has been $56,000,000 spent on 375 miles of Boston streets from 1925 to 1933, inclusive, and yet many of those streets today are mud holes. We have spent extravagantly three and one quarter million dollars on 170 pieces of fire apparatus, and yet our fire loss is the highest per capita of any city in America, larger than those of Cleveland, Baltimore and Detroit put together. You know, my colleagues, that I am not representing the Municipal Research Bureau when I stand here making these statements, but that I am giving to you figures I have collected myself. I stand here representing a ward with 333 streets, many of them mud holes and in such condition that children cannot go to school. There has been graft, waste and extravagance in this city. It costs $140,000 a square mile to police Boston, the only large city outside of New York where it costs over $100,000. We have had seven and one quarter million dollars land damages in connection with the East Boston vehicular tunnel to date. We have been paying on our streets in Boston, on the average, $2.25 to $2.50 a square yard, whereas in practically every other American city the cost is $1. They have been putting in six inches of concrete, two or three inches of filler, and a surface on top of that, where the whole business could have been taken care of with six inches of crushed stone, with hot asphalt placed on top of that, as has been done on the American Legion Highway and which can be done at $1 or less a square yard. Mr. President, we cannot get anywhere in Boston until we recognize the facts. I represent the Municipal Research Bureau and the gentleman from Detroit, Mr. Loeffler? Mr. President, I wear no man's collar, and I simply repeat that I represent myself, and I have never bowed to the man downstairs. I intend to be fair to him and to call the balls as I see them from the outfield. Let it go at that. I am merely continuing the fight that I started years ago, getting my own figures, my own statistics, compiling them myself, and not acting as the mouthpiece of the Municipal Research Bureau or of any other organization on the floor of this Council.

Coun. GREEN—Mr. President, I would ask the councilor from Hyde Park (Coun. Norton) if he would be satisfied to have this order he has introduced referred to the executive session? I think some of the gentlemen here would like to talk to the doctor, also.

Coun. NORTON—Mr. President, the order has to do with nurses down at Long Island. I understand that we pay the nurses $600 a year. I understand that, as a result of the economy program, they are closing the nurses' school. I am perfectly willing to have the school closed, but I think it is a little unfair to a girl who has been going along there for two years and who expects to graduate next year to close the school at this time.

Coun. GREEN—Mr. President, I think it would expedite the matter to have this referred to the Executive Committee, so that we can take it up with Doctor Wash-up or Washburn.

The order was referred to the Executive Committee.

RECESS.

The Council voted at 4.20 p. m., on motion of Coun. KERRIGAN, to take a recess subject to the call of the Chair. The members reassembled in the Council Chamber at 6.12 p. m., President DOWD presiding.

EXECUTIVE COMMITTEE REPORTS.

Coun. WILSON, for the Executive Committee, submitted the following:

1. Report on message of Mayor and order (referred today) that Mayor be authorized to execute and deliver to United States of America in behalf of City of Boston three counterparts of grant agreement between city and United States relating to project of water main construction, P. W. A., Docket No. 7223, providing for grant to the city of amount not to exceed 30 per cent of cost of labor and materials and not to exceed $200,000—recommending passage of said order.

Report on message of Mayor and order (referred today) that Mayor be authorized to execute agreement between city and United States for Police Department communications system, P. W. A., Docket No. 8200—recommending passage of said order.

Reports accepted; said orders passed, yeas 16, nays 0.

2. Report on message of Mayor (referred today) asking formal rescission of eight loan orders on Public Works projects passed in November and December, 1933—that same ought to pass.

Report accepted, and the several rescission orders were read once and passed, yeas 16, nays 0.

3. Report on message of Mayor and two orders (referred today) for appropriations for Welfare Department—recommending as follows:

On order appropriating $485,694.50 for Personal Service, Service Other than Personal, Equipment, Supplies, Special Items, Pensions and Annuities—recommending that same be referred to Committee on Appropriations.

Report accepted; said order referred to Committee on Appropriations.

Report on order appropriating $5,600,000 for Care of Dependents, Mothers' Aid, Old Age Assistance—that same ought to pass.

Report accepted; said order passed, yeas 16, nays 0.

4. Report on order (referred today) requesting Institutions Commissioner not to discharge nurses now in the Training School at Long Island Hospital—recommending passage of accompanying new draft, viz.:

Ordered, That the Institutions Commissioner be requested, through his Honor the Mayor, not to discharge from the employ of the city nurses now in the Training School at Long Island Hospital until they at least get a chance to take the examination for their diplomas or are accepted in training at the Boston City Hospital, and that in no instance shall previous education be a requisite to taking such examinations by the present students.

The report was accepted.

The order was amended by Coun. GOLDMAN by inserting the words "and determination be made in respect to unsatisfactory service," and, as amended, was passed.

5. Report on petitions (referred today) for children under fifteen years of age to appear at places of public amusement, viz.:

Freyda Pronsky, Repertory Theatre, June 19; Gertrude Dolan, Repertory Theatre, June 20; Ruth M. McShane, Municipal Building, South Boston, June 7; Delbert M. Staley, Repertory Theatre, May 9; Alice Burke, Repertory Theatre, June 8; Edna Stertz-Shirley Ruby School, Colonial Theatre, May 28; Mary V. Hayes, Repertory Theatre, June 1; Lucille Perry Hall, Repertory Theatre, May 28—recommending that leave be granted, on usual conditions.

Report accepted; leave granted on usual conditions.

6. Petition of Gaels of Boston, Inc., for license for Sunday sports in Celtic Park, on Metropolitan avenue, Hyde Park,—recommending that same be granted.

Report accepted; license granted under usual conditions.

REPORT OF COMMITTEE ON PUBLIC LANDS.

Coun. McGRATH, for the Committee on Public Lands, submitted the following:

1. Report on message of Mayor and order (referred April 2) for release of restrictions on land at Harrison avenue and East Newton street—that same ought to pass.

Report accepted; said order passed, yeas 15, nays 0.

FIFTIETH ANNIVERSARY OF CARDINAL O'CONNELL ORDINATION.

Coun. TOBIN offered the following:

Ordered, That the City of Boston, through his Honor the Mayor and the Council, take part in the ceremonies for the Fiftieth Anniversary of the Ordination of Cardinal O'Connell.

Passed under suspension of the rule.

CEREMONIES FOR "OLD IRONSIDES."

Coun. TOBIN offered the following:

Ordered, That the City of Boston, through his Honor the Mayor, take part in the welcome ceremonies for the "Old Ironsides" Sunday, May 13.

Passed under suspension of the rule.

OBSERVANCE OF DORCHESTER DAY.

Coun. TOBIN, FISH, WILSON, McGRATH, GOLDMAN offered the following:

Ordered, That his Honor the Mayor be requested to provide sufficient funds for the proper observance of Dorchester Day.

Passed under suspension of the rule.

SIDEWALK ON ADAMS STREET.

Coun. TOBIN, for Coun. Fish and Wilson, offered the following:

Ordered, That the Commissioner of Public Works make a sidewalk along Adams street, both sides, from Gallivan Boulevard to Pierce square, Wards 16 and 17, in front of the estates bordering thereon; said sidewalk to be from 3 to 10 inches above the gutter adjoining, to be from 5 to 12 feet in width, and to be built of artificial stone, with granite edgestones, under the provisions of chapter 196 of the Special Acts of 1917.

Passed under suspension of the rule.

SIDEWALK ON FREDERICK STREET.

Coun. KERRIGAN offered the following:

Ordered, That the Commissioner of Public Works make a sidewalk along Frederick street, entire length, both sides, Ward 7, in front of the estates bordering thereon; said sidewalk to be from 3 to 10 inches above the gutter adjoining, to be from 5 to 12 feet in width, and to be built of granolithic, with granite edgestones, under the provisions of chapter 196 of the Special Acts of 1917.

Passed under suspension of the rule.

FIRST-AID KITS, L STREET BATHS.

Coun. KERRIGAN offered the following:

Ordered, That the Park Commission be requested, through his Honor the Mayor, to equip the L Street Bath Houses with first-aid kits.

Passed under suspension of the rule.

HOT WATER FOR SHOWER BATHS.

Coun. GREEN offered the following:

Ordered, That the Park Commission be requested, through his Honor the Mayor, to furnish hot water for the summer for shower-baths on all Charlestown playgrounds.

Passed under suspension of the rule.

SMALL PARKS.

Coun. GREEN offered the following:

Ordered, That his Honor the Mayor be requested to take up with the E. R. A. officials the matter of taking over all vacant land in congested sections of Boston for the purpose of turning same into small parks or mothers' rests for children of school age and mothers, inclosing same with wire fences and installing sand boxes, etc., which will provide labor and create a new project.

Passed under suspension of the rule.

ELIMINATION OF PUTTEES.

Coun. GREEN and Coun. SELVITELLA offered the following:

Ordered, That the Police Commissioner be requested, through his Honor the Mayor, to eliminate puttees as part of the police uniform during summer as they are unsanitary and handicap the officers in the pursuit of law violators.

Passed under suspension of the rule.

ADDITIONAL CONFIRMATION OF CONSTABLES.

Coun. GOLDMAN moved to take up, under No. 1 on the calendar, constables authorized to serve civil process, the names of Sherman H. Calderwood and Anthony J. Testa.

The Council voted to take up the two names referred to, and the question came on confirmation. Committee, Coun. Finley and Kerrigan. Whole number of ballots 15; yeas 9, nays 6, and the appointments were confirmed.

THE NEXT MEETING.

It was voted, on motion of Coun. McGRATH, that when the Council adjourns, it be to meet on Monday, May 21, 1934, at 2 p. m.

Adjourned, on motion of Coun. McGRATH, at 6.25 p. m., to meet on Monday, May 21, 1934, at 2 p. m.

REPORT OF THE DIRECTOR OF MANUAL ARTS ON CONVENTION.

The School Committee has approved the following report of Miss Helen E. Cleaves, Director of Manual Arts, on her attendance at the Eastern Arts Association meeting, held at Rochester, April 4 to 6, 1934, inclusive.

No American city feels comfortable without an Art Museum.

This in itself shows the tremendous new appreciation of the arts and their importance in American life. We were welcomed on Wednesday evening in the spacious, colorful galleries of Rochester Memorial Art Gallery where we enjoyed music by the Inter High School Orchestra, excellent contemporary paintings and other works of art. A motion picture, "Lot's Wife," illustrated the power of design to stir emotions through imagination. Great beauty was achieved through use of mirrors to repeat figures in sequences. Closeups of hands suggested human suffering far more effectively than the usual screen exhibit of quantity tear productions with prolonged facial contortions.

Musical programs by high school bands, orchestras and choruses at various sessions of the convention justified Rochester's pride in her musical standing. Through Eastman's generosity musical instruments are given to students who complete high school music courses.

On Thursday morning Mayor Charles Stanton welcomed the Twenty-Fifth Eastern Arts Association Convention to the Friendly Flower City which was celebrating its hundredth birthday. Superintendent of Schools, Mr. James M. Spinning, said that the arts antedated the three R's, which were merely recording and transmitting instruments of the arts. Speaking of rapid industrial changes he said, "The arts offer a fine way of being practical and a practical way of being fine." "Schools must help all young Robinson Crusoes to reinvent the arts, skills and ideals of craftsmanship."

Mr. C. Grant LaFavge gave a scholarly illustrated lecture on taste and style in architecture, showing how a Gothic cathedral and a New Hampshire dwelling place result from the same type of clear thinking and sensitive feeling. "Each has a statement to make, the Gothic speaks of complex passion, the country home of a place of quiet peace."

The Fine Arts session on Thursday afternoon was the largest of the sectional meetings. I spoke on the ways of "Winning Public Support for Art Education," and was proud to say that Boston had not reduced costs at the expense of the arts in education. The activities of Art Week in Boston proved interesting to the audience.

There was much interest in "Finger Painting" as described by its inventor, Miss Ruth Faison Shaw.

At the Thursday evening banquet Dr. Clarence A. Barbour, president of Brown University, gave an inspiring talk on the "Vision of the Teacher," emphasizing the unending influence of good teaching as it carries forward into the lives of succeeding generations.

Friday morning Mr. Vinal H. Tibbetts, Superintendent of Schools in Manhasset, Long Island, showed keen insight into the significance of art in education. He said, "Art can stabilize the emotional life of our people. Art activity can cushion the shock of social changes. The arts must be the center and core of our whole educational system." He based his remarks on successful experiments which he has tried in Manhasset.

Miss Secord of South Orange gave a learned paper in the purest pedagogical language, which might be translated to say that the arts offer the only social means of emotional communication. Even play is not necessarily social, but creative art is invariably so.

Mr. Donald R. Dohner, Director of Art, Westinghouse Electric Company, gave a most illuminating talk on industrial design with pictures of well-designed modern products in which vast machine power was properly used as a tool in the hands of creative artists and scientists. He emphasized the use of three-dimensional design, more like sculpture than drawing.

Friday afternoon was devoted to exhibitions and excursions to industrial plants, schools and museums. I visited school exhibits, noting the tendency to use drawing as a means of illustrating other school studies, sometimes displacing creative thinking. For example, I saw only one attempt to represent Niagara Falls, a nearby world wonder, while there were many sophisticated attempts to picture the traditional idea of Holland, as illustrated in school books. The child's own experience is after all the most educational part of his life.

Friday evening we heard an interesting description of educational achievements and ambitions in Russia of today by Professor Sollins of Moscow University, also a stirring address on "Staging a Come Back" by Doctor Grafflin, who said America had been praying to J. P. Morgan and hoping that God would answer.

The registration at the convention was less than four hundred instead of the usual seven hundred or more, but the program was exceptionally fine and the professional enthusiasm reached a high level. I trust that more Boston teachers and supervisors may be allowed to attend when economic conditions make it possible.

With genuine appreciation for the privilege of going, I am,

Respectfully yours,

HELEN E. CLEAVES,
Director of Manual Arts.

April 25, 1934.

PUBLIC DEBT, JANUARY 1, 1932.

Gross funded debt, January 1, 1932, $160,320,800.96 (including $139,999.96 issued by State for enlargement of Court House); sinking funds, $37,826,498.18; other redemption means, $3,140,115.26; net debt, $119,354,187.52 or $8,857,026.70 more than on January 1, 1931. Of said net debt $72,121,369.12 or 60.43 per cent was City debt; $45,626,311.48 or 38.22 per cent, Rapid Transit debt (representing 4½ per cent investment); $1,118,506.92 or 0.94 per cent, County debt; $488,000 or 0.41 per cent, Water debt.

Debt paid in 1931 was $8,273,300 but there was an increase in total gross debt of $7,664,700.

Per cent of net debt to valuation, 6.31; net debt per capita, $151.66 (approx.); net debt, exclusive of Rapid Transit debt, $73,727,876.04 or $93.68 per capita (approx.).

Per capitas are based on U. S. Census Bureau's estimated population on January 1, 1932.

Loans authorized but not issued (within debt limit), $1,664,500; same outside of debt limit, $6,996,500; total, $8,661 000.

POPULATION OF BOSTON, BY SEX, NATIVITY, ETC., 1930.

Total population, 781,188 (383,454 males and 397,734 females); ratio of males to females, 96.4 to 100 as against 97.2 to 100 in 1920. Native white, 529,400 (260,419 males and 268,981 females) or 67.77 per cent; sex ratio, 96.8 to 100. Of the 529,400 native whites, 200,130, or 37.80 per cent, are of native parentage; 248,653, or 46.97 per cent, are of foreign parentage and 80,617, or 15.23 per cent, are of mixed parentage (*i. e.*, one half native). Foreign-born whites, 229,356 (111,261 males and 118,095 females) or 9,563 less than in 1920; sex ratio 94.2 to 100. The foreign-born whites are 29.36 per cent of total population. Negroes, 20,574 (10,223 males and 10,351 females) or 2.63 per cent of population; sex ratio, 98.8 to 100. The Negro population has increased 4,224 since 1920 and 4,993 since 1915. Other races, 1,858 (1,551 males and 307 females), or 0.24 per cent, comprise 1,595 Chinese, 69 Japanese, 43 Indian, 26 Mexican and 125 miscellaneous. Total foreign white stock, 478,009 (viz., 229,356 plus 248,653) which is 61.19 per cent of all inhabitants.

SCHOOL ATTENDANCE FOR MASSACHUSETTS.

Number of children 5 years old, 77,159, of whom 27,096, or 35.1 per cent, were attending school; 6 years old, 77,629, of whom 64,919, or 83.6 per cent, were attending school; 7-13 years, 546,100, of whom 536,798, or 98.3 per cent, were attending school; 14 and 15 years, 151,181, of whom 140,387, or 92.9 per cent, were attending school; 16 and 17 years, 147,627, of whom 87,779, or 59.5 per cent, were attending school; 18-20 years, 213,791, of whom 53,503, or 25.0 per cent, were attending school. Number of persons attending school who were 21 years of age and over was 47,029.

Total number of boys 5 to 20 years of age, 606,159, of whom 459,253, or 75.8 per cent, were attending school; total number of girls 5 to 20 years of age, 607,328, of whom 451,229, or 74.3 per cent, were attending school; total children 5 to 20 years old, 1,213,487, of whom 910,482, or 75.0 per cent, were attending school.

CITY OF BOSTON.

SUPPLY DEPARTMENT.

PROPOSALS FOR FURNISHING TWO EMERGENCY TRACTORS.

The Supply Department of the City of Boston invites proposals for furnishing two emergency tractors to the East Boston Tunnel, Bridge and Ferry Division. The bidder must use the form of proposal to be obtained at the office of the Superintendent of Supplies, Room 801, City Hall Annex, and the successful bidder must furnish a bond for one quarter the total estimated amount of the bid with a surety company authorized to do business in Massachusetts as surety for the faithful performance of the contract. *There will be a charge of twenty cents ($0.20) for each set of blank proposals taken out.* The bid, with a certified check for $300, payable to and to become the property of the City of Boston, if the proposal is not carried out, must be left at the office of the Superintendent of Supplies, before 12 m., on Friday, June 1, 1934, at which time and place they will be publicly opened and read. A duplicate bid, without check, must be left at the office of the City Auditor prior to the time named for opening bids. The Superintendent reserves the right to accept or reject any or all bids, or any part of a bid, and to award the contract as he deems for the best interests of the city. All contracts made subject to appropriations to meet payments thereunder.

WARREN W. LOOMIS,
(May 19.) *Superintendent of Supplies.*

CITY OF BOSTON.

PUBLIC WORKS DEPARTMENT.

PROPOSALS FOR REPAIRING THE MASONRY WALL AND REPLACING WOODEN BULKHEAD AND SIDEWALK AT CENTRAL WHARF, ATLANTIC AVENUE, BOSTON.

The Commissioner of Public Works of the City of Boston, office 508 City Hall Annex, invites proposals from citizens of the United States and corporations or other legal associations wherein the controlling interest to the extent of at least over one half thereof is owned by a citizen or citizens of the United States, for repairing the masonry wall and replacing wooden bulkhead and sidewalk at Central Wharf, Atlantic avenue, Boston, and giving bond therefor of a surety company approved by the Commissioner in the sum of 100 per cent of the contract, to secure the due performance of the contract and the full protection of the city. Forms of proposals may be obtained at Room 508, City Hall Annex. Each proposal should be inclosed in an envelope, sealed, marked "Bid for Repairing the Masonry Wall and Replacing Wooden Bulkhead and Sidewalk at Central Wharf, Atlantic Avenue, Boston," and left at Room 508, fifth floor, City Hall Annex, before 12 o'clock m. on Monday, June 4, 1934, with a certified check for one thousand (1,000) dollars, payable to and to become the property of the city if the proposal after acceptance is not carried out. The proposals will then and there be publicly opened and read. Proposals must be made in duplicate, the sealed duplicate, without check, to be deposited by the bidder with the City Auditor previous to the time named for opening the bids. *There will be a charge of two dollars ($2) for each set of plans and specifications taken out.* If the price of any item appears to the Commissioner to be abnormally high or low, or the bidder neglects to bid on each and every item, it may lead to the rejection of the bid containing such price. The undersigned reserves the right to reject any or all proposals or to accept any proposal should he deem it to be for the best interest of the city so to do.

C. J. CARVEN,
(May 19.) *Commissioner of Public Works.*

CITY OF BOSTON.

PUBLIC WORKS DEPARTMENT.

PROPOSALS FOR REPAIRING THE DRAW PIER AT CHELSEA NORTH BRIDGE.

The Commissioner of Public Works of the City of Boston, office 508 City Hall Annex, invites proposals from citizens of the United States and corporations or other legal associations wherein the controlling interest to the extent of at least over one half thereof is owned by a citizen or citizens of the United States, for repairing the draw pier at Chelsea North Bridge, and giving bond therefor of a surety company approved by the Commissioner in the sum of 100 per cent of the contract, to secure the due performance of the contract and the full protection of the city. Forms of proposals may be obtained at Room 508, City Hall Annex. Each proposal should be inclosed in an envelope, sealed, marked "Bid for Repairing the Draw Pier at Chelsea North Bridge," and left at Room 508, fifth floor, City Hall Annex, before 12 o'clock m. on Tuesday, May 29, 1934, with a certified check for five hundred (500) dollars, payable to and to become the property of the city if the proposal after acceptance is not carried out. The proposals will then and there be publicly opened and read. Proposals must be made in duplicate, the sealed duplicate, without check, to be deposited by the bidder with the City Auditor previous to the time named for opening the bids. *There will be a charge of two dollars ($2) for each set of specifications taken out.* Plans can be seen at Room 602, City Hall Annex. If the price of any item appears to the Commissioner to be abnormally high or low, or the bidder neglects to bid on each and every item, it may lead to the rejection of the bid containing such price. The undersigned reserves the right to reject any or all proposals or to accept any proposal should he deem it to be for the best interest of the city so to do.

C. J. CARVEN,
(May 19.) *Commissioner of Public Works.*

CITY OF BOSTON.

PUBLIC WORKS DEPARTMENT.

NATIONAL INDUSTRIAL RECOVERY PROJECT, P. W. A., DOCKET NO. 4193.

NOTICE TO CONTRACTORS.

Sealed proposal addressed to the Commissioner of Public Works of the City of Boston, and indorsed "Sewerage Works in Stony Brook, Section 12, Between 150 Feet Northwest of Florence Street and Neponset Avenue, West Roxbury," will be received at Room 508, fifth floor, City Hall Annex, Boston, Mass., before 12 m. on Tuesday, the 22d day of May, 1934, and at that time and place will be publicly opened and read. Bids must be made upon the prescribed proposal form. Special attention of bidders is called to all provisions of the Federal Emergency Administration of Public Works, which form a part of the contract, including the prescribed minimum rates of $1.20 per hour for skilled labor and 50 cents per hour for unskilled labor, and to the special provision as to semi-skilled labor. "Pursuant to Executive Order 6646, dated March 14, 1934, no bid will be considered unless it includes or is accompanied by a certificate (worded in accordance with P. W. A. 61 revised March 19, 1934) duly executed by the bidder, stating that the bidder is complying with and will continue to comply with each approved code of fair competition to which he is subject, and if engaged in any trade and industry for which there is no approved code of fair competition, then stating as to such trade or industry he has become a part to and is complying with and will continue to comply with an agreement with the President (President's Re-employment Agreement) under Section 4 (*a*) of the National Industry Recovery Act." "Every contractor who bids upon a project financed in whole or in part by loans or grants from the P. W. A. shall submit in a sealed envelope with his bid to the contracting authority the names of all subcontractors and their bids upon which his bid is based. The sealed envelope so submitted shall have on it the name of the contractor with the words thereon 'Bids of Subcontractors.' Such submission shall be deemed to constitute an acceptance by the contractor, if awarded the contract, of the bid of each subcontractor. Any alteration therein, after the award of the contract, shall be subject to the approval of the P. W. A. engineers." Plans, specifications and contract form may be obtained at Room 508, City Hall Annex, Boston, upon deposit of the sum of $2. Bids must be accompanied by a properly certified check on, or a certificate of deposit issued by a responsible bank in the sum of five thousand (5,000) dollars, payable to the City of Boston. Checks will be returned after execution of the contract upon demand. A surety bond by an approved surety company will be required from the successful bidder in an amount not less than the full amount of the contract. The right is reserved to reject any or all proposals, or to accept any proposal deemed best for the interest of the City of Boston, and no award can be made without the approval of the State Engineer, P. W. A. The name and address of the local registration office of the National Re-employment Service, from which employee lists for this contract shall be obtained, is as follows: State Public Employment Office (Everett L. Hanna, Manager), 100 Nashua street, Boston, Mass.

C. J. CARVEN,
(May 12-19.) *Commissioner of Public Works.*

CITY OF BOSTON.

TRANSIT DEPARTMENT.

PROPOSALS FOR FURNISHING AND ERECTING STEEL PALING FENCES, TRAFFIC TUNNEL.

The Transit Department of the City of Boston, 1 Beacon street, invites proposals for furnishing and erecting fence at the East Boston Garage and a fence at the East Boston Plaza, Traffic Tunnel. Plans and specifications may be obtained on or after Tuesday, May 15, 1934, at the office of the Department. The bids will be publicly opened and read at 12 o'clock noon, Monday, May 28, 1934. A properly certified check in the sum of one hundred (100) dollars, payable to the city, must accompany the proposal. A deposit of $5, in cash or certified check, will be required for a set of plans and two sets of specifications. Mutilation of them will be deemed sufficient cause for the forfeiture of said deposit. The Department reserves the right to reject any or all proposals.

By order of the CITY OF BOSTON TRANSIT DEPARTMENT.

EDWARD F. CONDON,
(May 12-19.) *Secretary.*

CITY RECORD

OFFICIAL CHRONICLE OF BOSTON MUNICIPAL AFFAIRS.

VOL. 26. SATURDAY, MAY 26, 1934. NO. 21

MAYOR MANSFIELD NOT MAKING LONE FIGHT IN BATTLE FOR TAXPAYERS FINDS SOBER MINDED AND CLEAR THINKING CITIZENS OF BOSTON AND MASSACHUSETTS WITH HIM AND SUPPORTING HIM IN HIS EFFORTS THIS COMES TO HIM AS RESULT OF RESPONSES TO BROADCAST OF PREVIOUS WEEK, HE TELLS RADIO AUDIENCE IN ADDRESS ON WEDNESDAY OF THIS WEEK TRYING TO INSTITUTE ECONOMIES EVERYWHERE IN ORDER THAT BUDGET MAY BE BALANCED THIS YEAR.

The following is the radio address of Mayor Mansfield over Station WNAC, Wednesday, May 23, at 2 p. m.:

When I spoke to the people by radio last Thursday evening I laid before them in very plain terms the dangers which are surrounding us and warned them of the possibility of a $40 tax rate for 1934 and of a $43 or even $45 tax rate for 1935.

I said then as I say now, and as I shall continue to say, that the serious plight in which the city finds itself is the result of many years of extravagance and waste of my predecessors in office. The wild saturnalia of lavish expenditures indulged in for so many years at the expense of the taxpayers has come to an end. It had to come to an end if the city was to survive.

But the unfortunate part of the story is that although the reckless throwing away of the people's money has ended, the disastrous results of so many years of unchecked and unbridled spending have not been terminated. Those disastrous results are with us today and the city is suffering for the sins of the past. The dance is over — the revelers have dispersed — but the sober people are still paying for the music. We are paying the piper; and if a few months from now when the tax rate for 1934 is determined, and you read in the press that the tax rate is around $40 per thousand, you will know that that high rate is the result of the reckless throwing away of your money by former administrations. And you will know that the day of reckoning is here at last.

Overtaken the Future.

In other words, we have overtaken the future. Everyone knew when the city was indulging in the luxurious pleasure of spending the people's money that in some far distant day referred to and thought of vaguely as "the future" the people would have to pay for it. That day which was visioned so vaguely and dimly years ago, and when prosperity seemed to be on top of the wave, has arrived. It is here. Not only have we overtaken the future, but the future has overtaken us, and the inexorable law that excesses must be followed by retrenchment is at work. The city has been on a spree and all that it has to show for it is a headache.

I said in my radio speech last Thursday night that I was fighting this battle for the taxpayers and that I was fighting it alone. But I was mistaken about that. I find from the responses which have come in from that speech that I am not alone and that the sober-minded and clear-thinking people of Boston and of Massachusetts are with me and behind me in this fight. Everyone, without any exception, who has given the slightest thought to municipal income and expenditures admits that savings must be made. But where? The short answer consists of one word — everywhere. But will that be enough to balance the budget for this financial year? There is grave doubt about it.

You must not think that because so much talk is being made about the reduction in pay of city employees, or suspensions and payless furloughs, that that is the only direction in which I am trying to save money for the city. That is only one of the many places in which economies are being practised and the gross sum of all the money which may be saved in all directions I hope will be substantial in order that I may keep this threatened tax rate below $40 for 1934 and below $43 for 1935.

Three Departments in News.

Just at the moment three very important and very expensive departments of the city government are claiming public attention. Those three departments are the Public Welfare Department, the City Hospital Department, and the School Department.

The Public Welfare Department is attracting much attention now because of statements of certain city councilors relative to alleged frauds in the department and also because of the rather widespread belief that this department is spending more money than it ought to spend and that much of the fourteen or fifteen million dollars which it spends yearly is either wasted or deliberately stolen. I have nothing to say either in affirmation or denial of these charges, but I do want to assure the public that I am giving the matter of the Public Welfare Department my very closest attention and that I am fairly cognizant of what is going on. There may be an opportunity to save one million or two million dollars in this department or even much more. Let the taxpayers remember that every million dollars saved takes 56 cents off their tax bill and, conversely, every million dollars spent adds 56 cents to the tax bill. If we can save two million dollars in the Welfare Department during the remainder of this year that will reduce your tax bill by $1.12 per thousand. I have received a few letters — surprisingly few — from school teachers relative to my radio speech of last week. I think in all there were less than five letters purporting to come from school teachers and two of them advanced as an excuse for not wishing to contribute to the City Treasury this year the alleged fact that such contributions would be wasted by the Public Welfare Department.

"O Boston, fair City enthroned like a radiant queen,
From thy hills looking down on the ship-teeming plain of the ocean,
May thy future be bright, thy skies beam with light all serene,
Ensured by thy sons' and thy daughters' unselfish devotion!"
From Boston Centennial Poem by
NATHAN HASKELL DOLE.

CITY RECORD.

Published weekly under legislative act by the City of Boston, Massachusetts.

FRANK H. CUSHMAN, *Editor*, Room 73, City Hall.
JOSHUA H. JONES, JR., *Associate Editor*.
EDWARD F. O'DOWD, *Business Agent*, Room 73, City Hall.

Entered as second class matter at Boston Post Office.

Single Copies . . . . . 10 Cents
IN ADVANCE

STREET AGENCIES.

Old South News-stand, Old South entrance to subway.

Advertising.

A rate of $2 per inch of 12 lines (set solid) has been established for such advertisements as under the law must be printed in the *City Record*. Advertising and other copy must be in hand by Thursday of each week to insure its publication in the Saturday issue.

Copies for sale at the Statistics Department, Room 73, City Hall.

MUNICIPAL CALENDAR.

Meeting of the City Council Monday, May 28, 1934, at 2 p. m.

Meetings of the Transit Department are held on Monday and Thursday of each week at 11 a. m.

Board of Zoning Adjustment. Public hearings and executive meetings are held on the first Friday of each month, Room 30, City Hall, at 2 p. m.

MUNICIPAL SERVICE.

Complaints, inquiries or suggestions regarding the work of municipal departments should be made in writing to the officials directly in charge. The failure of such official to make reply within a reasonable length of time should be brought to the attention of the Mayor. Communications should be directed as follows:

To the Board of Street Commissioners, Room 401, City Hall Annex, for information relative to the laying out, relocation, widening, and the discontinuance of highways; the taking of rear property for municipal purposes; the assessments of betterments for streets and sewers; the plotting of undeveloped area for streets and the opening of private ways; the granting of licenses for the storage or sale of merchandise in public streets; the making of specific repairs in public streets; the naming of public streets; the planting and removal of trees in public ways; the issuing of licenses for the storage of gasolene, oil, and other inflammable substances or explosive compounds; the use of the public ways for any permanent or temporary obstruction or projection in, under or over the same, including the location of conduits, poles and posts for telephone, telegraph, street railway or illuminating purposes, signs, marquises, bay windows, coal holes and vaults.

To the Boston Traffic Commission, 22 Court street, for information relative to regulation of vehicular street traffic on all or any streets, ways, highways, roads and parkways under the control of the City of Boston, the issuing of all permits in connection therewith.

To the Commissioner of Public Works, Room 511, City Hall Annex, for information as to the watering, cleaning, lighting and repairing of streets, the construction and care of sewers and catchbasins, the operation of the ferries, the maintenance of bridges and drawbridges and the removal of ashes and offal.

To Room 604, City Hall Annex, for information relative to the supplying or metering of water and the water charges of the city.

To the Health Department, Room 1107, City Hall Annex, for information relative to the inspection of milk, vinegar, meat, fish and vegetables, the issuance of permits for stables, slaughter houses, etc., smoke nuisances, the existence of contagious diseases, of public health nuisances.

To the Board of Park Commissioners, 33 Beacon street, for information as to the care of the Common, Public Garden, Franklin Park, Franklin Field, Commonwealth avenue, Back Bay Fens, Marine Park, and the small parks and playgrounds in general throughout the city, and as to the extermination of gypsy moths and the charges made for such service. Application may be made to this department for information regarding the public baths and gymnasiums maintained by the city, and with regard to municipal indoor concerts and band concerts, also information relative to Mt. Hope, Evergreen, Fairview and other public cemeteries owned by the City of Boston.

To the School Committee, 15 Beacon street, for information relative to the operation of the schools of the city.

To the Department of School Buildings, 11 Beacon street, for information as to the construction and repair of school buildings.

To the Board of Examiners, Room 1001, City Hall Annex, for information regarding the licensing of persons having charge or control of the work of construction, alteration, removal or tearing down buildings.

To the Wire Division of the Fire Department, Fire Department Headquarters, 60 Bristol street, for all information relative to the erection of poles, building of conduits, the installation of all overhead and underground construction and electrical apparatus, as well as for general information relative to the entire division. To Room 1007, City Hall Annex, for permits for the installing of wires and electrical apparatus within buildings of the City of Boston, and for the payment of fees incident to the granting of the privileges above named, and which must be paid in advance.

To the Board of Zoning Adjustment, Room 30, City Hall, relative to changes in the boundary lines of zoning districts of the City of Boston as established by chapter 488 of the Acts of 1924, and amendments thereto.

MORTALITY REPORT.

For the week ending May 19, 1934:

Population estimated July, 1934, United States Census Bureau estimate, 795,256; number of deaths (stillbirths excluded): Residents, 156; nonresidents, 47; total, 203.

Death rate per 1,000 of population: All deaths, 13.27; nonresidents deducted, 10.20.

Death rate per 1,000 of population: Last week, 15.37; corresponding week last year, 14.51.

Deaths by age periods, sex, etc.: Under one year, 23; one year to four years, inclusive, 2; sixty years and over, 94. Total deaths: Male, 104; female, 99; deaths in hospitals and institutions, 120; deaths of colored, 6.

REPORTABLE DISEASES: CASES AND DEATHS.*

BROADCAST BY MAYOR.

(Continued from page 497.)

And I am informed—although I have heard nothing directly—that members of the Police Department advanced this same reason for not contributing in this emergency which confronts the city. But if that condition exists in the Welfare Department it exists for all of us, and if because of this alleged condition two of the largest and most important branches of the city withhold contributions, that simply means that the rest of us have to contribute more than our share and it also means that the burden falls more heavily upon the taxpayer. But the people may rest assured that if there is anything wrong in the Welfare Department—whether it be deliberate larceny from the city by welfare recipients who are not entitled to welfare relief or whether it be collusion between recipients and employees or whether it be merely lack of efficiency and loose methods of administration—those conditions will be corrected.

As to the Boston City Hospital I shall have more to say later, but at the moment it is in the public mind because of the recent report of the Boston Finance Commission—a report which seems to be thorough, well-reasoned and most constructive. I am to have a conference with the Board of Trustees tomorrow morning when this report will be discussed. It may be that the taxpayers of Boston are being called upon to support and care for people who ought to be supported and cared for by other towns or communities. The City Hospital was established to provide medical care to poor people who could not afford to pay for private medical attention and during temporary sickness only. If there are chronic cases being cared for at the hospital it is obvious that they are not within the class for whom the hospital was established.

And they are there illegally, being maintained and cared for at great expense to the taxpayers of Boston and perhaps at some degree of risk to the other patients. You may say they ought to be removed at once, but where shall we send them? If there are no chronic hospitals that will take them, it seems plain enough that they cannot be turned out to shift for themselves. This is a matter which requires a great deal of thought and will be discussed at our conference tomorrow, and I hope that we may arrive at some solution of the problem which will be humane to the patients and satisfactory to the taxpayers and to the citizens of Boston.

It also appears from this report that persons who can afford to pay for private treatment are treated at the hospital without charge and that persons who are not citizens or residents of Boston obtain treatment and are patients at the City Hospital!

This is obviously unfair not only to the taxpayers but to the really sick people who are residents of Boston and who are entitled by law to hospital treatment. Only recently it was decided that a new surgical building was necessary at the hospital and the overcrowded condition of the wards was much emphasized. If persons who have no right whatever to treatment at the City Hospital were not admitted, it is probable that there would be plenty of beds for that particular class of persons for which the hospital was established. If the taxpayers' money is being spent illegally here, it is high time that we should know it and take steps to stop it, but as I have stated above these matters require grave deliberation in order that the proper solution may be reached. Probably I shall have something more to say about the Boston City Hospital after our conference tomorrow, but there is a possibility that substantial sums may be saved in this department for the benefit of our tax rate.

School Department.

The third department in the public eye at the moment is the School Department which spends about as much money—I think a little more—each year as the Welfare Department. It is in the public eye just now because of my radio speech last week in which I said that the school teachers although well able to do so refused to contribute in the present emergency which confronts the city. In the few letters which I received there were statements to the effect that the school teachers never had a chance to contribute this year and that the plan which I had submitted to the School Committee and Superintendent Campbell had never been submitted to them and that they never had a chance to accept or reject it.

What happened was this: Superintendent Campbell and Chairman Tobin of the School Committee submitted the plan to the Teachers' Council, a body made up of representatives of all of the various teaching groups in the City of Boston, and that Council rejected the proposal. The members of the Council being delegated to represent them by the teachers, the School Committee and Superintendent Campbell were justified in assuming that they spoke for the persons whom they represented, and they notified me that it would be useless to submit the matter to the teachers because their representatives in this Council had rejected it. However, if the teachers feel that they have not had a proper opportunity to accept or reject my proposal I have stated, and I now state, that I think they ought to have that opportunity and I hope, if they do have the opportunity, they will decide to contribute voluntarily to the city in this emergency as they have done before when the emergency wasn't nearly so great.

That plan called for the voluntary contributions of all persons receiving more than $4,250 a year of 10 per cent of their basic compensation; for those between $2,550 and $4,250 a year, four weeks' pay; those between $1,780 and $2,550, three weeks' pay; for those between $1,440 and $1,780, two weeks' pay; those between $950 and $1,440, one week's pay; and those receiving below $950 to contribute nothing.

That is my proposal not only to the school employees but to the Police Department and the county employees. I am very sure that the proposal was never laid before the employees of any county department, and they have not had an opportunity to accept or reject it. I now call upon them to consider again this proposal which, if adopted by all city and county departments, would be substituted for other plans now in effect and which would distribute the contributions evenly and if after such consideration they accept the proposal I shall be duly appreciative.

There remains time to say a word about 1935 taxes. Ten days ago my bill to allow me to continue during 1935 the pay cuts now in effect was defeated. That means that I will have to restore the pay cuts in 1935 whether the city has the money to do it with or not. It will mean adding five million dollars to the municipal pay roll. It will mean adding $2.80 to the tax rate for 1935. It is likely to mean a tax rate of $43 for 1935—a rate which the taxpayer cannot afford to pay. If we have such a high rate that taxes can't be paid it will mean that these city employees who are so insistent upon getting their full pay will probably get no pay at all. It is a serious situation. I have introduced a bill which comes up for hearing before the Committee on Rules next Monday, seeking to give to me the power, if it shall be necessary, to continue in effect during 1935 the pay cuts now in force. The measure is vital for the taxpayers of Boston. I need your help and I earnestly urge you to communicate with your representatives at the State House and ask them to support this bill.

CONTRACTS AMENDED.

Department of School Buildings.

Rugo Construction Company, Incorporated, has been allowed to amend the contract for addition to the William Barton Rogers School, by striking out the word and figures "April 13, 1934," on page 9, Article 2, and substituting therefor the word and figures "May 10, 1934," so that said Article 2 on page 9 shall read: "The Contractor shall carry on the work with due diligence and dispatch and shall bring the work to entire completion as defined in the specifications on or before May 10, 1934, and shall be liable in damages for any failure to so do, all as defined in the specifications.

Transit Department.

The General Electric Supply Corporation has been allowed to further amend the contract for furnishing and delivering plaza lighting equipment, Traffic Tunnel, by striking out on page 7, third paragraph, as amended, the words "fourteen weeks" and substituting therefor the words "twenty-two weeks," so that the contract as amended shall read on page 7, third paragraph: "Delivery will be completed within twenty-two weeks of the delivery of the contract," and that all provisions of said contract, excepting as modified herein, shall continue in full force and effect.

H. M. Haley Electric Company, Incorporated, has been allowed to amend the contract for installing low tension cable, Traffic Tunnel, by striking out on page 31, second paragraph, the words "four weeks" and substituting therefor the words "six weeks," so that the contract as amended shall read on page 31, second paragraph: "Section Ia, six weeks," and that all provisions of said contract, excepting as modified herein, shall continue in full force and effect.

AMENDED DAMAGES.

The Mayor has approved the following vote of the Board of Street Commissioners:

Voted, That the order of the Street Commissioners and Mayor of June 13, 1933, as amended January 29, 1934, determining damages caused by the making of the public improvement consisting of the laying out and construction of Orange street, be, and the same hereby is, amended, by adding to said order the amount $78.80 as an award to Thomas J. Burns and Mary E. Burns; that the amount $78.80 be, and the same hereby is, awarded to Thomas J. Burns and Mary E. Burns for the damages so sustained.

PROPOSALS ADVERTISED.

Bids have been asked by advertisement in the *City Record* for the following departments. The attention of contractors and others is especially called to the closing time of receipt of such proposals. This will be published weekly.

POLICE DEPARTMENT.

Resignations: Mary D. Johnson, Ruth M. MacKinnon, student nurses, $600 a year, left affiliated course at Boston City Hospital.

The following change has been made for the week ending Thursday, May 24:

Rev. Izso Glickstein, jewish chaplain, $100 a year, to be paid $5 a visit.

DAMAGES ASSESSED.

The Mayor has approved the following votes of the Board of Street Commissioners:

Voted, That in the matter of Marcella Ferri, petitioner for damages occasioned her estate by the extension of Gladstone street, under the order of the Street Commissioners and Mayor of April 11, 1931, after consultation with the Law Department, and on its advice, the Board assesses the petitioner's damages in the sum of four hundred and fifty (450) dollars, and consents that the Corporation Counsel agree to judgment in said case on the terms herein stated.

Voted, That in the matter of John J. Reen, petitioner for damages occasioned his estate by the laying out and construction of Gardenside street, under the order of the Street Commissioners and Mayor of September 3, 1931, after consultation with the Law Department, and on its advice, the Board assesses the petitioner's damages in the sum of two hundred (200) dollars, and consents that the Corporation Counsel agree to judgment in said case on the terms herein stated.

CIVIL SERVICE EXAMINATIONS. (STATE.)

STATE EXAMINERS OF ELECTRICIANS.

Examinations, 1934.

Examinations will be held at the following points and on the following dates:

Boston, Monday, June 4.
Boston, Monday, September 17.
Worcester, Wednesday, September 19.
Springfield, Thursday, October 25.
Pittsfield, Friday, October 26.
Boston, Monday, November 5.
Lowell, Wednesday, November 7.
Boston, Monday, December 3.
New Bedford, Thursday, December 6.
New Bedford, Friday, December 7.

RULES FOR EXAMINATIONS.

All examinations shall be given in English.

Applicants for Class B or journeyman's certificate must be at least eighteen years of age and have had at least two years' practical experience or the equivalent in the installation of wires, conduits, apparatus, fixtures and other appliances for carrying or using electricity for light, heat or power purposes.

Applicants for Class A or master's certificate must be at least twenty-one years of age and have had at least two years' experience in the business of installing wires, conduits, apparatus, fixtures and other appliances for carrying or using electricity for light, heat or power purposes.

Examinations shall consist of applicant's knowledge of the National Electrical Code and practical electrical work.

All persons desiring to be examined, either for a Master or Journeyman Certificate, shall have application on file at least ten days previous to the date of such examination.

Applicants for examination will be required to obtain at least 70 per cent in order to obtain a certificate.

Applicants who fail to obtain the required 70 per cent will not be entitled to re-examination until a period of three months has elapsed, and those who receive less than 50 per cent, or who fail on the practical demonstration, will not be re-examined for a period of six months.

Any person found referring to notes or books, or misbehaving during an examination, will be debarred from that examination.

Notice will be sent to applicants for certificates when and where examination will be held, and only those so notified will be examined on that day.

JAMES M. HURLEY,
PAYSON SMITH,
STEPHEN C. GARRITY,
State Examiners of Electricians.

For application blanks or other information apply to State Examiners of Electricians, Room 413A, State House, Boston, Mass.

FIRE DEPARTMENT ORDERS.

General Order No. 39.

I. WILLIAM J. IVERS.

It is with deep regret that the Fire Commissioner announces the death on May 17, 1934, of Hoseman William J. Ivers, former member of Engine Company 5.

Hoseman Ivers was appointed to the Boston Fire Department on January 7, 1927, and his retirement because of accidental liability to take effect as of April 30, 1934, had just been voted by the Boston Retirement System.

The funeral was held from his late home 731 Bennington street, East Boston, on Monday, May 21, 1934, followed by services at the Church of St. Lazarus at 10 a. m. The chief of department arranged for the customary detail of sixteen (16) men, under command of Acting District Chief Jacob G. Berninger of District 1 to act as funeral escort.

II. RESIGNATION.

The following resignation which took effect at 8 a. m., Monday, May 14, 1934, is hereby announced: Man on Probation Walter F. Shaw, Engine Company 50.

III. RETIREMENT.

The following retirement is hereby announced to take effect at 8 a. m., Friday, June 1, 1934: Ladderman John F. Lavelle, Ladder Company 6.

Ladderman Lavelle was appointed to the Fire Department September 6, 1901. He leaves the department with the best wishes of his associates.

IV. A. D. T. ASSIGNMENT CARDS.

The following additions are to be made to the American District Telegraph Assignment Cards:

Drop: Signal No. 483, building 70 and 72 Beach street, H. Simon.

Add: Signal No. 438, building 85-89 Portland street, Mass., Whip & Saddlery Company. Apparatus to respond: Engine 4, Ladder 1, District 4. Nearest city box 1321.

Add: Signal No. 442, building 71-77 Portland street, Louis Averdon. Apparatus to respond: Engine 4, Ladder 1, District 4. Nearest city box 1321.

Add: Signal No. 446, building 166-174 Summer street, and 266 and 278 Purchase street, Arioch Wentworth estate. Apparatus to respond: Engine 7, Ladder 8, District 3. Nearest city box 1412.

V. BOSTON AUTOMATIC ASSIGNMENT CARDS.

The following additions are to be made to the assignment card of the Boston Automatic Fire Alarm Company:

Signal 174, building 19-23 Temple place, second floor and above.

Signal 175, building 11-17 Temple place, Jay's first floor and basement, enter alleyway.

Apparatus to respond: Engine 35, Ladder 17, District 5. Nearest city box 1461.

VI. ACTING DISTRICT CHIEFS.

Capt. Joseph M. Flynn of Engine Company 25 has been designated acting district chief of District No. 3, to take effect May 12, 1934, *vice* Capt. Maurice J. Prendergast, deceased.

Capt. James F. Crowley of Engine Company 24 has been designated acting district chief of District No. 9, to take effect at 8 a. m., May 21, 1934, *vice* Capt. Thomas E. Flanagan of Ladder Company 23 relieved at his own request.

VII. CHANGE OF ADDRESS.

The attention of the department is again called to the rule requiring that prompt notice of change of address be forwarded to the Fire Commissioner on Form 5. Each year the Fire Commissioner must report, with other information, the name and address of each employee on the pay roll as of June 1. Any member who has changed his address recently and has not forwarded the information to headquarters, or who expects to move on or before June 1, 1934, should report the matter immediately on Form 5.

VIII. LAUNDRY.

Deputy chiefs of divisions have been furnished with a set of stencils, brushes and red indelible ink, for the purpose of re-marking all department laundry. All department sheets, pillow cases, towels and spreads are to be stenciled with the company numbers immediately. Regardless of the company number now on the laundry the number of company holding the above-named articles will be stenciled. This work must be done neatly and carefully under the supervision of company officers.

Deputy chiefs will submit a report on Form 5 when this work is completed and the stencils, brushes and unused ink will be returned to the Maintenance Division.

IX. APPRECIATION.

It gives the commissioner considerable pleasure to publish the following letter which he has received from Mr. William W. Drummey, Superintendent of the Department of School Buildings:

BOSTON, May 15, 1934.

HON. EDWARD F. MCLAUGHLIN,
Fire Commissioner.

DEAR SIR,—Every time we have a fire, I am favorably impressed by the way your men handle it and I want again to offer you and the men under you my congratulations for the eight fires that I have seen in the fourteen months that I have been in charge of this department. The whole eight of them didn't cost $8,000, and any one of them might have cost $40,000.

This is refreshed in my mind by the fire on Thursday afternoon at the English High School and on Friday night at the Parkman School.

You can use this letter in any way that may do any good and I shall be very glad to give complete details to anybody that would like to inquire about it.

Cordially yours,

WM. W. DRUMMEY,
Superintendent of Construction.

Another letter relating to the same fires, received from Mr. Mark B. Mulvey, schoolhouse custodian, is also published:

BOSTON, May 15, 1934.

HON. EDWARD F. MCLAUGHLIN,
Fire Commissioner.

MY DEAR COMMISSIONER,—I wish to again commend the officers and men in your department for the manner in which they handled the fires which occurred on Thursday, May 10, at the English High School and on Friday, May 11, at the Parkman School, South Boston. No better example of efficiency has ever been demonstrated.

The firemen kept the damage down to the minimum with scarcely any water damage and both of these fires were quite difficult to handle.

It is a great pleasure for me to commend the members of your department on both of these occasions.

Yours very truly,

MARK B. MULVEY,
Schoolhouse Custodian.

Letters such as these reflect the great sense of appreciation and confidence in which the Fire Department is held by public officials of our city. It should be a pleasure for the members to read them and they should be a stimulus to the depatment to continue to merit the commendation of the citizens.

By order of Fire Commissioner EDWARD F. MCLAUGHLIN.

HENRY A. FOX,
Chief of Department.

POPULATION BY AGE PERIODS, 1930.

FOR THE UNITED STATES.

Under 1 year, 2,190,791 (1,112,171 males and 1,078,620 females); under 5 years, 11,444,390 (5,806,174 males and 5,638,216 females); 5 to 9 years, 12,607,609 (6,381,108 males and 6,226,501 females); 10 to 14 years, 12,004,877 (6,068,777 males and 5,936,100 females); 15 to 19 years, 11,552,115 (5,757,825 males and 5,794,290 females); 20 to 24 years, 10,870,378 (5,336,815 males and 5,533,563 females); 25 to 29 years, 9,833,608 (4,860,180 males and 4,973,428 females); 30 to 34 years, 9,120,421 (4,561,786 males and 4,558,635 females); 35 to 44 years, 17,198,840 (8,816,319 males and 8,382,521 females); 45 to 54 years, 13,018,083 (6,803,569 males and 6,214,514 females); 55 to 64 years, 8,396,898 (4,367,500 males and 4,029,398 females); 65 to 74 years, 4,720,609 (2,409,459 males and 2,311,150 females); 75 years and over, 1,913,196 (915,752 males and 997,444 females); age unknown, 94,022 (51,816 males and 42,206 females).

FOR NEW ENGLAND.

Under 1 year, 129,208 (65,750 males and 63,458 females); under 5 years, 689,782 (350,581 males and 339,201 females); 5 to 9 years, 768,842 (389,036 males and 379,806 females); 10 to 14 years, 761,595 (383,610 males and 377,985 females); 15 to 19 years, 715,562 (355,108 males and 360,454 females); 20 to 24 years, 657,383 (314,992 males and 342,391 females); 25 to 29 years, 605,870 (290,485 males and 315,385 females); 30 to 34 years, 601,804 (291,034 males and 310,770 females); 35 to 44 years, 1,182,814 (587,924 males and 594,890 females); 45 to 54 years, 944,235 (470,298 males and 473,937 females); 55 to 64 years, 684,005 (335,978 males and 348,027 females); 65 to 74 years, 388,150 (183,736 males and 204,414 females); 75 years and over, 161,140 (69,090 males and 92,050 females); age unknown, 5,159 (2,785 males and 2,374 females).

FOR MASSACHUSETTS.

Under 1 year, 65,034 (33,070 males and 31,964 females); under 5 years, 349,640 (177,543 males and 172,097 females); 5 to 9 years, 390,657 (197,688 males and 192,969 females); 10 to 14 years, 387,003 (194,537 males and 192,466 females); 15 to 19 years, 366,149 (180,953 males and 185,196 females); 20 to 24 years, 345,573 (163,089 males and 182,484 females); 25 to 29 years, 324,135 (153,341 males and 170,794 females); 30 to 34 years, 321,499 (153,998 males and 167,501 females); 35 to 44 years, 631,445 (310,975 males and 320,470 females); 45 to 54 years, 499,662 (244,622 males and 255,040 females); 55 to 64 years, 356,608 (171,669 males and 184,939 females); 65 to 74 years, 196,447 (90,032 males and 106,415 females); 75 years and over, 77,748 (31,596 males and 46,152 females); age unknown, 3,048 (1,629 males and 1,419 females).

FOR BOSTON.

Under 1 year, 11,704 (5,920 males and 5,784 females); under 5 years, 62,374 (31,568 males and 30,806 females); 5 to 9 years, 66,229 (33,359 males and 32,870 females); 10 to 14 years, 64,998 (32,359 males and 32,639 females); 15 to 19 years, 65,965 (32,198 males and 33,767 females); 20 to 24 years, 70,757 (33,057 males and 37,700 females); 25 to 29 years, 67,585 (32,814 males and 34,771 females); 30 to 34 years, 62,998 (31,242 males and 31,756 females); 35 to 44 years, 119,508 (60,419 males and 59,089 females); 45 to 54 years, 93,436 (46,266 males and 47,170 females); 55 to 64 years, 63,416 (30,671 males and 32,745 females); 65 to 74 years, 31,722 (14,590 males and 17,132 females); 75 years and over, 10,915 (4,186 males and 6,729 females); age unknown, 1,285 (725 males and 560 females).

Number of families in Boston, 180,451 or 15,666 more than in 1920; population per family, 4.3; families having radio sets, 101,273 or 56.1 per cent of total. Number of families in Massachusetts, 1,024,527, an increase of 149,729 over 1920; population per family, 4.2; families having radio sets, 590,105 or 57.6 per cent of total.

LIFE-GIVING PATRIOTISM IS LOCAL.

By civic patriotism is meant the feeling and the taking of a deep, unselfish, earnest, ever-wakeful, active interest in the affairs of one's own city or local community, regarding it as having an autonomy, a distinct personality, a name and interests of its own, and, if one pleases, endowed with a sense of personal honor and with all laudable ambitions for the promotion of the welfare of its people.

Where such civic virtues exist the local community will neither suffer from the dry-rot of public indifference and neglect nor become tainted with graft or corruption. Its life will be healthful, and, like the ocean, will be kept pure by its own ceaseless flow and movement. All life-giving patriotism is local.

Show a good municipal citizen and one will see a citizen who loves his state, and who loves his nation, and who will discharge all the duties of this triple relation. Good government in local affairs is the best assurance of good government in state and national affairs.

POPULATION OF NEW ENGLAND, 1930.

Total population, 8,166,341 (4,024,657 males and 4,141,684 females); total white, 8,065,113 (3,972,465 males and 4,092,648 females); total native white, 6,230,803 (3,067,723 males and 3,163,080 females); native white of native parentage, 3,167,082 (1,572,885 males and 1,594,197 females); native white of foreign or mixed parentage, 3,063,721 (1,494,838 males and 1,568,883 females); foreign-born white 1,834,310 (904,742 males and 929,568 females); Negro, 94,086 (46,963 males and 47,123 females); Indian, 2,466 (1,273 males and 1,193 females); Chinese, 3,794 (3,233 males and 561 females); Japanese, 352 (277 males and 75 females); Mexican, 107 (69 males and 38 females); all other races, 423 (377 males and 46 females).

AGREEMENT BETWEEN THE BOSTON ELEVATED RAILWAY COMPANY AND THE CITY OF BOSTON.

The following is the agreement, licensing City of Boston to attach, maintain and use traffic signals on four columns of elevated structure of railway located on Commercial street, Boston, near Foster street.

This Agreement by and between the Boston Elevated Railway Company, a Massachusetts corporation, hereinafter called the Company, and the City of Boston, a municipal corporation, hereinafter called the City, Witnesseth that

Whereas, The City desires to attach, maintain and use certain traffic signals on four columns of the elevated structure of the Company, No. 164-193E, 164-192E, 164 193W, 164 192W, respectively, located on Commercial street, Boston, near Foster street; and

Whereas, The Company is willing to license the City to make such use of said elevated columns provided it is protected from all liability arising therefrom;

Now Therefore, It is Agreed as follows:

1.—The Company in so far as it lawfully may and not otherwise, licenses the City to attach, maintain and use traffic signals on the said four columns of its elevated structure, provided such traffic signals are installed, maintained and used by the City at its own expense and in a manner satisfactory to H. M. Steward, Superintendent of Maintenance of the Railway Company or his successor in that office.

2.—The City agrees that in consideration of such permission, it will indemnify and save harmless the Company against and from any and all loss, cost, damage and expense caused by or in any way referable to the installation, maintenance, use, renewal or removal of said traffic signals of their presence on said columns, whether or not the negligence of the Company or its servants or agents contributes to such loss, cost, damage or expense.

3.—The City agrees to remove said traffic signals or any of them upon the request in writing from the Company, and if it shall fail to do so within thirty (30) days after such request the Company may remove the same at the expense of and without liability to the City.

In Witness Whereof, The Parties have executed this Agreement by their officers and officials thereunto duly authorized this 8th day of May, 1934.

BOSTON ELEVATED RAILWAY COMPANY,
by EDWARD DANA,
Executive Vice President and General Manager.

CITY OF BOSTON,
by WILLIAM P. HICKEY,
Chairman, Traffic Commission.

Approved May 15, 1934.
F. W. MANSFIELD,
Mayor of Boston.

Approved as to form,
HENRY E. FOLEY,
Corporation Counsel.

CONTRACTS AWARDED.

Permission to award contracts for work, materials and supplies, in accordance with recommendations of department heads, has been approved by the Mayor.

DEPARTMENT OF SCHOOL BUILDINGS.

Upon May 19 the Mayor approved a contract with the Thorpe & Martin Company, Agent, for metal lockers for the Jeremiah E. Burke High School for Girls:

Thorpe & Martin Company, Agent, (Fred Medart Manufacturing Company), 66 Franklin street, city, $14,248.59; Berger Manufacturing Company, 307 Dorchester avenue, South Boston, $14,248.59; Electric Service Supply Company, 17th and Cambria streets, Philadelphia, Pennsylvania, $14,248.59; Lyon Metal Products, Incorporated, 412 Statler Building, Boston, Mass., $14,248.59; Durabilt Steel Locker Company, 120 Boylston street, Boston, Mass., $14,248.59; Metal Office Furniture Company, Grand Rapids, Michigan, $14,248.59; All Steel Equipment Company, Aurora, Illinois, $14,248.59.

PUBLIC WORKS DEPARTMENT (Bridge Service).

Upon May 23 the Mayor approved a contract with Groisser & Shlager Iron Works for repairing Bennington Street Bridge. The following bids were received May 21:

Groisser & Shlager Iron Works, $1,074; Boston Bridge Works, Incorporated, $1,315.22; Progressive Iron Works, Incorporated, $1,373; A. Orlando, Incorporated, $1,377.40; John F. Shea Company, Incorporated, $1,399; The Marine Company, $1,449.84.

PUBLIC WORKS DEPARTMENT (Sewer Service).

Upon May 19 the Mayor approved a contract with J. D'Amico, Incorporated, for sewerage works in Everett court, East Boston. The following bids were received May 18:

J. D'Amico, Incorporated, $855.41; Williams & King, $948.80; Sulmona Construction Company, Incorporated, $1,094.07; Prompt Contractors, Incorporated, $1,165.50; Louis Balboni, $1,348.

SUPPLY DEPARTMENT.

Upon May 18 the Mayor approved a contract with the Sherwin-Williams Company for furnishing powdered arsenate of lead to the Park Department.

The Chairman of the Park Department is desirous of obtaining this material in 20-pound packages, as the spraying machines hold 400 gallons, and use 5 pounds of arsenate of lead to every 100 gallons of water, or a total of 20 pounds for a load. With the exception of one bidder, prices received were for 25-pound packages, and the Chairman of the Park Department feels that the time required to weigh each package, and the waste occasioned by opening the 25-pound packages would offset the difference in price.

Bids, opened April 17, were as follows.

Approximately Seven Tons Powdered Arsenate of Lead.

20-Pound Packages, Per Ton.—The Sherwin-Williams Company, $160.

25-Pound Packages, Per Ton.—Conray Products Company, Incorporated, $188; General Chemical Company, $140; The Sherwin-Williams Company, $160; Pittsburgh Plate Glass Company, Corona Dry, $179.

Cash Discount, Ten Days.—Conray Products Company, Incorporated, 1 per cent; General Chemical Company, 1 per cent; The Sherwin-Williams Company, 1 per cent; Pittsburgh Plate Glass Company, 2 per cent.

Upon May 21 the Mayor approved a contract with E. F. Loonie, Jr., Distributor for the Quincy Oil Company, for furnishing automobile motor oil to the various city departments for the period ending September 30, 1934. Bids, opened March 26, were as follows:

Approximate Amounts on All Items, Per Gallon.

50 Drums Medium Motor Oil.—Shell Eastern Petroleum Products, Incorporated, 44 cents; American Oil Company, 28 cents, 23 cents; William C. Robinson & Son Company, 39 cents; Colonial-Beacon Oil Company, Incorporated, 35 cents; Pennsylvania Oil Company, 39.5 cents; Cities Service Refining Company, 30 cents, 40 cents; Atlas Petroleum Company, Incorporated, 39 cents; The Texas Company, 44.2 cents; American Oil Products Company, 50 cents; National Oil Company, 54 cents; The Atlantic Refining Company, 48 cents; Standard Oil Company of New York, Incorporated, 42 cents; E. F. Loonie, Jr., Distributor for Quincy Oil Company, 39 cents; Hanley Oil Company, Incorporated, 41.5 cents; Neponset Oil Company, 40 cents; Gulf Refining Company, 32 cents, 40 cents.

2 30-Gallon Drums Special Motor Oil.—Shell Eastern Petroleum Products, Incorporated, 44 cents; American Oil Company, 31 cents, and 26 cents for use in Ford cars; William C. Robinson & Son Company, 39 cents; Colonial-Beacon Oil Company, Incorporated, 35 cents; Pennsylvania Oil Company, 36 cents; Cities Service Refining Company, 30 cents, 40 cents; Atlas Petroleum Company, Incorporated, 39 cents; The Texas Company, 44.2 cents; American Oil Products Company, 50 cents; National Oil Company, 55 cents; The Atlantic Refining Company, 50 cents; Standard Oil Company of New York, Incorporated, 42 cents; E. F. Loonie, Jr., Distributor for Quincy Oil Company, 39 cents; Hanley Oil Company, Incorporated, 41.5 cents; Neponset Oil Company, 40 cents; Gulf Refining Company, 32 cents, 40 cents.

2 Drums Heavy Medium Motor Oil.—Shell Eastern Petroleum Products, Incorporated, 44 cents; American Oil Company, 29 cents, 24 cents; William C. Robinson & Son Company, 39.5 cents; Colonial-Beacon Oil Company, Incorporated, 35 cents; Pennsylvania Oil Company, 40 cents; Cities Service Refining Company, 30 cents, 40 cents; Atlas Petroleum Company, Incorporated, 39 cents; The Texas Company, 44.2 cents; American Oil Products Company, 50 cents; National Oil Company, 54 cents; The Atlantic Refining Company, 48 cents; Standard Oil Company of New York, Incorporated, 42 cents; E. F. Loonie, Jr., Distributor for Quincy Oil Company, 39 cents; Hanley Oil Company, Incorporated, 41.5 cents; Neponset Oil Company, 40 cents; Gulf Refining Company, 32 cents, 40 cents.

220 Drums Heavy Motor Oil.—Shell Eastern Petroleum Products, Incorporated, 44 cents; American Oil Company, 29 cents, Amoco, 24 cents Pan-American; William C. Robinson & Son Company, 40 cents; Colonial-Beacon Oil Company, Incorporated, 35 cents; Pennsylvania Oil Company, 40.5 cents; Cities Service Refining Company, 30 cents (alternate bid),

40 cents; Atlas Petroleum Company, Incorporated, 39 cents; The Texas Company, 44.2 cents; American Oil Products Company, 50 cents; National Oil Company, 54 cents; The Atlantic Refining Company, 48 cents; Standard Oil Company of New York, Incorporated, 42 cents; E. F. Loonie, Jr., Distributor for Quincy Oil Company, 39 cents; Hanley Oil Company, Incorporated, 41.5 cents; Neponset Oil Company, 40 cents; Gulf Refining Company, 32 cents, 40 cents.

Cash Discount, Ten Days.—Shell Eastern Petroleum Products, Incorporated, 1 per cent; American Oil Company, plus tax, N. R. A. code; 1 per cent, tax exemption by certification only; William C. Robinson & Son Company, extra charge of $2.50 each for steel drums not returned within 90 days; Colonial-Beacon Oil Company, Incorporated, 1 per cent net, 15th proximo; Cities Service Refining Company, Pilgrim motor oil; 1 per cent, exclusive of Federal tax; Atlas Petroleum Company, Incorporated, 1 per cent; The Texas Company, 1 per cent, contract can be canceled on 30 days' notice; market price allowance on empty drums, Havoline motor oil, G. A. E. 20 to 60, inclusive, plus 4 per cent Federal tax; American Oil Products Company, 1 per cent, Paramount, 100 pounds, Pennsylvania motor oil; National Oil Company, 1 per cent; The Atlantic Refining Company, 1 per cent, plus tax, see specifications; Standard Oil Company of New York, Incorporated, 1 per cent; E. F. Loonie, Jr., Distributor for Quincy Oil Company, 1 per cent; Hanley Oil Company, Incorporated, 1 per cent; Gulf Refining Company, 1 per cent, ten days, net 15th proximo, Gulf regent motor oil, S. A. E. 30, 40, 50 and 60, Gulflube motor oils, 30, 40, 50 and 60, drums, $8 each if not returned, prices subject to 4 per cent Federal tax.

Upon May 23 the Mayor approved a contract with the New England Electrical Supply Company covering the requirements of the various city departments of large incandescent lamps for twelve months.

There are several low bidders, all equal, who quote a discount of 35 per cent in standard package quantities, and 25 per cent in broken package quantities, from list based on an estimated total volume of purchases amounting to $5,000. The New England Electrical Supply Company will supply lamps made by the Hygrade Sylvania Corporation of Salem. Bids, opened May 14, were as follows:

TRANSIT DEPARTMENT.

Upon May 23 the Mayor approved a contract with the Brandt Automatic Cashier Company for furnishing and delivering twelve change-making machines for the Traffic Tunnel. Bid, opened Tuesday, May 22, was as follows:

Brandt Automatic Cashier Company, $1,191.24.

REPORT OF BERTHA A. CONNOR, DIRECTOR OF PENMANSHIP, ON HER ATTENDANCE AT THE ANNUAL MEETING OF THE NATIONAL ASSOCIATION OF PENMANSHIP TEACHERS AND SUPERVISORS, AT INDIANAPOLIS, APRIL 18 TO 20.

The School Committee at its meeting on Monday, May 21, received and placed on file the following report:

BOSTON, May 18, 1934.

MR. PATRICK T. CAMPBELL,
Superintendent of Schools.

MY DEAR MR. CAMPBELL,—The following is the report of the meeting of the National Association of Penmanship Teachers and Supervisors at Indianapolis, Indiana, April 18, 19 and 20, 1934, presented by Bertha A. Connor, Director of Penmanship.

Current conditions in business and education as they affect subject demand, program emphasis and student preparation comprised the main topics presented by the speakers during the three days' program of the National Association of Penmanship Teachers and Supervisors held at the Claypool Hotel, Indianapolis, Indiana, April 18, 19 and 20, 1934.

Among the outstanding speakers of the convention were Dr. Paul C. Stetson, Superintendent of Schools, Indianapolis, Indiana, who gave the address of welcome to the convention; Miss Faye Reed, President of the Classroom Department of Teachers of the National Education Association, whose topic of address was "Teachers All"; Mr. Floyd I. McMurray, State Superintendent of Public Schools, Indianapolis; Mr. D. T. Weir, Director of Elementary Education and Handwriting, Indianapolis Public Schools, and Dr. Robert Buzzard, State Teachers College, Charleston, Illinois.

Doctor Buzzard's address on teacher-training was one of the most enthusiastically received addresses at the convention. He stressed the great need for a more uniform and more inclusive training in handwriting in teachers colleges and normal schools throughout the United States and urged arrangement for a more widespread understanding of this need.

Miss Reed spoke on the current situation throughout the country relative to the teacher appointment, teachers' salaries and teachers' reactions giving statistics from various cities and communities in representative sections of the United States.

Mr. McMurray's address on "Scandinavian Schools" provided a most interesting study of a foreign school system.

Other topics presented during the convention dealing more directly with handwriting were "Handwriting and Its Relation to Vocations," Mr. C. D. Greene, Goldey College, Wilmington, Delaware; "Some Observations in Handwriting," Dr. D. T. Weir, Director of Elementary Education and Handwriting, Indianapolis Public Schools; "Handwriting in the Activity Program," Ellen C. Nystrom, Director of Handwriting, Minneapolis, Minnesota; "Present Important Considerations in Handwriting Development in Public Education," Bertha A. Connor, Director of Handwriting, Boston.

The Round Table Conference which was held on Wednesday evening began at eight o'clock and was intended to last for one hour. It was brought to a close reluctantly, however, at eleven o'clock in order to allow the presentation of a lantern slide lecture on the history of penmanship development also scheduled for that evening. During the round table conference, directors and supervisors of handwriting from practically every section of the country responded to questions dealing with the whole range of handwriting development from primary schools through teachers colleges. Inasmuch as this round table conference gave opportunity for all attending the convention to present questions relative to the difficulties which they are meeting in their work, and because a diversity of opinion on these problems from those in authoritative positions in handwriting supervision in all parts of the country was presented, the round table conference was voted to be one of the most valuable periods of time spent at the convention and one which provided the greatest satisfaction. As a result of this reaction to this part of the program and because of a similar reaction to such in other educational conventions this year, doubtless, the majority of educational conventions for the next few years, at least, will be certain to include ample opportunity and time for round table conferences and forum meetings.

An exhibit of the handwriting of the Boston Public Schools dating from 1600 to 1934 was most advantageously displayed in Parlor B of the Claypool Hotel, where it was visited by thousands of interested persons, and from whom it received most generous expression of appreciation and very favorable comment.

On Thursday evening a banquet was held in the James Whitcomb Riley Room of the Claypool Hotel. During the banquet Mr. William Hershell, the Indiana poet, entertained with selections from his volumes of poetry, and short addresses pertinent to the occasion were made by banquet guests of the association.

Respectfully submitted,

BERTHA A. CONNOR,
Director of Penmanship.

EXTENSION OF CONTRACT.

PUBLIC WORKS DEPARTMENT.

A. Singarella has been granted an extension of the time of completion of the contract for laying bitulithic pavement in Travis, Bertram, Kingsley streets, and bituminous macadam pavement in Nevins street, contract dated November 15, 1933, from May 15 to June 15, 1934.

POLICE DEPARTMENT ORDERS.

General Order No. 482.

The following letter from the Licensing Board for the City of Boston is published for the information of the Department:

LICENSING BOARD,
CITY OF BOSTON,
1 BEACON STREET, May 14, 1934.

To the Holders of Alcoholic Beverage Licenses for the Sale of Alcoholic Beverages to be Drunk on the Premises.

The law governing the sale of intoxicating liquors (chapter 376 of the Acts of 1933) defines a hotel, a restaurant, a club, and a tavern. In the opinion of the Licensing Board, it follows as a matter of law that no one of these four has a right to advertise or hold itself out to be anything else than what it legally is.

But whether or not required by law, and in order that there may be no misunderstanding, the Board has adopted the following regulations:

No licensee shall advertise to be a hotel unless holding an innholder's license, nor shall an innholder advertise to be a club or a tavern.

No common victualer conducting a restaurant shall advertise to be a hotel, tavern, or club.

No holder of a tavern license shall advertise to be a hotel, restaurant, or club, but may advertise to sell food, if holding a common victualer license.

No holder of a club license shall advertise to be a restaurant, hotel, or tavern.

DAVID T. MONTAGUE,
ARTHUR J. SELFRIDGE,
MARY E. DRISCOLL,
Licensing Board.

The Superintendent of Police will promulgate this order.

EUGENE C. HULTMAN,
Commissioner.

General Order No. 483.

Patrolmen Michael A. Stapleton and John W. Gorey, both of Division 2, are commended and given three days' additional vacation for intelligent police work performed in connection with the arrest and conviction of two persons for breaking and entering a building and breaking open a safe on the night of January 21, 1934.

The commissioner is pleased to recognize and commend the zeal and efficiency shown by these officers in accomplishing the arrest and conviction of these felons.

The Superintendent of Police will promulgate this order.

EUGENE C. HULTMAN,
Commissioner.

General Order No. 484.

Sergt. Thomas F. Ryan of Division 18, having performed faithful service in the Police Department for twenty-eight and nine-twelfths years,—the Medical Board provided for by section 18 of chapter 521, Acts of 1922, having certified that the said Sergeant Ryan is physically incapacitated for useful service in the Police Department,—it is hereby

Ordered, His Honor the Mayor having approved the same, that the said Sergeant Ryan be retired Sunday, May

20, 1934, at 7.45 o'clock a. m., from active service in the Police Department under the provisions of chapter 353, Acts of 1892, as amended by chapter 6, Acts of 1920, and chapter 387, Acts of 1930, and that his name be placed upon the department pension roll with pay at the rate of twelve hundred and fifty (1,250) dollars per annum (payable monthly), said sum being one half of the amount of compensation received by said Sergeant Ryan in the office from which he is retired, previous to a 15 per cent reduction in pay, which went into effect, April 28, 1933.

Note.

Under the provisions of chapter 121, Acts of 1933 (having to do with reductions in pay), provision is made for retirement for those in a non-contributory system, at half of the rate of compensation received before such reduction.

The Superintendent of Police will promulgate this order.

EUGENE C. HULTMAN,
Commissioner.

General Order No. 485.

The utilization by this department of the traffic sign shop at Station 16 will be discontinued on Thursday, May 24, 1934.

Commencing Friday, May 25, 1934, at 7.45 a. m., all painting and sign work will be done at Station 8 under the direction of the Director of Signal Service, who will also have supervision of the setting of poles for special and public hackney carriage stands.

All work in connection with the placing of medallions on hackney carriages will be done at the maintenance shop, Station 4, under the direction of the Supervisor of Automotive Equipment.

The following transfers are hereby ordered to take effect on Friday, May 25, 1934, at 7.45 a. m.:

Patrolman Francis J. O'Neil from Bureau of Traffic to Division 13.

Patrolman Wilbur L. Melvin from Bureau of Traffic to Property Clerk's Office. (Property Clerk will detail him for duty under the supervision of the Supervisor of Automotive Equipment at the maintenance shop.)

Laborer Howard Byrnes from Division 16 to Signal Service. (To be assigned for duty under the supervision of the Director of Signal Service.)

The Property Clerk will proceed forthwith to transfer the property from the traffic sign shop to make this order effective.

The Superintendent of Police will promulgate this order.

EUGENE C. HULTMAN,
Commissioner.

General Order No. 486.

It gives the commissioner great pleasure to publish the following letter for the information of the department:

TREASURY DEPARTMENT,
INTERNAL REVENUE SERVICE,
ACCOUNTS AND COLLECTIONS,
NEW YORK, May 15, 1934.

HON. EUGENE C. HULTMAN,
Police Commissioner.

DEAR SIR,—I want to take this opportunity to express to you my sincere appreciation of the splendid cooperation extended by your department in the investigation in running to earth of individuals responsible for the perpetration of one of the greatest economic frauds in the butter industry in this section of the country. Especially do I wish to commend the following officers for their splendid work:

Sergt. John J. Walkins, Special Officer Robert E. Bowes, Special Officer Hazen A. Chalmers.

I am temporarily located here in Boston, cooperating with the United States Food and Drug Administration, Appraisers Stores building, 408 Atlantic avenue.

Sincerely,

M. G. KRUEGER,
Deputy Collector, Internal Revenue.

The Superintendent of Police will promulgate this order.

EUGENE C. HULTMAN,
Commissioner.

General Order No. 487.

It gives the commissioner great pleasure to publish the following letter for the information of the department:

UNITED STATES NAVY YARD,
BOSTON, May 15, 1934.

EUGENE C. HULTMAN,
Police Commissioner.

MY DEAR COMMISSIONER,—That the very large crowd—probably 50,000 during the day—which visited the Navy Yard on Sunday, for the "Constitution" celebration, was so successfully handled is in a large measure due to the efficiency of the Boston Police Force, which handled the crowd outside the gates.

The parade and the fact that the Navy Yard was closed to automobiles except to a relatively small number, greatly added to the traffic difficulties outside the yard on Sunday.

I am bringing the above to your attention in order to express my thanks for the cooperation rendered by Captain Grace and his subordinates in Station 15, and express my belief that the service rendered was extraordinary and deserving of special commendation.

Very sincerely yours,

HENRY H. HOUGH,
Rear Admiral, U. S. N.,
Commandant.

The Superintendent of Police will promulgate this order.

EUGENE C. HULTMAN,
Commissioner.

FIVE PER CENT OF CITY BUDGET PAID FOR REFUSE DISPOSAL.

Nearly one million dollars, or about 5 per cent of the total cost of the general city government of Los Angeles, Cal., is spent every year for the collection and disposal of refuse, under the direction of the Bureau of Engineering of that city. The Refuse Collection Division operates six days a week, and enough men are provided to compensate for a five-day week for all the personnel employed.

BUILDINGS RAZED.

The Mayor has approved the request of the Building Department to raze the following structures as fire menaces or nuisances:

The building at 1 Grafton street, Ward 13, is in an unsafe and dangerous condition, dilapidated and a fire hazard. The owner, estate of James Nolan, care of Annie V. Nolan, 914 Dorchester avenue, has been notified of the unsafe condition of the building, and they inform us they are financially unable to remove the building.

The building at 492 and 494 Quincy street (rear of 490 Quincy street), Ward 15, is in a dilapidated condition; door and windows broken out; sills rotten on south end of building, foundation out on northeast corner, clapboards being pulled off, building is a fire menace. The owner, Grace Stratton of 232 Newbury street, Boston, has been notified of the unsafe condition of the building, but nothing has been done to remove the cause of complaint.

The building at 11 Dunstable street, rear, Ward 2, is part of a building remaining after the front had collapsed, dangerous and dilapidated. The owners, John A. Hope *et al.*, trustees, of 2 Thompson square, Charlestown, have been notified of the unsafe condition of the building, but nothing has been done to remove the cause of complaint, and the owners inform us that the property yields no income.

The building at 17 Dunstable street, Ward 2, is dilapidated and dangerous, vacant and open to trespass. The owners, John A. Hope *et al.*, trustees, 2 Thompson square, Charlestown, have been notified of the unsafe condition of the building, but nothing has been done to remove the cause of complaint, and the owners inform us that the property yields no income.

The building at 19–23 Dunstable street, Ward 2, is dilapidated, dangerous and a fire menace; vacant. The owners, John A. Hope *et al.*, trustees, 2 Thompson square, Charlestown, have been notified of the unsafe condition of the building, but nothing has been done to remove the cause of complaint, and the owners inform us that the property yields no income.

CONSTRUCTION WORK.

The Mayor has approved the request of the Public Works Department for the following construction work:

A sanitary sewer of 18-inch pipe in Cross street, at Salem street, in the city proper district, at an estimated cost of $1,700.

A 15-foot by 13-foot concrete conduit, Stony Brook conduit, section 12 (P. W. A., Docket No. 4193), in private land and across Florence street, Quarley road and Neponset avenue, between 150 feet northwest of Florence street and 30 feet southeast of Neponset avenue, in the West Roxbury district, at an estimated cost of $112,000. 55 feet of 20-inch pipe sanitary sewer to be relaid in Florence street; 60 feet of 24-inch pipe surface drain to be relaid in Florence street; 30 feet of 12-inch pipe sanitary sewer to be relaid in Neponset avenue.

A sanitary sewer of 10-inch pipe and a surface drain of 12-inch pipe in Haven avenue, between 376 feet southwest of Blue Hill avenue and 165 feet southwesterly, in the Dorchester district, at an estimated cost of $1,700.

LAND-TAKING IN WEST ROXBURY.

The Mayor has approved the order of the Board of Street Commissioners for the taking of land for sewerage works to be constructed as follows:

The right and easement is taken to lay and maintain sewerage works in the following described lands, exclusive of any interest in trees, buildings or other structures standing thereon, reserving to the owners thereof the right to use the lands for any purpose except such as may injure or obstruct said works, and except for placing or maintaining any structure on said lands not authorized in writing by the Mayor of said city; trees, buildings or other structures standing upon or affixed to the land in which an easement is hereby taken are to be removed therefrom within sixty days following a notice of the city's intention to enter upon said taking for the purpose of constructing said sewerage works. Said lands are in that part of Boston formerly West Roxbury and are bounded as follows:

A parcel of land, supposed to belong to Holyhood Cemetery Association, bounded:

Northeasterly by La Grange street, fifteen and 2-100 feet; southeasterly by Metropolitan sewer easement and by other land supposed to belong to said association, by two measurements, two hundred and fifty feet and two hundred twenty-four and 60-100 feet; southwesterly by other land hereinafter described as taken from said association, by two measurements, nine and 16-100 feet and six and 73-100 feet, and northwesterly by other land supposed to belong to said association, by two measurements, two hundred twenty and 17-100 feet and two hundred and fifty feet, containing seventy hundred and eighty-five square feet, more or less.

A parcel of land, supposed to belong to Holyhood Cemetery Association, bounded:

Northeasterly by other land hereinbefore described as taken from said association, by two measurements, six and 73-100 feet and nine and 16-100 feet; southeasterly by Metropolitan sewer easement, ten and 76-100 feet; southwesterly by other land supposed to belong to said association, by two measurements, twelve and 58-100 feet and three and 38-100 feet; northwesterly by Metropolitan sewer easement, ten and 55-100 feet, containing one hundred and sixty square feet, more or less. This taking is made subject to the rights of the Commonwealth of Massachusetts (Metropolitan sewer easement).

A parcel of land, supposed to belong to Holyhood Cemetery Association, bounded:

Northeasterly by other land hereinbefore described as taken from said association, by two measurements, three and 38-100 feet and twelve and 58-100 feet; southeasterly by other land supposed to belong to said association, nineteen and 27-100 feet; southwesterly by the same, fifteen feet, and northwesterly by the same, twenty-four and 73-100 feet, containing three hundred and thirty-one square feet, more or less.

A parcel of land, supposed to belong to Alice M. Drohan, bounded:

Southeasterly by Brook Farm road, thirty-five feet; southwesterly by La Grange street, by two measurements, thirteen and 68-100 feet and ten feet, and northerly by other land supposed to belong to said Drohan, thirty-eight and 28-100 feet, containing four hundred and seventeen square feet, more or less.

The sewerage works to be constructed are as follows: In St. Joseph's Cemetery 500 linear feet of 10-foot by 6-foot 8-inch concrete conduit; in the taking on Brook Farm road 15 linear feet of 10-foot by 6-foot 8-inch concrete conduit.

Voted, That this Board determines that no person sustains damages in his estate by the taking of an easement for sewerage purposes and the construction of sewerage works in private land on La Grange street and Brook Farm road, West Roxbury district, under the order of the Board of May 14, 1934, and awards no damages therefor.

Holyhood Cemetery Association, 7,085 square feet.....Nothing
Holyhood Cemetery Association, 160 square feet.....Nothing
Holyhood Cemetery Association, 331 square feet.....Nothing
Alice M. Drohan, 417 square feet.....Nothing

Passing Requirements: At least 70 per cent in each subject in order to become eligible.

Physical fitness to be determined by physical examination.

NEWTON REDUCES WATER RATES.

The city of Newton reduced its water rates 10 per cent in 1932, from 25 to 22.5 cents per 100 cubic feet, and for 1934 has reduced them 11.5 per cent, to a flat price of 20 cents per 100 cubic feet. This reduction was made possible by savings effected by reorganizing the administration and maintenance methods and equipment of the department before and since the beginning of the city's "four-year plan" of water development in 1931.

THE MUNICIPAL WATER-WORKS TREND.

In 1800 there was but one municipally-owned water-works plant in the United States. Now there are 7,853 municipally-owned installations, or 72.8 per cent of the entire number. In the United States there are ninety-four cities of over 100,000 population. All but eleven of these own their water works. Municipal plants serve 96.1 per cent of the population of the ninety-four cities, while private plants serve only 3.9 per cent.

CITY OF BOSTON.

SUPPLY DEPARTMENT.

Proposals for Coke.

The Supply Department of the City of Boston invites proposals for furnishing 200 tons of coke to the Penal Institutions Department, Deer Island, to be delivered alongside Deer Island, and 125 tons to Long Island delivered in bins. The bidder must use the form of proposal to be obtained at the office of the Superintendent of Supplies, Room 801, City Hall Annex, and furnish a certified check for $200, payable to and to become the property of the City of Boston if the proposal is not carried out, at the above office. *There will be a charge of twenty cents ($0.20) for each set of blank proposals taken out.* A duplicate bid, without check, must be left at the office of the City Auditor prior to the time named for opening bids. The bidder must state the price per ton of 2,000 pounds, and leave his proposal at the office of the Supply Department on or before Monday, June 4, 1934, at 12 m., at which time and place they will be publicly opened and read. The successful bidder must furnish a bond for one quarter the total estimated amount of the contract with a surety company authorized to do business in Massachusetts as surety for the faithful performance of the contract. The Superintendent reserves the right to accept or reject any or all bids, or any part of a bid, and to award the contract as he deems for the best interests of the city. All contracts made subject to appropriations to meet payments thereunder.

Warren W. Loomis,
(May 26.) *Superintendent of Supplies.*

CITY OF BOSTON.

POLICE DEPARTMENT.

Proposals for Patrol Wagons.

The Police Department of the City of Boston invites proposals for furnishing and delivering four patrol wagons. The bidder must use the form of proposal to be obtained at the office of the Property Clerk, Room 106, 154 Berkeley street, Boston, and deposit with his bid, at the office of the Police Commissioner, a properly certified check for $200, payable to and to become the property of the Police Commissioner for the City of Boston, if the proposal is not carried out. Proposals will be publicly opened and read on Wednesday, June 6, 1934, at 12 o'clock noon, at the office of the Police Commissioner, 154 Berkeley street, Boston. The Police Commissioner reserves the right to accept or reject any or all proposals, or any part of a proposal, and to award the contract as he deems for the best interests of the Police Department of the City of Boston. Surety bond will be required from the successful bidder in an amount equivalent to 50 per cent of the estimated contract amount.

Eugene C. Hultman,
(May 26.) *Police Commissioner.*

P. W. A. ESTIMATES ITS 1934 EXPENDITURES.

A statistical study was received by Public Works Administrator Harold L. Ickes indicating $1,382,000,000 would go from the Public Works Fund into citizens' pockets during 1934 to increase purchasing power and re-employment, and spread recovery.

The study showed P. W. A. expenditures would reach the peak of $164,000,000 a month in June. Statutory and executive allotments totaling approximately one third the entire P. W. A. fund were not included in the compilation.

CITY OF BOSTON.

PUBLIC WORKS DEPARTMENT.

National Industrial Recovery Project, P. W. A. Docket No. 4205.

Proposals for Sheet Asphalt or Bitulithic Pavement in Ashmont Street, Wards 16 and 17, from Neponset Avenue to Carruth Street, and Dorchester Avenue to Washington Street.

The Commissioner of Public Works of the City of Boston, hereinafter designated as Commissioner, Room 508, fifth floor, City Hall Annex, invites proposals from citizens of the United States and corporations or other legal associations wherein the controlling interest to the extent of at least over one half thereof is owned by a citizen or citizens of the United States, for sheet asphalt or bitulithic pavement in Ashmont street, Wards 16 and 17, from Neponset avenue to Carruth street, and Dorchester avenue to Washington street. Each proposal should be inclosed in an envelope, sealed, marked "Proposal for Sheet Asphalt or Bitulithic Pavement in Ashmont Street," and left at Room 508, fifth floor, City Hall Annex, before 12 m., daylight saving time, on Monday, June 11, 1934, accompanied by a properly certified check on, or a certificate of deposit issued by, a responsible bank or trust company in the sum of two thousand five hundred dollars ($2,500), payable to the City of Boston. Checks will be returned after execution of the contract on demand. The proposals will then and there be publicly opened and read. Proposals must be made in duplicate, the sealed duplicate, without check, to be deposited by the bidder with the City Auditor previous to the time named for opening the proposals. Bids must be made upon the prescribed proposal form. Special attention of bidders is called to all provisions of the Federal Emergency Administration of Public Works which form a part of the contract, including the prescribed minimum rate of $1.20 per hour for skilled labor, and $0.50 per hour for unskilled labor and to the special provision as to semi-skilled labor. Pursuant to Executive Order 6646, dated March 14, 1934, no bid will be considered unless it includes or is accompanied by a certificate (worded in accordance with P. W. A. 61, revised March 19, 1934) duly executed by the bidder. Every contractor who bids upon a project financed in whole or in part by loans or grants from the P. W. A. shall submit in a sealed envelope with his bid to the contracting authority the names of all sub-contractors and their bids upon which his bid is based. The sealed envelope so submitted shall have on it the name of the contractor with the words thereon "Bids of Sub-Contractors." Such submission shall be deemed to constitute an acceptance by the contractor, if awarded the contract, of the bid of each sub-contractor. Any alteration therein, after the award of the contract, shall be subject to the approval of the P. W. A. engineer. Plans, specifications and contract form may be obtained at Room 508, City Hall Annex, upon the deposit of the sum of five dollars ($5). A surety bond by an approved surety company will be required from the successful bidder in an amount not less than the full amount of the contract. The right is reserved to reject any and all proposals, or to accept any proposal deemed best for the interest of the City of Boston, and no award can be made without the approval of the State Engineer, P. W. A. The name and address of the local registration office of the National Re-employment Service, from which employees' lists for this contract shall be obtained, is as follows: State Public Employment Office (Everett L. Hanna, Manager), 100 Nashua street, Boston.

C. J. Carven,
(May 26.) *Commissioner of Public Works.*

THE SCHOOL COMMITTEE OF THE CITY OF BOSTON.

ADMINISTRATION BUILDING, 15 BEACON STREET, OFFICE OF THE BUSINESS MANAGER.

PROPOSALS FOR FURNISHING UPRIGHT PIANOS FOR THE BOSTON PUBLIC SCHOOLS.

The School Committee of the City of Boston invites bids for furnishing and delivering at school buildings, in accordance with specifications, upright pianos for use in the Boston public schools. Proposal forms are obtainable at the office of the Business Manager of the School Committee, tenth floor, 15 Beacon street. Envelopes containing proposals must be sealed and plainly marked "Proposals for Furnishing Upright Pianos." The bid must be in duplicate. One copy signed by the bidder and accompanied by a certified check for $100, payable to the City of Boston, must be left at the office of the Business Manager on or before 12 o'clock m. on Tuesday, June 5, 1934. Copies filed with the Business Manager will be publicly opened and read at 12 o'clock m. of the day stated. The other copy, also signed by the bidder, must be filed with the City Auditor, City Hall, Boston, Mass., previous to the time named for the opening of the bids. The School Committee reserves the right to reject any or all bids, and to accept such bid or part of bid as may be deemed best for the interests of the city. The successful bidder will be required to furnish a bond for not less than 50 per cent of the amount of the contract.

ALEXANDER M. SULLIVAN,
Business Manager of the School Committee.
(May 26.)

CITY OF BOSTON.

SUPPLY DEPARTMENT.

PROPOSALS FOR FURNISHING ONE 2-TON TRUCK CHASSIS WITH ADJUSTABLE WORK TOWER MOUNTED THEREON AND FULLY EQUIPPED.

The Supply Department of the City of Boston invites proposals for furnishing one 2-ton truck chassis with adjustable work tower mounted thereon and fully equipped to the East Boston Tunnel, Bridge and Ferry Division. The bidder must use the form of proposal to be obtained at the office of the Superintendent of Supplies, Room 801, City Hall Annex, and the successful bidder must furnish a bond for one quarter the total estimated amount of the bid with a surety company authorized to do business in Massachusetts as surety for the faithful performance of the contract. *There will be a charge of twenty cents ($0.20) for each set of blank proposals taken out.* The bid, with a certified check for $300, payable to and to become the property of the City of Boston, if the proposal is not carried out, must be left at the office of the Superintendent of Supplies, before 12 m., Tuesday, June 12, 1934, at which time and place they will be publicly opened and read. A duplicate bid, without check, must be left at the office of the City Auditor prior to the time named for opening bids. The Superintendent reserves the right to accept or reject any or all bids, or any part of a bid, and to award the contract as he deems for the best interests of the city. All contracts made subject to appropriations to meet payments thereunder.

WARREN W. LOOMIS,
(May 26.) *Superintendent of Supplies.*

POLICE DEPARTMENT.

PROPOSALS FOR OVERCOATS AND DRESS COATS.

The Police Department of the City of Boston invites proposals for making and delivering overcoats and dress coats. The bidder must use the form of proposal to be obtained at the office of the Property Clerk, Room 106, 154 Berkeley street, Boston, and deposit with his bid, at the office of the Police Commissioner, a properly certified check for $200, payable to and to become the property of the Police Commissioner for the City of Boston, if the proposal is not carried out. Proposals will be publicly opened and read on Wednesday, June 6, 1934, at 12 o'clock noon, at the office of the Police Commissioner, 154 Berkeley street, Boston. The Police Commissioner reserves the right to accept or reject any or all proposals, or any part of a proposal, and to award the contract as he deems for the best interests of the Police Department of the City of Boston. Surety bond will be required from the successful bidder in an amount equivalent to 50 per cent of the estimated contract amount.

EUGENE C. HULTMAN,
(May 26.) *Police Commissioner.*

CITY OF BOSTON.

TRANSIT DEPARTMENT.

PROPOSALS FOR PAVING MERRIMAC STREET, FROM HAYMARKET SQUARE TO PORTLAND STREET, TRAFFIC TUNNEL, SERIES B.

The Transit Department of the City of Boston, 1 Beacon street, invites proposals for paving Merrimac street, from Haymarket square to Portland street, Traffic Tunnel, Series B. Plans and specifications may be obtained on or after Tuesday, May 22, 1934, at the office of the Department. The bids will be publicly opened and read at 12 o'clock noon, Monday, June 4, 1934. A properly certified check in the sum of two thousand (2,000) dollars, payable to the city, must accompany the proposal. A deposit of $5, in cash or certified check, will be required for a set of plans and two sets of specifications. Mutilation of them will be deemed sufficient cause for the forfeiture of said deposit. The Department reserves the right to reject any or all proposals.

By order of the CITY OF BOSTON TRANSIT DEPARTMENT.

EDWARD F. CONDON,
(May 26.) *Secretary.*

CITY OF BOSTON.

PUBLIC WORKS DEPARTMENT.

PROPOSALS FOR SEWERAGE WORKS IN ORIENT AVENUE AND OUTLET IN PRIVATE LAND, BETWEEN FAYWOOD AVENUE AND MONTMORENCI AVENUE, EAST BOSTON.

The Commissioner of Public Works of the City of Boston, office 508 City Hall Annex, invites proposals from citizens of the United States and corporations or other legal associations wherein the controlling interest to the extent of at least over one half thereof is owned by a citizen or citizens of the United States, for sewerage works in Orient avenue and outlet in private land, between Faywood avenue and Montmorenci avenue, East Boston. A bond will be required for doing the work of a surety company approved by the Commissioner in the sum of 100 per cent of the amount of the contract, to secure the due performance of the contract and the full protection of the city. Forms of proposals may be obtained at Room 508, City Hall Annex. Each proposal should be inclosed in an envelope, sealed marked "Proposal for Sewerage Works in Orient Avenue, etc.," and left at Room 508, fifth floor, City Hall Annex, before 12 m. of Tuesday, June 5, 1934, with a certified check for two hundred (200) dollars payable to and to become the property of the city if the proposal after acceptance is not carried out. The proposals will then and there be publicly opened and read. Proposals must be made in duplicate, the sealed duplicate, without check, to be deposited by the bidder with the City Auditor previous to the time named for opening the bids. *There will be a charge of two dollars ($2) for each set of plans and specifications taken out.* If the price of any item appears to the Commissioner to be abnormally high or low, or the bidder neglects to bid on each and every item, it may lead to the rejection of the proposal containing such price. The undersigned reserves the right to reject any or all proposals or to award the contract as he deems best.

C. J. CARVEN,
(May 26.) *Commissioner of Public Works.*

CITY OF BOSTON.

POLICE DEPARTMENT.

PROPOSALS FOR FIFTEEN MOTORCYCLES.

The Police Department of the City of Boston invites proposals for furnishing and delivering fifteen new motorcycles, and the trading in of used motorcycles and side cars. The bidder must use the form of proposal to be obtained at the office of the Property Clerk, Room 106, 154 Berkeley street, Boston, Mass., and deposit with his bid, at the office of the Police Commissioner, a properly certified check for $100, payable to and to become the property of the Police Commissioner of the City of Boston if the proposal is not carried out. Proposals will be publicly opened and read on Wednesday, June 6, 1934, at 12 o'clock noon, at the office of the Police Commissioner, 154 Berkeley street, Boston, Mass. The Police Commissioner reserves the right to accept or reject any and all proposals, or any part of a proposal, and to award the contract as he deems for the best interests of the Police Department of the City of Boston. Surety bond will be required from the successful bidder in an amount equivalent to 50 per cent of the estimated contract amount.

EUGENE C. HULTMAN,
(May 26.) *Police Commissioner.*

READVERTISEMENT.

CITY OF BOSTON.

PUBLIC WORKS DEPARTMENT.

PROPOSALS FOR RESURFACING OR REPAIRING WITH BITUMINOUS MATERIALS THE PAVEMENT IN ANY STREET UPON WHICH THERE IS NO MAINTENANCE GUARANTY.

The Commissioner of Public Works of the City of Boston, office 508 City Hall Annex, invites proposals from citizens of the United States and corporations or other legal associations wherein the controlling interest to the extent of at least over one half thereof is owned by a citizen or citizens of the United States, for resurfacing or repairing with bituminous materials the pavement in any street upon which there is no maintenance guaranty when ordered to do so by the Commissioner between June 8, 1934, and December 31, 1934, and giving bond therefor of a surety company approved by the Commissioner in the sum of one hundred per cent of the amount of the contract in each district to secure the due performance of the contract and the full protection of the city. Forms of proposals may be obtained at Room 508, City Hall Annex. Each bidder must give the location of the plant which it is intended to operate and the capacity of the same. Each proposal should be inclosed in an envelope, sealed, marked "Proposals for Repairing Pavements with Bituminous Materials," and left at Room 508, fifth floor, City Hall Annex, before 12 m. on Friday, June 1, 1934, with a certified check for three thousand (3,000) dollars for each district, payable to and to become the property of the city if the proposal after acceptance is not carried out. The proposals will then and there be publicly opened and read. Proposals must be made in duplicate, the sealed duplicate, without check, to be deposited by the bidder with the City Auditor previous to the time named for opening the bids. There will be a charge of two dollars ($2) for each set of plans and specifications taken out. If the price of any item appears to the Commissioner to be abnormally high or low, or the bidder neglects to bid on each and every item, it may lead to the rejection of the proposal containing such price. The boundaries of the districts are to be determined by the Commissioner so as to make the amount of work done in each district about equal. The undersigned reserves the right to reject any or all proposals or to award the contract as he deems best.

C. J. CARVEN,
(May 26.) *Commissioner of Public Works.*

CITY OF BOSTON.

PUBLIC WORKS DEPARTMENT.

PROPOSALS FOR REMOVING AND REPLACING HEAD OF MIDDLE PIER AND OTHER MINOR REPAIRS AT SOUTH FERRY, EAST BOSTON.

The Commissioner of Public Works of the City of Boston, office 508 City Hall Annex, invites proposals from citizens of the United States and corporations or other legal associations wherein the controlling interest to the extent of at least over one half thereof is owned by a citizen or citizens of the United States, for removing and replacing head of middle pier and other minor repairs at South Ferry, East Boston. A bond will be required for doing the work of a surety company approved by the Commissioner in the sum of 100 per cent of the amount of the contract, to secure the due perfomance of the contract and the full protection of the city. Forms of proposals may be obtained at Room 508, City Hall Annex. Each proposal should be inclosed in an envelope, sealed, marked "Proposal for Removing and Replacing Head of Middle Pier and Other Minor Repairs at South Ferry, East Boston," and left at Room 508, fifth floor, City Hall Annex, before 12 m. of Thursday, June 7, 1934, with a certified check for five hundred ($500) dollars, payable to and to become the property of the city if the proposal after acceptance is not carried out. The proposals will then and there be publicly opened and read. Proposals must be made in duplicate, the sealed duplicate, without check, to be deposited by the bidder with the City Auditor previous to the time named for opening the bids. *There will be a charge of two (2) dollars for each set of specifications taken out.* If the price of any item appears to the Commissioner to be abnormally high or low, or the bidder neglects to bid on each and every item, it may lead to the rejection of the proposal containing such price. The undersigned reserves the right to reject any or all proposals or to award the contract as he deems best.

CITY RECORD

OFFICIAL CHRONICLE OF BOSTON MUNICIPAL AFFAIRS.

VOL. 26. SATURDAY, JUNE 2, 1934. NO. 22

BUDGET REQUIREMENTS FOR CITY OF BOSTON FOR 1934, SUBMITTED TO COUNCIL BY MAYOR MANSFIELD, SHOWS SAVINGS TO CITY AND INDICATES A LOWER TAX RATE — EFFORTS AT ECONOMY PROVE SUCCESSFUL DESPITE ENORMOUS COST OF SNOW REMOVAL ADMINISTRATION FACED AT BEGINNING OF YEAR — ESTIMATES $300,000 UNDER THOSE OF 1933 — COUNTY REQUIREMENTS PREVENTED MUCH GREATER SAVINGS ON PART OF MAYOR.

The budget requirements for Boston for the year 1934 have been submitted to the City Council by Mayor Mansfield and they indicate that his economy efforts have shown results. There has been a saving of $300,000 over the estimates of 1933 with a consequent reduction in the tax rate. It is also shown that but for the heavy costs for snow removal at the first of the year the savings would have been much greater. This saving has been estimated at nearly $1,000,000, or $750,000 to be exact. Exclusive of county requirements Mayor Mansfield has made a saving of $1,910,602, less the sum for snow removal The statement also shows that there has been a net pay roll saving from statutory salary decreases and other personnel savings amounting to $1,539,398. These facts are shown in the message Mayor Mansfield has sent to the City Council at the same time that the budget was submitted.

Mayor Mansfield's message reads as follows:

OFFICE OF THE MAYOR, BOSTON, May 28, 1934.

To the City Council.

GENTLEMEN,— In compliance with section 3 of the City Charter I submit herewith, in segregated form and in substitution for the lump sum recommendations submitted on January 29, 1934, my budget recommendations for the fiscal year 1934, covering three main appropriation divisions, namely:

1. City department allotments within the tax limit.
2. City debt requirements.
3. Revenue department allotments.

The appropriations recommended for the first two divisions total $36,691,217.53 and will be included in the computation of the tax rate by the Board of Assessors, while the allotments for the third division, totaling $1,905,045.05, will be met from the income received by the several revenue departments of the city. The allotments recommended for all purposes in this budget total $38,596,262.58.

City Maintenance Appropriations.

The allowances recommended for city departments within the tax limit total $25,636,007.25. This total is exclusive of appropriations totaling $6,350,000, which have already been authorized by your honorable body for public welfare and snow removal and additional appropriations for the Public Welfare Department, totaling $1,485,694.50, now awaiting action by your honorable body. The total of the approved and pending appropriations, when combined with the total of departmental allowances herein recommended, still leaves the sum of $2,582,-361.55 available for appropriation within the tax limit fixed by the Legislature.

The total of departmental allowances recommended for appropriation for city maintenance requirements represents a reduction of $5,000,813.50 from the estimates submitted by departmental officials and is $1,910,602.75 less than the total of similar appropriation recommendations submitted in 1933. The following table indicates, by groups, the distribution of this latter reduction:

	1933.	1934.	Reduction.
Personal Service	$18,058,499 65	$16,517,690 69	$1,540,808 96
Other Service	3,837,731 00	3,446,000 50	391,730 50
Equipment	703,930 10	724,545 50	* 20,615 40
Supplies	2,008,456 00	2,044,031 00	* 35,575 00
Materials	382,445 00	351,445 00	31,000 00
Special Items	1,838,548 25	1,665,789 56	172,758 69
Miscellaneous	63,000 00	54,405 00	8,595 00
Relief Projects		267,100 00	* 267,100 00
Special Appropriations	654,000 00	565,000 00	89,000 00
	$27,546,610 00	$25,636,007 25	$1,910,602 75

* Increase.

(*Continued on page 516.*)

"O Boston, fair City enthroned like a radiant queen,
From thy hills looking down on the ship-teeming plain of the ocean,
May thy future be bright, thy skies beam with light all serene,
Ensured by thy sons' and thy daughters' unselfish devotion!"
From Boston Centennial Poem by
NATHAN HASKELL DOLE.

Meeting of the City Council Monday, June 4, 1934, at 2 p. m.

Meetings of the Transit Department are held on Monday and Thursday of each week at 11 a. m.

Board of Zoning Adjustment. Public hearings and executive meetings are held on the first Friday of each month, Room 30, City Hall, at 2 p. m.

MUNICIPAL SERVICE.

Complaints, inquiries or suggestions regarding the work of municipal departments should be made in writing to the officials directly in charge. The failure of such official to make reply within a reasonable length of time should be brought to the attention of the Mayor. Communications should be directed as follows:

To THE BOARD OF STREET COMMISSIONERS, Room 401, City Hall Annex, for information relative to the laying out, relocation, widening, and the discontinuance of highways; the taking of rear property for municipal purposes; the assessments of betterments for streets and sewers; the plotting of undeveloped area for streets and the opening of private ways; the granting of licenses for the storage or sale of merchandise in public streets; the making of specific repairs in public streets; the naming of public streets; the planting and removal of trees in public ways; the issuing of licenses for the storage of gasolene, oil, and other inflammable substances or explosive compounds; the use of the public ways for any permanent or temporary obstruction or projection in, under or over the same, including the location of conduits, poles and posts for telephone, telegraph, street railway or illuminating purposes, signs, marquises, bay windows, coal holes and vaults.

To THE BOSTON TRAFFIC COMMISSION, 22 Court street, for information relative to regulation of vehicular street traffic on all or any streets, ways, highways, roads and parkways under the control of the City of Boston, the issuing of all permits in connection therewith.

To THE COMMISSIONER OF PUBLIC WORKS, Room 511, City Hall Annex, for information as to the watering, cleaning, lighting and repairing of streets, the construction and care of sewers and catch-basins, the operation of the ferries, the maintenance of bridges and drawbridges and the removal of ashes and offal.

To Room 604, City Hall Annex, for information relative to the supplying or metering of water and the water charges of the city.

To THE HEALTH DEPARTMENT, Room 1107, City Hall Annex, for information relative to the inspection of milk, vinegar, meat, fish and vegetables, the issuance of permits for stables, slaughter houses, etc., smoke nuisances, the existence of contagious diseases, of public health nuisances.

To THE BOARD OF PARK COMMISSIONERS, 33 Beacon street, for information as to the care of the Common, Public Garden, Franklin Park, Franklin Field, Commonwealth avenue, Back Bay Fens, Marine Park, and the small parks and playgrounds in general throughout the city, and as to the extermination of gypsy moths and the charges made for such service. Application may be made to this department for information regarding the public baths and gymnasiums maintained by the city, and with regard to municipal indoor concerts and band concerts, also information relative to Mt. Hope, Evergreen, Fairview and other public cemeteries owned by the City of Boston.

To THE SCHOOL COMMITTEE, 15 Beacon street, for information relative to the operation of the schools of the city.

To THE DEPARTMENT OF SCHOOL BUILDINGS, 11 Beacon street, for information as to the construction and repair of school buildings.

To THE BOARD OF EXAMINERS, Room 1001, City Hall Annex, for information regarding the licensing of persons having charge or control of the work of construction, alteration, removal or tearing down buildings.

To THE WIRE DIVISION OF THE FIRE DEPARTMENT, Fire Department Headquarters, 60 Bristol street, for all information relative to the erection of poles, building of conduits, the installation of all overhead and underground construction and electrical apparatus, as well as for general information relative to the entire division. To Room 1007, City Hall Annex, for permits for the installing of wires and electrical apparatus within buildings of the City of Boston, and for the payment of fees incident to the granting of the privileges above named, and which must be paid in advance.

To THE BOARD OF ZONING ADJUSTMENT, Room 30, City Hall, relative to changes in the boundary lines of zoning districts of the City of Boston as established by chapter 488 of the Acts of 1924, and amendments thereto.

MORTALITY REPORT.

For the week ending May 26, 1934:

Population estimated July, 1934, United States Census Bureau estimate, 795,256; number of deaths (stillbirths excluded): Residents, 187; nonresidents, 45; total, 232.

Death rate per 1,000 of population: All deaths, 15.17; nonresidents deducted, 12.23.

Death rate per 1,000 of population: Last week, 13.27; corresponding week last year, 14.05.

Deaths by age periods, sex, etc.: Under one year, 14; one year to four years, inclusive, 7; sixty years and over, 114. Total deaths: Male, 120; female, 112; deaths in hospitals and institutions, 135; deaths of colored, 7.

REPORTABLE DISEASES: CASES AND DEATHS.*

DISEASES.	Cases and Deaths Reported Week Ended May 26, 1934.		Cases and Deaths Reported Week Ended May 27, 1933.

BOSTON'S PARK SYSTEM SO PLANNED AS TO PROVIDE RECREATION FOR CITIZENS OF ALL SECTIONS, FROM COMMON TO MOST DISTANT OUTSKIRTS -- ROSE GARDENS IN FENS AND FRANKLIN PARK ARE ADMIRATION OF HORTICULTURISTS OF ENTIRE COUNTRY — PARK COMMISSIONER WILLIAM P. LONG, SUBSTITUTING, IN RADIO ADDRESS FROM CITY HALL, FOR MAYOR MANSFIELD, DESCRIBES BEAUTIES AND ADVANTAGES IN OPEN-AIR SPACES PROVIDED BY CITY.

The following is the radio address of Park Commissioner William P. Long, from City Hall station of WNAC, on Wednesday, May 29, while substituting on the air for Mayor Mansfield:

Good Afternoon, Ladies and Gentlemen of the Radio Audience.

I am going to take you on a short journey through a portion of Boston's Park System. The Boston parks deserve the term of "system," first, because they are physically connected by an unbroken string of wide attractive connecting parkways which lead from the Boston Common at one extremity to Castle Island at the other terminus; second, the term is appropriate because these open spaces are laid out in a single style without conspicuous breaks of design which would tend to divide the string into sections of different types; third, the local parks and playgrounds, which are by necessity detached from this string, are distributed methodically to provide, as far as possible, equal recreation opportunities in the outlying sections of the city.

Though this system may be completed today, it cannot remain so in the future without the constant acquisition of new park and playground areas or the improvement of old areas. The constant growth of the city makes this growth of the system necessary.

The parks of Boston are rendered still more perfect as a system and more useful individually through their relation to the outer ring of metropolitan parks and parkways which were developed after the Boston parks were established.

Each system is becoming yearly more essential to the other. The question at times arises, have these recreative facilities reached a point of development in which one group is duplicating the work of other groups? A general examination of the actual use made of these parks on Sundays and holidays, as well as on week days, indicates that they are all in intensive use. Many of them, like the bathing beaches and the ball field areas, are unable to accommodate the throngs which seek them. There are no idle parks or playgrounds. In the winter season, it is true, greater use might be made of the wooded reservations and the large country parks by snowshoers, trampers and "nature" study parties. This is a problem of education. In the summer season, however, the call to the parks is natural and constant. The present need is to bring the parks nearer to the homes by creating more recreation areas in the residence districts. The doorsteps and the streets will continue always to serve as play space on certain days, at certain hours, and at certain periods in childhood and in old age, but the playground and the park will be a public necessity always.

No Duplication in Spaces.

Transportation will probably never provide such rapid and such cheap transit that the families of one neighborhood will go by preference to distant neighborhoods for playgrounds. Consequently there appears to be no immediate danger of duplication of local playgrounds. With regard to the large country parks which should be spaced widely, a duplication might occur if they were placed near together, but at present there is no chance that such a liberal supply of these desirable open spaces could be afforded.

If our climate were more bitter and the water of our shores very cold, we might soon possess too many bathing beaches in a combination of the Boston and the metropolitan systems, but with our present climate and with our population of enthusiastic bathers, the hot weather crowds overtax all the public beaches, and trespass upon private beaches from Plymouth to Portland.

In the case of special recreative features like zoological parks, aquariums, special collections of plants or flowers, great public stadiums, duplications may be possible in the future, but at present the opportunities for special study or amusement afforded by these examples are still short of the capacity of Boston and the district to enjoy.

At this time it might be interesting to give you a brief description of the various units making up the Park System of this city and mention some incidents connected therewith as well as some of the recreative features provided therein for the benefit of the public.

Starting in the very heart of this city we have the historic Boston Common which dates back to its purchase from William Blaxton in the year 1634. Perhaps there is no part of Boston in which its citizens feel more pride than in its Common. This tract of about forty-eight acres has from the early days of the town been the free and undisputed property of its inhabitants. Many persons have supposed that it was given to the town but this is not true; for it was purchased from Mr. William Blaxton, he who was located on the peninsular when the colonists came to Massachusetts, and who generously invited them to his hospitable abode, where so bountifully flowed the purest water from his living spring.

For about four years after the removal of the colonists to Boston, they dwelt contentedly with their host; and in the year 1634 the reverend gentleman, undoubtedly desiring a greater freedom and less interruption from company,—or, as it has been said, that he might escape the lord-brethren of New England, as he had previously endeavored to avoid the lord-bishops of Old England—quitted his peninsular, or "neck" as it was anciently called, to the sole enjoyment of his guests, and departed to a place near Providence, called by him Study Hill, where he spent the remainder of his days with his family in quiet, and died on the twenty-sixth of May, 1675, just before the breaking out of the Narraganset War. Before leaving Boston, however, he sold all his interest in the peninsular, except in six acres, where his house stood, to the colonists for thirty pounds.

The money was raised by a rate, or assessment as is shown in an entry in the first book of the town's records under date of November, 1634. After its purchase the town laid out thereon a place for a "trayning" field; which ever since and now is used for that purpose and for the feeding of cattle. Boston Common has been slightly curtailed of its original size. When first set apart as a training field, it extended easterly a short distance from the present line of Tremont street, covering the site of houses on Park street, as well as those on Beacon street, from Park street to Tremont street, where now stand the Boston Athenæum and the Tremont building. The land for the Granary Burying Ground and for the construction of what is now known as Park street (formerly Sentry street) having been taken from it in 1660, and the land for the almshouse of the town a few years later.

The typography of the land remains today very much as it originally was. It has been landscaped into a series of grass-covered groves, the borders of which are planted with rows of trees, mostly elms and lindens, under which are located permanent seats for the use of the public. This is America's first public park, as well as its most popular one. Adjoining it, practically abutting upon the Common, is the Public Garden, under the supervision of the Park Department. This comprises an area of twenty four and one-quarter acres, of which three and three-quarters

acres of this being a water area or pond wherein are operated the ever popular swan boats, as well as row boats. In this most popular resort at the present time are to be found some splendid specimens of native and exotic trees and shrubs. In fact, it is known all over the world for its floral displays which bloom in rotation. Crocus, scillias and snowdrops peep through the grass in the very early spring. These are followed in turn by the gorgeous display of tulips. There are about one hundred and twenty-five beds which, when all planted, require over 100,000 tulips and 50,000 other plants.

The general design for spring planting is to have the beds of two colors or shades, one being in the center and the other being a contrasting color on the border. The tulips having gone by, the beds are at present planted with pansies or forget-me-nots, which later on will be removed and the beds permanently planted for the remainder of the season. Bay trees and large palms in variety are being placed along the main walks, hydrangeas having been carefully prepared and grown in tubs are being rushed to garden to be placed on the edge of the pond and in various other sites selected for them. The pond lillies, both pink and white, will be placed in their accustomed pools. In addition, many floral emblems that are made in honor of the various organizations which hold their conventions in this city, will be set out for display.

Rose Garden in the Fens.

The next important unit is the Fens located in the Back Bay district. Here is located one of the projects in which the Park Department has taken greatest pride and which has come to be one of the most attractive spots in the city and is the mecca of thousands of tourists and those who love the *al fresco* beauties that are there to be beheld. Horticulturists and lovers of flowers from everywhere when they reach Boston ask almost with their first breath how to reach the Rose Garden. The garden will be at its best about the middle of June. Every inch of space in the garden will be a bower of fairy-like entrancingness with their trellised arches and niches adorning every inch of space.

In the year 1932 the Massachusetts Horticultural Society awarded the blue ribbon certificate to the Park Department of the City of Boston for the new Rose Garden in the Fens, for the reason "that this garden is of inestimable benefit to the public, having been planted in excellent design." In describing this garden—you enter at the single wooden gate after crossing the rustic cedar bridge over the little thread of a stream from the Art Museum side. Looking from outside, ramblers fling their multi-hued petals above the inclosing fence; glimpses of a thousand assorted blooms inside pull you in. The garden, perhaps 150 feet in its longest part and 80 feet across its circular end, has a bottle shape with so-called "educational beds," small plots, side by side, in almost unending numbers, running around the curving portion of the lay-out.

There are wide dirt walks through the riot of flowers, a generous sized ermined lawn occupying the "neck," an ancient carved well head brought from Rome, at the apex of the "neck."

Trellised Arches.

The circular walk leads beneath the series of trellised arches, each with its array of special roses, a canopy of color interspersed with green from the ground up, over and down to earth again. Almost every variety of a rose that will live in this climate is shown. Primrose climbers again cloaking the fence, species of roses, white, yellow, shadings of red galore, each individualized in its separate keep, drift before you as you stroll and gaze.

Today a little rock pond amid the circle of flowers sets off the roses further. Four fat cherubs, each clasping a cornucopia of roses carved in gray plastic cement, keep guard over the miniature spouting streams that sparkle here in the sunlight. Water-lily pads, and water plants of different specie dot the water. Hundreds of species — all roses of the rose family run riot here. On pleasant days the little gate is thronged with an unending stream, with many waiting outside to enter.

Boston's now famous rose garden here has come to stay as long as there are flower lovers and a Fenway. In three years of blossoming magnificence it has proved its spell over the great and the less great alike. Its ultra extravagance of beauty, authorities assert, already has quickened the cultivation of the rose in a thousand private Boston gardens — has helped bring the rose back into its own as one of the most pursued hobbies of the local home flower gardener.

Arboretum Unique.

The Arnold Arboretum is a unique feature in the main Park System. It is a department of Harvard University and was begun from the bequest of the late James Arnold of New Bedford who left $100,000 for that purpose. It covers an area of 223 acres, and is the foremost arboretum in the entire world. The Arnold Arboretum was established in its present shape by the cooperation of the City of Boston with Harvard University, in consideration of its value as a feature of the Park System and its educational importance. The City of Boston through the Park Department, takes care of the roads and foot paths and the grass areas between them, while the Harvard University assumed the care and maintenance of the remaining portion, which comprises every species and variety of tree and shrub that will grow in this climate.

The Marine Park System comprises Marine Park proper, Castle Island, Columbus Park and Columbia road, from City Point to Blue Hill avenue, at Franklin Park. Marine Park has undergone considerable changes in the past twenty-five years, and is undoubtedly one of the most beautiful parks of the Park System, inasmuch as it presents a combination of woodland and seashore. It is connected with Castle Island by a modern roadway that was recently constructed there.

Castle Isand is no longer an island but a peninsula; it is surrounded by beautiful iron rail fence, constructed on top of a sea wall. It was fortified to protect the town of Boston, but was destroyed by the British troops on their evacuation in 1776. It was later restored and called Fort Independence. At the present time the United States has a radio station located there. This part of the Park System is worthy of a visit not only from an æsthetic point of view but from an historical one.

CHICAGO POLICE.

Although the numerical strength of the Chicago police department has been reduced in the last two years from approximately 6,700 to 6,000, the number of men on foot patrol has been increased 150 per cent, or about 1,900.

CITY BUDGET.

(Continued from page 513.)

The following explanations are offered in connection with the changes indicated in the foregoing table within the various budget groups.

Personal Service.

Appropriations for pay roll purposes in the various departments and divisions of the city are approximately $1,541,000 less than similar appropriations in 1933. The major portion of this reduction is to be found in the allotments for pay roll payments to permanent employees, where a reduction of $1,539,398.65 is reflected. An analysis of this particular reduction is presented in the following table:

Savings resulting from statutory salary decreases		$716,357 21
Other personnel savings		945,230 62
Gross pay roll savings		$1,661,587 83
Overlay	$80,437 39	
New positions	22,424 77	
Transfers from A-2	19,327 02	
		122,189 18
Net pay roll savings		$1,539,398 65

The item for statutory salary decreases represents the savings which have been realized this year through the continuance of the 5, 10 and 15 per cent reductions in salaries and wages of city employees. Since these reductions will be in effect for the entire current year as against only approximately two thirds of last year, additional savings are naturally reflected in the 1934 departmental appropriations for permanent pay roll requirements. Other personnel savings have been secured, first, by a policy of allowing positions becoming vacant through death, retirement or resignation, to remain unfilled, and second, by following a stagger system of employment in certain city departments. In the main, the service and work demands upon these departments have been considerably lessened owing to existing economic conditions, therefore, a stagger schedule of employment may be arranged without seriously impairing the ordinary functions of the departments. The item of overlay indicated in the foregoing table represents the additional cost which it is necessary to provide for in the budget of the current year as a result of personnel changes made during the course of the year 1933. Since these changes were effective for only a portion of last year, it is only natural that on a full year basis increased appropriations are required. Appropriations for additional employees have been made in the following city departments: In the City Council the services of an additional police officer have been provided to take care of the large number of persons who, since the first of the year, have been visiting the rooms and gallery of the City Council. In the Hospital Department additional clerks have been provided in order that the clerical work incidental to the billing of hospital patients may be properly carried out. At Long Island Hospital, in connection with the general reorganization which is being made at that institution, several supervisory positions have been established in order to coordinate and assure proper supervision and direction of the several divisions of the institution. In the Law Department an additional assistant corporation counsel has been provided because of the increased amount of legislative and legal work facing the department. In the Licensing Board it has been necessary to establish several new clerical positions in order that the

increased volume of business resulting from repeal of prohibition might be properly handled. In the Police Department three new positions have been provided at the request of the Police Commissioner. In the Supply Department the position of assistant to the Superintendent of Supplies has been established, in order that the latter official may have expert assistance and advice in the matter of reorganizing the purchasing methods of the city. The positions transferred from Item A-2 are positions of a permanent character and therefore appear to be proper charges against the item for permanent employees. While there is apparently little reduction in this year's appropriation for temporary employees, as compared with the appropriation of last year, it must be remembered that two additional election functions will be conducted during 1934, thus necessitating additional pay roll appropriations for wardens, clerks and inspectors of approximately $25,000 for each function, or a total additional expense of $50,000.

SERVICE OTHER THAN PERSONAL.

Appropriations for service rendered to the city by corporations, firms and individuals outside of the regular personnel of the city, show a decrease of approximately $400,000 from similar appropriations in 1933. The major item reductions entering into this saving are as follows:

In view of the large amount of repair work carried on in city departments under C. W. A. and E. R. A. projects, it has been possible to make reductions in three items totaling approximately $285,000. The largest item saving in this respect has been under General Plant, where a saving of approximately $196,000 has been made from the total allowance of last year for the repair of departmental structures and property by outside contractors. This reduction has naturally reduced the necessity for city departments advertising contracts to be awarded, with a resultant saving of approximately $5,300. Again in the Assessing and Registry Departments the development of block plans and the consolidation of indexes which, in former years, have been performed by outside agencies are now being carried forward as emergency relief projects, with a resulting saving to the city of close to $82,000. Other anticipated savings in addition to the three items already discussed are $45,000 in lighting costs; $22,000 in motor vehicle repair expenses; $18,000 in catch-basin cleaning contracts; $15,000 in removal of waste contracts; and $9,500 for the employment of outside stenographic service. In addition, in the Health Department, it is anticipated that because of improved methods of determining settlements of persons admitted to state hospitals and sanatoria, that a reduction of $24,000 in the payments to the state by the city for the care of such cases, will be secured. As a partial offset to these savings, increases totaling approximately $27,500 are reflected in three items in this group. Because of additional election functions, appropriations for the printing of voting lists and the cartage of election equipment and paraphernalia show an increase of approximately $3,200 over last year's appropriations. The rental of Young's Hotel as the local headquarters for C. W. A. and E. R. A. administration forces has necessitated an increase in rental appropriations of approximately $24,000.

EQUIPMENT.

Allowances for the purchase of necessary equipment in city departments show an increase of approximately $20,600 over similar allowances for 1933. The principal items responsible for this increase are as follows:

In the Public Works Department the city is faced with the necessity of gradually replacing the fleet of seven-ton motor trucks purchased approximately seven years ago for snow removal and waste collection. These trucks, because of their age, require constant repair and care. To replace them all at one time would necessitate a larger appropriation than it is possible, under existing economic conditions, for the city to make. An additional appropriation of approximately $40,000 has been allowed in this year's budget in order to commence a gradual program of replacement. At the Long Island and City Hospitals, increased appropriations of approximately $12,300 have been provided for the purchase of necessary laboratory and surgical equipment. In the opinion of the authorities at these two institutions such equipment is required in order that proper service may be rendered to those citizens of the community who, through misfortune or ill health, are in need of medical and surgical treatment. The heavy storms of last winder have made necessary an increased appropriation of $3,600 in the Sanitary Division of the Public Works Department to permit the replacement of broken and damaged snow ploughs. These three increases have been offset in part by the following savings. The approval of a loan for the establishment of a modern communications system in the Police Department has made possible reductions of approximately $20,000 in the budget of this department for the purchase of cable and electrical equipment. Again in this department a saving of $13,000 has been made in the allowance for uniforms owing to the fact that the policy of allowing vacancies in the uniformed forces of the department to remain unfilled, naturally lessens uniform requirements. In the Fire Department a saving of approximately $5,500 has been secured by eliminating certain electrical equipment, the purchase of which, in the opinion of the Fire Commissioner, may be deferred.

SUPPLIES.

Allowances for supplies in the current budget reflect an increase of approximately $35,500 over similar allowances of last year. In the main this increase may be attributed to increased prices of commodities. The total increase in this group would have been considerably larger if it were not for the fact that general reductions have been made in departmental allowances for stationery, postage and office supplies. It is estimated that savings under this item will total in excess of $28,000.

MATERIALS.

A reduction of $31,000 is reflected in allowances under this item when compared with allowances for 1933. This saving would undoubtedly have been considerably larger if it were not for the fact prices of materials have increased sharply since last year.

SPECIAL ITEMS.

A reduction of approximately $173,000 is reflected in the appropriations recommended under this group. The principal item responsible for this savings is that for Soldiers' Relief where an allowance of $200,000 less than that provided in 1933 is recommended. This reduction is predicated on the assumption that the continuance of E. R. A. projects and the commencement of work on P. W. A. construction projects should result in a lessening of the number of cases now being carried on the relief rolls of the department. This saving has been offset to the extent of approximately $31,600 by increased pension requirements in the Police and Fire Departments. At the time salary reductions were ordered last year, a large number of members of the uniformed forces of these two departments applied for retirement. The fact that such pensions will be in effect for a full year in 1934 as against a portion of the year 1933 naturally results in increased pension appropriations in these two departments.

MISCELLANEOUS.

Because of decreases in investigational allowances for the Port Authority and Planning Board and for incidental expenses in the Mayor's Office, budget savings totaling approximately $8,600 are reflected in this group.

EMERGENCY RELIEF PROJECTS.

Since the fifteenth of February it has been necessary under the Federal emergency relief program, for the city to provide for all project expenditures other than those for pay rolls. The total appropriation of $267,100 indicated under this group has been allocated to the various city departments for the purchase of materials and supplies and the liquidation of miscellaneous expenses arising from the various C. W. A. and E. R. A. projects which have been or are being carried on.

SPECIAL APPROPRIATIONS.

A net reduction of $89,000 is reflected in this group. This saving has been secured in the following manner. The appropriation for Reserve Fund has been reduced $100,000; that for Parkways and Roadways, $25,000; for Public Celebrations, $24,000, and for Conventions, $10,000. These reductions have been offset by the necessity for providing an increased appropriation of $50,000 for Bridge Repairs and $20,000 additional for Ferry Improvements.

CITY DEBT REQUIREMENTS.

The appropriations recommended under this group reflect an increase of $1,821,000 over similar appropriations in 1933 and are intended to cover the estimated debt requirements of the city for the current year with the exception of interest payments on loans issued in anticipation of taxes and for P. W. A. construction projects. Because of the uncertainty as to the amounts of such loans to be issued as well as the interest rates which the city will be required to pay on its temporary loans, it is deemed advisable to defer the determination of appropriations of this character till later on in the year, when a more accurate and specific estimation may be made. The total increase which is reflected in this group may be said to be the direct result of the issuance in 1933 of loans for relief requirements in the Public Welfare Department totaling $4,100,000 and a loan of $3,500,000 utilized for the reduction of the 1933 tax rate. These loans total $7,600,000 and were issued for a term of five years. It is necessary, therefore, to include in the Serial Fund appropriations for the current year, one fifth of this total, and in the Interest appropriations, an amount equal to approximately 4¼ per cent of the total.

REVENUE DEPARTMENTS.

Despite the fact that there are included in this division for the first time appropriations for the operation and maintenance of the East Boston Traffic Tunnel totaling $99,600,000, the budget total recommended for departments supported by their own revenue is $78,129.85 less than the amount recommended in 1933. In short, exclusive of the amounts recommended for tunnel operation costs, the 1934 budget of the revenue departments reflects a reduction of $177,729.85 from last year's allowances. An analysis of the various revenue department budgets indicates that the same factors described previously in detail in connection with city department appropriations are present in the budgets of the income departments, namely, reduced pay roll appropriations resulting from salary reductions and personnel savings, and increased equipment, supply, and material appropriations, caused by rising prices. In the case of the East Boston Traffic Tunnel, appropriations have been provided on the assumption that this latest improvement will be ready for operation on July 1. Aside from personnel appropriations, the important items to be found in the tunnel budget are electric current and power required for the lighting of the tunnel and operation of the ventilating and air conditioning apparatus; motor trucks to be used in the cleaning of the tunnel and the rendering of aid and assistance to vehicles which may break down while traveling through the tunnel; furniture and office equipment for the administration office, and uniforms for the collectors and guards to be stationed at the two entrances. No appropriation is recommended at this time for the interest requirements on bonds issued for the construction of the tunnel and its approaches. At a later date when an accurate and definite estimate can be made covering these requirements, I will forward the necessary recommendation to your honorable body.

CONCLUSION.

Under date of March 26 an order was passed by your honorable body requesting that a certain form of tabulation be followed in the preparation of this year's budget recommendations, and that an analysis of the 1933 tax rate and the probable rates for 1934, with supporting schedules, be submitted. An examination of the exhibits submitted with my budget recommendations will indicate that the first of these two requests has been complied with. In connection with the second request, I regret that it is impossible at this time to present the desired analysis. At least seventeen items enter into the determination of Boston's tax rate. The majority of these items are outside the control of the Mayor of the city, and originate or are determined outside of City Hall. Because of this fact I prefer not to make at this time any estimate of the amount which it will be necessary to provide in the tax levy for these items. I present, however, for your information and consideration the following table in which a two-year comparison of budget recommendations, originating with the Mayor and submitted to your honorable body is shown.

ITEM.	1933.	1934.
City Maintenance Requirements	$36,750,000 00	$35,600,000 00
City Debt Requirements *	9,233,944 25	11,055,210 28
County Maintenance Requirements	3,316,775 46	3,163,958 17
County Debt Requirements	157,965 50	152,375 17
	$49,458,685 21	$49,971,543 62
Estimated City and County Revenues	$3,875,000 00	$4,710,400 00
Net Budget Requirements	$45,583,685 21	$45,261,143 62

* Exclusive of interest on temporary loans.

It will be noted from the foregoing table that despite a material increase in debt requirements for the current year, the estimated net budget requirements for those divisions of the tax rate determined under the direction of the Mayor indicate at the present moment a reduction in excess of $300,000 from similar requirements at this time last year. It should be clearly understood, however, that the foregoing table includes only five of the items or elements which will enter into this year's tax rate. Lacking definite information at the present moment concerning the state tax, metropolitan assessments, school requirements, and assessed valuation, it would be unwise to assign to the foregoing table any value, except as a current summary of the Mayor's budget recommendations.

Following this message you will find my budget recommendations presented in the form of tax and appropriation orders. I respectfully recommend adoption of these orders by your honorable body.

Respectfully,

FREDERICK W. MANSFIELD,
Mayor.

CITY DEPARTMENTAL ALLOWANCES RECOMMENDED BY MAYOR FOR 1934.

Department.	Allowances.
Art Department	$1,610 00
Assessing Department	277,835 75
Auditing Department	68,361 50
Boston Port Authority	34,333 60
Boston Retirement Board	28,850 00
Boston Traffic Commission	119,953 00
Budget Department	9,945 00
Building Department	150,095 00
Board of Appeal	13,194 75
Board of Examiners	4,416 00
City Clerk Department	37,180 00
City Council	70,561 22
City Council Proceedings	10,462 50
City Documents	25,000 00
City Planning	19,170 00
Collecting Department	$164,863 60
Election Department	281,716 88
Finance Commission	49,250 00
Fire Department	3,732,344 58
Wire Division	75,170 00
Health Department	821,910 00
Hospital Department	2,918,971 45
Sanatorium Division	545,850 00

CITY OF BOSTON APPROPRIATIONS AND TAX ORDERS FOR THE FINANCIAL YEAR 1934.

Ordered, That to meet the current expenses payable during the financial year beginning with the first day of January, 1934, for performing the duties and exercising the powers devolved by statute or ordinance, or by vote of the City Council during the year, upon the City of Boston, or the departments or officers thereof, and to meet the obligations for interest on debt, sinking fund requirements and maturing debt not provided for by sinking fund, the respective sums of money specified in the tables and schedules hereinafter set out be, and the same are, hereby appropriated for the several departments and for the objects and purposes hereinafter stated.

Ordered, That the appropriations for Water Service, current expenses, and the payment to the state under the provisions of chapter 488 of the Acts of 1895, and acts in addition or amendment thereto, and for the interest and debt requirements or for loans issued for water purposes be met by the income of said works and any excess over income from taxes; that the appropriation for East Boston Traffic Tunnel be met by the income from tunnel tolls and any excess over income from taxes; that the appropriation for Printing Department be met by the department income and any excess over income from taxes; and the appropriation for *City Record* be met by the income of said publication and any excess over income from taxes; that the other appropriations hereinafter specified be met out of the income of the financial year beginning January 1, 1934, and the balance from taxes to be assessed on the polls and estates of the City of Boston.

Ordered, That all sums of money which form no part of the income of the city but shall be paid for services rendered for work done by any department or division for any other department or division, or for any person or corporation other than the City of Boston, be paid into the general treasury, and that all contributions made to any appropriation be expended for the objects and purposes directed by the several contributors thereof.

Ordered, That all taxes raised to meet the appropriations of the city and county and all taxes assessed for meeting the city's proportion of the state tax for the year 1934 be due and payable on the fifteenth day of September, 1934; that interest shall be charged on all taxes remaining unpaid after the second day of October, 1934, in accordance with the provisions of chapter 59, section 57, of the General Laws, until paid, except the taxes assessed upon shares of national banks, which shall bear interest at the rate of 12 per cent per annum from the fifteenth day of September, 1934, until paid; and that all interest which shall have become due on taxes shall be added to and be part of such taxes.

Ordered, That except as the appropriation for any purpose or item shall be increased by additional appropriations or transfers lawfully made, no money shall be expended by any department for any of the purposes or items designated in the tables and schedules hereinafter set out in excess of the amount set down as appropriated for such specific purpose or item.

POLICE DEPARTMENT ORDERS.

General Order No. 488.

Patrolman John S. Rice of Division 15 is commended and given two days' additional vacation for meritorious police duty performed on May 9, 1934, in connection with the pursuit and capture of a person who was operating a car which had been reported stolen. When arrested a loaded revolver was found on his person.

The commissioner is pleased to recognize the initiative and perseverance shown by Patrolman Rice in continuing the pursuit and eventual capture of this dangerous character, who abandoned the automobile and tried to escape by running through back yards and jumping over several fences before his capture.

The Superintendent of Police will promulgate this order.

EUGENE C. HULTMAN,
Commissioner.

General Order No. 489.

A trial board consisting of Captains Campbell, McGrath and Casey, having heard by reference a complaint made by John J. Hanrahan, captain, Division 17, against Harry J. Marley, patrolman, Division 17, for alleged violation of Rules 27 and 41 of the Rules and Regulations of the Police Department, to wit:

Charge 1: Not properly patrolling his route.

Specification: In that on May 13, 1934 (Police Day), between the hours of 4 a. m. and 6.10 a. m., while on duty in uniform, did enter an automobile which was parked on his route and fell asleep, leaving his route unprotected, and exposed to the criminal element, and by so doing did commit an act contrary to good order and discipline.

Charge 2: Neglect of duty.

Specification: In that on May 13, 1934 (Police Day), said Patrolman Harry J. Marley did fail to pull his on duty calls from 4 a. m. to 6.10 a. m., a period of two hours and ten minutes, knowing that the Rules and Regulations of the department require him to pull a duty call every forty minutes, and by so doing did commit an act contrary to good order and discipline,—

has submitted the following finding and recommendation:

"The Board having heard and carefully considered all the evidence as presented, accepts the plea of guilty by the said Patrolman Harry J. Marley, and respectfully recommends that in view of the fact that Patrolman Harry J. Marley has been a police officer for eleven years and has never been before a trial board before, and further that his commanding officer highly recommends him, and has never had occasion to warn him for the use of liquor, and further that he is a respectful, interested officer, that he perform seventy hours of punishment duty."

The commissioner accepts the finding and recommendation of the Trial Board and hereby orders that the said Patrolman Harry J. Marley perform seventy hours of punishment duty.

The Superintendent of Police will promulgate this order.

EUGENE C. HULTMAN,
Commissioner.

General Order No. 490.

A trial board consisting of Captains Campbell, McGrath and Casey, having heard by reference a complaint made by William Lewis, captain, Division 19, against James J. Weldon, patrolman, Division 19, for alleged violation of law, has reported to the commissioner a finding of not guilty as charged. In accordance with which it is hereby ordered that the complaint against the said Patrolman James J. Weldon be dismissed.

The Superintendent of Police will promulgate this order.

EUGENE C. HULTMAN,
Commissioner.

RETIREMENT BOARD REPORT.

To the Auditor.

CIVIL SERVICE EXAMINATIONS. (STATE.)

STATE EXAMINERS OF ELECTRICIANS.

Examinations, 1934.

Examinations will be held at the following points and on the following dates:

Boston, Monday, June 4.
Boston, Monday, September 17.
Worcester, Wednesday, September 19.
Springfield, Thursday, October 25.
Pittsfield, Friday, October 26.
Boston, Monday, November 5.
Lowell, Wednesday, November 7.
Boston, Monday, December 3.
New Bedford, Thursday, December 6.
New Bedford, Friday, December 7.

RULES FOR EXAMINATIONS.

All examinations shall be given in English.

Applicants for Class B or journeyman's certificate must be at least eighteen years of age and have had at least two years' practical experience or the equivalent in the installation of wires, conduits, apparatus, fixtures and other appliances for carrying or using electricity for light, heat or power purposes.

Applicants for Class A or master's certificate must be at least twenty-one years of age and have had at least two years' experience in the business of installing wires, conduits, apparatus, fixtures and other appliances for carrying or using electricity for light, heat or power purposes.

Examinations shall consist of applicant's knowledge of the National Electrical Code and practical electrical work.

All persons desiring to be examined, either for a Master or Journeyman Certificate, shall have application on file at least ten days previous to the date of such examination.

Applicants for examination will be required to obtain at least 70 per cent in order to obtain a certificate.

Applicants who fail to obtain the required 70 per cent will not be entitled to re-examination until a period of three months has elapsed, and those who receive less than 50 per cent, or who fail on the practical demonstration, will not be re-examined for a period of six months.

Any person found referring to notes or books, or misbehaving during an examination, will be debarred from that examination.

Notice will be sent to applicants for certificates when and where examination will be held, and only those so notified will be examined on that day.

JAMES M. HURLEY,
PAYSON SMITH,
STEPHEN C. GARRITY,
State Examiners of Electricians.

—

For application blanks or other information apply to State Examiners of Electricians, Room 413A, State House, Boston, Mass.

FIVE PER CENT OF CITY BUDGET PAID FOR REFUSE DISPOSAL.

Nearly one million dollars, or about 5 per cent of the total cost of the general city government of Los Angeles, Cal., is spent every year for the collection and disposal of refuse, under the direction of the Bureau of Engineering of that city. The Refuse Collection Division operates six days a week, and enough men are provided to compensate for a five-day week for all the personnel employed.

TRANSIT DEPARTMENT.

Upon May 26 the Mayor approved a contract with Baker, Matz & Co. for paving Cross street, from Hanover street to Haymarket square, Traffic Tunnel, Series B. Bids, opened Thursday, May 17, were as follows:

M. F. Gadds, $18,741; A. G. Tomasello & Son, Incorporated, $18,596.75; J. A. Singarella Company, $18,069.25; Charles Capone, $16,841.50; Frank J. Jacobs Company, $16,688.50; National Engineering and Contracting Company, $16,536.50; Beacon Engineering Company, $16,458.01; Samuel J. Tomasello, Incorporated, $15,747.75; A. Singarella, $15,672.50; A. R. Doyle, Incorporated, $15,547.50; Baker, Matz & Co., $14,714.

SCHOOL COMMITTEE.

The School Committee has approved contracts for furnishing semi-bituminous coal for Boston public schools. Bids were received from the following concerns:

Brighton Coal Company, City Fuel Company, Commonwealth Fuel Company, Massachusetts Wharf Coal Company, Metropolitan Wharf Coal Company, Old Colony Coal and Wharf Company, Tremont Coal and Ice Company, White Fuel Corporation.

Contract was awarded to the Brighton Coal Company, under date of May 7, for the entire requirements, at $6 per ton, with a B. t. u. guarantee of 14550. The proposal of the Tremont Coal and Ice Company was rejected on account of failure to make deliveries at the proper time under a previous contract. Bids, opened Monday, April 23, were as follows:

District 1.—Brighton Coal Company, $5.97 per ton; B. t. u., 14550; ash, dry coal, 4.5; City Fuel Company, $6.40 per ton; B. t. u., 14500; ash, dry coal, 5.5; Commonwealth Fuel Company, $6.55 per ton; B. t. u., 14850; ash, dry coal, 5.25; Massachusetts Wharf Coal Company, $6.49 per ton; B. t. u., 14450; ash, dry coal, 5.50; Metropolitan Coal Company, $6.92 per ton; B. t. u., 14750; Old Colony Coal and Wharf Company,† B. t. u., 14600; ash, dry coal, 6.0; Tremont Coal and Ice Company,‡ $6.65 per ton; B. t. u., 14550; White Fuel Corporation, $6.94 per ton; B. t. u. 14755; ash, dry coal, 4.61.

District 2.—Brighton Coal Company, $5.98 per ton; B. t. u., 14550; ash, dry coal, 4.5; City Fuel Company, $6.36 per ton; B. t. u., 14500; ash, dry coal, 5.5; Commonwealth Fuel Company, $6.30 per ton; B. t. u., 14850; ash, dry coal, 5.25; Massachusetts Wharf Coal Company, $6.49 per ton; B. t. u., 14450; ash, dry coal, 5.50; Metropolitan Coal Company, $6.92 per ton; B. t. u., 14750; White Fuel Corporation, $6.24 per ton; B. t. u., 14755; ash, dry coal, 4.61.

District 3.—Brighton Coal Company, $5.87 per ton; B. t. u., 14550; ash, dry coal, 4.5; City Fuel Company, $6.04 per ton; B. t. u., 14500; ash, dry coal, 5.5; Massachusetts Wharf Coal Company, $6.19 per ton; B. t. u., 14450; ash, dry coal, 5.50; Metropolitan Coal Company, $6.92 per ton; B. t. u., 14750; White Fuel Corporation, $7.24 per ton; B. t. u., 14755; ash, dry coal, 4.61.

District 4.—Brighton Coal Company, $6.01 per ton; B. t. u., 14550; ash, dry coal, 4.5; City Fuel Company, $6.59 per ton; B. t. u., 14500; ash, dry coal, 5.5; Commonwealth Fuel Company, $6.30 per ton; B. t. u., 14850; ash, dry coal, 5.25; Massachusetts Wharf Coal Company, $6.49 per ton; B. t. u., 14450; ash, dry coal, 5.50; Metropolitan Coal Company, $6.92 per ton; B. t. u., 14750; White Fuel Corporation, $6.34 per ton; B. t. u., 14755; ash, dry coal, 4.61.

District 5.—Brighton Coal Company, $6.03 per ton; B. t. u., 14550; ash, dry coal, 4.5; City Fuel Company, $6.64 per ton; B. t. u., 14500; ash, dry coal, 5.5; Commonwealth Fuel Company, $6.30 per ton; B. t. u., 14850; ash, dry coal, 5.25; Massachusetts Wharf Coal Company, $6.77 per ton; B. t. u., 14450; ash, dry coal, 5.50; Metropolitan Coal Company, $6.92 per ton; B. t. u., 14750; Tremont Coal and Ice Company,‡ $6.65 per ton; B. t. u., 14550; White Fuel Corporation, $6.94 per ton; B. t. u., 14755; ash, dry coal, 4.61.

District 6.—Brighton Coal Company, $5.73 per ton: B. t. u., 14550; ash, dry coal, 4.5; City Fuel Company, $6.07 per ton; B. t. u., 14500; ash, dry coal, 5.5; Massachusetts Wharf Coal Company, $6.21 per ton; B. t. u., 14450; ash, dry coal, 5.50; Metropolitan Coal Company, $6.92 per ton; B. t. u., 14750; Old Colony Coal and Wharf Company,† B. t. u., 14600; ash, dry coal, 6.0; White Fuel Corporation, $7.14 per ton; B. t. u., 14755; ash, dry coal, 4.61.

District 7.—Brighton Coal Company, $6.16 per ton; B. t. u., 14550; ash, dry coal, 4.5; City Fuel Company, $6.73 per ton; B. t. u., 14500; ash, dry coal, 5.5; Commonwealth Fuel Company, $6.48 per ton; B. t. u., 14850; ash, dry coal, 5.25; Massachusetts Wharf Coal Company, $6.24 per ton; B. t. u.; 14450; ash, dry coal, 5.50; Metropolitan Coal Company, $6.92 per ton; B. t. u., 14750; Old Colony Coal and Wharf Company,† B. t. u., 14600; ash, dry coal, 6.0; White Fuel Corporation, $7.14 per ton; B. t. u., 14755; ash, dry coal, 4.61.

District 8.—Brighton Coal Company, $6.28 per ton; B. t. u., 14550; ash, dry coal, 4.5; City Fuel Company, $6.81 per ton; B. t. u., 14500; ash, dry coal, 5.5; Massachusetts Wharf Coal Company, $6.77 per ton; B. t. u., 14450; ash, dry coal, 5.50; Metropolitan Coal Company, $6.92 per ton; B. t. u., 14750; Tremont Coal and Ice Company,‡ $6.65 per ton; B. t. u., 14550; White Fuel Corporation, $6.54 per ton; B. t. u., 14755; ash, dry coal, 14755; 4.61.

District 9.—Brighton Coal Company, $6.30 per ton; B. t. u., 14550; ash, dry coal, 4.5; City Fuel Company, $6.96 per ton; B. t. u., 14500; ash, dry coal, 5.5; Massachusetts Wharf Coal Company, $7.33 per ton; B. t. u., 14450; ash, dry coal, 5.50; Metropolitan Coal Company, $6.92 per ton; B. t. u., 14750; Tremont Coal and Ice Company,‡ $6.75 per ton; B. t. u., 14550; White Fuel Corporation, $6.64 per ton; B. t. u., 14755; ash, dry coal, 4.61.

Entire Requirements.—Brighton Coal Company, $6 per ton; B. t. u., 14550; ash, dry coal, 4.5; Massachusetts Wharf Coal Company, $6.61 per ton; B. t. u., 14450; ash, dry coal, 5.50; Metropolitan Coal Company, $6.92 per ton; B. t. u., 14750; White Fuel Corporation, $6.74 per ton; B. t. u., 14755; ash, dry coal, 4.61.

District 1, City Proper. District 2, South Boston. District 3, East Boston. District 4, Roxbury. District 5, Dorchester. District 6, Charlestown. District 7, Brighton. District 8, West Roxbury. District 9, Hyde Park.

* Contracts awarded.

† Districts Nos. 1, 6, 7, $5.94 on auditor's copy only.

‡ Proposal not to be considered. Placed in wrong box and not discovered until comparison with auditor's copy.

CLAIMS ALLOWED.

The Mayor upon recommendation of the Corporation Counsel has approved the following claims:

Edward Drake, 113 Brighton avenue, Allston, in the sum of $1.10, as refund on ten unused refuse tickets which were returned to the Public Works Department in March, 1934.

Andrew J. Moynihan, 69½ Wyman street, Jamaica Plain, in the sum of $15, as compensation for damage to automobile caused by hole in highway in front of 2020 Columbus avenue, Roxbury, January 6, 1934.

NEWTON REDUCES WATER RATES.

The city of Newton reduced its water rates 10 per cent in 1932, from 25 to 22.5 cents per 100 cubic feet, and for 1934 has reduced them 11.5 per cent, to a flat price of 20 cents per 100 cubic feet. This reduction was made possible by savings effected by reorganizing the administration and maintenance methods and equipment of the department before and since the beginning of the city's "four-year plan" of water development in 1931.

PROCEEDINGS OF CITY COUNCIL.

Monday, May 21, 1934.

Regular meeting of City Council in the Council Chamber, City Hall, at 2 p. m., President DOWD in the chair. Absent, Coun. Gallagher.

APPOINTMENTS BY THE MAYOR.

Subject to confirmation by the Council, the Mayor submitted the following appointments, viz.:

Weigher of Goods: Frank W. Roberts, 10 Gloria road, West Roxbury.

Weighers of Coal: Sandford H. Belyea, 403 Highland avenue, West Somerville; Charles M. Wilson, 69 Putnam avenue, Cambridge.

Weigher of Coal and Measurer of Wood: Harry W. Dienst, 103 Colby road, North Quincy.

Severally laid over a week under the law.

SUFFOLK COUNTY BUDGET.

The following was received:

Office of the Mayor,
Boston, May 21, 1934.

To the City Council.

Gentlemen,—I submit herewith my budget recommendations for the County of Suffolk for the fiscal year 1934 in full segregated form in substitution for the lump sum recommendations submitted on January 29, 1934.

The allowances as recommended total $3,316,333.34. This total represents a reduction of $217,236.20 in the departmental estimates as originally submitted by county officials and is $158,407.62 less than the total appropriations made for county purposes in 1933. The following table indicates in comparative form the main points of difference between last years' appropriations and my budget recommendations for the current year.

TWO-YEAR SUMMARY OF BUDGET APPROPRIATIONS BY GROUPS.

GROUPS.	1933.	1934.	Reduction.
Personal Service	$2,017,876 10	$1,917,673 22	$100,202 88
Service Other than Personal	841,152 30	756,126 80	85,025 50
Equipment	70,699 25	73,202 55	* 2,503 30
Supplies	257,377 00	284,911 08	* 27,534 08
Materials	38,195 00	37,160 00	1,035 00
Special Items	82,040 81	75,974 52	6,066 29
Miscellaneous	8,435 00	7,910 00	525 00
Emergency Relief Projects	—	10,000 00	* 10,000 00
Special Appropriations	1,000 00	1,000 00	—
	$3,316,775 46	$3,163,958 17	$152,817 29
Debt Requirements	157,965 50	152,375 17	5,590 33
	$3,474,740 96	$3,316,333 34	$158,407 62

* Increase.

The following explanations are offered in connection with the changes indicated in the foregoing table within the various budget groups:

PERSONAL SERVICE.

Appropriations for pay roll purposes in the various departments and divisions of the county service are approximately $100,000 less than similar appropriations in 1933. The distribution of this reduction under the three items in this group is shown in the following table:

Permanent employees	$94,755 89
Temporary employees	5,440 49
Unassigned	6 50
	$100,202 88

An analysis of the decrease shown under the item permanent employees indicates the following distribution of the total reduction indicated:

Salary decreases		$86,906 90
Positions allowed to remain vacant		14,065 36
Classification Plan savings		1,806 63
		$102,778 89
Overlay	$5,743 00	
Transfers from A-2	2,280 00	
		8,023 00
		$94,755 89

The reductions ranging from 5 per cent to 15 per cent in the salaries and wages of county employees, which were put into effect on April 21 of last year, were continued by executive order for the entire fiscal year of 1934. Being effective, therefore, for a full year in 1934 as against approximately two-thirds of the year 1933, additional savings are naturally reflected in the 1934 appropriations for permanent pay roll requirements in the various county departments. The total of these additional savings as reflected in the foregoing table is approximately $87,000. Through the cooperative action of the heads of several county departments, positions which became vacant since the adoption of the 1933 budget have been allowed to remain unfilled, thus permitting reductions totaling approximately $14,000 in the pay roll appropriations of these departments. Under the provisions of the County Classification and Compensation Plan, whereby sliding scales have been established for various classes of positions, it is necessary when appointments are made to fill vacancies that the new appointees start at the minimum salary fixed for the particular class of position rather than at the rate received by the original incumbent of the position. It is estimated that the application of this rule has resulted in a reduction of pay roll appropriations in the budget of the current year of approximately $1,800. The savings which it is estimated have been secured under the three items just discussed total approximately $102,800. This total saving has been offset partially by an item of overlay, estimated at approximately $5,700, and transfers to the A-1 item of positions totaling $2,280, which were formerly charged against the A-2 item. The item of overlay represents the additional cost which it is necessary to provide for in the 1934 budget as a result of personnel changes made during the course of the year 1933. Since these changes were effective for only a portion of last year, it is only natural that on a full year basis increased appropriations are required. The positions transferred from item A-2 are positions of a permanent character, and, therefore, are proper charges against the item for permanent employees.

The reduction indicated at the beginning of this section in the appropriations for temporary employees has been occasioned, first, by the transfer of charges totaling $2,280 to item A-1, and savings of $3,160.49 resulting from the fact that salary reductions during 1934 are effective for a full year as against only a portion of the year 1933.

SERVICE OTHER THAN PERSONAL.

Appropriations to compensate firms, corporations and individuals, outside of the regular county personnel, for services rendered to county departments show a decrease of approximately $85,000 from similar appropriations in 1933.

The following item changes are responsible in the main for this reduction. In the early part of May last year, a law reducing the compensation of jurors was enacted by the Legislature. The savings resulting from this legislation were effective for approximately two-thirds of the year 1933. It is estimated that the additional one-third saving which will be available this year, owing to the fact that the reduced rates will be in effect for a full calendar year, will result in a reduction of at least $30,000 in payments by the city to jurors. In addition, due to the cooperation of the officials of the Superior Court, in keeping the number of venires at the lowest possible figure, further savings of $25,000 are estimated, making a total reduction in the item of $55,000. On the basis of the expenditures of last year, a reduction of approximately $27,000 has been made in the estimates of various county departments for the payments of fees. General plant repairs show a reduction of $8,500 over last year, due mainly to the fact that it has been possible under C. W. A. projects to take care of certain repairs and improvements which would ordinarily be charged against this item. Appropriations for electrical current consumed in the lighting of county offices show a reduction of approximately $1,400 because of the cooperative efforts on the part of county officials to keep electric light bills down to a reasonable minimum. As an offset to these reductions, appropriations for the printing and binding of county forms and records show an increase of approximately $11,100 over the appropriations of 1933. This increase is occasioned by the fact that last year appropriations under this item were refused several county departments by your honorable body. Because of this refusal it was necessary, at the close of 1933, to provide for the expenditures of these county offices in this respect by transfer from available balances. There can be no question but what the printing of forms and records is a necessary county expense, and since it appears the city is powerless to require that such printing shall be done exclusively in the City Printing Plant, there is no course open but to make available the appropriations required under this item.

EQUIPMENT.

Allowances for the purchase of necessary equipment in county departments show an increase of approximately $2,500 over similar allowances in 1933. At the Jail and House of Correction, approximately $5,000 additional has been allowed this year for new machinery in order to permit, at the first institution, the purchase of a new washing machine to replace one obsolete and worn out; and at the latter institution, the purchase of a concrete mixer and road machinery in order to put the roads at Deer Island in proper condition. Because of the issuance of a new edition of the "Massachusetts Digest," it has been necessary this year to increase the library appropriations at the several courts by approximately $750. At the House of Correction, because of increased population and an increase in the cost of clothing, it has been necessary to provide an increase of $2,000 in the item for wearing apparel. In several of the courts it has been necessary to provide additional appropriations of approximately $900 to cover the replacement of typewriters and office machines which have become obsolete. As a partial offset to these increases, there is found a reduction of approximately $1,500 in the appropriations for electrical equipment at the Court House, Jail and House of Correction. A reduction of approximately $1,100 has been made in various departmental allowances for tools and instruments Appropriations for furniture and fittings, principally at the Court House, show a reduction of close to $1,000. Smaller reductions, totaling in the aggregate $2,300, have been made in the motor vehicle, marine, medical and live stock items.

SUPPLIES.

Appropriations for the purchase of supplies required in the maintenance and operation of county departments are approximately $27,500 in excess of similar appropriations for the previous year. This increase may be attributed to two factors: first, the rise in commodity prices which has taken place in recent months, and secondly, the fact that last year your honorable body did not see fit to make appropriations in four county departments for office supplies, because the heads of these departments would not agree to purchase such supplies from the City Printing Plant. It is evident, however, from the experience of 1933 that, without legislation, the city is powerless to insist that the facilities of the City Printing Plant be completely utilized by county officials. Since it would appear that the purchase of office forms and supplies is necessary for the proper functioning of the courts and county offices, there is no alternative but to provide the necessary appropriations for this purpose.

MATERIALS.

The slight reduction indicated in this group may be attributed to the fact that work on C. W. A. projects has lessened the necessity for the purchase of repair parts and materials.

SPECIAL ITEMS.

The reduction of approximately $6,000 indicated in this group has been made possible largely by the fact that the demise of several retired county employees has resulted in the removal of their names from the pension rolls of the county.

EMERGENCY RELIEF PROJECTS.

Since the 15th of February it has been necessary under all Federal Emergency Relief projects for the city to provide for all expenditures other than those for pay rolls. The appropriation which is indicated under this group has been allocated to the Public Buildings Department, and will be used for the purchase of materials and supplies and the liquidation of miscellaneous expenses arising from various repair projects carried forward in the county buildings which come under the control of this department.

DEBT REQUIREMENTS.

The fact that no debt has been issued in recent years for county purposes results in a natural reduction in the appropriations which must be made during the current year for the redemption of, and interest payments on, outstanding issues of county debt.

CONCLUSION.

In accordance with a Council order adopted on March 26 of this year, there is submitted with the

budget recommendations a tabulation showing for all county departments 1924 expenditures, 1933 expenditures, 1934 requests, and 1934 recommendations. In addition, a table showing a comparison of expenditures by items in 1924 and 1933 with item allowances for the current year, and another table showing the titles of positions, number and rates in the various county departments, are also submitted. It is believed that this statistical material will be of assistance to the Council in its consideration of county budget recommendations for the year 1934. In conclusion, I respectfully recommend adoption of the accompanying appropriation orders by your honorable body.

Respectfully,
FREDERICK W. MANSFIELD, Mayor.

VETOES OF SIDEWALK ORDERS.

The following were received:

City of Boston,
Office of the Mayor, May 21, 1934.

To the City Council.

Gentlemen,—I return herewith without my signature and with my disapproval the order adopted by your honorable body on May 7, 1934, for the making of a sidewalk along Duncan street in Ward 15.

According to the report of the Commissioner of Public Works which is submitted herewith, there are at the present time gravel sidewalks on both sides with a granite block hip gutter and I am informed that these sidewalks are in good condition. In addition to that the cost of constructing artificial stone sidewalks with granite edgestones would cost approximately $4,500 for which there is no appropriation this year.

In view of these facts and the financial condition of the city at the present time I must disapprove of this order.

Respectfully,
FREDERICK W. MANSFIELD, Mayor.

—

City of Boston,
Public Works Department,
May 12, 1934.

Mr. John F. Gilmore, Jr.,
Assistant Secretary, Mayor's Office.

Dear Sir,—I beg leave to return sidewalk construction (lien order) for granolithic sidewalks with granite edgestone on Duncan street, entire length, both sides, and to state that Duncan street, at the present time, has gravel sidewalks on both sides with a granite block hip gutter. To construct artificial stone sidewalks with granite edgestone will cost approximately $4,500.

There is no appropriation this year to permit the construction of any granolithic sidewalks.

Respectfully,
C. J. CARVEN,
Commissioner of Public Works.

—

City of Boston,
Office of the Mayor, May 21, 1934.

To the City Council.

Gentlemen,—I return herewith without my signature and with my disapproval the order adopted by your honorable body on May 7, 1934, for the making of a granolithic sidewalk with granite edgestones on Frederick street.

The report of the Commissioner of Public Works which is submitted herewith, shows that Frederick street is not a through street and that there is now a four-foot brick sidewalk with a granite edgestone. The brick sidewalk will be relaid by the department and when this is done the sidewalk will be adequate.

As there is no appropriation this year for work of this kind which would cost about $600 and in view of the financial condition of the city, I disapprove of this order.

Respectfully,
FREDERICK W. MANSFIELD, Mayor.

—

City of Boston,
Public Works Department,
May 12, 1934.

Mr. John F. Gilmore, Jr.,
Assistant Secretary, Mayor's Office.

Dear Sir,—I beg leave to return sidewalk construction (lien order) for granolithic sidewalks with granite edgestone on Frederick street, entire length, both sides, and to state that Frederick street is a dead-end street about 239 feet in length, with a granite edgestone and a four-foot brick sidewalk. The brick sidewalk needs relaying and the department will relay the present brick sidewalk using the same or new bricks.

Considering that this street is very little traveled and then only by the occupants of ten or twelve houses on the street it is inadvisable to consider constructing artificial stone sidewalks. The estimated cost will be about $600.

There is no appropriation this year to permit the construction of any granolithic sidewalks.

Respectfully,
C. J. CARVEN,
Commissioner of Public Works.

—

City of Boston,
Office of the Mayor, May 21, 1934.

To the City Council.

Gentlemen,—I return herewith without my signature and with my disapproval the order adopted by your honorable body on May 7, 1934, for the making of a granolithic sidewalk along Corey street, from Weld street to the new boulevard.

The report of the Commissioner of Public Works which is submitted herewith, shows that there is a gravel sidewalk now on one side of Corey street with no sidewalk on the other side, and that new artificial stone walks with granite edgestones would cost approximately $6,400.

There is no appropriation for such work this year and in view of the financial condition of the city I am compelled to disapprove of this order.

Respectfully,
FREDERICK W. MANSFIELD, Mayor.

—

City of Boston,
Public Works Department,
May 12, 1934.

Mr. John F. Gilmore, Jr.,
Assistant Secretary, Mayor's Office.

Dear Sir,—I beg leave to return sidewalk construction (lien order) for granolithic sidewalks with granite edgestone on Corey street, from Weld street to the new boulevard, entire length, both sides, and to state that there is at the present time a gravel sidewalk on one side of Corey street, and no sidewalk on the other side.

To construct new artificial stone walks with granite edgestone will cost approximately $6,400. There is no appropriation this year to permit the construction of any granolithic sidewalks.

Respectfully,
C. J. CARVEN,
Commissioner of Public Works.

—

City of Boston,
Office of the Mayor, May 21, 1934.

To the City Council.

Gentlemen,—I return herewith without my signature and with my disapproval the order adopted by your honorable body on May 7, 1934, for the making of a granolithic sidewalk on Weld street, from Maple to Corey street, on both sides.

The report of the Commissioner of Public Works, which is submitted herewith, shows there is a gravel sidewalk on both sides of Weld street a part of the distance and that for the remainder pedestrians are compelled to walk in the roadway. It also appears that sidewalks with granite edgestones would cost approximately $6,700, for which there is no appropriation.

In view of the financial condition of the city and of this report I am compelled to disapprove of this order.

Respectfully,
FREDERICK W. MANSFIELD, Mayor.

City of Boston,
Public Works Department,
May 12, 1934.

Mr. John F. Gilmore, Jr.,
Assistant Secretary, Mayor's Office.

Dear Sir,—I beg leave to return sidewalk construction (lien order) for granolithic sidewalks with granite edgestone on Weld street, from Maple street to Corey street, entire length, both sides, and to state that at the present time there is a gravel sidewalk on both sides of Weld street, between Ruskin street and Maple street. Between Ruskin and Corey streets there is no sidewalk and pedestrians are compelled to walk in the roadway. The construction of sidewalks with granite edgestone, as requested, will cost approximately $6,700.

There is no appropriation this year to permit the construction of any granolithic sidewalks.

Respectfully,
C. J. CARVEN,
Commissioner of Public Works.

—

City of Boston,
Office of the Mayor, May 10, 1934.

To the City Council.

Gentlemen,—I am returning herewith without my signature and with my disapproval an order adopted by your honorable body on April 30, requiring the Commissioner of Public Works to make a sidewalk in front of property at 23 Kingsdale street, Ward 14.

It appears from the report of the Commissioner of Public Works, copy of which I also transmit herewith, that there is sufficient artificial stone sidewalk in front of this property, the condition of which is good, and that there is no money available in the Public Works appropriation to cover the cost of this construction. Under these conditions I am compelled to disapprove the order.

Respectfully,
FREDERICK W. MANSFIELD, Mayor.

—

City of Boston,
Public Works Department,
May 7, 1934.

John F. Gilmore, Jr.,
Assistant Secretary, Mayor's Office.

Dear Sir,—Reporting on the order of the City Council dated April 23, sidewalk construction (lien order) in front of property at 23 Kingsdale street, Ward 14, beg leave to state that at the present time there is a single slab artificial stone sidewalk in front of this property for a length of about eighty feet, but there is no edgestone. The condition of the sidewalk is good.

If a curb is put in it will be necessary to relay the present walk, due to the fact that ordinarily the grade of the edgestone does not conform to the existing artificial stone walk. The cost of furnishing and laying the edgestone will be about $1.25 a linear foot, that together with the laying of a new sidewalk will make a total of approximately $230. There is no money available in the public works appropriation for the artificial stone sidewalk construction.

Respectfully,
C. J. CARVEN,
Commissioner of Public Works.

—

City of Boston,
Office of the Mayor May 11, 1934.

To the City Council.

Gentlemen,—I am returning herewith without my signature and with my disapproval an order adopted by your honorable body on April thirtieth requiring the Commissioner of Public Works to make a sidewalk along Floyd street, from Blue Hill avenue to Lucerne street.

It appears, from the report of the Commissioner of Public Works, a copy of which I also transmit herewith, that the reconstruction of this sidewalk would cost $1,200, and that there are no funds available at the present time in the Public Works Department budget for the work.

It also appears from this report that Floyd street is already supplied with artificial stone sidewalks on both sides with the exception of about 120 linear feet on the southeasterly corner of Floyd street and Blue Hill avenue and that this short length is supplied with a gravel sidewalk. It also appears that the sidewalk is in good condition. Under these conditions I cannot approve this order.

Yours truly,
FREDERICK W. MANSFIELD, Mayor.

—

City of Boston,
Public Works Department,
May 3, 1934.

Hon. F. W. Mansfield,
Mayor of Boston.

Dear Sir,—Beg leave to acknowledge receipt of an order of the City Council dated April 23, 1934, reading:

"Sidewalk construction (lien order), Floyd street, from Blue Hill avenue to Lucerne street, Ward 14."

The length of Floyd street is 1,700 linear feet long with artificial stone sidewalks on both sides with the exception of a length of 120 linear feet on the southeasterly corner of Floyd street and Blue Hill avenue, this short length being a gravel sidewalk. With the exception of six or seven blocks the present granolithic sidewalks are in good condition. To reconstruct the present sidewalk as requested would cost $1,200, and there

are no funds available at the present time for this construction in the Public Works Department budget.

Respectfully,
C. J. CARVEN,
Commissioner of Public Works.

—

City of Boston,
Office of the Mayor, May 21, 1934.

To the City Council.

Gentlemen,—The report of the Public Works Commissioner upon the order adopted by your honorable body on May 7, 1934, calling for the construction of an artificial stone sidewalk on Adams street, from Gallivan Boulevard to Pierce square, which I submit herewith, shows that this street is included in the list of streets to be constructed under the loan obtained from the Federal Government and that the construction will go forward this year.

For this reason I am returning the order of the Council without my signature and with my disapproval.

Respectfully,
FREDERICK W. MANSFIELD, Mayor.

—

City of Boston,
Public Works Department,
May 12, 1934.

Mr. John F. Gilmore, Jr.,
Assistant Secretary, Mayor's Office.

Dear Sir,—I beg leave to return sidewalk construction (lien order) for artificial stone sidewalks with granite edgestone on Adams street, both sides, between Gallivan Boulevard to Pierce square, and to state that Adams street is included in the list of ten streets to be constructed under the $1,000,000 loan of the Federal Emergency Administration of Public Works, and that this construction will go forward this year.

One of the items of the project calls for 49,000 square feet of artificial stone sidewalk, which will cover the request of the City Council.

Respectfully,
C. J. CARVEN,
Commissioner of Public Works.

Severally placed on file.

HARVARD ROAD, WARD 14.

The following was received:

City of Boston,
Office of the Mayor, May 18, 1934.

To the Honorable City Council.

Gentlemen,—I herewith transmit a letter from the Board of Street Commissioners, relative to your order of April 30, 1934, concerning the acceptance and laying out of Harvard road, Ward 14, as a public highway.

Respectfully,
FREDERICK W. MANSFIELD, Mayor.

—

City of Boston,
Board of Street Commissioners,
May 16, 1934.

Hon. Frederick W. Mansfield,
Mayor of Boston.

Dear Sir,— Inclosed please find copy of order passed by the City Council on April 30, 1934, requesting the acceptance and laying out of Harvard road, Ward 14, as a public highway.

Councilor Goldman has been informed that this matter must take its place along with many other similar requests and petitions awaiting a decision on just how much new street construction may be undertaken during 1934. When that question is settled the acceptance and laying out of Harvard road will receive consideration.

Respectfully,
OWEN A. GALLAGHER, Chairman.

Placed on file.

IOLA STREET, WARD 14.

The following was received:

City of Boston,
Office of the Mayor, May 18, 1934.

To the Honorable City Council.

Gentlemen,—I transmit herewith a letter from the Board of Street Commissioners relative to your order of May 7, 1934, concerning the acceptance and laying out of Iola street, Ward 14, as a public highway.

Respectfully,
FREDERICK W. MANSFIELD, Mayor.

—

City of Boston,
Board of Street Commissioners,
May 16, 1934.

Hon. Frederick W. Mansfield,
Mayor of Boston.

Dear Sir,—I am returning inclosed a copy of an order passed by the City Council on May 7, 1934, requesting the acceptance and laying out of Iola street as a public highway.

There is a petition pending in this department for the laying out of this street, but as yet no plans have been made by the Engineering Division. This is one of many such matters now pending before the Board which must stand in abeyance until the amount of money available for new street construction is determined.

Respectfully,
OWEN A. GALLAGHER, Chairman.

Placed on file.

COREY STREET, WARD 20.

The following was received:

City of Boston,
Office of the Mayor, May 18, 1934.

To the Honorable City Council.

Gentlemen,—I transmit herewith a letter from the Board of Street Commissioners, relative to your order of May 7, 1934, concerning the widening of Corey street, between Weld street and the new boulevard, Ward 20.

Respectfully,
FREDERICK W. MANSFIELD, Mayor.

—

City of Boston,
Board of Street Commissioners,
May 16, 1934.

Hon. Frederick W. Mansfield,
Mayor of Boston.

Dear Sir,—I am returning herewith a copy of an order passed by the City Council on May 7, 1934, requesting the widening of Corey street, between Weld street and the new boulevard, Ward 20.

After investigation into this matter it is my opinion that Corey street is of sufficient width at the present time, and that this department could not justify the added expense involved in the suggested project.

Respectfully,
OWEN A. GALLAGHER, Chairman.

Placed on file.

WELD STREET, WARD 20.

The following was received:

City of Boston,
Office of the Mayor, May 18, 1934.

To the Honorable City Council.

Gentlemen,—I transmit herewith a letter from the Board of Street Commissioners, relative to your order of May 7, 1934, concerning the widening of Weld street, between Maple and Corey streets, Ward 20.

Respectfully,
FREDERICK W. MANSFIELD, Mayor.

—

City of Boston,
Board of Street Commissioners,
May 16, 1934.

Hon. Frederick W. Mansfield,
Mayor of Boston.

Dear Sir,—I am returning herewith a copy of an order passed by the City Council on May 7, 1934, requesting the widening of Weld street, between Maple and Corey streets, Ward 20.

After investigation of this matter I find that this proposed widening has already been considered by this department and plans are in the making but not as yet completed. Whether or not this project will reach its completion in the near future will require further consideration by the present Board of Street Commissioners, and will depend upon the amount of money made available for new street construction during the current year.

Respectfully
OWEN A. GALLAGHER, Chairman.

Placed on file.

RECREATION PIER.

The following was received:

City of Boston,
Office of the Mayor, May 18, 1934.

To the Honorable City Council.

Gentlemen,—I transmit herewith a letter from the Park Department, relative to your order of April 30, 1934, concerning an arrangement under the F. E. R. A. for the building of a recreation pier at the site of the North Ferry slip in Ward 1, East Boston.

Respectfully,
FREDERICK W. MANSFIELD, Mayor.

—

City of Boston,
Park Department, May 17, 1934.

Hon. Frederick W. Mansfield,
Mayor of Boston.

Dear Sir,—I am in receipt of an order from the City Council that the Park Commissioner be requested to arrange under the F. E. R. A. for the building of a recreation pier at the site of the North Ferry slip in Ward 1, East Boston.

Under the F. E. R. A. no land can be taken or purchased for any purpose. In order to develop a recreation pier and small playground on the site of the North Ferry slip, it would be necessary to acquire approximately 31,600 feet of land from the coal company adjoining. This is only a portion of the 127,925 square feet owned by this company. The land in question is not being used at the present time.

I am respectfully submitting the following report on the approximate cost of building a recreation spot as requested in the Council Order:

31,600 square feet of land	$33,100
Valuation of buildings on this land which would have to be taken down	42,500
New decking for coal company and city ferry wharf area	20,000
Shelters, swings, seats	2,500
Repairs to ferry house	3,000
Fences, railings, etc	2,000
	$103,100

These figures are based on the assessed valuation of the land and the approximate assessed valuation of the buildings. The cost of the construction is based on the cost of the materials and the labor to be furnished by the F. E. R. A.

It would be necessary to get a portion of the coal company's property as it has a frontage on Border street, said street would then be abandoned between Sumner street and the ferry slip. After completion, the city would have about 60,600 square feet of land which could be used for recreation purposes.

The present buildings on the coal company's property and on the city's property are of third-class wooden construction and very old, and in their present condition and isolated location are a distinct fire menace. Our plans call for the demolition of most of the coal company's buildings, coal pockets, sheds, etc., as they would have no value for recreation purposes. The ferry building would remain as a recreation building, but would have to be altered for recreation purposes — even then it would be necessary to keep a twenty-four hour watch on it to prevent some one from setting it afire.

Very respectfully yours,
WILLIAM P. LONG,
Chairman.

Placed on file.

LAND FOR WEST ROXBURY HIGH SCHOOL.

The following was received:

City of Boston,
Office of the Mayor, May 21, 1934.

To the City Council.

Gentlemen,—Under date of February 26, 1934, your honorable body approved the issuance of a loan of $2,000,000 for the construction of a new high school in the West Roxbury district and a new intermediate school in the South Boston district, said construction to be a part of the program of public works to be undertaken by the city in connection with the P. W. A. program of the Federal Government. In recent weeks a comprehensive survey has been made in the West Roxbury district to determine the most desirable location upon which to construct the new high school. Because of existing economic conditions all parties concerned in this survey have reached the conclusion that a tract of land, now owned by the city and forming a portion of the Fallon Field Playground, is ideally suited as a location for the new high school.

This tract, containing approximately two and one-quarter acres of land, is centrally located between Jamaica Plain and West Roxbury and is accessible by three street car lines and one bus line. I am informed by the chairman of the Park Commissioners that the land in question is no longer needed for playground purposes, since the enlarging of the baseball field and the providing of adequate seating capacity at Fallon Field have been accomplished.

Under existing statute approval of the Legislature must be secured before land purchased for park purposes may be used for any other purpose. Because of this fact I am submitting herewith an order requesting the Corporation Counsel to prepare and submit to the General Court the necessary legislation. Since the regular time for filing legislation has expired it will be necessary to request the Committee on Rules at the State House to admit the city's petition under suspension of the rules.

The West Roxbury district is today one of the most important residential sections of the city. Because there are no secondary school accommodations available at the present time in the district children of high school age residing therein are forced to attend either the Jamaica Plain or one of the central high schools. There can be no question but what the construction of a high school in the West Roxbury district constitutes a most necessary and desirable public improvement. The fact that city owned land is not only available but suitable as a location for the new school means a lessening in the cost of construction to be borne by the city. Furthermore, utilization of this land in the manner proposed will in no way curtail or interfere with playground activities at Fallon Field. There is, in fact, every reason to believe that the erection of the school on the proposed site will greatly increase the use of the facilities of this playground.

In order that there may be no undue delay in proceeding with the construction of this worthwhile public improvement, I respectfully recommend prompt consideration of and action on the accompanying order by your honorable body.

Respectfully,
FREDERICK W. MANSFIELD, Mayor

—

Ordered, That the Corporation Counsel, through his Honor the Mayor, be authorized to prepare and submit to the General Court a petition, with an accompanying bill, authorizing the transfer from the Park Department of a portion, approximately two and one-quarter acres, of land known as Fallon Field and now used for park and playground purposes, to the School Committee, to be used for school and schoolyard purposes, upon such terms as shall be agreed upon by the Park Commissioners and the School Committee.

Referred to Executive Committee. Later in the session the following was received:

City of Boston,
Office of the Mayor, May 21, 1934.

To the City Council.

Gentlemen,—I am in receipt of further information from Park Commissioner Long relative to the transfer of part of Fallon Field from the Park Department to the School Department which makes it advisable for me to withdraw the order which I submitted to your honorable body.

With your permission I wish to withdraw the order and I will communicate with you about it at a later time.

Respectfully,
FREDERICK W. MANSFIELD, Mayor.

Placed on file.

MONTHLY REPORT WELFARE DEPARTMENT.

The following was received:

City of Boston,
Office of the Mayor, May 17, 1934.

To the Honorable City Council.

Gentlemen,—I transmit herewith a letter from the Overseers of Public Welfare, relative to your order of January 22, 1934, concerning a monthly report of certain statistical information.

Respectfully,
FREDERICK W. MANSFIELD, Mayor.

—

City of Boston,
Overseers of the Public Welfare,
May 15, 1934.

Hon. Frederick W. Mansfield,
Mayor of Boston.

Dear Sir,—Replying to the City Council order dated January 22, 1934, requesting that the Board of Overseers of the Public Welfare be requested to furnish the City Council monthly, as soon as may be after the end of each month, beginning with the month of January, certain statistical information, the following statement is respectfully submitted.

1.

Case load at the end of the month of April.

Answer.

Number of cases being aided at end of April:

Dependent aid	26,167
Mothers' aid	1,492
Old age assistance	3,830
Total	31,489

2.

The number of recipients of aid dropped from the rolls during the month of April.

Answer.
1,442

3.

The number of recipients of aid added to the rolls during the month of April.

Answer.
2,086

4.

The expenditure for the month for (*a*) care of dependents, (*b*) mothers' aid, and (*c*) old age assistance.

Answer.

Expenditures for the month of April:

Dependent aid	$831,010 00
Mothers' aid	92,827 77
Old age assistance	107,302 77
Total	$1,031,140 54

Respectfully,
WALTER V. McCARTHY,
Executive Director.

Placed on file.

DUMP PERMITS, WARD 16.

The following was received:

City of Boston,
Office of the Mayor, May 17, 1934.

To the Honorable City Council.

Gentlemen,—I transmit herewith a letter from the Health Commissioner, relative to your order of April 30, 1934, concerning the revocation of dump permits on Hallet street and at Tenean Beach, Ward 16.

Respectfully,
FREDERICK W. MANSFIELD, Mayor.

—

City of Boston,
Health Department, May 15, 1934.

Hon. Frederick W. Mansfield,
Mayor of Boston.

Dear Sir,—

Subject: City Council's request that Health Commissioner "revoke the dump permits issued to J. P. McCabe Company."

The J. P. McCabe Company holds no permit for a dump or for anything else from the Health Department. This company has a contract with the City of Boston for the removal of certain household wastes in the Dorchester district. The contract was made by the Commissioner of Public Works with the approval of the Mayor and Council.

The Health Department issues "dump permits" only to private owners of land. The owner of the land only is responsible for the observance of conditions of the permit, one of which is that the dump shall be kept in a "cleanly condition."

The Health Department has issued a permit to John P. Riley as owner of vacant land at Hallet street, Ward 16, to "dump ashes and house refuse" there. This is presumably the location referred to in the Council's order. Any arrangement which the McCabe Company or other persons may have to dump material there are made by them with the owners of the land.

The condition of this land has been receiving the attention of the Health Department ever since the permit to dump there was issued, and recently the owners were warned that unless there was a more consistent observance of the conditions of their permit it would be revoked without further notice. As the result of our insistence conditions at this location are being steadily improved and for this reason a revocation of the permit at the present time is deemed inadvisable.

In this connection it is to be observed that the granting of a permit for a dump is not to be regarded merely as a concession to an owner of vacant land who wants to improve it. Until expensive incineration plants are constructed, the City of Boston must rely on the present methods of disposing of the refuse of its 800,000 people and it is becoming more and more difficult to find vacant areas within the city or its vicinity on which to dispose of refuse. It is either dumps or incineration for Boston. Both have objectionable features which at the best cannot be eliminated. Those of an incineration plant continue indefinitely. An incineration plant is of no local benefit. A dump after two or three years of local annoyance increases the value of all the land in the vicinity besides eliminating the mosquito and other perennial nuisances incident to low land where water may collect. Some of the most valuable land in Boston was once a dump.

In the disposal of the refuse of a large city there are bound to be offensive features which cannot be avoided and which may be expected to give rise to complaint. This fact has recently been recognized by the Federal Courts in dismissing suits for damages brought by property owners in New Jersey against the City of New York because of disagreeable odors carried high in the air from incineration plants in Manhattan.

The dump at Tenean Beach is on city land under the jurisdiction of the Park Department. The Park Department has no permit from the Health Department to dump any material there.

Our supervisor in that district, Mr. Berrigan, reports that the McCabe Company has dumped no rubbish at Tenean Beach since May 3, 1934.

Respectfully,
F. X. MAHONEY,
Health Commissioner.

Placed on file.

CITY HOSPITAL EMPLOYEES.

The following was received:

City of Boston,
Office of the Mayor, May 14, 1934.

To the City Council.

Gentlemen,—I inclose herewith the reply of the President of the Board of Trustees of the Boston City Hospital giving certain information requested by your honorable body relative to whether or not the services of certain employees were necessary to the hospital.

Respectfully,
FREDERICK W. MANSFIELD, Mayor.

—

City of Boston,
Hospital Department, May 4, 1934.

Hon. Frederick W. Mansfield,
Mayor of Boston.

Dear Mr. Mayor,—At a meeting of the Board of Trustees held today, an order of the City Council was presented whereby the trustees are requested, through his Honor the Mayor, to inform the City Council as to whether the persons whose services have recently been dispensed with are necessary for the operation of the hospital.

On the recommendation of the various heads of departments, the trustees were informed that the services of the temporary people recently placed on furlough were not necessary, particularly the large group in the Plant Superintendent's Department, because of the work performed by the C. W. A. and E. R. A.

Yours sincerely,
JOSEPH P. MANNING,
President, Board of Trustees.

Placed on file.

REMOVAL OF TREE.

The following was received:

City of Boston,
Office of the Mayor, May 11, 1934.

To the Honorable City Council.

Gentlemen,—I transmit herewith a letter from the Park Department, relative to your order of May 7, 1934, concerning the removal of a tree at 43 Boylston street, Ward 19.

Respectfully,
FREDERICK W. MANSFIELD, Mayor.

City of Boston,
Park Department, May 10, 1934.

Hon. Frederick W. Mansfield,
Mayor of Boston.

Dear Sir,—I am in receipt of an order from the City Council, that the Park Commission be requested to remove a tree at 43 Boylston street, Ward 19.

The tree in question is a live tree, with the exception of a few branches which will be removed. The tree is in good condition.

Under the Special Acts of 1915, live trees on city streets cannot be removed except where it interferes with the growth of another tree, or when it endangers the lives of the public.

Very respectfully yours,
WILLIAM P. LONG,
Chairman.

Placed on file.

HANDBALL COURTS, MT. IDA PLAYGROUND.

The following was received:

City of Boston,
Office of the Mayor, May 11, 1934.

To the Honorable City Council.

Gentlemen,—I transmit herewith a letter from the Park Department, relative to your order of April 30, 1934, concerning provisions for the erection of two handball courts at Mt. Ida Playground, Dorchester.

Respectfully,
FREDERICK W. MANSFIELD, Mayor.

—

City of Boston,
Park Department, May 9, 1934.

Hon. Frederick W. Mansfield,
Mayor of Boston.

Dear Sir,—I am in receipt of an order from the City Council that the Park Commission be requested to provide for the erection of two handball courts at Mt. Ida Playground, Dorchester.

I regret exceedingly to inform you that the Board of Park Commissioners feel it is very inadvisable to build outside handball courts on account of sanitary reasons. In the present instance the cost would be in the vicinity of $1,000 and the department has not the available funds.

Very respectfully yours,
WILLIAM P. LONG, Chairman.

Placed on file.

SHOWER BATHS, CHARLESTOWN PLAYGROUNDS.

The following was received:

City of Boston,
Office of the Mayor, May 11, 1934.

To the Honorable City Council.

Gentlemen —I transmit herewith a letter from the Park Department, relative to your order of May 7, 1934, concerning the furnishing of hot water for the summer for shower baths on all Charlestown playgrounds.

Respectfully,
FREDERICK W. MANSFIELD, Mayor.

—

City of Boston,
Park Department, May 10, 1934.

Hon. Frederick W. Mansfield,
Mayor of Boston.

Dear Sir,—I am in receipt of an order from the City Council requesting that the Park Commission furnish hot water for the summer for shower baths on all Charlestown playgrounds.

I wish to assure you that every consideration will be given this Council order.

Very respectfully yours,
WILLIAM P. LONG, Chairman.

Placed on file.

BELDEN STREET, WARD 7.

The following was received:

City of Boston,
Office of the Mayor, May 14, 1934.

To the Honorable City Council.

Gentlemen,—I transmit herewith a letter from the Boston Traffic Commission, relative to your order of April 2, 1934, concerning making Belden street, Ward 7, a one-way thoroughfare, from Dudley to Holden streets.

Respectfully,
FREDERICK W. MANSFIELD, Mayor.

—

City of Boston,
Traffic Commission, May 14, 1934.

Hon. Frederick W. Mansfield,
Mayor of Boston.

Dear Sir,—I have the honor to acknowledge receipt of Council order dated April 2, 1934, which reads as follows:

Ordered, That the Traffic Commissioner be requested, through his Honor the Mayor, to make Belden street, Ward 7, a one-way thoroughfare, from Dudley to Holden streets.

On advice of the Traffic Commission, Councilor Kerrigan, on May 10, made another request in place of the above Council order, which will be considered at the next meeting of the Traffic Commission.

Very truly yours,
WILLIAM P. HICKEY, Commissioner.

Placed on file.

USE OF CHRISTOPHER J. LEE PLAYGROUND.

The following was received:

City of Boston,
Office of the Mayor, May 11, 1934.

To the Honorable City Council.

Gentlemen,—I transmit herewith a letter from the Park Department, relative to your order of April 30, 1934, concerning allowing Kelly's All Stars baseball team the use of the Christopher J. Lee Playground one evening a week.

Respectfully,
FREDERICK W. MANSFIELD, Mayor.

—

City of Boston,
Park Department, May 10, 1934.

Hon. Frederick W. Mansfield,
Mayor of Boston.

Dear Sir,—I am in receipt of an order from the City Council requesting that the Park Commission allow the baseball team known as Kelly's All Stars to use the Christopher J. Lee Playground one evening a week.

The Boston Park Department Association of Baseball Leagues has 14,000 boys connected with it. In the South Boston district we have ten local uniformed teams in a club district league—they play on the Christopher J. Lee Playground on Monday, Tuesday, Wednesday and Thursday nights.

We also have a Mercantile League connected with the department and this team plays on Friday night. The Mercantile League team is the J. J. Coyle Trucking Company of South Boston.

Under the conditions, there is no possible chance of setting aside one evening for any other team. If Mr. Kelly wishes to apply for the use of the field on Saturdays and Sundays, he will be given every consideration.

Very respectfully yours,
WILLIAM P. LONG, Chairman.

Placed on file.

APPROPRIATION FROM PARKMAN FUND.

The following was received:

City of Boston,
Office of the Mayor, May 10, 1934.

To the City Council.

Gentlemen,—In the compilation of the budget of the current year an amount equivalent to the estimated income to be received during the year from the George F. Parkman Fund was deducted from the budget allowance of the Park Department. This deduction was made in anticipation of the appropriation of the income from this fund for the maintenance expenses of the department. There is now available in the fund income to the amount of $87,000. I submit herewith an appropriation order and respectfully recommend its immediate passage by your honorable body.

Respectfully,
FREDERICK W. MANSFIELD, Mayor.

—

Ordered, That the sum of $87,000 be, and hereby is, appropriated, from the income of the George F. Parkman Fund, to be expended, under the direction of the Park Commissioners, for the maintenance and improvement of the Common and parks in existence on January 12, 1887, as follows:

Common and parks in existence on January 12, 1887, maintenance and improvement of, $87,000.

Referred to Committee on Parkman Fund.

ELIMINATION OF PUTTEES.

The following was received:

City of Boston,
Office of the Mayor May 15, 1934.

To the Honorable City Council.

Gentlemen,—I herewith transmit a letter from the Police Commissioner, relative to your order of May 7, 1934, concerning the elimination of puttees as part of the police uniform in summer.

Respectfully,
FREDERICK W. MANSFIELD, Mayor.

—

City of Boston,
Police Department, May 11, 1934.

Mr. John F. Gilmore, Jr.,
Assistant Secretary, Mayor's Office.

Dear Sir,—I am in receipt of your communication of May 10 incloseing an order of the City Council requesting that puttees be eliminated as part of the police uniform during the summer, and would advise you that I am in receipt of a report from the superintendent stating that he has received but very few complaints from officers of any harmful effects as a result of wearing puttees, and that the few complaints called to his attention were due solely to the manner in which the officers wore them. After officers were instructed with regard to the proper manner of wearing puttees, there was no further cause for complaint.

Numerous complimentary letters have been received by me commenting on the improved appearance of officers since puttees have become a part of the regulation uniform of a police officer of this department, and in view of the fact that puttees are now standard equipment in practically every police department in the state, including the State Police, and having in mind the report of the superintendent, I am reluctant to effect any modifications in this respect.

Very truly yours,
E. C. HULTMAN,
Police Commissioner.

Placed on file.

FIRST-AID KITS.

The following was received:

City of Boston,
Office of the Mayor, May 11, 1934.

To the Honorable City Council.

Gentlemen,—I transmit herewith a letter from the Park Department, relative to your order of May 7, 1934, concerning the equipping of the L Street Bath House with first-aid kits.

Respectfully,
FREDERICK W. MANSFIELD, Mayor.

—

City of Boston,
Park Department, May 10, 1934.

Hon. Frederick W. Mansfield,
Mayor of Boston.

Dear Sir,—I am in receipt of an order from the City Council requesting that the Park Commission equip the L Street Bath Houses with first-aid kits.

Please be assured that all city bath houses are equipped at all times to take care of ordinary injuries.

Very respectfully yours,
WILLIAM P. LONG, Chairman.

ACTION OF LAND COURT ON TAX TITLES.

The following was received,

City of Boston,
Office of the Mayor, May 12, 1934.

To the Honorable City Council.

Gentlemen,—I transmit herewith a letter from the Corporation Counsel, relative to your order of April 30, 1934, concerning action in the Land Court on tax titles to property that now owes the city over $2,500,000 in back taxes up to and including the year 1931.

Respectfully,
FREDERICK W. MANSFIELD, Mayor.

—

City of Boston,
Law Department, May 10, 1934.

Hon. Frederick W. Mansfield,
Mayor of Boston.

Dear Mr. Mayor,—Your letter of May 7, 1934 has been received, together with a copy of the following order passed by the City Council on April 30, 1934:

"Ordered, That the Mayor of Boston consider the advisability of requesting the Corporation Counsel to go into the Land Court and take tax titles to property that now owes the city over $2,500,000 in back taxes up to and including the year 1931, but no titles to be taken on property where the City Collector, after due investigation, decides that the family occupying a home has faithfully attempted to meet all tax obligations but has been unable to do so because of unemployment and the depression."

The City of Boston acquires so-called "tax titles" by purchase at sales held by the City Collector for nonpayment of taxes. I assume, therefore, that the above quoted order refers to the foreclosure of the right to redeem land purchased by the city at such sales.

Section 50 of chapter 60 of the General Laws, as amended by section 6 of chapter 325 of the Acts of 1933, provides as follows:

"If the town becomes the purchaser, the deed to it, in addition to the statements required by section forty-five, shall set forth the fact that no sufficient bid was made at the sale or that the purchaser failed to pay the amount bid, as the case may be, and shall confer upon such town the rights and duties of an individual purchaser. Every such deed and every instrument of taking described in section fifty-four shall be in the custody of the town treasurer, and there shall be set up on the books od the town, whether kept by the treasurer or otherwise, a separate account of each parcel of land covered by any such deed or instrument, to which shall be charged the amount stated in the deed or instrument, the cost of recording the same, and, upon certification in accordance with section sixty-one, all uncollected taxes assessed to such parcel for any year subsequent to that for the taxes for which such parcel was purchased or taken, with all legal costs and charges, until redemption or foreclosure. The town treasurer shall institute proceedings for foreclosures as soon as such proceedings are authorized by sections sixty-two and sixty-five. The commissioner may at his discretion institute proceedings in the name of the treasurer in the event that such proceedings are not instituted by the treasurer. Any expense incurred by the commissioner hereunder shall be assessed against the city or town and collected in the same manner as expenses for auditing municipal accounts under the provisions of section forty-one of chapter forty-four."

The word "town" as used in said section includes "city." (See General Laws (Ter. Ed.) chapter 4, section 7, clause thirty-fourth.)

The above-quoted provision with reference to the institution of foreclosure proceedings by the treasurer is mandatory and not permissive. In effect it places a duty upon the treasurer of the City of Boston to foreclose, at the time prescribed therein, the right to redeem land sold to the city for nonpayment of taxes.

In view of this statutory mandate this office, on behalf of the City Treasurer, is engaged in the institution and prosecution of foreclosure proceedings as directed by the statute and it is my understanding that such has been the practice of this office for some years past. It is, however, the policy of this office to give owners and parties in interest reasonable opportunity to pay before completion of foreclosure. Letters are ordinarily sent out before petitions for foreclosure are filed, and in case of home owners, continuances are frequently consented to where the interest of the home owner seems to require it and the interests of the city will not be prejudiced, parties are referred in some instances to the Home Loan Bank and are gven advice and assistance calculated to help them in their difficulties.

Very truly yours,
HENRY E. FOLEY,
Corporation Counsel.

Placed on file.

REPORT OF MUNICIPAL EMPLOYMENT BUREAU.

The following was received:

City of Boston,
Office of the Mayor, May 21, 1934.

To the City Council.

Gentlemen,—I transmit herewith a letter from the director of the Municipal Employment Bureau, relative to your order of May 7, 1934, concerning number of applications and placements at the Bureau.

Respectfully,
FREDERICK W. MANSFIELD, Mayor.

—

City of Boston,
Employment Bureau, May 15, 1934.

Hon. Frederick W. Mansfield,
Mayor of Boston.

Dear Mr. Mayor, In compliance with the order of the City Council, dated May 7, 1934, I am inclosing a report of the activities of this Bureau.

In answer to Question C, asking the number of days of employment for men and women each month I do not keep a record marking these positions either temporary or permanent.

Very truly yours,
SAMUEL W. WARREN,
Director of Employment.

REPORT OF THE MUNICIPAL EMPLOYMENT BUREAU, JANUARY 10, 1934, TO MAY 4, 1934.

	Registered.	Help Wanted.	Placed.
January:			
Male.....	246	21	13
Female.....	214	76	61
Total.....	460	97	74
February:			
Male.....	744	668	571
Female.....	269	69	58
Total.....	1,013	737	629
March:			
Male.....	449	229	184
Female.....	284	69	48
Total.....	733	298	232
April:			
Male.....	254	115	106
Female.....	225	88	64
Total.....	479	203	170
City Hospital:			
Male.....		26	26
Female.....		23	23
Total.....		49	49
Grand total,	2,685	1,335	1,105

According to our records, 654 of the above placements, including hospital work, are temporary and 451 are permanent.

SAMUEL W. WARREN,
Director of Employment.

Placed on file.

FENCE, HENRY L. PIERCE SCHOOL.

The following was received:

City of Boston,
Office of the Mayor, May 21, 1934.

To the Honorable City Council.

Gentlemen,—I transmit herewith a letter from the Department of School Buildings, relative to your order of May 7, 1934, concerning repairs required on the fence between the Henry L. Pierce School and the private property on Walton street.

Respectfully,
FREDERICK W. MANSFIELD, Mayor.

—

City of Boston,
Department of School Buildings,
May 18, 1934.

Mr. John F. Gilmore, Jr.,
Assistant Secretary, Mayor's Office.

Dear Sir,—Answering your form communication of May 10 regarding the fence between the Henry

L. Pierce School and private property, I am advised by my inspector in that district that repairs are needed, and you will please be advised that repairs will be made. Thank you for bringing the matter to my attention.

This is in connection with the City Council order to His Honor the Mayor, Monday, May 7, a copy of which you inclosed from Mr. Doyle, the City Clerk.

Very truly yours,
WM. W. DRUMMEY,
Superintendent of Construction.

Placed on file.

PETITIONS REFERRED.

The following petitions were received and referred to the committees named, viz.:

Claims.

Adella B. Aldrich, for refund on victualer's license.
Alice G. Bell, for refund on liquor license.
Samuel Bell, for compensation for damage to car by city team.
Percie C. Bowker, for refund on milk license.
Broadway Stationery Company, to be paid for typewriters which were not returned by Soldiers' Relief Department.
Jesse H. Brown, for compensation for injuries caused by an alleged defect in State street.
Edith Champa, for compensation for damage to clothing on ferry.
Alfred Dotoli, for refund on tavern liquor license.
Jacob Esterman, for refund on Sunday license.
Rose Forman, for compensation for injuries caused by an alleged defect in Wyoming street.
Joseph Freda, for refund on refuse tickets.
Guthro & Harding, Inc., for refund on liquor license.
John W. Hutchinson, for compensation for injuries caused by an alleged defect in Dover Street Bath House.
Charles H. Justin, for compensation for damage to property at 67 Walworth street, Roslindale, caused by blasting for sewer.
Mrs. Catherine Kane, for compensation for damage to property at 12 Bronx road, caused by blasting for sewer.
Bridget A. McDermott, for refund on employment bureau license.
Irene R. Murphy, for compensation for injuries caused by an alleged defect in Cambridge street, Allston.
Amelia Napolitano, for compensation for damage to property at 109 Endicott street, caused by negligent operation of sewer.
Gervant Nahabedian, for refund on milk license.
Mary O'Flaherty, for refund on milk license.
Rosario Puccio, for compensation for damage to car by city truck.
Joseph Santarpio, for refund on tavern license.
Emma Schramm, for compensation for damage to property at 2261 Centre street, caused by blasting for sewer.
Hyman Shapiro, for refund on victualer's license.
Everett M. Treworgy, for loss of ash cans taken by ashmen.
Hortense Verrochi, for compensation for damage to property at 5018 Washington street, caused by water being shut off.
William L. Walker, for refund on Sunday license.
A. Weinstein, for refund on ash tickets.
Nanna Goolsky, for refund on part of money paid for dog license.

Special Committee on Jitney Licenses.

Petition of Boston Elevated Railway to operate motor vehicles between junction of Massachusetts avenue and Boylston street and junction of Queensberry and Jersey streets; over Massachusetts avenue, Newbury street, Massachusetts Station, Boylston street, Ipswich street, Boylston street, Kilmarnock street and Queensberry street; return over Jersey street, Boylston street, Ipswich street, Boylston street, Massachusetts Station, Newbury street and Massachusetts avenue.

Petition of Boston Elevated Railway to operate motor vehicles between Brookline-Boston line on Brookline avenue and Kenmore square, over Brookline avenue and Kenmore square (Boston section of a route between junction of Cypress and High streets, Brookline, and Kenmore square, Boston).

Executive.

Petitions for children under fifteen years of age to appear at places of public amusement, viz.:
Katherine G. O'Gorman, Shubert Theatre, May 25.
Lavinia A. Hogan, Repertory Theatre, May 24.
Children's Welfare Association of East Boston, East Boston High School, June 2, 4, 1934.
Ruth Hawes, Municipal Hall, June 12.
Ella Karabelnick, Repertory Theatre, June 11.
Mary E. Ring, Brighthelmstone Hall, June 8.
M. Theresa Connell, Peabody Playhouse, June 4.
Anne Marie Casey, Gate of Heaven Hall, June 4.
Josephine Leonard, Repertory Theatre, June 2.
Mary G. Donovan, Dorchester High School for Boys, May 28.
Rev. Father William Gross, Grover Cleveland School, May 27.
Anna M. Greene, Current Events Hall, May 26.

FINANCE COMMISSION REPORT ON BOSTON CITY HOSPITAL.

The following was received:

City of Boston,
Finance Commission, May 19, 1934.

To the Honorable the Mayor and City Council.

Gentlemen,—For more than a year the Finance Commission has been conducting an examination into the administration of the Boston City Hospital. The results of this examination were incorporated in a painstaking and detailed report submitted to the commission by the accountant on the commission's staff in charge of the field work and by the staff assigned to him for the purpose. The commission, after examination of this report, determined to submit the same to the trustees of the Boston City Hospital for their comments. This was done, and thereafter, in the late summer of 1933, a conference was had between the commission and the trustees. Many of the criticisms appearing in the report to the commission were discussed and the great majority of the recommendations for the improvement of the detail of the conditions disclosed in the report were accepted by the trustees who agreed to put them into operation.

The purpose of this report is to invite your Honor's attention to the effect upon the development of the hospital of three of its major policies. It is purposed in subsequent reports to take up other policies, various improvements in administrative detail and certain changes in the executive and administrative branches which, if made, would, in the opinion of the commission, result in increased efficiency at less cost.

The Legal Status of the City Hospital.

The purpose for which the City Hospital was founded and the control thereof by the trustees are set out in the enabling statutes. In order properly to appreciate this purpose and this control, a review of these enabling statutes is necessary.

The City Hospital was established by chapter 113 of the Special Laws of 1858. The act reads as follows:

"Section 1. The city of Boston is hereby authorized to erect, establish and maintain a hospital for the reception of persons who by misfortune or poverty may require relief during temporary sickness.

"Section 2. The city council of said city shall have power to make such ordinances, rules and regulations as they may deem expedient, for the appointment of trustees and all other necessary officers, agents and servants for managing the said hospital.

"Section 3. Said hospital shall not be erected or located within three hundred feet of any schoolhouse or church now built.

"Section 4. This act shall take effect from and after its passage.—March 27, 1853."

The hospital was opened in 1864.

In 1880 it was incorporated by chapter 174 of the Special Acts of that year and given authority to take and hold real and personal estate not exceeding $1,000,000. By section 3 of that act a body of seven trustees was provided to serve without pecuniary compensation, two to be chosen by the concurrent vote of the Board of Aldermen and the City Council, one from each body, and five to be appointed by the Mayor. The mayoral appointees must be citizens of Boston, not members of the bodies aforesaid.

By section 5 the trustees, subject to the direction of the City Council by ordinance or otherwise, are given charge of the general care and control of the City Hospital, together with the buildings, fixtures, furniture, etc., and of the expenditures of money appropriated therefor.

By section 6 the trustees are given power to appoint a superintendent with such assistants and subordinate officers as they may think necessary or expedient, and may remove the same and fix their compensation.

By section 7 the City Council is given power "to pass such ordinances not inconsistent herewith or repugnant to other laws of the Commonwealth as to the duties and authority of said board as they may from time to time deem expedient."

In 1885 an alteration in the procedure for the appointment of the trustees of the hospital was effected by chapter 266 of the Acts of that year. This act in general terms transferred to the Mayor of the city the power of appointment of "all officers and boards now elected by the City Council or Board of Aldermen." This act was construed to eliminate the trustees appointed from the Council and from the Board of Aldermen, so that thereafter the Hospital Board was held to consist of five trustees instead of seven, all of whom were appointed by the Mayor.

By the provisions of this act also, the power previously given to the City Council to make such rules and regulations for the management of the City Hospital was revoked, and thereafter the management of the hospital was vested in the trustees free of future control by the Council. This interpretation of the act has been repeatedly given by the Law Department of the city, the most recent occasion being the opinion of Frank S. Deland, Corporation Counsel, dated October 29, 1922. He then held:

"By the provisions of c. 266 of the acts of 1885 all heads of departments are given the direction and control of all executive and administrative business of the City, and by the provisions of sec. 5 of c. 486 of the acts of 1909 (Amended City Charter) the organization, powers and duties of the executive department of the City remain as constituted prior to the enactment of the Amended City Charter.

"By the provisions of the 1885 act, sec. 12, neither the City Council nor any committee thereof is permitted directly or indirectly to take part in the conduct of any of the executive or administrative business of the City. This provision of law was carried into the Amended City Charter (sec. 8 of c. 486 of the acts of 1909). By virtue of this provision of law neither the City Council nor any member or committee thereof has any legal right to interfere with executive or administrative business of the City, or to interfere with department heads required by law to carry on the executive or administrative business of the various departments and boards of the City."

By chapter 91 of the Acts of 1893 the present name of the hospital "The Boston City Hospital" was established.

Subsequent legislation with the exception of the provisions of the charter made in 1909 relates to transfers of particular pieces of land and needs no notice here.

It is obvious from the foregoing legislation that the Board of Trustees is intended to be made primarily responsible for the management of the hospital. The trustees are given the right to appoint a superintendent, assistant superintendents and subordinate officers, the right to delegate to these officers such duties as the trustees shall determine, the power of removal of all officers and the right to fix their salaries. The trustees are broadly given the general care and control of the hospital and of the expenditures of the money appropriated therefor. It follows, therefore, in the opinion of the Finance Commission, that discretion and responsibility for matters connected with the hospital rest squarely on the shoulders of the trustees.

1. The Treatment of Chronic Cases.

The statute of 1858 authorized the city to erect "a hospital for the reception of persons who, by misfortune or poverty, may require relief during temporary sickness."

In spite of the foregoing statutory limitation, the trustees of the City Hospital have permitted many cases to enter and to remain in the hospital which fall within the classification of chronic cases — a classification clearly outside of any proper or reasonable interpretations of the governing statute.

The City Hospital authorities do not keep records to show specifically the number of chronic cases in relation to the total number of cases To determine the actual number of the former, it is necessary at any time to study the individual case records. Such a study was made fairly recently and it was found that there were 255 cases of chronic ailment receiving treatment at one time. This was approximately 18 per cent of the total number of cases in the hospital at the time. In one particular medical service or unit, two of every three beds were occupied by persons being treated for chronic ailments. The physicians who made the study claimed only nineteen of the 255 were suitable for care in such a hospital as the Boston City Hospital. This situation is aggravated by the fact that only 78 per cent of this total of chronic cases were distinctly Boston cases.

The Finance Commission's Conclusion on Chronic Cases.

If the City Hospital is to duplicate the already overdeveloped facilities of Long Island, proper authority should be secured to permit it. If not, steps should be taken by the trustees to see to it that they "maintain a hospital for the reception of persons who, by misfortune or poverty, may require relief during temporary sickness" only. The Finance Commission is of opinion that the City Hospital should be relieved of the burden of caring for chronic cases.

2. The Treatment of Paying Patients.

The statute of 1858 attempts to describe the persons who may be admitted to the hospital. They are, "persons who by misfortune or poverty may require relief." Consideration of this phrase brings out the fact that the word "poverty" is one of clear meaning, and the word "misfortune" one of meaning far from clear. A person suffering from "poverty" who "may require relief" means a person who cannot provide hospital facilities from his own resources. A person suffering from "misfortune" who "may require relief" might be interpreted broadly to include any person who becomes ill, sickness being generally considered as a misfortune. This interpretation, however, would logically lead to a conclusion that anybody who was ill was entitled to treatment at the City Hospital, irrespective of wealth or position. It would seem obvious that such an interpretation is far too broad. A more reasonable interpretation and one which apparently was adopted in the early years of the City Hospital construes "misfortune" to mean a sudden illness or accident whereby a person requires immediate relief because the illness or accident so disables him that he cannot himself make provision for hospital treatment.

It is obvious that when the hospital was first opened questions of policy had to be decided at once. The words of the statute controlled then as now, and those in charge of the institution had the benefit of the knowledge then current of what

the proponents of the legislation for the hospital had advocated when the grant of authority to establish it was first made. At that time, as is stated elsewhere in this report, the Overseers of the Public Welfare immediately began to examine into the rights of persons admitted to the hospital to be treated there. At that time the practice was begun of having the Overseers' representatives attempt collection for hospital treatment as soon as it was discovered that the person treated was able to pay for it, and in cases where inability to pay established the patient in the "poverty" class, further inquiry was made to ascertain whether or not his town of settlement could be made to pay, or in the event that there was none, whether the state could be compelled to pay. Thus the conduct of the hospital was early tied in with the work of the Overseers.

Nevertheless in every service unit of the City Hospital at all times may be found patients receiving treatment who enter with the understanding that they will pay for it in whole or in part. The method by which this is permitted is interesting and deserves explanation.

In the first place, a division in authority is made between patients who are admitted to the wards for general care and patients who request special care. The hospital authorities assume complete responsibility only when a request for a special nurse or for a private room is made and granted. In such cases the hospital authorities collect for the special nurse in advance and charges for the private room are entered on the hospital cashier's ledgers. The hospital cashier is charged with the duty of making collection of these accounts.

However, in the case of an ordinary admission, the practice has always been to pass the ultimate responsibility to the Department of Public Welfare. This arrangement has been in effect almost from the inception of the institution. Apparently, it was based upon an interpretation of the original enabling statute whereby it was agreed that the facilities of the hospital were open to the poor and unfortunate sick of the City of Boston on the ground that it was the intention of the Legislature to establish the hospital as an extension, to include medical and surgical relief, of the subsistence relief given by the Overseers of the Public Welfare. From this interpretation of the statute, it was concluded that the matter of hospitalization for the poor of the city was in a class no different from the matter of subsistence relief and that as the Overseers were charged with the responsibility of determining when the one should be furnished they should assume a similar duty in regard to the other. In admissions, therefore, the duty of determining whether a patient was properly admitted was, under this interpretation of the statute, turned over to the Overseers of the Public Welfare. Similarly the duty of collecting when the Overseers determined that the case was one which should not properly be treated without payment was likewise given to the Overseers. With certain modifications, this policy has been pursued to the present date.

From this early decision has resulted the present situation. The development has been by a slow process. Presumably in the early life of the institution the Overseers' representatives found that persons were securing admission for any one of the follwoing reasons: An emergency, as, for instance, accidental injury or unforeseen acute illness, or through influence, either medical or political, or through an erroneous assumption that they had a right to enter the hospital. In the first of these cases, it is obvious that admission would have to be immediate and inquiry made subsequently, and a like policy developed in regard to the other classes. With the passage of time and the growth of the hospital, the work of determining whether a person could pay and the work of collecting from the patient if it was determined that he could pay steadily increased. Investigation became superficial, and attempts to make collections perfunctory. More and more persons sought admission, who were on or over the borderline, and the work of the Overseers' representatives became steadily greater and less successful.

As a result of these factors tempered by sporadic attempts at correction, the present situation has developed.

Routine of Admissions.—Admissions to the hospital, inclusive of accident, emergency or contagious cases, are supposedly on the order of the executive officer. The officer in charge is supposed to have interviewed the patients or their sponsors and satisfied himself that they are legally entitled to admission as having a Boston settlement and unable to pay for hospital treatment elsewhere, or that they have given satisfactory guarantees of ability to pay for services. The hospital, therefore, now assumes an initial obligation to weed out applicants; but having done this, it thereafter takes no further responsibility. Furthermore, because of the various kinds and degrees of influence used to obtain admission for patients, sometimes from medical and surgical staff members, sometimes from outside organizations, sometimes from nonpolitical or influential citizens, and very often from active politicians, the actual number of persons applying for treatment who are rejected by the hospital authorities is very small and the number who make financial arrangement to pay is negligible.

Routine of Collection.—There is no real attempt made to force collection in the case of an ordinary admission. The hospital authorities claim the statutes prevent billing by the hospital, and leave the question of collection to the Overseers. This responsibility is assumed in part only by the Overseers. Their representative actually takes on the responsibility of determining the question of settlement, but to a limited extent only the question of ability to pay. He sends out bills and handles money received against them, but disclaims any further responsibility as to collection. In the instance of the South Department cases, which are contagious cases, the Overseers' representative bills the charges as the agant of the City Health Department, through the collector's office. As the total of over $460,000 of uncollected bills on May 1, 1934, eloquently shows, this system does not work.

Thus the Hospital Department escapes responsibility for failure to collect by recognizing the restriction set out in the statute originally authorizing the hospital, but at all other times in the conduct of the hospital disregards this restriction; and the Public Welfare Department assumes the responsibility of billing (and in certain cases receiving payment, if made) for service rendered by the City Hospital, but refuses to become the collection agency for the hospital.

The size of the staff on whom devolved the routine of establishing the fact of ability to pay has never kept pace with the growth of the work. Naturally, therefore, this staff is usually far behind the treatment of patients at the hospital and very frequently the patients have been discharged or are heavily indebted before the required work of establishing ability to pay is completed. Just how far behind may be gleaned from the record of one day, May 1, 1932. There were on that day, according to the records, 5,000 active cases, though there were only 1,600 beds in the entire hospital. Of these 5,000 cases only 1,700 were in process of being looked up for settlement; of these 1,700, 400 had been checked up and histories obtained. No history had yet been obtained in the other 1,300 cases. In many cases of records examined it was very apparent that because of an insufficiency of information in regard to patients who had been treated and already discharged, there was no possibility of making collection.

At the present time, May 1, 1934, the books of the Collecting Department show approximately $165,000 is owed the city on account of treatment given at the South Department by persons with settlements in other cities and towns. In addition, the Welfare Department books show that approximately $270,000 more is owed the hospital because of treatment given in the hospital proper to persons with state settlements, or with settlements in other cities and towns. Of this total of $435,000 owed the city on account of treatment given to persons without Boston settlement, approximately $135,000 will be collected in due time, but the balance of $300,000 is not expected ever to reach the City Treasury. It should be kept in mind that this total of outstanding accounts includes nothing on account of treatment given to persons who have a Boston settlement who might not necessarily be able to establish a right to treatment because not of the class for whom the hospital was intended. The claim by such persons that they cannot pay being accepted without investigation, the cost of service is not entered in the books as a collectible charge.

The Finance Commission's Conclusion on Paying Patients.

It is obvious from the strictly legal point of view that the trustees should cause careful inquiry to be made before admitting patients as to whether or not they fall within the category of persons for whom they are authorized to care.

Wholly apart from the governing words of the statute, the conclusion remains the same. As previously pointed out, the taxpayers of the City of Boston are supporting substantially the whole cost of the hospital. It is obviously in their interest that the expenses of the hospital be curtailed as much as possible. On the other hand, it is equally obvious that the policy of over sixty years cannot be overturned, and the poor and unfortunate left without a hospital to receive them "during temporary sickness." The obligation to care for them is clear. But after provision is made for them, a question arises as to how much further the trustees are either obliged or permitted to go. The dictates of charity on the one hand are ranged against the demands of economy on the other.

In the opinion of the Finance Commission the trustees are not justified in spending the taxpayers' money for the care of those persons who are able to care for themselves. Municipal obligation has not yet reached the point of furnishing free hospitalization for all. Obviously the taxpayers of Boston should not be compelled to furnish free facilities to care for the fortunate and wealthy. The trustees are limited, in the opinion of the Finance Commission, to care only for those who are not in a financial position to be cared for elsewhere.

Any other decision is open to further objections of another kind. Private hospitals are established and endowed, and personnel employed to care for the hospitalization needs of the community. They must be supported, in part at least, by paying patients. It is unfair for the Boston City Hospital supported by taxpayers' money to compete with private and semi-private hospitals which have no such advantage.

3. The Treatment of Nonresidents.

A third phase of the expansion of the hospital beyond the scope properly assigned to it should next be noted. The use of the hospital for chronic cases, and for the care of others than the poor and needy, has been described. In both cases the commission questions the legality of expenditures for such a purpose. Consideration must now be given to the question of the expenditure of money to care for a needy person who "during temporary sickness" seeks the shelter of the City Hospital, but who is not a resident of Boston. The City Hospitil is caring for many such persons. Money furnished by Boston taxpayers is being expended in large amounts for this purpose. The exact number of nonresidents in the hospital at any one time is not easy to find out. Frequently they get in because they give a Boston address. Proper investigation should disclose such a subterfuge. Frequently they get in because they are recommended to staff men by other doctors, or because they are the patients of staff men. In many such cases the hospital records will lack the important detail of how they got in, and no employee has been charged with the duty of finding out and passing upon the propriety of their admission.

Many get in because of the supposition that inasmuch as the City Hospital is the workshop for certain medical schools which contribute to the expense of the hospital, it is proper to take in cases which interest the staff men for one reason or another. It is well to bear in mind, however, that the contribution of the medical schools is not necessarily a continuing one, does not cover any part of the capital cost of buildings or ordinary equipment, and does not cover the maintenance cost of facilities that are necessary because such cases are taken in for treatment. A recent survey report by physicians contained the statement that at all times 23 to 25 per cent of the patients at the City Hospital are nonresidents.

The Finance Commission's Conclusion on Non-Residents.

It is claimed by some authorities that the statute permits this because the Statute of 1858 does not contain the restriction that Boston residents only should be received for treatment. This claim is unsound because obviously the Legislature in enacting this law was legislating for the benefit of the people of Boston, and it is too far-fetched to believe that the state, which has authorized and maintained hospitals for those cities and towns unable to establish their own, should require or expect one city to carry the burdens of the other municipalities. Assuming, therefore, that the state was simply creating a board of trustees to operate a hospital for the benefit of the people of Boston, it must be apparent that the Board of Trustees of the City Hospital has gone beyond its authority when it has adopted the policy of receiving patients from other municipalities and from other states and even from Canada. Treating residents of other municipalities and states for temporary illness suffered while temporarily residing in Boston may be excusable, but admitting other than emergency nonresident cases or transferring nonresidents from other hospitals and municipalities because Boston City Hospital facilities and service are better, is unfair to the Boston taxpayers and inconsistent with any reasonable interpretation of the enabling statute.

Summary.

The annual cost of the City Hospital to the taxpayers of Boston has risen to a very high figure. The annual expenditure from taxes for maintenance purposes in the period from 1923 to 1933 has been as follows:

1923-24	$1,475,681 88
1924-25	1,686,737 04
1925 (eleven-month year)	1,661,888 45
1926	1,900,866 41
1927	2,049,075 25
1928	2,185,628 51
1929	2,612,369 44
1930	2,898,362 15
1931	3,157,641 82
1932	2,931,998 26
1933	2,829,302 79
	$25,389,552 00

In the same period the city has spent from the proceeds of loans, $7,979,196.94 for new construction as follows:

1923-24	$483,956 59
1924-25	153,527 65
1925 (eleven-month year)	201 813 79
1926	489,609 96
1927	876,725 67
1928	995,714 78
1929	1,416,204 61
1930	861,426 43
1931	531,042 11
1932	1,086,772 43
1933	882,402 92
	$7,979,196 94

The contributions of the medical schools which use the hospital as a workshop have been less than $100,000 a year, but the exact amount has varied from year to year and is not easily ascertainable and does not appear in the City Hospital records.

In approximately the period referred to above the number of persons treated in the Out-Patient Department has been as follows.

Year.	Number of Patients Treated.
1922[1]	37,419
1923	38 690
1924[2]	45,095
1925[3]	44,750
1926[4]	45,994
1927	49,059
1928	52,610
1929	82,483
1930	98,154
1931	116,346
1932	135,293
1933	136,368

In the other divisions of the hospital the experience has been as follows:

Patients Admitted for Treatment at Boston City Hospital Includes South Department (Contagious Cases).
(Exclusive of Out-Patient Department.)

Year.	Number of Patients Treated.
1920	16,406
1921	18,844
1922	22,174
1923	23,181
1924	23,646
1925	30,349
1926	21,460
1927	24,280
1928	24,462
1929	25,843
1930	29,647
1931	33,822
1932	39,646
1933	41,915

It has already been pointed out that approximately 18 per cent of the cases in the hospital are chronic cases; also, that approximately 23 per cent are nonresident cases. This gives a total of 41 per cent of the cases in the units, excepting the Out-Patient Department, that are not legally there, if the contention is well founded that the hospital is legally for "the poor and unfortunate sick" of Boston "during temporary illness."

This, of course, does not take into account the number treated who were able to pay, all of whom, except those brought in on account of accident, or acute attack, were, in the opinion of the Finance Commission, illegally treated.

It is not unreasonable, therefore, to conclude that from 40 to 50 per cent of the cost of the City Hospital is on account of cases which strictly do not belong there.

As the service of the hospital has improved and its fame spread, the demand for treatment has steadily increased. The Boston City Hospital is regarded by medical authorities as among the half dozen best in the country. The general public is becoming aware of this reputation and the steadily increasing demands for its service are partly based on this.

The general public is also aware of the fact that it is not very difficult to get admitted to the City Hospital without having to pay, and that once in there is very little chance, as a practical matter, of ever having to pay. And this generalization is applicable not only to the people of Boston but to those living in the surrounding towns and cities, and even in New England generally.

Health Department statistics and insurance company health surveys have pointed to a steadily improving general condition of the health of the people. Yet, the number of persons treated at the Out-Patient Department of the City Hospital has increased from 37,419 in 1922 to 136,368 in 1933. The increase has been substantially uniform in all the units of the City Hospital.

Since the increase in the demand for treatment at the City Hospital has not been due to increased sickness and since population has not materially increased, it naturally follows that the City Hospital year by year is taking more and more business from private hospitals, and its Out-Patient Department is year by year taking more and more business away from practising physicians.

It is well known that private hospitals have been seriously affected. Less patients for them has meant less income, and as a result many such fine institutions are known to be in financial straits.

It is also known that many physicians who have spent much time and money in study and experience to equip themselves for reliable practice are having a hard time to eke out a fair living; and it is no secret that the taxpayers of Boston have been finding it difficult to pay the taxes that support the hospital and all other services.

If these trends are not halted, if the aforementioned policies are not altered, it is natural to suppose that demands for service will increase and increased costs will follow. The hospital authorities concede that there is a limit to the physical size of a hospital beyond which it is not advisable to go. A hospital of 2,000 bed capacity is this limit.

The demand for hospital accommodation for this number is now at hand. If the trustees continue to make the facilities available to paying patients and nonresidents and to those requiring treatment for chronic ailments, the time is not far distant when some of the "poor and unfortunate sick" of Boston may be denied admission "during temporary sickness" because there will be no room for them.

Respectfully submitted,
JOSEPH J. LEONARD, Chairman,
JOSEPH A. SHEEHAN,
JOSEPH JOYCE DONAHUE,
CHARLES M. STOREY,
The Finance Commission.

Placed on file.

[1] Until 1925 the annual period extended from February 1 to January 31.
[2] New Out-Patient Department Building opened late in October, 1924.
[3] An eleven-months' period only.
[4] From 1926 the calendar year applies.

ABANDONMENT OF SMALLPOX HOSPITAL.

The following was received:

City of Boston,
Law Department, May 21, 1934.

To the Honorable the City Council.

Gentlemen,—I am advised that on April 30, 1934, your honorable body passed the following order:

Ordered, That the Corporation Counsel be requested to furnish the City Council with an opinion as to whether or not his Honor the Mayor has the authority to abandon the smallpox hospital, so called, on Southampton street, or to transfer the care and control of said hospital from the Health Department to the Hospital Department, without the consent of the City Council, in view of the provisions of chapter 111, section 92, of the General Laws, and chapter 16, section 3, of the Revised Ordinances of 1925.

I have been informed by the Health Commissioner that until recently there were three persons employed at the hospital in question, one of whom has resigned, another of whom has been retired, and the other of whom, a caretaker, is still employed and performing his duties. I have been further informed that the Health Commissioner does not propose at the present time to fill the vacancies now existing since he is of the opinion that the hospital in question may be more economically and efficiently conducted by an arrangement made by him with the trustees of the Boston City Hospital whereby, as the need requires, the trustees will furnish medical and nursing care at the Southampton street hospital. Apparently, therefore, there has been no abandonment of this hospital.

I find nothing in the plan of action adopted by the Health Commissioner with reference to the Southampton street hospital which is not consistent with the provisions of section 92 of chapter 111 of the General Laws (Ter. Ed.), or of section 3 of chapter 16 of the Revised Ordinances of 1925.

Very truly yours,
HENRY E. FOLEY,
Corporation Counsel.

Placed on file.

Later in the session Coun. McGRATH offered the following:

Ordered, That the Corporation Counsel be requested to inform the City Council in explanation of his opinion of May 21 to the City Council relative to the smallpox hospital, whether or not it is required by law that the said hospital be retained under the control of the Health Commissioner.

Passed under suspension of the rule.

APPOINTMENTS BY THE MAYOR.

Notices were received from the Mayor of the following appointments:

John C. MacDonald, 48 Stockton street, Dorchester, to be member of Board of Appeal to take place of James H. Fitzpatrick.

Leo J. Dunn, 11 Primrose street, Boston, to be director of Workingmen's Loan Association in place of Hyman Manevitch.

Alfred Ellis, 54 Ivy street, Boston, member of Board of Zoning Adjustment, to take place of Patrick H. Jennings.

Robert P. Bellows, 8 Park street, Boston, Art Commissioner, to take place of Charles D. Maginnis.

Severally placed on file.

CONSTABLES' BONDS.

The bonds of the following-named constables, having been duly approved by the City Treasurer, were received and approved, viz.: Charles B. Broad, George W. Brooker, Edgar F. Callahan, George H. Evans, Maurice J. Glick, John S. Grady, St. Clair E. Hale, Bronis Kontrim, Nathan Kravitsky, Maurice Levine, John A. May, William P. Miles, Patrick H. Murphy, Edward Ober, Emil Ober, Walter W. Regan, George J. Swidler, Frank J. Staula, John J. Walsh.

MINORS' LICENSES.

Petitions were received from eighty-seven newsboys and nine bootblacks for minors' licenses. Licenses granted under usual conditions.

RESCISSION OF LOAN ORDERS.

President DOWD called up, under unfinished business, Nos. 5 to 12, inclusive, on the calendar, viz.:

5. Ordered, That the order given its second and final reading and passage on November 27, 1933, and approved by the Mayor on November 29, 1933, to wit:

"Ordered, That in accordance with the provisions of chapter 366 of the Acts of 1933 the sum of $1,000,000 be, and hereby is, appropriated, to be expended, under the direction of the Commissioner of Public Works, for Reconstruction of Streets, and that to meet said appropriations the City Treasurer be authorized to issue, from time to time, upon request of the Mayor, bonds or certificates of indebtedness of the city to said amount, the same to be issued outside the limit of indebtedness,"—

be, and the same hereby is, rescinded.

6. Ordered, That the order given its second and final reading and passage on November 27, 1933, and approved by the Mayor on November 29, 1933, to wit:

"Ordered, That in accordance with the provisions of chapter 366 of the Acts of 1933 the sum of $1,000,000 be, and hereby is, appropriated, to be expended, under the direction of the Commissioner of Public Works, for Construction, Reconstruction and Replacement of Sewers, and the Covering of Open Water Courses, and that to meet said appropriation the City Treasurer be authorized to issue, from time to time, upon request of the Mayor, bonds or certificates of indebtedness of the city to said amount, the same to be issued outside the limit of indebtedness,"—

be, and the same hereby is, rescinded.

7. Ordered, That the order given its second and final reading and passage on November 27, 1933, and approved by the Mayor on November 29, 1933, to wit:

"Ordered, That in accordance with the provisions of chapter 366 of the Acts of 1933, and chapter 324 of the Acts of 1914, the sum of $350,000 be, and hereby is, appropriated, to be expended, under the direction of the Commissioner of Public Works, for Replacement of Brookline Avenue Water Main, from the Brookline line to Beacon street, and that to meet said appropriations the City Treasurer be authorized to issue, from time to time, upon request of the Mayor, bonds or certificates of indebtedness of the city to said amount, the same to be issued outside the limit of indebtedness,"—

be, and the same hereby, is rescinded.

8. Ordered, That the order given its second and final reading and passage on November 27, 1933, and approved by the Mayor on November 29, 1933, to wit:

"Ordered, That in accordance with the provisions of chapter 366 of the Acts of 1933 the sum of $2 000,000 be, and hereby is, appropriated, to be expended, under the direction of the School Committee, for one new High School and one new Intermediate School, and that to meet said appropriation the City Treasurer be authorized to issue from time to time, upon request of the Mayor, bonds or certificates of indebtedness of the city to said amount, the same to be issued outside the limit of indebtedness,"—

be, and the same hereby is, rescinded.

9. Ordered, That the order given its second and final reading and passage on November 27, 1933, and approved by the Mayor on November 29, 1933, to wit:

"Ordered, That in accordance with the provisions of chapter 366 of the Acts of 1933 the sum of $2,000,000 be, and hereby is, appropriated, to be expended, under the direction of the Hospital Trustees, for New Buildings and Alterations and Equipment, and that to meet said appropriation the City Treasurer be authorized to issue, from time to time, upon request of the Mayor, bonds or certificates of indebtedness of the city to said amount, the same to be issued outside the limit of indebtedness."—

be, and the same hereby is, rescinded.

10. Ordered, That the order given its second and final reading and passage on December 11, 1933, and approved by the Mayor on December 12, 1933, to wit:

"Ordered, That in accordance with the provisions of chapter 366 of the Acts of 1933 the sum of $1,000,000 be, and hereby is, appropriated, to be expended, under the direction of the Commissioner of Public Works, for Reconstruction of Streets, and that to meet said appropriation the City Treasurer be authorized to issue, from time to time, upon request of the Mayor, bonds or certificates of indebtedness of the city to said amount, the same to be issued outside the limit of indebtedness."—

be, and the same hereby is, rescinded.

11. Ordered, That the order given its second and final reading and passage on December 11, 1933, and approved by the Mayor on December 12, 1933, to wit:

"Ordered, That in accordance with the provisions of chapter 366 of the Acts of 1933 the sum of $1,000,000 be, and hereby is, appropriated, to be expended, under the direction of the Commissioner of Public Works, for Sewerage Works, and that to meet said appropriation the City Treasurer be authorized to issue, from time to time, upon request of the Mayor, bonds or certificates of indebtedness of the city to said amount, the same to be issued outside the limit of indebtedness,"—

be, and the same hereby is, rescinded.

12. Ordered, That the order given its second and final reading and passage on December 11, 1933, and approved by the Mayor on December 12, 1933, to wit:

"Ordered, That in accordance with the provisions of chapter 366 of the Acts of 1933 the sum of $700,000 be, and hereby is, appropriated, to be expended, under the direction of the Commissioner of Public Works, for Water Main Construction, and that to meet said appropriation the City Treasurer be authorized to issue, from time to time, upon request of the Mayor, bonds or certificates of indebtedness of the city to said amount, the same to be issued outside the limit of indebtedness."

be, and the same hereby is, rescinded.

On May 7, 1934, the foregoing orders were read once and passed, yeas 16, nays 0.

The orders were given their second and final reading and passage, yeas 18, nays 0.

MASSACHUSETTS MEMORIAL HOSPITAL — RESTRICTIONS RELEASED.

President DOWD called up under unfinished business No. 4 on the calendar, viz.:

4. Whereas, The City of Boston by deed dated January 18, 1873, and recorded with Suffolk Deeds, Book 1144, page 33, conveyed a certain parcel of land now numbered 748 Harrison avenue and conveyed the said land subject to certain conditions or restrictions, two of said restrictions being numbered 4 and 5 and in the following words, namely:

"4. No dwelling house or other building except necessary out buildings shall be erected or placed on the rear of said lot."

"5. No building which may be erected on said lot shall be less than three stories in height, exclusive of basement and attic, nor have an ell of more than two stories in height, nor shall said building or said ell have exterior walls of any other material than brick, stone or iron, nor shall be used or occupied for any other purpose or in any other way than as a dwelling house or a dwelling house and apothecary, dry goods, provision, grocery or hardware shop."

and

Whereas, The City of Boston by deed dated August 24, 1871, and recorded with Suffolk Deeds, Book 1066, page 13, conveyed a certain parcel of land now numbered 744 Harrison avenue and 55 East Newton street, in said City of Boston, subject to certain conditions or restrictions, two of said restrictions being numbered 4 and 7 and in the following words, namely:

"4. No dwelling house or other building except necessary out buildings shall be erected or placed on the rear of said lot."

"7. The building which may be erected on said lot shall not be placed nearer the line of Newton street than six feet but bay windows and an open porch may be constructed on said building and said bay windows projecting to a line not nearer the said line of said Newton street than three feet therefrom and said porch projecting to a line not nearer the said line of Newton street than two feet therefrom."

and

Whereas, The Massachusetts Memorial Hospital, formerly the Massachusetts Homeopathic Hospital, a Massachusetts corporation, is the present owner of both of the above mentioned parcels and is desirous of using the said parcels for new hospital buildings to be built upon the said premises; now, therefore, it is hereby

Ordered, That his Honor the Mayor be, and he hereby is, authorized, in the name and behalf of the City of Boston, by a written instrument in form satisfactory to the Law Department of the City of Boston, to release, in so far as the City of Boston legally can, the said land from said restrictions without interfering with the legal or equitable rights of others.

On May 7, 1934, the foregoing order was read once and passed, yeas 15, nays 0.

The order was given its second and final reading and passage, yeas 16, nays 0.

CONFIRMATION OF WEIGHERS OF GOODS.

President DOWD called up, under unfinished business, No. 3 on the calendar, viz.:

3. Action on appointments submitted by the Mayor May 7, 1934, of Hugh P. McColgan and Martin J. Finn, to be Weighers of Goods.

The question came on confirmation. Committee, Coun. Agnew and Selvitella. Whole number of ballots 18, yeas 18, and the appointments were confirmed.

CONFIRMATION OF CONSTABLE.

On motion of Coun. SHATTUCK, No. 2 on the calendar was taken from the table, viz.:

2. Action on appointment submitted by the Mayor April 23, 1934, of Hyman S. Slate to be a Constable connected with official position, without power to serve civil process and to serve without bond.

The question came on confirmation. Committee, Coun. Finley and Green. Whole number of ballots 17; yeas 11, nays 6, and the appointment was confirmed.

SOLDIERS' RELIEF.

Coun. KERRIGAN, for the Committee on Soldiers' Relief, submitted report recommending passage of order for payment of aid to soldiers and sailors and their families in the City of Boston for month of May, 1934.

Report accepted; said order passed.

TRAIN STOP AT FOREST HILLS.

Coun MURRAY offered the following:

Ordered, That his Honor the Mayor be requested to take up with the officials of the New York, New Haven & Hartford Railroad the advisability of having all New York trains stop at the Forest Hills Station of said road.

Passed under suspension of the rule.

REPAIRING OF G STREET, WARD 7.

Coun. KERRIGAN offered the following:

Ordered, That the Commissioner of Public Works be requested, through his Honor the Mayor, to repave with smooth pavement G street, Ward 7.

Passed under suspension of the rule.

PLEDGE OF ALLEGIANCE TO FLAG.

Coun. WILSON offered the following:

Ordered, That the Boston School Committee, through his Honor the Mayor, be, and hereby is, respectfully requested to require, as a public school regulation, that a pledge of allegiance to the American Flag be repeated by the Boston school children in classrooms or assembly halls at least once each week during the school year and that teachers in the various grades be required to participate in the same.

Passed under suspension of the rule.

PUBLIC WELFARE ORDERS.

Coun. WILSON offered the following:

Ordered, That his Honor the Mayor be, and hereby is, requested to direct and require the Overseers of Public Welfare to forward promptly each week to the Statistics Department notice of any and all changes in the status of public welfare recipients.

Passed under suspension of the rule.

Ordered, That the Overseers of Public Welfare be directed, through his Honor the Mayor, to require hereafter that any and all recipients of dependent aid payments shall receipt for each payment in person, except in cases where payment is made by check, in which case the endorsement on the check shall be sufficient receipt.

Passed under suspension of the rule.

Ordered, That the Overseers of Public Welfare be requested, through his Honor the Mayor, to check from the records of the Massachusetts Registry of Motor Vehicles, either directly or through the Statstics Department, the names of all present recipients of welfare aid who hold a license to operate motor vehicles for 1934.

Passed under a suspension of the rule.

Ordered, That the Overseers of Public Welfare be requested, through his Honor the Mayor, to check and verify such names of any and all holders of pedler's licenses in the City of Boston as also appear on the records of the Public Welfare Department as recipients of aid.

Passed under a suspension of the rule.

Ordered, That the Overseers of Public Welfare be requested, through his Honor the Mayor, to advise the City Council as to the disposition, by said department, of cases of recipients who are found to have given incorrect statements on their applications, and recipients who have been found to have had improper stamping of work cards, and such recipients as are known to be habitual drunk cases.

Passed under suspension of the rule.

Ordered, That the Overseers of Public Welfare be requested, through his Honor the Mayor, to provide that, in the case of the proposed general re-registration and in the case of all new registrations, the statements by each applicant for aid shall be signed in person by said applicant and sworn to as true and correct before a notary public or justice of the peace in the employ of the Public Welfare Department.

Passed under a suspension of the rule.

Ordered, That his Honor the Mayor be, and hereby is, respectfully requested to require the Public Welfare Department, in its anticipated re-registration of all public welfare cases, to obtain with other necessary information:

a. A statement of whether or not the recipient is a citizen.

b. Whether the recipient is a registered voter and, if so, from what address.

c. The address of the registrant as of the date of obtaining the statement.

d. The recipient's address on April 1, 1930, 1931, 1932 and 1933.

Passed under a suspension of the rule.

Ordered, That the Overseers of Public Welfare be requested, through his Honor the Mayor, to provide that on the identification card of all recipients of public welfare there shall appear the signature and also a photograph of the recipient, and that the identification card, with such picture affixed, shall in every case be presented before any payment in cash to any recipient shall be made.

Referred to the Executive Committee, on motion of Coun. TOBIN.

Ordered, That the Overseers of Public Welfare be instructed, through his Honor the Mayor, to advise the City Council forthwith with reference to the active cases as of April 4, 1934, in Ward 9:

a. How many of said cases were aliens?

b. How many of said cases were registered voters in the City of Boston?

c. How many of said cases were last paid by check?

d. How many of said cases were last paid in cash?

Ordered, That the Overseers of Public Welfare be instructed, through his Honor the Mayor, to advise the City Council forthwith:

1. The number of visitors assigned to and actively doing work in Ward 9 during December, 1933, together with the name of each visitor.

2. The number of visitors assigned to and actively doing work in Ward 9 during April, 1934, together with the name of each visitor.

3. The number of visitors assigned to and actively doing work in Ward 9 as of April 1, 1934, together with the name of each visitor.

Ordered, That the Overseers of Public Welfare be instructed, through his Honor the Mayor, to advise the City Council forthwith as to what most recent date all cases still active on the Public Welfare lists as of April 1, 1934, in Ward 9, have been personally visited or otherwise checked up by any visitor of the Public Welfare Department.

Coun. WILSON—Mr. President, last night I was somewhat gratified to learn—although I did not have the privilege myself of hearing it over the radio—that Mr. McCarthy was reported as being highly incensed at my actions as a member of the special committee of the Council on the investigation of his particular department, and that he is very much aggrieved at the reflections cast on the employees of his department who, I gather from his statement, are 100 per cent honest and efficient. It is gratifying to me, as I know it must be to other members of the committee, and to the Council generally, to see that the special committee on this investigation is apparently getting in close enough to the root of the trouble, and closing in sufficiently on Mr. McCarthy himself for him to show evidences of heat, and my belief is that before we get done his temperature will rise four or five degrees higher. No member of this body for one moment claims or believes—certainly, I do not, myself—that the 285 visitors in the Public Welfare Department in 1932 or the 463 visitors in 1933 are all dishonest or inefficient. But I do charge that there is both inefficiency and dishonesty in the department, and Mr. McCarthy cannot duck the issue by attempting to hide behind the honest majority in the department over which he has been the head now for some years. Mr. McCarthy says that I have introduced a number of "juvenile orders" in the City Council in a desire for notoriety, and for publicity purposes. In that statement he is partly correct. If he means by "juvenile orders" that it is mere child's play to put the finger on inefficiency and dishonesty in his reeking administration of this $14,000,000 city luxury which has been in his charge, he is correct. If he thinks I have been aiming to let the light into the devious workings of the Public Welfare Department while its expenditures have jumped from around $2,000,000 in 1928 to over $13,000,000 in 1933, he is 100 per cent correct. Councilor Shattuck, back in December of last year, found out how much information he could get from Mr. McCarthy's department by a courteous letter of inquiry. I understand that he waited some time without getting any response whatever. But we are fortunately in a position by which we can force answers from that department and from Mr. McCarthy through orders in this City Council. I believe, further, that a certain degree of publicity relating to convictions in court for fraud, and relating to the progress and the results of our own investigation, will drive many hundreds of fraudulent cases from the rolls. The success of this investigation will be finally measured not by the number of men sent to jail, but by the number of fraudulent recipients and nonexistent cases purged from the welfare rolls. If, with all the publicity there has been and in spite of the new re-registration originally requested on April 16 by Councilor Agnew, and insistence on real identification slips, a re-check by the police, the trial of some fraud cases in court, and the use of outside detectives in the department, fraudulent conditions shall still be found to exist in the department, it will be on their heads. But when Mr. McCarthy asks me or the committee to give him names and numbers at this

stage of the picture, he is braying at the moon. We have had our experience with McCarthy, and expecting him to clean up the department is like trying to bail out a bathtub with a sieve. I believe we are going to get cooperation from the new Board of Overseers. Unlike the former Board, I do not believe the new Overseers feel that their duty is to serve as so much window dressing. I gather the impression, and I hope correctly, that the present Board feel that they are not placed there in any such capacity. I think that our committee is making real progress. I feel that we are getting close enough to the throne to irritate his Majesty on Hawkins street. The results of the investigation so far, the things that have happened since it started, are more or less enlightening as a matter of record. On March 19 Councilor Fitzgerald introduced his order asking that a special committee of five members of the City Council be appointed to investigate the expenditures, distributions, conduct and management of the Public Welfare Department of the City of Boston and to report to the City Council on or before the ninth day of April, 1934. Within two weeks of the introduction of that order, the man upon whom we chiefly relied, for obvious reasons, to point out the irregularities of the department, was fired, despite the fact that the records show that Mr. Balfe, whose resignation was demanded by the Mayor, had served as the competent head of the Statistics Department for many years; and I now reiterate the charge made at that time, that Mr. McCarthy got in his work and that Mr. Balfe fell, lost his head, as a martyr to the cause. We see the first and immediate result of Councilor Fitzgerald's order introduced into the City Council in the removal of Mr. Balfe, who had stated to us within two weeks, in response to an order, that the work of his department in the matter would be completed by April 22. And then Mr. Balfe's head fell. I made the charge two weeks ago that, since he was an appointive official like Mr. Balfe, and not elected, like members of the City Council, he would soon go after Assistant Corporation Counsel Frank Whelton, who, acting ably and energetically, obtained seven convictions out of eight trials of people who had been fraudulently receiving aid; and I again predict that he will get Whelton's head, the man who successfully conducted those prosecutions, as I myself observed, sitting in the courtroom for part of two days. So I repeat the prediction that Mr. Whelton will be fired from the office of the Corporation Counsel inside of thirty days. If Mr. McCarthy wants some facts and figures, there are plenty that are accessible and that he can easily obtain. In fact, names can be given if, as he claims, he wants information. While he is seeking facts from this committee, I suggest that he go over some of the facts and figures that have been brought out since last autumn, that he look up the facts in connection with the court cases, that he read over the affidavit of December 15, a copy of which I saw in the East Boston police station, giving the names of at least three fraudulent recipients of money, and giving the name and address of at least one holder of a fraudulent stamp. I suggest that before Mr. McCarthy accuses the members of the Council of being notoriety seekers he examine into some of the facts and figures that he has had since Christmas of last year, in affidavit form. Last week, when this special committee met, having heard Mr. McCarthy's suggestion that a trip to East Boston was in the nature of fighting windmills,—although I do not believe he used that exact simile,—we were given to understand that the addresses must have been wrong, although members of the committee called at addresses of supposed welfare recipients, who had not been police listed in 1932, 1933, or as recently as the first of April of 1934, although the records we got from the Statistics Department supposedly carried the situation down to the fourth of April. Last week we were told by the representative of the Statistics Department of the difficulties they had been having in keeping their records, supposedly accurate records, so far as the Welfare Department was concerned. There had been great difficulty and delay in obtaining them, and when they did come through, dealing with cases upon which the Welfare Department had been ordered months ago to send through the Statistics, all sorts of changes in addresses and misleading things were found. When they knew that we were looking into Ward 1, perhaps the heaviest welfare ward, and another one of the heavy welfare wards, Ward 9, strangely enough there came through from the Statistics Department last week 2,500 changes, on reports from the Welfare Department, ranging all the way from September of last year to May 16 of this year. So I think it is fair for the committee of the City Council to assume and draw the legitimate conclusion that some of the cases that came through last week out of a clear sky, in a hurry, were intended to cover up the situation in Wards 1 and 9. Presumably this information should be up to date, and we hope that the information we now have will at least help to clear the situation up—particularly when we have found in looking up so-called residences that they have been in markets, stores, locked up places, tobacco shops and impossible locations. That is the situation that has been going on for many months. We have never been able to get any real information from Mr. McCarthy in answer to requests that have been made time and time again. So I hope now that the committee will receive some support, some help, in getting the information it is after. The suggestion has been made that this is merely an effort to cut out the poor fraudulent slob who has been inveigled into trying to get $12 or $15 from the city, but it is more than that. It is an effort to get at the thieving that is being done right in the department. We are trying, by working with a detective agency, to get at the real situation outside and inside; and I say to Mr. McCarthy, if this effort on the part of the committee is to be successful, when it comes to knowing the names and identities of the detectives who go into the department, you should be the last man in the world to know who the operatives are and what they are doing. And you can draw your own conclusions as to what I mean by that statement.

Coun. McGRATH—Mr. President, I don't want to appear as one who says "I told you so," but a few weeks ago I told my brother that if he were to be too critical of the Welfare Department he might find himself a victim similar to the victim I have been in the last two years. I had the temerity to go to the State House this year and talk for a bill that would put the Welfare Department under one head, with two paid deputies, and a representative of Mr. McCarthy appeared before the Legislature to oppose the bill. He singled out the gentleman from Ward 3 (Coun. Fitzgerald) and abused him until certain members of the committee resented it. He then turned his attention to the gentleman from Ward 18 (Coun. Norton) and what a job he did on him! But when my name was brought up, Oh, what a handsome job he did! I have a stenographic copy of the report of that meeting, and let me say that it is a corker! I will keep it because I certainly feel that we must have scored in order to bring forth this wrath and resentment of Mr. McCarthy's representatives before that committee. There was certainly plenty of abuse of the members of this City Council who felt that they were doing their duty when they went there. Let the councilor from Ward 17 (Coun. Wilson) realize that this is but the start of the abuse that will be heaped on his head. He is going ahead in this campaign in the belief, which we all have, that the most despicable thief in the city is the petty thief who steals bread and milk from a hungry child. He knows in his ward, as I know in mine, hundreds of decent mothers who have been cut down in their supplies to the point where it hurts, whose children have been denied that which they should have, because of improper use of the aid which has been given; that owners of automobiles have been granted money on many occasions which has simply been used for their own pleasure and not for the care of their families; that many who have received aid have simply used it for drink, instead of for the care of those dependent on them. And because some of us have had the courage to stand on this floor and fight for those deserving recipients of welfare we have been reviled and besmirched. Help to deserving recipients of welfare, as I have often said, is a God-given duty and a privilege. God taught me that we must properly provide for the poor; God taught the gentleman from Ward 17 (Coun. Wilson) whose hand is ever in his pocket to help those in need, silently and quietly, that he must do what he can to properly provide for the worthy poor. But what about the miserable parasite who walks into this hall and says, "Can you take me down to the Welfare without 'her' knowing anything about it?" Who is "her?" The woman, the wife. Where is she? At home, with her several kiddies. "I don't want her to get the money!" There he is, a drunkard, trying to take away from his wife and those little children their food and sustenance, spending on himself the money that should be spent on his family. And he is supposed to be a "game" fellow! Oh, yes, he is a good fellow around the corner. He buys a pint of alky and invites the bums on the corner to have a drink, and he is a great fellow. Who are high-hat Wilson or high-hat McGrath to try to say anything to him? Doesn't he buy alky for the gang? Sure he does, and at the expense of those little hungry ones, his own flesh and blood. If it takes courage to stand on the floor of this Council and fight for the mothers of children who are trying to put food into the stomachs of their little ones, instead of the poison that is put in the stomachs of the fathers, the councilor from Ward 17 possesses that courage, and I feel that I possess some of that same courage. I had my experience during my election, in the past year. Signs appeared in every place opposing me and favoring my opponent, with the name "DeMarco" on the sign. DeMarco, a visitor in the Public Welfare Department, had evidently been sent out to defeat me, at the direction of Walter McCarthy; and the Mayor of Boston had to send for Peter DeMarco and say, "You will spend more time down there at your job, aiding the poor, and not enter into political contests." And that has been the result with every decent, honorable and courageous fellow who ever sat in this Council and who made a fight for the city employees whose salaries have been cut in order to meet that $14,000,000 expenditure for public welfare. It means all these additional taxes for the already-overburdened man, paying taxes on his little home, who has a very hard time nowadays to save money enough to pay his taxes. And so this is a matter that every deserving person in this city is interested in, parents who have to feed their little families and who have to pay taxes on their little homes, and whose allotment of wages in many cases has been cut down because the drunkard and the other useless chap is guilty of petty larceny, theft, taking money that should have gone for the maintenance of wives and children to buy alcohol or to get gasolene to run an automobile. And still those of us who have made the fight in the interest of these poor and deserving people have been accused of baiting the recipients of welfare! There is not a man in this Council who should be afraid of an honest investigation of the Public Welfare Department; there is not a man in the Council who should take a back step simply because he is accused of baiting the recipients of welfare. I say to you, gentlemen, that we have had that board reorganized. Formerly at the head of it was one of the most philanthropic men, one of the finest men in this city, and in the good days few gave as much money to the poor of Boston as Simon Hecht. In his quiet, affable, gentlemanly way, he believed there was no harm in anyone, and he allowed himself to come under the domination of Walter McCarthy. Every time when a question was asked here of Mr. Hecht, it was answered by McCarthy. But, thank God, we now have at the head of that department James McMurry, and McCarthy cannot block or fool McMurry. We have had more cooperation in the last two weeks, through the efforts of McMurry, than we have had for two years before. They are wise to McCarthy, and McCarthy has not been sent for by the committee. For years we would ask him questions here and would get the same old answers that meant nothing. I used to say to the committee before we would open the door for the entrance of Mr. McCarthy, "I will ask seven questions and I can give you absolutely the seven answers I will get;" and I would ask the questions and I would get those very answers. "Where is the most relief given?" "From East Boston to the Dedham line." "What as a rule is the amount expended for welfare?" "Well, you see, it varies, some days more, and others less!" And so on, and so on, with inconclusive and uncertain replies to your questions. But now we have Jim McMurry, a courageous man, a smart man, a man wise to curved ball pitching, and of course it hurts these fellows. And so the thing has been traveling on, with these hearings and so forth, for a month, and Mr. McCarthy has never even been invited, because he cannot now start in and dominate this committee, giving a lot of foolish answers. We are working along with the Board of Overseers, under this new departure in which McCarthy does not fit. Let him mind his own business, and the committee will mind theirs. That committee proposes to function, with such valuable members as the gentleman from Ward 3 (Coun. Fitzgerald), the gentleman from Ward 5 (Coun. Shattuck), the gentleman from Ward 15 (Coun. Tobin) and the gentleman from Ward 17 (Coun. Wilson), all of whom have attended every meeting; and I can promise the citizens of Boston that we are making rapid headway. We are keeping our mouths shut, but when the time comes for us to "put up or shut up" we will "put up," and those who have been putting it over on the citizens of Boston for a long time will shut up.

On motion of Coun. GLEASON, the orders relating to Ward 9 were declared referred to the Executive Committee.

EAST BOSTON BRANCH OF WELFARE WORK.

Coun. SELVITELLA offered the following:

Ordered, That the Mayor of Boston be requested to consider the advisability of requesting the Board of Public Welfare to decentralize and establish a branch in East Boston, to carry on the work of the department in that section.

Passed under suspension of the rule.

NAMING OF EAST BOSTON TUNNEL FOR MARTIN LOMASNEY.

Coun. SELVITELLA offered the following:

Whereas, The late Martin M. Lomasney was a powerful factor as a member of the Great and General Court in securing legislation authorizing the construction of the vehicular tunnel between the city proper and East Boston;

Whereas, The late Martin M. Lomasney as a member of the city government of Boston, as a member of the Legislature of the Commonwealth, and as a member of the Constitutional Convention, was outstanding in his advocacy of measures for the general welfare;

Resolved, That the City Council of Boston approves the suggestion that vehicular tunnel be named, "The Martin M. Lomasney Tunnel."

Resolved, That a copy of these resolutions be sent to his Excellency the Governor of the Commonwealth, to the Honorable the Senate of the Commonwealth, and to the Honorable the House of Representatives of the Commonwealth.

Referred to the Executive Committee.

COST OF BROADCASTS.

Coun. SELVITELLA offered the following:

Ordered, That his Honor the Mayor of Boston furnish the City Council the total cost of his

broadcasts over Station WNAC on the evening of April 5, 1934, and on Station WBZ on May 16, 1934, and whether or not these costs are chargeable and to be paid by the City of Boston.

Coun. SELVITELLA—Mr. President, on that last order, regarding the cost of broadcasting, I realize that the amount involved in the broadcast of April 5 is only $250; but I am not concerned so much with the amount of that particular broadcast as with the fact that this broadcasting that the Mayor has been doing and is contemplating is charged to the taxpayers of Boston. While we have no control over the matter, while he is weeping and whining on the radio, using the money of the taxpayers of the City of Boston to spread certain of his statements, I think it advisable that the Mayor, when he is explaining these various acts and trying to justify his attitude to the people of Boston, ought to go into details. I would like to have the Mayor of Boston explain, for example, why on May 3 of this year he gave a $10,000 contract without any bidding or without calling for bids for the rebuilding of a coal pocket at Deer Island. This contract was given to a Mr. M. Loonie, who I understand was a heavy political contributor to the Mayor's campaign. Mr. Loonie, up until the time when this contract was awarded to him, did not even have a builder's license. There are also estimates on file in the Building Department showing the probable cost of rebuilding that coal pocket at Deer Island for $5,000. Yet the Mayor of Boston has again broken one of the campaign pledges he made during the last campaign, when he said he would not give out a single contract without calling for public bids. He has in this case taken $10,000 out of the taxpayers of Boston, without even asking a reputable builder to give him an estimate, in order to reward one of his chief campaign contributors. While he is explaining over the radio, I would also like to ask him why on May 11 he set up a Tax Appeals Board, in reality making this Board its own judge and jury to settle tax cases here in the City of Boston. I am going to read, with your permission, an article that appeared in the Boston *Post* of the morning of May 12, and this article will be my answer to him, when a few days ago he said, "There is no foundation whatsoever for a statement which recently appeared in the press to the effect that Alexander Whiteside and certain lawyers from his office were constituted as a board to settle tax cases now before the appeal board." My answer now is this, quoting the statement that appeared subsequently in the *Post*, setting forth what had been done.

"In a new drive to settle tax abatement cases on Boston real estate valued at more than $600,000,000, Mayor Mansfield conferred for more than three hours yesterday afternoon at City Hall with prominent bankers, attorneys and real estate experts. Instead of forcing the property owners to try their cases before the State Board of Tax Appeals, the Mayor has ordered the city assessors to sit in with his special committee to settle the cases and adjust their difference in order to start off on a new deal in the matter of tax assessments. It is the purpose of the Mayor to clear the docket of the State Board of Tax Appeals of the hundreds of Boston cases involving downtown real estate which have been pending for the past two or three years. His committee, at the close of the conference last night, was prepared to confer with lawyers representing all the tax appeal cases now pending before the State Board 'in order to arrive at a reasonable method of adjusting these cases,' the Mayor said. This committee includes John C. Kiley, prominent downtown real estate expert; former Corporation Counsel Alexander Whiteside, who served the city under former Mayor Peters; Howard Stockton, prominent banker, and Scott D. Ferguson, tax abatement counsel."

This man Kiley has been engaged, hired, by the firm of Warren & Whiteside, on their cases. And here is former Corporation Counsel Alexander Whiteside, a member of that committee, a man who at the present time has more than a thousand cases pending before the Tax Appeals Board. Serving on that committee also, we find the name of Howard Stockton, son of Philip Stockton, president of the First National Bank, and a member of the firm of Warren & Whiteside. This committee on May 11 was appointed by the Mayor to settle these cases. They are going to be the judge and jury, although they have at the present time over a thousand cases pending, and this Board, composed of these men who are interested, is going to settle the cases. In reality they are going to meet themselves and are going to come in with recommendations asking the City of Boston to allow them at least 40 per cent abatement, where the State Board of Tax Appeals since January 1st has taken a broad attitude on these abatements and has allowed an average of 10 or 15 per cent. But this committee that the Mayor has appointed were not satisfied with the decisions of the State Board of Tax Appeals, became frantic and persuaded the Mayor to form this committee to settle these cases. And we are all familiar with the Mayor's announcement of May 18, when he entirely switched, when the searchlight was thrown upon him and he found his mistake in taking the advice of these men and permitting them to name their own committee. And, while he is on the radio I would like to remind him, again, of a pledge he made on October 31st, when he said that all bonding of the City of Boston was going to men who were in the business, and not going to one individual, as was done under the previous administration. I would like to ask the Mayor why his brother-in-law, Louis Roe, has been able to receive 75 per cent of the bonding that has been given out by the City of Boston. In other words, his brother-in-law at the present time is receiving the bulk of the bonds of the city; and this is another campaign pledge that has gone to the winds. I suppose we may continue to hear periodically these weepings and whinings, but it is not fair that the taxpayers of Boston should be obliged to pay for his broadcasts in order to disseminate wrong information to the people of Boston.

Coun. FITZGERALD—Mr. President, I cannot allow this to go unanswered. I am not here defending his Honor the Mayor, but I say to the gentleman that he has passed beyond the line of fair criticism and has allowed a lot of things to get in the record that are not so. He knows perfectly well, when he mentions the name of John C. Kiley and Alexander Whiteside, with the implication that they themselves were to settle cases in which they were interested, that he lies. Why not state the thing fairly? These men were called into the Mayor's office. They represented clients, the same as you represent clients, and I don't think you would hesitate for one moment, if any of these big men in Boston real estate hired you, to try to get their taxes abated. I am quite sure that you would not refuse. But the truth of the matter is that the Mayor sent for John C. Kiley as a well-known real estate expert of this city, an expert whose services have been continually sought by the City of Boston, with the idea that these matters might be taken up and some compromise arrived at. There are millions of back taxes being held up in the City of Boston in connection with these tax appeals. One moment you are crying out on behalf of the poor city employees who are having their salaries cut. One of the reasons why those salaries have been cut is because of the difficulty of getting in taxes. Many men who own property in this city feel that they have been improperly treated by the Board of Assessors, and they employ lawyers and real estate experts to represent them in trying to get those taxes abated. Mr. Kiley is a well-known real estate expert. There is but one man in this body whom I consider to be the equal of Mr. Kiley as a real estate expert on city property, and no doubt if that councilor were not a member of the body he could make thousands and thousands of dollars as a real estate expert. That is the mistake that many men in politics make, to indulge in attacks of this kind. It is absolutely unfair. I am not a defender of Mr. Whiteside or of Mr. Kiley in this matter, if they are wrong. But it is unfair, without any facts to support the assertion, to assail them in this way and say that what they are doing is wrong. They have the same right to represent these taxpayers that they would have to represent you or me. And so I say that this attack is absolutely unfair, and I cannot let it go by without an answer. It is so with the broadcasts. The Mayor of Boston has a right to bring his case before the public. That is one means that is recognized by the people of bringing to their attention certain situations and certain facts. He, as the chief executive of this city, I believe has a right to do that. I am not here defending him, but I am speaking in the interest of fair play. I do not believe in wasting the time of this body in petty matters. You have some good stuff. If there is something wrong about the bonding that is being done by the city, it is all right to bring it out, but to simply indulge in cheap publicity, trying to make it appear without any substantiating fact that these men are trying to rob the city is unfair.

Coun. SELVITELLA—Mr. President, I cannot let this matter go without answering my colleague from Ward 3 (Coun. Fitzgerald). He knows, as I know and as every man in the Council knows, that what I have said here is based entirely upon what was released to the press, as it appeared in the papers of May 12. I will read it again, as follows:

"Instead of forcing the property owners to try their cases before the State Board of Tax Appeals, the Mayor has ordered the city assessors to sit in with his special committee."

Who are the members of this special committee? I will name them again —Alexander Whiteside, Howard Stockton and John C. Kiley. Mr. Kiley has been engaged, hired by Alexander Whiteside and by Mr. Stockton in cases of this kind; and this special committee is going to sit in with the assessors and try to settle its own cases before the State Tax Appeals Board. Why shouldn't other lawyers be called in? There must be hundreds of them. Why not call in those men and make them a part of the special committee? But no, it is the State street bankers who are to be treated in this way. And so I will continue to make these charges, because it is evident that the Mayor of Boston is not doing this sort of thing for the small property owner, such people as I represent or as the majority of the councilors here represent, but for these large property owners. I know that in my district there are plenty of small property owners, home owners, who have not been able to pay their taxes since 1931, and who are not getting abatements, and these big people are now going to receive at least 40 per cent in the way of abatements. Is it fair that the small property owner shall be compelled since 1931 to pay his or her taxes, the person who has to borrow money in many cases to pay his taxes, while these big corporations and bankers appeal their cases and have them pending for three years before that board, and now when they find that the Appeal Board is simply going to allow them 10 or 15 per cent to have this so-called special committee organized?

Coun. SHATTUCK—Mr. President, I saw in the paper, I think, within two or three days, a statement which purported to come from the Mayor to the effect that he had appointed a committee consisting entirely of officials of the City of Boston — I think the Corporation Counsel, the Budget Commissioner, and one or two others, exclusively officials of the City of Boston — to sit in with the assessors and consider these assessment questions. That seems to be quite at variance with what the gentleman has just been talking about, and it would seem to me to be a most proper way to handle the matter.

Coun. FITZGERALD—Mr. President, I would say for the benefit of the gentleman from Ward 1 (Coun. Selvitella), that I know of over four hundred cases of small property owners in the ward I represent whose requests for abatements have been rejected by the Board of Assessors; but I wish to say, if you will look over the records, you will find a statement by the councilor from Ward 18 (Coun. Norton) to the effect that the former administration went to the Board of Appeal and put $5 down in the case of each small property owner, in order to tie the thing up for the next two years. I reiterate that the councilor has taken an unfair advantage of the men named, who went there unsolicited. The article does not give the name of William J. Flaherty there. Several lawyers were called in. The papers do not always give a full account of things. But several lawyers were named — and I am only sorry that you were not there.

The order was passed under suspension of the rule.

HOT WATER FOR SHOWERS.

Coun. DOHERTY offered the following:

Ordered, That the Park Commission be requested, through his Honor the Mayor, to furnish hot water for the summer for shower baths on all playgrounds in Ward 10.

Passed under suspension of the rule.

CONFIRMATION OF CONSTABLES.

Coun. GOLDMAN—Mr. Chairman, on behalf of the Committee on Constables, I move to call up the names of Charles A. Bancroft and Michael F. Simmons, whose names appear in No. 1 on the calendar, under unfinished business.

The names of Charles A. Bancroft and Michael F. Simmons, appointed as constables authorized to serve civil process, were submitted by the Mayor on April 16, 1934. The Council voted to take the names up, and the question came on confirmation of the appointment of the constables referred to. Committee, Coun. Finley and Fitzgerald. Whole number of ballots, 19; yeas 14, nays 5, and the appointments were confirmed.

COSTIGAN-WAGNER BILL.

Coun. BRACKMAN, GLEASON and ROBERTS offered the following resolution:

Whereas, The Congress of the United States has before it for consideration the Costigan-Wagner bill termed and so-called anti-lynch bill; and

Whereas, The bill has received the approval of legions of citizens both in the Commonwealth of Massachusetts and in our own City of Boston; be it

Resolved, That the City Council of Boston favors the proposed legislation and urges the Congress of the United States to enact the same into law; and it is further

Resolved, That a copy of this resolution be forwarded to the presiding officers of both houses of Congress, to the Massachusetts Senators and Representatives therein, and to Senators Costigan and Wagner.

Referred to the Committee on Rules.

USE OF RADIO AT LONG ISLAND.

Coun. GREEN offered the following:

Ordered, That the Institutions Commissioner be requested, through his Honor the Mayor, to allow patients at Long Island the use of the radio on every evening until 8 o'clock.

Passed under suspension of the rule.

DECENTRALIZATION OF PUBLIC WELFARE DEPARTMENT.

Coun. NORTON offered the following:

Ordered, That the Mayor of Boston be requested to consider the advisability of requesting the Overseers of the Public Welfare Department to decentralize the work of the department into the various sections of the city.

Passed under suspension of the rule.

LOCATION OF VOTING BOOTHS.

Coun. NORTON offered the following:
Ordered, That the Mayor of Boston consider the advisability of requesting the Election Commissioners to have a study made of the location of voting booths in the City of Boston.

Coun. NORTON—Mr. President, I understand that there is one ward of Charlestown where, within 400 yards, there are something like twelve or more voting booths. I am not objecting to that, but, owing to the fact that in Ward 18 there is one section in the Cleary square area where voters have to walk a mile to deposit their ballots, I think it might be well to make a study of this question. I trust, therefore, that there will be a study made of the location of voting booths throughout the city.

The order was passed under suspension of the rule.

MATERNITY CASES AT CITY HOSPITAL.

Coun. NORTON offered the following:
Ordered, That the Mayor of Boston consider the advisability of requesting the Trustees of the Boston City Hospital to admit all maternity cases, regardless of the question of payment, where the patient is a resident of Boston.

Coun. NORTON—Mr. President, I certainly think this is a matter well worthy of consideration. I understand that there were 16,239 births in Boston in 1933; that 962 of these babies died in the first year and 104 mothers died in childbirth. Believing that this record can be cut down by proper pre and post natal care, together with efficient maternity hospitalization, I have introduced this order. I understand that the United States leads the world in the number of deaths in childbirth, and that a larger number of the forty-four babies being born every day in Boston can be saved, as well as the mothers.

The order was passed under suspension of the rule.

RESIGNATION OF SECRETARY WALTER V. McCARTHY.

Coun. NORTON offered the following:
Ordered, That the Board of Public Welfare, through his Honor the Mayor, be requested to consider the advisability of requesting the resignation of Secretary Walter V. McCarthy.

Referred to Executive Committee.

BRIDGE OVER BLAKEMORE STREET, ROSLINDALE.

Coun. NORTON offered the following:
Ordered, That the Mayor of Boston be requested to consider the advisability of requesting the city and Federal authorities engaged in rebuilding the bridge over the New York, New Haven & Hartford Railroad tracks, on Blakemore street, Roslindale, to take steps to expedite the completion of this work.

Coun. MURRAY—Mr. Chairman, that happens to be a matter that affects my section, and I would like the councilor to understand that I have taken steps towards having the bridge reopened.

Coun. NORTON—Well, Mr. President, the bridge happens to start on one side, in my ward, and then goes over to his. The section particularly affected happens to be the Mt. Hope section, which happens to be in my ward. I shall certainly be glad to see the work on the bridge expedited, as the existing condition is more or less a disgrace to the section.

Coun. MURRAY—Mr. President, I happened to be looking after this matter while the gentleman was traveling all over the country getting statistics.

The order was passed under suspension of the rule.

SIDEWALK ON ASHMONT STREET.

Coun. FISH offered the following:
Ordered, That the Commissioner of Public Works make a sidewalk along Ashmont street in front of Nos. 250 and 256, between Nos. 276 and 296, in front of No. 298, between Nos. 302 and 328, inclusive, in front of No. 332 and from No. 340 to Adams street, Ward 16, in front of the estates bordering thereon; said sidewalk to be from 3 to 10 inches above the gutter adjoining, to be from 5 to 12 feet in width, and to be built of artificial stone, with granite edgestones, under the provisions of chapter 196 of the Special Acts of 1917.

Passed under suspension of the rule.

RECESS.

The Council voted at 3.37 p. m., on motion of Coun. GOLDMAN, to take a recess subject to the call of the Chair. The members reassembled in the Council Chamber, and were called to order by President DOWD at 4.56 p. m.

EXECUTIVE COMMITTEE REPORTS.

Coun. WILSON, for the Executive Committee, submitted the following:

1. Report on petitions (referred today) for children under fifteen years of age to appear at places of public amusement, viz.:

Katherine G. O'Gorman, Shubert Theatre, May 25; Lavinia A. Hogan, Repertory Theatre, May 24; Children's Welfare Association of East Boston, East Boston High School, June 2, 4, 1934; Ruth Hawes, Municipal Hall, June 12; Ella Karabelnick, Repertory Theatre, June 11; Mary E. Ring, Brightelmstone Hall, June 8; M. Theresa Connell, Peabody Playhouse, June 4; Anne Marie Casey, Gate of Heaven Hall, June 4; Josephine Leonard, Repertory Theatre, June 2; Mary G. Donovan, Dorchester High School for Boys, May 28; Rev. Father William Gross, Grover Cleveland School, May 27; Anna M. Greene, Current Events Hall, May 26, recommending that leave be granted on usual conditions.

Report accepted; leave granted on usual conditions.

2. Report on petition (referred May 7) of William R. Welch for license for outdoor sports on Sabbath Day on premises on Gerard and Island streets—recommending that permit be granted.

Report accepted; leave granted on usual conditions.

3. Report on resolve (referred today) that East Boston vehicular tunnel be named for late Martin M. Lomasney—that same ought to pass.

Report accepted; said order passed.

4. Report on order (referred today) requesting certain information from the Public Welfare Department concerning visitors in Ward 9—recommending passage of accompanying new draft, viz.:

Ordered, That the Overseers of Public Welfare be instructed, through his Honor the Mayor, to advise the City Council forthwith:

1. The number of visitors assigned to and actively doing work in Wards 9 and 13 during December, 1933, together with the name of each visitor.

2. The number of visitors assigned to and actively doing work in Wards 9 and 13 during April, 1934, together with the name of each visitor.

3. The number of visitors assigned to and actively doing work in Wards 9 and 13 as of April 1, 1934, together with the name of each visitor.

Report accepted; said order passed.

5. Report on order (referred today) with reference to payments to public welfare recipients—recommending passage of accompanying new draft, viz.:

Ordered, That the Overseers of Public Welfare be requested, through his Honor the Mayor, to provide that on the identification card of all recipients of public welfare there shall appear the signature, and such other identification as the Overseers of Public Welfare may consider advisable, and that the identification card shall in every case be presented before any payment in cash to any recipient shall be made.

Coun. TOBIN offered the following:

Ordered, That the report of the Executive Committee be amended by inserting after the word Identification in line 4 the words "provided such other identification does not include a photograph of the applicant."

Coun. TOBIN—Mr. President, under the order as originally introduced today the Welfare Department was requested to have the applicant for aid have his picture on his identification card. That idea was sponsored and set forth in the newspapers of the city during the past week. It appears to me, in a matter of this kind, where we are at present engaged in an investigation of the Welfare Department, and where the department itself is more or less shifting or uncertain in reference to the best policy to be pursued, the City Council should not be placed in the position of passing orders or resolutions suggesting "such other identification" upon which the Overseers may later seize as a means of using the photographic idea, then saying that the matter was suggested by the City Council. I think we ought to be more definite than we are in the language of the order we have reported, and for the further reason that this very subject was taken up by the chairman of the Board of Overseers at a meeting of the committee investigating the Public Welfare Department. I think I may say also in passing that this whole matter being in the hands of the committee we would do well, until there are further findings of fact by that body, to leave these questions in the hands of the committee until the final report is submitted to the body.

Coun. WILSON—Mr. President, on some measures of policy the point raised by the gentleman from Ward 15 (Coun. Tobin) might be well taken; but we must bear in mind the fact that the present welfare expense of the City of Boston is in excess of $14,000,000 a year, or $250,000 a week, and $30,000 a day, and that this enormous expenditure for public welfare, as the chairman of the committee stated before the recess, is almost the sole reason for the 15 per cent cut in the remuneration of city employees. Having that in mind, and having in mind Coun. Agnew's idea of complete re-registration of recipients throughout the city, something which is already in process, it does seem as though this is a matter that should be attended to now, while the re-registration is going on, and that the entire purpose of these orders looking to the safeguarding of the city's expenditures in this direction will be practically almost entirely negatived if we wait a month or two. Let us bear in mind the fact that the sooner we can take action which will result in cutting down this expenditure of $30,000 a day, the better. It would be well if it could be reduced, under the present circumstances, within twenty-four or forty-eight hours. The reason why the wards represented by the gentlemen from Ward 1 and Ward 9 are chiefly concerned at the present time is due to the fact that the committee has been investigating conditions, up to date, in those two largest welfare wards of the city, and up to date—we trust that the situation will improve in that respect—we have been unable to get replies from Mr. McCarthy in answer to the ordinary communications that go through the mail. I assume that other members of the committee—and this certainly is my position—would prefer to obtain accurate information from Ward 9 and from Ward 1 without the necessity of spending time going over there. It is for the reasons that have been stated, and because I don't believe this matter should wait, having in mind the constantly rising expense I have referred to, that I believe we should act at this time.

Coun. Tobin's amendment was declared rejected. Coun. Selvitella doubted the vote and asked for a show of hands. The amendment was adopted, 12 to 5.

The report was accepted, and the order as amended by Coun. TOBIN was passed.

6. Report on orders (referred today) requesting certain information from Overseers of Public Welfare concerning public welfare cases in Ward 9, recommending passage of accompanying new draft.

Ordered, That the Overseers of Public Welfare be instructed, through his Honor the Mayor, to advise the City Council forthwith as to what most recent date all cases still active on the Public Welfare lists as of April 1, 1934, in Wards 9 and 13, have been personally visited or otherwise checked up by any visitor of the Public Welfare Department.

Report accepted; order passed.

7. Report on order (referred today) requesting certain information from the Overseers of Public Welfare concerning public welfare cases in Ward 9, recommending passage of the accompanying new draft, viz.:

Ordered, That the Overseers of Public Welfare be instructed, through his Honor the Mayor, to advise the City Council forthwith with reference to the active cases as of April 4, 1934, in Wards 9 and 13.

a. How many of said cases were aliens?
b. How many of said cases were registered voters in the City of Boston?
c. How many of said cases were last paid by check?
d. How many of said cases were last paid in cash?

Report accepted; order passed.

WELFARE BRANCH IN WARD 15.

Coun. TOBIN offered the following:
Ordered, That the Overseers of Public Welfare be requested, through his Honor the Mayor, to establish a branch office in Ward 15 when the work of that department is decentralized.

Passed under suspension of the rule.

COST OF P. W. A. PROJECTS.

The following was received:

City of Boston,
Law Department, May 21, 1934.

John E. Baldwin, Esq.,
Clerk, Executive Committee, City Council.

Dear Sir,—*Re* P. W. A. Docket No. 4205, Reconstruction of Ten Major Streets; P. W. A. Docket No. 4207, Surgical Building at City Hospital; P. W. A. Docket No. 4214, Replacing Brookline Avenue Water Main; P. W. A. Docket No. 4217, One New High School and One New Intermediate School; P. W. A. Docket No. 4193, Construction and Reconstruction of Sewers; P. W. A. Docket No. 7223, Elm Hill Water Main; P. W. A. Docket No. 8200, Police Department Communications System.

On May 7 the members of the Executive Committee of the City Council requested that I furnish them with information relating to the total estimated cost of P. W. A. projects of the City of Boston, the amount of grant for each project under the original Loan and Grant Agreements and the amount of grant for each project under the new Grant Agreements.

In the table hereinafter set forth, Column I represents the P. W. A. project number; Column II, a brief description of the project; Column III, the total estimated cost of the project; Column IV, the maximum amount of grant payments as set forth in the original Loan and Grant Agreements; and Column V, the maximum amount of grant payments as set forth in the new Grant Agreements.

I. P. W. A. Docket Number.	II. Project.	III. Total Estimated Cost.	IV. Grant: * † Loan and Grant Agreement.	V. Grant: * Grant Agreement.
4205	Streets	$1,000,000	$191,000	$275,400
4207	Surgical Building	1,500,000	294,000	422,400
4214	Brookline Avenue Main	350,000	67,000	97,000
4217	Schools	2,000,000	392,000	564,400
4193	Sewers	1,000,000	182,000	262,000
7223	Elm Hill Main	700,000	‡	200,000
8200	Police Communications System	350,000	‡	88,500

The amended project of reconstructing the Northern Avenue Bridge at a total estimated cost of $375,000 has not yet been approved by the State or Federal authorities.

Very truly yours,
HENRY E. FOLEY,
Corporation Counsel.

* In the original Loan and Grant Agreements (now rescinded) and also in the new Grant Agreements the grant for each project is "an amount not to exceed 30 per centum of the cost of labor and materials employed upon the project."

† Provision was made in the original Loan and Grant Agreements to cancel bonds so that the amount set forth in Column IV above, plus the amount of bonds canceled would equal 30 per cent of the cost of labor and materials employed upon the project.

‡ No Loan and Grant Agreements were ever received from the Government in connection with the Elm Hill District Water Main and the Police Communications System Projects and the city was enabled to secure Grant Agreements through the release of funds resulting from the rescission of the Loan and Grant Agreements.

Placed on file.

OPERATION OF BUSSES IN DORCHESTER.

Coun. FISH offered the following:

Ordered, That the Board of Trustees of the Boston Elevated Railway be requested to take the necessary steps to discontinue the operation of busses on Milton street and Lenoxdale avenue, Dorchester, for the reason that the permit does not include the right to operate over these streets, and for the further reason that said operation endangers the lives of children in this district.

Passed under suspension of the rule.

REPAVING OF VERMONT STREET.

Coun. FINLEY offered the following:

Ordered, That the Commissioner of Public Works be requested, through his Honor the Mayor, to repave with smooth pavement Vermont street, from Corey to Baker street, Ward 20.

Passed under suspension of the rule.

Adjourned at 5.08 p. m., on motion of Coun. ENGLERT, to meet on Monday, May 28, 1934, at 2 p. m.

WATER-SUPPLY DEVELOPMENT IN THE UNITED STATES.

In 1652 Boston introduced the first American public water supply. The first mechanical pumps were used in 1761 at Bethlehem, Pa., where Hans Christiansen, an American pioneer water-supply engineer, made his pumps work "after severe struggles." In 1850 there were only 100 water plants in the United States, and as late as 1875 only 243. In 1933 there were more than 11,000 public water supplies, some serving more than one community.

MANUFACTURERS OF STEEL LOCKERS.

The Superintendent of Construction of the Department of School Buildings of the City of Boston invites sealed proposals for furnishing and setting up steel lockers in the William Barton Rogers School, Harvard avenue and Webster street, Hyde Park, Mass., and giving bond of a surety company satisfactory to the Superintendent of Construction therefor in the full amount of the contract price. Only proposals obtained at the office of the Superintendent of Construction, eighth floor, 11 Beacon street, Boston, signed by the bidder and left before 2 o'clock p. m. of Thursday, June 14, 1934, at said office, with a certified check for $200, payable to the city if the proposal is not carried out will then and there be publicly opened and read. The proposal shall be made in duplicate, the one with the check to be submitted as indicated above, the other to be deposited with the City Auditor, City Hall, previous to the time named for opening proposals. The Superintendent of Construction reserves the right to reject any or all proposals. A deposit of a certified check in the sum of $25 will be required in order to procure a complete set of plans and specifications, said sum to be refunded to all but the successful bidder. If all unused plans and specifications are not returned prior to noon of Thursday, June 21, 1934, said deposit for specifications shall be forfeited. Mutilation of the plans and specifications will be deemed sufficient cause for the forfeiture of the said deposit.

WM. W. DRUMMEY,
(June 2.) *Superintendent of Construction.*

MOTOR VEHICLE ACCIDENTS IN 1933.

It is estimated that in 1933 there were 30,500 motor vehicle deaths—1,000 more than in 1932; this remaining otherwise, however, the lowest number since 1928, when 27,996 deaths occurred. These figures are given by the National Safety Council, Inc., in "Public Safety" for February.

CITY OF BOSTON.

PUBLIC WORKS DEPARTMENT.

PROPOSALS FOR LAYING AND RELAYING ABOUT 775 FEET OF 8-INCH AND 12-INCH WATER PIPE IN ADDINGTON ROAD, WEST ROXBURY; TILESTON STREET AND WINDSOR STREET, HYDE PARK.

The Commissioner of Public Works of the City of Boston, office 508 City Hall Annex, invites proposals from citizens of the United States and corporations or other legal associations wherein the controlling interest to the extent of at least over one half thereof is owned by a citizen or citizens of the United States, for laying and relaying about 775 feet of 8-inch and 12-inch water pipe in Addington road, West Roxbury; Tileston street and Windsor street, Hyde Park. A bond will be required for doing the work of a surety company approved by the Commissioner in the sum of 100 per cent of the amount of the contract, to secure the due performance of the contract and the full protection of the city. Forms of proposals may be obtained at Room 508, City Hall Annex. Each proposal should be inclosed in an envelope, sealed, marked "Proposal for Laying and Relaying Water Pipe in Addington Road, etc.," and left at Room 508, fifth floor, City Hall Annex, before 12 m. of Friday, June 8, 1934, with a certified check for one hundred (100) dollars payable to and to become the property of the city if the proposal after acceptance is not carried out. The proposals will then and there be publicly opened and read. Proposals must be made in duplicate, the sealed duplicate, without check, to be deposited by the bidder with the City Auditor previous to the time named for opening the bids. *There will be a charge of two dollars ($2) for each set of plans and specifications taken out.* If the price of any item appears to the Commissioner to be abnormally high or low, or the bidder neglects to bid on each and every item, it may lead to the rejection of the proposal containing such price. The undersigned reserves the right to reject any or all proposals or to award the contract as he deems best.

PROPOSAL FOR REPAIRING FRONT WHARF AT LONG ISLAND, BOSTON HARBOR.

The Commissioner of Institutions of the City of Boston invites proposals for repairing the front wharf at Long Island, Boston Harbor. A bond will be required for doing the work, of a surety company approved by the Commissioner, in the sum of 100 per cent of the contract price, to secure the due performance of the contract and the full protection of the city. Forms of proposals may be obtained at Room 809, City Hall Annex. Each proposal should be inclosed in an envelope, sealed, marked "Proposal for Repairing Front Wharf at Long Island, Boston Harbor," and left at Room 809, City Hall Annex, before 12 m. of Thursday, June 14, 1934, with a certified check for five hundred (500) dollars, payable to and to become the property of the city if the proposal, after acceptance, is not carried out. The proposals will then and there be publicly opened and read. Proposals must be made in duplicate, the sealed duplicate, without check, to be deposited by the bidder with the City Auditor previous to the time named for opening the bids. The Commissioner reserves the right to reject any or all proposals or to award the contract as he deems best.

PROPOSALS FOR FURNISHING MEN'S CLOTHING.

The Supply Department of the City of Boston invites proposals for furnishing men's clothing to the Long Island Hospital, Institutions Department, as per specifications contained in proposals which may be obtained at the office of the Supply Department, Room 801, City Hall Annex. *There will be a charge of twenty cents ($0.20) for each set of blank proposals taken out.* The bidder must leave his proposal with a certified check for $200, payable to and to become the property of the City of Boston if the proposal is not carried out, at the above office. A duplicate bid, without check, must be left at the office of the City Auditor prior to the time named for opening bids. The bids will be publicly opened and read on Monday, June 11, 1934, at 12 m., at Room 801, City Hall Annex. The successful bidder must furnish a bond for one quarter the total estimated amount of the contract with a surety company authorized to do business in Massachusetts as surety for the faithful performance of the contract. The Superintendent reserves the right to accept or reject any or all bids, or any part of a bid, and to award the contract as he deems for the best interests of the city. All contracts made subject to appropriations to meet payments thereunder.

NATIONAL INDUSTRIAL RECOVERY PROJECT, P. W. A. DOCKET NO. 4205.

PROPOSALS FOR SHEET ASPHALT OR BITULITHIC PAVEMENT IN ASHMONT STREET, WARDS 16 AND 17, FROM NEPONSET AVENUE TO CARRUTH STREET, AND DORCHESTER AVENUE TO WASHINGTON STREET.

The Commissioner of Public Works of the City of Boston, hereinafter designated as Commissioner, Room 508, fifth floor, City Hall Annex, invites proposals from citizens of the United States and corporations or other legal associations wherein the controlling interest to the extent of at least over one half thereof is owned by a citizen or citizens of the United States, for sheet asphalt or bitulithic pavement in Ashmont street, Wards 16 and 17, from Neponset avenue to Carruth street, and Dorchester avenue to Washington street. Each proposal should be inclosed in an envelope, sealed, marked "Proposal for Sheet Asphalt or Bitulithic Pavement in Ashmont Street," and left at Room 508, fifth floor, City Hall Annex, before 12 m., daylight saving time, on Monday, June 11, 1934, accompanied by a properly certified check on, or a certificate of deposit issued by, a responsible bank or trust company in the sum of two thousand five hundred dollars ($2,500), payable to the City of Boston. Checks will be returned after execution of the contract on demand. The proposals will then and there be publicly opened and read. Proposals must be made in duplicate, the sealed duplicate, without check, to be deposited by the bidder with the City Auditor previous to the time named for opening the proposals. Bids must be made upon the prescribed proposal form. Special attention of bidders is called to all provisions of the Federal Emergency Administration of Public Works which form a part of the contract, including the prescribed minimum rate of $1.20 per hour for skilled labor, and $0.50 per hour for unskilled labor and to the special provision as to semi-skilled labor. Pursuant to Executive Order 6646, dated March 14, 1934, no bid will be considered unless it includes or is accompanied by a certificate (worded in accordance with P. W. A. 61, revised March 19, 1934) duly executed by the bidder. Every contractor who bids upon a project financed in whole or in part by loans or grants from the P. W. A. shall submit in a sealed envelope with his bid to the contracting authority the names of all sub-contractors and their bids upon which his bid is based. The sealed envelope so submitted shall have on it the name of the contractor with the words thereon "Bids of Sub-Contractors." Such submission shall be deemed to constitute an acceptance by the contractor, if awarded the contract, of the bid of each sub-contractor. Any alteration therein, after the award of the contract, shall be subject to the approval of the P. W. A. engineer. Plans, specifications and contract form may be obtained at Room 508, City Hall Annex, upon the deposit of the sum of five dollars ($5). A surety bond by an approved surety company will be required from the successful bidder in an amount not less than the full amount of the contract. The right is reserved to reject any and all proposals, or to accept any proposal deemed best for the interest of the City of Boston, and no award can be made without the approval of the State Engineer, P. W. A. The name and address of the local registration office of the National Re-employment Service, from which employees' lists for this contract shall be obtained, is as follows: State Public Employment Office (Everett L. Hanna, Manager), 100 Nashua street, Boston.

CITY OF BOSTON.

PUBLIC WORKS DEPARTMENT.

PROPOSALS FOR CLEANING CATCH-BASINS.

The Commissioner of Public Works of the City of Boston, office 508 City Hall Annex, invites proposals from citizens of the United States and corporations or other legal associations wherein the controlling interest to the extent of at least over one half thereof is owned by a citizen or citizens of the United States, for taking out and removing about 25,000 cubic yards of material from about 7,560 catch-basins in Districts 1, 2, 3, 4, 2A and 7, all work to be completed by December 31, 1934, and giving bond therefor of a surety company approved by the Commissioner in the sum of 100 per cent of the total amount of the contract, to secure the due performance of the contract and the full protection of the city. Forms of proposals may be obtained at Room 508, City Hall Annex. Each proposal, accompanied by a statement clearly setting forth the equipment of which the bidder is possessed for the proper and speedy carrying out of such contract (such equipment to be considered as an essential consideration in the awarding of the contract), should be inclosed in an envelope, sealed, marked "Proposal for Cleaning Catch-basins," and left at Room 508, fifth floor, City Hall Annex, before 12 m. on Tuesday, June 12, 1934, with a certified check for 5 per cent of the total amount of the contract, payable to and to become the property of the city if the proposal after acceptance is not carried out. The proposals will then and there be publicly opened and read. Proposals must be made in duplicate, the sealed duplicate, without check, to be deposited by the bidder with the City Auditor previous to the time named for opening the bids. There will be a minimum charge of two dollars ($2) for each set of specifications taken out. If the price bid on any district appears to the Commissioner to be abnormally high or low, it may lead to the rejection of the proposal for said district. The undersigned reserves the right to reject any or all proposals or to accept any proposal should he deem it to be for the best interests of the city so to do.

NATIONAL INDUSTRIAL RECOVERY PROJECT, P. W. A., DOCKET NOS. 4214 AND 7223.

PROPOSALS FOR FURNISHING 36-INCH GATES WITH 6-INCH BY-PASS GATE.

The Supply Department of the City of Boston invites proposals for furnishing to the Public Works Department, as required, 36-inch gates with 6-inch by-pass gate. Proposals, inclosed in a sealed envelope and marked "Proposal for Furnishing 36-inch Gates with 6-inch By-Pass Gate," will be received at Room 801, City Hall Annex, Boston, Mass., until 12 m. on Tuesday, June 19, 1934, at which time and place they will be publicly opened and read. Bids must be accompanied by a properly certified check or a certificate of deposit issued by a responsible bank or trust company in the sum of three hundred dollars ($300), payable to the City of Boston. Checks will be returned after execution of the contract on demand. Proposals must be made in duplicate, the sealed duplicate, without check, to be deposited by the bidder with the City Auditor previous to the time named for opening the proposals. Bids must be made upon the prescribed proposal form. Due consideration should be given to the fact that this material is to be used on a project to be constructed and financed by Loan and/or Grant under the terms of the National Industrial Recovery Act and chapter 366 of the Massachusetts Acts of 1933. The bidder's attention is called to the provisions relating to such projects as prescribed by the Federal Emergency Administration of Public Works. Pursuant to Executive Order 6646, dated March 14, 1934, no bid will be considered unless it includes or is accompanied by a certificate (worded in accordance with P. W. A. 61, revised March, 1934) duly executed by the bidder. Specifications and contract form may be obtained at Room 801, City Hall Annex, upon the deposit of the sum of twenty-five cents ($0.25). A surety bond by an approved surety company will be required from the successful bidder in an amount not less than 25 per cent of the amount of the contract. The right is reserved to reject any and all proposals, or any part of a proposal, or to accept any proposal deemed best for the interest of the City of Boston, and no award can be made without the approval of the State Engineer, P. W. A.

INVITATION TO BIDDERS.

Sealed proposals will be received at the office of the Police Commissioner of the City of Boston until twelve o'clock noon of June 7, 1934, to furnish a complete system set-up for code index in connection with Police Radio, and installation ready for operation in Police Headquarters, 154 Berkeley street, Boston, fifteen station houses and seventy-five radio-equipped cars. Specifications and form of proposal will be available to prospective bidders at the office of the Property Clerk, Room 106, 154 Berkeley street, Boston, Mass. Any inquiry concerning the specifications or other matters relative thereto should be made to Mr. A. J. Gill, Secretary to the Police Commissioner, sixth floor, 154 Berkeley street, Boston, Mass. Proposals must be accompanied by a certified check payable to Eugene C. Hultman, Police Commissioner, in the sum of one hundred dollars ($100). The successful bidder will be required to furnish a bond for an amount equal to the total contract price executed in accordance with the terms of the contract. This bond is to be obtained through a broker or agent of a reputable bonding company. The right is reserved to reject any or all bids.

By order of the Police Commissioner of Boston.

EUGENE C. HULTMAN,
(June 2.) *Police Commissioner.*

DEPARTMENT OF SCHOOL BUILDINGS.

TO FURNITURE CONTRACTORS.

The Superintendent of Construction of the Department of School Buildings of the City of Boston invites sealed proposals for furnishing and setting up new lunch room chairs, etc., in the Jeremiah E. Burke High School for Girls, Washington street, Dorchester, Boston, and giving bond of a surety company satisfactory to the Superintendent of Construction therefor in the full amount of the contract price. Only proposals obtained at the office of the Superintendent of Construction, eighth floor, 11 Beacon street, Boston, signed by the bidder and left before 2 o'clock p. m. of Monday, June 11, 1934, at said office, with a certified check for $300, payable to the city if the proposal is not carried out will then and there be publicly opened and read. The proposal shall be made in duplicate, the one with the check to be submitted as indicated above, the other to be deposited with the City Auditor, City Hall, previous to the time named for opening proposals. The Superintendent of Construction reserves the right to reject any or all proposals. A deposit of a certified check in the sum of $25 will be required in order to procure a complete set of plans and specifications, said sum to be refunded to all but the successful bidder. If all unused plans and specifications are not returned prior to noon of Tuesday, June 19, 1934, said deposit for specifications shall be forfeited. Mutilation of the plans and specifications will be deemed sufficient cause for the forfeiture of the said deposit.

WM. W. DRUMMEY,
(June 2.) *Superintendent of Construction.*

URBAN POPULATION, APRIL 1, 1930.

As defined by the Census Bureau, the urban population is, in general, that residing in cities and other incorporated places having 2,500 inhabitants or more, the remainder being classified as rural.

The total urban population of the UNITED STATES is 68,954,823 (34,154,760 males and 34,800,063 females), of whom 62,836,605 (31,162,570 males and 31,674,035 females) are white; of these whites 52,109,746 (25,520,483 males and 26,589,263 females) are native; 33,497,232 (16,515,816 males and 16,981,416 females) of these latter are of native parentage and 18,612,514 (9,004,667 males and 9,607,847 females) are of foreign or mixed parentage; there are 10,726,859 (5,642,087 males and 5,084,772 females) foreign-born white; there are 5,193,913 (2,479,158 males and 2,714,755 females) Negroes; other races, 924,305 (513,032 males and 411,273 females).

The urban population is 56.2 per cent of the total population of the country; native white, 54.6 per cent and foreign-born white, 80.3 per cent; Negroes, 43.7 per cent.

The total urban population of New England is 6,311,976 or 77.3 per cent of the total population of New England. Of the 4,660,339 native white, 2,089,031 are of native parentage and 2,571,308 are of foreign or mixed parentage; foreign-born whites number 1,564,769; Negro, 81,443; other races, 5,425.

A SQUARE DEAL IN ASSESSMENTS FOR TAXATION.

Many cities are finding it greatly to their advantage to have their tax valuations periodically overhauled. The first criterion of any assessment is equity. For every citizen who wants through "pull" or however else to get off easy, there are twenty, nay a hundred, who want a fair and square deal for all.

The appraisal of city real estate is a highly technical affair.

Few things are more important than the equalization of assessments. Particularly in cities that are cramped by an inflexible debt or tax limit, an honest, full value assessment may be a great boon. Without the slightest raise in the tax rate a substantially greater tax yield may be had.

SCHOOL ATTENDANCE FOR SUFFOLK COUNTY.

Number of children 7-13 years old, 105,675, of whom 104,085, or 98.5 per cent, were attending school; 14 and 15 years, 29,662, of whom 28,256, or 95.3 per cent, were attending school; 16 and 17 years, 29,902, of whom 19,453, or 65.1 per cent, were attending school; 18-20 years, 47,103, of whom 12,395, or 26.3 per cent, were attending school; total children 7 to 20 years old, 212,342, of whom 164,189, or 77.3 per cent, were attending school.

FOREIGN-BORN WHITES, 1930, WITH COUNTRY OF BIRTH.

Total foreign-born whites, 229,356 or 9,563 less than in 1920. Born in Ireland, 50,381 (6,630 less than in 1920), 6,449 of these being born in Northern Ireland; in Canada, 45,558 (3,550 increase); Italy, 36,274 (1,905 decrease from 1920); Russia, 31,359 (6,662 decrease); England, 10,316 (2,092 decrease); Poland, 9,903 (2,253 increase); Lithuania, 5,869; Scotland, 5,637 (558 increase); Sweden, 5,432 (1,348 decrease); Germany, 5,381 (534 decrease); Greece, 3,416 (362 increase); all others, 19,830.

CITY RECORD

OFFICIAL CHRONICLE OF BOSTON MUNICIPAL AFFAIRS.

VOL. 26. SATURDAY, JUNE 9, 1934. NO. 23

BOSTON'S WEIGHTS AND MEASURES DEPARTMENT SEEKS AND PROVIDES PROTECTION OF CITIZENS AGAINST UNSCRUPULOUS WHO WOULD PREY ON PUBLIC — JAMES A. SWEENEY, CITY SEALER, SUBSTITUTING FOR MAYOR MANSFIELD, IN WEEKLY BROADCAST FROM CITY HALL STATION, TELLS OF DUTIES AND OPERATION OF HIS DEPARTMENT — ASKS CO-OPERATION OF ALL IN FERRETING OUT AND PUNISHING THOSE WHO ATTEMPT TO TAKE ADVANTAGE OF UNSUSPECTING.

The following is the address delivered by James A. Sweeney, Sealer of Weights and Measures, over Station WNAC, June 5, in substituting for Mayor Mansfield:

To his Honor Mayor Mansfield, and to the management of Station WNAC, I desire to express my sincerest and deepest thanks for according me at this time the opportunity of presenting to the invisible audience the subject of weights and measures, during which presentation I will briefly outline the fundamental duties of the officials of the department, what we are doing as a branch of the municipal government to offer a high degree of protection to our citizenry, together with a few suggestions, which, if carried out on the part of the general purchasing public and honest merchant alike, will tend to greatly eliminate the possibilities of fraud and deceit in all transactions that involve the determination of quantity.

The fundamental duty of the Sealer and his deputies is to test, adjust, seal or condemn, all weighing or measuring devices found in commercial use. This, the primary duty of the department, is absolutely essential to guarantee at the outset that all devices in use are accurate. This field of endeavor, even to the most casual observer, must prove both important and extensive. The use of highly developed weighing and measuring devices is now the rule in all branches of trade and industry.

There is, it can be stated most emphatically, scarcely an article of commerce sold today that is not weighed or measured. Whether you purchase a small prescription from your neighborhood druggist or a load of coal from your coal dealer, gasolene for your automobile from your service station, fuel oil for household purposes, meats, groceries or vegetables for the table, linens, cloth for suitings, sand or gravel for building construction or, in fact, any other of the essentials of life, the devices over which these commodities are sold must be annually tested and sealed by this department before they can be legally used.

Now, while the work of testing and sealing of devices is of prime importance, inasmuch as it insures the accuracy of the devices in the possession of the merchants, the work would prove of small value if subsequent effort were not made to determine how they are used. The work of establishing the honesty of merchants and dealers, in general, is accomplished through a plan of systematic reweighing of commodities sold over said devices and through frequent inspection of them by the deputies of this department.

Enforcing Laws.

In addition to the above duties that devolve upon the department, we are also charged with the responsibility of enforcing all laws relative to the licensing of hawkers, peddlers and transient vendors; and are also authorized to enter complaint and proceed against all violators of weights and measures laws.

During the year 1933 the department, in its efforts to insure the use of accurate devices, extended its services to 14,433 business concerns, in the progress of which a total of 75,648 devices were sealed. The devices tested and sealed included weighing and measuring instruments of every description, among which might be mentioned light and heavy capacity scales, some of which were used to weigh drafts as high as 150 tons, computing, spring, apothecary and jeweler's scales, personal weighing scales, taxicab meters, yardsticks, measurgraphs, leather measuring machines, automatic measuring pumps and meters used in the sale of gasolene and other motor fuels, and vehicle tanks used in the sale and delivery of oil for household heating purposes.

During the year a total of 10,104 reweighings of commodities were made that included the sale and delivery of coal, ice, meats, produce, tea, coffee and other necessities of life. The inspections and reinspections made during 1933, aside from our reweighing activities, total 16,268. These inspections included the examination of the devices previously sealed, the markings on food packages, the inspection of hawkers and peddlers, both as to scales and licenses, the examination of cartons, barrels, boxes and other containers, the shape, capacity and dimensions of which are established by law. Particular attention was given to the sale of coal, both as to quantity and quality. Deputies of the department intercepted and reweighed, while in transit to the householders and business concerns, 1,620 loads of coal. In the performance of this work close attention was given to the reweighing of coal delivered on the order of the Overseers of the Public Welfare.

Violations of Laws.

Among the majority of our merchants and dealers, experience teaches us that the impulse to honesty is one of the greatest forces in the conduct of their business. Unfortunately, however, we find that there are some dealers who are ever alert to take unfair advantage, if opportunity presents itself, and although the number is relatively small, their actions, if left unchecked and unpunished, constitute a serious menace to the economic well-being of the general purchasing public and the honest merchant alike. Perhaps the truth of this assertion is more clearly emphasized if consideration is given to the fact that, notwithstanding that millions of dollars worth of commodities are sold annually, here in Boston, over devices which come within the jurisdiction of the department, only forty-six violations of weights and measures laws were found, notwithstanding great activity on the part of this department.

(Continued on page 547.)

"O Boston, fair City enthroned like a radiant queen,
From thy hills looking down on the ship-teeming plain of the ocean,
May thy future be bright, thy skies beam with light all serene,
Ensured by thy sons' and thy daughters' unselfish devotion!"
From Boston Centennial Poem by
NATHAN HASKELL DOLE.

MUNICIPAL CALENDAR.

Meeting of the City Council Monday, June 11, 1934, at 2 p. m.

Meetings of the Transit Department are held on Monday and Thursday of each week at 11 a. m.

Board of Zoning Adjustment. Public hearings and executive meetings are held on the first Friday of each month, Room 30, City Hall, at 2 p. m.

MUNICIPAL SERVICE.

Complaints, inquiries or suggestions regarding the work of municipal departments should be made in writing to the officials directly in charge. The failure of such official to make reply within a reasonable length of time should be brought to the attention of the Mayor. Communications should be directed as follows:

TO THE BOARD OF STREET COMMISSIONERS, Room 401, City Hall Annex, for information relative to the laying out, relocation, widening, and the discontinuance of highways; the taking of rear property for municipal purposes; the assessments of betterments for streets and sewers; the plotting of undeveloped area for streets and the opening of private ways; the granting of licenses for the storage or sale of merchandise in public streets; the making of specific repairs in public streets; the naming of public streets; the planting and removal of trees in public ways; the issuing of licenses for the storage of gasolene, oil, and other inflammable substances or explosive compounds; the use of the public ways for any permanent or temporary obstruction or projection in, under or over the same, including the location of conduits, poles and posts for telephone, telegraph, street railway or illuminating purposes, signs, marquises, bay windows, coal holes and vaults.

TO THE BOSTON TRAFFIC COMMISSION, 22 Court street, for information relative to regulation of vehicular street traffic on all or any streets, ways, highways, roads and parkways under the control of the City of Boston, the issuing of all permits in connection therewith.

TO THE COMMISSIONER OF PUBLIC WORKS, Room 511, City Hall Annex, for information as to the watering, cleaning, lighting and repairing of streets, the construction and care of sewers and catchbasins, the operation of the ferries, the maintenance of bridges and drawbridges and the removal of ashes and offal.

To Room 604, City Hall Annex, for information relative to the supplying or metering of water and the water charges of the city.

TO THE HEALTH DEPARTMENT, Room 1107, City Hall Annex, for information relative to the inspection of milk, vinegar, meat, fish and vegetables, the issuance of permits for stables, slaughter houses, etc., smoke nuisances, the existence of contagious diseases, of public health nuisances.

TO THE BOARD OF PARK COMMISSIONERS, 33 Beacon street, for information as to the care of the Common, Public Garden, Franklin Park, Franklin Field, Commonwealth avenue, Back Bay Fens, Marine Park, and the small parks and playgrounds in general throughout the city, and as to the extermination of gypsy moths and the charges made for such service. Application may be made to this department for information regarding the public baths and gymnasiums maintained by the city, and with regard to municipal indoor concerts and band concerts, also information relative to Mt. Hope, Evergreen, Fairview and other public cemeteries owned by the City of Boston.

TO THE SCHOOL COMMITTEE, 15 Beacon street, for information relative to the operation of the schools of the city.

TO THE DEPARTMENT OF SCHOOL BUILDINGS, 11 Beacon street, for information as to the construction and repair of school buildings.

TO THE BOARD OF EXAMINERS, Room 1001, City Hall Annex, for information regarding the licensing of persons having charge or control of the work of construction, alteration, removal or tearing down buildings.

TO THE WIRE DIVISION OF THE FIRE DEPARTMENT, Fire Department Headquarters, 60 Bristol street, for all information relative to the erection of poles, building of conduits, the installation of all overhead and underground construction and electrical apparatus, as well as for general information relative to the entire division. To Room 1007, City Hall Annex, for permits for the installing of wires and electrical apparatus within buildings of the City of Boston, and for the payment of fees incident to the granting of the privileges above named, and which must be paid in advance.

TO THE BOARD OF ZONING ADJUSTMENT, Room 30, City Hall, relative to changes in the boundary lines of zoning districts of the City of Boston as established by chapter 488 of the Acts of 1924, and amendments thereto.

BROADCAST BY CITY SEALER.

(*Continued from page 545.*)

The work of the Department of Weights and Measures is of the deepest importance to all of our people, both from an economic and a moral and social point of view. Few departments functioning under our present municipal government are engaged in work that more vitally affects the financial administration of the home to a greater extent than that performed by this department, considering the fact that practically everything we eat, drink, wear or use in everyday life is bought or sold on some form or basis of measurement.

The loss to the purchasing public and honest merchant alike, through short weight and measure and ignorance of the correct methods of weighing and measuring, in a commercial and industrial center like Boston, would run into millions of dollars annually if adequate supervision of weighing and measuring devices, together with reasonable control of the users thereof, was lacking.

The essential need of this department is the cooperation of the purchasing public. This may be expressed most forcibly on their part through the exercise of eternal vigilance when purchases are made. Today housekeeping is a business that involves the expenditure of tremendous sums of money annually. If you are a housewife you should know for a certainty whether you are receiving a full and legal value of groceries, produce and dry goods for your money. When making purchases be sure and inquire the price of the commodity by the pound and buy only by weight. Learn to read the different types of scales in use at the store in which you trade. Note if they are sealed by this department and that the indicator of the scale points exactly to the *zero* mark on the same before the commodity is placed thereon. Don't accept any given weight while the scale is vibrating and pay particular attention, while the article is being weighed, that the dealer's hand is not touching the scale.

Protest the use of excessive wrappings during the process of weighing; and if you discover any dealer attempting to defraud you immediately report the case to this department, and rest assured that a thorough investigation of the dealer's method of doing business will be made. Furthermore, protect yourself through the purchase of a scale having a capacity of 20 to 30 pounds. Have it tested and sealed by this department, then hang it up in your kitchen or pantry and make it a practice to reweigh all commodities delivered to you by your grocer or market man.

In purchasing meat and poultry in stores where same are weighed in your presence and then forwarded to room in rear of the store for wrapping purposes, reweigh same delivered to you before leaving the store. This department has found a few dealers resort to this method in the perpetration of fraud.

If you are a dealer, doing a legitimate business, you should know when you are right how to meet fair competition and how to apprehend your dishonest competitor. If you are a manufacturer, stop leaks in your supply, shipping and purchasing departments. Finally, if you are a wage earner, you should realize that a 5 per cent increase in your wages would be of no benefit to you if you are losing 10 per cent through your purchases.

I have briefly outlined to you the duties of the Department of Weights and Measures and what they are doing to protect the general public. You can greatly aid us by extending to us your cooperation. That can now best be given by (1) paying particular attention when purchases are made, (2) by calling upon this department for advice when in doubt. If the few suggestions I have offered are put into effect on the part of the purchasing public, I feel satisfied that *fraud* and *deceit* will be minimized if not entirely eliminated.

Thank you, my friends of the radio audience.

PROPOSALS ADVERTISED.

Israel of 60 Breed street, Lynn, has been notified of the unsafe condition of the building, but nothing has been done to remove the cause of complaint.

TROPICAL FISH FOR AQUARIUM.

The Mayor has approved the following request from the Park Department:

BOSTON, June 4, 1934.

HON. FREDERICK W. MANSFIELD,
Mayor of Boston.

DEAR SIR,—Your authority is respectfully asked to expend the sum of $500 in making a joint collection of tropical fish from southern waters, to be arranged in conjunction with the New York Aquarium.

The life span of the majority of fish in captivity is about two years, and having no collection since 1932, we are very low on exhibits with four tanks almost empty. Arrangements must be made to engage an express car to carry the tanks and fish from the New York Aquarium to Boston together with our director and two attendants to take care of same en route. The total expense will amount to about $875, as follows:

Joint share of expense for men and equipment to Key West, Florida, $500; expense for express car from New York to Boston, $225; expense for director of Boston Aquarium and two attendants to care for fish en route to Boston, $150; total estimated expense, $875.

Very respectfully yours,
WILLIAM P. LONG, *Chairman.*

PRAISE FOR SCHOOL BUILDINGS EMPLOYEES.

The Board of Commissioners of School Buildings, appreciating the fine work done by the employees of this department in the planning and supervision of work done under the C. W. A. and the E. R. A. without extra compensation, which entailed much extra work outside their own services in this department, adopted the following vote of appreciation for that service:

BOSTON, June 4, 1934.

The Commissioners voted as follows:

In view of the fact that the employees of this department since early in December, 1933, have been giving their special services to supervising the work done by the workers under the C. W. A. and the E. R. A. without extra compensation, this commission feels that some public acknowledgment should be made of their faithful and efficient service.

The work done by the workers under these two projects has, notwithstanding the many handicaps connected with organization, been in most cases of a high order. The result is undoubtedly due to the unselfish and painstaking supervision of the employees of this department who have been assigned to the planning and supervision of this work. While we cannot undertake to name each individual, we want the employees of the department to know that their sacrifices have been appreciated and their efforts highly commended.

It was also voted to send a copy of this vote to the *City Record.*

BOARD OF COMMISSIONERS OF SCHOOL BUILDINGS,
by RICHARD J. LANE,
Chairman.

TO OMIT AND SUBSTITUTE WORK UNDER CONTRACT.

Vito Calia has been directed to omit and substitute the following work under the contract for laying sheet asphalt pavement in Freeland street, from Standard street to 130 feet north of Eskridge street. Items ordered: Omit crushed stone and concrete foundation under edgestone and substitute a foundation of gravel that will be four (4) inches thick after being thoroughly rammed. This contract called for the setting of edgestone five (5) inches by sixteen (16) inches, and it is now changed to an edgestone seven (7) inches by eighteen (18) inches. Edgestone to be furnished by the city. No increase or decrease in cost.

CONTRACTS AWARDED.

Permission to award contracts for work, materials and supplies, in accordance with recommendations of department heads, has been approved by the Mayor.

*Contract awarded.

TRANSIT DEPARTMENT.

Upon June 6 the Mayor approved a contract with the Progressive Iron Works, Incorporated, for furnishing and erecting steel paling fences for the Traffic Tunnel. Bids, opened May 28, were as follows:

The Pinel Tool Company, $1,189.58; C. A. Merrifield & Co., $848; W. A. Snow Iron Works, Incorporated, $804; E. T. Ryan Iron Works, Incorporated, $802; P. J. Dinn & Co., $676; Progressive Iron Works, Incorporated, $623.

Upon June 6 the Mayor approved a contract with A. R. Doyle, Incorporated, for paving Merrimac street, from Haymarket square to Portland street, Traffic Tunnel, Series B. Bids, opened Monday, June 4, were as follows:

Charles Capone, $12,293.50; A. G. Tomasello and Son, Incorporated, $12,171.50; Samuel J. Tomasello, Incorporated, $11,498.25; A. Singarella, $11,199.50; Keystone Engineering and Contracting Company, $11.065.75; Baker, Matz & Co., $10,985; A. R. Doyle, Incorporated, $10,940.15.

WITHOUT ADVERTISING.

The Mayor has approved the following contracts awarded without advertising; requests of heads of departments to do the work with department forces without advertising; additions to and deductions from contracts.

PUBLIC WORKS DEPARTMENT (Paving Service).

Upon June 6 the Mayor approved a contract with Williams & King and the Jenkins-Anderson Corporation for the construction of artificial stone sidewalks. Communications from the Public Works Department were as follows:

BOSTON, June 4, 1934.

To the Mayor of Boston.

Your permission is respectfully requested to the award of a contract for the construction of artificial stone sidewalks in the public streets, without advertising, to Williams & King, 14 Jerome street, Dorchester, on the ground that this contractor is not selected by the city in the first instance but by the abutters; secondly, the expense of construction is to be divided by the city and abutters; and also because such contracts vary greatly in amounts and seldom involve one thousand (1,000) dollars.

Respectfully yours,

C. J. CARVEN,
Commissioner of Public Works.

BOSTON, May 14, 1934.

To the Mayor of Boston.

Your permission is respectfully requested to the award of a contract for the construction of artificial stone sidewalks in the public streets, without advertising, to the Jenkins-Anderson Corporation, 81 Magazine street, Roxbury, on the ground that this contractor is not selected by the city in the first instance but by the abutters; secondly, the expense of construction is to be divided by the city and abutters; and also because such contracts vary greatly in amounts and seldom involve one thousand (1,000) dollars.

Respectfully yours,

C. J. CARVEN,
Commissioner of Public Works.

EXTENSION OF CONTRACTS.

Martino DeMatteo has been granted an extension of the time of completion of the contract for laying sheet asphalt pavement in Delano park, Ward 18, from Poplar street to Clarendon avenue; contract dated November 20, 1933, from May 15 to July 1, 1934.

R. Susi & Jiustino have been granted an extension of the time of completion of the contract for laying sheet asphalt pavement and sewerage works in Favre street, Ward 18, from Cummins Highway to Messinger street; contract dated October 27, 1933, from May 15 to June 1, 1934.

Vito Calia has been granted an extension of the time of completion of the contract for constructing artificial stone footway and artificial stone steps on Colborne path, Ward 21, from Nottinghill road to Colborne road; contract dated November 23, 1933, from June 1 to July 1, 1934.

Vito Calia has been granted an extension of the time of completion of the contract for laying sheet asphalt pavement and sewerage works in Freeland street, Ward 18, from Standard street to 130 feet north of Eskridge street; contract dated November 23, 1933, from June 1 to July 15, 1934.

Appel & O'Toole Company have been granted an extension of the time of completion of the contract for laying bitulithic pavement and water works in Hillsboro road, Ward 14, from Hazleton street to Ormond street; contract dated December 8, 1933, from June 2 to July 1, 1934.

Charles Struzziery has been granted an extension of the time of completion of the contract for laying sheet asphalt pavement and sewerage works in Parklawn road, Ward 20, from Weld street to Cranston road and bituminous macadam pavement in Cranston street, Ward 10, from Sheridan street 200 feet southwesterly; contract dated November 8, 1933, from June 1 to July 1, 1934.

A. R. Doyle, Incorporated, has been granted an extension of the time of completion of the contract for constructing artificial stone steps, bituminous macadam pavement and sewerage works in North Mead street, Ward 2, from Medford street for 264 feet southerly; contract dated November 6, 1933, from June 1 to September 1, 1934.

CONSTRUCTION WORK.

The Mayor has approved the request of the Public Works Department for the following construction work:

A conduit of 15-foot by 13-foot concrete, Stony Brook conduit, section 12 (P. W. A., Docket 4193), in private land and across Florence street, Quarley road and Neponset avenue, between 150 feet northwest of Florence street and 30 feet southeast of Neponset avenue, in the West Roxbury district, at an estimated cost of $112,000. 55 feet of twenty-inch pipe sanitary sewer to be relaid in Florence street; 60-feet of 24-inch pipe surface drain to be relaid in Florence street; 30 feet of 12-inch pipe sanitary sewer to be relaid in Neponset avenue.

POLICE DEPARTMENT ORDERS.

General Order No. 491.

A trial board consisting of Captains Campbell, McGrath and Casey, having heard by reference a complaint made by William Lewis, captain, Division 19, against John J. Sullivan, patrolman, Division 19, for alleged violation of Rules 38 and 41 of the Rules and Regulations of the Police Department, to wit:

Charge 1: Violation of law.

Specification: In that on the ninth day of November, 1933, Patrolman John J. Sullivan of this division did operate Plymouth squad car M-118 in Blue Hill avenue, a public highway, and that he, the said Patrolman John J. Sullivan, was not licensed so to do.

Charge 2: Neglect of duty.

Specification: In that on the second day of April, the said Patrolman John J. Sullivan did fail to report at roll call at 7.45 a. m., he being absent without the permission of his commanding officer.

Charge 3: Conduct unbecoming an officer.

Specification 1: In that on the second day of April, 1934, Patrolman John J. Sullivan of this division, while in uniform and not on duty, was under the influence of intoxicating liquor to such an extent that he was unable to perform police duty, if called upon so to do, thereby tending to bring into disrepute and criticism his associates in the Boston Police Department.

Specification 2: In that the above Patrolman John J. Sullivan did fail to make a return to the Boston Police Department of a police positive .38 caliber revolver, No. B. P. D. 825–A, which he reported lost on October 20, 1927, and was recovered by Capt. William Lewis at the home of the above patrolman at 677 Parker street, Roxbury, on April 2, 1934,—

has submitted the following finding and recommendation:

"The Board having heard and carefully considered all the evidence as presented, finds the said Patrolman John J. Sullivan guilty of Charges 1 and 2 and specifications thereunder; guilty of Specification 1 of Charge 3 and not guilty of Specification 2 of Charge 3. In view of the fact that the said Patrolman John J. Sullivan has never previously been complained of before a trial board, and in view of the fact that, while on duty, this officer had a fall in the station house as a result of which he received a fractured skull which necessitated his removal to the Boston City Hospital where he remained for a period of five weeks, the Board respectfully recommends that the said Patrolman John J. Sullivan be suspended from duty for a period of ninety days, effective as of April 2, 1934, on Specification 1 of Charge 3. The Board further respectfully recommends that Charges 1 and 2 and specifications thereunder be placed on file. The Board has refrained from recommending that the said Patrolman John J. Sullivan be ordered to perform any punishment duty because of the poor physical condition of this officer. The said Patrolman John J. Sullivan was found not guilty on Specification 2 of Charge 3 because of the fact that there was no evidence offered which would tend to show that this officer knew that Police Positive Revolver No. B. P. D. 825–A was in his house, whereas evidence was offered which tended to show that this officer did not know that this weapon was in his house."

The commissioner accepts the finding and the recommendation of the Trial Board and hereby orders that the said Patrolman John J. Sullivan be suspended from duty for a period of ninety days, effective as of April 2, 1934, at 5.45 o'clock p. m.

Civil Service Rule 23, Section 3, requires approval of the Civil Service Commission before reinstatement.

Rule 23.

"Section 3. With the consent of the Commissioner upon good cause shown, an appointing officer may reinstate in the same position or in a position in the same class and grade any person who has been separated from the service; provided, however, that the Commissioner shall not allow reinstatement of a person discharged for cause."

The Superintendent of Police will promulgate this order.

EUGENE C. HULTMAN, *Commissioner.*

General Order No. 492.

A trial board consisting of Captains Campbell, McGrath and Casey, having heard by reference a complaint made by Mathew Killen, captain, Division 18, against William R. Winter, patrolman, Division 18, for alleged violation of Rules 36 and 41 of the Rules and Regulations of the Police Department, to wit:

Charge 1: Untruthfulness.

Specification: In that on the twenty-second day of May, 1934, the said Patrolman Winter stated to Sergeant Timmins, a ranking officer of the Boston Police Department, that he did not see or talk with a certain man, Joseph A. Meade, when in fact and in truth he did interview him at his home, 29 Johnson street, relative to an auto accident.

Charge 2: Neglect of duty.

Specification: In that on the twenty-second day of May, 1934, the said Patrolman Winter did fail to report an important police matter that was called to his attention, an auto accident, in which a person was injured and the operator of the auto which caused the injury was unlicensed to do so at time,—

has submitted the following finding and recommendation:

"The Board having heard and carefully considered all the evidence presented, accepts the plea of guilty by the said Patrolman William R. Winter. The Board has also taken into consideration that this officer has been a member of the department for six and one-half years and that previous to this offense he had never been warned about violations of the department rules and regulations. However, in view of the seriousness of the offence, the Board was inclined to impose the extreme penalty of dismissal from the force; but Patrolman Winter's commanding officer recommended that he (Winter) be allowed to remain in the department. Captain Killen testified that Patrolman Winter is a truthful and respectful officer and that he believed there would be no occasion for any trouble with this officer in the future. Therefore, the Board respectfully recommends that the said Patrolman William R. Winter be ordered to perform 210 hours of punishment duty."

The commissioner accepts the finding and the recommendation of the Trial Board and hereby orders that the said Patrolman William R. Winter perform 210 hours of punishment duty.

The Superintendent of Police will promulgate this order.

EUGENE C. HULTMAN, *Commissioner.*

General Order No. 493.

Patrolman William S. Ditmar and Charles D. Regan, both attached to Division 4, are commended and each granted seven days' additional vacation for meritorious police duty performed May 29, 1934, in the capture of two men who had committed an armed holdup and robbery of a pay roll, containing a large sum of money.

The commissioner is pleased to recognize and commend the prompt response, alertness and courage shown by these officers in effecting this important capture.

The Superintendent of Police will promulgate this order.

EUGENE C. HULTMAN,
Commissioner.

General Order No. 494.

Sergt. Francis P. McGuire and Patrolman R. Bates, both of Division 16, are commended for effective police duty performed in apprehending the person who on April 18, 1934, had entered an apartment in the Back Bay and committed an armed holdup and robbery.

The commissioner is pleased to recognize the zeal and perseverance shown by these officers in the apprehension and successful prosecution of this dangerous character.

The Superintendent of Police will promulgate this order.

EUGENE C. HULTMAN,
Commissioner.

General Order No. 495.

Patrolmen Harry J. Kopf and William J. Merritt, both of Division 2, are commended and each is given two days' additional vacation for meritorious police duty performed on April 27, 1934, in connection with the apprehension of two persons who had committed a serious assault and robbery of a citizen on April 26, 1934.

The commissioner is pleased to recognize the promptness, zeal and intelligence shown by these officers who continued their efforts while off duty, in order to effect the arrests and successful prosecution of these dangerous characters.

The Superintendent of Police will promulgate this order.

EUGENE C. HULTMAN,
Commissioner.

General Order No. 496.

Sergt. John J. Devine, James P. Murphy, both of Division 6, and Patrolman Henry A. Donovan, of the Detective Bureau, are commended for efficient police duty performed in the apprehension and successful prosecution of the person responsible for setting fires in South Boston on April 1, 1934.

The commissioner is pleased to recognize the zeal, intelligence and excellent cooperation shown by these officers in the arrest and prosecution of this pyromaniac.

The Superintendent of Police will promulgate this order.

EUGENE C. HULTMAN,
Commissioner.

FIRE DEPARTMENT ORDERS.

General Order No. 42.

I. RETIREMENTS.

The following retirement, which took effect at 8 a. m., Friday, May 25, 1934, is hereby announced:

Hoseman John W. Duggan, Engine Company 49.

Hoseman Duggan was appointed to the Fire Department December 16, 1912.

The following retirement is hereby announced, to take effect at 8 a. m., June 10, 1934:

Engineer Joseph M. Holland, Maintenance Division.

Engineer Holland was appointed to the Fire Department on July 18, 1890, and was promoted to engineer on May 10, 1895.

These men leave the department with the best wishes of their associates.

II. STEAM BOILER INSPECTION.

Notice has been received from the office of the Mayor that the Employers' Liability Assurance Corporation, Ltd., has been authorized to make an inspection of all boilers in the Fire Department this year. This will take the place of inspections previously made by the Department of Public Safety at the State House.

III. A. D. T. ASSIGNMENT CARDS.

New A. D. T. assignment cards for pages 13, 14 and 15 are being issued to the department today. These cards are dated June 1, 1934, and are to take the place of old cards dated July 1, 1933. The old cards will be returned to the Fire Headquarters in the envelopes provided, on or before Monday, June 4, 1934.

IV. COMMENDATION.

Man on Probation William G. Cole of Engine Company 24 is hereby commended for responding to and working at fire, Box 3195, May 28, 1934, while off duty.

By order of Fire Commissioner EDWARD F. McLAUGHLIN.

HENRY A. FOX,
Chief of Department.

CIVIL SERVICE EXAMINATIONS. (STATE.)

INDUSTRIAL INSTRUCTOR (METAL DEPARTMENT), STATE PRISON, DEPARTMENT OF CORRECTION, JUNE 30, 1934.

Last date for filing applications, Saturday, June 16, 1934, at 12 noon.

The minimum salary is $1,560 a year; the maximum salary is $2,040 a year, as reduced by statute.

Duties: To supervise and instruct the inmates in the manufacture of iron beds and road signs; to set up punch and stamp presses and operate lathe plane and drill presses; to repair the various machines.

Entrance Requirements: Applicants must have education equivalent to graduation from a standard four-year high school.

Subjects and Weights: Training and experience, 3; practical questions, 4; personality and fitness, as determined by an oral interview, 3; total, 10.

Passing Requirements: At least 70 per cent in each subject in order to become eligible.

Physical fitness to be determined by physical examination.

PROCEEDINGS OF CITY COUNCIL.

Monday, May 28, 1934.

Regular meeting of City Council in Council Chamber, City Hall, at 2 p. m., Coun. FINLEY presiding in the absence of President DOWD. Absent, Coun. Dowd, Gallagher, Roberts and Shattuck.

APPOINTMENTS BY THE MAYOR.

Subject to confirmation by the Council, the Mayor submitted the following appointments, viz.:

Weighers of Coal: John K. Holland, 62 Ship street, Medford; Fred M. Cameron, 135 Washington street, Winchester.

Severally laid over a week under the law.

NORTH MEAD STREET STEPS.

The following was received:

City of Boston,
Office of the Mayor, May 24, 1934.

To the City Council.

Gentlemen,—I transmit herewith a letter from the Commissioner of Public Works, relative to your order of April 30, 1934, concerning the completion of the repairing of North Mead street steps.

Respectfully,
FREDERICK W. MANSFIELD, Mayor.

—

City of Boston,
Public Works Department,
May 22, 1934.

Hon. Frederick W. Mansfield,
Mayor of Boston.

Dear Sir,—I beg leave to acknowledge order of City Council, dated April 30, 1934, reading:

"To instruct contractor repairing North Mead street steps to proceed with the completion of the work as soon as possible."

On May 2, instructions were issued to the contractor to immediately proceed to complete the contract of repairing the North Mead street steps, etc.

Respectfully,
C. J. CARVEN,
Commissioner of Public Works.

Placed on file.

RESURFACING OF NIXON STREET.

The following was received:

City of Boston,
Office of the Mayor, May 25, 1934.

To the Honorable City Council.

Gentlemen,—I transmit herewith a letter from the Commissioner of Public Works, relative to your order of April 30, 1934, concerning the resurfacing of Nixon street.

Respectfully,
FREDERICK W. MANSFIELD, Mayor.

—

City of Boston,
Public Works Department,
May 14, 1934.

Hon. Frederick W. Mansfield,
Mayor of Boston.

Dear Sir,—Beg leave to acknowledge receipt of City Council order dated April 30, reading:

"Ordered, That the Public Works Department, through his Honor the Mayor, be requested to resurface Nixon street."

This street is about 650 feet in length and the cost of resurfacing will be approximately $3,000. At the end of the winter season this street was out of condition. Since then it has been patched and repaired and an oil treatment will probably carry it along for some time to come.

The special appropriation of Reconstruction of Streets will not permit of any extensive resurfacing.

Respectfully,
C. J. CARVEN,
Commissioner of Public Works.

Placed on file.

TRAFFIC SIGNS NEAR EMILY FIFIELD SCHOOL.

The following was received:

City of Boston,
Office of the Mayor, May 25, 1934.

To the Honorable City Council.

Gentlemen,—I transmit herewith a letter from the Boston Traffic Commission, relative to your order of May 7, 1934, concerning the placing of warning traffic signs adjacent to the Emily Fifield School on Torrey street, Dorchester.

Respectfully,
FREDERICK W. MANSFIELD, Mayor.

—

City of Boston,
Traffic Commission, May 11, 1934.

Hon. Frederick W. Mansfield,
Mayor of Boston.

Dear Sir,—I have the honor to acknowledge receipt of Council order dated May 7, 1934, which reads as follows:

"Ordered, That the Traffic Commission, through his Honor the Mayor, be respectfully requested to install warning traffic signs adjacent to the Emily Fifield School on Torrey street, Dorchester."

In accordance with a request received in this office on May 5, 1934, from Councilor Robert G. Wilson, orders were issued on May 8, 1934, to erect two school zone warning signs in Torrey street in the vicinity of the rear entrance to the Emily Fifield School.

These signs will be in position within a few days.

Very truly yours,
WILLIAM P. HICKEY, Commissioner.

Placed on file.

PRESENCE OF FLEET IN BOSTON.

The following was received:

City of Boston,
Office of the Mayor, May 28, 1934.

To the City Council.

Gentlemen,—I am in receipt of the order adopted April 30, 1934, wherein the Mayor is requested to communicate with the members of Congress from Massachusetts with a view to having that part of the Pacific Coast Fleet, which is coming East, assigned to Boston Navy Yard to participate in the celebration of Bunker Hill Day, June 17. I have transmitted your request to the members of Congress from this Commonwealth, and have received replies from several congressmen inclosing copies of the following form letter, which they received from the Navy Department:

Department of the Navy,
Office of the Secretary,
Washington, D. C., May 19, 1934.

My dear Congressman,—Receipt is acknowledged of your letter of May 12 by which you indorse the request of the Hon. Frederick W. Mansfield, Mayor of Boston, to have part of the Fleet at Boston on June 17 to participate in the celebration of Bunker Hill Day.

The Fleet as a whole is scheduled to be in New York from May 31 until June 18. This stay of the Fleet in New York is a matter of approved policy and on that basis the Fleet is definitely committed to an official program at New York which cannot be altered.

I therefore regret that it is not practicable to comply, in this instance, with your wishes. I am glad to assure you, however, that units of the Fleet will have opportunity to visit Boston at various times during the summer.

Sincerely yours,
WILLIAM D. LEAHY, Acting.

—

I also sent a telegram to President Roosevelt, a copy of which I am furnishing you herewith, together with replies from the secretary to the President and the Navy Department:

Boston, Mass., May 22, 1934.

Hon. Franklin D. Roosevelt, President,
White House, Washington, D. C.

Is it not possible to have at least two of the vessels maneuvering in New York Harbor detached on June Seventeenth to be in Boston on June eighteenth for Bunker Hill Day celebration? For many years Fleet has been near Boston but have been unable to get attendance of any vessel on that day. The celebration is in Charlestown where Navy Yard is located and after June eighteenth vessels could immediately rejoin Fleet at New York. Earnestly urge this.

FREDERICK W. MANSFIELD, Mayor.

—

The White House,
Washington, May 22, 1934.

My dear Mr. Mayor,—The President has asked me to acknowledge the receipt of your telegram of May twenty-second. He is at once referring it to the Secretary of the Navy.

Very sincerely yours,
Louis McH. HOWE,
Secretary to the President.

Hon. Frederick W. Mansfield,
Mayor of Boston.

—

First Naval District, Navy Yard, Boston,
Received Dispatch.
Washington, D. C., May 24, 1934.

Mayor Frederick W. Mansfield, Boston.

Your telegram of twenty-second to the President has been referred to Navy Department for reply. I very much regret to continue to disappoint you but the stay of the Fleet at New York from May thirty-first to June eighteenth was planned, approved and announced months ago and cannot be changed.

Secretary of the Navy.

Respectfully,
FREDERICK W. MANSFIELD, Mayor.

Placed on file.

NONRESIDENT PATIENTS AT CITY HOSPITAL.

The following was received:

City of Boston,
Office of the Mayor, May 28, 1934.

To the City Council.

Gentlemen,—I transmit herewith a letter from the Board of Trustees of the Boston City Hospital, relative to your order of April 30, 1934, concerning the number of nonresident patients at the hospital over a given period (1930 to 1934, inclusive), and also concerning amounts recovered by way of reimbursement therefor.

Respectfully,
FREDERICK W. MANSFIELD, Mayor.

—

City of Boston,
Hospital Department, May 24, 1934.

Hon. Frederick W. Mansfield,
Mayor of Boston.

Dear Mr. Mayor,—I am inclosing herewith the information requested by an order of the City Council on April 30, 1934, whereby the trustees are instructed, through his Honor the Mayor, to advise the City Council:

1. The total number of nonresidents of Boston who were patients at the Boston City Hospital during 1934, 1933, 1932, 1931 and 1930.

2. The total number of the above nonresidents for care of whom at the Boston City Hospital, in the year stated, the City of Boston has been reimbursed by the proper city or town of settlement.

3. The total amount recovered for each year.

Yours sincerely,
JOSEPH P. MANNING,
President, Board of Trustees.

—

City of Boston,
Hospital Department, May 16, 1934.

Answers to Questions "Ordered by City Council on April 30, 1934."

Question 1.—The total number of nonresidents of Boston who were patients at the Boston City Hospital during:

	a. 1934	b. 1933	c. 1932	d. 1931	e. 1930
Answer: Number of nonresidents admitted: To April 30, 1934.	425	1,363	1,351	1,446	1,252

Question 2.—The total number of the above nonresidents for care of whom at the Boston City Hospital, in the year stated, the City of Boston has been reimbursed by the proper city or town settlement.

Answer: Number of cases collected from cities and towns:

	To date. a. 1934	b. 1933	c. 1932	d. 1931	e. 1930
	None	210	266	262	279

Number of cases collected from State:

	To date. a. 1934.	b. 1933	c. 1932	d. 1931	e. 1930
	None	1,482	1,098	942	967

Nonresidents as listed in Question 1 are not necessarily settled in the city or town of residence. They may be Boston settled, state cases, or settled in other city or town or in city or town of residence. Also these cases collected from state and from cities and towns include cases of residence in Boston. With regard to cases determined to be settled in a city or town by the Department of Public Welfare settlement office here, the settlement clerk here gives this information to the downtown office of the Department of Public Welfare who gives legal notice to the city or town and from then on handles the collection of the account, notifying us of items collected when sending us their check for a number of cases.

Question 3.—The total amount recovered for each year.

Answer:

Amounts Collected From	Cities and Towns.	State.
1934 to date	None	None
1933	$12,664 87	$44,512 24
1932	18,580 53	29,081 02
1931	21,415 61	25,145 50
1930	20,745 48	27,304 95

Placed on file.

TRANSFER OF PART OF FALLON FIELD.

The following was received:

City of Boston,
Office of the Mayor, May 28, 1934.

To the City Council.

Gentlemen,—The order relative to the transfer of part of Fallon Field to the School Committee which was withdrawn from your honorable body on May 21, 1934, is herewith resubmitted and your attention directed to the letter of May 21, 1934, which was submitted with the original order.

Respectfully,
FREDERICK W. MANSFIELD, Mayor.

—

Ordered, That the Corporation Counsel, through his Honor the Mayor, be requested to prepare and submit to the General Court a petition, with an accompanying bill, authorizing the transfer from the Park Department of a portion, approximately two and one-quarter acres of land known as Fallon Field and now used for playground purposes, to the School Committee to be used for school purposes.

Referred to the Executive Committee.

APPROPRIATION FOR PUBLIC WELFARE DEPARTMENT.

The following was received:

City of Boston,
Office of the Mayor, May 26, 1934.

To the City Council.

Gentlemen,—Under date of the 7th instant your honorable body approved, upon my recommendation, appropriations for relief disbursements by the Public Welfare Department totaling $5,600,000. In recommending the appropriation of this amount, I stated that it was intended to cover the relief requirements of the department for the first five months of the current year, that is to say, from January 1 to June 1.

At the present moment plans are under way for an extensive reorganization of the Public Welfare Department. It is my sincere hope that through the contemplated reorganization a material lessening in the burden of taxation resulting from welfare appropriations may be secured. In order that there may be no suspension of relief payments during the period the new organization is getting under way, I submit herewith an order providing for an additional appropriation of $1,000,000 in the relief items of the department. I am advised that with this appropriation the department will have sufficient funds to cover relief payments until the second week in July, when in all probability it will be possible to estimate accurately the relief requirements of the department for the balance of the year.

I respectfully recommend adoption of the accompanying order by your honorable body.

Respectfully,
FREDERICK W. MANSFIELD, Mayor.

Ordered, That to meet the current expenses payable during the financial year beginning with the first day of January, 1934, for performing the duties and exercising the powers devolved by statute or ordinance, or by vote of the City Council during the year, upon the City of Boston, or the departments or officers thereof, the respective sums of money specified in the table hereinafter set forth be, and the same are, hereby appropriated, to be expended for the objects and purposes hereinafter stated. that the sums be raised by taxation upon the polls and estates taxable in the City of Boston, and that all orders heretofore or subsequently passed by the City Council relating to the appropriations, taxes, and the interest thereon, apply to the taxes herein provided for.

Public Welfare Department (Central Office).

F. Special Items..... $1,000,000

9. Dependent Aid..... $750,000
10. Mothers' Aid..... 125,000
14. Old Age Assistance.. 125,000

Referred to the Committee on Appropriations.

ANNUAL BUDGET RECOMMENDATIONS.

The following was received:

City of Boston,
Office of the Mayor, May 28, 1934.

To the City Council.

Gentlemen,—In compliance with section 3 of the City Charter I submit herewith, in segregated form and in substitution for the lump sum recommendations submitted on January 29, 1934, my budget recommendations for the fiscal year 1934, covering three main appropriation divisions, namely:

1. City department allotments within the tax limit.
2. City debt requirements.
3. Revenue department allotments.

The appropriations recommended for the first two divisions total $36,691,217.53 and will be included in the computation of the tax rate by the Board of Assessors, while the allotments for the third division totaling $1,905,045.05 will be met from the income received by the several revenue departments of the city. The allotments recommended for all purposes in this budget total $38,596,262.58.

CITY MAINTENANCE APPROPRIATIONS.

The allowances recommended for city departments within the tax limit total $25,636,007.25. This total is exclusive of appropriations totaling $6,350,000, which have already been authorized by your honorable body for public welfare and snow removal and additional appropriations for the Public Welfare Department totaling $1,485,694.50, now awaiting action by your honorable body. The total of the approved and pending appropriations when combined with the total of departmental allowances herein recommended still leaves the sum of $2,582,361.55 available for appropriation within the tax limit fixed by the Legislature.

The total of departmental allowances recommended for appropriation for city maintenance requirements represents a reduction of $5,000,813.50 from the estimates submitted by departmental officials and is $1,910,602.75 less than the total of similar appropriation recommendations submitted in 1933. The following table indicates, by groups, the distribution of this latter reduction:

	1933.	1934.	Reduction.
Personal Service	$18,058,499 65	$16,517,690 69	$1,540,808 96
Other Service	3,837,731 00	3,446,000 50	391,730 50
Equipment	703,930 10	724,545 50	* 20,615 40
Supplies	2,008,456 00	2,044,031 00	* 35,575 00
Materials	382,445 00	351,445 00	31,000 00
Special Items	1,838,548 25	1,665,789 56	172,758 69
Miscellaneous	63,000 00	54,405 00	8,595 00
Relief Projects	.....	267,100 00	* 267,100 00
Special Appropriations	654,000 00	565,000 00	89,000 00
	$27,546,610 00	$25,636,007 25	$1,910,602 75

* Increase.

The following explanations are offered in connection with the changes indicated in the foregoing table within the various budget groups:

Personal Service.

Appropriations for pay roll purposes in the various departments and divisions of the city are approximately $1,541,000 less than similar appropriations in 1933. The major portion of this reduction is to be found in the allotments for pay roll payments to permanent employees where a reduction of $1,539,398.65 is reflected. An analysis of this particular reduction is presented in the following table:

Savings resulting from statutory salary decreases		$716,357 21
Other personnel savings		945,230 62
Gross pay roll savings		$1,661,587 83
Overlay	$80,437 39	
New positions	22,424 77	
Transfers from A-2	19,327 02	
		122,189 18
Net pay roll savings		$1,539,398 65

The item for statutory salary decreases represents the savings which have been realized this year through the continuance of the five, ten and fifteen per cent reductions in salaries and wages of city employees. Since these reductions will be in effect for the entire current year as against only approximately two-thirds of last year, additional savings are naturally reflected in the 1934 departmental appropriations for permanent pay roll requirements. Other personnel savings have been secured, first, by a policy of allowing positions becoming vacant through death, retirement or resignation, to remain unfilled, and second, by following a stagger system of employment in certain city departments. In the main, the service and work demands upon these departments have been considerably lessened owing to existing economic conditions, therefore a stagger schedule of employment may be arranged without seriously impairing the ordinary functions of the departments. The item of overlay indicated in the foregoing table represents the additional cost which it is necessary to provide for in the budget of the current year as a result of personnel changes made during the course of the year 1933. Since these changes were effective for only a portion of last year it is only natural that on a full year basis increased appropriations are required. Appropriations for additional employees have been made in the following city departments. In the City Council the services of an additional police officer have been provided to take care of the large number of persons who since the first of the year have been visiting the rooms and gallery of the City Council. In the Hospital Department additional clerks have been provided in order that the clerical work incidental to the billing of hospital patients may be properly carried out. At Long Island Hospital, in connection with the general reorganization which is being made at that institution, several supervisory positions have been established in order to coordinate and assure proper supervision and direction of the several divisions of the institution. In the Law Department an additional assistant corporation counsel has been provided because of the increased amount of legislative and legal work facing the department. In the Licensing Board it has been necessary to establish several new clerical positions in order that the increased volume of business resulting from repeal of prohibition might be properly handled. In the Police Department three new positions have been provided at the request of the Police Commissioner. In the Supply Department the position of assistant to the Superintendent of Supplies has been established in order that the latter official may have expert assistance and advice in the matter of reorganizing the purchasing methods of the city. The positions transferred from Item A-2 are positions of a permanent character and therefore appear to be proper charges against the item for permanent employees. While there is apparently little reduction in this year's appropriation for temporary employees as compared with the appropriation of last year it must be remembered that two additional election functions will be conducted during 1934 thus necessitating additional pay roll appropriations for wardens, clerks and inspectors of approximately $25,000 for each function, or a total additional expense of $50,000.

Service Other Than Personal.

Appropriations for service rendered to the city by corporations, firms and individuals outside of the regular personnel of the city, show a decrease of approximately $400,000 from similar appropriations in 1933. The major item reductions entering into this saving are as follows:

In view of the large amount of repair work carried on in city departments under C. W. A. and E. R. A. projects, it has been possible to make reductions in three items, totaling approximately $285,000. The largest item saving in this respect has been under General Plant where a saving of approximately $196,000 has been made from the total allowance of last year for the repair of departmental structures and property by outside contractors. This reduction has naturally reduced the necessity for city departments advertising contracts to be awarded, with a resultant saving of approximately $5,300. Again in the Assessing and Registry Departments the development of block plans and the consolidation of indexes which, in former years, have been performed by outside agencies, are now being carried forward as emergency relief projects, with a resulting saving to the city of close to $82,000. Other anticipated savings in addition to the three items already discussed are $45,000 in lighting costs; $22,000 in motor vehicle repair expenses; $18,000 in catch-basin cleaning contracts; $15,000 in removal of waste contracts; and $9,500 for the employment of outside stenographic service. In addition, in the Health Department, it is anticipated that because of improved methods of determining settlements of persons admitted to state hospitals and sanatoria, that a reduction of $24,000 in the payments to the state by the city for the care of such cases, will be secured. As a partial offset to these savings increases totaling approximately $27,500 are reflected in three items in this group. Because of additional election functions, appropriations for the printing of voting lists and the cartage of election equipment and paraphernalia show an increase of approximately $3,200 over last year's appropriations. The rental of Young's Hotel as the local headquarters for C. W. A. and E. R. A. administration forces has necessitated an increase in rental appropriations of approximately $24,000.

Equipment.

Allowances for the purchase of necessary equipment in city departments show an increase of approximately $20,600 over similar allowances in 1933. The principal items responsible for this increase are as follows:

In the Public Works Department the city is faced with the necessity of gradually replacing the fleet of seven-ton motor trucks purchased approximately seven years ago for snow removal and waste collection. These trucks, because of their age, require constant repair and care. To replace them all at one time would necessitate a larger appropriation than it is possible, under existing economic conditions, for the city to make. An additional appropriation of approximately $40,000 has been allowed in this year's budget in order to commence a gradual program of replacement. At the Long Island and City Hospitals, increased appropriations of approximately $12,300 have been provided for the purchase of necessary laboratory and surgical equipment. In the opinion of the authorities at these two institutions such equipment is required in order that proper service may be rendered to those citizens of the community who, through misfortune or ill health, are in need of medical and surgical treatment. The heavy storms of last winter have made necessary an increased appropriation of $3,600 in the Sanitary Division of the Public Works Depart-

ment to permit the replacement of broken and damaged snow ploughs. These three increases have been offset in part by the following savings. The approval of a loan for the establishment of a modern communications system in the Police Department has made possible reductions of approximately $20,000 in the budget of this department for the purchase of cable and electrical equipment. Again in this department a saving of $13,000 has been made in the allowance for uniforms owing to the fact that the policy of allowing vacancies in the uniformed forces of the department to remain unfilled, naturally lessens uniform requirements. In the Fire Department a saving of approximately $5,500 has been secured by eliminating certain electrical equipment, the purchase of which, in the opinion of the Fire Commissioner, may be deferred.

Supplies.

Allowances for supplies in the current budget reflect an increase of approximately $35,500 over similar allowances of last year. In the main this increase may be attributed to increased prices of commodities. The total increase in this group would have been considerably larger if it were not for the fact that general reductions have been made in departmental allowances for stationery, postage and office supplies. It is estimated that savings under this item will total in excess of $28,000.

Materials.

A reduction of $31,000 is reflected in allowances under this item when compared with allowances for 1933. This saving would undoubtedly have been considerably larger if it were not for the fact prices of materials have increased sharply since last year.

Special Items.

A reduction of approximately $173,000 is reflected in the appropriations recommended under this group. The principal item responsible for this saving is that for Soldiers' Relief where an allowance of $200,000 less than that provided in 1933 is recommended. This reduction is predicted on the assumption that the continuance of E. R. A. projects and the commencement of work on P. W. A. construction projects should result in a lessening of the number of cases now being carried on the relief rolls of the department. This saving has been offset to the extent of approximately $31,600 by increased pension requirements in the Police and Fire Departments. At the time salary reductions were ordered, last year, a large number of members of the uniformed forces of these two departments applied for retirement. The fact that such pensions will be in effect for a full year in 1934 as against a portion of the year 1933, naturally results in increased pension appropriations in these two departments.

Miscellaneous.

Because of decreases in investigational allowances for the Port Authority and Planning Board and for incidental expenses in the Mayor's Office, budget savings totaling approximately $8,600 are reflected in this group.

Emergency Relief Projects.

Since the 15th of February it has been necessary under the Federal Emergency Relief Program, for the city to provide for all project expenditures other than those for pay rolls. The total appropriation of $267,100 indicated under this group has been allocated to the various city departments for the purchase of materials and supplies and the liquidation of miscellaneous expenses arising from the various C. W. A. and E. R. A. projects which have been or are being carried on.

Special Appropriations.

A net reduction of $89,000 is reflected in this group. This saving has been secured in the following manner. The appropriation for Reserve Fund has been reduced $100,000; that for Parkways and Roadways, $25,000; for Public Celebrations, $24,000; and for Conventions, $10,000. These reductions have been offset by the necessity for providing an increased appropriation of $50,000 for Bridge Repairs and $20,000 additional for Ferry Improvements.

City Debt Requirements.

The appropriations recommended under this group reflect an increase of $1,821,000 over similar appropriations in 1933 and are intended to cover the estimated debt requirements of the city for the current year with the exception of interest payments on loans issued in anticipation of taxes and for P. W. A. construction projects. Because of the uncertainty as to the amounts of such loans to be issued as well as the interest rates which the city will be required to pay on its temporary loans, it is deemed advisable to defer the determination of appropriations of this character till later on in the year, when a more accurate and specific estimation may be made. The total increase which is reflected in this group may be said to be the direct result of the issuance in 1933 of loans for relief requirements in the Public Welfare Department totaling $4,100,000 and a loan of $3,500,000 utilized for the reduction of the 1933 tax rate. These loans total $7,600,000 and were issued for a term of five years. It is necessary, therefore, to include in the Serial Fund appropriations for the current year, one fifth of this total, and in the Interest appropriations, an amount equal to approximately 4½ per cent of the total.

Revenue Departments.

Despite the fact that there are included in this division for the first time appropriations for the operation and maintenance of the East Boston Traffic Tunnel totaling $99,600, the budget total recommended for departments supported by their own revenue is $78,129.85 less than the amount recommended in 1933. In short, exclusive of the amounts recommended for tunnel operation costs, the 1934 budget of the revenue departments reflects a reduction of $177,729.85 from last year's allowances. An analysis of the various revenue department budgets indicates that the same factors described previously in detail in connection with city department appropriations are present in the budgets of the income departments, namely, reduced pay roll appropriations resulting from salary reductions and personnel savings, and increased equipment, supply, and material appropriations, caused by rising prices. In the case of the East Boston Traffic Tunnel, appropriations have been provided on the assumption that this latest improvement will be ready for operation on July 1. Aside from personnel appropriations, the important items to be found in the Tunnel Budget are electric current and power required for the lighting of the tunnel and operation of the ventilating and air-conditioning apparatus; motor trucks to be used in the cleaning of the tunnel and the rendering of aid and assistance to vehicles which may break down while traveling through the tunnel; furniture and office equipment for the administration office and uniforms for the collectors and guards to be stationed at the two entrances. No appropriation is recommended at this time for the interest requirements on bonds issued for the construction of the tunnel and its approaches. At a later date when an accurate and definite estimate can be made covering these requirements, I will forward the necessary recommendation to your honorable body.

Conclusion.

Under date of March 26 an order was passed by your honorable body requesting that a certain form of tabulation be followed in the preparation of this year's budget recommendations, and that an analysis of the 1933 tax rate and the probable rates for 1934, with supporting schedules, be submitted. An examination of the exhibits submitted with my budget recommendations will indicate that the first of these two requests has been complied with. In connection with the second request, I regret that it is impossible at this time to present the desired analysis. At least seventeen items enter into the determination of Boston's tax rate. The majority of these items are outside the control of the Mayor of the city, and originate or are determined outside of City Hall. Because of this fact I prefer not to make at this time any estimate of the amount which it will be necessary to provide in the tax levy for these items. I present, however, for your information and consideration the following table in which a two-year comparison of budget recommendations, originating with the Mayor and submitted to your honorable body, is shown:

ITEM.	1933.	1934.
City Maintenance Requirements	$36,750,000 00	$35,600,000 00
City Debt Requirements *	9,233,944 25	11,055,210 28
County Maintenance Requirements	3,316,775 46	3,163,958 17
County Debt Requirements	157,965 50	152,375 17
	$49,458,685 21	$49,971,543 62
Estimated City and County Revenues	$3,875,000 00	$4,710,400 00
Net Budget Requirements	$45,583,685 21	$45,261,143 62

* Exclusive of interest on temporary loans.

It will be noted from the foregoing table that despite a material increase in debt requirements for the current year the estimated net budget requirements for those divisions of the tax rate determined under the direction of the Mayor indicate at the present moment a reduction in excess of $300,000 from similar requirements at this time last year. It should be clearly understood, however, that the foregoing table includes only five of the items or elements which will enter into this year's tax rate. Lacking definite information at the present moment concerning the State Tax, Metropolitan Assessments, School Requirements, and Assessed Valuations, it would be unwise to assign to the foregoing table any value, except as a current summary of the Mayor's budget recommendations.

Following this message you will find my budget recommendations presented in the form of tax and appropriation orders. I respectfully recommend adoption of these orders by your honorable body.

Respectfully,

FREDERICK W. MANSFIELD, Mayor.

CITY OF BOSTON APPROPRIATIONS AND TAX ORDERS FOR THE FINANCIAL YEAR 1934.

Ordered, That to meet the current expenses payable during the financial year beginning with the first day of January, 1934, for performing the duties and exercising the powers devolved by statute or ordinance, or by vote of the City Council during the year, upon the City of Boston, or the departments or officers thereof, and to meet the obligations for interest on debt, sinking fund requirements and maturing debt not provided for by sinking fund, the respective sums of money specified in the tables and schedules hereinafter set out be, and the same are, hereby appropriated for the several departments and for the objects and purposes hereinafter stated.

Ordered, That the appropriations for Water Service, current expenses, and the payment to the state under the provisions of chapter 488 of the Acts of 1895, and acts in addition or amendment thereto, and for the interest and debt requirements or for loans issued for water purposes be met by the income of said works and any excess over income from taxes; that the appropriation for East Boston Traffic Tunnel be met by the income from tunnel tolls and any excess over income from taxes; that the appropriation for Printing Department be met by the department income and any excess over income from taxes; and the appropriation for *City Record* be met by the income of said publication and any excess over income from taxes; that the other appropriations hereinafter specified be met out of the income of the financial year beginning January 1, 1934, and the balance from taxes to be assessed on the polls and estates of the City of Boston.

Ordered, That all sums of money which form no part of the income of the city but shall be paid for services rendered or work done by any department or division for any other department or division, or for any person or corporation other than the City of Boston, be paid into the general treasury, and that all contributions made to any appropriation be expended for the objects and purposes directed by the several contributors thereof.

Ordered, That all taxes raised to meet the appropriations of the city and county and all taxes assessed for meeting the city's proportion of the state tax for the year 1934 be due and payable on the fifteenth day of September, 1934; that interest shall be charged on all taxes remaining unpaid after the second day of October, 1934, in accordance with the provisions of chapter 59, section 57, of the General Laws, until paid, except the taxes assessed upon shares of national banks, which shall bear interest at the rate of 12 per cent per annum from the fifteenth day of September, 1934, until paid; and that all interest which shall have become due on taxes shall be added to and be part of such taxes.

Ordered, That except as the appropriation for any purpose or item shall be increased by additional appropriations or transfers lawfully made, no money shall be expended by any department for any of the purposes or items designated in the tables and schedules hereinafter set out in excess of the amount set down as appropriated for such specific purpose or item.

CITY DEPARTMENTAL ALLOWANCES RECOMMENDED BY MAYOR FOR 1934.

Department.	Allowances.
Art Department	$1,610 00
Assessing Department	277,835 75

Referred to Committee on Appropriations.

PETITIONS RECEIVED.

The following petitions were received and referred to the committees named, viz.:

Claims.

Edward C. Brady, for compensation for injuries caused by city truck.

Mario Brambilla and Charles A. Colantuono, for refund on tavern license.

John J. Byrne, for compensation for damage to car by tip cart.

Helen Cataldo, for compensation for injuries caused by an alleged defect in Court square, Boston.

M. F. Duncan, for compensation for collapse of water boiler at 927 East Fourth street, caused by water being shut off.

Domenico Giannino, for refund on beer license.

Gulf Refining Company, for compensation for damage to truck by city truck.

Gulf Refining Company, for compensation for damage to pump by city car.

Mrs. Agnes Hope, for compensation for injuries caused by an alleged defect in Washington street, South End.

Margaret and Mary Leonard, for compensation for damage to property at 17 Union avenue, Jamaica Plain, caused by city truck.

A. Leuthy Company, for compensation for damage to property at 18 Pinedale road, caused by leak in water pipe.

Mrs. B. Libby, for refund on ash tickets.

Daniel F. McCarthy, for refund on liquor license.

Thomas L. McCormack, for compensation for damage to car by ball thrown from playground at Albany and Randolph streets.

Earl P. Rand, for compensation for damage to property at 188 West Springfield street, caused by city cart.

John Sherburne, Jr., for compensation for damage to car by fire apparatus.

Executive.

Petitions of children under fifteen years of age to appear at places of public amusement, viz.:

Kathryn I. Brymer, American Legion Building, June 15.

Phyllis G. Warden, Elliot Hall, May 31.

Josette P. Curran, Roslindale Municipal Building, May 26.

APPOINTMENTS BY THE MAYOR.

Notices were received from the Mayor of the following appointments:

Frederic H. Fay, 227 Savin Hill avenue, to be a member of the City Planning Board for term of five years beginning May 1, 1934, and designated as Chairman.

William P. Long, 44 Tower street, Jamaica Plain, Park Commissioner for term of three years from May 1, 1934, and designated as Chairman of the Board of Park Commissioners.

William J. Casey, 402 Columbia road, Dorchester, to be Superintendent of Printing in Printing Department for term of four years beginning May 1, 1934.

Charles J. Fox, 3 Carmel street, Roxbury, to be City Auditor for term of four years ending April 30, 1938, the appointment to commence June 1, 1934.

David B. Shaw, 101 Nottinghill road, Brighton, to be a member of Board of Election Commissioners, to take the place of Helen A. Macdonald, for term ending March 31, 1938, said appointment to become effective June 1, 1934, and designated as Chairman of Board of Election Commissioners.

David B. Shaw, 101 Nottinghill road, Brighton, to be Acting Principal Assessor to fill vacancy caused by his resignation as Principal Assessor, the appointment to become effective on June 1, 1934.

Severally placed on file.

NOTICES FROM SECRETARY OF COMMONWEALTH.

Notices were received from the Secretary of the Commonwealth of record of persons duly appointed and qualified, and serving on following boards, with dates of appointments and expiration, viz.:

Licensing Board, Finance Commission, Board of Boston Port Authority, Police Commissioner, Medical Examiners, Suffolk County, Trustees, Boston Metropolitan District.

Severally placed on file.

EMERGENCY FINANCE BOARD APPROVAL.

Notices were received from the Emergency Finance Board of approval of Public Works Project for $700,000 for water mains and $350,000 for Police Communications System.

Severally placed on file.

APPROVAL OF CONSTABLES' BONDS.

The bonds of the following-named constables, having been duly approved by the City Treasurer, were received and approved viz.: Charles A. Bancroft, Abner Goulston, Samuel Goldkrand, Richard Hegarty, Frank J. Macchia, Fred R. Napolitano, Bert Oppenheim, Joseph Todisco, Leon Small, Aber Uckerman, Abraham I. Weiss.

BOND FOR CELTIC ASSOCIATION SUNDAY SPORTS.

Bond of London and Lancashire Indemnity Company of America was submitted covering use by Celtic Association of premises on Metropolitan avenue, between Thatcher street and Hyde Park avenue, Hyde Park, for Sunday sports.

The bond was approved.

CONFIRMATION OF CONSTABLES.

Chairman FINLEY called up, under unfinished business, No. 2 on the calendar, viz.:

2. Action on appointments submitted by the Mayor May 21, 1934, of Sandford H. Belyea and Charles M. Wison, to be Weighers of Coal; Harry W. Dieust, to be a Weigher of Coal and Measurer of Wood and Bark, and Frank W. Roberts, to be a Weigher of Goods.

The question came on confirmation. Committee, Coun. Selvitella and Agnew. Whole number of ballots 12, yeas 12, and the appointments were confirmed.

CITY PRINTING.

Coun. FISH and MURRAY offered the following:

Ordered, That all printing paid for by the city for city or county purposes be printed in the City of Boston Printing Plant.

Coun. FISH—Mr. Chairman, I recall that last year we had quite an argument in regard to the county printing, which we all felt should be done in the City of Boston Printing Plant, inasmuch as the whole thing is paid for by the city. Therefore, I introduce this order and trust that some action may be taken as suggested.

Referred to Committee on Appropriations.

PROPOSED FIVE-CENT FARE FOR F. E. R. A. EMPLOYEES.

Coun. BRACKMAN offered the following:

Resolved, That the Boston City Council be recorded in favor of a proposed five-cent fare to F. E. R. A. employees and that copies of this resolution be sent to the Trustees of the Boston Elevated Railway Company.

Passed under suspension of the rule.

RECESS.

The Council voted at 2.26 p. m., on motion of Coun. ENGLERT, to take a recess subject to the call of the Chair. The members reassembled in the Council Chamber and were called to order by Chairman FINLEY at 2.43 p. m.

EXECUTIVE COMMITTEE REPORTS.

Coun. WILSON, for the Executive Committee, submitted the following:

1. Report on petitions (referred today) for children under fifteen years of age to appear at places of public amusement, viz.:

Kathryn I. Brymer, American Legion Building, June 15.

Phyllis G. Warden, Elliot Hall, May 31

Josette P. Curren, Roslindale Municipal Building, May 26,—

recommending that leave be granted under usual conditions.

Report accepted; leave granted, under usual conditions.

2. Report on message of Mayor and order (referred today) authorizing Corporation Counsel to submit to General Court a petition for transfer from Park Department of a portion of land known as Fallon Field to School Committee to be used for school purposes,—that the order ought to pass.

Coun. WILSON—Mr. President, for very good reasons I hesitate to raise my voice in the negative against a measure in your ward, because I appreciate that you are much more familiar than I am with the necessities and requirements out there. But I do feel, from what I know of the nature of the situation out there—while not attempting to point out to you what is necessary in your ward—that, as I understand it, the people of West Roxbury have had to put up a long and courageous fight for this particular high school, and there seems to be some dissension out there as to where it should be located. While people in one section might not insist that it be placed in their section, as against the other, there seem to be many who feel that it might be on the line, as well as a feeling that Fallon Field is a long ways distant from some of the outlying sections of West Roxbury. While I appreciate the fact that the city is going to save money by placing the high school on a playground, I am not willing to take an attitude which would seem to encourage the idea that such buildings should be placed on playgrounds for which members of the Council have had to fight in the past. I don't know that I personally entirely agree with the idea of placing the high school building on Fallon Field, a playground upon which the Council voted to spend more than $100,000 some three years ago. There is a serious question in my mind, therefore, whether the foundations for the proposed new high school should be dug out there until we really decide that this is real economy in the highest sense. I wish, therefore, to be recorded against the passage of this particular order.

The order was passed.

SURVEYS OF PUBLIC WELFARE DEPARTMENT.

Coun. WILSON offered the following:

Ordered, That his Honor the Mayor be, and he hereby is, respectfully requested to furnish the City Council with a copy of the reports made by Miss Katherine Hardwick on surveys of the Public Welfare Department.

Passed under suspension of the rule.

RESURFACING OF WELLES AVENUE.

Coun. WILSON offered the following:

Ordered, That the Commissioner of Public Works be, and he hereby is, requested, through his Honor the Mayor, to provide for the resurfacing of Welles avenue, Dorchester, between Washington street and Talbot avenue.

Passed under suspension of the rule.

TRAFFIC CONDITIONS, WASHINGTON AND TREMONT STREETS.

Coun. WILSON offered the following:

Ordered, That the Traffic Commission and the Police Commissioner, through his Honor the Mayor, be, and hereby are, respectfully requested to make a check-up and survey for possible improvement of traffic conditions on Washington street and on Tremont street, especially during the hours from 9 a. m. to 11 a. m. and from 4 p. m. to 6 p. m.

Coun. WILSON—Mr. President, with reference to that order, let me say that I have in mind the manner in which the traffic lights on Washington and Tremont streets, upon which we spent so many thousand dollars, have been working out. Let me refer to what I have personally seen happen, coming in Washington street, for example, at Stuart street, and what I have also seen on Tremont street. Traffic coming down through Washington street is frequently held up, for example, at Stuart street, and traffic is frequently held up the same way going out Tremont street, drivers waiting until the traffic lights have changed from red to yellow and green and back again three times, because of the delay in traffic there and in some of the side streets. A car will come in from a side street, and then the light will change and it will be hung up across traffic, possibly, and blocks in the main line of travel will occur, with the result that the lights will go on and off, on and off, several times before drivers awaiting a chance to get through can do so. I don't know whether the chief trouble is from trucks and horse-drawn vehicles, which should perhaps be kept from those rapid through routes, or whether some other plan could be devised to facilitate the through traffic on Washington and Tremont streets; whether police officers might allow traffic to pass along at times even when the lights might be against it, or when the light changed. I do know, however, that something is wrong, and I do wish that a survey of some nature might be made by the Traffic Commissioner and Police Commissioner, those in charge of the Boston traffic situation; because it certainly seems with the present set-up, after all the expense we have been to to provide those lights and put them in operation, that there should be some real system worked out which would facilitate traffic, that the lights should not be, as they seem now largely to be, simply for decorative purposes.

The order was passed under suspension of the rule.

RE-REGISTRATION OF WELFARE RECIPIENTS.

Coun. WILSON offered the following:

Ordered, That the Overseers of Public Welfare be requested, through his Honor the Mayor, to advise the City Council whether the immediate re-registration of all recipients of Public Welfare, requested by City Council order of April 16, has been completed and, if so, as of what date; also the total number of active cases on the rolls of said department as of said date.

Coun. WILSON—Mr. President, this particular order is offered at this time in no spirit of criticism, but with a desire to ascertain the present status of this highly important re-registration, which originally was requested in an order introduced by Councilor Agnew, I believe, as long ago as April 16 or 26. In common with other members of the City Council, I read with interest this morning the latest developments in the Welfare Department. It might be more or less unbecoming to rejoice in Mr. McCarthy's demotion and transfer, but I do feel that it is not unfair to suggest that Mr. McCarthy's own remarks, reported over the radio last week, are their own best evidence as to the reason he himself ascribes for what has now occurred. Since he himself places responsibility for the alleged disadvantages of our investigation, I feel that we have the right to assume some credit for the benefits attained. I feel that the members of the new Board of Trustees of the Welfare Department are deserving of the highest commendation for the way in which they have taken charge under most adverse and discouraging conditions. They have gone in like a new pitcher with three on base and nobody out! Another run or two may score, but at least they seem to be able to find the plate, which is more than their predecessors have done in the last three or four years, and they show a realization that in recent years the only rubber stamps in the department have not been those used on work cards. I trust that the newspaper accounts as to Mr. McCarthy's demotion and transfer are correct. We have read the name of Mr. McCarthy's successor in that particular job. Of course, the job of executive secretary of the Public Welfare Department is just now a good spot for a former member of the Finance Commission; and, while I have not at all times been in favor of things he has done in the past, I believe Mr. Dowling's record shows that when he goes hunting he is just as willing to shoot at buffalo as at field mice.

The order was passed under suspension of the rule.

COMPLETION OF E. R. A. PROJECTS.

Coun. TOBIN and SELVITELLA offered the following:

Whereas, Certain E. R. A. projects of the Bridge and Ferry Service have not been completed and it is contemplated to discontinue these projects on June 1st; and

Whereas, Petitions have been received containing the signatures of over 2,500 persons affected by these projects; therefore be it

Resolved, That the Mayor of Boston be requested to appeal to Federal Administrator Joseph P. Carney and Local Administrator Roswell G. Hall in an effort to have these men continued at work until such time as these projects have been totally completed.

Coun. SELVITELLA—Mr. President, Councilor Tobin and myself are in receipt of over 2,500 signatures to a petition to the Mayor to continue the city E. R. A. projects that the Bridge and Ferry Division have been working on for the last three or four months. Many of these projects are now nearing completion, and in the case of paving and repairing of the bridges are at a point where they would have to be completed by some other means. If left in an uncompleted state, they will endanger public lives and continue to be a source of possible litigation to the City of Boston. Furthermore, materials have been purchased and delivered at their respective places to finish the work started. Also, by continuance of these projects, the City of Boston would be relieved of the necessity of supporting men who, if they were suddenly left without employment, would of necessity have to return to the rolls of the Welfare or Soldiers' Relief, and the saving to the city in keeping the men employed as at present would be tremendous. I don't know just what plans the Boston administration may have or may contemplate in regard to the uncompleted projects, but it would seem economical for the Bridge and Ferry Division to continue the projects, if permitted to do so, rather than have them discontinued and have everything left haphazard, with, as I have suggested, the possibility of litigation. I trust that the Mayor of Boston will, in his judgment, instruct the department to complete this work, thereby preventing a wholesale discharge of hundreds of men who have been working for the last three months.

The order was passed under suspension of the rule.

CLEANING OF BEACHES.

Coun. DONOVAN and KERRIGAN offered the following:

Ordered, That the Park Commission be requested, through his Honor the Mayor, to clean up the beach and remove all stones from same, between L Street Bath and the Boston Yacht Club, and also along Farragut Beach.

Passed under suspension of the rule.

EXTENSION OF WALTER R. WHITE SQUARE.

Coun. TOBIN offered the following:

Ordered, That the square at the intersection of Richfield street and Columbia road, named in honor of Walter R. White, late veteran of the World War, by an order approved by the Mayor August 1, 1933, be further extended in its boundaries by including the portion of land at Hamilton street and Columbia road.

Passed under suspension of the rule.

LAND FOR JOHN MARSHALL SCHOOL.

Coun. TOBIN offered the following:

Ordered, That the School Committee be requested, through his Honor the Mayor, to take additional land adjacent to the John Marshall School, Dorchester, for play space for the children attending same.

Passed under suspension of the rule.

BOSTON PLACE, WARD 7.

Coun. KERRIGAN offered the following:

Ordered, That the Board of Street Commissioners be requested, through his Honor the Mayor, to accept and lay out Boston place, Ward 7, as a public highway.

Passed under suspension of the rule.

HOLIDAY ON MAY 30.

Coun. FISH offered the following:

Ordered, That his Honor the Mayor be requested to instruct all department heads of the city to grant leave of absence, without loss of pay, to all employees of said city on Memorial Day, May 30.

Passed under suspension of the rule.

TRAFFIC LIGHTS ON COMMONWEALTH AVENUE.

Coun. NORTON offered the following:

Ordered, That the Traffic Commission be requested, through his Honor the Mayor, to make a study of the traffic lights along Commonwealth avenue with a view to speeding up traffic along this artery.

Coun. NORTON—Mr. President, I think that in some instances traffic lights at certain intersections, instead of accelerating traffic, really retard it. I have in mind, for instance, Commonwealth avenue, between Arlington street and Massachusetts avenue. It may be interesting to some members of the Council to know that in various American cities a very careful study is made of the traffic light situation, and much valuable information may be obtained by taking advantage of the studies and the results in other cities. It is only by comparison that men emerge from the mud hole. So I trust that there will be a study made of the Commonwealth avenue traffic lights, from Arlington street out to Massachusetts avenue. I think it might be possible to work out a system whereby traffic on the main avenue would not be delayed by the police officer where there is no traffic coming from side streets.

The order was passed under suspension of the rule.

BUS STOPS, DORCHESTER.

Coun. TOBIN offered the following:

Ordered, That the Trustees of the Boston Elevated Railway Company be requested, through his Honor the Mayor, to restore the bus stops which were recently discontinued on Dorchester avenue, between Fields Corner and Savin Hill avenue.

Passed under suspension of the rule.

Adjourned, on motion of Coun. GLEASON, at 3 p. m., to meet on Monday, June 4, 1934, at 2 p. m.

PROCEEDINGS OF SCHOOL COMMITTEE.

May 7, 1934.

A regular meeting of the School Committee of the City of Boston was held in the Administration Building, 15 Beacon Street, at 8:35 o'clock P. M., the Chairman presiding.

Present: Messrs. Hurley, Lyons, Mackey, Sullivan and Tobin.

—

AMENDMENT AND APPROVAL OF MINUTES

On motion, the minutes of a previous meeting were amended as follows:

Apr. 2, 1934, on page 44, to provide that the appointment from the eligible list of Morton H. Cassidy as junior master, fifth year, Hyde Park High School, shall read to take effect "Apr. 27, 1934."

—

The reading of the minutes of the previous meeting was omitted, the Committee approving them as printed.

—

ACCEPTANCE OF NEW SCHOOL

A communication was received from the Superintendent of Construction, Department of School Buildings, under date of Apr. 23, 1934, reporting that he has accepted for occupancy, as of Apr. 20, 1934, the second addition to the Randall G. Morris School.

Placed on file.

—

DEATHS

The Superintendent reported the deaths of the following-named teachers:

Warren District—Margaret M. Whalen, master's assistant, Apr. 15, 1934.

Wells District—Mary T. Dowling, assistant, elementary, Apr. 4, 1934.

Placed on file.

—

The Superintendent reported the death of the following-named teacher, who had been retired on pension:

Harvard-Frothingham District—Mary E. Delaney, Feb. 16, 1934.

Placed on file.

—

RESIGNATIONS

The following resignations, reported by the Superintendent, to take effect on the dates stated, were presented:

Abraham Lincoln District—Catherine G. O'Hara, assistant, elementary, Apr. 13, 1934.

Department of Household Science and Arts—Mary P. O'Hearn, teacher of sewing, Apr. 27, 1934.

Edmund P. Tileston and Henry L. Higginson Districts—Catherine M. Gabele, clerical assistant, Apr. 30, 1934.

Accepted.

—

APPOINTMENTS AND TRANSFERS

The following appointments and transfers by the Superintendent, certified by him as being in accordance with the rules and regulations, to take effect on the dates stated, were presented:

(FROM THE ELIGIBLE LIST)

(To fill vacancies caused by increase in numbers)

Chapman District—Anna K. Spinale, assistant, elementary, May 23, 1934.

Gaston District—Mary J. Keefe, assistant, elementary, May 23, 1934.

Hyde District—Dora E. King, assistant, elementary, May 23, 1934.

Julia Ward Howe District—Madeleine A. Curry, assistant, kindergarten, May 23, 1934.

Prince District—Alma L. Ames, assistant, elementary, May 23, 1934.

Warren District — Margaret M. Gill, assistant, elementary, May 23, 1934.

Laid over.

—

(To fill vacancies caused by death, resignations, or retirements)

Dorchester High School for Girls —Rose E. Weiffenbach, assistant, third year, May 23, 1934.

Approved.

—

TRANSFER

Augusta S. Tavender, assistant, intermediate, Franklin District, to the same position in the Prince District, May 14, 1934.

Approved.

—

LEAVES OF ABSENCE

On the report of the Superintendent, leave of absence was

granted each of the following-named persons for the term specified:

Dorchester High School for Boys —Robert F. O'Brien, junior master, Apr. 27, 1934, one day, court summons.

Boston Trade School—Francis J. Murphy, vocational instructor, Apr. 10, 1934, one day, court summons.

Department of Household Science and Arts—Margaret T. McCormick, teacher of sewing, Apr. 24, 1934, one-half day, and Apr. 30, 1934, one-half day, court summons.

Department of Penmanship — Katharine O'Brien, assistant director, Apr. 23, 1934, one-half day, and Apr. 30, 1934, one-half day, court summons.

Charles Sumner District—Helen A. McMorrow, assistant, elementary, Apr. 10, 1934, one-half day, court summons.

Gaston District — Pauline E. Madden, assistant, elementary, Apr. 27, 1934, one day, court summons.

Longfellow District—Dorothy M. DeCourcey, assistant, elementary, Apr. 10 and 11, 1934, two days, court summons.

—

On the report of the Superintendent, leave of absence under a suspension of the regulations was granted each of the following-named teachers for the term specified:

The Teachers College—E. Beatrice Mahaney, assistant professor, Apr. 1, 1934 to June 21, 1934, without pay.

Girls' High School—Mary E. Cosgrove, assistant, Apr. 24, 1934 to May 31, 1934, without pay.

Trade School for Girls—Ellen L. Barry, trade assistant, Apr. 1, 1934 to June 21, 1934, without pay.

Christopher Gibson District—Elizabeth V. Hinds, assistant, elementary, Apr. 2, 1934 to Apr. 30, 1934, without pay.

Francis Parkman District—Mary E. Forrest, assistant, elementary, Apr. 2, 1934 to Apr. 30, 1934, without pay.

—

On the report of the Superintendent, leave of absence for study, study and travel, or for rest, was granted each of the following-named teachers for the term specified:

The Teachers College—Alice M. Kerrigan, assistant professor, from Sept. 1, 1934, to Aug. 31, 1935, for study and travel.

Brighton High School—Marjorie Loring, assistant, from Sept. 1, 1934, to Aug. 31, 1935, for study and travel; Frankie E. Sullivan, first assistant, head of department, from Sept. 1, 1934, to Aug. 31, 1935, for rest.

English High School—Walter L. Leighton, junior master, from Sept. 1, 1934, to Aug. 31, 1935, for rest.

Department of Manual Arts—Laura W. Cook, assistant, from Sept. 1, 1934, to Aug. 31, 1935, for rest.

Mather District—Mary A. Starkey, master's assistant, from Sept. 1, 1934, to Aug. 31, 1935, for rest.

—

DESIGNATIONS

A communication was received from the Superintendent, under date of May 7, 1934, reporting that he has made the following designations of teachers to serve in the positions indicated until such time as they shall be filled otherwise in accordance with the rules and regulations, but not beyond Aug. 31, 1934:

Dillaway District—Anna T. McCarron, assistant, kindergarten, as acting first assistant, kindergarten (vice Elizabeth C. Barry, absent on leave), Mar. 26, 1934.

ORDERED, That Bertha A. Connor, Director of Penmanship, is hereby authorized to attend the annual meeting of the National Association of Penmanship Teachers and Supervisors, to be held at Indianapolis, Ind., Apr. 18 to 20, 1934, inclusive, at an expense to the city not to exceed seventy-five dollars ($75).

—

On motion of the Superintendent, it was

ORDERED, That Lillian B. Poor, Director of Kindergartens, is hereby authorized to attend the Annual Convention of the Association for Childhood Education, to be held at Nashville, Tenn., from Apr. 30 to May 7, 1934, inclusive, at an expense to the city not to exceed seventy-five dollars ($75).

—

REPORTS ON ATTENDANCE AT CONVENTIONS

A communication was received from the Superintendent, under date of May 7, 1934, submitting in accordance with the provisions of Section 3 of Chapter 274 of the Acts of 1914, report of Helen E. Cleaves, Director of Manual Arts, on her attendance at the Eastern Arts Association meeting, held at Rochester, N. Y., from Apr. 4 to 6, 1934, inclusive.

Placed on file.

—

A communication was received from the Superintendent, under date of May 7, 1934, submitting, in accordance with the provisions of Section 3 of Chapter 274 of the Acts of 1914, report of Helen F. McCaffrey, Supervising Nurse, on her attendance at the Biennial Convention of the National Organizations for Nursing, held in Washington, D. C., during the week Apr. 23 to 27, 1934.

Placed on file.

—

DISCONTINUANCE AND ESTABLISHMENT OF SPECIAL CLASSES

A communication was received from the Superintendent, under date of May 7, 1934, reporting that he has discontinued one special class in the Theodore Roosevelt Intermediate District.

Placed on file.

—

A communication was received from the Superintendent, under date of May 7, 1934, reporting that subject to the approval of the School Committee, he has established an additional special class, making two in all, in the Dearborn District.

Approved.

—

TRANSFER OF APPROPRIATION

The following communication was presented:

CITY OF BOSTON, DEPARTMENT OF SCHOOL BUILDINGS

May 1, 1934.

Boston School Committee,
15 Beacon st.,
Boston, Mass.

Gentlemen:

Under date of Feb. 13, 1934, the School Committee forwarded to the Board of Commissioners of School Buildings the following proposed order:

ORDERED, That of the amount appropriated by the School Committee under date of Dec. 4, 1933, by transfer (see p. 208), the following amount is hereby transferred to the 1934 item of school accommodations as listed below:

FROM

Item 9, 1933—Joseph H. Barnes Intermediate District, East Boston: Plans for fourteen-classroom addition to Joseph H. Barnes School with lunchroom and shop accommodations $3,500.00

TO

Item 10, 1934—Joseph H. Barnes Intermediate District, East Boston: Plans for seven-classroom addition, third story on addition to Joseph H. Barnes School $3,5000.000

This order has to do with the appropriation for plans for the seven classroom addition, namely, the third story on addition to the Joseph H. Barnes School. While this addition cannot be undertaken at this time for lack of funds appropriated for this purpose, it seems desirable for many reasons and more economical by a very substantial amount to have the plans prepared for this third story at the present time while the architect is carrying forward his plans on the structure now under construction.

We therefore have approved the foregoing order.

Respectfully yours,

Board of Commissioners of School Buildings

By Richard J. Lane, Chairman.

Placed on file.

—

The following was offered:

ORDERED, That of the amount appropriated by the School Committee under date of December 4, 1933, by transfer (see p. 208), the following amount is hereby transferred to the 1934 item of school accommodations as listed below:

FROM

Item 9, 1933—Joseph H. Barnes Intermediate District, East Boston: Plans for fourteen1 classroom addition to Joseph H. Barnes School with lunchroom and shop accommodations $3,500.00

TO

Item 10, 1934—Joseph H. Barnes Intermediate District, East Boston: Plans for seven-classroom addition, third story on addition to Joseph H. Barnes School $3,500.00

Passed by the following vote:

YEAS—Messrs. Hurley, Lyons, Mackey, Sullivan and Tobin—5.

NAYS—0.

—

APPROPRIATIONS AND EXPENDITURES TO MAY 1, 1934

A communication was received from the Business Manager, under date of Apr. 30, 1934, submitting, pending the adoption of the maintenance budget, a statement showing the expenditures for maintenance of the public schools for the first four drafts of the current financial year, the expenditures for the first four drafts of the financial year 1933, and the increases and decreases in the several items.

Placed on file.

—

LEAVE OF ABSENCE TO CUSTODIAN

A communication was received from the Schoolhouse Custodian, under date of May 7, 1934, recommending that the leave of absence on one-half net compensation granted Eugene A. Leonard, custodian, John J. Williams Schoolhouse, be extended for the further period May 1 to 19, 1934, inclusive.

Placed on file and leave of absence on one-half net compensation granted for the further period specified.

—

TRANSFERS OF CUSTODIANS

A communication was received from the Schoolhouse Custodian under date of May 7, 1934, recommending that the following-named custodians, who stand at the head of their respective lists, be appointed as indicated, to take effect on the dates stated:

James P. Doyle, custodian, Christopher Columbus School-house, to the custodianship of the Hyde School-house, May 6, 1934.

Frank J. Christie, custodian, Nathaniel Hawthorne School-house, to the custodianship of the Henry L. Higginson School-house, May 6, 1934.

Francis L. Butler, custodian, Elizabeth Peabody School-house, to the custodianship of the Frank V. Thompson School-house, May 4, 1934.

John J. Sullivan, custodian, Richard C. Humphreys School-house, to the custodianship of the Benedict Fenwick School-house, May 4, 1934.

Placed on file and the transfers approved, to take effect on the dates stated.

—

WELCOME TO FRIGATE CONSTITUTION

Mr. Sullivan: Mr. Chairman, I was pleased to note in the papers today that the Frigate Constitution has returned to Boston after a trip through the Canal from the Pacific Coast. Patriotic exercises were held all along the line in the ports at which she called.

Some time ago the Constitution was rebuilt by contributions from school children all over the country, and it is therefore fitting that this School Committee give official recognition to its return. As a resident of Charlestown, I am expressing the feelings of the people of that district when I say that we believe it is eminently fitting that the Constitution should be brought back to the Charlestown Navy Yard and there given a permanent berth.

At the present time I have the honor of serving on a committee which is preparing a welcome for this ship on next Sunday, May 13, 1934. It is planned to have a parade extending probably through the North and West Ends of Boston, and Charlestown, with proper observances in the harbor—decoration of ships, a water parade escorting the Constitution to its berth, and patriotic exercises in the Navy Yard.

I would suggest to the School Committee, through the Superintendent of Schools, that patriotic exercises commemorating this return of the Frigate Constitution be held in all the schools and that the school children be given every opportunity to participate. It is planned to have several school bands and a representative showing of the school cadets in the line of march in the Sunday parade.

I would, therefore, offer the following:

That this School Committee go on record as heartily in favor of co-operation with the Committee in Charge of this memorable event, and that the schools, through the Superintendent, be urged to participate in the exercises.

The motion passed unanimously.

—

PHYSICAL EDUCATION SURVEY COMMITTEE

Chairman: I would like to bring before the committee, by the presentation of the following resolutions, a matter that I know has the interest of every member of the Committee:

Whereas, Athletics in the Boston public school system have been largely curtailed in recent years, principally by reason of the decisions of the Massachusetts Supreme Court in Byrne against Cambridge, and in Wright and Ditson against Boston, restricting the power of the School Committee in purchasing athletic equipment, and

Whereas, The power of the School Committee has been broadened by a recent act of the Legislature which changes the rule in the cases cited above, and

Whereas, The recent years of depression with attendant effects on the health and physique of the children in the opinion of leading medical authorities are deleterious, and

Whereas, There has been a growing demand on the part of parents, children and health authorities for a broadening of the scope and extent of athletic activities, and

Whereas, The School Committee is desirous of keeping down its appropriations for all purposes, without curtailing necessary activities; be it therefore

ORDERED, That a committee of seven citizens, to serve without pay, be and hereby is appointed by the Boston School Committee to make a survey which shall include the following, said committee to report to the School Committee, if possible, some time prior to the last meeting in June of this year:

1. The advisability of instituting intra-mural athletics, in addition to inter-school competition.

2. The advisability of introducing as subjects of inter-school competition, basketball and hockey for boys, and field hockey for girls.

3. The necessity from a health standpoint of doing what is contemplated under Nos. 1 and 2 above.

4. The cost of doing Nos. 1 and 2 above, having in mind our desire for economy and the idea of suggesting additional revenue for the purpose of athletic competition.

—

Mr. Sullivan: Mr. Chairman, I am in hearty accord with the proposed action. I believe that our schools should have an extension of athletic activities, but I should not want to see the extension carried to a point that would increase the school budget. I am heartily in favor, wherever we can make sports self-supporting. I would like to ask if it would be possible to include in the survey any sports other than those specifically mentioned?

Chairman: I think the motion is sufficiently broad to allow the committee to study questions other than those I have mentioned.

On motion, the resolutions were adopted and the order passed by unanimous vote.

—

The Chair thereupon appointed the following Committee:

William Arthur Reilly, Chairman
Mr. Elijah Cunningham
Brother Gilbert, C. F. X.
C. Frank Kane
Joseph McKenney
Augustus J. Rooney
Bernard White.

Mr. Tobin: I am designating Mr. Reilly as Chairman of the Committee because of his knowledge of the school system gained through his four years of service as a member of the School Committee and two years as Chairman. With this background, Mr. Reilly will be invaluable as a guide to the Committee in its deliberations. I have confidence that the report finally submitted by the Committee will be a valuable contribution.

—

PLAYGROUNDS

Dr. Lyons: Some little while ago I offered a motion in regard to the opening of playgrounds. I would like to ask the Superintendent, through you, Mr. Chairman, what has been done?

Superintendent: We have worked out the plan and I expect that all the details will be so arranged that the playgrounds may be opened up next week. Our chief difficulty has been the assignment of teachers to playground service in such a way as to spread the work among the girls who have earned the least money this year.

Dr. Lyons: Then it is safe to say next week?

Superintendent: Yes. I hope the very first of the week.

Chairman: I am in entire sympathy with Dr. Lyons in his desire to get the playgrounds going at once. There are sections in the city where playgrounds should be opened immediately. I have in mind particularly the North End which is probably the most congested area in the entire city. I am anxious to see the North End playgrounds opened at the earliest possible date. I feel confident that we can leave this matter in the hands of the Superintendent.

—

The Committee adjourned.
Attest:
ELLEN M. CRONIN,
Secretary.

SCHOOL ATTENDANCE FOR BOSTON.

Number of children 7-13 years old, 91,758, of whom 90,347, or 98.5 per cent were attending school; 14 and 15 years, 25,659, of whom 24,507, or 95.5 per cent, were attending school; 16 and 17 years, 25,932, of whom 16,912, or 65.2 per cent, were attending school; 18 to 20 years, 41,282, of whom 10,991, or 26.6 per cent, were attending school; total children 7 to 20 years old, 184,631, of whom 142,757, or 77.3 per cent, were attending school. Number of persons attending school who were 21 years of age and over was 10,966.

PROCEEDINGS OF SCHOOL COMMITTEE.

May 21, 1934

A regular meeting of the School Committee of the City of Boston was held in the Administration Building, 15 Beacon Street, at 6:05 o'clock P. M., the Chairman presiding.

Present: Messrs. Hurley, Lyons, Mackey, Sullivan and Tobin.

APPROVAL OF MINUTES

The reading of the minutes of the previous meeting was omitted, the Committee approving them as printed.

APPROVAL OF APPPOINTMENTS

The Chairman stated the question was on approving the appointments of teachers, as reported by the Superintendent and laid over at the previous meeting.

The appointments were approved.

—

DEATH

The Superintendent reported the death of the following-named teacher:

Thomas N. Hart District—Florence Harlow, assistant, elementary, May 12, 1934.

Placed on file.

—

RESIGNATIONS

The following resignations reported by the Superintendent to take effect on the dates stated, were presented:

Dudley District—Marguerite J Baker, assistant, elementary, May 18, 1934.

John Winthrop District—Dorothy L. Winchenbach, assistant, intermediate, April 30, 1934.

Accepted.

—

RETIREMENTS ON PENSION

A communication was received from the Superintendent, under date of May 21, 1934, reporting the retirement from active service of the following-named member of the Boston Retirement System, to take effect May 31, 1934, as certified by the Boston Retirement Board, under date of May 15, 1934:

Roxbury Memorial High School (Boys)—Charles H. Stone, May 31, 1934.

Placed on file.

The Superintendent offered the following:

ORDERED, That the following-named teacher is hereby retired on pension in accordance with the provisions of Chapter 589 of the Acts of 1908, as amended by Chapter 617 of the Acts of 1910, Chapter 569 of the Acts of 1912, and Chapter 304 of the Special Acts of 1915, the date of retirement and rate of pension to be as hereinafter specified:

Everett District—Sarah C. Linscott, assistant, elementary, May 31, 1934, $600.

Passed unanimously.

—

Durnan, James A. Goldthwaite, Joseph G. Green, Joseph Hackett, Francis P. Hennessey, Joseph W. Hopkinson, Martin F. Kane, Charles J. Keelon, Walter J. Kelliher, Alfred B. Kershaw, Charles H. Kirschbaum, James H. Locke, Henry Lucey, Margaret M. McDonald, Herman G. McGrath, John J. McGrath, Richard L. E. McGuffin, John J. May, James H. Mullins, Charles F. Murphy, Maurice G. Murphy, John A. O'Donnell, Eugene J. O'Neil, George I. Petengill, Fred P. H. Pike, Ralph F. V. Quinn, Alice V. Rice, Barnet Rudman, Hazel W. Ruggles, John F. Sheehan, Ernest L. Sullivan, Albert J. Van Steenbergen, Charles A. Weber, Joseph Weinert, May B. Whiting, Marion S Williams, Edward N. Wilson, Elmer S. Woodward, assistants.

Dorchester Summer Review High School—Lewis A. Newton, first assistant; Charlotte L. Adams, Almira W. Bates, Ralph C. Benedict, Edward F. Brickley, Marion L. Carnegie, Frederick L. Carney, Catherine F. Casey, Katherine A. Connell, Anna M. Doyle, James P. Farnsworth, Edward F. Fogarty, Francis P. Glavin, Blanche W. Harding, Gordon F. Irons, Ruth E. Lane, Katherine F. McCarthy, Anna R. Moylan, Walter V. O'Brien, Bereneice E. Reardon, Anna J. Reavey, James P. Shattuck, John D. Shore, Mary Stuart, Mary F. Toland, assistants.

Lewis Summer Review Intermediate School—Marion L. Bartlett, Alice M. Colbert, Katharine A. Collins, Joseph J. Dwyer, Louise C. Macdonald, Alice E. Mullen, Margaret M. O'Connell, Catherine R. Smith, Katherine G. Vernon, Gertrude M. Wyeth, assistants.

Oliver Wendell Holmes Summer Review Intermediate School—Leo J. Aicardi, William J. Barry, Margaret M. Biggy, Ruth E. Clarke, Esther M. Crook, Beatrice G. Hantz, Florence M. Hawkins, Gertrude F. Hughes, Walter L. McSwiney, Augustine D. Malley, Katherine M. Moran, Mary G. O'Doherty, Helen H. Wollahan, assistants.

Abraham Lincoln Summer Review Elementary School—Louise F. Barry, M. Irene Bills, Nellie K. Bishop, Mary C. Butler, Ellen E. Collins, Margaret M. Dacey, Madeline R. Dunphy, Mary M. Fitzgerald, Francis P. Frazier, Mary J. Glancy, Mary A. Gleason, Winifred M. LeDiouris, Katherine F. McArdle, Marion V. Morrison, Helen R. Murphy, Mary C. O'Connor, Ruth L. Quinn, Katherine M. Ray, Isabel F. Sullivan, George E. Wilkie, assistants.

Andrew Jackson Summer Review Elementary School — Jenny W. Cronin, Anna E. Dixon, James J. Gilligan, Frances M. Hendrick, Gertrude Hurwitz, Helen R. Jones, Marion G. MacKay, Dorothy C. Malone, Julia F. Morris n, Mary C. Norton, Elinor R. Sheridan, Gertrude M. Sullivan, assistants.

Bigelow Summer Review Elementary School—Mary L. Bowes, Mary J. Carroll, Elleanor P. Cox, Catherine M. Crowley, Madeline C. Cunningham, Helena F. Dwyer, Mary F. O'Connell, Ruth O. Peters, Mary M. Russell, Marie P. Sullivan, Margaret A. Thompson, assistants.

John A. Andrew Summer Review Elementary School—Blanche E. Briggs, Mary E. Cotter, Helen T. Curtis, Winifred M. Doyle Lucie M. Grenier, S. Margaret Knowlton, Adeline C. Leve, Marjorie I. Lynch, Helen A. McMorrow, Helena M. Nolan, Josephine F. O'Connell, assistants.

John Winthrop Summer Review Elementary School—Deborah F. Barry, Marion E. Bogrette, Lauretta H. Burns, Gladys M. Carnegie, Mary G. Colleran, Dorothy M. DeCourcey, Marjorie H. Ellis, Genevieve C. Grass, Alice C. Haggerty. Ruth E. Kelly, Catherine F. Malone, Gertrude V. Malone, Elizabeth A. O'Toole, Mary E. Welch, assistants.

Sarah Greenwood Summer Review Elementary School—Julia Cluck, Thomas J. Colleran, Mary E. Duffy, Mary B. Gleason, Esther M. Hanney, Amelda M. Holthaus, Agnes M. McNulty, Ethel B. MacKay, Pauline E. Madden, Grace M. May, Marion F. O'Brien, Elisabeth B. Perlmutter, Nora A. Scanlon, Emily J. Wall, assistants.

Theodore Roosevelt Summer Review Elementary School—Lillian Dosick, Gertrude L. Feeley, Evelyn L. Houghton, Mary V. Hubbard, Marion T. Hughes, Esther E. Larson, Catherine H. McDonagh, Mary A. McLaughlin, Alice I. McTiernan, John F. Meade, Helen G. Morgan, Mary F. Nolan, Alice M. O'Rourke, Mary J. Ryan, Genevieve M. Wakeling, assistants.

Ulysses S. Grant Summer Review Elementary School—Helen V. Bruner, Lillian L. Burke, Margaret A. Canney, Margaret L. Collins, Eleanor C. Curran, Virginia M. Dente, Charles E. Foley, Helen E. Freeman, Anna C. Geoghegan, Mary E. Griffin, Josephine M. Haney, Ella H. Hyde, Mary H. Leaney, Marion Levine, Alice C. Lindberg, Agnes C. McCarthy, Sara M. McDonough, Mary J. O'Leary, Margaret M. Smith, William G. Tobin, Alice M. Vincent, assistants.

Warren Summer Review Elementary School—Paul Cloues, Elizabeth G. Corcoran, Esther M. Germaine, Mary M. Herlihy, Louise F. Hill, Julia J. McCarthy, Mary D. McCusker, Kathleen R. O'Brien, Mary T. O'Connell, assistants.

Wells Summer Review Elementary School—Mary C. Donahue, Rose M. Falbo, Elizabeth M. Kelleher, Alice L. Kelly, Rose M. Klaus, Annabelle M. Lonergan, Grace M. Long, Teresa L. Monahan, Margaret V. O'Connor, Loyola P. Pfeffer, assistants.

William Barton Rogers Summer Review Elementary School—Katharine L. Colbert, Mary I. Colwell, Alice L. Devery, Elizabeth A. Donahue, Gertrude H. Gelly, Margaret E. Lundell, Mary T. Lynch, Helen J. McDonough, Mary E. Thompson, Mary L. Walsh, assistants.

Approved.

—

PLAYGROUNDS
Season of 1934

(To take effect May 21, 1934)

First Assistant—Eleanor R. Greene.

Assistants—Kathryn F. Doherty, Catherine M. O'Brien, Mary C. Walsh,

Sand Garden Assistants—Edith Alexander, Kathleen P. Ballem, J. Eileen Barrett, Anna G. Boudwin, Catherine P. Carty, Alice H. Cooney, Gertrude L. Cusack, Lilia C. Daly, M. Bernice Duffy, Julia M. Fallon, Catherine A. Flynn, Helen M. Friedel, Thelma Goldberg, Mary A. Gaughan, Edith C. Greene, Ethel Heffron, Mary P. Hopkins, Margaret M. Morse, Dorothy C. Muldoon, Margaret L. Murphy, Marjorie C. Murphy, Helene M. Mutz, Dolores M. O'Connor, Mary K. Phelan, Betty Rosenfield, Cecile B. Rubin, Agnes V. Sweeney, Katherine E. Thayer, Mary E. Twomey, Marion T. Welch, Irene G. Welsh, Marjorie M. Williams.

Approved.

—

TRANSFER

Louise McLaughlin Sprott, assistant, intermediate, William Barton Rogers District, to the same position in the William Howard Taft District, May 28, 1934.

Approved.

—

LEAVES OF ABSENCE

On the report of the Superintendent, leave of absence was granted the following-named teacher for the term specified:

Woodrow Wilson Intermediate District—Viola W. Hume, assistant, intermediate, Apr. 9, 1934, one-half day, court summons.

On the report of the Superintendent, leave of absence under a suspension of the regulations was granted each of the following-named teachers for the term specified:

English High School—Joseph McK. Driscoll, junior master (military drill), June 10 to 21, 1934, without loss of pay.

Dearborn District—Abbie G. Abbott, assistant, elementary, May 1, 1934 to June 30, 1934.

—

DESIGNATION

A communication was received from the Superintendent, under date of May 21, 1934, reporting that he has made the following designation of a teacher to serve in the position indicated until such time as it shall be filled otherwise in accordance with the rules and regulations, but not beyond Aug. 31, 1934:

Warren District—L. Mae Holland, assistant, elementary, as acting master's assistant, April 23, 1934.

Placed on file.

—

PLAYGROUND ACTIVITIES, 1934

The Superintendent offered the following eight orders:

ORDERED,, That for the current calendar year, the playground term shall extend from May 21 to September 7, inclusive, the term to be divided as follows:

First half: May 21 to July 31, inclusive.

Second half: August 1 to September 7, inclusive.

ORDERED, That variations in the established dates for beginning and terminating playground activities may be allowed in the discretion of the Superintendent on recommendation of the Director of Physical Education.

ORDERED, That the Director of Physical Education is hereby authorized to conduct playground acttivities in such schoolyards, children's corners and athletic fields as may be approved by the Superintendent during the season of 1934.

ORDERED, That the Superintendent is hereby authoribed to change the days and hours on which each playground may be conducted at his discretion.

ORDERED, That the Superintendent is hereby authorized to make such emergency appointments as may be necessary for service in the playgrounds during the season, 1934.

ORDERED, That any teacher whose name appears on the list of teachers appointed in playgrounds for the season of 1934 may be transferred by the Superintendent from one position to another for which said teacher holds the required certificate, and said teacher shall be paid according to the schedule established for the position actually filled during any day or part of day certified to by the Director of Physical Education.

ORDERED. That the sessions of the playgrounds shall be as follows:

May 21 to June 22, inclusive, from 3:45 o'clock until 6 o'clock, P. M.; June 25 to September 7, inclusive, from 9:45 o'clock, A. M. until 5 o'clock, P. M., daily.

ORDERED, That the hours of service of teachers and custodians employed in the playgrounds during the season of 1934, unless otherwise specified, be such portion of the time between 8 o'clock, A. M. and 8 o'clock, P. M., as the Superintendent may direct.

The eight orders passed.

—

SALARY OF JAMES B. McDONOUGH

On motion of the Superintendent, it was

ORDERED, That the salary of James B. McDonough, assistant, manual training, elementary, Department of Manuel Arts, is hereby established at the rate of twenty-three hundered and four dollars ($2304) per annum, to take effect Dec. 6, 1933.

—

TUITION OF NON-RESIDENT PUPILS

On motion, the Committee rescinded the action taken at the meeting of Sept. 18, 1933 (see p. 155) which authorized the Business Manager, in his discretion, to accept payment of tuition charges for non-resident pupils at stated intervals during the year, provided that final payment would not be delayed beyond May 1 in any year.

—

On motion it was

ORDERED, That beginning in September, 1934, payment of the full year's tuition shall be required of non-resident pupils, in advance of admission to the Boston public schools.

—

In explanation of the foregoing order, the Chairman stated that this year the School Committee found that a number of non-resident pupils did not pay the year's tuition in full by May 1st, the final date for payment established by the School Committee. The year was then so far advanced that the School Committee felt that it would be working a hardship on the individual pupils to require them to withdraw from school because of the failure of the parents to meet their obligations. In somes cases it would have meant the loss of a full year for the pupil. The School Committee then agreed to allow these pupils to remain until the close of school in June, with the proviso that they may not be permitted to return in September until the overdue tuition is paid in full.

In order to prevent a recurrence of the situation which developed this year, the School Committee must now require advance payment for the full year of all pupils who live outside of the city limits whose parents or guardians wish to have them attend the Boston public schools.

—

REPORT ON ATTENDANCE AT CONVENTION

A communication was received from the Superintendent, under date of May 21, 1934, submitting, in accordance with the provisions of Section 3 of Chapter 274 of the Acts of 1914, report of Bertha A. Connor, Director of Penmanship on her attendance at the annual meeting of the National Association of Penmanship Teachers and Supervisors, held at Indianapolis, Ind., Apr. 18 to 20, 1934, inclusive.

Placed on file.

—

AMENDMENTS TO RULES AND REGULATIONS

The following was offered:

ORDERED, That the rules are hereby amended as follows:

Section 84, paragraph 6. Add at the close of the paragraph the words "except as hereinafter provided," and insert the following as new paragraph 7, renumbering old paragraphs 7, 8, and 9, as paragraphs 8, 9, and 10:

7. A teacher, regularly appointed, holding a certificate that has expired wholly or in part, may, when the good of the service so requires, be assigned by the superintendent, with the approval of the School Committee, to a school or rank included in the certificate. After one year of successful service, on recommendation of the principal of the school, or the director of the department, and of the assistant superintendent in charge, a new certificate covering the service in the new school or rank may be issued by the board of superintendents.

Laid over.

—

Chairman: This order will make it possible for the Committee to retain the services of teachers by transfer to other schools or departments for which such teachers have previously qualified by examination and certification, when, in the judgment of the School Committee, the services of the teachers are no longer required in the school or department in which they have been serving.

—

The following was offered:

ORDERED, That the regulations are hereby amended as follows:

Section 308, paragraph 6. Strike out the paragraph and substitute in place thereof the following:

6. A director of music, eight assistant directors of music, twelve assistants in music, five supervisors of bands and orchestras, and one supervisor of drum and bugle corps.

Laid over.

—

The following was offered:

ORDERED, That the regulations are hereby amended as follows:

Sect. 276, paragraph 2. At the close of the paragraph with reference to limitation of service in evening, summer review, and summer vacation schools, add the following —provided that no person shall be appointed to serve as principal of an evening school, a summer review school, or a summer vacation school, for more than three years in any period of five consecutive years—so that the paragraph shall read as follows:

2. No teacher permanently appointed to a day school shall be appointed in the evening, summer review or vacation schools, for more than five years in any period of six consecutive years and no person shall be appointed to both evening and summer review or vacation schools, or playgrounds, during one school year. Service of more than forty evenings in any term of the evening schools, or of more than twenty-five days in a summer school term, shall be deemed a year.

The provisions of this paragraph shall not operate to prevent appointment to the rank of principal of an evening school, a summer review school, or a summer vacation school, provided that no person shall be appointed to serve as principal of an evening school, a summer review school, or a summer vacation school, for more than three years in any period of five consecutive years.

No person shall be appointed as clerical assistant in the evening schools for more than three years in a period of five consecutive years.

Laid over.

———

Chairman: Under existing regulations, principals of evening and summer schools are permitted to serve for a period of five consecutive years. The School Committee is changing this period of service to three years, thus making the opportunity for this administrative experience available to a greater number.

Principals of evening schools and summer schools who at the close of the current school year shall have had two, three, or four years' service in the rank, may be permitted to serve one more year—school year 1934-35. New appointees for the school year 1934-35 will come within the provisions of the three-year limitation.

———

AUTHORIZED LIST OF TEXT BOOKS

The Superintendent offered the following eighteen orders authorizing changes in and additions to the authorized list of text books:

1. ORDERED, That the following-named books are hereby authorized for use as text books in The Teachers College of the City of Boston:

The foregoing eighteen orders were laid over.

TRANSFERS OF APPROPRIATIONS

The following communication was received:

City of Boston—Department of School Buildings

May 21, 1934

Boston School Committee
15 Beacon Street
Boston, Mass.

Gentlemen,

Under date of May 10, 1934, the School Committee submitted the following proposed order to the Board of Commissioners of School Buildings:

ORDERED, That of the amounts appropriated by the School Committee under dates of July 13, 1931 (see pp. 168-169), and November 16, 1931, by transfer (see p. 298), the following amounts are hereby transferred to the 1934 item of school accommodations as listed below:

FROM

Item 7, 1931—Agassiz-Bowditch District, Jamaica Plain: Furnish intermediate school	$5,303.51
Item 12, 1931—Emerson District, East Boston: Construction of thirteen-classroom elementary building with basement auditorium	3,196.49
Total	$8,500.00

TO

Item 11, 1934—Shurtleff District, South Boston: Additional land for intermediate school	$8,500.00

This proposed order is made necessary in order to take land at the corner of W. Seventh and Dorchester Streets in connection with the building of the new intermediate school on the Shurtleff School lot, so-called. The Board of Commissioners of School Buildings deem it most desirable to make this taking and they therefore have voted to approve the foregoing order.

Respectfully yours,

Board of Commissioners of School Buildings

By Richard J. Lane
Chairman

City of Boston—Department of School Buildings

May 21, 1934.

School Committee,
City of Boston,
15 Beacon Street,
Boston, Mass.

Gentlemen:

Under date of May 15th, 1934, the School Committee of the City of Boston transmitted the following proposed order to the Board of Commissioners of School Buildings:

ORDERED, That of the amounts appropriated by the School Committee on July 22, 1932 (see p. 155) the following amount is hereby transferred to Item 12, 1932 (as amended) and Item 16, 1932:

FROM

Item 15, 1932—William Barton Rogers Intermediate District, Hyde Park: Construction of eighteen-classroom addition to William Barton Rogers School	$10,500.00

TO

Item 12, 1932—Joseph H. Barnes Intermediate District, East Boston: Furnishing of addition to Joseph H. Barnes School	5,000.00
Item 16, 1932—William Barton Rogers Intermediate District, Hyde Park: Furnishing of eighteen-classroom addition to William Barton Rogers School	5,500.00
Total	$10,500.00

In accordance with the provisions of Chapter 351 of the Acts of 1929, the Board of Commissioners of School Buildings have considered said proposed order and voted to approve the same.

Respectfully yours,

Board of Commissioners of School Buildings,

By Richard J. Lane, Chairman.

Placed on file.

DEATH OF VOUCHER CLERK

A communication was received from the Business Manager, under date of May 21, 1934, reporting the death, on May 20, 1934, of Ellen M. Barry, Voucher Clerk in the office of the Business Manager.

Miss Barry had been in the service of the School Committee for a long period of years and her services were of the highest character.

Placed on file.

AMENDMENT TO SCHEDULE OF EXTRA COMPENSATION FOR CUSTODIAN SERVICE

A communication was received from the Business Manager, under date of May 21, 1934, submitting report on the breaking and entering of school buildings during the year 1933, such report being based on information which has come to him from principals of schools, as follows:

a. There were 19 breaks in school buildings with no loss of property reported.

b. There were 57 breaks in school buildings where loss of property was reported.

c. Loss of property in 10 school buildings, but not traceable to breaking and entering.

The Business Manager reported that the Police Department has cooperated to their fullest extent in an effort to locate the culprits who, in some cases, have been apprehended.

Placed on file.

—

A communication was received from the Business Manager, under date of May 21, 1934, reporting that the Schoolhouse Custodian and the Head Master of the Mechanic Arts High School have recommended that a watchman be employed at the Mechanic Arts High School where valuable property is housed, such as portable equipment and tools, and recommending the passage of the following order amending Section 14 of the Schedule of Compensation for Custodians of School Buildings for Regular Day School Service which carries this recommendation into effect.

Placed on file.

—

On motion, it was

ORDERED, That Section 14 of the Schedule of Compensation for Custodians of School Buildings for Regular Day School Service—School Document No. 9, 1930—is hereby amended by adding the following paragraph, to take effect May 8, 1934:

Mechanic Arts High School.—Thirty-five dollars ($35) per week in addition to the compensation allowed under schedule rates for the purpose of providing day and night service for the building.

—

LEAVES OF ABSENCE TO CUSTODIANS

A communication was received from the Schoolhouse Custodian, under date of May 21, 1934, recommending that the following-named custodians be granted leave of absence on one-half net compensation for the periods specified because of personal illness:

Walter S. Harvey, custodian, Ellen H. Richards School-house, Mar. 18 to May 19, 1934.

Joseph B. Mathews, custodian, Charles Logue School-house, Apr. 11 to 13, 1934.

Placed on file and leave of absence on one-half net compensation granted for periods specified.

TRANSFERS OF CUSTODIANS

A communication was received from the Schoolhouse Custodian, under date of May 21, 1934, recommending that the following named regular substitute custodians be appointed to the positions indicated, to take effect on the dates specified:

Jeffrey J. Murphy, regular substitute custodian, to the Sharp School-house, May 18, 1934.

John J. King, regular substitute custodian, to the Hemenway School-house, May 18, 1934.

John L. Merna, regular substitute custodian, to the Elizabeth Peabody School-house, May 27, 1934.

Placed on file and the transfers approved, to take effect on the dates stated.

—

APPOINTMENTS OF CUSTODIANS

A communication was received from the Schoolhouse Custodian, under date of May 21, 1934, reporting that he has considered the candidates certified by the Division of Civil Service as eligible for appointment as regular substitute custodian, and recommending the appointment of the following-named persons who stand Nos. 1, 2, and 3 on the list, to take effect on the dates stated:

Roderick M. Carey, May 20, 1934.

Frank A. Dowler, May 27, 1934.

Paul E. Butler, May 27, 1934.

Placed on file and the appointments approved, to take effect on the dates stated.

—

TERMINATION OF SERVICES OF SUPERVISOR OF ATTENDANCE

The following was offered:

ORDERED, That the services of Patrick J. Fleming as supervisor of attendance in the Boston public schools are hereby terminated and his name removed from the payroll.

Passed unanimously.

—

REPORT ON AUDIT OF BOOKS AND ACCOUNTS

A communication was received from Charles E. Di Pesa and Company, under date of May 18, 1934, submitting report on their audit of the books and accounts of the Business Manager and of the Secretary for the quarter ended March 30, 1934.

Placed on file.

—

PLEDGE TO THE FLAG

Dr. Mackey: I understand that for many years it has been the custom to have the pupils of the Boston school system give at intervals the Pledge to the Flag. In order to ensure uniformity in the observance of this patriotic custom so necessary in these trying times, I am submitting the following:

RESOLVED, That there be incorporated in the Regulations of the Boston School Committee a provision that the Pledge to the Flag shall be a mandatory exercise in every classroom at least once a week.

Dr. Lyons: Mr. Superintendent, what has been the custom to date?

Superintendent: It varies. I should say it is given in every school at least once a week—in high schools at the assemblies on Mondays, and in the other schools nearly every day.

Dr. Lyons: It is not mandatory?

Superintendent: No, it has not been mandatory, but it is practically universal—every assembly opens with the Pledge to the Flag. In the elementary and intermediate schools we have the Colors in every classroom. I do not think that we have the Colors in every room in the high schools.

Mr. Hurley: Mr. Chairman. I second Dr. Mackey's motion for this resolve.

The resolution was adopted by unanimous vote.

—

The Committee adjourned.

Attest:

ELLEN M. CRONIN,
Secretary.

MASSACHUSETTS CIVIL SERVICE EXAMINATIONS.

The Massachusetts Civil Service Commission announces examinations for desirable positions open in the Boston and Metropolitan districts as follows:

TECHNICIAN (CEREBROSPINAL FLUID LABORATORY), BOSTON CITY HOSPITAL, JULY 14, 1934.

Last date for filing applications, Saturday, June 30, 1934, at 12 m.

POPULATION OF UNITED STATES, NEW ENGLAND AND MASSACHUSETTS.

Continental United States (*i. e.*, 48 states and the District of Columbia) in 1930, 122,775,046; outlying possessions, 14,233,389; total, 137,008,435; New England, 8,166,341; Massachusetts, 4,249,614 or 52.04 per cent of New England and ranking eighth in the Union. In density of population Massachusetts ranks second, *i. e.*, 528 per square mile of land, Rhode Island ranking first, with 644 per square mile of land.

Population of the other New England States in 1930, ranking from the highest total: Connecticut, 1,606,903; Maine, 797,423; Rhode Island, 687,497; New Hampshire, 465,293; Vermont, 359,611. Density for New England, 132 per sq. m.; for U. S. (48 states and the District of Columbia) 41 per sq. m.

The population of the United States increased 16.1 per cent since 1920; that of New England 10.3 per cent and that of Massachusetts 10.3 per cent.

PUBLIC DEBT, JANUARY 1, 1932.

Gross funded debt, January 1, 1932, $160,320,800.96 (including $139,999.96 issued by State for enlargement of Court House); sinking funds, $37,826,498.18; other redemption means, $3,140,115.26; net debt, $119,354,187.52 or $8,857,026.70 more than on January 1, 1931. Of said net debt $72,121,369.12 or 60.43 per cent was City debt; $45,626,311.48 or 38.22 per cent, Rapid Transit debt (representing 4½ per cent investment); $1,118,506.92 or 0.94 per cent, County debt; $488,000 or 0.41 per cent, Water debt.

Debt paid in 1931 was $8,273,300 but there was an increase in total gross debt of $7,664,700.

Per cent of net debt to valuation, 6.31; net debt per capita, $151.66 (approx.); net debt, exclusive of Rapid Transit debt, $73,727,876.04 or $93.68 per capita (approx.).

Per capitas are based on U. S. Census Bureau's estimated population on January 1, 1932.

Loans authorized but not issued (within debt limit), $1,664,500; same outside of debt limit, $6,996,500; total, $8,661 000.

PUBLIC WORKS DEPARTMENT.

NATIONAL INDUSTRIAL RECOVERY PROJECT, P. W. A., Docket No. 4193.

NOTICE TO CONTRACTORS.

Sealed proposals, addressed to the Commissioner of Public Works of the City of Boston and indorsed "Stony Brook, Section 13, Between Neponset Avenue and 400 Feet Northeast of Mt. Hope Street, West Roxbury," will be received at Room 508, 5th floor, City Hall Annex, Boston, Mass., before 12 o'clock noon (D. S. T.), on the twenty-second day of June, 1934, and at that time and place will be publicly opened and read. Bids must be made upon the prescribed proposal form.

Plans, specifications and contract form may be obtained at Room 508, 5th floor, City Hall Annex, Boston, Mass., upon deposit of the sum of two dollars ($2).

The project is to be financed and constructed under the terms of the National Industrial Recovery Act and chapter 366, Massachusetts Acts of 1933, and attention is called to the Construction Regulations prescribed by the P. W. A.

The minimum wage rates for the project are $1.20 per hour for skilled labor and $0.50 per hour for unskilled labor.

"Pursuant to Executive Order 6646, dated March 14, 1934, no bid will be considered unless it includes or is accompanied by a certificate (worded in accordance with P. W. A. 61, revised March, 1934) duly executed by the bidder."

Bids must be accompanied by a properly certified check on, or a certificate of deposit issued by, a responsible bank in the sum of five thousand dollars ($5,000), payable to the City of Boston. Checks will be returned after execution of the contract, upon demand.

Proposals must be made in duplicate, the sealed duplicate, without check, to be deposited by the bidder with the City Auditor previous to the time named for opening the proposals.

A surety bond by an approved surety company will be required from the successful bidder in an amount not less than the full amount of the contract.

The right is reserved to reject any or all proposals, or to accept any proposal deemed best for the interest of the City of Boston, and no award can be made without the approval of the State Engineer, P. W. A.

The name and address of the local registration office of the National Re-employment Service, from which employee lists for this contract shall be obtained, is as follows: State Public Employment Office (Everett L. Hanna, Manager), 100 Nashua Street, Boston, Mass.

CITY OF BOSTON.

PUBLIC WORKS DEPARTMENT.

NATIONAL INDUSTRIAL RECOVERY PROJECT, P. W. A., DOCKET NO. 4214.

NOTICE TO CONTRACTORS.

(1.) The Commissioner of Public Works of the City of Boston, hereinafter designated as Commissioner, Room 508, fifth floor, City Hall Annex, invites proposals for furnishing and laying and relaying water pipes in Brookline avenue, between Kenmore square and the Boston-Brookline boundary line. Each proposal should be inclosed in an envelope, sealed, marked "Proposal for Furnishing and Laying and Relaying Water Pipes in Brookline Avenue," and left at Room 508, fifth floor, City Hall Annex, before 12 m., daylight saving time, on Wednesday, June 20, 1934, accompanied by a properly certified check on, or a certificate of deposit issued by, a responsible bank or trust company in the sum of ten thousand dollars ($10,000), payable to the City of Boston. Checks will be returned after execution of the contract on demand. The proposals will then and there be publicly opened and read. Proposals must be made in duplicate, the sealed duplicate, without check, to be deposited by the bidder with the City Auditor previous to the time named for opening the proposals. Bids must be made upon the prescribed proposal form.

(2.) Plans, specifications and contract form may be obtained at Room 508, fifth floor, City Hall Annex, Boston, Mass., upon deposit of the sum of two dollars ($2).

(3.) The project is to be financed and constructed under the terms of the National Industrial Recovery Act and chapter 366, Massachusetts Acts of 1933, and attention is called to the Construction Regulations prescribed by the P. W. A.

(4.) The minimum wage rates for the project are $1.20 per hour for skilled labor and $0.50 per hour for unskilled labor.

(5.) "Pursuant to Executive Order 6646, dated March 14, 1934, no bid will be considered unless it includes or is accompanied by a certificate (worded in accordance with P. W. A. 61, revised March, 1934) duly executed by the bidder."

(6.) A surety bond by an approved surety company will be required from the successful bidder in an amount not less than the full amount of the contract.

(7.) The right is reserved to reject any or all proposals, or to accept any proposal deemed best for the interest of the City of Boston, and no award can be made without the approval of the State Engineer, P. W. A.

NATIONAL INDUSTRIAL RECOVERY PROJECT, P. W. A., DOCKET NOS. 4214 AND 7223.

PROPOSALS FOR FURNISHING 36-INCH GATES WITH 6-INCH BY-PASS GATE.

The Supply Department of the City of Boston invites proposals for furnishing to the Public Works Department, as required, 36-inch gates with 6-inch by-pass gate. Proposals, inclosed in a sealed envelope and marked "Proposal for Furnishing 36-inch Gates with 6-inch By-Pass Gate," will be received at Room 801, City Hall Annex, Boston, Mass., until 12 m. on Tuesday, June 19, 1934, at which time and place they will be publicly opened and read. Bids must be accompanied by a properly certified check or a certificate of deposit issued by a responsible bank or trust company in the sum of three hundred dollars ($300), payable to the City of Boston. Checks will be returned after execution of the contract on demand. Proposals must be made in duplicate, the sealed duplicate, without check, to be deposited by the bidder with the City Auditor previous to the time named for opening the proposals. Bids must be made upon the prescribed proposal form. Due consideration should be given to the fact that this material is to be used on a project to be constructed and financed by Loan and/or Grant under the terms of the National Industrial Recovery Act and chapter 366 of the Massachusetts Acts of 1933. The bidder's attention is called to the provisions relating to such projects as prescribed by the Federal Emergency Administration of Public Works. Pursuant to Executive Order 6646, dated March 14, 1934, no bid will be considered unless it includes or is accompanied by a certificate (worded in accordance with P. W. A. 61, revised March, 1934) duly executed by the bidder. Specifications and contract form may be obtained at Room 801, City Hall Annex, upon the deposit of the sum of twenty-five cents ($0.25). A surety bond by an approved surety company will be required from the successful bidder in an amount not less than 25 per cent of the amount of the contract. The right is reserved to reject any and all proposals, or any part of a proposal, or to accept any proposal deemed best for the interest of the City of Boston, and no award can be made without the approval of the State Engineer, P. W. A.

WARREN W. LOOMIS,

PROPOSALS FOR HAY, GRAIN AND STRAW.

Sealed proposals will be received at the office of the Superintendent of Supplies, Room 801, City Hall Annex, until 12 m., Thursday, June 21, 1934, at which time and place they will be publicly opened and read, for furnishing hay, grain and straw to the various city departments. *There will be a charge of twenty cents ($0.20) for each set of blank proposals taken out.* The bidder must include the cost of delivery. The bidders are requested to bid on United States No. 2 timothy hay. Hay must be no less than 40 per cent green. The grade of hay must comply with the federal hay grades, and No. 2 white oats to test no less than thirty-six pounds to bushel graded under federal standards. The hay and oats must be weighed by sworn weighers and on the scales designated by the Superintendent of Supplies. All articles covered by this contract shall be the growth production of the United States. The bidder must use the form of proposals to be obtained at Room 801, City Hall Annex. Proposals must be accompanied by a certified check for $200. A duplicate bid, without check, must be left at the office of the City Auditor prior to the time named for opening bids. The successful bidder must furnish a bond for one quarter the total estimated amount of the bid with a surety company authorized to do business in Massachusetts as surety for the faithful performance of the contract. The Superintendent reserves the right to accept or reject any or all bids, or any part of a bid, and to award the contract as he deems for the best interests of the city. All contracts made subject to appropriations to meet payments thereunder. No reservations or stipulations submitted by the various bidders will be considered by the Superintendent.

CITY RECORD

OFFICIAL CHRONICLE OF BOSTON MUNICIPAL AFFAIRS.

VOL. 26. SATURDAY, JUNE 16, 1934. NO. 24

BOSTON FACES TAX RATE OF $36 TO $38 FOR 1934 — MAYOR MANSFIELD EXPLAINS IN DETAIL TO TEACHERS AND OTHER INTERESTED GROUPS THE FINANCIAL CONDITION OF THE CITY AND REASONS FOR ECONOMY AS WELL AS NECESSITY FOR ENACTMENT AT PRESENT SESSION OF LEGISLATURE OF HIS MEASURE FOR CONTINUING SALARY REDUCTIONS— STATEMENT ISSUED TO TEACHERS AFTER CONFERENCE WITH SUPERINTENDENT PATRICK T. CAMPBELL.

The following letter and statement relative to the city's finances has been issued to the School Teachers of Boston by Mayor Mansfield after conference with Superintendent Patrick T. Campbell:

BOSTON, June 14, 1934.

MR. PATRICK T. CAMPBELL,
Superintendent of Schools.

DEAR MR. CAMPBELL,— I submit herewith, in accordance with a request made at yesterday's conference in the Mayor's office, a summary of financial facts pertaining to the City of Boston, which in my opinion indicate the necessity for enactment at the current session of the Legislature of the measure proposed by Mayor Mansfield, namely, to continue in effect during the year 1935 two-thirds of the present salary reductions.

I will appreciate if you will arrange to have copies of this summary distributed to the interested groups.

Very sincerely yours,

CHARLES J. FOX,
City Auditor.

Financial Facts Pertaining to Boston.

THE TAX RATE FOR 1934.

From the present indications, the tax rate of the current year will range between $36 and $38. The two main factors responsible for the increase or rise in the tax rate are increased requirements and reduced valuations The following table indicates the various factors entering into increased requirements:

UNFAVORABLE FACTORS.		
Increased debt requirements		$1,800,000 00
Estimated state tax increase		500,000 00
Estimated increase in metropolitan assessments		100,000 00
Shrinkage in Federal relief grants		900,000 00
Increase in school appropriations		300,000 00
Absence of tax relief loan		3,500,000 00
		$7,100,000 00
FAVORABLE FACTORS.		
Decrease in city budget	$1,100,000 00	
Estimated decrease in Elevated deficit	400,000 00	
Estimated increase in city revenue	800,000 00	
Estimated increase in income tax receipts	1,100,000 00	
		3,400,000 00
Net unfavorabe increase		$3,700,000 00

Increased debt requirements may be directly attributable to borrowings of last year, namely, $4,100,000 for Public Welfare and $3,500,000 for relief of the tax rate. The *state tax* increase is due primarily to partial restoration by the Legislature of reductions in state salaries. The increase *metropolitan assessments* are due to projects authorized by the Legislature within the Metropolitan District. Last year approximately $2,000,000 was received in the form of *grants from the Federal Government* because of welfare expenditures. This year it is estimated the grant in this respect will not exceed $1,100,000. The total of *school appropriations* to date is approximately the same as last year, no provision having been made in the appropriations to date for the cost of restoration of increments, it is estimated school requirements will be approximately $300,000 in excess of last year. In 1933, $3,500,000 was borrowed under the provisions of chapter 307 for the *relief of the tax rate.* This act has been extended, so that if the city desires it may take similar action in 1934. Borrowing to reduce the tax rate is a questionable financial policy, since the temporary relief which is secured in the year of borrowing is offset in subsequent years by the necessity of liquidating the amount borrowed through the tax levy.

Advertising.

A rate of $2 per inch of 12 lines (set solid) has been established for such advertisements as under the law must be printed in the *City Record*. Advertising and other copy must be in hand by Thursday of each week to insure its publication in the Saturday issue.

Copies for sale at the Statistics Department, Room 73, City Hall.

MUNICIPAL CALENDAR.

Meeting of the City Council Monday, July 2, 1934, at 2 p. m.

Meetings of the Transit Department are held on Monday and Thursday of each week at 11 a. m.

Board of Zoning Adjustment. Public hearings and executive meetings are held on the first Friday of each month, Room 30, City Hall, at 2 p. m.

MUNICIPAL SERVICE.

Complaints, inquiries or suggestions regarding the work of municipal departments should be made in writing to the officials directly in charge. The failure of such official to make reply within a reasonable length of time should be brought to the attention of the Mayor. Communications should be directed as follows:

TO THE BOARD OF STREET COMMISSIONERS, Room 401, City Hall Annex, for information relative to the laying out, relocation, widening, and the discontinuance of highways; the taking of rear property for municipal purposes; the assessments of betterments for streets and sewers; the plotting of undeveloped area for streets and the opening of private ways; the granting of licenses for the storage or sale of merchandise in public streets; the making of specific repairs in public streets; the naming of public streets; the planting and removal of trees in public ways; the issuing of licenses for the storage of gasolene, oil, and other inflammable substances or explosive compounds; the use of the public ways for any permanent or temporary obstruction or projection in, under or over the same, including the location of conduits, poles and posts for telephone, telegraph, street railway or illuminating purposes, signs, marquises, bay windows, coal holes and vaults.

TO THE BOSTON TRAFFIC COMMISSION, 22 Court street, for information relative to regulation of vehicular street traffic on all or any streets, ways, highways, roads and parkways under the control of the City of Boston, the issuing of all permits in connection therewith.

TO THE COMMISSIONER OF PUBLIC WORKS, Room 511, City Hall Annex, for information as to the watering, cleaning, lighting and repairing of streets, the construction and care of sewers and catchbasins, the operation of the ferries, the maintenance of bridges and drawbridges and the removal of ashes and offal.

To Room 604, City Hall Annex, for information relative to the supplying or metering of water and the water charges of the city.

TO THE HEALTH DEPARTMENT, Room 1107, City Hall Annex, for information relative to the inspection of milk, vinegar, meat, fish and vegetables, the issuance of permits for stables, slaughter houses, etc., smoke nuisances, the existence of contagious diseases, of public health nuisances.

TO THE BOARD OF PARK COMMISSIONERS, 33 Beacon street, for information as to the care of the Common, Public Garden, Franklin Park, Franklin Field, Commonwealth avenue, Back Bay Fens, Marine Park, and the small parks and playgrounds in general throughout the city, and as to the extermination of gypsy moths and the charges made for such service. Application may be made to this department for information regarding the public baths and gymnasiums maintained by the city, and with regard to municipal indoor concerts and band concerts, also information relative to Mt. Hope, Evergreen, Fairview and other public cemeteries owned by the City of Boston.

TO THE SCHOOL COMMITTEE, 15 Beacon street, for information relative to the operation of the schools of the city.

TO THE DEPARTMENT OF SCHOOL BUILDINGS, 11 Beacon street, for information as to the construction and repair of school buildings.

TO THE BOARD OF EXAMINERS, Room 1001, City Hall Annex, for information regarding the licensing of persons having charge or control of the work of construction, alteration, removal or tearing down buildings.

TO THE WIRE DIVISION OF THE FIRE DEPARTMENT, Fire Department Headquarters, 60 Bristol street, for all information relative to the erection of poles, building of conduits, the installation of all overhead and underground construction and electrical apparatus, as well as for general information relative to the entire division. To Room 1007, City Hall Annex, for permits for the installing of wires and electrical apparatus within buildings of the City of Boston, and for the payment of fees incident to the granting of the privileges above named, and which must be paid in advance.

TO THE BOARD OF ZONING ADJUSTMENT, Room 30, City Hall, relative to changes in the boundary lines of zoning districts of the City of Boston as established by chapter 488 of the Acts of 1924, and amendments thereto.

MORTALITY REPORT.

For the week ending June 9, 1934:

Population estimated July, 1934, United States Census Bureau estimate, 795,256; number of deaths (stillbirths excluded): Residents, 156; nonresidents, 40; total, 196.

Death rate per 1,000 of population: All deaths, 12.81; nonresidents deducted, 10.20.

Death rate per 1,000 of population: Last week, 14.91; corresponding week last year, 13.39.

Deaths by age periods, sex, etc.: Under one year, 10; one year to four years, inclusive, 5; sixty years and over, 83. Total deaths: Male, 108; female, 88; deaths in hospitals and institutions, 136; deaths of colored, 5.

REPORTABLE DISEASES: CASES AND DEATHS.*

PUBLIC BUILDINGS DEPARTMENT OF CITY IS COORDINATING CENTER FOR ALL MUNICIPAL ACTIVITIES, MAJOR ROSWELL G. HALL, SUPERINTENDENT, TELLS RADIO AUDIENCE IN ADDRESS IN WHICH HE SUBSTITUTED FOR MAYOR MANSFIELD IN REGULAR WEEKLY BROADCAST FROM CITY HALL STATION — TELLS OF SOME ACTIVITIES OF DEPARTMENT, AND BRIEFLY OUTLINES HISTORY OF OLD HISTORIC SHRINES IN CUSTODY OF CITY — ASKS PUBLIC TO TAKE INTEREST IN THEM.

Radio address of Major Roswell G. Hall, Superintendent of Public Buildings, Station WNAC, 2 p. m., June 12, 1934:

Ladies and Gentlemen of the Radio Audience.

His Honor Mayor Frederick W. Mansfield, owing to the tremendous pressure of official business, is unable to address you today and has asked me to represent him. Therefore I will attempt, in my humble way, to acquaint the radio audience with some of the features of the city's business coming under my own jurisdiction.

The Public Buildings Department of the City of Boston has the care, custody and management of, shall make all repairs in or upon, and provide furniture for, all buildings or parts of buildings belonging to or hired by the city, not wholly in charge of one department, or for which no other provision is made by statute or ordinance, whether the same are used for city or county purposes, and may, with the approval of the Mayor, hire such buildings or rooms as may be required for such purposes. The department erects, under the direction of the Mayor and the City Council, new buildings, such as municipal buildings, police stations and courthouses.

At the present time the department is providing quarters for the conducting of various Federal Emergency Relief Administration projects. It is also housing employees of the Welfare Department engaged in the distribution of surplus commodities and the disbursement of financial aid to welfare recipients.

Care of Faneuil Hall.

Of historic interest, the department has the care and custody of the world-famous Cradel of Liberty, Faneuil Hall. This was the gift to the city in 1742 of Peter Faneuil, who was referred to by John Hancock as the "topmost merchant in all the town." He had tastes and ambitions in keeping with his fortune. He was fond of display and good living, his doors were ever open to his friends, and ample hospitality was fully dispensed. The lack of a market house was a great inconvenience, and Peter's experience as a master of a large house made him feel the inconvenience considerably, as he had to spend a great part of the day in providing the things needed for his table. In July, 1740, therefore, he made an offer, at his own cost and charge, "to erect a noble and complete structure to be improved for a market for the sole use, benefit and advantage of the town, provided that the town of Boston would pass a vote for that purpose and lay the same under such proper regulations as shall be thought necessary and constantly supported for the said use."

The market house was commenced September 8, 1740, and completed September 10, 1742. The hall over the market was voted to be called Faneuil Hall, and resolutions were passed to Peter Faneuil, whose portrait was presented to be hung in the hall, and the coat of arms of the Faneuil family were bought for the hall.

The building was burned January 13, 1761, rebuilt in 1762 and enlarged in 1805 from 40 to 80 feet in width, under the supervision of the famous architect, Charles Bulfinch.

Upon the rostrum of Faneuil Hall have stood most of the statesmen and orators of America. Within its walls some of the most stirring scenes connected with the American Revolution were enacted. Town meetings were held here and the eloquence of the sturdy old patriots did much to shape the action of the colonies. In Faneuil Hall the protests against the "Stamp Act" were voted. There the first festivities were held when the act was repealed.

George Washington, as the first President, in 1789 was banqueted in this hall. It was in the balcony of the hall that Wendell Phillips rose to his feet and startled the audience with his famous anti-slavery speech.

The large painting over the rostrum represents Daniel Webster replying to Senator Hayne, of South Carolina, in the United States Senate in their famous debate of 1830; it is 16 by 30 feet in size and cost $40,000.

Around the walls are portraits of George Washington, Peter Faneuil, Samuel Adams, John Quincy Adams, Abraham Lincoln, John Hancock, Wendell Phillips, Charles Sumner, Edward Everett, Henry Wilson, Commander Winslow, and many other notables of the past.

The clock was given by the school children of Boston in 1850, and paid for by penny subscriptions; their names were placed in a box which was deposited in the case of the clock, to be opened after 100 years, which will be in 1950.

Extensive Renovations.

Extensive renovations in Faneuil Hall, including fireproofing, were effected by the Public Buildings Department in 1898 and 1923, but much of the building remains in its original form. The grasshopper weathervane, which surmounts the cupola, was made in 1742. The original balustrade encircles the balcony in the main hall. The andirons in the superintendent's office were placed in the building by British army officers just before the Revolutionary War, and while the building was in use as a British barracks. The wooden doors leading to the main hall at the main entrance staircase, black glass door knobs, cherry handrails, brass lamp brackets, and carved heads of cherubim at the top of the arched Colonial windows are all more than a century old.

On the top floor of Faneuil Hall is located the armory of the Ancient and Honorable Artillery Company, founded in 1637, and patterned after the Honourable Artillery Company of London, which was founded 100 years earlier. In this armory, which is open daily to visitors, there are displayed many priceless relics concerning the early days of Boston.

In the basement of Faneuil Hall and in the long building across the street are located the market stalls, the latter now being known as Quincy Market, which was completed in 1826. This building was partly destroyed by fire in 1925 and was restored the same year.

Old State House.

Among the few buildings to be seen in Boston of the twentieth century, which were erected before the Revolution, the Old State House stands preeminent in interest; for go where we may within the confines of the city, and even through our broad land, we shall find no other building of which it can be said, to quote from a letter of John Adams, written in his later years: "Then and there was the first scene of the first act of opposition to the arbitrary claims of Great Britain. Then and there the child Independence was born."

It is therefore proper that the story of this famous shrine of liberty should be instilled into the hearts and minds of old and young, so that all may exclaim "Touch it not, for it is sacred. Only the ruthless hand of time or disaster shall cause it to disappear from human sight."

In 1776 the Declaration of Independence was read from the balcony to a throng gathered outside the building. In 1780 John Hancock, first governor of Massachusetts, was here inaugurated.

Several times during its early history the Old State House was destroyed by fire and restored, thus much of its original appearance was lost. However, in 1881, the City Government voted to restore the building as nearly as possible to its original condition at a cost of $35,000. Legislation has since been enacted whereby no further desecration will be allowed and under which the Commonwealth of Massachusetts is constituted an additional guardian. With three vigilant and interested custodians, the State, the City, and the Bostonian Society, which cares for all its old and historical relics, the

Old State House will be preserved to remind future generations that here history has been made.

The Public Buildings Department provides heat, light and janitor service in all public and county buildings. It maintains the facilities for shower baths in the various buildings throughout the city. It maintains the swimming pool in the Curtis Hall building, in Jamaica Plain, which pool, by the way, bears an excellent reputation from the standpoint of cleanliness and purity of the water.

The department provides quarters wherever possible for branch libraries, district nursing organizations, baby clinics, outside stations for the registration of voters and the collection of taxes. It maintains an ambulance station on National street, South Boston, with twenty-four-hour service for the entire city. The ambulance located at this station lightens greatly the burdens of the City Hospital ambulances.

Coordinating Department.

The Public Buildings Department is the coordinating department of the city, maintaining a ten-position telephone switchboard connecting all other departments, ready at all times to take care of any emergency and to lend a helping hand to the other city departments.

My friends, the public buildings of Boston are your property. The people of Boston are partners in the government of our city, and the maintenance and preservation of these buildings should be just as important to you as it is to the public officials of the city. The City of Boston is making every effort to give the people the very best service in its public buildings. His Honor Mayor Mansfield has always manifested his desire to have these buildings used as much as possible for the health, happiness and convenience of the people.

The Public Buildings Department will do everything it can in the future, as it has tried to do in the past, to see that you get this service to which you are entitled.

In closing, may I say that if you have not visited Faneuil Hall or the Old State House (as I am sure thousands of our citizens have not done), I extend a cordial invitation to you to do so any day when you have a few minutes to spare. I assure you that you will be well repaid by your visit to these historic shrines, in which the City of Boston takes so much pride. They belong to you; and I hope you will take as much pleasure in visiting them as the Public Buildings Department does in having official supervision and control over them. Visit Faneuil Hall and the Old State House, and take an interest in our other public buildings, and I assure you that the department over which I have supervision will do everything within its power to render every assistance to promote the health, happiness and convenience of the people of Boston.

Thank you.

REVENUE RECEIPTS, PER CAPITA, IN TWELVE LEADING CITIES, 1928 (BY RANK).

Los Angeles, $138.53; Detroit, $109.33; Boston, $101.74; New York, $90.86; Buffalo, $86.28; Cleveland, $85.17; Pittsburgh, $79.85; Milwaukee, $76.52; San Francisco, $75.99; Chicago, $74.12; Philadelphia, $68.90; St. Louis, $62.58.

(See U. S. Census Bureau's Financial Statistics of Cities, 1928, p. 192.)

FINANCIAL CONDITION OF BOSTON.

(*Continued from page 581.*)

Despite increased appropriations made necessary because of the heavy snowstorms in the early part of the year, and additional election functions, *city maintenance requirements* will be approximately $1,100,000 under the requirements of last year. From present indications the deficit in the operation of the *Boston Elevated System* for the current year will be considerably less than in 1933. It is estimated that Boston's share of this deficit will be approximately $400,000 less than last year. In the determination of the tax rate for 1933 there was included in *estimated city income* applicable to a reduction in the rate only the increased revenues resulting from the modification of the Prohibition Act in relation to the sale of beer and light wines. This year's estimate will include the increased receipts due to the absolute repeal of prohibition. From returns received from the Commissioner of Corporations and Taxation, it is estimated that the city's share of the *income tax distribution* will be increased over $1,000,000 this year, largely because of the additional tax imposed on dividends on the stock of domestic corporations.

It is estimated that in 1934 $1,000,000 in appropriations or requirements will be the equivalent of 60 cents in the tax rate. With a net increase of $3,700,000 in the requirements as indicated in the foregoing table, it is evident that a rise of approximately $2.25 may be anticipated in the rate because of this one factor.

In so far as assessed valuations are concerned, a very conservative estimate of the loss in valuations in 1934 is $100,000,000, or a reduction from $1,780,000,000 to $1,680,000,000. One million dollars in assessed valuations is equivalent to 3 cents in the tax rate, so that the loss estimated will result in a $3 increase in the rate.

As a result of increased requirements and loss in assessed valuations, it is evident that a total increase of $5.25 may be anticipated in the tax rate of the current year. Since the rate for 1933 was $32.80, this would mean a maximum rate for 1934 of $38. It it should be decided to borrow in 1934, as was done in 1933, under the provisions of chapter 307, a reduction of $2 will take place. Thus, it is evident that the minimum tax rate for 1934 will be in the neighborhood of $36 and the maximum $38. At the present moment it is doubtful whether any borrowings to reduce the rate will be made, because as previously explained the soundness of such action is highly questionable.

The Tax Rate for 1935.

While it is extremely difficult to forecast accurately what the tax rate will be for next year, it is possible to give consideration to certain items such as the following:

Since real estate always lags behind in any period of recovery, it is reasonable to assume a further reduction in assessed valuations will take place in 1935. Assuming that an $80,000,000 loss in valuations will take place next year, thus reducing the assessed valuation of the city to approximately $1,600,000,000, an increase of $2.40 in the 1935 rate is probable. Full restoration of salaries in 1935 will require additional appropriations of $5,000,000, or an increase of $3 in the rate. Under the law providing for the construction of the East Boston Traffic Tunnel, it is provided that any deficit in operating expenses shall be absorbed in the tax levy. The first year of operation expenses of the tunnel will involve operating costs of approximately $1,300,000, of which $400,000 represents Sinking Fund requirements, $800,000, of Interest Requirements, and $100,000, salaries and maintenance expenses. Assuming that the average toll collected in the tunnel is 30 cents, it will mean that over 4,000,000 vehicles will have to pass through the tunnel in the first year of operation in order to meet expenses. Since this means an average daily business of over 10,000 vehicles, it is extremely problematical whether the tunnel will be a self-supporting proposition, and therefore may make necessary a further increase in the 1935 rate. In 1933, $4,100,000 was borrowed directly for Public Welfare purposes. In 1934, between $3,500,000 and $4,000,000 will be borrowed from the state on tax titles. Both of these borrowings will naturally increase the debt requirements of the city in subsequent years. It is highly questionable whether this pyramiding of debt for welfare should be continued beyond the current year. In the tax levy of the current year approximately $8,750,000 has been provided for welfare. It is estimated that the total welfare expenditures of the current year as estimated will be approximately $13,000,000, an amount in excess of $1,000,000 less than the expenditures in 1933. If no borrowings are made for welfare in 1935 it will be necessary to reduce welfare expenditures by over $4,000,000 in order to avoid an increased appropriation in the 1935 tax levy. Such a decrease is equivalent to approximately one-third of the estimated expenditures for 1934. Whether the reorganization of the department, which is now well under way, will make possible such a reduction is highly problematical. From present indications total restoration of reductions in state salaries will be made at the end of this year, thus requiring an additional appropriation in the state budget, and without question an increase in the state tax for 1935. While undoubtedly there will be savings in other items, such as a reduced number of election functions, and the possibility of reduced snow removal costs, nevertheless, it is highly probable that savings of this character will be negligible in amount when compared with increases already discussed.

It must be clearly evident from the items already discussed that if a complete restoration of salaries must be financed by the city in 1935, an increase of at least $5 in the tax rate will follow. Such an increase on top of either the minimum or maximum rate for 1934, previously discussed, will mean a tax rate in excess of $40. Can the taxpayers of the city stand such a rate, and will they pay the taxes which such a rate will produce?

Tax Delinquencies.

Since the beginning of the depression in 1928 there has been a falling off each year in the percentage of taxes collected between the due date of September 15 and

the close of the fiscal year on December 31. The following table pictures only too clearly the force of this statement:

YEAR.	Percentage Collected.
1928	86.6
1929	84.3
1930	83.9
1931	81.4
1932	73.4
1933	71.0

At the close of business on June 13, 1934, the percentage of outstanding taxes of the previous year was 18.574. Last year at the same time the percentage was 17.226. These figures clearly indicate one fact, namely, a general and material decline in the tax-paying ability of the community.

CHANGE IN TAX YEAR.

In 1935 the assessment date will be January 1, rather than April 1. Similarly the due date of taxes will be advanced from September 15, the present time, to May 15. This four months' advance will necessitate a much earlier compilation and adoption of budget appropriations than ever before. It will no longer be possible to delay the passage of the various budgets until the month of May.

In certain quarters the argument has been advanced that there is no necessity at the present time for enacting legislation of the character proposed by the Mayor in connection with the continuation of salary reductions. Those who advance this argument contend that whatever legislation may be required could be passed in the early days of the legislative session of 1935. From past experience it is highly problematical whether the Legislature would speedily enact a measure affecting salaries of municipal employees, even though the consensus of opinion among all groups of employees was favorable to measure. Again, after this legislation was enacted, there is the further requirement that the Legislature shall approve the tax limit request of the city, and, possibly, in the case of the School Department, there would be made a request for a higher tax limit than exists at the present time. The necessity for this latter request, while problematical at the present moment, nevertheless, might very well arise in view of the additional amount required for a one-third restoration of pay and a shrinkage in the average valuation of the city, the amount upon which the tax limit is figured. The enactment of legislation to continue salary reductions plus tax limit legislation, would consume considerable time and would undoubtedly militate against the early adoption of the city and school budgets for 1935.

From all the information which is now available it is extremely desirable that legislation be enacted at the present session of the Legislature. If material improvement in economic conditions should occur between now and the close of the year, it would be very easy to amend, in the opening days of the Legislature in 1935, the measure upon which the Mayor requests support.

PROPOSALS ADVERTISED.

Bids have been asked by advertisement in the *City Record* for the following departments. The attention of contractors and others is especially called to the closing time of receipt of such proposals. This will be published weekly.

DEPARTMENT OF SCHOOL BUILDINGS.

CONTRACT AMENDED.

Taller & Cooper have been allowed to amend the contract for furnishing and delivering toll collection equipment for Traffic Tunnel by striking out on page 13, last paragraph, the words "ten weeks" and substituting therefor the words "sixteen weeks," so that the contract as amended shall read, on page 13, last paragraph, "The remaining equipment shall be delivered sixteen weeks after the delivery of the contract"—and that all provisions of said contract, excepting as modified herein, shall continue in full force and effect.

SLUM CLEARANCE STARTS—C. W. A. TO TEAR DOWN BUILDINGS.

The National Association of Housing Officials is urging its members to cooperate with C. W. A. authorities in getting under way local projects for tearing down useless and unsanitary structures—the kind that make up slums. A recent bulletin from Harry Hopkins, C. W. A. head, authorized the undertaking of such projects.

CONTRACTS AWARDED.

Permission to award contracts for work, materials and supplies, in accordance with recommendations of department heads, has been approved by the Mayor.

DEPARTMENT OF SCHOOL BUILDINGS.

Upon June 13 the Mayor approved a contract with the Osborne Furniture Company for lunch room chairs for the Jeremiah E. Burke High School for Girls, as follows:

Kenney Brothers & Wolkins,* $1,478.75; Osborne Office Furniture Company, $1,865.50; J. L. Hammett Company, $2,095; McCarthy Brothers, $2,217.75; Heywood-Wakefield Company, $2,252.25; D'Amore Construction Company, $2,290; R. J. Connolly, Incorporated, $2,498; Thorpe & Martin Company, $2,593, $2,719.80, alternate.

*With an alternate that the wood would be birch instead of oak as called for in the specifications; back posts to be sawed instead of steam bent as called for in the specifications; second alternate that they would supply their own special No. 9 tablet arm chair with a tablet to our specification but in birch instead of oak.

Upon June 13 the Mayor approved a contract with J. W. Duff & Sons, Incorporated, for furnishing and setting up of new tables at the Jeremiah E. Burke High School for Girls. Bids, opened Monday, May 14, were as follows:

J. L. Hammett Company, $2,587.50; J. W. Duff & Sons, $2,722; Osborne Furniture Company, $2,997.60; R. J. Connolly, Incorporated, $3,047; M. S. Kelliher Company, $3,546; P. J. Cantwell & Son, $3,636; John F. Hynes, $3,772; M. Solimando, $4,038; McCarthy Brothers, $4,619.15; J. L. Hammett Company, alternate No. 1, items to be fastened to floors are priced basis of wood floors, increase price $25 if floors are concrete; alternate No. 2, will manufacture the above items of either oak or birch; drawers will not be dovetailed but will be rabbetted, $\frac{7}{8}$-inch thick front and back, $\frac{1}{2}$-inch thick sides, veneer bottoms at least $\frac{1}{4}$ inch thick; finish will be three coats of high grade lacquer on permanent water stain to match finish color desired; the monel metal tops on the twelve cooking tables will be 24-gauge which is plenty thick enough, particularly in view of the fact that these tops will be securely cemented on, which is standard and patented process of E. H. Sheldon Company who will manufacture this item; if 20-gauge top is actually required increase price seventy-two (72) dollars for the twelve tables.

PUBLIC WORKS DEPARTMENT (Water Service).

Upon June 7 the Mayor approved a contract with Joseph Capone for laying and relaying water pipes and laying high pressure fire pipes in Cross and Endicott streets, city proper. The following bids were received May 17:

L. Hammett Company, Kenney Brothers & Wolkins, Papercrafters, Incorporated, John F. Ryan & Co., Incorporated, Talens School Products, Incorporated, Wadsworth Howland & Co., Incorporated.

Awards were made to the lowest bidders in accordance with specifications and contracts executed as follows:

May 24, 1934, Milton Bradley Company, $7,402.59; May 24, 1934, Clauss Shear Company, $918; May 17, 1934, Gledhill Brothers, $7,590.50; May 17, 1934, J. L. Hammett Company, $9,704.61.

WITHOUT ADVERTISING.

Upon varying dates as indicated the Mayor approved contracts with varying firms for construction and other work. Communications from the several departments were as follows:

SUPPLY DEPARTMENT.

Upon June 5 the Mayor approved a contract with R. E. Cunniff, Incorporated, for furnishing to the Park Department 11,000 cubic yards of earth fill. A communication from the Superintendent of Supplies was as follows:

BOSTON, June 4, 1934.

HON. FREDERICK W. MANSFIELD,
Mayor of Boston.

DEAR SIR,—Under permission granted me, dated March 22, 1934, which gives me authority to purchase supplies exceeding $1,000 on materials purchased for the F. E. R. A. without the formality of advertising, I would ask that permission be granted me to award a contract to R. E. Cunniff, Incorporated, the lowest bidder, for furnishing to the Park Department 11,000 cubic yards of earth fill, to be delivered to the various beaches and playgrounds; total, $3,740.

List of bids submitted by the various bidders:

R. E. Cunniff, Incorporated, 34 cents per cubic yard; Dooley Brothers, Incorporated, 65 cents per cubic yard; J. J. Callahan, 50 cents per cubic yard; M. McGinnis Company, 48 cents per cubic yard; Marinucci Brothers & Co., 60 cents per cubic yard; Eugene Ricciardelli, 75 cents per cubic yard; Joseph P. McCabe, Incorporated, 80 cents per cubic yard; Ward General Contracting Company, 75 cents per cubic yard; T. J. McCue Construction Company, 89 cents per cubic yard; A. G. Tomasello & Son, Incorporated, 50 cents per cubic yard.

Respectfully yours,

WARREN W. LOOMIS,
Superintendent of Supplies.

BOSTON, June 12, 1934.

HON. FREDERICK W. MANSFIELD,
Mayor of Boston.

DEAR SIR,—Will you kindly refer to my letter of March 15, 1934, in which I requested permission to place orders for material or equipment needed for F. E. R. A. activities, where the value of such purchase exceeded $1,000, without the formality of advertising.

This permission you granted on March 22, 1934. Inasmuch, however, as the F. E. R. A. activities have extended beyond May 1, 1934, which was the date originally contemplated for their completion, and may continue indefinitely, I respectfully request that the permission granted by you on March 22, 1934, be extended to cover the period of F. E. R. A. activities.

It is definitely understood that this permission to award without advertising shall apply to purchases for F. E. R. A. projects only.

Respectfully yours,

WARREN W. LOOMIS,
Superintendent of Supplies.

ADDITIONS TO CONTRACT.

HOSPITAL DEPARTMENT.

John Bowen Company, contractor for erection and completion of Kitchen Building, Boston City Hospital, has been ordered to add to contract the sum of $2,101.38 for substituting internal copper heating elements in each of the 3,000-gallon storage water tanks, with necessary extension of 4-inch steam connections, low pressure steam header, "Powers" temperature control valves, new vacuum return lines, new 2-inch blast traps, and omitting external hot water circulating pump and heater, thermostat and return trap called for under original contract. This contemplates a change from high pressure steam to exhaust steam for heating 6,000 gallons of water in the storage tanks. Original contract, $379,000; corrected contract as per order No. 1788, $393,045.11; now added, $2,101.38; corrected contract, $395,146.49; total added, $18,445.09; total deducted, $2,298.60.

EXECUTIVE ORDER.

CITY OF BOSTON,
OFFICE OF THE MAYOR,
June 9, 1934.

By virtue of the authority granted to me by the provisions of chapter 228 of the Acts of the year 1934, I, as Mayor of the City of Boston, do hereby order and direct that the annual increments provided for in the sliding scales of salaries which were most recently operative prior to the year 1934 with respect to every office and position in the service of the City of Boston, other than in the School Department, and in the service of the County of Suffolk, the salary of which is paid from the treasury of the City of Boston, be, and hereby are, reinstated as of and from January 1, 1934; provided, however, that such salaries as so increased shall be subject to the same percentage of salary reductions as that to which other salaries of equal amount have been subjected pursuant to the provisions of chapter 121 of the Acts of the year 1933.

By order of

FREDERICK W. MANSFIELD,
Mayor.

LOCATION OF STREETS.

The Mayor has approved the following votes of the Board of Street Commissioners:

Voted, That the location, direction, width and grade of the private way, in the Hyde Park district, designated as Windsor street, leading northeasterly from Tileston street for a distance of approximately three hundred and forty-three feet, as shown on a plan approved in writing by the Board of Street Commissioners, and on file in the office of the Street Laying-Out Department, be, and the same hereby are, approved.

—

Voted, That the location, direction, width and grade of the private way, in the Roxbury district, designated as Riverview street, leading southerly from North street, as shown on a plan approved in writing by the Board of Street Commissioners, and on file in the office of the Street Laying-Out Department, be, and the same hereby are, approved.

AMENDED DAMAGES.

The Mayor has approved the following votes of the Board of Street Commissioners:

Voted, That the order of the Street Commissioners and Mayor of June 14, 1933, as amended December 21, 1933, determining damages caused by the making of the public improvement consisting of the laying out of Westchester, formerly Winchester road, be, and the same hereby is, amended, by adding to said order the amount $40 as an award to Alfred E. Rasmussen and Anne Rasmussen; that the amount $40 be, and the same hereby is, awarded to Alfred E. Rasmussen and Anne Rasmussen for the damages so sustained.

Voted, That the order of the Street Commissioners and Mayor of June 14, 1933, as amended December 21, 1933, determining damages caused by the making of the public improvement consisting of the laying out of Westchester, formerly Winchester road, be, and the same hereby is, amended, by adding to said order the amount $35 as an award to Anna M. Ambrose; that the amount $35 be, and the same hereby is, awarded to Anna M. Ambrose for the damages so sustained.

Voted, That the order of the Street Commissioners and Mayor of June 13, 1933, determining that no person sustains damages by the making of the public improvement, consisting of the laying out of Laurie avenue, be, and the same hereby is, amended, by striking out in the first and second lines of said order the words: "that no person sustains in his estate," and by striking out in the last line of said order the word: "no." That said order be further amended by adding thereto to Sophie Tulysewski, $115; that the amount $115 be, and the same hereby is, awarded to Sophie Tulysewski for the damages sustained by the making of the said improvement.

Voted, That the order of the Street Commissioners and Mayor of May 22, 1933, determining damages caused by the making of the public improvement, consisting of the taking of an easement for sewerage purposes in Lila road be, and the same hereby is, amended, by striking from said order the amount nothing, awarded to Emile Lacombe in said order and inserting in place thereof the amount $10.30; that the amount $10.30 be, and the same hereby is, awarded to Emile Lacombe for the damages so sustained.

Voted, That the order of the Street Commissioners and Mayor of September 22, 1931, determining damages caused by the making of the public improvement, consisting of the taking of an easement for sewerage purposes on Baker street and Edgemere road, be, and the same hereby is, amended, by striking from said order the amount nothing, awarded to Elizabeth Krug heirs in said order and inserting in place thereof the amount $100 and the names Frederick L. Kimball and Lida J. Kimball; that the amount $100 be, and the same hereby is, awarded to Frederick L. Kimball and Lida J. Kimball for the damages so sustained.

Voted, That the order of the Street Commissioners and Mayor of December 17, 1932, as amended, determining damages caused by the making of the public improvement, consisting of the laying out of Royen (Roy) road (now Calvin road), be, and the same hereby is, amended, by adding to said order the amount $15 as an award to Josephine B. Mercurio; that the amount $15 be, and the same hereby is, awarded to Josephine B. Mercurio for the damages so sustained.

Voted, That the order of the Street Commissioners and Mayor of August 24, 1932, as amended, determining damages caused by the making of the public improvement consisting of the laying out of Tennyson (West Saville) street, be, and the same hereby is, amended, by adding to said order the amount $100 as an award to John J. Burke and Esther L. Burke; that the amount $100 be, and the same hereby is, awarded to John J. Burke and Esther L. Burke for the damages so sustained.

Voted, That the order of the Street Commissioners and Mayor of June 13, 1931, as amended March 4, 1932, determining damages caused by the making of the public improvement consisting of the laying out of Franconia street be, and the same hereby is, amended, by adding to said order the amount $20 as an award to Rosa Perucconi; that the amount $20 be, and the same hereby is, awarded to Rosa Perucconi for the damages so sustained.

Voted, That the order of the Street Commissioners and Mayor of June 2, 1933, determining damages caused by the making of the public improvement, consisting of the laying out of Perthshire road be, and the same hereby is, amended, by striking from said order the name Herbert J. Minty *et al.*, in said order and inserting in place thereof the names James J. Coleman and Bridget Coleman; that the amount $100 be, and the same hereby is, awarded to James J. Coleman and Bridget Coleman for the damages so sustained.

Voted, That the order of the Street Commissioners and Mayor of December 30, 1932, determining damages caused by the making of the public improvement, consisting of the extension of Wilmington avenue, be, and the same hereby is, amended, by striking from said order the amount $42 awarded to Lewis B. Carlson and Margaret S. Carlson in said order and inserting in place thereof the amount $137.50; that the amount $137.50 be, and the same hereby is, awarded to Lewis B. Carlson and Margaret S. Carlson for the damages so sustained.

Voted, That the order of the Street Commissioners and Mayor of December 17, 1932, as amended, determining damages caused by the making of the public improvement consisting of the laying out of Royen road, now Calvin road, be, and the same hereby is, amended, by adding to said order the amount $60 as an award to John J. Connery and Margaret A. Connery; that the amount $60 be, and the same hereby is, awarded to John J. Connery and Margaret A. Connery for the damages so sustained.

FIRE DEPARTMENT ORDERS.

General Order No. 44.

I. Captain John Lawson.

It is with deep regret that the Fire Commissioner announces the death on June 2, 1934, of Capt. John Lawson of Engine Company 2. Captain Lawson was appointed to the Fire Department on May 8, 1903. He was promoted to lieutenant on February 1, 1924, and to captain on May 31, 1929.

The funeral was held from his late home, 12 Maple park, Dorchester, at 2 p. m., Tuesday, June 5, 1934.

The Chief of Department made the customary detail to act as a funeral escort. The members of Engine Company 2 were excused to attend the services.

II. Firemen's Memorial Sunday.

Firemen's Memorial Sunday will be held on Sunday morning, June 10, 1934. A detail consisting of two men from each district will act as an escort to the various organizations participating in the memorial exercises. The detail will report to the Chief Marshal, Edward J. Coveney, in front of 60 Bristol street, at 9.30 a. m.

The detail will include the trustees or members of the charitable association of the Boston Fire Department who are on duty on that day. The regulation uniform with sack coat and white gloves will be worn on this occasion.

Members who are on the night tour of duty Saturday, June 9, 1934, and who are to participate in the service, will be excused from roll call if relieved by members of the oncoming shift prior to eight o'clock.

Members of the department who are on a day off or who are on the off-tour on Sunday, June 10, 1934, are invited to participate in the memorial exercises, and it is hoped that a large number will avail themselves of the opportunity to honor the memory of the deceased members of the department.

Members of the department who are on the Committee on Arrangements will be granted sufficient time to attend to their committee duties and those members of the committee who are working on Sunday, June 10, will be excused from duty on that day.

III. A. D. T. Assignments.

The following additions are to be made to the assignment cards of the American District Telegraph Company:

Signal 452, Trustee of the Boston Real Estate Trust, 102-112 Summer street. Apparatus to respond, Engine 7, Ladder 8 and District Chief 5. Nearest city box is No. 1431.

Signal 456, Submarine Signal Company, 245-249 Atlantic avenue. Signal 463, Submarine Signal Company, 251-259 Atlantic avenue. Apparatus to respond, Engine 25, Ladder 8 and Chief of District 3. Nearest city box is No. 1294.

Notice has been received from the American District Telegraph Company that the following signals have been discontinued:

Signal 423, 52 Hemenway street, New Riding Club. Signal 424, Whipple street, New Riding Club.

IV. Boston Automatic Fire Alarm Signal.

Notice has been received from the Boston Automatic Fire Alarm Company that the following signal has been discontinued:

Signal 661, 253 Summer street.

V. REVEREND DENNIS J. LYNCH SCHOLARSHIP.

Notice has been received from the Reverend Principal of Boston College High School, Harrison avenue, Boston, Mass., that on Saturday, June 16, 1934, at 9 a. m., in the High School Building on James street, there will be a special examination for the Reverend Dennis J. Lynch Scholarship, founded by the members of the Boston Fire Department in memory of their late chaplain. Contestants should be eighth grade boys.

This is an annual scholarship to be awarded to the son of any member of the Boston Fire Department who obtains the highest average in the annual competitive entrance examinations.

By order of Fire Commissioner EDWARD F. McLAUGHLIN.

HENRY A. FOX,
Chief of Department.

BUILDINGS RAZED.

The Mayor has approved the request of the Building Department to raze the following structures as fire menaces or nuisances:

To take down the buildings at 14, 16, 18 and 20 Genesee street, Ward 3.

To take down the building at 172 West Ninth street, rear, Ward 7.

To take down the building at 16 Polk street, rear, Ward 2.

The building at 379 Bowdoin street, Ward 15, is in a dilapidated and defective condition; windows and doors broken; sills decayed; clapboards off in places; a fire menace.

We have been unable to locate the owner of record, Jennie M. Gilbert, but a notice of the unsafe condition has been posted on the external wall of the building, and nothing has been done to remove the cause of complaint.

The building at 385 Bowdoin street' Ward 15, is in a dilapidated and defective condition; windows and doors broken; sills decayed; clapboards off in places; a fire menace.

We have been unable to locate the owner of record, Jennie M. Gilbert, but a notice of the unsafe condition has been posted on the external wall of the building, and nothing has been done to remove the cause of complaint.

The building at 15 Tyler street, Ward 3, front wall is badly bulged, cracked and settled. Rear wall settled and cracked. Chimney above roof is in bad condition. Wood ell at rear in bad condition. Unsafe and a fire hazard.

The owners, Thomas L. O'Connor *et al.* of 350 Boylston street, Boston, and Francis J. Dillon of 18 Tremont street, Boston, have been notified of the unsafe condition of the building, but nothing has been done to remove the cause of complaint.

The buildings at 14, 16, 18 and 20 Genesee street, Ward 3, are in an unsafe condition, dilapidated and a fire hazard.

The owner of record in the Registry of Deeds, Lillian Goldstein of 72 Elm Hill avenue, Roxbury, has been notified of the unsafe condition of the buildings, also one Vincent Narduzza of 2 Milton street, Boston, who is interested in the property according to an escrow agreement dated February 9, 1934, but nothing has been done to remove the cause of complaint.

POLICE DEPARTMENT ORDERS.

General Order No. 497.

A trial board consisting of Captains Campbell, McGrath and Casey, having heard by reference a complaint made by John J. Hanrahan, captain, Division 17, against Francis J. Kilday, patrolman, Division 17, for alleged violation of Rule 41 of the Rules and Regulations of the Police Department, to wit:

Charge: Conduct unbecoming an officer.

Specification: In that on the 26th day of May, 1934, the said Patrolman Francis J. Kilday, while on duty and in uniform, was under the influence of intoxicating liquor to such an extent that he was unfit for duty, and by so doing committed an act contrary to good order and discipline,—

has submitted the following finding and recommendation:

"The Board, having heard and carefully considered all the evidence as presented, accepts the plea of guilty by the said Patrolman Francis J. Kilday. The Board has also taken into consideration that this is the first time that Patrolman Kilday has been complained of before a trial board; the fact that both Deputy Superintendent McDevitt and Captain Hanrahan testified that Kilday is an intelligent officer, and one who can refrain from the use of intoxicating liquor; the fact that this officer has filed a pledge card from his spiritual adviser that he will refrain from the use of intoxicating liquor in the future, and the fact that this officer has previously been warned by Deputy Superintendent McDevitt, his former commanding officer regarding the use of liquor. Therefore, the Board respectfully recommends that the said Patrolman Francis J. Kilday be suspended from duty for a period of thirty days, effective May 26, 1934, at 7.45 o'clock a. m., and that at the expiration of the said period of suspension the said Patrolman Francis J. Kilday be ordered to perform 210 hours of punishment duty."

The commissioner accepts the finding and the recommendation of the Trial Board and hereby orders that the said Patrolman Francis J. Kilday be suspended from duty for a period of thirty days, effective as of May 26, 1934, at 7.45 o'clock a. m., and that at the expiration of the said period of suspension the said Patrolman Francis J. Kilday perform 210 hours of punishment duty.

Civil Service Rule 23, Section 3, requires approval of the Civil Service Commission before reinstatement.

"Rule 23, Section 3. With the consent of the Commissioner upon good cause shown, an appointing officer may reinstate in the same position or in a position in the same class and grade any person who has been separated from the service; provided, however, that the Commissioner shall not allow reinstatement of a person discharged for cause."

The Superintendent of Police will promulgate this order.

EUGENE C. HULTMAN,
Commissioner.

General Order No. 498.

A trial board consisting of Captains Campbell, Casey and Daley, having heard by reference a complaint made by James R. Claflin, captain, Division 4, against Augustus J. Chaison, patrolman, Division 4, for alleged violation of the Rules and Regulations of the Police Department, to wit:

Charge 1: Refusing to obey the orders of a superior officer.

Specification: In that on the 25th day of May, 1934, at about 10.05 a. m., the said Patrolman Augustus J. Chaison, when telephoning from a signal box, was ordered by Sergt. Henry J. Bailey to report immediately to his station, which he refused and neglected to do.

Charge 2. Neglect of duty.

Specification: In that on the 25th day of May, 1934, the said Patrolman Augustus J. Chaison did fail and neglect to make any telephone calls to this station after 10.05 a. m., when he knew that he was required to telephone at least once every fifty minutes.

Charge 3. Absence without leave.

Specification: In that on the 25th day of May, 1934, the said Patrolman Augustus J. Chaison did absent himself from his traffic post at Stuart and Eliot streets, from 10.05 a. m. until 6 p. m. without the permission of his commanding officer,—

has submitted the following finding and recommendation:

"The Board having heard and carefully considered all the evidence as presented, finds the said Patrolman Chaison guilty on all charges and specifications thereunder and, taking into consideration the fact that he has never been before a trial board previous to this occasion, and that he has never been warned by his superior officers about the use of intoxicating liquor, the Board respectfully recommends that the said Patrolman Augustus J. Chaison be ordered to perform 140 hours of punishment duty."

The commissioner accepts the finding and the recommendation of the Trial Board and hereby orders that the said Patrolman Augustus J. Chaison perform 140 hours of punishment duty.

The Superintendent of Police will promulgate this order.

EUGENE C. HULTMAN,
Commissioner.

DAMAGES ASSESSED.

The Mayor has approved the following vote of the Board of Street Commissioners:

Voted, That in the matter of William M. Condon, petitioner for damages on account of the laying out and construction of South Munroe terrace, under the order of the Street Commissioners and Mayor of August 10, 1931, after consultation with the Law Department, and on its advice, the Board assesses the petitioner's damages in the sum of three hundred and thirteen and 54–100 (313.54) dollars, plus an assumption by the city of the amount of the betterment assessment levied but not paid and an abatement of the amount of the said betterment assessment already paid; and consents that the Corporation Counsel agree to judgment in said case on the terms herein stated.

CLAIMS ALLOWED.

The Mayor, upon recommendation of the Corporation Counsel, has approved the following claim:

Cynthia A. Perkins, 8 Falkland terrace, Brighton, in the sum of $35, as compensation for personal injuries caused by limb of tree overhanging sidewalk on the northerly side of Hobart street, Brighton, about 165 feet from westerly side of Falkland terrace, November 16, 1932.

PROCEEDINGS OF CITY COUNCIL.

Monday, June 4, 1934.

Regular meeting of the City Council in the Council Chamber, City Hall, at 2 p. m., President DOWD in the chair and all the members present.

JURORS DRAWN.

Jurors were drawn under the law, Coun. SHATTUCK presiding at the box in the absence of the Mayor, as follows:

Twenty-two Grand Jurors, Superior Criminal Court, to appear July 2, 1934:

James E. Morrison, Ward 1; Henry W. Schleicher, Ward 1; Frank G. Spinelli, Ward 1; Frederick G. Leonard, Ward 3; Daniel J. Sullivan, Ward 3; Fred Mitchell, Ward 4; John O'Neil, Ward 4; Alexander Ross, Ward 5; John L. Sullivan, Ward 7; Thomas F. Connors, Ward 10; John R. Williams, Ward 13; Maurice C. Brill, Ward 14; Dennis J. Manning, Ward 14; Samuel Strikoff, Ward 14; John V. Kenney, Ward 15; Paul J. Bersig, Ward 16; Joseph A. Maloney, Ward 18; Thomas A. Ivory, Ward 20; James W. McKeown, Ward 20; John F. Dalton, Ward 21; Roland T. Walsh, Ward 21; Charles C. Root, Ward 22.

Thirty traverse jurors, Second Session, Superior Criminal Court, to appear June 11, 1934:

Martin G. Connors, Ward 1; William H. Hansford, Ward 1; Charles A. Heath, Ward 3; Walter M. Lougee, Ward 4; George M. Dewey, Ward 5; Harry F. Eldridge, Ward 5; Ralph May, Ward 5; David H. Whelpley, Ward 9; Henry F. Williams, Ward 9; Joseph N. Lucas, Ward 10; Prescott McVicker, Ward 10; Stanley E. Reid, Ward 10; Roland E. Zeigler, Ward 10; John H. Crane, Ward 12; Samuel Burman, Ward 14; Robert Duncan, Jr., Ward 14; Albert V. Hall, Ward 15; Joseph F. Riley, Ward 15; Joseph A. McKinnon, Ward 16; Francis F. Dolan, Ward 17; Edmund B. Wallbridge, Ward 17; Edward J. Geishecker, Ward 18; Charles E. Caldwell, Ward 19; Philip S. Dexter, Ward 20; Willard B. Summers, Ward 20; Harry W. Beedle, Ward 21; Frederick F. Norris, Ward 21; Thomas A. Connelly, Ward 22; Joseph A. Donahue, Jr., Ward 22; Walter F. White, Ward 22.

Twenty-four traverse jurors, Superior Criminal Court, Second Session, to appear July 2, 1934:

Manuel J. Grace, Ward 1; Patrick A. Lang, Ward 1; P. Henry O'Neil, Ward 3; Luther T. Fernald, Ward 4; James McFarlane, Ward 4; Marcus J. Keaney, Jr., Ward 6; Edmond J. Gallahue, Ward 7; Clarence H. Ball, Ward 8; Malachi F. Farrell, Ward 9; George Tiews, Ward 10; Leonard F. Garrity, Ward 13; Henry Leavitt, Ward 14; Arnold Davis, Ward 15; Edward J. Reilly, Ward 15; Edward J. Ryan, Ward 15; Herbert Mitchell, Ward 17; George F. Smith, Ward 17; Forest T. Wills, Ward 20; Charles E. Beckwith, Ward 21; Nathan Elsholz, Ward 21; Frank E. Graham, Ward 21; Francis H. Benson, Ward 22; Thomas J. Carmichael, Ward 22; Albert D. Monroe, Ward 22.

Twenty-six traverse jurors, Superior Criminal Court, Third Session, to appear July 2, 1934:

Joseph H. Higgins, Ward 1; Walter J. Murphy, Ward 1; Thomas M. Ranahan, Ward 1; Alfred Rossi, Ward 1; Patrick J. Barry, Ward 2; Frederick T. Depner, Ward 2; Fred M. Healey, Ward 2; William B. Tryder, Ward 2; Carl F. Backstrom, Ward 4; Charles G. Gazette, Ward 4; Charles F. Shugrue, Ward 5; Joe H. Wheater, Ward 6; Frank J. Cheever, Ward 7; Joseph T. Farry, Ward 8; William N. A. McGillivray, Ward 8; Earnest L. Walkup, Ward 8; John T. Donovan, Ward 9; Francis W. Gately, Ward 9; Robert B. Higgins, Ward 10; Thomas J. Donovan, Ward 11; Earl B. Wheeler, Ward 11; William Collier, Ward 12; Raffael Maglio, Ward 16; Cornelius C. Sheridan, Ward 16; Arthur T. Case, Ward 17; William T. Maybury, Jr., Ward 18.

Twenty-nine traverse jurors, Superior Criminal Court, Fourth Session, to appear July 2, 1934:

David Alexander, Ward 1; Edmond H. Nagle, Ward 1; Chester Smith, Ward 1; William E. Laughlin, Ward 2; Frank McCarthy, Ward 2; Richard McNally, Ward 2; Forrest S. Meade, Ward 2; Harry Spector, Ward 3; George W. Masterson, Ward 4; John L. Proctor, Ward 4; Patrick Finn, Ward 7; John A. Gookin, Ward 7; Kenneth L. Weston, Ward 8; James J. Cunniff, Ward 9; James F. Harty, Ward 9; Norman F. Carr, Ward 10; John J. McDermott, Ward 11; Thomas J. Myers, Ward 11; Bernard Levison, Ward 12; Hyman Galner, Ward 14; Abraham Roosov, Ward 14; Matthew F. O'Brien, Ward 15; Ernest A. Johnson, Ward 16; Hector J. Gair, Ward 17; Arthur Southall, Ward 17; Stephen A. Cummings, Ward 20; Alfred Fritz Pinkul, Ward 20; Harold A. Small, Ward 20; Conrad E. Topp, Ward 21.

Twenty-nine traverse jurors, Superior Criminal Court, Fifth Session, to appear July 2, 1934:

William P. Coughlin, Ward 1; Edward H. Crosby, Ward 1; Joseph McDonald, Ward 1; Joseph H. Casey, Ward 2; William Harkins, Ward 2; John P. McCabe, Ward 2; Theodore H. Campbell, Ward 6; John J. Coleman, Ward 6; Patrick J. Devine, Ward 7; Timothy J. Lynch, Ward 7; Daniel P. O'Connor, Ward 7; James Blandino, Ward 8; John E. Gallagher, Ward 8; Frank Margraf, Ward 10; Jonathan Hamer, Ward 11; Leo Perlmutter, Ward 14; Samuel T. Helvitz, Ward 15; Roscoe F. Grabert Ward 16; Charles G. Kelley, Ward 16; Thomas E. Hickey, Ward 17; J. Henry Jacobson, Ward 17; Everett Robinson, Ward 17; Frank E. Arthur, Ward 18; Michael J. J. Cass, Ward 19; William S. Jackson, Ward 20; William Leithead, Ward 21; Robert E. Lynch, Ward 21; Jerome Richards, Ward 21; Charles H. McGowan, Ward 22.

Twenty-four traverse jurors, Superior Civil Court, First Session, July Sitting, to appear July 2, 1934:

George L. Betts, Ward 1; John W. Fothergill, Ward 1; Richard Gill, Ward 1; Thomas Lopez, Ward 1; Frederick W. Guidi, Ward 2; John H. Murphy, Ward 2; Richard F. Stack, Ward 2; Charles A. Waggett, Ward 6; Lewis Blaikie, Ward 9; Arthur J. Holland, Ward 10; Thomas P. Larkin, Ward 10; Paul Fargo, Ward 12; Henry L. Hauser, Ward 13; Thomas McTigue, Ward 13; Samuel Brooker, Ward 14; William E. Danner, Ward 14; Alexander Duff, Ward 14; Fred Pilling, Ward 17; Karl Gross, Ward 20; Chester A. Hubbard, Ward 20; Chester A. Ward, Ward 20; Frank M. Keefe, Ward 21; Edward J. Pierce, Ward 21; James H. Murphy, Ward 22.

Twenty-four traverse jurors, Superior Civil Court, Third Session, July Sitting, to appear July 2, 1934:

Hugh E. O'Donnell, Ward 1; Henry Whalen, Ward 1; Daniel M. Donnellan, Ward 4; Arthur T. Gay, Ward 4; George H. Haynes, Ward 4; John H. Murphy, Ward 4; Peter H. Roberts, Ward 4; Hall Nichols, Ward 5; Robert A. Desmond, Ward 7; John F. Martin, Ward 7; William Levitt, Ward 11; Samuel Blackman, Ward 12; William R. Egan, Ward 12; John E. Walsh, Ward 12; Charles A. Burnes, Ward 13; John F. Morse, Ward 13; Benjamin Nathan, Ward 13; Charles W. Hellenthal, Ward 14; John McLeod, Ward 14; Arthur X. Koerber, Ward 15; Frank W. Clark, Ward 16; John F. Boland, Ward 17; George C. Smith, Ward 19; Charles R. Berry, Ward 20.

Twenty-two traverse jurors, Superior Civil Court, Sixth Session, July Sitting, to appear July 2, 1934:

Walter A. Robbins, Ward 3; Francis J. Shea, Ward 6; Thomas F. Nolan, Ward 7; Herbert E. Ford, Ward 10; Patrick Harris, Ward 10; John D. Keefe, Ward 10; Walter C. Chamberlain, Ward 13; John A. Barry, Ward 15; John F. Jackson, Ward 15; Luke Leahy, Ward 15; Frank Blake, Ward 16; William J. DuRoss, Ward 16; Benjamin F. Pemberton, Ward 16; Edmund M. Reardon, Ward 16; Thomas J. McEwen, Ward 17; J. George English, Ward 18; Charles B. House, Ward 19; Christian F. W. Arpe, Ward 20; Albert P. Hill, Ward 20; Harry T. Houghton, Ward 20; James P. Sullivan, Ward 20; William E. Boyle, Ward 22.

Twenty-four traverse jurors, Superior Civil Court, Seventh Session, July Sitting, to appear July 2, 1934:

John O'Hare, Ward 1; John T. Hannan, Ward 2; Thomas J. Burke, Ward 3; George Leary, Ward 3; Salvatore Petraglia, Ward 3; Raymond P. Fraser, Ward 4; William B. Wainwright, Ward 6; James G. Broughton, Ward 7; Edward A. Rosebach, Ward 7; Thomas J. Cormican, Ward 9; David Portman, Ward 12; Ernest Morin, Ward 13; George E. Noble, Ward 13; Frank D. Doherty, Ward 14; Ernest P. Monroe, Ward 14; Bennett J. Orkin, Ward 14; William H. Myers, Ward 17; Stanley H. Coffin, Ward 20; George W. Dugan, Ward 20; Harry M. Griffin, Ward 20; George D. Kirkpatrick, Ward 20; Henning G. Nelson, Ward 20; Hugo F. Olson, Ward 20; William C. Lindsay, Ward 22.

APPOINTMENTS BY THE MAYOR.

The following was received:

City of Boston,
Office of the Mayor, June 4, 1934.

To the City Council.

Gentlemen,—Subject to confirmation by your honorable body I hereby appoint the following-named persons constables of the City of Boston for the term ending April 30, 1935, authorized to serve civil process upon filing bonds:

John B. Blotto, Mitchell Canner, George W. Cuddy, Morris W. Danberg, Andrew B. DeCourcey, Jacob Demask, Joseph O. DeSantis, Anthony DiSisto, Louis Gilbert, Marks Goldstein, Samuel Gordon, Louis Gorfinkle, Salvatore Grassa, Walter Edward Grignon, Spiros Kaliris, George M. Pierce, Max Rabinovitz, Alfred N. Sarno, Florian S. Small, Abraham S. Singer, Robert Smith, Israel Spector, Philip Tepper, James H. Waugh.

The following names are withdrawn from the list of constables submitted by me to your honorable body on April 16, 1934:

William Carmill, Thomas J. Francis, Leon J. Green, John D. Hayes, John A. Mitchell.

Respectfully submitted,
FREDERICK W. MANSFIELD, Mayor.

Laid over for one week under the law.

SIDEWALKS, ASHMONT STREET.

The following was received:

City of Boston,
Office of the Mayor, June 4, 1934.

To the City Council.

Gentlemen,—On May 21, 1934, your honorable body passed an order for the construction of artificial stone sidewalks with granite edgestones in front of certain numbers on Ashmont street in Ward 16.

This being one of the ten streets for which a loan and grant for street construction in the total sum of $1,000,000 was allowed by the Federal Government, I am returning the order herewith, with my approval.

Respectfully,
FREDERICK W. MANSFIELD, Mayor.

Placed on file.

RECORDS OF TAX ABATEMENTS.

The following was received:

City of Boston,
Office of the Mayor, June 4, 1934.

To the City Council.

Gentlemen,—I herewith transmit a letter from the Corporation Counsel relative to your order of April 16, 1934, concerning records of tax abatements, their availability to inspection, and concerning also the original petitions for abatement.

Respectfully,
FREDERICK W. MANSFIELD, Mayor.

—

City of Boston,
Law Department, May 31, 1934.

Hon. Frederick W. Mansfield,
Mayor of Boston.

Dear Mr. Mayor,—On April 26, 1934, you transmitted to me an order of the City Council requesting me to inform that body,—

"1. Whether or not records of tax abatements, current or otherwise, made by the Board of Assessors, are matters of public record.

"2. Whether or not such records are available for inspection by members of the City Council or individual taxpayers of the city, and if so, is there any restriction on the time, place or manner of such inspection?

"3. Whether or not the original petitions for abatements are open to public inspection by members of the City Council or by individual taxpayers."

I.

Section 7 of chapter 4 of the General Laws (Ter. Ed.) provides in part as follows:

"In construing statutes the following words shall have the meanings herein given, unless a contrary intention clearly appears . . .

"Twenty-sixth, 'Public records' shall mean any written or printed book or paper, any map or plan of the commonwealth, or of any county, city or town, which is the property thereof, and in or on which any entry has been made or is required to be made by law, or which any officer or employee of the commonwealth or of a county, city or town has received or is required to receive for filing, and any book, paper, record or copy mentioned in sections five to eight, inclusive, and sixteen of chapter sixty-six . . ."

Section 60 of chapter 59 of the General Laws (Ter. Ed.) provides that:

"Every board of assessors shall keep a record of all abatements of taxes. The record of abatement of the whole or any part of any tax shall show plainly the following details, viz.:

"First, The name or title in which the tax stands assessed.

"Second, The year in which the tax was assessed.

"Third, The total amount of the tax.

"Fourth, The date when the abatement was made.

"Fifth, The sum abated on poll tax.
"Sixth, The sum abated on personal estate.
"Seventh, The sum abated on real estate.
"Eighth, The total sum abated.

"Ninth, In case of an abatement to put into effect a statutory exemption, exact reference to the statutory provisions under which the exemption is granted and in all other cases a statement of the cause or reason for the abatement.

"If the record of an abatement is made as a part of the record of a meeting of the board of assessors it shall be signed by the clerk or secretary of the board for that meeting; otherwise by a majority of the board.

"The assessors shall forthwith upon making an abatement furnish the tax collector with a copy thereof."

Inasmuch as it is mandatory upon the Board of Assessors of the City of Boston, by virtue of the provisions of said section 60 of chapter 59, to keep a record of all abatements of taxes, it is my opinion that records of abatements are included within the definition of "public records" in section 7 of chapter 4 above quoted. In other words, it is my opinion that records of tax abatements, current or otherwise, made by the Board of Assessors, are matters of public record.

II.

Section 10 of chapter 66 of the General Laws (Ter. Ed.) provides as follows:

"Every person having custody of any public records shall, at reasonable times, permit them to be inspected and examined by any person, under his superivision, and shall furnish copies thereof on payment of a reasonable fee . . ."

It is my opinion that, under the provisions of said section 10 of chapter 66 above quoted, it is mandatory upon the person having custody of records of tax abatements to permit them to be inspected and examined by any person (including members of the City Council and individual taxpayers), under the supervision of such person, at reasonable times and at any reasonable place where the person having such records in his custody may designate.

It is my opinion, however, that such inspection must be consistent with the safety of the records, the orderly administration of the affairs of the department and the rights of other persons to inspect such records.

See in this connection Nash *v.* Lathrop, 142 Mass. 29, 39 (1886) (with reference to inspection of the opinions of the Supreme Judicial Court in the custody of the Reporter of Decisions), in which the Court said:

"In order to prevent misconstruction, we desire to add, that, while it is the duty of the reporter to allow the public free access to the opinions in his custody, he has the right to make such reasonable regulations as to the method of examining and obtaining copies of them as he may deem necessary to secure the safety of his papers and the orderly administration of the affairs of his office."

III.

In "Instructions to Assessors, No. 14, issued by Henry F. Long, Commissioner of Corporations and Taxations, pursuant to the provisions of section 1, chapter 58, General Laws (Ter-Ed.)," at page 73-74, the following question and answer appear:

"Question.—Are applications for abatement and exemption public records?

"Answer.—The answer to this is—no. These documents are not records such as are required by law to be kept by the board of assessors. They are merely sources of information presented to help the assessors in determining whether or not the applicant is entitled to the benefits of the abatement or exemption laws, as the case may be. The assessors in a large measure act in a confidential capacity between taxpayers and the municipality. Consequently, much of the information in the possession of the assessors is confidential and therefore not open to public inspection."

Considerable weight should be given by the Board of Assessors to the recommendation of the Commissioner of Corporations and Taxation and to his interpretation of its duties, in view of the provisions of section 1 of chapter 58 of the General Laws (Ter. Ed.).

It is my opinion that applications for abatement are not "public records" within the meaning of those words in section 10 of chapter 66 of the General Laws, above quoted, and that they are therefore not open to inspection as public records by members of the City Council or by individual taxpayers.

Very truly yours,
HENRY E. FOLEY,
Corporation Counsel.

Placed on file.

VACANT LAND FOR MOTHERS' RESTS.

The following was received:

City of Boston,
Office of the Mayor, May 22, 1934.

To the City Council.

Gentlemen,—I transmit herewith a letter from the Superintendent of Public Buildings relative to your order of May 7, 1934, concerning the taking over of all vacant land in congested sections for the purpose of turning same into small parks or mothers' rests for children of school age and mothers, inclosing same with wire fences and installing sand boxes, etc.

Respectfully,
FREDERICK W. MANSFIELD, Mayor.

City of Boston,
Public Buildings Department, May 21, 1934.

John F. Gilmore, Assistant Secretary, Mayor's Office.

Dear Sir,—Referring to the attached order of the City Council regarding the possible construction of small parks or mothers' rests for children of school age and mothers I have considered the matter and have conferred with Park Commissioner Long. The following conclusions were arrived at:

1. It would require written permission from the owners of each vacant lot allowing the city to do this work.
2. The cost of the wire fence surrounding these lots would be approximately $1.60 per running foot. The F. E. R. A. projects do not allow the expenditure of any great amount of money for materials. The city is in no position to supply these.
3. Sand boxes should never be installed on any playground. They have been taken out of the Boston Park System because they are unsanitary.
4. The final objection is the cost of maintenance. At the conclusion of the F. E. R. A. the city could not provide sufficient money to properly maintain the parks.

In consideration of the foregoing I recommend no action be taken on this proposed project.

Respectfully yours,
ROSWELL G. HALL,
Superintendent of Public Buildings.

Placed on file.

PETITIONS REFERRED.

The following petitions were received and referred to the committees named, viz.:

Claims.

William H. Barker, for compensation for damage to car caused by an alleged defect in Orient avenue, East Boston.
William H. Bonner, for compensation for damage to car by city car.
Joseph R. Dangora, for compensation for damage to property at 59 South street, caused by breaking of water meter.
Stephen J. Doherty, to be reimbursed for judgment issued against him on account of his acts as an employee of Sanitary Division.
First National Stores, for compensation for damage to car by fire apparatus.
Morris Gordon & Son, Inc., for compensation for damage to property at 112 Sudbury street, caused by broken water main.
Peter Higgins & Nathaniel H. Trafton, for refund on liquor license.
Bridget C. Prendergast, for compensation for damage to property at 190 Fisher avenue, caused by broken water main.
Sager Electric Supply Company, for refund on sign permit.

Executive.

Petitions for children under fifteen years of age to appear at places of public amusement, viz.:

Mary A. Healey, St. Francis de Sales School Hall, June 6.
Esther Lyons, Repertory Theatre, June 21.
Marie Kehoe, Repertory Theatre, June 14.
Kay A. McDermott, Repertory Theatre, June 12.
Bernadette Masterson, Intercolonial Hall, June 4.
Viola K. Breiding, Current Events Hall, June 8.
Adrienne K. Leeman, Peabody Playhouse Hall, June 11.
Colonial Operating Company, Colonial Theatre, June 4.
Harold B. Simpson, Jordan Hall, June 8.
Elizabeth G. McNamee, Elizabeth Peabody House, June 8.

ABSENCE OF MAYOR.

Notice was received by the City Clerk of absence of Mayor from the city during period beginning Wednesday, May 30, and ending with Sunday, June 3.

Placed on file.

REPORT ON FIRE DEPARTMENT.

A communication was received from the Boston Municipal Research Bureau submitting a report recommendng the reduction of Fire Department costs by the elimination of four engine companies and two ladder companies.

Placed on file.

APPOINTMENT OF WALTER V. McCARTHY.

Notice was received from the Mayor of appointment of Walter V. McCarthy to position of deputy commissioner in Institutions Department, effective as of close of business Monday, May 28, to fill vacancy caused by resignation of Mary A. Cotter.

Placed on file.

DESIGNATION OF ACTING BUDGET COMMISSIONER.

Notice was received from the Mayor of designation of Charles J. Fox as Acting Budget Commissioner, beginning June 1, 1934.

Placed on file.

CONSTABLES' BONDS.

The constables' bonds of Andrew W. Murphy, Joseph Dinubile, David Klayman and Louis Levine, having been duly approved by the City Treasurer, were received and approved.

CONFIRMATION OF APPOINTMENTS.

President DOWD called up, under unfinished business, No. 2 on the calendar, viz.:

2. Action on appointments submitted by the Mayor May 28, 1934, of Fred M. Cameron and John K. Holland, to be Weighers of Coal.

The question came on confirmation. Committee, Coun. Selvitella and Agnew. Whole number of ballots 19; yeas 18, nays 1, and the appointments were confirmed.

Coun. GOLDMAN called up, under No. 1 on the calendar, the appointment of William Tepper (submitted by the Mayor April 16, 1934) as a constable authorized to serve civil process. The question came on confirmation. Committee, Coun. Finley and Roberts. Whole number of ballots 17; yeas 12, nays 5, and the appointment was confirmed.

SOLDIERS' RELIEF.

Coun. KERRIGAN, for the Committee on Soldiers' Relief, submitted report recommending passage of order for payment of aid to soldiers and sailors and their families in the City of Boston for the month of June, 1934:

Report accepted; said order passed.

REPORT OF COMMITTEE ON JITNEY LICENSES.

Coun. ROBERTS, for the Committee on Jitney Licenses, submitted the following:

1. Report on petition (referred May 21) of Boston Elevated Railway Company to operate motor vehicles between junction of Massachusetts avenue and Boylston street and junction of Queensberry and Jersey streets—recommending that permit be granted.

Report accepted; permit granted under usual conditions.

GOLDEN JUBILEE OF CARDINAL O'CONNELL.

Coun. GOLDMAN offered the following:

Whereas, The Solemn Golden Jubilee of the Ordination of William Cardinal O'Connell as a priest of the Catholic Church will be celebrated on June 8, 1934, and

Whereas, William Cardinal O'Connell has devoted a lifetime to the service of God and humanity; and

Whereas, The City of Boston has been enriched by the gracious personality and good works of this great leader; therefore be it

Resolved, That the City Council extend to William Cardinal O'Connell its felicitations and congratulations on the occasion of the celebration of this Solemn Golden Jubilee of his Ordination as a priest of the Catholic Church.

The resolution was unanimously passed under suspension of the rule.

REQUESTED APPOINTMENT OF 300 FIREMEN.

Coun. FISH offered the following:

Ordered, That the Fire Commissioner be requested, through his Honor the Mayor, to increase the department by appointing three hundred more men.

Coun. FISH—Mr. President, I notice that the Boston Municipal Research Bureau has called for the reduction of members of the Boston Fire Department. I am not in favor of a reduction in the department, as I believe it is very much under-manned at the present time. Therefore, I am now calling upon his Honor the Mayor to appoint 300 extra men in the Boston Fire Department.

The order was referred to the Executive Committee.

FIRE STATION IN WARD 13.

Coun. McGRATH offered the following:

Ordered, That his Honor the Mayor consider the advisability of building a fire station in Ward 13, a community of 32,000 people who are without any fire station.

Coun. McGRATH—Mr. President, I introduce this order in all seriousness. For some seven years I have been fighting to get a fire station in Ward 13. We are a community of 32,000 people with over 12,000 voters, and yet there is not a fire station located in that entire area. When you consider that from the waterfront at Savin Hill, with its new Old Colony Boulevard, and straight down from the Uphams Corner section over to Blue Hill avenue in Roxbury, a distance of over two miles, there is no fire station of any kind, I think it must be clear to all that the service in that section is inadequate, especially at a time in the course of the business depression when there is more arson, more deliberate firing of buildings than at any other time in the history of this city, I believe that the great Roxbury section through Cherry Valley, the great Uphams Corner section and the section along through Pleasant street and down to Columbia Station and across into Savin Hill out to Dorchester Bay, a community of 32,000 souls, is certainly entitled to a fire station. If there was any town in Massachusetts of 32,000 people that was without a fire station, that had to rely on the adjoining towns to send in apparatus upon the occasion of a conflagration, the citizens of that community would not stand for it; and I sincerely hope that these out-of-towners who are now visiting Boston, instead of attempting to curtail a service that is already curtailed, will give to the taxpayers of the great Ward 13 section the protection which they have so long waited for and been denied, at least one fire station in a great community of 32,000 souls.

The order was passed under suspension of the rule.

ICE IN DRINKING FOUNTAINS.

Coun. SELVITELLA and DOWD offered the following:

Ordered, That his Honor the Mayor be requested to appropriate a sufficient sum of money to place ice in all drinking fountains of Boston during the summer season, as in former years.

Coun. SELVITELLA—Mr. President, I am going to be very brief on that particular order because I think all the members of the Council have now heard of the action of the Mayor of Boston last week in curtailing the appropriation covering ice for the so-called water bubblers or fountains during the summertime. Now, I don't know how many bubblers there are in the City of Boston. I called up the Public Works Department this morning and they seemed to be in as much doubt about it as I am, so that the full number and to what extent these bubblers are going to be without ice, I do not know. But this morning I am informed that the Mayor appoved contracts for the furnishing of ice to the Zoo at Franklin Park, to the Wayfarers' Lodge, the Chardon Street Home, Health Department and the City Hospital, but when it came to his reconsideration of ice for the bubblers for the children of Boston he again canceled the appropriation. Now I want to be as charitable with the Mayor as I possibly can, but if there was ever a time when his economy program lacked justice and mercy and common sense, I believe this particular case indicates a bad judgment on his part; because, as he says, there is going to be a saving of but $4,500, and surely the people of Boston would gladly pass the tin cup around in order to provide for this ice. I know in my own district we have already started a public subscription and I am glad to report that we have pledges for about $100 towards this fund, and I also see that the Boston *American* has also started a fund to provide ice for the bubbling fountains in Boston. Now I do not think the fair name of Boston should be placed in such a position as to bring ridicule and humiliation from those who live outside of Boston, because if the Mayor sees fit to give ice to the monkeys in the Zoo and to cool the tails of the polar bears at Franklin Park, surely he ought to have enough kindness in his heart for the kiddies in Boston to provide ice. I surely hope that he will reconsider his action and a least put the kiddies on at least a par with the monkeys in Franklin Park.

The order was passed under suspension of the rule.

CONTRACT TO E. F. LOONIE, JR.

Coun. SELVITELLA offered the following:

Ordered, That the Finance Commissione be requested to investigate the approval by the Mayor on May 21, 1934, of the awarding of a contract with E. F. Loonie, Jr., for furnishing automobile motor oil to the various city departments for the period ending September 30, 1934.

Coun. SELVITELLA.—Mr. President, in this order I ask that the Finance Commission investigate the letting of the contract on May 1 to E. F. Loonie, Jr., for furnishing motor oil to the various city departments, ending September 30, 1934. I made an inquiry to find out under what circumstances this contract for 25,600 gallons of motor oil was given to this E. F. Loonie, Jr. I am inquisitive to find out what connection there might be between M. Loonie, who was awarded a contract for $10,000 for the building of a coal pocket at Deer Island. I think you will recall, Mr. President, several weeks ago I stood on this Council floor and I criticized the action of the Mayor in letting out a contract without public bids. Now I am told by Mr. Loomis, the man imported from Needham in order to cut out that 65 per cent graft and corruption in our purchasing department, upon questioning, from me as to who this E. F. Loonie was, that he is a brother of M. Loonie, who received $10,000 of the city's money without a public bid. Now, if the Mayor is going to reward his political henchman, then I think he ought to have in mind at least the fact that there are companies here in Boston who are desirous of bidding fairly and equitably on these matters, and unless something is done to stop this awarding of contracts—in three weeks two of them have been given out—then the merchants and business men of Boston are not going to get the fair deal that the Mayor promised them in his campaign. This award of 25,600 gallons to E. F. Loonie was at a price of 39 cents a gallon and according to the *City Record* I find that the Cities Service Refining Company submitted a bid of 30 cents. Is there anyone who can question the ability of the Cities Service Refining Company to furnish oil according to the specifications of the City of Boston? Then there is the Gulf Refining Company, 32 cents, and yet E. F. Loonie, Jr., who is an independent distributor without any means of refining, receives a contract at 9 cents more than the lowest bidder, making almost $9,984, which would have meant a saving to the city, if this contract had been given to the lowest bidder, of over $2,200. So I hope that this business of letting out contracts without bids and to favorite sons and friends of the Mayor will stop, so that we may save money wherever it is possible.

Coun. SHATTUCK—I have no knowledge concerning the merits of this question, but I do think that it should appear in the records when reference is made to a difference of 9 cents in the bids, that it was stated before your Committee on Appropriations that the lower bid was for a different kind of oil, namely, a Mid Continent oil as against a Pennsylvania oil, which was the kind of oil asked for when the bids were offered. It was stated to us that the bid received was the lowest bid, as I understood it, for Pennsylvania type oil, which was the kind they asked for.

Coun. SELVITELLA—I might answer the councilor from Ward 5 and say I was present in the Committee on Appropriations when the statement was made that this award was given because the other companies didn't have the paraffin base. Now I want to call the councilor's attention to the fact that the Standard Oil Company, the Shell, Texaco, Colonial-Beacon, Gulf, American Oil Company and other large companies were concerned, does he honestly believe these companies could not or did not submit a bid for oil with paraffin base? For his own information, last Saturday morning I called up the Cities Service in Quincy, or at the Park Square Building, and I gave them the information that was passed to me, and for the councilor's benefit, I was informed that the oil on which they bid did contain the paraffin base.

The order was passed under suspension of the rule.

DISTRIBUTION OF F. E. R. A. WORK.

Coun. ROBERTS offered the following:

Resolved, That the Boston City Council favors the fair distribution of all work made available under the F. E. R. A., so that no undue preference be given to any one section, or members of one political party, to the exclusion of others who may be entitled to consideration.

Coun. ROBERTS—I don't know whether this order is of any value at the present time. It is more or less dependent on whether or not any more work is made available under the F. E. R. A. But I believe the members of this body who were here last year will remember that when the matter came up as to the distribution of the C. W. A. work, there was a serious question whether the work was not being given to a few favored sections to the detriment of other sections and that members of other political parties than those in power were not being given much consideration. In our own experience at the present time we have not been able to say anything about who receives this work. Our advice as councilors as to who might be qualified for that work has never been accepted, but for the sake of any future work available under this program, I think the Council should go on record in favor of all those who are to be hired under the F. E. R. A. being given a square deal.

The order was passed under suspension of the rule.

CONTINUATION OF E. R. A. PROJECTS.

Coun. GOLDMAN offered the following:

Ordered, That his Honor the Mayor be requested to direct the Commissioner of Public Works to continue the E. R. A. projects now under construction under the supervision of the Bridge and Ferry Division to completion.

The said projects are:

No. 1. The reconstruction of the recreation pier.

No. 2. Painting of six ferry slips.

No. 3. Repairs to the Blakemore Street Bridge.

No. 4. Repairs to the Longfellow Bridge.

No. 5. Repairs and resurfacing of the Chelsea Viaduct-Meridian Street Bridges.

—

Ordered, That Roswell G. Hall, E. R. A. administrator of the City of Boston, be requested, through his Honor the Mayor, to continue the E. R. A. projects under the supervision of the Bridge and Ferry Division to completion.

These projects are as follows:

No. 1. The reconstruction of the recreation pier.

No. 2. Painting of six ferry slips.

No. 3. Repairs to the Blakemore Street Bridge.

No. 4. Repairs to the Longfellow Bridge.

No. 5. Repairs and resurfacing of the Chelsea Viaduct-Meridian Street Bridges.

—

Ordered, That his Honor the Mayor be requested to send an additional appropriation for the budget for the Commissioner of Public Works to be used by the Bridge and Ferry Division in the sum of $10,850 to cover the costs for the completion of the E. R. A. projects now under the supervision of that division, and for the completion of the proposed E. R. A. projects under the supervision of said division.

—

Ordered, That Roswell G. Hall, E. R. A. administrator of the City of Boston, be requested, through his Honor the Mayor, to approve the following E. R. A. projects under the supervision of the Bridge and Ferry Division:

No. 1. Repair to retaining wall on Charlestown Bridge.

No. 2. Survey of all bridges in the City of Boston.

No. 3. Repair of the steel work on Charlestown Bridge.

—

Ordered, That his Honor the Mayor be requested to direct the Commissioner of Public Works to direct the following E. R. A. projects under the supervision of the Bridge and Ferry Division:

No. 1. Repair to Retaining wall on Charlestown Bridge.

No. 2. Survey of all bridges in the City of Boston.

No. 3. Repair of the steel work on Charlestown Bridge.

Coun. GOLDMAN—I would like to have these six orders read together and then I can discuss them. During the last week in discussing this bridge situation with several men working on that bridge, in going over the matter I found the following projects

which I introduced in one of the orders that are now under way and they have got to be stopped on June 15 unless something is done about it. Now, taking that first project, the recreation pier, we find that for the City of Boston to build that would cost $38,000. As the result of the Federal Government grant it will only cost the City of Boston $900, and would keep between 800 and 1,000 people at work. Then, take painting of the ferry slips. It will cost the City of Boston $1,200 to do it, but if the E. R. A. be permitted to finish this job it will cost the City of Boston nothng. On the Blakemore Street Bridge, there is the same situation. It will cost the City of Boston $5,000 if Boston has to do it. Incidentally, the city will have to do each and every one of these things. If the E. R. A. is allowed to continue, that bridge will cost the city only $350. On the Longfellow Bridge, there is the same situation. For us to complete the job is going to cost $3,500. If the E. R. A. is allowed to finish it, it will cost the City of Boston nothing, as they have the supplies left over from the C. W. A.; 85 per cent of the labor is unskilled, or semi-skilled, and the remaining 15 per cent includes the supervisory force and skilled labor. All the projects of the Bridge and Ferry Division are continued only until the 15th of June, at which time about one hundred and twenty people will be put out of work. Now, the excuse advanced by Mr. Hall is that the work is not maintenance work, that it is work the City of Boston should do and therefore I offer in substitution the following projects, if he finds they are maintenance work and should not be done under his orders from Carney, then I suggest the following projects, as by my orders. The recreation pier, the City of Boston needs it. It is going to cost Boston $3,800. If this job is allowed to be done, it will cost the City of Boston $900. Then we have repairing of retaining wall on the Charlestown Bridge, it will cost Boston approximately $10,000 to correct that wall. Now, that is not maintenance at all. That is another new project, and his Honor can request Mr. Hall to put this project in. Now, if E. R. A. is allowed to go on, it will cost Boston $600 for a $10,000 bridge, if it is permitted to go on with it. Then a survey of all the bridges in the city to give an accurate record of the exact conditions of the structure and plans for the city files, which will show all changes necessary on said bridges and approaches with details of these conditions. This survey will cost the City of Boston about $15,000. They say they want it done. The E. R. A. force which proposes this work will burden the city with only $750 to $800—employing thirty-four men. No. 3—the steel work necessary for the Charlestown Bridge concerns two spans which stand in a very dangerous state due to the action of the chemicals which have corroded the bridge steel. This will cost the city $30,000, using some fifty-odd tons of bridge steel and considerable labor. The E. R. A. proposes to use two shifts of men. The work would cost the city $30,000, but if E. R. A. does this work it will only cost the City of Boston $8,000. Now, it sums up as follows: If we are allowed to continue the present projects which are allowed to expire on June 15 and take on these new projects, there will be comparative grand totals as follows: $106,000 as against, if they take these men and employ them now, $10,850. I therefore send out a request that his Honor send down $10,850 more, and, in addition to that, if they repay it, it will only be the difference between one and the other. They will retain all of them or substitute these new projects which cannot be specified as maintenance.

The orders were passed under suspension of the rule.

AUTOMATIC TRAFFIC SIGNALS.

Coun. GOLDMAN offered the following:

Ordered, That the Traffic Commissioner of the City of Boston be requested, through his Honor the Mayor, to install automatic traffic signals at the intersection of Blue Hill avenue, Talbot avenue, Harvard street and Angell street.

Passed under suspension of the rule.

E. R. A. PROJECTS, CITY HOSPITAL.

Coun. DOHERTY offered the following:

Ordered, That Roswell G. Hall, E. R. A. administrator for the City of Boston, be requested, through his Honor the Mayor, to continue the E. R. A. projects now in operation at the Boston City Hospital and its various divisions.

—

Ordered, That his Honor the Mayor be requested to direct the Trustees of the Boston City Hospital to continue the E. R. A. projects now in operation at the Boston City Hospital, and its various divisions.

Severally passed under suspension of the rule.

SAND BOXES, JEFFERSON SCHOOL.

Coun. DOHERTY offered the following:

Ordered, That the School Committee be requested, through his Honor the Mayor, to arrange for the installation of see-saws and sand boxes in the Jefferson School play yard.

Passed under suspension of the rule.

HEBREW IMMIGRATION AID SOCIETY.

Coun. GOLDMAN and BRACKMAN offered the following:

Whereas, The Hebrew Immigrant Aid Society of Boston has been conducting a program of philanthropy for over thirty years; and

Whereas, This society has been of service to all mankind regardless of race or creed; and

Whereas, This fourth day of June is the annual flower day of said society; therefore be it

Resolved, That the Boston City Council extends to said society its best wishes and hopes that these philanthropic services shall continue.

Passed under suspension of the rule.

STUDY OF AERIAL AND HOLLAND BLOCK PLANS.

Coun. NORTON offered the following:

Ordered, That the Board of Assessors, through his Honor the Mayor, be requested to make a thorough study of the so-called aerial and Holland block plans of assessing before abandoning the same.

Passed under suspension of the rule.

MILK FOR WELFARE RECIPIENTS.

Coun. NORTON offered the following:

Ordered, That the Board of Public Welfare, through his Honor the Mayor, be requested to consider the advisability of seeking to make arrangements for the deliverance of milk to welfare recipients at a lower price than the prevailing retail price.

Passed under suspension of the rule.

JUNIOR COLLEGE COURSES.

Coun. NORTON offered the following:

Ordered, That the members of the Boston School Committee, through his Honor the Mayor, be requested to consider the advisability of establishing junior college courses in Boston.

Coun. NORTON—Mr. President, on that last order, we had 15,000 graduates from the Boston public schools last year, and this year we are to have 15,000 more this month. What has become of the graduates of four or five years ago no one seems to know. We have in this city thousands of graduates of the high schools who are unable to continue on through college, and it has been my idea that it would be possible to work out some scheme whereby the colleges should themselves possibly cooperate with the city, or perhaps the high school teachers' college, or the high schools of Boston could work out a curriculum whereby the years of the depression would not be wasted years for thousands of girls and boys who graduate from our high schools here.

The order was passed under suspension of the rule.

PARTIAL REPORT OF THE COMMITTEE ON PUBLIC WELFARE.

Coun. McGRATH, for the Committee on Public Welfare, submitted the following:

On April 23 his Honor the Mayor by official order asked the Committee on Public Welfare the following:

"May I venture to inquire what progress has been made by this committee? I am intensely interested in the Public Welfare Department, and would like to have whatever information may have been obtained by the committee."

On April 30 the Public Welfare Committee submitted its answer to his Honor the Mayor in an order, making the following suggestions:

"The Special Committee on Public Welfare, in filing a partial report, wish to emphasize the value of a complete recheck of every recipient of dependent aid, whether classified as unemployed or regular dependent aid recipient, to be made not later than May 25, 1934, the method of this complete recheck to be determined by the Public Welfare Department, but in every instance, whether by visit to the Welfare office or by personal visit to the home of the welfare recipient, together with the address as of the exact date that the contact is made."

Subsequently, his Honor forwarded this suggestion of the City Council to the Board of Overseers, who have put this plan of re-registration in action.

In fairness to the new Board and to their earnest attempt to purge the Welfare rolls of fraudulent recipients by placing the responsibility on the individual who receives, rather than on the city which gives, we submit this partial report without comment.

When the re-registration has been completed the committee will be interested, not so much in the number of recipients remaining, or in the number of new applications, as it will be in learning how many of the present recipients failed to re-register, and when the re-registration has been checked the committee will be glad to know how many of those who re-registered have been dropped from the Welfare rolls as not entitled to aid.

The report was accepted.

WARD 16 IMPROVEMENTS.

Coun. FISH offered the following:

Ordered, That the Public Works Commissioner be requested, through his Honor the Mayor, to resurface Frost avenue, Ward 16.

—

Ordered, That the Board of Street Commissioners be requested, through his Honor the Mayor, to accept and lay out Bloomington street as a public highway, Ward 16.

Severally passed under suspension of the rule.

ATTENDANCE OF FORMER COMPTROLLER, LIBRARY DEPARTMENT.

Coun. WILSON offered the following:

Ordered, That the Appropriations Committee of the City Council be requested, in consideration of the 1934 budget of the Library Department, to request attendance before the committee of the recently discharged comptroller, during whose term of employment in the past two years operating expenses were reduced from $1,330,000 to less than a million dollars, namely, a reduction of circulation unit cost per book from 35 cents to 16 1-10 cents, and having in mind the request for increased funds this year despite a falling off in circulation.

Passed under suspension of the rule.

INFORMATION IN RE PUBLIC WELFARE.

Coun. WILSON offered the following:

Ordered, That the Overseers of Public Welfare be requested, through his Honor the Mayor, to at once furnish the information requested in City Council order of May 7, 1934, concerning work card stamps.

—

Ordered, That the Public Welfare Department be requested, through his Honor the Mayor, to at once furnish the information requested in City Council orders of April 30, 1934, concerning welfare cases and other information relating to Ward 1.

—

Ordered, That the Overseers of Public Welfare be requested, through his Honor the Mayor, to at once furnish the information requested in City Council orders of May 21, 1934, concerning welfare cases and other information relating to Wards 9 and 13.

Coun. WILSON—Mr. President, on those last three orders, I do not assume that this is some of the information which young Charlie Sullivan has suggested that his former colleague, Frank Whelton, has been carrying around the city in his pocket. That information is where most of Whelton's information is, in the place that it has been for months since last October or November, right down in the Welfare Department, and in the possession of Mr. Fanjoy of the Police Department. The Mayor—and I believe sincerely—wrote a letter to the Council some weeks ago asking with reference to the progress of the Public Welfare investigation and requesting the committee to produce various information within its control or which it could reach. We would be even more impressed with the Mayor's sincerity if he would insist on the cooperation of the Public Welfare authorities. I introduced on April 30th an order, which was passed by the Council on that day, which was five weeks ago, asking information concerning Ward 1 and most especially such important information as the names of the visitors, totaling three or four in

the East Boston section, who presumably would be involved, one or more of them, at least, in the finding among lists of addresses of lumber wharves and meat shops. The committee will continue to function, I feel sure, but we would appreciate cooperation from the Mayor's office, and we feel that information which has been requested—namely, the names of the visitors under whose supervision many of these East Boston names have gotten on Welfare—should be furnished to the Council. A similar order was put in on May 21 concerning Wards 9 and 13, which has not yet come through. We all have in mind the prosecutions in the Boston Municipal Court which were carried out to a successful conclusion by the late Assistant Corporation Counsel Whelton, despite all Mr. Foley and his radio representative, Mr. Sullivan, told over the radio involving the use of stamps. We asked on May 7, over a month ago, that information be furnished, giving the data on these stamps in the various work yards, and most especially, since obviously three or four of them have either been stolen or let out, the names of the persons in the employ of the city who, we assume, reported such loss some time since last Christmas. I as a member of the committee, and I feel the rest of the committee would agree with me, feel that the Council is entitled at the earliest possible moment to that information which we have asked for.

The order was passed under suspension of the rule.

AMERICAN INTERNATIONAL TERMINAL CORPORATION LOAN.

Coun. WILSON offered the following:

Ordered, That his Honor the Mayor be requested to consider prompt approval of the application of the American International Terminal Corporation for a loan of sixteen million dollars from the Federal Administration of Public Works for the construction of a dock and the creation of a ship terminal at Old Harbor Point in Dorchester Bay.

Coun. WILSON—Mr. President, I understood that this application for a Federal loan for this great public improvement was made months ago as a possible P. W. A. project, if I am correctly informed, with the approval and warm indorsement of the Governor of Massachusetts, the Boston Port Authority, engineers of the War Department, the Dorchester Board of Trade, and numerous other organizations. The completion of this project would mean the reclaiming of some 264 acres of land, the dredging of a 40-foot ship channel, two years of continuous work for some 4,500 men, and the creation of millions of dollars of taxable property. While a private corporation has requested approval of the project, I understand the dock would be devoted to public uses, be self-liquidating in character, and involve no expense to Boston except the possible advisability of suitable approaches. According to existing plans, no less than thirty government vessels could be docked at one time, and in case of national emergency it would ensure the shipping of at least 50,000 men a day. I consider that such a project would certainly compare more than favorably with such a project as Neptune Gardens, which received such warm indorsement from the Mayor despite objection by the people of East Boston. I understand that although the project would inevitably mean placing Boston in the very forefront among Atlantic ports, the Mayor has not only been unable to find time to give it the least consideration, but at least three times during the past three months has broken appointments made for submitting the project for his approval. In these days of unemployment, I urge the fairness of the request that as chief executive of the city he at least consider the merits of a proposal which already has such almost unanimous approval, and without expense to the city will mean some two years' employment of 4,500 men.

The order was passed under suspension of the rule.

IMPROVEMENTS, MT. IDA PLAYGROUND.

Coun. TOBIN offered the following:

Ordered, That the Park Commission be requested, through his Honor the Mayor, to provide for the installation of tennis courts and repair the backstop on the baseball diamond at Mt. Ida Playground.

Passed under suspension of the rule.

WARD 7 IMPROVEMENTS.

Coun. KERRIGAN offered the following:

Ordered, That the Commissioner of Public Works be requested, through his Honor the Mayor, to repave with smooth pavement East Ninth street, Ward 7.

Ordered, That the Commissioner of Public Works be requested, through his Honor the Mayor, to repave with smooth pavement Bowen street, from Dorchester to F street, Ward 7.

Severally passed under suspension of the rule.

TRAFFIC SIGNALS, WARD 4.

Coun. ROBERTS offered the following:

Ordered, That the Traffic Commissioner, through his Honor the Mayor, be instructed to install traffic signals at the interesection of Columbus avenue and Dartmouth street, Ward 4.

Passed under suspension of the rule.

EXECUTIVE COMMITTEE REPORTS.

Coun. WILSON, for the Executive Committee, submitted the following:

1. Report on petitions (referred today) for children under fifteen years of age to appear at places of public amusement, viz.:

Mary A. Healey, St. Francis de Sales School Hall, June 6; Esther Lyons, Repertory Theatre, June 21; Marie Kehoe, Repertory Theatre, June 14; Kay A. MsDermott, Repertory Theatre, June 12; Bernadette Masterson, Intercolonial Hall, June 4; Viola K. Breiding, Current Events Hall, June 8; Adrienne K. Leeman, Peabody Playhouse Hall, June 11; Colonial Operating Company, Colonial Theatre, June 4; Harold B. Simpson, Jordan Hall, June 8; Elizabeth G. McNamee, Elizabeth Peabody House, June 8,—recommending that leave be granted under usual conditions.

Adjourned at 3.28 p. m., on motion of Coun. NORTON, to meet on Monday, June 11, 1934, at 2 p. m.

CITY OF BOSTON.

PUBLIC WORKS DEPARTMENT.

PROPOSALS FOR RESURFACING OR REPAIRING WITH BITUMINOUS MATERIALS THE PAVEMENT IN ANY STREET UPON WHICH THERE IS NO MAINTENANCE GUARANTY.

The Commissioner of Public Works of the City of Boston, office 508 City Hall Annex, invites proposals from citizens of the United States and corporations or other legal associations wherein the controlling interest to the extent of at least over one half thereof is owned by a citizen or citizens of the United States, for resurfacing or repairing with bituminous materials the pavement in any street upon which there is no maintenance guaranty when ordered to do so by the Commissioner and giving bond therefor of a surety company approved by the Commissioner in the sum of one hundred per cent of the amount of the contract to secure the due performance of the contract and the full protection of the city. Forms of proposals may be obtained at Room 508, City Hall Annex. Each bidder must give the location of the plant which it is intended to operate and the capacity of the same. Each proposal should be inclosed in an envelope, sealed, marked "Proposals for Repairing Pavements with Bituminous Materials," and left at Room 508, fifth floor, City Hall Annex, before 12 m. on Monday, June 25, 1934, with a certified check for three thousand (3,000) dollars, payable to and to become the property of the city if the proposal after acceptance is not carried out. The proposals will then and there be publicly opened and read. Proposals must be made in duplicate, the sealed duplicate, without check, to be deposited by the bidder with the City Auditor previous to the time named for opening the bids. *There will be a charge of two dollars ($2) for each set of plans and specifications taken out.* If the price of any item appears to the Commissioner to be abnormally high or low, or the bidder neglects to bid on each and every item, it may lead to the rejection of the proposal containing such price. The undersigned will reject any or all proposals wherein the price bid for Item 1 or Item 2 as specified in this proposal exceeds $1.55 per square yard; and reserves the right to reject any or all proposals or to award the contract as he may deem for the best interests of the city so to do.

C. J. CARVEN,
Commissioner of Public Works.

(June 16-23.)

NEWTON REDUCES WATER RATES.

The city of Newton reduced its water rates 10 per cent in 1932, from 25 to 22.5 cents per 100 cubic feet, and for 1934 has reduced them 11.5 per cent, to a flat price of 20 cents per 100 cubic feet. This reduction was made possible by savings effected by reorganizing the administration and maintenance methods and equipment of the department before and since the beginning of the city's "four-year plan" of water development in 1931.

CITY OF BOSTON.

PUBLIC WORKS DEPARTMENT.

NATIONAL INDUSTRIAL RECOVERY PROJECT, P. W. A., DOCKET NO. 4193.

NOTICE TO CONTRACTORS.

Sealed proposal, addressed to the Commissioner of Public Works of the City of Boston and indorsed Sewerage Works in La Grange street, West Roxbury, will be received at Room 508, fifth floor, City Hall Annex, Boston, Mass., before 12 o'clock noon on the tenth day of July, 1934, and at that time and place will be publicly opened and read. Bids must be made upon the prescribed proposal form. Special attention of bidders is called to all provisions of the Federal Emergency Administration of Public Works, which form a part of the contract, including the prescribed minimum rates of $1.20 per hour for skilled labor and $0.50 per hour for unskilled labor, and to the special provision as to semi-skilled labor.

"Pursuant to Executive Order 6646, dated March 14, 1934, no bid will be considered unless it includes or is accompanied by a certificate (worded in accordance with P. W. A. 61, revised March 19, 1934), duly executed by the bidder, stating that the bidder is complying with and will continue to comply with each approved code of fair competition to which he is subject, and if engaged in any trade and industry for which there is no approved code of fair competition, then stating as to such trade or industry he has become a part to and is complying with and will continue to comply with an agreement with the President (President's Re-employment Agreement) under section 4 (*a*) of the National Industry Recovery Act."

"Every contractor who bids upon a project financed in whole or in part by loans or grants from the P. W. A. shall submit in a sealed envelope with his bid to the contracting authority the names of all subcontractors and their bids upon which his bid is based. The sealed envelope so submitted shall have on it the name of the contractor with the words thereon, 'Bids of Subcontractors.' Such submission shall be deemed to constitute an acceptance by the contractor, if awarded the contract, of the bid of each subcontractor. Any alteration therein, after the award of the contract, shall be subject to the approval of the P. W. A. engineers."

Plans, specifications and contract form may be obtained at Room 508, fifth floor, City Hall Annex, Boston, Mass., upon deposit of the sum of two dollars ($2).

Bids must be accompanied by a properly certified check on, or a certificate of deposit issued by, a responsible bank in the sum of four thousand dollars ($4,000), payable to the City of Boston. Checks will be returned after execution of the contract, upon demand.

Proposals must be made in duplicate, the sealed duplicate, without check, to be deposited by the bidder with the City Auditor previous to the time named for opening the proposals.

A surety bond by an approved surety company will be required from the successful bidder in an amount not less than the full amount of the contract.

The right is reserved to reject any or all proposals, or to accept any proposal deemed best for the interest of the City of Boston, and no award can be made without the approval of the State Engineer, P. W. A.

The name and address of the local registration office of the National Re-employment Service, from which employee lists for this contract shall be obtained, is as follows: State Public Employment Office (Everett L. Hanna, Manager), 100 Nashua street, Boston, Mass.

by C. J. CARVEN,
Commissioner of Public Works.

WATER-SUPPLY DEVELOPMENT IN THE UNITED STATES.

In 1652 Boston introduced the first American public water supply. The first mechanical pumps were used in 1761 at Bethlehem, Pa., where Hans Christiansen, an American pioneer water-supply engineer, made his pumps work "after severe struggles." In 1850 there were only 100 water plants in the United States, and as late as 1875 only 243. In 1933 there were more than 11,000 public water supplies, some serving more than one community.

POLICE DEPARTMENT.

NOTICE TO BIDDERS.

Sealed proposals will be received at the office of the Police Commissioner of the City of Boston until twelve o'clock noon of June 27, 1934, to furnish all materials and perform all the work necessary for and incidental to the constructing of a Wharf at North Pier, North Ferry, Boston, Mass. Specifications, plan and form of proposal will be available to prospective bidders at the office of the Property Clerk, Room 106, 154 Berkeley street, Boston, Mass. Any inquiry concerning the specifications or other matters relative thereto should be made to Mr. T. Bayles Reilly, Division Engineer, Public Works Department, Bridge and Ferry Division, City Hall, Boston, Mass. Proposals must be accompanied by a certified check payable to Eugene C. Hultman, Police Commissioner, in the sum of two hundred dollars ($200). The successful bidder will be required to furnish a bond for an amount equal to the total contract price executed in accordance with the terms of the contract. This bond is to be obtained through a broker or agent of a reputable bonding company. The right is reserved to reject any or all bids.

By order of the POLICE COMMISSIONER OF THE CITY OF BOSTON.

EUGENE C. HULTMAN,
(June 16.) *Police Commissioner.*

POLICE DEPARTMENT ORDERS.

General Order No. 499.

Sergt. Charles F. Eldridge of Division 16 and Patrolman Edward A. McDonnell of Division 9 are hereby commended for unusually meritorious police service performed in connection with the apprehension and conviction of the criminals guilty of murder committed during the holdup of the Needham Trust Company on February 2, 1934.

On February 12, 1934, Sergt. Charles F. Eldridge searched the premises at 1175 Boylston street, Boston, occupied by the Millens. As a result of this search, he found two letters which contained information which lead to the arrest of the criminals involved in this case.

On February 11, 1934, Patrolman Edward A. McDonnell learned that the battery in the Packard automobile used by the criminals in the Needham Bank holdup was repaired by a battery service station on Division 9. This information definitely proved the connection of the Millens with the crime committed. Patrolman McDonnell obtained from the battery repairman a complete description of the Millens.

The prompt and intelligent action of both Sergeant Eldridge and Patrolman McDonnell, who gave unstintedly of their extra time and efforts in this matter, is highly commendable. The action of Sergeant Eldridge and Patrolman McDonnell in following orders of the department, that in all cases where crimes are committed in other jurisdictions that members of this department must cooperate with the police of other jurisdictions, is highly commendable. The intelligent and unselfish work of these officers aided materially in the apprehension and conviction of the criminals responsible for the Needham Bank murders.

The commissioner, therefore, awards the Department Medal of Honor to Sergt. Charles F. Eldridge of Division 16 and Patolman Edward A. McDonnell of Division 9; further, the commissioner grants to Sergeant Eldridge and Patrolman McDonnell two weeks' additional vacation.

The Superintendent of Police will promulgate this order.

EUGENE C. HULTMAN,
Commissioner.

General Order No. 500.

A trial board consisting of Captains Campbell, Casey and Daley, having heard by reference a complaint made by Mathew Killen, captain, Division 18, against Anthony J. Dunleavey, patrolman, Division 18, for alleged violation of Rules 36 and 41 of the Rules and Regulations of the Police Department, to wit:

Charge: Conduct unbecoming an officer.

Specification: In that on the 29th day of May (Police Day) the said Patrolman Anthony J. Dunleavey, while in uniform and on duty, was under the influence of intoxicating liquor to such an extent that he was unfit to do police duty if called upon so to do,—

has submitted the following finding and recommendation:

"The Board, having heard and carefully considered all the evidence as presented, finds the said Patrolman Anthony J. Dunleavey guilty as charged. The Board has also considered the fact that Patrolman Dunleavey has been commended in General Orders and that during his nine years of service in the department he has never previously been before a trial Board for violation of the rules. Therefore the Board respectfully recommends that the said Patrolman Anthony J. Dunleavey be suspended from duty for a period of thirty days, effective as of May 31, 1934, at 7.45 o'clock a. m., and that at the expiration of the said period of suspension the said Patrolman Anthony J. Dunleavey be ordered to perform 210 hours of punishment duty."

The commissioner accepts the finding of guilty by the Trial Board and hereby orders that the said Patrolman Anthony J. Dunleavey be suspended from duty for a period of thirty days, effective as of May 31, 1934, at 7.45 o'clock a. m., and that at the expiration of the said period of suspension the said Patrolman Anthony J. Dunleavey perform 210 hours of punishment duty.

Civil Service Rule 23, Section 3, requires approval of the Civil Service Commission before reinstatement.

Rule 23.

"Section 3. With the consent of the Commissioner upon good cause shown, an appointing officer may reinstate in the same position or in a position in the same class and grade any person who has been separated from the service; provided, however, that the Commissioner shall not allow reinstatement of a person discharged for cause."

The Superintendent of Police will promulgate this order.

EUGENE C. HULTMAN,
Commissioner.

General Order No. 501.

Lieut. Benjamin A. Wall and Patrolman Leo F. O'Neil, both of Division 19, (now detailed to the Detective Bureau), and Sergt. Leo C. J. Masuret of the Detective Bureau, are commended, and, in addition, Sergt. Leo C. J. Masuret and Patrolman Leo F. O'Neil are each granted three days' additional vacation for meritorious police duty performed in connection with the arrest and conviction of a person responsible for a series of armed holdups of chain stores in Dorchester and Mattapan district, also the arrest of a manager of one of the stores as an accessory.

The commissioner is pleased to recognize the zeal and intelligence shown by these officers who gave generously of their time in order to accomplish the arrest and prosecution of these criminals.

The Superintendent of Police will promulgate this order.

EUGENE C. HULTMAN,
Commissioner.

LAND-TAKING IN BOSTON PROPER.

The Mayor has approved the order of the Board of Street Commissioners for the taking of land for sewerage works to be constructed as follows:

The right and easement is taken to lay and maintain sewerage works in the following-described lands, exclusive of any interest in trees, buildings or other structures standing thereon, reserving to the owners thereof the right to use the lands for any purpose except such as may injure or obstruct said works, and except for placing or maintaining any structure on said lands not authorized in writing by the Mayor of said city; trees, buildings or other structures standing upon or affixed to the land in which an easement is hereby taken are to be removed therefrom within sixty days following a notice of the city's intention to enter upon said taking for the purpose of constructing said sewerage works. Said lands are in that part of Boston known as Boston proper, and are bounded as follows:

A parcel of land, owners unknown, being part of the private way known as Beaver place, bounded:

Westerly by Embankment road, twenty-eight and 67–100 feet; northerly by the same, and by the northerly line of said Beaver place, one hundred thirty-four and 37–100 feet; again westerly by the westerly line of said Beaver place, one and 54–100 feet; again northerly by the northerly line of said Beaver place, one hundred fifty-seven and 11–100 feet; easterly by another part of said Beaver place, twenty-nine and 60–100 feet; and southerly by Beaver street and by the southerly line of said Beaver place, by two measurements, thirty-nine and 71–100 feet and two hundred fifty and 65–100 feet, containing eighty-five hundred and twenty-four square feet, more or less.

The sewerage works to be constructed are as follows: Two hundred and ninety-three linear feet of 7-foot by 8-foot and ten linear feet of 6-foot 6-inch by 6-foot 6-inch concrete surface drain and four hundred ten linear feet of 15-inch pipe sanitary sewer, in the above-described premises, being part of the private way known as Beaver place, leading easterly from Embankment road for a distance of approximately two hundred and ninety feet.

This Board determines that no person sustains damages in his estate by the taking of the aforesaid easement for sewerage purposes and the construction of said sewerage works and awards no damages therefor.

Betterments are to be assessed for the making of the aforesaid improvement.

Ordered, That this Board estimates that the abutting lots of land on the northerly side of Beaver place, designated as assessment lots 2, 3 and 5, and the lot of abutting land on the southerly side of Beaver place, designated as assessment lot 12, will receive benefit or advantage beyond the general advantage to all real estate in said city, from the improvement herein ordered; each of said lots to the amount hereinafter respectively set against it; said lots and the supposed owners thereof being shown on a plan marked "City of Boston, Plan No. 1130, Sewerage Works, Beaver Place, Boston Proper, February 28, 1934, William J. Sullivan, Chief Engineer, Street Laying-Out Department," and on file in the office of said department.

MOTOR VEHICLE ACCIDENTS IN 1933.

It is estimated that in 1933 there were 30,500 motor vehicle deaths—1,000 more than in 1932; this remaining otherwise, however, the lowest number since 1928, when 27,996 deaths occurred. These figures are given by the National Safety Council, Inc., in "Public Safety" for February.

CITY OF BOSTON PRINTING DEPARTMENT

CITY RECORD

OFFICIAL CHRONICLE OF BOSTON MUNICIPAL AFFAIRS.

VOL. 26. SATURDAY, JUNE 23, 1934. NO. 25

BOSTON HOLDS HER LEAD IN METROPOLITAN COMMUNITY BECAUSE OF HER TRANSPORTATION FACILITIES — PROGRESSED WITH TIMES AND MET DEMANDS OF PUBLIC WITH INCREASED CONSTRUCTION UNDER POLICY THAT LEAVES ALL TUBES AND TUNNELS IN POSSESSION OF CITY AND UNDER LEASE — COL. THOMAS F. SULLIVAN, CHAIRMAN OF TRANSIT COMMISSION, DISCUSSES TRANSPORTATION PROBLEMS IN WEEKLY BROADCAST FROM CITY HALL STATION — FILLS IN FOR MAYOR MANSFIELD IN BROADCAST.

The following is the radio address of Col. Thomas F. Sullivan, chairman of the Boston Transit Commission:

I welcome this opportunity to tell the citizens and the taxpayers of the conspicuous part the City of Boston has played in providing this community with its present system of street railway transportation.

Of the various services supplied to the public, either by private or public agencies, it is now universally recognized that there is none more essential to the comfort, convenience and welfare of the individual and the community than good transportation. In Metropolitan Boston, which covers an area of 125 square miles, over a million people every day have occasion to ride on the street railway systems, and the great majority at some time during their journey, because of existing transfer privileges, use our subways and tunnels. Good transportation is vital to the upbuilding of the city proper for business and directly develops the suburbs for residential purposes, where one may obtain wholesome, healthful and restful living conditions.

The history of local transportation in this vicinity begins in March, 1856, when the first horse car was operated between Boston and Cambridge. Shortly after this the Legislature granted charters for various lines to the city proper from Dorchester, Roxbury, South Boston, Somerville, and other suburban districts. There are some within the hearing of my voice who will probably recall the cars of those old days which required four horses to propel them in stormy weather, were lighted with kerosene lamps at each end, and provided heating facilities in the form of piles of straw to keep the feet warm in cold weather.

Riding Costs in Old Days.

In those days it cost considerable to ride between the suburban points on opposite sides of the city. The trip between Ashmont and Watertown, for example, cost 33 cents, consumed two and one half hours, and the last car left Ashmont at nine o'clock. Some of the suburban railways charged more on Sundays than on week days; as, for instance, from Malden to Scollay square the fare was 15 cents on week days and 20 cents on Sundays. Then, if a person wanted to ride up Tremont or Washington street from Scollay square, it was necessary to pay another fare on a car of another company.

In 1887 the various street car lines were combined into one system, the West End Street Railway, with a unified fare.

The Lynn and Boston Street Railway, now known as the Eastern Massachusetts, declined to enter the new system, largely because of the fear of increased fares. Because of this decision, the cities of Chelsea and Revere, although a part of the Metropolitan area, have ever since been compelled to pay double fare. Incidentally, it may be interesting for many of you to know that it is only thirty years ago last Christmas Eve that the last horse car was operated in the City of Boston.

Immediately after consolidation, Henry M. Whitney, the president of the West End Railway, sought some motive power more economical than horses, and permitting a greater speed of operation. The installation of the cable system was actually begun when development of the use of electricity was brought to his attention; he promptly abandoned the cable project and substituted electrical equipment. The first electric line was opened January 1, 1889, between Brookline and Boston, and the following month a line between Cambridge and Boston was started. The equipment was somewhat crude, and experiments on a large scale, costing more than a million dollars, were necessary before the development stage was passed and the trolley system had become a demonstrated success. The popularity of the trolley car created a demand for the extension of many new lines to the suburbs and the great increase in the number of cars to handle the additional riders resulted in a congestion in the city proper which necessitated a radical change in the system of transportation.

Rapid Transit Problem.

In fact, the situation became so acute that the Legislature in 1891 appointed a commission to deal with the whole problem of rapid transit to and in the City of Boston.

This commission, after many hearings and months of study, reported in 1892 in favor of the construction of elevated railroads. They suggested two complete lines, one from City Point, South Boston, to Sullivan square in Charlestown, and the other from the vicinity of Dudley street, Roxbury, to East Cambridge, with additional feeders to Central square, Cambridge, from Bowdoin square and Park square. This recommendation was not approved, and a year later the Legislature authorized the taking of a strip of land, 25 feet wide, from the location of the present North Station to Franklin Park, midway between Tremont and Washington streets. Within this area it was proposed to concentrate all the street car traffic of the adjacent congested district in addition to a new elevated railway. This act was rejected by the voters at the following State Election. (*Continued on page 603.*)

"O Boston, fair City enthroned like a radiant queen,
From thy hills looking down on the ship-teeming plain of the ocean,
May thy future be bright, thy skies beam with light all serene,
Ensured by thy sons' and thy daughters' unselfish devotion!"
From Boston Centennial Poem by
NATHAN HASKELL DOLE.

CITY RECORD.

Published weekly under legislative act by the City of Boston, Massachusetts.

FRANK H. CUSHMAN, *Editor*, Room 73, City Hall.
JOSHUA H. JONES, JR., *Associate Editor*.
EDWARD F. O'DOWD, *Business Agent*, Room 73, City Hall.

Entered as second class matter at Boston Post Office.

By Subscription . . . . . $2.00 Per Year
Single Copies . . . . . 10 Cents
IN ADVANCE

STREET AGENCIES.

Old South News-stand, Old South entrance to subway.

Advertising.

A rate of $2 per inch of 12 lines (set solid) has been established for such advertisements as under the law must be printed in the *City Record*. Advertising and other copy must be in hand by Thursday of each week to insure its publication in the Saturday issue.

Copies for sale at the Statistics Department, Room 73, City Hall.

MUNICIPAL CALENDAR.

Meeting of the City Council Monday, July 2, 1934, at 2 p. m.

A deferred regular meeting of the School Committee of the City of Boston will be held in the Administration Building, 15 Beacon street, on Monday, June 25, 1934, at 7.30 o'clock, p. m.

Meetings of the Transit Department are held on Monday and Thursday of each week at 11 a. m.

Board of Zoning Adjustment. Public hearings and executive meetings are held on the first Friday of each month, Room 30, City Hall, at 2 p. m.

MUNICIPAL SERVICE.

Complaints, inquiries or suggestions regarding the work of municipal departments should be made in writing to the officials directly in charge. The failure of such official to make reply within a reasonable length of time should be brought to the attention of the Mayor. Communications should be directed as follows:

To the Board of Street Commissioners, Room 401, City Hall Annex, for information relative to the laying out, relocation, widening, and the discontinuance of highways; the taking of rear property for municipal purposes; the assessments of betterments for streets and sewers; the plotting of undeveloped area for streets and the opening of private ways; the granting of licenses for the storage or sale of merchandise in public streets; the making of specific repairs in public streets; the naming of public streets; the planting and removal of trees in public ways; the issuing of licenses for the storage of gasolene, oil, and other inflammable substances or explosive compounds; the use of the public ways for any permanent or temporary obstruction or projection in, under or over the same, including the location of conduits, poles and posts for telephone, telegraph, street railway or illuminating purposes, signs, marquises, bay windows, coal holes and vaults.

To the Boston Traffic Commission, 134 North street, for information relative to regulation of vehicular street traffic on all or any streets, ways, highways, roads and parkways under the control of the City of Boston, the issuing of all permits in connection therewith.

To the Commissioner of Public Works, Room 511, City Hall Annex, for information as to the watering, cleaning, lighting and repairing of streets, the construction and care of sewers and catch-basins, the operation of the ferries, the maintenance of bridges and drawbridges and the removal of ashes and offal.

To Room 604, City Hall Annex, for information relative to the supplying or metering of water and the water charges of the city.

To the Health Department, Room 1107, City Hall Annex, for information relative to the inspection of milk, vinegar, meat, fish and vegetables, the issuance of permits for stables, slaughter houses, etc., smoke nuisances, the existence of contagious diseases, of public health nuisances.

To the Board of Park Commissioners, 33 Beacon street, for information as to the care of the Common, Public Garden, Franklin Park, Franklin Field, Commonwealth avenue, Back Bay Fens, Marine Park, and the small parks and playgrounds in general throughout the city, and as to the extermination of gypsy moths and the charges made for such service. Application may be made to this department for information regarding the public baths and gymnasiums maintained by the city, and with regard to municipal indoor concerts and band concerts, also information relative to Mt. Hope, Evergreen, Fairview and other public cemeteries owned by the City of Boston.

To the School Committee, 15 Beacon street, for information relative to the operation of the schools of the city.

To the Department of School Buildings, 11 Beacon street, for information as to the construction and repair of school buildings.

To the Board of Examiners, Room 1001, City Hall Annex, for information regarding the licensing of persons having charge or control of the work of construction, alteration, removal or tearing down buildings.

To the Statistics Department, Room 76, City Hall, for historical, geographical, political and population facts about Boston; the personnel and accomplishments of present and past municipal administrations; and such similar information as may be found concerning other American municipalities in its Municipal Officials' Reference Library.

To the Wire Division of the Fire Department, 103 City Hall Annex, for all information relative to the erection of poles, building of conduits, the installation of all overhead and underground construction and electrical apparatus, as well as for general information relative to the entire division. To Room 1007, City Hall Annex, for permits for the installing of wires and electrical apparatus within buildings of the City of Boston, and for the payment of fees incident to the granting of the privileges above named, and which must be paid in advance.

To the Board of Zoning Adjustment, Room 30, City Hall, relative to changes in the boundary lines of zoning districts of the City of Boston as established by chapter 488 of the Acts of 1924, and amendments thereto.

MORTALITY REPORT.

For the week ending June 16, 1934:

Population estimated July, 1934, United States Census Bureau estimate, 795,256; number of deaths (stillbirths excluded): Residents, 147; nonresidents, 38; total, 185.

Death rate per 1,000 of population: All deaths, 12.10; nonresidents deducted, 9.61.

Death rate per 1,000 of population: Last week, 12.81; corresponding week last year, 14.64.

Deaths by age periods, sex, etc.: Under one year, 11; one year to four years, inclusive, 5; sixty years and over, 90. Total deaths: Male, 103; female, 82; deaths in hospitals and institutions, 113; deaths of colored, 5.

REPORTABLE DISEASES: CASES AND DEATHS.*

WEEKLY BROADCAST.

(*Continued from page 601.*)

However, the Legislature of 1894 authorized the construction of the Tremont Street Subway, the subway under Beacon Hill and the East Boston Tunnel. In the same act provision was made for the incorporation of the Boston Elevated Railway Company, with authority to lease the surface lines of the West End Street Railway. Strange as it may seem now this legislation met with violent opposition, notably from the business interests of the city, claiming that it would be ruinous to business and would fail to relieve congestion or promote rapid transit. This legislation was subject to a referendum at a special election held on July 2, 1894, and despite vigorous opposition was accepted by a majority of approximately one thousand votes.

Work was begun in 1895 on the construction of the Tremont Street Subway, and from this beginning rapid transit lines below and above the surface had been and are being added to provide not only for the present but for the future needs of the community.

First Subway in America.

This was the first subway for street cars constructed in America, and, in fact, the only other one in existence in the world at that time was in the city of Budapest in Austria.

The cost of the Tremont Street Subway and East Boston Tunnel was $7,500,000. Incidentally, the East Boston Tunnel was the first subaqueous structure for street railway cars ever built.

The Tremont Street Subway was completed in 1898, and since that time the City of Boston has built and paid for the following subways and tunnels:

The East Boston Tunnel, at a cost of $3,300,000. Opened in 1904.

The Washington Street Tunnel, at a cost of $8,000,000. Opened in 1908.

The Beacon Hill Tunnel, at a cost of $1,600,000. Opened in 1912.

The Boylston Street Subway, at a cost of $5,400,000. Opened in 1914.

The East Boston Tunnel Extension, from Scollay to Bowdoin square, at a cost of $2,300,000. Opened in 1916.

The Dorchester Tunnel, from Park street to Andrew square, South Boston, at a cost of $11,000,000. Opened in 1918.

The Arlington Station of the Boylston Street Subway, at a cost of $1,200,000. Opened in 1921.

The Maverick Square Terminal of the East Tunnel, at a cost of $3,800,000. Opened in 1924.

The extension of the Dorchester Rapid Transit from Andrew square to Mattapan at $12,200,000. Opened in 1929.

1. The extension of the Boylston Street Subway under Governor square at a cost of $5,000,000. Opened in October, 1932.

Following the policy laid down in the case of the Tremont Street Subway, the City of Boston furnished the capital for and built all of these subways and tunnels and, in turn, leased them to the Boston Elevated Railway on an annual rental basis of 4½ per cent of the net cost, all leases running until July 1, 1936.

The rentals paid by the Elevated Company are sufficient to cover interest charges on the bonds issued by the city for construction and, in addition, they provide a sinking fund to retire the bonds substantially at their maturity dates.

City Owns Tubes, Etc.

The result of this policy has shown that the city owns in its private capacity all the tunnels and subways; that they have cost the city nothing for maintenance and equipment, nothing, indeed, but the use of its credit, and all under leases which are on the whole more favorable to the city than those which have been made in any other city.

How many of us, on riding through the East Boston Tunnel, or the Dorchester Tunnel, ever give a thought as to how these tremendous tubes, buried, as they are, under the mud below Boston Harbor, came into being?

Our interest takes on the form of wonder when we realize that the bottom of the East Boston Tunnel lies at a depth of 90 feet below the high water mark of Boston Harbor.

How are such structures produced? How can they be built under water? How can they withstand the pressure of the water against them, a pressure estimated to be three tons on every square foot? How are the difficulties of such tunneling overcome when the character of earth found in excavation consists of shifting sands.

The limitation of the time allotted for this talk will not permit me to discuss in detail the method of subway and tunnel building or to tell you something of the great precaution to be exercised to protect life and property.

Highest Engineering Skill Obtained.

Tunneling is always dangerous and especially so when carried on not alone under water but also under or in immediate proximity to foundations of heavy buildings.

To do the work safely in the streets of a city like Boston requires the highest engineering skill and constant vigilance.

In the construction of the Washington Street Tunnel it was necessary to underpin about 3,000 feet of building frontage extending from Kneeland street to Adams square, while the length of that tunnel, fully or partly under buildings, is over 1,200 feet, the greatest depth being at the corner of Washington and Court streets, where the Washington Street Tunnel was built under the East Boston Tunnel, both constituting a part of the foundation of the Ames Building.

The dangers and difficulties of tunnel building in Boston have been met successfully and the reason is found in the skill and resourcefulness of the civil engineering organization of this department, in the superiority of our workmen, a superiority that is traditional and in the supply of which no city in the world is more generously equipped.

In the administration of the affairs of a metropolitan city like Boston responsibilities are great.

Unlike a business corporation, whose success is measured by the financial return, a great city, such as Boston, is concerned primarily with the health, comfort, happiness and prosperity of its citizens, and the success of Boston is readily understood when we look around and see what it has provided in the field of schools, hospitals, health, preventive medicine, health units, clinics, parks, recreational centers, libraries, welfare centers, streets and fire and police protection.

Boston Pioneer in Subways.

It is the pioneer city of the world in subway building and in the character of its rapid transit facilities has a pride justly acquired.

The new Traffic Tunnel, between Boston and East Boston, which has been under construction since March 24, 1931, will be ready to open in a few weeks.

This is for the use of motor vehicles and provides a rapid connection between the city proper and the North Shore. It will bring the great East Boston Airport within five minutes of the city proper.

The outstanding accomplishment, to my mind, in connection with the expenditure of $25,000,000, for the construction of Governor Square Extension and the Traffic Tunnel, wherein thousands of men were employed under extremely hazardous working conditions, is the fact that these projects have been brought to a successful completion without the loss of a single workman.

We hear much in these days about air conditioning, but the Traffic Tunnel represents the peak of accomplishment in this respect. Twenty-eight huge fans have been installed in the two ventilation buildings, with a capacity of 1,200,000 cubic feet of fresh air per minute, making it possible to completely change the air of the entire tunnel in a minute and three-quarters.

Boston's position and influence as a great metropolitan center have long been established and in the maintenance of that position its progress in the development of rapid transit facilities by the expenditure of eighty million dollars, wisely and economically carried out, has kept a proper place.

EXTRA WORK UNDER CONTRACT.

Vito Calia has been directed to perform the following extra work under the contract for laying artificial stone footway and artificial stone steps in Colborne path, Ward 21, from Nottinghill road to Colborne road. Items ordered: Furnish and build two drop inlets with outlets; furnish and lay extra concrete and cinders for side wall; furnish and lay tile pipe for draining wall. Price to be paid, the sum of $180. This contract was awarded as a lump sum job and the above orders were not included in the original contract but are necessary to prevent water from draining on private property. Estimated cost of extra work, $180.

WORKING PLAN FOR SLIDING WAGE SCALE.

The procedure in connection with sliding scale increases subsequent to the executive order issued by the Mayor will be as follows:

1. Determination by the Budget Commissioner after conferences with department heads of the employees eligible to receive sliding scale increases under the terms of the legislative act.

2. Submission of a Supplementary Budget providing the necessary appropriations to the City Council.

3. Approval by the Mayor of recommendations submitted by department heads containing the names of the employees and the increases to which they are entitled.

In all probability the carrying forward of this procedure will consume two or three weeks' time, so that employees will not receive the first payment of the sliding scale increases until approximately the first of July. Since the payments will be retroactive to January 1 any delay in the payment of the increases will simply result in a larger initial payment.

PROPOSALS ADVERTISED.

Bids have been asked by advertisement in the *City Record* for the following departments. The attention of contractors and others is especially called to the closing time of receipt of such proposals. This will be published weekly.

DEPARTMENT OF SCHOOL BUILDINGS.

Advertises for proposals for making certain changes in the heating system in the Bunker Hill School. Surety bond will be required in a sum equivalent to the full amount of the contract price. Blank forms for proposals may be obtained at the office of the Department of School Buildings, 11 Beacon street, Boston. Bids, accompanied by certified check in the sum of $250, to be filed at the same office. Duplicate bid, without check, to be filed with the City Auditor.

Bids close Monday, June 25, at 2 p. m.

Advertises for proposals for erecting and completing fire escapes on the Joshua Bates School. Surety bond will be required in a sum equivalent to the full amount of the contract price. Blank forms for proposals may be obtained at the office of the Department of School Buildings, 11 Beacon street, Boston. Bids, accompanied by certified check in the sum of $400, to be filed at the same office. Duplicate bid, without check, to be filed with the City Auditor.

Bids close Thursday, June 28, at 2 p. m.

Advertises for proposals for roofing work, etc., in the Atherton School. Surety bond will be required in a sum equivalent to the full amount of the contract price. Blank forms for proposals may be obtained at the office of the Department of School Buildings, 11 Beacon street, Boston. Bids, accompanied by certified check in the sum of $500, to be filed at the same office. Duplicate bid, without check, to be filed with the City Auditor.

Bids close Monday, July 2, at 2 p. m.

Advertises for proposals for roofing work, etc., at the Sherwin School. Surety bond will be required in a sum equivalent to the full amount of the contract price. Blank forms for proposals may be obtained at the office of the Department of School Buildings, 11 Beacon street, Boston. Bids, accompanied by certified check in the sum of $500, to be filed at the same office. Duplicate bid, without check, to be filed with the City Auditor.

Bids close Monday, July 2, at 2 p. m.

Advertises for proposals for roofing work, etc., at the Hull School. Surety bond will be required in a sum equivalent to the full amount of the contract price. Blank forms for proposals may be obtained at the office of the Department of School Buildings, 11 Beacon street, Boston. Bids, accompanied by certified check in the sum of $500, to be filed at the same office. Duplicate bid, without check, to be filed with the City Auditor.

Bids close Monday, July 2, at 2 p. m.

Advertises for proposals for erecting and completing fire escapes on the Atherton School. Surety bond will be required in a sum equivalent to the full amount of the contract price. Blank forms for proposals may be obtained at the office of the Department of School Buildings, 11 Beacon street, Boston. Bids, accompanied by certified check in the sum of $400, to be filed at the same office. Duplicate bid, without check, to be filed with the City Auditor.

Bids close Monday, July 2, at 2 p. m.

Advertises for proposals for installing two new boilers in the Ellis Mendell School. Surety bond will be required in a sum equivalent to the full amount of the contract price. Blank forms for proposals may be obtained at the office of the Department of School Buildings, 11 Beacon street, Boston. Bids, accompanied by certified check in the sum of $250, to be filed at the same office. Duplicate bid, without check, to be filed with the City Auditor.

Bids close Monday, July 2, at 2 p. m.

PARK DEPARTMENT.

Advertises for proposals for concession privileges for furnishing weighing machines in convenience stations and buildings of the Park Department for three years. Surety bond will be required in a sum equivalent to $1,000. Blank forms for proposals may be obtained at the office of the Park Department, 33 Beacon street, Boston. Bids, accompanied by certified check in the sum of $50, to be filed at the same office. Duplicate bid, without check, to be filed with the City Auditor.

Bids close Wednesday, June 27, at 12 m.

POLICE DEPARTMENT.

Advertises for proposals for furnishing all materials and performing all work necessary for and incidental to the construction of a wharf at North Pier, North Ferry. Surety bond will be required in a sum equivalent to the full amount of the contract price. Blank form for proposals may be obtained at the office of the property clerk, Room 106, 154 Berkeley street, Boston. Bids, accompanied by certified check in the sum of $200, to be filed at the office of the Police Commissioner, 154 Berkeley street, Boston.

Bids close Wednesday, June 27, at 12 m.

PUBLIC WORKS DEPARTMENT (Paving Service).

Advertises for proposals for resurfacing and repairing with bituminous material the pavement in any street upon which there is no maintenance guarantee. Surety bond will be required in a sum equivalent to the full amount of the contract price. Blank forms for proposals may be obtained at the office of the Public Works Department, Room 508, City Hall Annex, Boston. Bids, accompanied by certified check in the sum of $3,000, to be filed at the same office. Duplicate bid, without check, to be filed with the City Auditor.

Bids close Monday, June 25, at 12 m.

PUBLIC WORKS DEPARTMENT (Sewer Service).

Advertises for proposals for sewerage works in Walk Hill street, West Roxbury. Surety bond will be required in a sum equivalent to the full amount of the contract price. Blank forms for proposals may be obtained at the office of the Public Works Department, Room 508, City Hall Annex, Boston. Bids, accompanied by certified check in the sum of $2,000, to be filed at the same office. Duplicate bid, without check, to be filed with the City Auditor.

Bids close Monday, July 9, at 12 m.

Advertises for proposals for sewerage works in La Grange street, West Roxbury. Surety bond will be required in a sum equivalent to the full amount of the contract price. Blank forms for proposals may be obtained at the office of the Public Works Department, Room 508, City Hall Annex, Boston. Bids, accompanied by certified check in the sum of $4,000, to be filed at the same office. Duplicate bid, without check, to be filed with the City Auditor.

Bids close Tuesday, July 10, at 12 m.

Advertises for proposals for sewerage works in Shepard brook, Brighton. Surety bond will be required in a sum equivalent to the full amount of the contract price. Blank forms for proposals may be obtained at the office of the Public Works Department, Room 508, City Hall Annex, Boston. Bids, accompanied by certified check in the sum of $2,000, to be filed at the same office. Duplicate bid, without check, to be filed with the City Auditor.

Bids close Wednesday, July 11, at 12 m.

SCHOOL COMMITTEE.

Advertises for proposals for furnishing art education and mechanical drawing supplies for the public schools, high and special. Surety bond will be required in a sum equivalent to 50 per cent of the contract price. Blank forms for proposals may be obtained at the office of the Business Manager, School Committee, 15 Beacon street, Boston. Bids, accompanied by certified check in the sum of $100, to be filed at the same office. Duplicate bid, without check, to be filed with the City Auditor.

Bids close Tuesday, June 26, at 12 m.

Advertises for proposals for furnishing groceries to the public schools. Surety bond will be required in a sum equivalent to 50 per cent of the contract price. Blank forms for proposals may be obtained at the office of the Business Manager, School Committee, 15 Beacon street, Boston. Bids, accompanied by certified check in the sum of $100, to be filed at the same office. Duplicate bid, without check, to be filed with the City Auditor.

Bids close Wednesday, June 27, at 12 m.

Advertises for proposals for furnishing shop supplies to the Boston public schools. Surety bond will be required in a sum equivalent to 50 per cent of the contract price. Blank forms for proposals may be obtained at the office of the Business Manager, School Committee, 15 Beacon street, Boston. TRANSIT DEPARTMENT.

Advertises for proposals for passageways and paving, Haymarket square improvement, Traffic Tunnel, Series B. Certified check in the sum of $5,000 to be filed at the office of the Transit Department, 1 Beacon street, Boston.

Bids close Monday, June 25, at 12 m.

DEPARTMENT CHANGES.

The following changes in the number, rating and compensation of the city employees have been made during the week ending Thursday, June 21:

ASSESSING DEPARTMENT.

James J. Byrne has been promoted from second assistant assessor to first assistant assessor.

DEPARTMENT OF SCHOOL BUILDINGS.

Joseph L. Quinn has been employed as temporary architectural draftsman at $40 a week, for a period of ninety days.

INSTITUTIONS DEPARTMENT.

The following changes have been made for the week ending Thursday, June 14:

Long Island Hospital.

Appointments: John Dyer, engineer, temporary, $40 a week and board, on account of illness of Engineer Berg; Edward Jackson, institution employee, attendant, $600 a year; Dorothy Sears, institution employee, waitress, $316 a year; Joseph M. Coyle, institution employee, attendant, $600 a year.

Resignations: Elizabeth Corliss, institution employee, waitress, $316 a year, voluntary; Edward Monahan, institution employee, attendant, $600 a year, voluntary.

Course Completed: Jean McAllister, student nurse, $600 a year.

Employment Terminated: Mary M. Carter, institution employee, attendant, $600 a year.

Discharge: George H. Humphreys, institution employee, cook, $700 a year.

HEALTH DEPARTMENT.

Approval has been given for the permanent appointment of Harry A. O'Neill as food inspector at $1,600 a year (less reduction) or $1,440 a year, effective June 15.

HOSPITAL DEPARTMENT.

The following persons have been employed at the Boston City Hospital for the week ending Thursday, June 14:

Temporary.—Francis O'Neil, Phillip Wolf, baker's assistants, $16.63 a week; Marie Carlson, Samuel Odiorne, Douglas Spencer, special nurses, $29.75 a week.

East Boston Relief Station.

Eva Cunningham, temporary cleaner, $15 a week.

HOSPITAL DEPARTMENT (Sanatorium Division).

The following persons have been employed at the Sanatorium Division for the week ending Thursday, June 14:

Charles Cavanaro, William Allard, choremen (patients), $228 a year; Patrick Manning, Daniel O'Donnell, male nurses (patients) (temporary), $456 a year; James Cunniff, maid (patient) (temporary), $228 a year.

The following persons have ceased to be employed:

Louis Flavio, choreman (patient), $228 a year; Ellen Joyce, kitchenwoman, $9.98 a week.

LAW DEPARTMENT.

The following constables have been appointed employees of the Law Department: Kenneth W. Blennerhassett, Edmund B. Flaherty, effective Friday, June 15, at $1,700 ($2,000, reduced) a year.

OVERSEERS OF PUBLIC WELFARE.

Approval has been given for the continued provisional temporary employment of the following persons as junior social workers until June 21:

Ernest L. Adams, Leon Augonstas, Albert Beck, Eillen Birmingham, William A. Blais, Charles Brack, John J. Broderick, John Cahill, Anthony Cammerata, James D. Canan, Joseph Cannon, George Carter, Leo C. Christian, Richard Clancy, Leo Considine, John Cook, George P. Corcoran, John P. Costello, John B. Crimmins, Paul Cummings, Frank Cunningham, Thomas Cyrs, James C. Daly, Eunice M. Dargon, Edward Davidson, William J. Dawe, Joseph M. Deely, Walter Dennis, James P. Doherty, Thomas Doyle, David A. Duff, Walter B. Egan, Joseph G. Fallon, George Ferreira, Patrick Flavin, Warren D. Foley, Helen G. Ford, Robert M. Gallant, John Galvin, Walter Gillis, Arthur M. Gold, Thomas J. Grady, Allen Grant, Anthony Gross, Salvatore Guaragna, George F. Guittaud, William G. Gushee, Paul W. Halloran, Daniel Hannon, Donald Hargreaves, Edward Healy, Stephen Hill, Fred Hinds, Francis J. Hogan, Nathan Hurwitz, William Jacobs, Emily M. Johnson, William Johnson, Joseph F. Kane, Catherine H. Keane, Michael Keenan, James Kelly, Raymond E. Kratzer, David Leahy, William I. Leonard, Edmund Lockney, Mary F. Logan, James E. Lunny, Dennie McCadden, Austin J. McCarthy, Joseph McCarthy, Frank McGowan, Francis L. McGrath, Isaac McIsaac, James J. McKiernan, Frederick McLaughlin, Stephen J. McMahon, Joseph McManus, John McNulty, James Manion, William Martin, Frederick R. Mattern, Francis A. Mercer, John Mitchell, John Molineaux, William P. Monahan, Arthur Morrissey, John Mulvey, Albert Murphy, George Murphy, John H. Murphy, William Murphy, Walter Murray, Frank Neal, Frank Norton, Paul Norton, Walter O'Berle, John O'Brien, Mary E. O'Brien, William H. O'Brien, Timothy O'Leary, Joseph O'Neil, Frank Perrone, John C. Pigott, John Piscitelli, Leo Pitts, John Powers, Thomas Rawson, Joseph Reardon, A. P. Richards, Thomas Roberts, Thomas Ryan, Charles Salidas, Michael J. Sancella, Joseph Scally, Irving Seigal, John Shay, Frank Shea, Harry Sidman, Edmund P. Silk, Peter Sirgausa, Bernard F. Smith, Edna Smith, John F. Smith, John Stalker, Edward Steptoe, Catherine V. Sullivan, Leo Sullivan, Walter F. Sullivan, Arthur Sweeney, Edward Sweeney, Edwin T. Taylor, Harry Thompson, Agnes G. Towel, Bartholomew A. Trant, James L. Trayers, John Vaughn, William A. Walsh, William V. Ward, Harry Weber, Charles Weinberg, Charles West, Charles K. Williams, John Williams, Peter Winn.

Approval has been given for the appointment of the following persons as constables at $1,600 a year, from June 15, 1934: George J. Brackman, Arthur J. Driscoll, John Skelly, Herbert Timson.

PUBLIC WORKS DEPARTMENT (Sewer Service).

Approval has been given to transfer Henry F. Horadan, blueprinter at $1,700 a year, from the Boston Transit Department to the Sewer Divison as blueprinter at the same salary less 15 per cent reduction, to fill a vacancy, effective June 15.

REGISTRY DEPARTMENT.

Joseph A. Grover has been appointed constable, effective June 15, 1934, at $1,600 a year.

LIFE-GIVING PATRIOTISM IS LOCAL.

By civic patriotism is meant the feeling and the taking of a deep, unselfish, earnest, ever-wakeful, active interest in the affairs of one's own city or local community, regarding it as having an autonomy, a distinct personality, a name and interests of its own, and, if one pleases, endowed with a sense of personal honor and with all laudable ambitions for the promotion of the welfare of its people.

Where such civic virtues exist the local community will neither suffer from the dry-rot of public indifference and neglect nor become tainted with graft or corruption. Its life will be healthful, and, like the ocean, will be kept pure by its own ceaseless flow and movement. All life-giving patriotism is local.

Show a good municipal citizen and one will see a citizen who loves his state, and who loves his nation, and who will discharge all the duties of this triple relation. Good government in local affairs is the best assurance of good government in state and national affairs.

CHICAGO POLICE.

Although the numerical strength of the Chicago police department has been reduced in the last two years from approximately 6,700 to 6,000, the number of men on foot patrol has been increased 150 per cent, or about 1,900.

REPORT OF LILLIAN B. POOR, DIRECTOR OF KINDERGARTENS, ON ANNUAL CONVENTION OF THE ASSOCIATION FOR CHILDHOOD EDUCATION AT NASHVILLE.

The following is the report of the Forty-first Annual Convention of the Association for Childhood Education, in Nashville, May 2 to 5, inclusive, with a registration of over twelve hundred accepted by the School Committee from Lillian B. Poor, Director of Kindergartens.

This association represents the merging of two organizations, each of which was formed to promote better educational opportunities for young children—the International Kindergarten Union, organized in 1892, and the National Council of Primary Education, organized in 1915. The organization culminated in 1930 when the association was incorporated under the name "The Association for Childhood Education, Nursery, Kindergarten, Primary."

The membership in 1933 shows 2,595 contributing members, 18,000 branch members.

The united organization gives to the cause of early childhood education a more adequate support, gives to the teachers of young children a more integrated professional interest, and gives to the public a broader and clearer interpretation of the true meaning of progressive education for young children.

THE CONVENTION THEME.

The Child in a Changing Social Order.

The convention program was planned to meet situations familiar to the primary grades as well as to the pre-school group, and opened its first session with a new feature in the form of study classes, which met each morning under expert leadership and considered subjects essential in the construction of a curriculum based upon the child's development of social understanding. One class worked on Creative English, another on The Child and His Reading, one on Art for Young Children, and another on Curriculum Development.

A brief summary of the discussion in each group was presented at a joint session at the end of the class period. I quote from the findings of the group dealing with the Curriculum, which was under the direction of Dr. Laura Zirbes, University of Ohio:

"Teachers have in their hands untold power for the correct development of social understanding. We must be guided by a curriculum that is local in adaptation, but not local enough to promote sectionalism or provincialism. The local should merely be the starting point.

"The school must be made life-like in order to develop social understanding. In really vital life-like education false motions fall away. Continuity of work, when carried on with real purpose, is its own guarantee, and the teacher will not need to rely on complicated programs and charts.

"Teachers know now that the thing of most importance in the first grade is to permit children to live so they will feel the need for reading and writing. We should not insist on too much technique. All elementary subjects should reinforce each other and not be cut apart into separate units of reading, spelling and English. Experiences that will lead to social understandings and enrich the first school days are an aid to society and lead to abundant results in the three R's."

The afternoon sessions were given over in the main to the presentation of outstanding problems, their causes, and the remedial measures which had worked satisfactorily in certain localities.

We naturally heard long, interesting reports on the Emergency Nursery Schools. Harold H. Anderson, Director of the Iowa Child Welfare Research Station, spoke of this new branch of childhood education as the first active step ever taken by the Federal Government in the school system of the country. Seven thousand of these schools have been established in twenty-four states, and forty thousand children have benefited directly from the program.

It was also reported that Federal funds would be available for the continuation of these schools through the summer and winter. Dr. Walter D. Cocking, State Commissioner of Education, Tennessee, was quoted as lauding the government program as "an opportunity to try out new ideas in education." Miss Amy Hostler of the Nursery School Department, Western Reserve University, Cleveland, who conducted this conference, reported that in Texas, where she had recently made a tour of nursery schools, units had been established for the early training of Negro, Mexican and Indian, as well as for white children.

Many incidents were told showing the need which the nursery school movement had met in rural districts where school facilities are exceedingly limited. Personal conferences with leaders from several large cities brought out the grave uncertainty as to the value of the movement as now conducted in connection with the public schools. The lack of uniformity of entrance age which ran from two to seven years, the teachers untrained in nursery school procedure, the future maintenance of such classes—all these and other problems were discussed but not dealt with constructively in the general conference.

The conference on "Retaining the Kindergartens" in cities where conditions had arisen to jeopardize their retention was led by Miss Stella Wood of Minneapolis. Reports on what had been done in various localities were heard, and the following conclusions were reached as definite goals for kindergarten retention and expansion:

1. The kindergarten should be linked with the school system as an integral, not a frivoluos, part of the curriculum.

2. Teachers must respond to the general need of educating the public to an intelligent understanding and appreciation of what the kindergarten does for the development of the child.

3. Kindergarten and primary teachers should become conversant with school finance and legislation in their states and communities in order to talk intelligently with parents and other interested people.

4. The Association for Childhood Education through all its branches should study the problem of closer integration of the kindergarten and primary school in order that the kindergarten may be more definitely considered an integral part of the elementary school.

During the general sessions, addresses were given by Frank N. Freeman, University of Chicago, and Mrs. Arthur Shepherd, Cleveland College, on "Effects of Environment on the Child's Personality," each of whom enlarged on the great influence of environment in child development. Mrs. Shepherd, who is director of radio extension at Cleveland College, declared that from 15 to 25 per cent of a child's time is spent listening to the radio, and cited this as an outstanding opportunity to appeal to the child's natural instinct for beauty. She told of some of the methods being employed to develop radio programs for children to an instructive and beneficial status, giving much time to the problems which had been encountered and the difficulties which were being faced.

Interpretations of the teachers' duties to their communities and the reciprocal responsibility of the community to provide proper educational facilities were discussed by Henry J. Gerling, Superintendent of Instruction, St. Louis, Missouri, and by Burton Fowler of the Tower Hill private school, Wilmington, Delaware. Doctor Gerling traced the history of American ideals in education, and in comparing them with foreign educational systems, said, "We emerged from the formative period of American education with a desire to break away from limitatons of old traditions, a passion for individual rights, liberty and political independence. Today, with the N. R. A. and the other governmental restrictions, our teachers have as much to do in preserving those desires and rights as the frontier breakers did when they settled and carved their path to those ideals. There can be no let-down, if democracy is to survive."

Discussing the selling of schools to the public, he claimed that no system could satisfy a people insisting upon utilitarianism and immediacy. He recognized the general feeling of distrust for experts, but felt that if democracy is to survive it will do it only under the leadership of experts. "The expert looks into things minutely, and knows better how to handle the individual problems than one who is not well versed." That there was too much blind experimentation in the schoolroom, he agreed, and said that "loose experimentation was a trial-and-error method which might bring a little progress, but which in the long run was lost motion. The building of the curriculum under the new methods of teaching "too often has the result of making a fetish of the curriculum and too seldom a reality." The real basis of education, he considered, was the enlightened personalities of teachers. With such teachers we must make that "which is back of the curriculum carry the curriculum over into the field of reality."

Miss Grace Abbott, Chief of United States Children's Bureau, demanded more for the children than we have done in the past, her premise being that "it is too late to deal with a delinquent

child after he has been delinquent. The failures of the Juvenile Court are largely due to the early training of the child. Right training must begin in the early years of his life.

She claimed that "we have created delinquents in the home and in the street because we do not take time to understand the child."

Observers of the efforts being made to study into the causes of delinquency have come to the conclusion that the whole process of teaching should be to instruct children in the rules of living together, to teach them to understand and to respect the deep loyalties of home life.

Miss Abbott's subject was "The Young Child in the New Social Order," and in closing a forceful address she assured her audience that "it will not be a new social order unless we do more for the young child than we have done in the past."

Throughout the convention we were frequently reminded that the school was not meeting the demands of the day in its work for young children; that the time to guide a child most ably was during the early years of his development, a fact which we were prone to ignore; that a goal reached was not a place to sit down and rest, but rather a point to pass in the onward movement of life.

The attention of teachers should be fixed on the present needs of childhood and the enrichment of the daily experience of each child by such means as will enable him to meet the demands of the present social order with satisfaction. There has been a tendency to concentrate our energy on the effort to keep our schools "as fine as they always have been," holding to the standards of the past. But life is demanding more and more each day of the child. New skills, new habits, new physical and mental alertness—all play their part in his development. If the school fails to keep pace with the progress of the world, the social needs of our young children will not be met, and we will have failed to keep faith with our children.

Dr. John E. Stout, Dean of Education at Northeastern University of Cleveland, the last speaker on the program, gave a summary of the convention, which he termed "the Spirit of the 1934 Convention," and in which he spoke understandingly of the modern trend in today's demand on education which had been demonstrated so persistently and thoughtfully; but added, that here and there throughout the program there had been constant reminders of some rather old things of supreme value in this new world of which we are so distressingly aware.

"Children have possibilities which many may deny," said he. "I. Q.'s are not the sole arbiters of destiny. You have emphatically stated that ideas, ideals, attitudes and motives hold a high place in one's educational philosophy. You have declared your belief in the improvability of children through an improved environment, and have declared that spiritual forces are valuable in the achievement of spiritual values. You have recognized the fact that forces making for the betterment of conditions surrounding childhood are organized and being given intelligent devotion and courage.

"The very fact that twelve hundred delegates have assembled here, representing many thousands more, to consider the finest types of child development, shows your belief in the unity of child life and your faith in the future. You will carry back to your tasks renewed hope and courage to meet the problems which face the schools of today."

Interspersed between the items of the educational program were delightful musical entertainments. Each evening session was opened with a program of music. We heard the Fiske University Octet, the Nashville Conservatory of Music Orchestra, and the Mother Singers of Nashville. An organ recital preceded the Memorial Service—a service dedicated to those members of the association who had passed on during the year.

The social events were planned and directed by the three branches of the A. C. E. in Nashville. The true spirit of "Southern hospitality" was abroad in the land, and cordial welcomes were expressed at every turn.

It was an "Iris Convention," since Nashville is an "Iris City." There were iris badges for registration, visits to iris gardens of beautiful private estates, and as parting gifts iris bulbs wrapped in cellophane, to be planted in the gardens of the twenty-six states represented.

There were teas at Peabody College and at the Centenial Club in honor of the past presidents of the association; a dinner at which the guest speakers were the Southern pioneers in kindergarten education; a Southern barbecue which was served in real picnic style, and a visit to "The Hermitage," the home of Andrew Jackson, which set us all back a hundred years as we repeopled that wonderful mansion.

It was at these delightful occasions that we made those close contacts which are so vital in such a convention; for here there was an opportunity to exchange experiences and discuss the value of the contributions from the various speakers, as well as to promote good fellowship and fun.

At the closing business meeting, after the courtesy resolutions were passed, the association resolved:

I. That it acknowledge its appreciation of the recognition of the needs of little children through the authorization and establishment of Emergency Nursery Schools as a part of the F. E. R. A. program; that it stands firmly behind all branches and individuals in their effort toward kindergarten extension and retention where they are established under wholesome conditions; that the association extend every possible aid to the primary teachers in their effort to meet creatively the emergencies in primary education.

II. That the association, through all its branches, consider most thoroughly the problems of closer integration between the kindergarten and the primary school to the end that the kindergarten will be recognized as an integral part of the elementary education.

III. That the association for Childhood Education realizes the need for a new type of teacher-training which will enable the teacher to meet the needs of children and parents in a changing social order.

IV. That the Association for Childhood Education give critical thought and evaluation of all proposed child labor bills.

At this meeting the delegates from New England were given an opportunity to express their appreciation of the acceptance of the regional invitation to meet at Swampscott in 1935, and to assure the Association for Childhood Education that the hospitality of New England is excelled by none!

AMENDED DAMAGES.

The Mayor has approved the following votes of the Board of Street Commissioners:

Voted, That the order of the Street Commissioners and Mayor of May 15, 1933, determining that no person sustains damages by the making of the public improvement, consisting of the laying out of Bertram street, Brighton, be, and the same hereby is, amended, by striking out in the first and second lines of said order the words: "that no person sustains in his estate," and by striking out in the last line of said order the word: "no." That said order be further amended by adding thereto Arthur L. Goff, administrator of George H. King Estate, $61. That the amount $61 be, and the same hereby is, awarded to Arthur L. Goff, administrator of George H. King Estate, for the damages sustained by the making of the said improvement.

Voted, That the order of the Street Commissioners and Mayor of September 7, 1933, as amended, determining damages caused by the making of the public improvement consisting of the laying out of McKone (formerly Bertram) street, Dorchester, be, and the same hereby is, amended, by adding to said order the amount $12 as an award to Catherine Hanlon; that the amount $12 be, and the same hereby is, awarded to Catherine Hanlon for the damages so sustained.

Voted, That the order of the Street Commissioners and Mayor of December 30, 1932, determining damages caused by the making of the public improvement, consisting of the extension of Wilmington avenue, be, and the same hereby is, amended, by striking from said order the amount $25 awarded to Patrick J. Sheehan in said order and inserting in place thereof the amount $62.50; that the amount $62.50 be, and the same hereby is, awarded to Patrick J. Sheehan for the damages so sustained.

POPULATION OF UNITED STATES, NEW ENGLAND AND MASSACHUSETTS.

Continental United States (*i. e.,* 48 states and the District of Columbia) in 1930, 122,775,046; outlying possessions, 14,233,389; total, 137,008,435; New England, 8,166,341; Massachusetts, 4,249,614 or 52.04 per cent of New England and ranking eighth in the Union. In density of population Massachusetts ranks second, *i. e.,* 528 per square mile of land, Rhode Island ranking first, with 644 per square mile of land.

Population of the other New England States in 1930, ranking from the highest total: Connecticut, 1,606,903; Maine, 797,423; Rhode Island, 687,497; New Hampshire, 465,293; Vermont, 359,611. Density for New England, 132 per sq. m.; for U. S. (48 states and the District of Columbia) 41 per sq. m.

The population of the United States increased 16.1 per cent since 1920; that of New England 10.3 per cent and that of Massachusetts 10.3 per cent.

CONTRACTS AWARDED.

Permission to award contracts for work, materials and supplies, in accordance with recommendations of department heads, has been approved by the Mayor.

INSTITUTIONS DEPARTMENT.

Upon June 15 the Mayor approved a contract with the Rendle Contractors and Dock Builders Company for repairs to Front Wharf at Long Island. Bids were as follows:

Item 1, About 17 Piles and Stubs Removed.—Rendle Contractors and Dock Builders Company, unit price, $3, $51; W. H. Ellis & Son Company, unit price, $3, $51; Roy B. Rendle Company, unit price, $6, $102.

Item 2, About 24 Piles 55 Feet and Over in Length.—Rendle Contractors and Dock Builders Company, unit price, $40, $960; W. H. Ellis & Son Company, unit price, $49, $1,176; Roy B. Rendle Company, unit price, $50, $1,200.

Item 3, About 10,000 Feet B. M. 2-Inch Spruce Planking.—Rendle Contractors and Dock Builders Company, unit price, $70, $700; W. H. Ellis & Son Company, unit price, $96, $960; Roy B. Rendle Company, unit price, $100, $1,000.

Item 4, About 10,000 Feet B. M. 3-Inch and 4-Inch Y. P.—Rendle Contractors and Dock Builders Company, unit price, $90, $900; W. H. Ellis & Son Company, unit price, $105, $1,050; Roy B. Rendle Company, unit price, $130, $1,300.

Item 5, About 6,000 Feet B. M. Other Y. P.—Rendle Contractors and Dock Builders Company, unit price, $125, $750; W. H. Ellis & Son Company, unit price, $136, $816; Roy B. Rendle Company, unit price, $170, $1,020.

Item 6, About 100 Gallons Wood Preservative.—Rendle Contractors and Dock Builders Company, unit price, $1, $100; W. H. Ellis & Son Company, unit price, 90 cents, $90; Roy B. Rendle Company, unit price, $1, $100.

Item 7, About 800 Pounds Bolts, Etc.—Rendle Contractors and Dock Builders Company, unit price, 10 cents, $80; W. H. Ellis & Son Company, unit price, 10 cents, $80; Roy B. Rendle Company, unit price, 10 cents, $80.

Item 8, Total Amount Based on Estimated Quantities.—Rendle Contractors and Dock Builders Company, $3,541; W. H. Ellis & Son Company, $4,223; Roy B. Rendle Company, $4,802.

PUBLIC WORKS DEPARTMENT (Ferry Service).

Upon June 14 the Mayor approved a contract with Roy B. Rendle & Co., Incorporated, for removing and replacing head of middle pier and other minor repairs to the South Ferry, East Boston. The following bids were received June 7:

Roy B. Rendle & Co., Incorporated, $2,665; Rendle Contractors and Dock Builders Company, $2,840; W. H. Ellis & Son Company, $3,338.

PUBLIC WORKS DEPARTMENT (Water Service).

Upon June 14 the Mayor approved a contract with the Frank J. Jacobs Company for laying and relaying water pipes in Addington road, West Roxbury; and Tileston and Windsor streets, Hyde Park. The following bids were received June 8:

Frank J. Jacobs Company, $1,115; Roxbury Concrete Construction Company, Incorporated, $1,194.50; Keystone Engineering and Contracting Company, $1,295.75; John Williams, $1,245.10; M. DeSisto Company, $1,318.75; D. Federico and Giammarco Company,, $1,365; Appel & O'Toole Company, $1,427.60.

SUPPLY DEPARTMENT.

Upon June 14 the Mayor approved a contract with the Chauncy Clothing Company for furnishing men's clothing (500 three-piece suits) to the Long Island Hospital, Institutions Department. Bids, opened Monday, June 11, were as follows:

500 men's three-piece suits, summer weight, dark patterns, various sizes; material to be cold-water shrunk, and manufactured in Boston.

Per Suit of 3 Pieces.—Chauncy Clothing Company, Range No. 70, $9; total, $4,500; Range No. 20, $10; total, $5,000; Range No. 30, $12; total, $6,000; cash discount, ten days, one half of 1 per cent; no cash discount in auditor's copy of bid; A. I. Meyer, $9.50; total, $4,750; cash discount, ten days, 1 per cent.

—

Upon June 14 the Mayor approved a contract with the Klingrose Engineering Company for furnishing two emergency tractors, fully equipped, to the East Boston Tunnel, Ferry Division. Bids, opened Friday, June 1, were as follows:

2 Emergency Tractors, Fully Equipped, Built in Accordance with Specifications.—Highland Engineering Company, $6,600; Engineering Equipment Corporation, $11,360; cash discount, ten days, 2 per cent; Klingrose Engineering Company, $6,000; cash discount, ten days, 2 per cent; Silent Hoist Winch and Crane Company, $6,418; cash discount, ten days, 1 per cent.

WITHOUT ADVERTISING.

Upon varying dates as indicated the Mayor has approved contracts with the several firms indicated for supplies and work. Communications from the heads of the departments interested were as follows:

PUBLIC WORKS DEPARTMENT.

BOSTON, June 12, 1934.

To the Mayor of Boston.

Your approval is respectfully requested to the award of a contract, without advertising, to Edward J. Byrne, 89 State street, Boston, for replacing the granite block pavement with grouted joints on concrete base, removed in constructing the sewer in Savin Hill avenue, between Dorchester avenue and Treadway road, Dorchester, at an estimated cost of $1,750; 250 square yards at $7 per square yard.

This estimate is based on Mr. Byrne's price for patch paving permanent pavement in this district, his contract price being $7 per square yard.

The city replaces permanent pavement over sewer trenches, and as this location is one where heavy vehicular traffic passes this work should be undertaken as soon as possible.

Respectfully,

C. J. CARVEN,
Comissioner of Public Works.

SUPPLY DEPARTMENT.

BOSTON, June 15, 1934.

HON. FREDERICK W. MANSFIELD,
Mayor of Boston.

DEAR SIR,—In accordance with your permission approved under date of March 22, 1934, and extended under date of June 13, 1934, under which authority was given me to place orders for material or equipment needed for F. E. R. A. activities, where the value of such purchases exceeded $1,000, without the formality of advertising, I would ask that authority be granted me to award a contract to the Federal Steam and Gas Supply Company, the lowest bidder, for furnishing to the Boston City Hospital plumbing supplies at a total price of $1,631.58. The total bids of the various bidders are as follows:

Daly Plumbing Supply Company, $1,745.28, 2 per cent, ten days; Atlantic Pipe and Supply Company, $1,745.28; Federal Steam and Gas Supply,Company, $1,631.58, 2 per cent, ten days; Crane Company, $1,325.76, 2 per cent, 10th proximo.

The Crane Company omitted to bid on two of the items in the list amounting to $362.88.

Respectfully yours,

WARREN W. LOOMIS,
Superintendent of Supplies.

—

BOSTON, June 15, 1934.

HON. FREDERICK W. MANSFIELD,
Mayor of Boston.

DEAR SIR,—In accordance with your permission approved under date of March 22, 1934, and extended under date of June 13, 1934, under which authority was given me to place orders for material or equipment needed for F. E. R. A. activities, where the value of such purchases exceeded $1,000, without the formality of advertising, I would ask that authority be granted me to award a contract to the Massachuestts Welding Company, the lowest bidder, for furnishing two welding machines at a price of $25 each per day.

These welding machines are in use at the Boston City Hospital and I would request that the contract covering the rental be extended until further notice from this department. Bids were as follows:

2 Welding Machines.—Atlas Iron Works, $32 each, $64; Carilli Construction Company, $30 each day, $60; Massachusetts Welding Company, $25 per day, $50.

Respectfully yours,

WARREN W. LOOMIS,
Superintendent of Supplies.

—

BOSTON, June 15, 1934.

HON. FREDERICK W. MANSFIELD,
Mayor of Boston.

DEAR SIR,—In accordance with your permission approved under date of March 22, 1934, and extended under date of June 13, 1934, under which authority was given me to place orders for material or equipment needed for F. E. R. A. activities, where the value of such purchases exceeded $1,000, without the formality of advertising, I would ask that authority be granted me to award a contract to the Massachusetts Welding Company, the lowest bidder, for furnishing three compressors at a price of $18 each per day.

These compressors are in use at the Boston City Hospital and I would request that the contract covering the rental be extended until further notice from this department. Bids were as follows:

3 Compressors.—Atlas Iron Works, $25 per day, $75; Massachusetts Welding Company, $18 per day, $54; Carilli Construction Company, $22.50, $67.50.

Respectfully yours,

WARREN W. LOOMIS,
Superintendent of Supplies.

SUPPLY DEPARTMENT

BOSTON, June 15, 1934.

HON. FREDERICK W. MANSFIELD,
Mayor of Boston.

DEAR SIR,—In accordance with your permission approved under date of March 22, 1934, and extended under date of June 13, 1934, under which authority was given me to place orders for material or equipment needed for F. E. R. A. activities where the value of such purchases exceeded $1,000, without the formality of advertising, I would ask that authority be granted me to award a contract to A. Burkhardt, the lowest bidder, for furnishing three 5-ton dump trucks, with operator, at a price of $16 each per day, and two 10-ton dump trucks, with operator, at a price of $20 per day.

These trucks are in use at the Boston City Hospital and I would request that the contract covering the rental be extended until further notice from this department. Bids were as follows:

2 5-Ton Dump Trucks, with Operator.—J. J. Marten, $6 per hour; A. Burkhardt, $16 each, $32; M. M. McGinnis, $20 each, $40.

1 5-Ton Dump Truck, with Operator.—J. J. Marten, $3 per hour; A. Burkhardt $16 each, $16; M. M. McGinnis, $20 each, $20.

2 10-Ton Drmp Trucks, with Operator.—J. J. Marten, $1 per hour; A. Burkhardt, $20 per day, $40; M. M. McGinnis, $30 each, $60.

Respectfully yours,

WARREN W. LOOMIS,

Mayor of Boston.

DEAR SIR.—In accordance with your permission approved under date of March 22, 1934, and extended under date of June 13, 1934, under which authority was given me to place orders for material or equipment needed for F. E. R. A. activities where the value of such purchases exceeded $1,000, without the formality of advertising, I would ask that authority be granted me to award a contract to the Patent Scaffolding Company for the rental of twenty patent scaffoldings at a price of $5 per week.

This company is the only one making the particular type of scaffolding required for the work in progress at the Boston City Hospital.

These scaffoldings are in use at the Boston City Hospital and I would request that the contract covering the rental be extended until further notice from this department.

Respectfully yours,

WARREN W. LOOMIS,
Superintendent of Supplies.

TO OMIT AND SUBSTITUTE WORK UNDER CONTRACT.

Appel & O'Toole Company have been directed to omit and substitute the following work under the contract for laying bitulithic pavement in Hillsboro road, from Hazleton street to Ormond street. Items ordered: Omit crushed stone and concrete under edgestone and substitute a foundation of gravel that will be 4 inches thick after being thoroughly rammed. This contract called for the setting of edgestones 5 inches by 16 inches, and it is now changed to an edgestone 7 inches by 18 niches. Edgestone to be furnished by the city. No increase or decrease in cost.

POLICE DEPARTMENT ORDERS.

General Order No. 502.

Sergt. Ferdinand E. Breed of Division 15 having performed faithful service in the Police Department for twenty-two and ten-twelfths years, having made application to be retired from active service, the Medical Board provided for by section 18 of chapter 521, Acts of 1922, having certified that the said Sergeant Breed is physically incapacitated for useful service in the Police Department, it is hereby

Ordered, His Honor the Mayor having approved the same, that the said Sergeant Breed be retired Saturday, June 16, 1934, at 7.45 o'clock a. m., from active service in the Police Department under the provisions of chapter 353, Acts of 1892, as amended by chapter 6, Acts of 1920, and chapter 387, Acts of 1930, and that his name be placed upon the department pension roll with pay at the rate of twelve hundred and fifty (1,250) dollars per annum (payable monthly), said sum being one half of the amount of compensation received by said Sergeant Breed in the office from which he is retired, previous to a 15 per cent reduction in pay, which went into effect April 21, 1933.

Note.

Under the provisions of chapter 121, Acts of 1933 (having to do with reductions in pay), provision is made for retirement for those in a non-contributory system, at half of the rate of compensation received before such reduction.

The Superintendent of Police will promulgate this order.

EUGENE C. HULTMAN,
Commissioner.

General Order No. 503.

It gives the commissioner great pleasure to publish the following letter for the information of the department:

CHANCELLOR'S OFFICE,
LAKE STREET,
BRIGHTON, MASS.
June 12, 1934.

COMMISSIONER EUGENE C. HULTMAN,
Police Headquarters.

DEAR COMMISSIONER HULTMAN,—The committee in charge of the observance of the Golden Jubilee of Ordination of His Eminence Cardinal O'Connell wish to express to you and your department their deep appreciation of the magnificent work of the police of Boston during the three days of celebration.

The committee feel that the efficiency of your department in carrying out their various assignments in connection with the celebration contributed in no small measure to the great success of the jubilee and the committee will greatly appreciate it if you will be so good as to convey to the Police Department the sincere gratitude of the committee.

The committee wish to express to you the profound gratitude of his Eminence the Cardinal.

Very sincerely yours,

F. L. PHELAN,
Secretary of the Committee.

The Superintendent of Police will promulgate this order.

EUGENE C. HULTMAN,
Commissioner.

General Order No. 504.

The report entitled "Return A, Monthly Return of Offenses Known to the Police," for the month of May, has been forwarded to Mr. J. E. Hoover, Director, Division of Investigation, Department of Justice, Washington, D. C.

This monthly return is composed of the following offenses:

1. Criminal Homicide.
   a. Murder and non-negligent manslaughter.
   b. Manslaughter by negligence.
2. Rape. (Abuse of female child.) (Rape, assault to.)
3. Robbery (assault to, robbery armed and unarmed).
4. Aggravated assault (assault and battery with dangerous weapon, mayhem). (Assault with intent to murder).
5. Burglary—breaking and entering.
6. Larceny—theft (except auto theft):
   a. $50 and over in value.
   b. Under $50 in value.
7. Auto theft (larceny of automobile and attempted larceny of automobile).

Divisions of this department reported on the above-mentioned offenses collectively for the month of May as follows:

DIVISION.	Number of Offenses Reported.	Unfounded.	Actual.	Cleared.	Per Cent Cleared.
9	185	84	101	92	91.08
7	22	5	17	15	88.23
10	99	23	76	57	75.00
13	26	4	22	16	72.72
1	64	40	24	17	70.83
6	58	16	42	27	64.28
2	104	45	59	36	61.01
4	141	63	78	47	60.25
16	105	51	54	28	51.85
15	45	13	32	14	43.75
18	14	2	12	5	41.66
11	71	32	39	16	41.02
14	52	25	27	11	40.74
17	37	13	24	6	25.00
19	58	28	30	7	23.33

It will be noted upon examination of the percentage of cases cleared by the various divisions that Division 9 again leads all the divisions in obtaining the highest mark.

The attention of the inspectors of divisions and commanding officers is again called to the number of larceny cases reported for the month of May involving amounts up to $100 in value, and also the number of breaking and entering cases that have not been cleared by some divisions, which materially decreased the percentage of cases cleared by some divisions that otherwise would have had a higher rating.

The following percentage of cleared cases represents the combined averages of divisions by districts:

	Per Cent Cleared.
District C: (Divisions 4, 6, 9, 10 and 11)	66.33
District B: (Divisions 1, 2, 7, 15 and 16)	63.13
District A: (Divisions 13, 14, 17, 18 and 19)	40.69

The commissioner is pleased to note the general steady improvement shown by many divisions in the percentage of cases cleared for this month over the preceding months, especially with respect to the clearance of felony cases.

The Superintendent of Police will promulgate this order.

EUGENE C. HULTMAN,
Commissioner.

General Order No. 505.

Sergt. Walter G. Horton of Division 18 having arrived at the age of sixty-five and four-twelfths years and having performed faithful service in the Police Department for thirty-eight and eight-twelfths years, it is hereby

Ordered, His Honor the Mayor having approved the same, that the said Sergeant Horton be retired from active service and that his name be placed upon the department pension roll with pay at the rate of twelve hundred sixty-two and fifty one-hundredths (1,262.50) dollars per annum (payable monthly), said sum being one half of the amount of compensation received by him in the office from which he is retired, previous to a 15 per cent reduction in pay, which went into effect April 21, 1933.

Note.

By chapter 121, Acts of 1933 (having to do with reductions in pay), provision is made for the retirement for those in a non-contributory system, at half of the rate of compensation received before such reduction.

The retirement of Sergeant Horton as herein provided, will take effect at 7.45 o'clock a. m., Saturday, June 16, 1934.

The Superintendent of Police will promulgate this order.

EUGENE C. HULTMAN,
Commissioner.

General Order No. 506.

By authority conferred upon the Police Commissioner by law, Patrolman John F. Brown of Division 11, charged with conduct unbecoming an officer, untruthfulness and violation of law, was dismissed from the Police Department, effective as of June 12, 1934, at 7.45 o'clock a. m.

Written notice of such dismissal with the reasons therefor was duly and specifically given in hand on June 12, 1934, to the said John F. Brown.

The Superintendent of Police will promulgate this order.

EUGENE C. HULTMAN,
Commissioner.

General Order No. 507.

The following executive order is published for the information of the department:

CITY OF BOSTON,
OFFICE OF THE MAYOR,
CITY HALL.

[Seal.]

FREDERICK W. MANSFIELD,
Mayor.

EXECUTIVE ORDER.

By virtue of the authority granted to me by the provisions of chapter 228 of

the Acts of the year 1934, I, as Mayor of the City of Boston, do hereby order and direct that the annual increments provided for in the sliding scales of salaries which were most recently operative prior to the year 1934 with respect to every office and position in the service of the City of Boston, other than in the School Department, and in the service of the County of Suffolk, the salary of which is paid from the treasury of the City of Boston, be, and hereby are, reinstated as of and from January 1, 1934; provided, however, that such salaries as so increased shall be subject to the same percentage of salary reductions as that to which other salaries of equal amount have been subjected pursuant to the provisions of chapter 121 of the Acts of the year 1933.

By order of

FREDERICK W. MANSFIELD, *Mayor.*

Dated June 9, 1934.

The Superintendent of Police will promulgate this order.

EUGENE C. HULTMAN,
Commissioner.

General Order No. 508.

The attention of division commanders is called to section 22 of Rule 24, Police Rules and Regulations, General Order No. 159, issued February 9, 1933, in reference to stables, wagon houses and garages.

Said section 22 of Rule 24, Police Rules and Regulations, as issued in General Order 159, February 9, 1933, is hereby amended so as to read as follows:

Three men shall be detailed at each division for permanent duty as drivers of patrol wagons. Permanent day duty shall be forthwith established in each division, so that the day driver *shall not*, hereafter, alternate with the night drivers. The two night drivers shall alternate with each other, so that the officer on duty first half of tonight shall be on duty last half of tomorrow night, and the officer on last half tonight shall be on duty first half of tomorrow night.

The hours of duty shall hereafter be as follows:

Day drivers 8 a. m. to 6 p. m.

Night drivers 6 p. m. to 1 a. m. and 1 a. m. to 8 a. m.

The Superintendent of Police will promulgate this order.

EUGENE C. HULTMAN,
Commissioner.

RECREATION, ADEQUATE AS TO KIND AND AVAILABILITY.

Although the ratio of park acreage to population has been used as the simplest measure of the extent to which cities provide areas for the recreation of their people, it is by no means an accurate basis for determining this. If most of the total acreage is in one large park, if the parks are poorly distributed, or if they do not provide various types of recreation facilities, the park system may be inefficient even though the acreage is large. The efficiently *planned* park and recreation system will involve balanced relationship and well-distributed location of several types of properties, namely, children's playgrounds, neighborhood playfield parks, neighborhood parks, reservations, boulevards, and parkways.

(Bureau of Labor Statistics, Publication No. 462.)

URBAN POPULATION, APRIL 1, 1930.

As defined by the Census Bureau, the urban population is, in general, that residing in cities and other incorporated places having 2,500 inhabitants or more, the remainder being classified as rural.

The total urban population of the UNITED STATES is 68,954,823 (34,154,760 males and 34,800,063 females), of whom 62,836,605 (31,162,570 males and 31,674,035 females) are white; of these whites 52,109,746 (25,520,483 males and 26,589,263 females) are native; 33,497,232 (16,515,816 males and 16,981,416 females) of these latter are of native parentage and 18,612,514 (9,004,667 males and 9,607,847 females) are of foreign or mixed parentage; there are 10,726,859 (5,642,087 males and 5,084,772 females) foreign-born white; there are 5,193,913 (2,479,158 males and 2,714,755 females) Negroes; other races, 924,305 (513,032 males and 411,273 females).

The urban population is 56.2 per cent of the total population of the country; native white, 54.6 per cent and foreign-born white, 80.3 per cent; Negroes, 43.7 per cent.

The total urban population of New England is 6,311,976 or 77.3 per cent of the total population of New England. Of the 4,660,339 native white, 2,089,031 are of native parentage and 2,571,308 are of foreign or mixed parentage; foreign-born whites number 1,564,769; Negro, 81,443; other races, 5,425.

A SQUARE DEAL IN ASSESSMENTS FOR TAXATION.

Many cities are finding it greatly to their advantage to have their tax valuations periodically overhauled. The first criterion of any assessment is equity. For every citizen who wants through "pull" or however else to get off easy, there are twenty, nay a hundred, who want a fair and square deal for all.

The appraisal of city real estate is a highly technical affair.

Few things are more important than the equalization of assessments. Particularly in cities that are cramped by an inflexible debt or tax limit, an honest, full value assessment may be a great boon. Without the slightest raise in the tax rate a substantially greater tax yield may be had.

FOREIGN-BORN WHITES, 1930, WITH COUNTRY OF BIRTH.

Total foreign-born whites, 229,356 or 9,563 less than in 1920. Born in Ireland, 50,381 (6,630 less than in 1920), 6,449 of these being born in Northern Ireland; in Canada, 45,558 (3,550 increase); Italy, 36,274 (1,905 decrease from 1920); Russia, 31,359 (6,662 decrease); England, 10,316 (2,092 decrease); Poland, 9,903 (2,253 increase); Lithuania, 5,869; Scotland, 5,637 (558 increase); Sweden, 5,432 (1,348 decrease); Germany, 5,381 (534 decrease); Greece, 3,416 (362 increase); all others, 19,830.

SCHOOL ATTENDANCE FOR SUFFOLK COUNTY.

Number of children 7-13 years old, 105,675, of whom 104,085, or 98.5 per cent, were attending school; 14 and 15 years, 29,662, of whom 28,256, or 95.3 per cent, were attending school; 16 and 17 years, 29,902, of whom 19,453, or 65.1 per cent, were attending school; 18-20 years, 47,103, of whom 12,395, or 26.3 per cent, were attending school; total children 7 to 20 years old, 212,342, of whom 164,189, or 77.3 per cent, were attending school.

PROCEEDINGS OF CITY COUNCIL.

Monday, June 11, 1934.

Regular meeting of the City Council in the Council Chamber, City Hall, at 2 p. m., President DOWD in the chair and all the members present.

APPROPRIATION FOR MUNICIPAL EMPLOYMENT BUREAU.

The following was received:

City of Boston,
Office of the Mayor, June 11, 1934.

To the City Council.

Gentlemen,—I am advised by the director of the Municipal Employment Bureau that the appropriation authorized for the running expenses of the Bureau in the early part of the year will be exhausted on or about the end of the current week.

Since, in my opinion, the Bureau, as at present organized, is doing a worth-while work, I submit herewith an order providing for a further allotment from the Reserve Fund of $2,000. It is estimated that this amount will be sufficient to continue the activities of the Bureau until approximately the end of next September.

I respectfully recommend adoption by your honorable body of the accompanying order.

Respectfully,
FREDERICK W. MANSFIELD, Mayor.

Ordered, That the sum of $2,000 be, and hereby is, appropriated, to be expended by the Municipal Employment Bureau, under the direction of the Mayor, in the prosecution of its duties, said sum to be charged to the Reserve Fund when made.

Referred to Executive Committee.

EXCURSIONS, RANDIDGE FUND.

The following was received:

City of Boston,
Office of the Mayor, June 11, 1934.

To the City Council.

Gentlemen,—The chairman of the Park Commissioners informs me that an appropriation of $5,000 will be required for transportation and incidental expenses in connection with excursions to be arranged under the Randidge Fund for children in various sections of the city. I believe this to be a project of exceptional merit and accordingly am submitting herewith an order providing for the appropriation of the necessary amount, the same to be charged to the Reserve Fund.

I respectfully recommend adoption of the accompanying order by your honorable body.

Respectfully,
FREDERICK W. MANSFIELD, Mayor.

Ordered, That the sum of $5,000 be, and the same hereby is, appropriated, to be expended by the Board of Park Commissioners, for recreation purposes, by the transporting of children from the various parts of the city to certain recreational centers within and without the limits of the city, and for other incidental expenses in connection therewith, said sum to be charged to the Reserve Fund when made.

Referred to Executive Committee.

TRANSFER FOR AQUARIUM.

The following was received:

City of Boston,
Office of the Mayor, June 11, 1934.

To the City Council.

Gentlemen,—I am advised by the chairman of the Park Commissioners that it is desirable to make additions to the collection of tropical fish at the Aquarium in South Boston. The life span of the majority of fish of this character at the Aquarium is about two years, and since no collection has been made since 1932 the exhibits of tropical fish are very low. It is estimated that approximately $1,000 will be required in order to replenish the Aquarium collection. This expense will include the cost of men and equipment used in the collection of the fish in southern waters, as well as the cost of an express car for the transportation of the fish to the Aquarium.

At the present time the special appropriation is practically exhausted, and in order that necessary funds may be available, I submit herewith an order providing for the transfer of $1,000 from the appropriation for Highland Park, Improvements, etc., to the special appropriation for Animals, Birds, etc. In the opinion of the chairman of the Park Commissioners, the amount being transferred is not required in the Highland Park appropriation. In order that there may be no undue delay in replenishing the Aquarium collection, I respectfully recommend immediate consideration and adoption of the accompanying order by your honorable body.

Respectfully,
FREDERICK W. MANSFIELD, Mayor.

Ordered, That under authority of chapter 261 of the Acts of 1893 the City Auditor be, and hereby is, authorized to transfer:

From the appropriation for Highland Park, Improvements, etc., $1,000, to the appropriation for Animals, Birds, etc., $1,000.

Referred to Executive Committee.

APPOINTMENTS BY THE MAYOR.

Subject to confirmation by the Council, the Mayor submitted the following appointments, viz.:

Weighers of Goods: Paul Dalmasa, 79 Lewis street, Everett, Mass.; Robert Fuller, 132 Waverly street, Everett, Mass.

Severally laid over a week under the law

EAST BOSTON STREET LIGHTING SYSTEM.

The following was received:

City of Boston,
Office of the Mayor, June 6, 1934.

To the City Council.

Gentlemen,—I transmit herewith a letter from the Commissioner of Public Works, relative to your order of March 26, 1934, concerning a survey of the street lighting system in East Boston, and information as to comparative costs of electric and gas lights on Bennington and Saratoga streets.

Respectfully,
FREDERICK W. MANSFIELD, Mayor.

City of Boston,
Public Works Department,
June 4, 1934.

Hon. Frederick W. Mansfield,
Mayor of Boston.

Dear Sir,—I beg leave to acknowledge receipt of order of City Council dated March 26, 1934, reading:

Ordered, That the Commissioner of Public Works be requested, through his Honor the Mayor, to make a survey of the present street lighting system in East Boston, and to furnish the City Council with the following information:

1. The number of gas lamps on Bennington street and Saratoga street.
   a. There are sixty-nine gas lamps now existing on Bennington street and Saratoga street.
2. When does the present contract with the Boston Consolidated Gas Company for furnishing gas lighting in the East Boston district expire?
   a. The present contract with the Boston Consolidated Gas Company expires September 30, 1934.
3. The number of electric lamps on Bennington street and Saratoga street.
   a. There are fifty-five electric lamps on Bennington street (Bremen to Saratoga streets) and on Saratoga street for the entire length.
4. What is the cost per annum of electric lamps on Bennington street and Saratoga street
   a. The total cost per annum for electric lamps on Bennington street and Saratoga street is $4,622.60.
5. What is the total cost of gas lamps per annum on Bennington and Saratoga streets?
   a. The total cost per annum for gas lamps on Bennington and Saratoga streets is $1,595.28.
6. The advisability of substituting electric lighting in place of gas lighting on Bennington and Saratoga streets.
   a. Net increase per annum caused by substituting electric lighting for gas lighting as below:

Bennington street	$929 42
Saratoga street	1,269 40
	$2,198 82

There is also an estimate of $1,272 for relocation of existing lamps on both streets named above in connection with proposed new electric lay-out.

Respectfully,
C. J. CARVEN,
Commissioner of Public Works.

Placed on file.

WELFARE VISITORS, WARD 1.

The following was received:

City of Boston,
Office of the Mayor, June 7, 1934.

To the City Council.

Gentlemen,—I transmit herewith a letter from the Overseers of the Public Welfare, relative to your order of April 30, 1934, concerning the number of visitors assigned to and actively doing work in Ward 1 at stated periods.

Respectfully,
FREDERICK W. MANSFIELD, Mayor.

City of Boston,
Overseers of the Public Welfare,
May 25, 1934.

Hon. Frederick W. Mansfield,
Mayor of Boston.

Dear Sir,—The following reply is respectfully submitted to the Council order dated April 30, 1934, which reads as follows:

That the Overseers of Public Welfare be instructed, through his Honor the Mayor, to advise the City Council forthwith:

1. The number of visitors assigned to and actively doing work in Ward 1 during December 1933, together with the name of each visitor.
2. The number of visitors assigned to and actively doing work in Ward 1 during April, 1934, together with the name of each visitor.
3. The number of visitors assigned to and actively doing work in Ward 1 as of April 1, 1934, together with the name of each visitor.

Answers.

1. Ten visitors:
John J. Connelly, Howard F. Rooney, Edward H. Grant, Harry F. Sidman, Edmund D. Lockney, Doris Sevel, Paul L. Norton, Isaiah L. Hinckley, Joseph M. Foley, Peter Siragusa, Alice V. Nolan, John J. McKeon.
2. Twelve visitors:
Howard F. Rooney, Edward H. Grant, Harry F. Sidman, Edmund D. Lockney, Doris Sevel, Paul L. Norton, Mary E. Robertson, Isaiah L. Hinckley, Joseph M. Foley, Peter Siragusa, Francis J. Hogan, Alice V. Nolan.
3. Twelve visitors:
Howard F. Rooney, Edward H. Grant, Harry F. Sidman, Edmund D. Lockney, Doris Sevel, Paul L. Norton, Mary E. Robertson, Isaiah L. Hinckley, Joseph M. Foley, Peter Siragusa, Francis J. Hogan, Alice V. Nolan.

Respectfully,
WALTER V. MCCARTHY,
Executive Director.

Placed on file.

CHECKING OF WELFARE CASES.

The following was received:

City of Boston,
Office of the Mayor, June 7, 1934.

To the City Council.

Gentlemen,—I transmit herewith a letter from the Overseers of the Public Welfare, relative to your order of April 30, 1934, concerning the most recent date when all cases still active on the Public Welfare lists, as of April 1, 1934, in Ward 1, were personally visited or otherwise checked up by any visitor of the Public Welfare Department.

Respectfully,
FREDERICK W. MANSFIELD, Mayor.

City of Boston,
Overseers of the Public Welfare,
May 25, 1934.

Hon. Frederick W. Mansfield,
Mayor of Boston.

Dear Sir,—The following reply is respectfully submitted to the Council order dated April 30, 1934, which reads as follows:

That the Overseers of Public Welfare be instructed, through his Honor the Mayor, to advise the City Council forthwith as to what most recent date all cases still active on the Public Welfare lists as of April 1, 1934, in Ward 1, have been personally visited or otherwise checked up by any visitor of the Public Welfare Department.

Answer.

Commencing December 16, 1933, and for a period of three weeks, every case in Ward 1 was visited and checked up and in the ordinary visiting routine the major number of cases in Ward 1 have been visited or checked up since that period.

Respectfully,
WALTER V. MCCARTHY,
Executive Director.

Placed on file.

NON-SETTLEMENT AID RECIPIENTS.

The following was received:

City of Boston,
Office of the Mayor, June 7, 1934.

To the City Council.

Gentlemen,—I transmit herewith a letter from the Overseers of the Public Welfare, relative to your order of April 30, 1934, concerning non-settlement aid recipients, and also concerning Boston settled cases receiving aid in other cities and towns.

Respectfully,
FREDERICK W. MANSFIELD, Mayor.

City of Boston,
Overseers of the Public Welfare,
May 25, 1934.

Hon. Frederick W. Mansfield,
Mayor of Boston.

Dear Sir,—The following reply is respectfully submitted to the Council order dated April 30, 1934, which reads as follows:

That the Overseers of Public Welfare be instructed, through his Honor the Mayor, to advise the City Council forthwith:

1. The number of recipients of aid from that department still receiving aid as of April 1, 1934, who have not been residents of Boston for five consecutive years prior thereto.
2. Exactly what efforts, if any, have been made by the Public Welfare Department to have the proper city or town of settlement reimburse the City of Boston for any and all payments made to such recipients during the past five years.
3. What amount, if any, was collected during 1933 from other cities and towns to reimburse the City of Boston for aid given.
4. What amount, if any, the City of Boston paid during 1933 to reimburse other cities and towns for welfare aid.

Answers.

1. 1,422 cases as of April 1, 1934.
2. A special division within the department in charge of a supervisor and six assistants handle all questions concerning cities and towns. This work entails the sending of legal notices to the city or town of settlement on all cases being aided in Boston where there is the possibility of a settlement elsewhere. In like manner, this division is chargeable with the duty of denying liability on notices received from other cities and towns in all cases where definite proof has not been established by the notifying city or town of a legal settlement in the City of Boston. During the five-year period January 1, 1929, to December 31, 1933, the department collected the sum of $388,622.24 from other cities and towns for relief to families and hospital care, and during the same period paid other cities and towns the sum of $271,803.96.
3. The amount collected from cities and towns for relief to families and hospital care during 1933 amounted to $90,199.12.
4. The amount paid to cities and towns for relief to families and hospital care during 1933 amounted to $57,496.54.

Respectfully,
WALTER V. McCARTHY,
Executive Director.

Placed on file.

INFORMATION FROM RECIPIENTS OF AID.

The following was received:

City of Boston,
Office of the Mayor, June 7, 1934.

To the City Council.

Gentlemen,—I transmit herewith a letter from the Overseers of the Public Welfare, relative to your order of April 30, 1934, concerning certain information to be obtained from every recipient of aid in Ward 1.

Respectfully,
FREDERICK W. MANSFIELD, Mayor.

City of Boston,
Overseers of the Public Welfare,
May 25, 1934.

Hon. Frederick W. Mansfield,
Mayor of Boston.

Dear Sir,—The following reply is respectfully submitted to the Council order dated April 30, 1934, which reads as follows:

That the Overseers of Public Welfare be instructed, through his Honor the Mayor, to obtain from every recipient of aid in Ward 1, not later than May 10, 1934,

1. The signature of the recipient.
2. The present residence address of the recipient.

Answers.

1. The signature of each recipient of relief residing in Ward 1 has been secured and is a matter of record in the office.
2. The present address of each recipient in Ward 1 has been secured and is a matter of record in the office.

Respectfully,
WALTER V. McCARTHY,
Executive Director.

Placed on file.

CONVALESCENT HOSPITAL PROPERTY.

The following was received:

City of Boston,
Office of the Mayor, June 11, 1934.

To the City Council.

Gentlemen,—I transmit herewith a letter from the Board of Trustees of the Boston City Hospital, relative to your orders of April 30, 1934, concerning the disposition of the so-called Convalescent Hospital property on Dorchester avenue.

Respectfully,
FREDERICK W. MANSFIELD, Mayor.

City of Boston,
Hospital Department, May 24, 1934.

Hon. Frederick W. Mansfield,
Mayor of Boston.

Dear Mr. Mayor,—At a meeting of the Board of Trustees held today, two orders adopted by the City Council on April 30 were presented, one in which the trustees are requested to provide for an early sale of the so-called Convalescent Hospital property on Dorchester avenue, and the other requesting the trustees to open the hospital.

The trustees have in the past given careful consideration to the reopening of the Convalescent Home, and further consideration was given at today's meeting.

The annual cost of maintaining the Convalescent Home during the last five years that the home was open averaged $20,364.48.

While the home could normally care for thirty-four persons, it was rarely more than half filled, due to the difficulty in persuading patients who were about to be discharged from the Boston City Hospital to go there for convalescence.

The trustees, therefore, have again decided not to reopen the home and believe that it would be wise to dispose of same.

Yours sincerely,
JOSEPH P. MANNING,
President, Board of Trustees.

Placed on file.

Later in the session Coun. MURRAY requested that the message in regard to the Convalescent Hospital property on Dorchester avenue be read again. This was done.

Coun. MURRAY—Mr. President, in answer to that report of the trustees in regard to the disposition of the Convalescent Hospital property on Dorchester avenue, I think the Trustees of the City Hospital and the Mayor are inconsistent, inasmuch as they claim that the City Hospital is being greatly handicapped in caring for the chronic sick, with all the other work it has to do, but instead of fixing up this Convalescent Hospital, the only one of the kind in the City of Boston, they now refuse to do anything about it. We now have no Convalescent Hospital, and I suppose if anybody is convalescing there is nothing for him or her to do but go out on the street and die or go down to Long Island.

Coun. FISH—Mr. President, I just want to agree with my colleague when he says that the Hospital Trustees and the Mayor of Boston are inconsistent, owing to the fact that this is the only convalescent hospital we have in Boston, and that our own City Hospital is overcrowded. I claim that that Convalescent Hospital should be opened immediately, regardless of what the cost is.

Coun. GOLDMAN—Mr. President, very briefly, I regret to say that I cannot agree with either of my two colleagues. That Convalescent Hospital has never been used. Patients would not go there, but preferred to convalesce in the hospital where they had received treatment; and I understand that the trustees, instead of refusing to allow patients to convalesce in the City Hospital, have been allowing them to do so. So I don't think the trustees should be condemned, but that they should be commended for their action.

Coun. FISH—Mr. President, the colleague on the left intimates that the Convalescent Hospital has never been used. To my knowledge it has been used for the last forty or fifty years. It is only in the last two years that it has been abandoned out there.

PETITIONS REFERRED.

The following petitions were received and referred to the committees named, viz.:

Claims.

Elizabeth L. Curcio, for compensation for damage to property at 14 Bunker Hill street, Charlestown, caused by demolishing of adjoining premises.

Mrs. Clare Hamman, for compensation for injuries caused by an alleged defect at Washington and Atherton streets.

Harvard Transportation Company, for compensation for damage to truck by city truck.

Joe Kendzerski, for compensation for collapse of water boiler at 7 Denton road, Allston, caused by water being shut off.

Massachusetts Hospital Life Insurance Company, for compensation for damage to property at 51 Cornhill, caused by bursting of water main.

Grace McCarthy, for compensation for injuries and damage to property caused by an alleged defect in Chester street.

William F. Murphy, for compensation for injuries caused by an alleged defect in Chapman street.

William Oneel, for refund on refuse tickets.

Alice Rees, for compensation for injuries caused by falling limb of tree.

Selden Radio, for compensation for damage to property caused by water entering premises.

Executive.

Petitions for children under fifteen years of age to appear at places of public amusement, viz.:

Ellen F. Carney, Orient Palace Theatre, June 25.

Anne M. Lord, Highland Club, June 12.

Petition of Frank Riseman, laborer in Health Department, to be retired, under chapter 765, Acts of 1914.

Margaret A. Baldwin, to be paid an annuity on account of death of her husband, William A. Baldwin, late member of the Fire Department.

APPROVAL OF CONSTABLES' BONDS.

The constables' bonds of Sherman H. Calderwood, Louis Budd, Michael F. Simmons and Francis J. Tobin, having been duly approved by the City Treasurer, were received and approved

---

APPOINTMENT OF ACTING INSTITUTIONS COMMISSIONER.

Notice was received from the Mayor of leave of absence granted Dr. Frederic A. Washburn from June 18 to August 16, inclusive, and of appointment of Dr. Francis X. Mahoney as Acting Institutions Commissioner in his absence.

Placed on file.

CONFIRMATION OF APPOINTMENT.

President DOWD called up, under unfinished business, No. 3 on the calendar, viz.:

3. Action on appointment submitted by the Mayor June 4, 1934, of Mary Zaks, to be a Weigher of Coal.

The question came on confirmation. Committee, Coun. Agnew and Selvitella. Whole number of ballots 18; yeas 17, nays 1, and the appointment was confirmed.

REIMBURSEMENT OF JOHN DOOCEY.

Coun. ENGLERT offered the following:

Resolved, That the City Council of the City of Boston hereby approves the enactment of legislation authorizing the reimbursement of John Doocey for injuries received by being struck by a golf ball at Franklin Park; provided that such legislation contains a referendum to the Mayor and City Council.

Passed under suspension of the rule.

SAND BOXES, JEFFERSON SCHOOL PLAYGROUND.

Coun. DOHERTY offered the following:

Ordered, That the School Committee be requested, through his Honor the Mayor, to arrange for the installation of see-saws and sand boxes in the Jefferson School playground.

Coun. DOHERTY—Mr. President, last week a youngster in that district was drowned in a pond up near the Thomas Plant factory, right next to the Jefferson School Playground. He was the third child who has been lost there in the last few years. There is a ledge right next to this pond, and last Saturday I saw a youngster fall from the top of the ledge and strike his head, and he is now at the Children's Hospital suffering from a fractured skull. I think pretty nearly every Park Commissioner or School Committee that has ever had charge there has wanted to do something to make this place safe. At the present time it is nothing but a menace to the community. You see, there is no place for the children to play, nothing for them to do, and the result is that they get fooling around on the top of the ledge, and are sometimes apt to get into the pond. If this order goes through, there will be something there to amuse and interest them.

The order was passed under suspension of the rule.

APPROVAL OF CHAPTER 268.

Coun. AGNEW offered the following:

Ordered, That chapter 268 of the Acts of 1934, entitled, "An Act providing for Construction of a Car Stop in the Extension of the Boylston Street Subway under Beacon Street in the City of Boston," be, and hereby is, accepted.

Coun. AGNEW—Mr. President, this particular order is introduced at this time in behalf of a certain section of Boston which happens to be in my district. Some time ago this particular section was not treated very fairly when the extension was built on the Kenmore subway station. At the present time that extension runs from Kenmore square out Beacon street, with an exit beyond Audubon road. Prior to the building of this subway there were car lines on Beacon street running all the way in and out of the Kenmore station. With the building of the station the car lines were taken away, the street resurfaced and the car stops also taken away. The people of that particular section of Boston, in a closely settled area, are interested in approximately $5,000,000 of taxable property. There have been various hearings regarding this subway, and after consideration at the State House and hearings of various committees the bill was finally passed and now has the signature of the Governor attached to it. It now comes before this body for approval. I may also state, on behalf of the residents of that section, that they not only wish for a subway entrance between Kenmore station and the exit now above Audubon road, but they ask for a transfer passageway below the street surface which will enable the people of that district to cross from one side to the other without taking their lives in their hands and without the liability of being killed or injured by fast-traveling autos. There have been six deaths in this area and about thirty injuries, and approximately one thousand prosecutions for violation of automobile traffic rules. The people of the section, who are interested in maintaining their homes there, and who pay heavy taxes on those homes, have asked for this subway to be built. I assume that the proper procedure on this particular order is to refer it to the Executive Committee. I have quite a little data regarding this particular request that I shall be pleased to submit to the Council in executive session.

The order was referred to the Executive Committee.

SLUM REMOVAL LEGISLATION.

Coun. SELVITELLA, for Coun. Green, offered the following:

Resolved, That the City Council of Boston request his Honor the Mayor, to ask the Governor to send a special message to the Legislature, before prorogation, asking him to speed up and pass before adjournment, any and all bills pertaining to Slum Removal.

In connection with the above order, Coun. SELVITELLA asked that the following be included in the record:

Copy of editorial in Boston *American* June 8, 1934.

After the State of Illinois passed a law authorizing the acceptance of federal money for the clearance of slums by the construction of modern dwellings for the poor, the city of Chicago was allotted $20,000,000.

The City of New York has received $25,000,000, and has begun the clearance of slums in the congested tenement districts.

What have we done in Massachusetts?

Absolutely nothing.

We not only have not received a penny of federal money for this wise and humanitarian effort; we have not yet enacted a state law which would permit us as a civic corporation to accept the national government's aid in the matter.

We have been asleep or unintelligent. It is not the former, because the proposed law has been offered to the Legislature and has been dangling there like the inanimate Sacred Cod that hangs over the House of Representatives. We have been dumb.

The money is available to us at Washington. We have been too thoughtless to perform the simple act that would open our treasury to it.

We have been guilty of an economic blunder, because we know we will have to pay our share in taxes of the funds that are advanced to other Commonwealths.

We pay our share anyway, and derive none of the advantages of it.

Our legislators appeal to the "poor people" at election time. They go into the tenement areas, mount the soapboxes and shed crocodile tears for the poor working men and their families who live in backward areas that are all but uninhabitable.

On the other 364 days in the year, they forget that the working man is alive, and they care less about the conditions in which he dwells with his wife and children.

They could pass this housing bill in a day if they had any genuine interest in the fate of the poor people.

The order was passed under suspension of the rule.

PURCHASES FOR PUBLIC WELFARE DEPARTMENT.

Coun. McGRATH offered the following:

Ordered, That his Honor the Mayor request the Overseers of Public Welfare to consider the advisability of having all purchasing of articles for the Welfare Department turned over to the Purchasing Agent of the city.

Ordered, That his Honor the Mayor request the Overseers of Public Welfare to purchase all coal used by the department at wholesale and the deliveries of said coal to recipients be made by the department itself.

Severally passed under suspension of the rule.

TRAFFIC SIGNALS, ROXBURY.

Coun. ENGLERT offered the following:

Ordered, That the Traffic Commissioner, through his Honor the Mayor, be requested to install traffic signals at the corner of Boylston street and Amory street, Roxbury.

Pased under suspension of the rule.

REPORT OF COMMITTEE ON APPROPRIATIONS.

Coun. NORTON, for the Committee on Appropriations, submitted the following:

1. Report on message of Mayor and order (referred May 28) appropriating $1,000,000 for Public Welfare Department (Dependent Aid, $750,000; Mothers' Aid, $125,000; Old Age Assistance, $125,000), recommending that same ought to pass.

The report was accepted and the question came on the passage of the order.

Coun. TOBIN—Mr. President, the report of the Appropriations Committee covers the amounts pending in the City Council for the Public Welfare Department at the present time in the amount of $1,485,694.50. This amount is shown on page 12, line 13, of Document No. 61, covering the general appropriation for the entire city. The amount is shown in this column for the purpose of giving the entire picture of the city's finances to the members of the City Council. The appropriation for the Welfare Department, however, is a separate item which was submitted to us on May 7 as a result of an order which I introduced sometime ago, and which was passed by the Council, calling upon the Overseers to submit their budget in advance of the regular budget for the entire city. That being so, the reasonable thing to do after the hearings held on the budget was for the committee to submit the Welfare budget separately and recommend its passage at today's meeting. On May 7 the Council approved appropriations totaling $5,600,000 for relief disbursements by the Public Welfare Department. With these appropriations the department was given sufficient funds to cover all relief payments from the first of the current year to the middle or end of the present week. From the information presented to the Committee on Appropriations it is evident that the $5,600,000 will be all used by the end of this week. In order that the department may not be forced to suspend relief payments because of lack of funds, your committee recommends that the Council approve, at today's meeting, an additional relief appropriation of $1,000,000, an amount which in all probability will cover the relief requirements of the department until the middle of next month. This will permit the department to carry on for another month without interfering with the necessary disbursements. It will also give us further opportunity to study the rest of the city budget for the requirements of the other departments. The remaining sum, shown on page 12, of $485,694.50 is for the maintenance of the department, on which your committee also recommends passage at today's meeting. This is for the maintenance of the department itself. In discussing the $1,000,000 appropriation for relief disbursements, it is only fair to call to the attention of the Council the entire program this year proposed for making funds available for the department for relief disbursements. On page 12 of the printed budget, on line 14, under the heading of "amount remaining available for appropriation," the figures are $2,582,361.55. This item is shown in the summary by departments of the Mayor's budget recommendation. It shows that this amount remains still available for appropriation within the tax limit. The committee has been informed that in all probability $2,000,000 will be allocated at a later date to the Welfare Department for relief purposes, making a total budget appropriation for welfare relief disbursements in 1934 of $8,600,000. As a budget appropriation this latter amount will be included in the tax levy of the current year and account for approximately $5.16 in the tax rate. According to the chairman of the Overseers of the Public Welfare Department the total relief disbursements of the department in 1934 will approximate $12,500,000 as against $13,618,223.54 in 1933. The total appropriation for the Welfare Department in 1934 will in all probability be in the vicinity of $13,000,000 as against $14,095,656.93 in 1933. It is our understanding that the difference between the total budget relief appropriation and the total anticipated relief disbursements, or approximately $4,000,000, will be secured by the City of Boston, by taking advantage of chapter 49 of the Acts of 1933, which permits municipalities to borrow from the Commonwealth for maintenance expenses an amount not in excess of the total amount of tax titles held by the city. Since at the present time Boston holds over $5,000,000 in such titles, it is evident that the borrowing of $4,000,000 is feasible. This borrowing will later on have to be approved by the City Council so that none of our rights are jeopardized, and the money is secured by the city issuing notes to the Commonwealth and not to private corporations or individuals. The notes will be general obligations of the city, and the indebtedness incurred by the city under this procedure will not be within the tax limit. The advantage of this particular borrowing is further evidenced because it will not add to the funded debt of the city and, hence, will not add to next year's tax rate, except for interest payments. If it were a funded debt an amount would have to be provided for in the tax levy to reduce the serial requirements. Every collection made on the tax titles is turned over to the state and hence reduces the principal. It should also be pointed out that the borrowing from the Commonwealth under the provisions of chapter 49 does not let the city open to subsequent financial control by the state. The committee also recommends that the Council approve at this meeting the regular maintenance budget submitted by the Mayor for the Welfare Department for the year 1934 totaling $485,694.50. The committee has been influenced in making this recommendation, first, by the fact that this department budget was received by the Council on May 7, three weeks in advance of the regular budget; and secondly, by the feeling that the present Board of Overseers of the Welfare Department should not be hampered by lack of funds in carrying out their proposed reorganization plans. With reference to this statement about hampering the department, we should bear in mind that under the provisions of this year's tax limit bill departments are authorized to expend in anticipation of the passage of the budget an amount not in excess of one half of their departmental appropriations for 1933. The present month of June, as we all know, marks the end of just half of the current year. Departments, therefore, are very close to the limit of expenditure which may be made prior to the passage of the budget. Under circumstances like that before us, the departments, in order to protect the pay rolls, would hold back money to cover the pay rolls, and not expend money on other items. In this particular instance the department would probably hold back on the expenditure of money for furniture, supplies and equipment for the district offices that have been proposed, and by doing so would hold back on the redistricting plan itself because the initial district set-up is going to be expensive, as each office will have to have furniture and supplies of some sort. It is very desirable for the Welfare Department to know as soon as possible just what they can plan on expending for the present year. The department is now ready to decentralize the granting of aid and is about to establish district offices throughout the city. Naturally, the decentralization wil involve considerable expense in the fitting out o these district offices. There is danger that delay in the passage of the maintenance budget of the department will prevent the department from proceeding further with its reorganization plans. In the firm belief that decentralization will considerably improve the administration of the Welfare Department, your committee recommends the maintenance budget of the Welfare Department be given prior consideration to the other departmental budgets. We feel that such a recommendation is justified in order that those at present in charge of the Welfare Department, who constitute a new Board, with new leadership and a new policy, may be free to proceed without delay or hindrance in the important work of reorganization in the granting of relief to the people of our city.

Coun. WILSON—Mr. President, I am glad to hear this, although I would like to have a little more time to digest it. I am a little bit disillusioned, because, after listening to the speeches that were made in the campaign I was led to believe that it was against the cardinal principles of proper financing to borrow to any extent for running expenses. If I gather the real meat of what we have just heard correctly, I understand that we are again to borrow at least some part of the expense of running the Welfare Department for the current year. I was naturally encouraged in reading the morning papers to see that the Mayor was going to keep one of his campaign pledges, to the extent that the step-rate increases were to be recognized in accordance with his platform, and, perhaps with selfish interest, I drew the conclusion that the saving that could be made by the reduction of 2,200 welfare receipients in the last thirty days, amounting to about $10 each per week, making an annual saving of $1,000,000, was even so quickly recognized by giving these step-rate increases to employees of the City of Boston. I am willing to agree, after this long exposé of why we should, before voting for the general budget, vote these items for the benefit of the Welfare Department, that perhaps we should do so. I believe the present Welfare Board is endeavoring to do its best and that we should give it further encouragement, without at this time voting the entire amount in which recipients of welfare are concerned. I would, however, be glad, in accordance with the usual custom, to hear the sentiments of the chairman of the committee on the subject.

Coun. NORTON—Mr. President, my sentiments are well expressed in that document. The Welfare Department at the present time is attempting a tremendous job, the reorganization of the department. With that end in view they are asking for this million dollars for payment to welfare recipients, and for $485,000 for maintenance, so that they may get started. I have no reason why they should not receive that money at the present time.

Coun. TOBIN—Mr. President, in answer to the councilor from Ward 17 (Coun. Wilson), may I state at the present time that we are not voting for the entire welfare budget? We are voting $1,000,000 for relief disbursements for one month. And we are not this year changing the policy of any other year in borrowing for maintenance of the department itself. What I said in that respect merely related to relief disbursements. The maintenance of the department itself will go through as in other prior years. I merely want to have it made clear that the about $500,000 for maintenance of the department is for the pay roll of the department and for the expense of carrying out the new plan.

Coun. WILSON—Mr. President, I appreciate the explanation, but the record is not yet entirely clear in this matter, and I wish to have any misapprehension removed. Of course, we are voting the million dollars for welfare. My reference to borrowing was only to the fact that I was a little disappointed to hear that again this year we were borrowing to meet part of the current expenses of operating the government, in view of what we had heard during the campaign; that I was a little disappointed and surprised to learn that, in spite of many statements we heard from different candidates in the last campaign, we are still going to borrow some money for operating expenses for the city Welfare Department, in an effort, I presume, to keep down the tax rate on the property owners in this particular year, even though in a short time it will simply mean putting that amount into future expenses of the city for running the government today.

The $1,000,000 loan order for relief in the Welfare Department was passed, yeas 20, nays 0.

2. Report on message of Mayor and order (referred June 11) appropriating $485,694.50 to meet current expenses, Welfare Department,—recommending that same ought to pass.

The report was accepted and the question came on the passage of the order.

Coun. ROBERTS—Mr. President, I wonder if the chairman of the Committee on Appropriations would kindly inform me, or anybody else who does not know about it, why should not the whole budget be passed upon at this time?

Coun. NORTON—Mr. President, I feel that perhaps the colleague here (Coun. Tobin) can answer that question. While I was appointed to the position of chairman of the committee, I have been demoted apparently by the chief executive, and I had just as soon have the representative of the executive, who has seen fit to recognize some one other than your chairman, answer those questions.

Coun. ROBERTS—Well, Mr. President, it seems that the committee has seen fit to send in a separate appropriation for this department,

apart from the entire budget, which is a very unusual procedure, and I think the best thing for us to do at the present time is to send the present order to the executive session. I so move, sir.

The order was referred to the Executive Committee.

HOSPITAL SERVICE OF "KOSHER" FOOD.

Coun. GOLDMAN and Coun. BRACKMAN offered the following:

Ordered, That his Honor the Mayor request the Trustees of the City Hospital to make adequate provision for the serving of "Kosher food," in conformance with the Jewish dietary laws, to hospital patients of the Hebrew faith.

Passed under suspension of the rule.

TRAFFIC LIGHTS, WARD 14.

Coun. GOLDMAN offered the following:

Ordered, That his Honor the Mayor direct the Traffic Commissioner to install traffic signal lights at the northwest corner of the intersection of Hazleton street and Blue Hill avenue, in Ward 14.

Passed under suspension of the rule.

SIXTH GRADE, CHARLES LOWE SCHOOL.

Coun. GOLDMAN offered the following:

Ordered, That his Honor the Mayor request the School Committee to consider the advisability of conducting a sixth grade at the Charles Lowe School.

Passed under suspension of the rule.

ARC LIGHT, SOUTH BOSTON.

Coun. KERRIGAN offered the following:

Ordered, That the Commissioner of Public Works be requested, through his Honor the Mayor, to install an arc light at the corner of Bateman place and N street, South Boston.

Passed under suspension of the rule.

BRANCH WELFARE OFFICE, WARD 7.

Coun. KERRIGAN offered the following:

Ordered, That the Overseers of Public Welfare be requested, through his Honor the Mayor, to establish a branch office in a central location in Ward 7 when the proposed plan of decentralization is put into effect.

Passed under suspension of the rule.

TRAFFIC CONDITIONS, COLUMBIA ROAD.

Coun. KERRIGAN offered the following:

Ordered, That the Traffic Commissioner be requested, through his Honor the Mayor, to make a survey of traffic conditions along Columbia road, South Boston, from H street to N street, and report to the City Council relative to same, for the purpose of relieving congestion due to the parking of automobiles along this area while the owners are bathing at the various beaches.

Passed under suspension of the rule.

PAYMENT OF CITY HOSPITAL INTERNES.

Coun. GLEASON offered the following:

Ordered, That the Trustees of the Boston City Hospital be requested, through his Honor the Mayor, to consider the advisability of paying internes at the City Hospital at least one dollar a day to cover all necessary expenses.

Passed under suspension of the rule.

FEDERAL EMERGENCY RELIEF RULING.

Coun. GREEN offered the following:

Ordered, That his Honor the Mayor be requested to communicate with Federal Emergency Relief Administrator Harry Hopkins in an effort to have him modify his ruling so that those working on the School House project may receive more pay than that of laborer.

Passed under suspension of the rule.

BEACON LIGHT, WARD 16.

Coun. FISH offered the following:

Ordered, That the Traffic Commissioner be requested, through his Honor the Mayor, to install a traffic beacon at the junction of Lenoxdale avenue and Milton street, Ward 16.

Passed under suspension of the rule.

CITIZENSHIP OF DR. ALBERT EINSTEIN.

Coun. NORTON offered the following:

Ordered, That the City Council of Boston be requested to consider the advisability of approving the bill now before the Congress of the United States that would make Dr. Albert Einstein a citizen of the United States of America.

Referred to the Committee on Rules.

MILK FOR WELFARE RECIPIENTS.

Coun. NORTON offered the following:

Ordered, That the Board of Public Welfare, through his Honor the Mayor, be requested to look into the advisability or probability of supplying milk to welfare recipients at 8 cents a quart.

Coun. NORTON—Mr. President, there are fifty-three milk stations in New York City at the present time delivering milk to welfare recipients at eight cents a quart. I believe that that is a system which might well be adopted here. It would mean a saving of thousands of dollars on milk alone in the welfare budget.

The order was passed under suspension of the rule.

USE OF HIGH SCHOOLS AS JUNIOR COLLEGES.

Coun. NORTON offered the following:

Ordered, That the Boston School Committee, through his Honor the Mayor, be requested to consider the advisability of using the Boston high schools, at hours when they are not in use for regular school purposes, for the purpose of teaching junior college subjects to those, who because of the depression, are unable to continue on after finishing their high school education.

Coun. NORTON—Mr. President, it is estimated that in Boston today we have over twenty thousand graduates of high schools who had intended going on through college. By reason of the economic depression they are deprived of that opportunity. Our schoolhouses are closed during most hours of the day. It would appear that instead of losing this high school training of a college nature it would be advisable for these young men and women to make up subjects that will eventually be credited to them in their college course. In other cities of America there are afternoon and evening courses arranged, with competent teachers and professors who give their services free, in carrying on what are known as junior college courses. Young men or young women who are out for a year or two from school, who have planned a college career, find that there is much that they lose and have to make up. Here is a chance to afford an opportunity to these young men and women, so that they will not have to give up their idea of going to college, simply using our high school buildings and perhaps grammar school buildings, with a teaching corps of competent professors and high school instructors who will give their services, thus filling this gap and supplying this need which exists at present. We have here handy the leading universities of New England, with competent high school teachers and professors who will gladly give their services. It will afford an opportunity to these pupils to keep up, continue their education, in the courses which will be necessary to them if they are to enter college.

The order was passed under suspension of the rule.

RECESS.

The Council voted at 3.15 p. m., on motion of Coun. FISH, to take a recess subject to the call of the Chair. The members reassembled in the Council Chamber and were called to order by President DOWD at 4.42 p. m.

EXECUTIVE COMMITTEE REPORTS.

Coun. WILSON, for the Executive Committee, submitted the following:

1. Report on petitions (referred today) for children under fifteen years of age to appear at places of public amusement, viz.:

Ellen F. Carney, Orient Palace Theatre, June 25; Anne M. Lord, Highland Club, June 12—recommending that leave be granted under usual conditions.

The report was accepted and leave granted under usual conditions.

2. Report on petition of Catherine M. Hanley (referred April 2) to be paid annuity on account of death of her husband, George J. Hanley, late member of the Boston Police Department, recommending passage of accompanying order, viz.:

Ordered, That under the provisions of chapter 182 of the Acts of 1930, as amended by chapter 241 of the Acts of 1930, an annuity of fourteen hundred dollars be allowed and paid to Catherine M. Hanley, widow of George J. Hanley, a member of the Police Department, who died on March 20, 1934, from injuries received in the performance of his duty, said annuity being made up of allowances as follows:

For the widow, Catherine M. Hanley, so long as she remains unmarried, $1,000 per annum.

For each of the following-named children, during such time as he or she is under the age of eighteen or over said age and physically or mentally incapacitated from earning, $200 per annum: Eleanor M. Hanley, born August 25, 1920; Eunice A. Hanley, born January 3, 1925,—

the payments to date from March 21, 1934, and to be charged to the appropriation for Police Department, Pensions and Annuities.

The report was accepted and the order passed.

3. Report on petition of Mary J. F. Clark (referred October 9, 1933) to be paid annuity on account of death of her husband, John C. E. Clark, late member of Boston Police Department, recommending the passage of accompanying order, viz.:

Ordered, That under the provisions of chapter 182 of the Acts of 1930, as amended by chapter 241 of the Acts of 1930, an annuity of one thousand dollars be allowed and paid to Mary J. F. Clark, widow of John C. E. Clark, a member of the Police Department, who died on May 16, 1933, from injuries received in the performance of his duty, said annuity to date from May 17, 1933, to continue so long as said widow remains unmarried and to be charged to the appropriation for Police Department, Pensions and Annuities.

The report was accepted and the order passed.

4. Report on petition of Frank Riseman (referred today) to be retired under chapter 765 of Acts of 1914, recommending passage of accompanying order, viz.:

Ordered, That the Retirement Board for Laborers be hereby authorized and requested to retire under the provisions of chapter 765 of the Acts of 1914, as amended by chapter 63 of the Special Acts of 1915, Frank Riseman, employed as a laborer in the Health Department, who has been in the service of the city continuously for more than fifteen years and who is permanently incapacitated for further employment.

Report accepted: order passed.

5. Report on message of Mayor and order (referred today) appropriating $485,694.50 to meet current expenses Welfare Department—that same ought to pass.

The report was accepted and the question came on the passage of the order.

Coun. ROBERTS—Mr. President, I don't know whether I have any objection to this particular item or not, but I understand that when we adjourn today we are going to meet next Wednesday, and I am wondering if there is any reason why this item should not be voted upon along with the rest of the budget, at that time. In my experience in the Council we have never taken an item such as this one, for the employees of the Welfare Department, and segregated it, taking a separate vote upon it, and I see no reason why we should do so at this time. So I make a motion that we lay this matter on the table until the next meeting, when, I understand, we are going to vote upon the whole budget, Wednesday of this week The two days' delay, to my mind, can make no possible difference.

Coun. AGNEW—Mr. President, I ask unanimous consent to speak on the motion to lay on the table.

President DOWD—If there is no objection, the councilor may proceed.

Coun. AGNEW—Mr. President, sitting in with the Committee on Appropriations the other day on this particular item, I discussed the same point that Councilor Roberts has just raised. In view of the explanation given to the committee at that time by the Budget Commissioner, Mr. Fox, however, I withdrew any objection I might have to the separate consideration of this item. He explained very satisfactorily to me, and I believe to the rest of the councilors present, the status of the Welfare Department at the present time and the necessity of having these funds to carry on with. Inasmuch as there has been a very promising change made in the department, and inasmuch as they anticipate decentralizing the department and having more employees to do the work, I then agreed with the committee, and I am now going to vote for this particular item.

Coun. ROBERTS—Will the previous speaker, the councilor from Ward 21, yield for a question?

Coun. AGNEW—Certainly.

Coun. ROBERTS—My only question—unfortunately I was not present in the committee at the time—is this. I would like to know why action upon this particular item at this time is so imperative, when it will simply mean otherwise a delay of two days, or, in fact, of one day?

President DOWD—The Chair will rule that Councilor Roberts' motion to lay on the table until the next meeting is not debatable.

Coun. Roberts' motion to lay the item on the table was declared carried. Coun. TOBIN doubted the vote and asked for a show of hands. The Council voted 8 in the affirmative and 10 in the negative, and the motion to lay on the table was lost.

The order was passed, yeas 17, nays 2:

Yeas—Coun. Agnew, Brackman, Doherty, Donovan, Dowd, Englert, Finley, Fish, Gleason, Goldman, Green, Kerrigan, McGrath, Murray, Norton, Selvitella, Tobin—17.

Nays—Coun. Roberts, Wilson—2.

6. Report on message of Mayor and order (referred today) transferring $1,000 from appropriation for Highland Park, Improvements, to appropriation for Animals, Birds, etc., Park Department,—that same ought to pass.

The report was accepted, and the order was passed, yeas 19, nays 0.

7. Report on message of Mayor and order (referred today) appropriating $5,000 to be expended by Park Commissioners for transporting of children, under Randidge Fund, for recreation purposes—that same ought to pass.

Report accepted; order passed, yeas 19, nays 0.

8. Report on message of Mayor and order (referred today) appropriating $2,000 to be expended by Municipal Employment Bureau—recommending that same ought to pass.

The report was accepted and the question came on the passage of the order.

Coun. ROBERTS—Mr. President, I have been opposed to this Bureau for several years. Under the previous administration it proved ineffective, and of no value whatsoever. I, in company with yourself, Mr. President, have continued the fight against it. Now, under a reform Mayor, we again have this Municipal Employment office question before us. It was proposed in executive session that we have a hearing and that they come before us to prove what they have been doing. I am perfectly willing to give them a chance to do something, or to show that they have done something, if such has been the case; but I must, especially at a time like this, vote against this appropriation.

Coun. FISH—Mr. President, owing to the fact that a certain charge was made in executive, called to our attention by one of our members, that the director is using this office for the benefit of his family, his wife running an employment bureau, I move that the matter lie on the table.

The motion to lay on the table was declared lost. Coun. FISH doubted the vote and asked for a roll call.

Coun. GREEN—Mr. President, I rise to a question of information. I would like to know the status of the employees of the Bureau if we do not take any action?

President DOWD—They will have no money at the end of the week.

The motion to lay on the table was lost, yeas 4, nays 14:

Yeas—Coun. Englert, Fish, Roberts, Selvitella—4.

Nays—Coun. Agnew, Brackman, Doherty, Donovan, Dowd, Finley, Gleason, Goldman, Green, Kerrigan, McGrath, Murray, Tobin, Wilson—14.

The order failed of passage (fifteen votes being required), yeas 14, nays 5:

Yeas—Coun. Agnew, Brackman, Doherty, Donovan, Dowd, Finley, Gleason, Goldman, Green, Kerrigan, McGrath, Murray, Tobin, Wilson—14.

Nays—Coun. Englert, Fish, Norton, Roberts, Selvitella—5.

Coun. BRACKMAN—Mr. President, I move reconsideration and assignment to the next meeting.

President DOWD—The question comes on reconsideration.

Coun. MURRAY—Mr. President, I raise a point of order, that Councilor Brackman's motion was to reconsider and assign to the next meeting.

President DOWD—As a matter of fact, it is necessary to separate the questions, as the councilor's motion embodied two questions. The first question is on reconsideration.

The motion to reconsider the passage of the order was declared lost. Coun. SELVITELLA doubted the vote and asked for the yeas and nays.

Coun. Brackman's motion to reconsider prevailed, yeas 12, nays 6:

Yeas—Coun. Agnew Brackman, Doherty, Donovan, Dowd, Finley, Gleason, Goldman, Green, Kerrigan, McGrath, Tobin—12.

Nays—Coun. Englert, Fish, Murray, Norton, Roberts, Selvitella—6.

The motion to assign to the next meeting was carried.

REPORT ON TAX ABATEMENTS.

The following was received:

City of Boston,
The Finance Commission, June 11, 1934.

To the Honorable the City Council.

Gentlemen,—Your honorable body requested the Finance Commission by an order adopted on April 16 "to investigate all abatements made by the assessors from January 1, 1934, to April 15, 1934, and report to the City Council concerning the granting of such abatements on all properties valued in excess of $20,000, and report also on the names of the firms or individuals petitioning for such abatements." In reply thereto, the commission makes this report.

At the time the Council adopted the above mentioned order, the commission had already begun to obtain from the Assessing Department information in regard to abatements granted between September 1, 1933, and December 31, 1933, similar in scope to that requested by the Council in regard to later abatements; but whereas the Council in its order requested information concerning abatements granted on property throughout the city, the work started by the Finance Commission was confined to abatements granted in Ward 3, the downtown ward.

The commission has decided to turn over to the City Council, therefore, all the information as it appeared, whether or not specifically required by the order adopted by the Council.

In offering this information the commission desires to make plain a few important points in regard to it. In the first place, to investigate every abatement of the nature specified by the Council and to offer an intelligent opinion in regard to each, which, it would appear from the wording of the order, is what the Council requested, would entail the expenditure of more time and money than the commission has at its disposal.

In the period covered by this report the commission has listed more than two thousand abatements granted by the Assessing Department. In many cases one abatement covers several parcels. To pass upon the propriety of the action of the assessors in each case would mean necessarily that the commission must hire several real estate experts and practically duplicate the procedure of the State Board of Tax Appeals in examination of the claims of the petitioners in every case. It is obvious that such a procedure would require the commission to sit daily, full time, for many months and necessitate a kind of review of a city activity that it would not be reasonable to expect the commission to undertake.

The only report, therefore, that the commission can within reason make, in reply to the order adopted by your honorable body, is to list the abatements as they were granted with certain identifying detail which is important, but without any reference to the merits of the decision of the Assessing Department.

In Ward 3, between September 1 and December 31, according to information obtained by the Finance Commission from the Assessing Department, it appears that the assessors granted abatements of taxes on the ground of over-valuation totaling $805,393.93. In addition, the assessors granted abatements of taxes totaling $64,747.07 during this period on the authority of the State Commissioner of Taxation in cases where the assessors were willing to compromise old tax bills. In the same ward, between January 1 and April 15, 1934, the assessors granted abatements of taxes on the ground of over-valuation totaling $340,259.62.

In the entire city, according to information given the Finance Commission by the Assessing Department, between September 1 and December 31, 1933, the assessors granted abatements of taxes for all causes totaling $1,775,932.91. In the entire city between January 1 and April 15, 1934, the assessors, according to information given the Finance Commission, granted abatements of taxes for all causes totaling $713,800.39.

These figures, of course, include large and small abatements and, therefore, these totals are not of the particular classification specified in the Council order.

Another thing to remember is that many of the abatements granted in both the periods compared are not solely due to decisions of the Assessing Department. Some are the result of specific order by the State Board of Tax Appeals and others are the result of agreement between the city and petitioners while petitions for abatements of previous years' taxes were pending before that Board.

The records of the action of the Assessing Department on abatements have not been kept in such form as to make it possible to obtain all important information, or information such as your honorable body requested, in the period covered by this report. Just as often as not petitions for abatements fail to contain the information as to who actually appeared in the Assessing Department to obtain the abatement. On every petition, of course, appears the name of the party to whom the parcel is assessed. In many cases it is assumed that the owner actually applied because there is no other information on the petition, but the Finance Commission has been informed by members of the Board of Assessors that the person who interceded for the abatement frequently has not been the owner and yet, no record of this person's identity was kept in many cases.

Another consideration is that some one person has represented several parcels, many of which individually have been assessed below the figure specified by the Council in its order, but which in the aggregate will exceed the valuation of $20,000 mentioned. The record of abatements granted, however, shows each unit by itself. If the parcels thus included in the request for abatement are in separate wards, the assessors' records appear in separate books without special indication; if in the same ward, often the parcels covered by one person's request for abatement are separated without special indication if ownership is in different names, and often are separated if ownership of two or more parcels is in one name.

The difficulties of obtaining a true list of abatements granted, with such special information as your order specifies, have been found by the Finance Commission to be such that the only part of it that can be furnished with any degree of reliability is the total of them. To separate exactly what was specifically ordered by the State Board of Tax Appeals from what was part of an agreement while the case was pending and from what was given by the Assessing Department without suggestion or pressure in any way from the State Board of Tax Appeals either cannot be done, or would require more time and effort than would be justifiable at the present time.

A further statement seems necessary to explain properly the abatements shown as having been granted under the authority of the State Tax Commissioner. In these cases the petitioner was delinquent for more than one year. For purposes of convenience, the assessors applied the abatement granted to the tax of only one year.

With these reservations and explanations the commission submits:

(1) A list of abatements appearing in the records of the Assessing Department as granted between September 1, 1933, and December 31, 1933, in Ward 3 on parcels of valuation in excess of $20,000, or where the same petitioner appears for a group of parcels which total in valuation $20,000 or more.

(2) A list of abatements appearing on the records of the Assessing Department as granted between January 1, 1934, and April 15, 1934, in the whole city on parcels of a valuation in excess of $20,000, or where the same petitioner appears for a group of parcels which total in valuation $20,000 or more.

Respectfully submitted,

JOSEPH J. LEONARD, Chairman,
JOSEPH A. SHEEHAN,
JOSEPH JOYCE DONAHUE,
CHARLES M. STOREY,
The Finance Commission.
ROBERT E. CUNNIFF,
Secretary.

Placed on file.

CONFIRMATION OF CONSTABLES.

Coun. GOLDMAN, for the Committee on Constables, called up, under No. 2 on the calendar, unfinished business, the following names of men appointed by the Mayor as constables on June 4, to serve civil process, and moved their confirmation:

Maurice W. Danburg, 7 Outlook street, Dorchester; Samuel Gordon, 16 Auburn street, Boston; Salvatore Grassa, 71 Saratoga street, East Boston; Jacob DeMask, 943 Hyde Park avenue, Hyde Park; Max Rabinovitz, 36 Wilder street, Roxbury; Israel Spector, 148 Quincy street, Roxbury; Louis Gorfinkle, 67 Brooker street, Roxbury.

The question came on confirmation. Committee, Coun. Finley and Green. Whole number of ballots 17, yeas 15, nays 2, and the appointments were confirmed.

In connection with the above, Coun. GOLDMAN stated that the men named have filed their questionnaires and completed all requirements.

CONSTABLE COMMITTEE REPORT.

Coun. GOLDMAN, for the Special Committee on Constables, submitted the following report showing the constable status to date:

April 16, 1934, Mayor appointed.....		156	
June 4, 1934, Mayor withdrew.....		5	
		151	
June 4, 1934, Mayor appointed.....		24

Report accepted.

* Allowed by ordinance.

REPORT OF COMMITTEE ON CLAIMS.

Coun. BRACKMAN, for the Committee on Claims, submitted the following:

1. Report on petition of Edmund Currie (referred May 7) to be reimbursed for amount of execution issued against him on account of his acts as driver of motor vehicle belonging to Sanitary Division of Public Works Department, recommending passage of accompanying order, viz.:

Ordered, That the sum of one hundred forty-nine dollars and twelve cents be allowed and paid to Edmund Currie in reimbursement for the amount of an execution issued against him on account of his acts as operator of a motor vehicle belonging to the Sanitary Division of the Public Works Department, September 20, 1933, said sum to be charged to the Reserve Fund.

Coun. SELVITELLA—Mr. President, I would like to know from the chairman of the committee when the meeting of the committee was held? I happen to be a member of that committee and this is the first notice I have received of the report.

Coun. BRACKMAN—Mr. President, this is a matter that has been pending since 1933, and I

believe it was approved by the committee some time ago. My impression is that it was approved by the Law Department.

Coun. SELVITELLA—Was the committee polled?

Coun. BRACKMAN—The committee was polled on this particular measure some time ago.

Coun. SELVITELLA—How long ago?

Coun. BRACKMAN—At the time we had about twenty claims, and that was one of them. I think it was about a month ago.

Coun. SELVITELLA—Well, I have no knowledge of any such meeting.

Coun. BRACKMAN—Well, I am not insistent about putting the thing through today. I am perfectly willing that my colleagues shall have an opportunity to go over this claim either now, while this meeting is on, or at some later day.

Coun. SELVITELLA—As a member of the committee, Mr. President, I think I ought to have an opportunity to examine into claims that have been approved. I would like to glance over this.

President DOWD—The councilor can move that the claim be recommitted to the Committee on Claims.

Coun. SELVITELLA—I do, sir.

The matter was recommitted.

Adjourned at 5.10 p. m., on motion of Coun. NORTON, to meet on Wednesday, June 13, 1934, at 10 a. m.

POPULATION OF BOSTON, BY SEX, NATIVITY, ETC., 1930.

Total population, 781,188 (383,454 males and 397,734 females); ratio of males to females, 96.4 to 100 as against 97.2 to 100 in 1920. Native white, 529,400 (260,419 males and 268,981 females) or 67.77 per cent; sex ratio, 96.8 to 100. Of the 529,400 native whites, 200,130, or 37.80 per cent, are of native parentage; 248,653, or 46.97 per cent, are of foreign parentage and 80,617, or 15.23 per cent, are of mixed parentage (*i. e.*, one half native). Foreign-born whites, 229,356 (111,261 males and 118,095 females) or 9,563 less than in 1920; sex ratio 94.2 to 100. The foreign-born whites are 29.36 per cent of total population. Negroes, 20,574 (10,223 males and 10,351 females) or 2.63 per cent of population; sex ratio, 98.8 to 100. The Negro population has increased 4,224 since 1920 and 4,993 since 1915. Other races, 1,858 (1,551 males and 307 females), or 0.24 per cent, comprise 1,595 Chinese, 69 Japanese, 43 Indian, 26 Mexican and 125 miscellaneous. Total foreign white stock, 478,009 (viz., 229,356 plus 248,653) which is 61.19 per cent of all inhabitants.

PUBLIC DEBT, JANUARY 1, 1932.

Gross funded debt, January 1, 1932, $160,320,800.96 (including $139,999.96 issued by State for enlargement of Court House); sinking funds, $37,826,498.18; other redemption means, $3,140,115.26; net debt, $119,354,187.52 or $8,857,026.70 more than on January 1, 1931. Of said net debt $72,121,369.12 or 60.43 per cent was City debt; $45,626,311.48 or 38.22 per cent, Rapid Transit debt (representing 4½ per cent investment); $1,118,506.92 or 0.94 per cent, County debt; $488,000 or 0.41 per cent, Water debt.

Debt paid in 1931 was $8,273,300 but there was an increase in total gross debt of $7,664,700.

Per cent of net debt to valuation, 6.31; net debt per capita, $151.66 (approx.); net debt, exclusive of Rapid Transit debt, $73,727,876.04 or $93.68 per capita (approx.).

Per capitas are based on U. S. Census Bureau's estimated population on January 1, 1932.

Loans authorized but not issued (within debt limit), $1,664,500; same outside of debt limit, $6,996,500; total, $8,661 000.

PUBLIC DEBT, JANUARY 1, 1931.

Gross funded debt, January 1, 1931, $152,656,100.96 (including $159,999.96 issued by State for enlargement of Court House). Sinking funds, $38,990,246.22; other redemption means, $3,168,693.92, Net Debt, $110,497,160.82; or more than on January 1, 1930, by $8,320,376.01.

Of said net debt $65,544,363.02 or 59.32 per cent was City Debt; $43,191,696.73 or 39.09 per cent Rapid Transit debt (representing 4½ per cent investment); $1,223,101.07 or 1.10 per cent, County Debt; $538,000 or 0.49 per cent, Water Debt.

Debt paid in 1930 was $7,423,550.00 but there was an increase in total gross debt of $7,691,450.00.

Per cent of net debt to valuation, 5.60; net debt per capita, $141.40 (approx.); net debt, exclusive of Rapid Transit debt, $67,305,464.09 or $86.13 per capita (approx).

Per capitas are based on U. S. Census Bureau's estimated population on January 1, 1931.

Loans authorized but not issued (within debt limit), $1,757,000; same outside of debt limit, $6,908,000; Total, $8,665,000.

POPULATION OF COUNTIES, 1930.

(1) Middlesex (11 cities and 43 towns), 934,924 or 156,572 over 1920; (2) Suffolk (3 cities and 1 town), 879,536 or 44,014 over 1920; (3) Essex (8 cities and 26 towns), 498,040 or 15,884 over 1920; (4) Worcester (4 cities and 57 towns), 491,242 or 36,107 over 1920; (5) Bristol (4 cities and 16 towns), 364,590 or 5,585 over 1920; (6) Hampden (4 cities and 19 towns), 335,496 or 35,191 over 1920; (7) Norfolk (1 city and 27 towns), 299,426 or 80,345 over 1920; (8) Plymouth (1 city and 26 towns), 162,311 or 5,343 over 1920; (9) Berkshire (2 cities and 30 towns), 120,700 or 7,667 over 1920; (10) Hampshire (1 city and 22 towns), 72,801 or 3,202 over 1920; (11) Franklin (26 towns), 49,612 or 251 over 1920; (12) Barnstable (15 towns), 32,305 or 5,635 over 1920; (13) Dukes (7 towns), 4,953 or 581 over 1920; (14) Nantucket (1 town), 3,678 or 881 over 1920. Total for the 14 counties (39 cities and 316 towns), 4,249,614 or 397,258 (*i. e.*, 10.3 per cent) over 1920. Of said total, 2,940,335 (*i. e.*, 69.19 per cent) were in the cities and 1,309,279 (*i. e.*, 30.81 per cent) in the towns. The four counties, Suffolk, Middlesex, Essex and Bristol, contain 63.00 per cent of the State's inhabitants.

If the municipalities having a population of 5,000 or over are properly called urban, then the percentage of urban population in the entire State reaches the notable figure of 90.71, while the rural shows but 9.29 per cent.

RURAL TEACHERS' SUPERVISION.

Improving instruction in rural schools through promoting the efficiency and professional growth of teachers is the most important function of supervision in connection with the rural school movement. In the accomplishment of this purpose supervisors use different means and procedures usually designated as supervisory measures, according to the United Stated Office of Education. Among those found particularly successful in rural communities are: County-wide teachers' meetings, circular letters, group conferences, visitations, individual conferences, and help rendered by teachers to colleagues.

BOSTON AS A TOWN.

From its foundation until 1755, or a period of 125 years, Boston was not only the most outstanding but the most populous town in the American colonies. In 1760, Philadelphia's population was ahead, viz., 18,756, Boston's then being 15,631 and New York's about 14,000. In the last year of town government, viz., 1821, Boston's population was about 45,000 and its public debt $100,000, all incurred for new county buildings.

The history of Boston as a town during a period of nearly two centuries surpasses in civic interest that of Boston as a city because of the untiring zeal and successful efforts of its townsmen to realize more of true democracy than had ever been attained before. Their obligations were held as sacred as their liberties.

MASSACHUSETTS BAY COLONY.

The first chartered colony in New England, charter granted by Charles I on March 4, 1629. About a year before, a patent had been granted to six prominent men of Dorchester, west of England, among whom was Capt. John Endicott. He sailed in June, 1628, with a party of fifty or sixty persons, arriving in September and settling at Naumkeag, afterward named Salem. In the spring of 1629, the Bay Company fitted out three ships conveying about four hundred persons and arriving at Salem in June. Endicott sent a small party to effect a settlement on the Bay in Mishawum, afterward named by the settlers Charlestown, the first town in New England to assume the town polity, Plymouth and Salem being governed by a governor and council. Endicott was appointed in London as the first resident governor on April 30, 1629. The Massachusetts Bay Company was reorganized in London on October 20, 1629, when John Winthrop was chosen as governor. He arrived at Salem on June 12, 1630, soon proceeded to Charlestown with a large following and finding that place unsuitable, finally settled in Boston. Winthrop served thirteen years as governor in four different periods ending in 1649 and Endicott fifteen years at various times ending in 1665. Other governors were Thomas Dudley, Richard Bellingham, John Haynes, Henry Vane, John Leverett and Simon Bradstreet, the latter serving twelve years until 1692 when the Bay Colony and the Plymouth Colony were merged, becoming the Royal Province of Massachusetts Bay, which existed eighty-two years to 1774, the governors being appointed by the King.

The name, Massachusetts, is Indian and signifies "near the big hills."

BOSTON INCORPORATED AS A CITY, 1822.

The act of incorporation was passed by the Legislature on February 23, 1822. On March 4 following, the voters of Boston accepted said act, chapter 110, 1821-22, as its first city charter by a majority of 916 in a total vote of 4,678. The vote was 2,797 yeas, 1,881 nays. Previous attempts to incorporate as a city had been made in 1650, 1659, 1667, 1708, 1744, 1762, 1784, 1791, 1804 and 1815. The charter was revised in 1854, 1885 and 1909. Amendments to the 1909 charter were enacted in 1910, 1912, 1914, 1918, 1919, 1921, 1922 and lastly in 1924 (see "Municipal Register" for 1928, pages 19-43).

PROCEEDINGS OF SCHOOL COMMITTEE.

May, 24, 1934 .

A special meeting of the School Committee of the City of Boston was held in the Administration Building, 15 Beacon Street, at 5:55 o'clock P. M., the Chairman presiding.

Present: Messrs. Hurley, Lyons, Mackey, Tobin and Sullivan.

—

Chairman: This special meeting was called for the purpose of appropriating the moneys necessary to care for the administration expenses of the Department of School Buildings. The Committee has been combing the general alterations and repairs budget with great care in order to keep the expenditures at as low a point as possible and at the same time afford sufficient funds to care for all necessary repairs, alterations, and furniture for school buildings. The Committee hopes to pass the final order at the next meeting.

—

APPROPRIATIONS, ADMINISTRATION EXPENSES ON ACCOUNT OF ALTERATIONS AND REPAIRS AND LAND AND BUILDINGS FOR SCHOOLS.

The following communication was received:

City of Boston—Department of School Buildings

May 24, 1934

School Committee,
City of Boston,
15 Beacon Street,
Boston, Mass.

Gentlemen:

Under date of May 24, 1934, the School Committee submitted to the Board of Commissioners of School Buildings for approval the two proposed orders which read as follows.

1. ORDERED, That to provide for the cost of administration expenses of the Department of School Buildings in connection with the "alteration and repair of school buildings and for furniture, fixtures and means of escape in case of fire and for fire protection for existing buildings, and for improving existing school yards" during the financial year January 1 to December 31, 1934, the sum of $89,150.59 is hereby appropriated in addition to the sum appropriated on April 16, 1934.

2. ORDERED, That in accordance with the provisions of Chapter 206 of the Special Acts of 1919, as amended by Chapter 524 of the Acts of 1920, as amended by Chapter 488 of the Acts of 1923, as amended by Chapter 327 of the Acts of 1925, as amended by Chapter 314 of the Acts of 1926, the following appropriations are hereby made, in addition to the sums appropriated on April 16, 1934:

Land and Buildings for Schools

Item 12—Administration Expenses, Department of School Buildings (Item 1, 1934)	$40,831.75
Item 13—Rent of hired accommodations (Item 9, 1934)	13,766.00
	$54,597.75

In relation to the foregoing proposed orders the Board of Commissioners of School Buildings, after consideration of the same, voted in accordance with the provisions of Chapter 351 of the Acts of 1929 to approve the two orders.

Accompanying the foregoing orders are detailed figures on which the amount of the orders are based. It is understood that these detailed figures accompanying the order do not constitute a part of the orders as passed.

Respectfully yours,

Board of Commissioners of School Buildings,

By Richard J. Lane, Chairman.

—

The following is the detail for administration expenses in connection with the "alteration and repair of school buildings and for furniture, fixtures and means of escape in case of fire, and for fire protection for existing buildings, and for improving existing school yards," as submitted by the Department of School Buildings: (An appropriation of $63,400.00 for administration expenses in connection with alterations and repairs was made, on account, at the meeting of April 16, 1934.)

APPROPRIATION FOR ALTERATIONS AND REPAIRS

The following communication was received:

City of Boston—Department of School Buildings.

May 28, 1934.

School Committee
City of Boston
15 Beacon Street
Boston, Mass.

Gentlemen:

Under date of May 24, the School Committee of the City of Boston, forwarded to the Board of Commissioners of School Buildings the following proposed order:

ORDERED, That to provide for the cost of "alteration and repair of school buildings and for furniture, fixtures and means of escape in case of fire, and for fire protection for existing buildings and for improving existing school yards" during the financial year Jan. 1 to Dec. 31, 1934, the sum of $532,196.00 is hereby appropriated, in addition to the sum appropriated on April 16, 1934.

It is understood that the estimated cost for general alterations and repairs shall be spread upon the records although the amount specified for individual items shall not be binding as they do not constitute a part of the order.

The appropriation allowed the Department of School Buildings by the School Committee in exercise of its appropriating power for repairs and alterations of existing school buildings is less than this department estimated after long investigation as to the proper amount to be allocated this year for this purpose. At different conferences with the School Committee or its representatives, officials of this department have endeavored to explain in great detail what this department wanted to do this year, and the cost of the work. We evidently have not been successful in convincing the School Committee or its representatives that the amount asked for should be appropriated.

It should be appreciated that before this Department began to function in 1930 approximately $1,800,000 was annually appropriated for this same purpose. We now have many more buildings than in 1929 with a present value exceeding $75,000,000. There is great wear and tear on our school buildings, and minor repairs, to say nothing of structural repairs, are continually demanded. Last year we carried on with a total appropriation of $863,000—almost a million dollars less than was appropriated for the year 1929 and preceding years. This year the budget for alteration repairs is reduced to $932,196.00. No other branch of the school service, or in fact any other municipal department, has had its budget reduced in the same proportion. While we are proud of the record this department has made with the curtailed appropriation of recent years, yet there is a limit beyond which we should not be asked to go if we are to keep our school plant in condition. It must be borne in mind also that due to the codes under which we are now operating the cost of materials which enter into repair work has increased over last year to a large extent, and it must be evident that with the sum appropriated we will not be able to do even as much work as was done last year.

It is not a saving at all to omit to make necessary repairs to our school building property, but short-sighted waste which eventually will have to be corrected at increased costs. As the School Committee is the appropriating power, and as the money now on hand for repair work by this department is practically exhausted, we appreciate that further objection on our part will serve no useful purpose, and we therefore must accept the budget you have approved and appropriated for.

There is, however, one item in view of its importance that we wish especially to mention. The Superintendent of this Department has the responsibility to protect the children in the schools from fire hazards. After extensive study he determined that certain second-class buildings should have additional fire protection and he furnished you a list of the same which is on record in your files.

The total amount in the budget for this purpose this year was $34,000 and you were asked to appropriate this sum for this purpose. Surely not a large sum for such an important work. All the information that the Superintendent of Construction could give you was furnished by him. Your representatives, including the Superintendent of Schools, were shown these different buildings. In this budget you have cut the sum asked for this purpose from $34,000 to $10,000. It follows, therefore, that some of the buildings intended to be equipped this summer with fire escapes will not be so equipped. The responsibility for this omission must therefore rest with you and not on this department.

Respectfully yours,

Board of Commissioners of
School Buildings,

By Richard J. Lane,
Chairman.

Placed on file.

—

Dr. Lyons: Referring to the paragraph on fire escapes in the communication just read: I would like it understood that the Superintendent of Construction, in conference with the School Committee, was satisfied with the budgetary provision for repairs on fire escapes. As to objection of the Commission as noted in the communication, namely, to the reduction by the School Committee of the item for new fire escapes from $34,000 to $10,000: I would state that in a brief interview with the Superintendent of Construction just before this meeting assembled, he said that he would be perfectly satisfied with provision in the sum of $17,000 for new fire escapes which would be one-half the amount for which he asked for that particular item.

I would also like to state that all the members of this Committee have gone very carefully into the fire escape situation. In fact, we have given of our time, for which we are sorely pressed at present, to go from the top to the bottom of the buildings where it was proposed to place the new fire escapes, in order to satisfy ourselves that the lives of the children in those buildings are properly safeguarded. In view of the fact that the communication from the Chairman of the Board of Commissioners of School Buildings is to be spread upon the records of this meeting, I feel that this statement similarly should appear on the records, for this Committee has given long and careful consideration to the matter of fire escapes and we all apparently now are satisfied that an appropriation of $17,000 for new fire escapes, together with the $13,500 for repairs on existing fire escapes, will take care of the needs of the school system in this respect for this year.

Chairman: The amounts specified for the individual items in the detailed statement are not binding upon the Superintendent of Construction. He is free to re-allocate budget items. It has been done in the past and it can be done in this budget, if in the opinion of the Superintendent of Construction

there is an insufficient sum for any particular item. It is a simple matter for him to re-allocate and to use a sufficient sum of money within the total appropriation, to cover any pressing needs that he may find advisable.

The following is the detail for the "alteration and repair of school buildings and for furniture, fixtures and means of escape in case of fire, and for fire protection for existing buildings, and for improving existing school yards": (An appropriation of $400,000.00 for alterations and repairs was made on account at the meeting of April 16, 1934.)

1. Productive work by pupils..	$4,000.00
2. Contingencies and emergencies	88,000.00
3. Upkeep of the structural plant	192,000.00
4. Fire escapes (repairs)	30,500.00
5. Care of school grounds.....	67,000.00
6. Furniture and ordinary equipment (upkeep and replacement)	52,000.00
7. Special equipment for:	
(a) Shops	3,000.00
(b) Kindergartens	2,000.00
(c) Lunch rooms.....	2,500.00
8. Shades for windows, etc....	10,000.00
9. Painting school buildings...	40,000.00
10. Plumbing (emergency and upkeep)	90,000.00
11. Heating and ventilation (emergency and upkeep)..	80,000.00
12. Electricity (emergency and upkeep)	30,000.00
13. Special appropriations for departments:	
(a) Household Science and Arts.....	3,500.00
(b) Manual Arts	5,000.00
(c) School Hygiene: Rest and nutrition.....	2,000.00
14. Educational remodelling, such as removal of partitions and other alterations to provide for additional classrooms: additional recitation, cooking, health and teachers' rooms	59,696.00
15. Lockers	2,000.00
16. Trucking and expressage...	4,000.00
17. Portable buildings (Moving)	8,000.00
18. Modern plumbing in old buildings	21,000.00
19. Modern heating in old buildings	35,000.00
20. Modern electrical systems in old buildings	19,000.00
21. Roofing	60,000.00
22. Hyde Park High School, waterproofing and repairing exterior walls	20,000.00
23. Dorchester High School for Boys, waterproofing and repairing exterior walls..	9,000.00
Total	$939.196.00

Entrance Requirements: Applicants must possess a license to operate motor vehicles in Massachusetts.

Subjects and Weights: Training and experience, 2; practical questions, 3; total, 5.

Passing Requirements: Applicants must obtain at least 70 per cent in each subject in order to become eligible.

Physical fitness to be determined by physical examination.

FINANCING SEWAGE WORKS BY SPECIAL ASSESSMENT IN IOWA.

The cost of constructing sewage disposal plants in a number of states, and in Iowa in particular, may be levied against the various lots, parts of lots or parcels of ground draining to, or susceptible to drainage to, the site of the disposal plant. Such assessments must be in proportion to the benefits to each property and must not, in any case, exceed one-fourth of the fair value of the property in question. These special assessments are payable in the same manner as other municipal improvement costs; that is, in ten annual equal installments, paid at the same time and place as the March 1 installment of ordinary taxes in Iowa. Any property owner may pay off the unpaid portion of such tax at any time. Interest on the deferred payments must not exceed 6 per cent.

POPULATION OF MASSACHUSETTS, 1930.

Total population, 4,249,614 (2,071,672 males and 2,177,942 females; total white, 4,192,926 (2,042,213 males and 2,150,713 females); total native white, 3,138,290 (1,532,751 males and 1,605,539 females); native white of native parentage, 1,429,784 (702,983 males and 726,801 females); native white of foreign or mixed parentage, 1,708,506 (829,768 males and 878,738 females); 1,202,191 (584,705 males and 617,486 females) of them being of foreign parentage; foreign-born white, 1,054,636 (509,462 males and 545,174 females); Negro, 52,365 (26,097 males and 26,268 females); Indian, 874 (458 males and 416 females); Chinese, 2,973 (2,530 males and 443 females); Japanese, 201 (151 males and 50 females); Mexican, 66 (43 males and 23 females); all other races, 209 (180 males and 29 females).

CITY OF BOSTON.

PUBLIC WORKS DEPARTMENT.

NATIONAL INDUSTRIAL RECOVERY PROJECT, P. W. A., DOCKET NO. 4193.

NOTICE TO CONTRACTORS.

Sealed proposal, addressed to the Commissioner of Public Works of the City of Boston and indorsed Sewerage Works in La Grange street, West Roxbury, will be received at Room 508, fifth floor, City Hall Annex, Boston, Mass., before 12 o'clock noon on the tenth day of July, 1934, and at that time and place will be publicly opened and read. Bids must be made upon the prescribed proposal form. Special attention of bidders is called to all provisions of the Federal Emergency Administration of Public Works, which form a part of the contract, including the prescribed minimum rates of $1.20 per hour for skilled labor and $0.50 per hour for unskilled labor, and to the special provision as to semi-skilled labor.

"Pursuant to Executive Order 6646, dated March 14, 1934, no bid will be considered unless it includes or is accompanied by a certificate (worded in accordance with P. W. A. 61, revised March 19, 1934), duly executed by the bidder, stating that the bidder is complying with and will continue to comply with each approved code of fair competition to which he is subject, and if engaged in any trade and industry for which there is no approved code of fair competition, then stating as to such trade or industry he has become a part to and is complying with and will continue to comply with an agreement with the President (President's Re-employment Agreement) under section 4 (*a*) of the National Industry Recovery Act."

"Every contractor who bids upon a project financed in whole or in part by loans or grants from the P. W. A. shall submit in a sealed envelope with his bid to the contracting authority the names of all subcontractors and their bids upon which his bid is based. The sealed envelope so submitted shall have on it the name of the contractor with the words thereon, 'Bids of Subcontractors.' Such submission shall be deemed to constitute an acceptance by the contractor, if awarded the contract, of the bid of each subcontractor. Any alteration therein, after the award of the contract, shall be subject to the approval of the P. W. A. engineers."

Plans, specifications and contract form may be obtained at Room 508, fifth floor, City Hall Annex, Boston, Mass., upon deposit of the sum of two dollars ($2).

Bids must be accompanied by a properly certified check on, or a certificate of deposit issued by, a responsible bank in the sum of four thousand dollars ($4,000), payable to the City of Boston. Checks will be returned after execution of the contract, upon demand.

Proposals must be made in duplicate, the sealed duplicate, without check, to be deposited by the bidder with the City Auditor previous to the time named for opening the proposals.

A surety bond by an approved surety company will be required from the successful bidder in an amount not less than the full amount of the contract.

The right is reserved to reject any or all proposals, or to accept any proposal deemed best for the interest of the City of Boston, and no award can be made without the approval of the State Engineer, P. W. A.

The name and address of the local registration office of the National Re-employment Service, from which employee lists for this contract shall be obtained, is as follows: State Public Employment Office (Everett L. Hanna, Manager), 100 Nashua street, Boston, Mass.

by C. J. CARVEN,
Commissioner of Public Works.
(June 16-23.)

CITY OF BOSTON.

BOSTON TRAFFIC COMMISSION.

CHANGES IN TRAFFIC REGULATIONS.

Voted, That as urgently required by considerations of public safety and convenience, during a trial period of ninety (90) days, Friend street is a one-way street, from Hanover street to Union street, effective June 26, 1934.

WILLIAM P. HICKEY,
Commissioner.
(June 23.)

CITY OF BOSTON.

BOSTON TRAFFIC COMMISSION.

CHANGES IN TRAFFIC REGULATIONS.

Voted, That the Traffic Regulations are amended as follows, effective July 2, 1934:

That section 17, Part 3, is amended by striking out the following:

Columbia Road, Dorchester.
East side, from Stoughton street to Hancock street.
West side, from Dudley street to Davenport street.

That section 17 Part 3, is amended by adding the following:

Burlington Avenue.
Northeast side, from Brookline avenue to land of the Boston & Albany Railroad.
C Street, South Boston.
Northwest side, from Fargo street to Summer street.
Endicott Street.
East side, from Cross street to Hanover street.

That section 40, Part 1, is amended by striking out the following:

Carver Street.
From Broadway to Boylston street.
May Street, West Roxbury.
From Pond street to Centre street.
North Street.
From Faneuil Hall square to Blackstone street.
Warrenton Street.
From Stuart street to Washington street.

That section 40, Part 1, is amended by adding the following:

Carver Street.
From Boylston street to Broadway.
Warrenton Street.
From Tremont street to Stuart street. (Parking left side only.)
From Shawmut avenue to Washington street.

(June 23-30.)

THE SCHOOL COMMITTEE OF THE CITY OF BOSTON.

ADMINISTRATION BUILDING, 15 BEACON STREET, OFFICE OF THE BUSINESS MANAGER.

PROPOSALS FOR FURNISHING SHOP SUPPLIES AND EQUIPMENT FOR THE BOSTON PUBLIC SCHOOLS (CONSISTING OF GENERAL HARDWARE, ELECTRICAL SUPPLIES, STEEL AND ANGLE IRON, PRINTING SUPPLIES, SHEET METAL SUPPLIES, AUTOMOBILE SUPPLIES, PAINTING SUPPLIES, STORAGE BATTERY SUPPLIES AND EQUIPMENT, PAPER, ROPE AND TWINE, WELDING SUPPLIES, LEAD AND SMELTING SUPPLIES, MASONRY SUPPLIES, PLUMBING EQUIPMENT AND SUPPLIES, PIPE AND PIPE FITTINGS AND RADIO SUPPLIES.)

The School Committee of the City of Boston invites bids for furnishing and delivering shop supplies and equipment as per schedule. Proposal forms are obtainable at the office of the Business Manager of the School Committee, tenth floor, 15 Beacon street, Boston. Envelopes containing proposals must be sealed and plainly marked "Proposal for Furnishing Shop Supplies and Equipment." The bid must be in duplicate. One copy signed by the bidder and accompanied by a certified check for $25 payable to the City of Boston, must be left at the office of the Business Manager on or before 12 o'clock m. on Monday, July 9, 1934. Copies filed with the Business Manager will be publicly opened at 12 o'clock m. of the day stated. The other copy, also signed by the bidder, must be filed with the City Auditor, City Hall, Boston, Mass., previous to the time named for the opening of the bids. The School Committee reserves the right to reject any or all bids, and to accept such bid or part of bid as may be deemed best for the interests of the city. Successful bidders will be required to furnish a bond for not less than 50 per cent of the amount of the contract. If the amount of the award falls below $1,000 said bond will not be required.

ALEXANDER M. SULLIVAN,
Business Manager of the School Committee.
(June 23.)

WATER-SUPPLY DEVELOPMENT IN THE UNITED STATES.

In 1652 Boston introduced the first American public water supply. The first mechanical pumps were used in 1761 at Bethlehem, Pa., where Hans Christiansen, an American pioneer water-supply engineer, made his pumps work "after severe struggles." In 1850 there were only 100 water plants in the United States, and as late as 1875 only 243. In 1933 there were more than 11,000 public water supplies, some serving more than one community.

P. W. A. ESTIMATES ITS 1934 EXPENDITURES.

A statistical study was received by Public Works Administrator Harold L. Ickes indicating $1,382,000,000 would go from the Public Works Fund into citizens' pockets during 1934 to increase purchasing power and re-employment, and spread recovery.

The study showed P. W. A. expenditures would reach the peak of $164,000,000 a month in June. Statutory and executive allotments totaling approximately one third the entire P. W. A. fund were not included in the compilation.

Special attention of bidders is called to all provisions of the Federal Emergency Administration of Public Works, which form a part of the contract, including the prescribed minimum rates of $1.20 per hour for skilled labor and $0.50 per hour for unskilled labor, and to the special provision as to semi-skilled labor.

"Pursuant to Executive Order 6646, dated March 14, 1934, no bid will be considered unless it includes or is accompanied by a certificate (worded in accordance with P. W. A. 61, revised March 19, 1934), duly executed by the bidder, stating that the bidder is complying with and will continue to comply with each approved code of fair competition to which he is subject, and if engaged in any trade and industry for which there is no approved code of fair competition, then stating as to such trade or industry he has become a part to and is complying with and will continue to comply with an agreement with the President (President's Re-employment Agreement) under section 4 (*a*) of the National Industry Recovery Act."

"Every contractor who bids upon a project financed in whole or in part by loans or grants from the P. W. A. shall submit in a sealed envelope with his bid to the contracting authority the names of all subcontractors and their bids upon which his bid is based. The sealed envelope so submitted shall have on it the name of the contractor with the words thereon, 'Bids of Subcontractors.' Such submission shall be deemed to constitute an acceptance by the contractor, if awarded the contract, of the bid of each subcontractor. Any alteration therein, after the award of the contract, shall be subject to the approval of the P. W. A. engineers."

Plans, specifications and contract form may be obtained at Room 508, fifth floor, City Hall Annex, Boston, Mass., upon deposit of the sum of two dollars ($2).

Bids must be accompanied by a properly certified check on, or a certificate of deposit issued by, a responsible bank in the sum of two thousand dollars ($2,000), payable to the City of Boston. Checks will be returned after execution of the contract, upon demand.

Proposals must be made in duplicate, the sealed duplicate, without check, to be deposited by the bidder with the City Auditor previous to the time named for opening the proposals.

A surety bond by an approved surety company will be required from the successful bidder in an amount not less than the full amount of the contract.

The right is reserved to reject any or all proposals, or to accept any proposal deemed best for the interest of the City of Boston, and no award can be made without the approval of the State Engineer, P. W. A.

The name and address of the local registration office of the National Re-employment Service, from which employee lists for this contract shall be obtained, is as follows: State Public Employment Office (Everett L. Hanna, Manager), 100 Nashua street, Boston, Mass.

by C. J. CARVEN,
Commissioner of Public Works.

CITY OF BOSTON.

SUPPLY DEPARTMENT.

PROPOSALS FOR FURNISHING FIRE HOSE AND REELS TO THE EAST BOSTON TRAFFIC TUNNEL.

The Supply Department of the City of Boston invites proposals for furnishing fire hose and reels to the East Boston Traffic Tunnel. All couplings to be unmarked according to specifications. The bidder must use the form of proposal to be obtained at the office of the Supply Department, Room 801, City Hall Annex. *There will be a charge of twenty cents ($0.20) for each set of proposals taken out.* The successful bidder must furnish a bond for one quarter the total estimated amount of the bid with a surety company authorized to do business in Massachusetts, as surety for the faithful performance of the contract. The bid, with a certified check for $300, payable to and to become the property of the City of Boston if the proposal is not carried out, must be left at the office of the Superintendent of Supplies, Room 801, City Hall Annex, before Monday, July 2, 1934, at 12 m., at which time and place the bids will be publicly opened and read. A duplicate bid, without check, must be left at the office of the City Auditor prior to the time named for opening bids. The Superintendent reserves the right to accept or reject any or all proposals, or any part of a proposal, and to award the contract as he deems for the best interests of the city. All contracts made subject to appropriations to meet payments thereunder.

WARREN W. LOOMIS,
(June 23.) *Superintendent of Supplies.*

CITY OF BOSTON.

DEPARTMENT OF SCHOOL BUILDINGS.

TO ROOFING CONTRACTORS.

The Superintendent of Construction of the Department of School Buildings of the City of Boston invites sealed proposals for roofing work, etc., at the Hull School, Quincy street, Dorchester, Boston, Mass., and giving bond of a surety company satisfactory to the Superintendent of Construction therefor in the full amount of the contract price. Only proposals obtained at the office of the Superintendent of Construction, 11 Beacon street, Boston, Mass., signed by the bidder and left before 2 p. m., Monday, July 2, 1934, at said office, with a certified check for $500, payable to the city if the proposal is not carried out, will then and there be publicly opened and read. The proposal shall be made in duplicate, the one with the check to be submitted as indicated above, the other to be deposited with the City Auditor, City Hall, previous to the time named for opening proposals. The Superintendent of Construction reserves the right to reject any or all proposals. A deposit of a certified check in the sum of $25 will be required in order to procure a complete set of plans and specifications. This deposit shall be returned to all but the successful bidder, providing that all plans and specifications are returned to this office prior to 12 o'clock noon of Monday, July 9, 1934, otherwise said deposit shall be forfeited.

READVERTISEMENT.

CITY OF BOSTON.

PUBLIC WORKS DEPARTMENT.

PROPOSALS FOR RESURFACING OR REPAIRING WITH BITUMINOUS MATERIALS THE PAVEMENT IN ANY STREET UPON WHICH THERE IS NO MAINTENANCE GUARANTY.

The Commissioner of Public Works of the City of Boston, office 508 City Hall Annex, invites proposals from citizens of the United States and corporations or other legal associations wherein the controlling interest to the extent of at least over one half thereof is owned by a citizen or citizens of the United States, for resurfacing or repairing with bituminous materials the pavement in any street upon which there is no maintenance guaranty when ordered to do so by the Commissioner and giving bond therefor of a surety company approved by the Commissioner in the sum of one hundred per cent of the amount of the contract to secure the due performance of the contract and the full protection of the city. Forms of proposals may be obtained at Room 508, City Hall Annex. Each bidder must give the location of the plant which it is intended to operate and the capacity of the same. Each proposal should be inclosed in an envelope, sealed, marked "Proposals for Repairing Pavements with Bituminous Materials," and left at Room 508, fifth floor, City Hall Annex, before 12 m. on Monday, June 25, 1934, with a certified check for three thousand (3,000) dollars, payable to and to become the property of the city if the proposal after acceptance is not carried out. The proposals will then and there be publicly opened and read. Proposals must be made in duplicate, the sealed duplicate, without check, to be deposited by the bidder with the City Auditor previous to the time named for opening the bids. *There will be a charge of two dollars ($2) for each set of plans and specifications taken out.* If the price of any item appears to the Commissioner to be abnormally high or low, or the bidder neglects to bid on each and every item, it may lead to the rejection of the proposal containing such price. The undersigned will reject any or all proposals wherein the price bid for Item 1 or Item 2 as specified in this proposal exceeds $1.55 per square yard; and reserves the right to reject any or all proposals or to award the contract as he may deem for the best interests of the city so to do.

C. J. CARVEN,
Commissioner of Public Works.

CITY RECORD

OFFICIAL CHRONICLE OF BOSTON MUNICIPAL AFFAIRS.

VOL. 26. SATURDAY, JUNE 30, 1934. NO. 26

BOSTON'S NEW $19,000,000 VEHICULAR TUNNEL OPENED TO PUBLIC TODAY — LARGELY ATTENDED BY LEADING CITIZENS OF CITY AND STATE — MAYOR AND MRS. MANSFIELD FEATURE CEREMONIES AND PLAY MOST PROMINENT PART IN NAMING OF TUBE AND OTHER FEATURES — MAYOR MAKES ADDRESS AND MRS. MANSFIELD CHRISTENS TUBE WITH NAME — OTHER CITIZENS MAKE BRIEF ADDRESSES, AFTER WHICH AN INSPECTION TRIP IS MADE BY INVITED GUESTS.

Many of Boston's most prominent citizens shared with Mayor and Mrs. Mansfield today in the ceremonies connected with the opening of the new $19,000,000 vehicular tunnel to East Boston and the points along the North Shore, and enjoyed the first trip through the tube.

On Thursday afternoon when the final work was completed the act of ending the job was witnessed by several thousand persons. The final layer of bricks in the towers at either end were laid and the tube made ready for the ceremonies of today. To Mrs. Mansfield was given the honor of christening the tube and naming it, after which Mayor Mansfield, Col. Thomas F. Sullivan and others of those interested or sharing in the construction made brief addresses.

At the Boston entrance has been placed the twin bronze plaque female figures at either side of the overhead marble crosspiece where, in the exact center, is the city seal in bronze, and below the words:

"Traffic Tunnel, City of Boston. James M. Curley, Mayor. Built by the Boston Transit Commission, Thomas F. Sullivan, Chairman; Nathan A. Heller, Arthur B. Corbett, James B. Noyes. Ernest R. Springer, Wilbur W. Davis, Chief Engineers. 1934."

At either end is an enormous "gray fan" spreading out from the two-string opening that goes meandering into the distant lighted passageway.

This fan, at the right as you enter, divides into six single string ways, each of which, on one side or the other, passes close to one of the trio of toll buildings linked together by an immense flat-topped cement roof with copper sheathing.

The toll collector will collect the fare from the operator of the car as he passes either by reaching out through the window of the booth or standing in the doorway of the toll booth. Method of collection will be optional with the collector, but collections will be tabulated with cash register precision. As each car approaches the tube it passes over a treadle that registers the crossing of the car. The treadles register automatically every vehicle that enters the tube at either end. In addition, a light signal flashes when the collection of the fare is rung up.

At the left of the fan-shaped area looking toward the tunnel entrance, the single outgoing traffic way leads off into the adjacent highways.

A double row of tall light poles, rather spectacular in appearance, provide a bright glow for the car operator at night when he begins to take the incline that at either end drops him past the opening and into the mysterious tube.

"STOP ENGINE."

Glistening white, foot square, tile walls are on either side inside interminable, as it were, interrupted high up at regular intervals by the tube traffic signals. One announces "Stop Engine" at regular spaces and applies to the minute when, due to traffic jam from any cause whatever, cars are halted. Engines must be stopped then to prevent "piling up," a threat of carbon monoxide danger in the tunnel.

Within the tube there is no possibility of lack of proper air. The circulation is constant, evident, with a purified air that is equivalent to any country ozone that the vacation fan might hie miles to breathe.

A total of fifty-four traffic patrolmen and seven police sergeants were on duty at the actual opening, following the city exercises at the Boston end.

TO SAFEGUARD OFFICERS.

Due to possible danger of lead poisoning, no policeman will be kept on station inside the tunnel for more than two and a half hours at a time.

Outside each end, facing the tunnel, at the left of the entrance ways and at the right of the exit highway and just in advance of the toll booths, is the snappy brick-built pulpit where a traffic officer will be on duty at all times, night and day.

A feature of the under-the-harbor route is the emergency station at the right of the East Boston entrance —a rather immense two-story building with administration quarters on the second floor and truck garage quarters on the street floor. Assistance will always be ready here when traffic jams occur due to the stalling or break-down of cars in line or because of "flats" or shortage of gas on the part of a customer in the tunnel string. To replenish, in the latter instance, will cost $1 per gallon.

All the innumerable light "squares" that throw their white rays crosswise overheard from parallel lines close to the ceiling are aglow now. Finishing touches today were being put on the wiring and general cleaning up of the signal hook-ups. All ventilators are in apple-pie order.

(Continued on page 628.)

"O Boston, fair City enthroned like a radiant queen,
From thy hills looking down on the ship-teeming plain of the ocean,
May thy future be bright, thy skies beam with light all serene,
Ensured by thy sons' and thy daughters' unselfish devotion!"

From Boston Centennial Poem by
NATHAN HASKELL DOLE.

CITY RECORD.

Published weekly under legislative act by the City of Boston, Massachusetts.

STREET AGENCIES.

Old South News-stand, Old South entrance to subway.

Advertising.

A rate of $2 per inch of 12 lines (set solid) has been established for such advertisements as under the law must be printed in the *City Record*. Advertising and other copy must be in hand by Thursday of each week to insure its publication in the Saturday issue.

Copies for sale at the Statistics Department, Room 73, City Hall.

MUNICIPAL CALENDAR.

Meeting of the City Council Monday, July 2, 1934, at 2 p. m.

Meetings of the Transit Department are held on Monday and Thursday of each week at 11 a. m.

Board of Zoning Adjustment. Public hearings and executive meetings are held on the first Friday of each month, Room 30, City Hall, at 2 p. m.

MUNICIPAL SERVICE.

Complaints, inquiries or suggestions regarding the work of municipal departments should be made in writing to the officials directly in charge. The failure of such official to make reply within a reasonable length of time should be brought to the attention of the Mayor. Communications should be directed as follows:

To THE BOARD OF STREET COMMISSIONERS, Room 401, City Hall Annex, for information relative to the laying out, relocation, widening, and the discontinuance of highways; the taking of rear property for municipal purposes; the assessments of betterments for streets and sewers; the plotting of undeveloped area for streets and the opening of private ways; the granting of licenses for the storage or sale of merchandise in public streets; the making of specific repairs in public streets; the naming of public streets; the planting and removal of trees in public ways; the issuing of licenses for the storage of gasolene, oil, and other inflammable substances or explosive compounds; the use of the public ways for any permanent or temporary obstruction or projection in, under or over the same, including the location of conduits, poles and posts for telephone, telegraph, street railway or illuminating purposes, signs, marquises, bay windows, coal holes and vaults.

To THE BOSTON TRAFFIC COMMISSION, 134 North street, for information relative to regulation of vehicular street traffic on all or any streets, ways, highways, roads and parkways under the control of the City of Boston, the issuing of all permits in connection therewith.

To THE COMMISSIONER OF PUBLIC WORKS, Room 511, City Hall Annex, for information as to the watering, cleaning, lighting and repairing of streets, the construction and care of sewers and catch-basins, the operation of the ferries, the maintenance of bridges and drawbridges and the removal of ashes and offal.

To Room 604, City Hall Annex, for information relative to the supplying or metering of water and the water charges of the city.

To THE HEALTH DEPARTMENT, Room 1107, City Hall Annex, for information relative to the inspection of milk, vinegar, meat, fish and vegetables, the issuance of permits for stables, slaughter houses, etc., smoke nuisances, the existence of contagious diseases, of public health nuisances.

To THE BOARD OF PARK COMMISSIONERS, 33 Beacon street, for information as to the care of the Common, Public Garden, Franklin Park, Franklin Field, Commonwealth avenue, Back Bay Fens, Marine Park, and the small parks and playgrounds in general throughout the city, and as to the extermination of gypsy moths and the charges made for such service. Application may be made to this department for information regarding the public baths and gymnasiums maintained by the city, and with regard to municipal indoor concerts and band concerts, also information relative to Mt. Hope, Evergreen, Fairview and other public cemeteries owned by the City of Boston.

To THE SCHOOL COMMITTEE, 15 Beacon street, for information relative to the operation of the schools of the city.

To THE DEPARTMENT OF SCHOOL BUILDINGS, 11 Beacon street, for information as to the construction and repair of school buildings.

To THE BOARD OF EXAMINERS, Room 1001, City Hall Annex, for information regarding the licensing of persons having charge or control of the work of construction, alteration, removal or tearing down buildings.

To THE STATISTICS DEPARTMENT, Room 76, City Hall, for historical, geographical, political and population facts about Boston; the personnel and accomplishments of present and past municipal administrations; and such similar information as may be found concerning other American municipalities in its Municipal Officials' Reference Library.

To THE WIRE DIVISION OF THE FIRE DEPARTMENT, 103 City Hall Annex, for all information relative to the erection of poles, building of conduits, the installation of all overhead and underground construction and electrical apparatus, as well as for general information relative to the entire division. To Room 1007, City Hall Annex, for permits for the installing of wires and electrical apparatus within buildings of the City of Boston, and for the payment of fees incident to the granting of the privileges above named, and which must be paid in advance.

To THE BOARD OF ZONING ADJUSTMENT, Room 30, City Hall, relative to changes in the boundary lines of zoning districts of the City of Boston as established by chapter 488 of the Acts of 1924, and amendments thereto.

MORTALITY REPORT.

For the week ending June 23, 1934:

Population estimated July, 1934, United States Census Bureau estimate, 795,256; number of deaths (stillbirths excluded): Residents, 146; nonresidents, 40; total, 186.

Death rate per 1,000 of population: All deaths, 12.16; nonresidents deducted, 9.55.

Death rate per 1,000 of population: Last week, 12.10; corresponding week last year, 10.70.

Deaths by age periods, sex, etc.: Under one year, 21; one year to four years, inclusive, 7; sixty years and over, 87. Total deaths: Male, 105; female, 81; deaths in hospitals and institutions, 106; deaths of colored, 9.

REPORTABLE DISEASES: CASES AND DEATHS.*

BOSTON PARK SYSTEM HAS GARDEN OF ECONOMIC PLANTS THAT IS BOAST OF COUNTRY — AS RESULT OF TRIP AUTHORIZED BY MAYOR MANSFIELD, AND MADE BY SUPERINTENDENT HAYDEN, 45 SPECIMENS OF FRUITS AND SPICES USED IN MAKING OF FOOD AND CLOTHING ARE ON EXHIBITION AND IN FLOURISHING CONDITION — MANY USUALLY GROWN ONLY IN TROPICS OR HOT CLIMATES.

The Boston Park Department has flourishing in the Public Garden one of the most attractive features known to any park system, and at the same time most educational. Under the care and guidance of Richard J. Hayden, Superintendent of Parks, and the direction of Commissioner William P. Long, the Park Department has in a flourishing condition 45 specimens of the economic plants from which we derive our food and fruit and spices.

The specimens have been gathered from various parts of the country by Superintendent Hayden, many of the newer ones being obtained this spring on a trip, authorized by Mayor Mansfield for the purpose of collecting them, made to Washington, Philadelphia and New York. Among the more prominent plants are the peanut, the pineapple, the ginger plant, the pawpaw, tobacco plants, the black pepper bush, tea plants and the cocoa trees.

The department even has growing successfully the sugar cane plant, from which much if not most of our sugar comes, and the growing of which is one of the chief industries of Cuba and the Southern United States.

Many of the economic plants, like the coffee and the tomato, have been grown commonly in New England gardens, but never more successfully than under the directing hand of Superintendent Hayden. The group of economic plants is now one of the most attractive in the entire park system.

The specimens being grown are:

KEY TO ECONOMIC PLANTS.

No. 1. Peanuts.
(Arachis Hypogaea.)

Are indigenous to Brazil. They are cultivated extensively in most of the Southern States and in Southern Europe. They belong to the group of plants which have geocarpic fruit.

No. 2. Pineapple.
(Ananas Sativa.)

Is a native of Brazil, and is now cultivated in warm countries of the Eastern and Western Hemispheres. The juicy fruit of this plant is born in the center of a rosette of spiny, rigid, leathery leaves. The fruit is eaten fresh or canned.

No. 3. Ginger Plant.
(Zingiber Officinale.)

Of oriental origan; the hot pungent aromatic rootstock of this plant is used in medicine and cookery. The unscraped rootstock is known as black ginger, the scraped and peeled rootstock is white ginger, the dried rootstock is used in medicine as a stimulant.

No. 4. New Zealand Flax.
(Phormium Tenax.)

Grows wild in New Zealand and the neighboring islands where the fiber was used by the native Maoris, and manufactured by the antiquated method of removing the epidermis from the leaf when newly cut, and separating the fibers by the thumb nails for the making of cloth, rope mats and twine. Today the modern method of rippling, retting and scutching produces high grade linen.

No. 5. Coconut Palm.
(Cocos Nucifera.)

Indigenous to the tropics. The products of the coconut afford food, drink and coconut oil. The wood is known as porcupine wood.

No. 6. Nettle.
(Urtica Dioica.)

This plant is generally despised on account of its stinging nature; its stem is however known to possess an excellent fiber which is used for making fishing lines, cloth, etc. The young shoots are eaten as a wholesome vegetable.

No. 7. Papaw Tree.
(Carica Papaya.)

A native of tropical America and averages about twenty feet in height. The unripe fruit contains a digestive juice pepsin which is used in medicine. The ripe fruits are delicious and similar to cantaloupes in flavor.

No. 8. Tobacco.
(Nicotiana Sanderii.)

Is a member of the nightshade family. It now constitues a most important article of commerce.

No. 9. Bowstring Hemp.
(Sanseviera Zeylanica.)

This plant was used for making bowstrings in the East Indies. The fiber is hair like and silky.

No. 10. Black Pepper.
(Piper Nigra.)

It is a woody climber that produces fruit of yellowish red when ripe. The unripe fruit constitutes the black pepper of commerce, while the white pepper is the ripe berry from which the epicarp is removed.

No. 11. Syzygium Operculata.
(Syn. Syzygium Nervosum.)

Is grown in climates similar to Florida and Southern California. It produces black edible fruit.

No. 12. Ti.
(Dracaena Terminals.)

The common name Ti is used by the inhabitants of New Zealand for this member of the lily family. A spirituous liquor is obtained from the roots of this plant by distillation. It has thick fleshy roots which contain saccharine matter from which the natives extract sugar.

No. 13. Cotton Plant.
(Gossypium Barbadene.)

From the gossypium the cotton of commerce is produced. The bi-products derived from the seeds include linters, hulls, oil and oil meal. It is profitable, cultivated between the twentieth and thirty-fifth parallels north of the equator.

No. 14. Sago Palm.
(Cycas Revoluta.)

Is a native of China and Japan, but is now common in the East Indies and many parts of America. The pith of the stem contains sago which led to its being called Sago Palm.

No. 15. Japan Medlar.
(Eriobotrya Japonica.)

This plant is now knows as Photinia Japonica, and is a member of the Rosaceæ family. It produces an edible fruit.

No. 16. Tea.
(Thea Sinensis.)

A small tree or shrub, native of China and Japan. From the leaves of this shrub is made the tea of commerce.

No. 17. Euphoria Longana.
(Syn. Nephelium Longana.)

Indigenous to India, it produces an edible fruit with white juicy flesh.

No. 18. Vanilla Plant.
(Vanilla Planifolia.)

Is an epiphytic orchid, indigenous to Mexico, and extensively cultivated in tropical countries especially Mexico and Java. It is used in confectionery, perfumery and medicine.

No. 19. Stemless Screw Pine.
(Carludovica Palmata.)

This South American palm-like plant of the family Pandanceæ, it bears palmate leaves four feet across from which Panama hats are woven.

No. 20. Foxglove.
(Digitalis Purpuræ.)

Is one of the most showy biennial spring flowering plants. From its leaves is obtained a most important medicine known as Digitalis.

No. 21. Cocoa Tree.
(Theobroma Cocao.)

This tree is indigenous to countries bordering on the Gulf of Mexico and is now cultivated in many tropical countries. The seeds of these trees are found in large ribbed capsules and is known as the cocoa of commerce.

No. 22. SUGAR CANE.
(Saccharum Officinarum.)

It is found wild as well as cultivated throughout tropical and subtropical Asia. The great supply of sugar comes from the West Indies and Brazil. It is a strong cane-stemmed grass and grows from ten to twelve feet high.

No. 23. RAMIE.
(Bœhmeria Nivea.)

Ramie is the longest and strongest fiber yet known; single fibers are frequently over three feet long. It is sometimes called "Chinese Hemp" and the cloth made from it is variously known as "Chinese Linen and Linen Silk." If the fibers could be extracted cheaply and freed from the gummey substances with which it is surrounded it would profitably replace both cotton and linen. Experiments to this end have been under way for many years, and recently led to much publicity about the plant on the part of the "technocrats." The fiber is in the bast of the stem.

No. 24. AMERICAN ALOE.
(Agave Americana.)

This plant is of great importance to the Mexicans, affording their national drink Pulque, which is obtained by cutting out the young flower bud; the cavity becomes filled with liquor which is collected daily. Pita fiber is procured from these plants.

No. 25. DATE PALM.
(Phœnix Dactylifera.)

Yields the dates of commerce, native of tropical Asia, and has been introduced into the United States where their cultivation in Arizona and Southern California has become an established fact.

No. 26. THATCH PALM.
(Sabal Palmetto.)

As the name implies this is one of the palms employed by the negroes for thatching their huts. It is also used for making hats and baskets.

No. 27. CAMPHOR TREE.
(Cinnamomium Camphora.)

Is indigenous to China, Japan and Formosa and rich in camphor.

No. 28. FAN PALM.
(Rhapis Flabelliformus.)

This palm is a native of Eastern Asia, and can also be seen cultivated on the Riviera. The canes are used for walking sticks.

No. 29. RHAPIS HUMILIS.

This species abounds in Algeria and is cultivated in Southern Europe. The Arabs mix the fiber of this specie with camels' hair for the cloth of their tents and for cordage. It is also used for sails, and has been extensively employed in France under the name of African hair. The leaves are used for making hats, brooms and baskets.

No. 30. CALLIANDRA TWEEDII.
(Syn. Anneslia Tweedii.)

It furnishes railroad ties and lumber for agricultural implements, and carpentry. Its flowers yield a red dye.

No. 31. CASTOR OIL PLANT.
(Ricinus Communis.)

This plant is an annual in temperate regions, but in the tropics it becomes a small perennial shrub. The medicinal castor oil obtained from the seeds of this plant have strong laxative properties. There was a great demand during the World War for castor oil as a lubricant for aeroplanes. The seeds are poisonous.

No. 32. TOMATO TREE.
(Cyphomandra Betacea.)

This number of the Solanaceæ family is a native of South America, produces an edible fruit similar to tomatoes.

No. 33. QUEENSLAND NUT.
(Macadamia Ternifolia.)

Produces an edible fruit with a fleshy exterior encircling a hard shell like a walnut.

No. 34. COFFEE PLANT.
(Coffea Arabica.)

A small evergreen tree indigenous to Brazil and other tropical climates. It is one of the favorite beverages of civilized man.

No. 35. CANDLE NUT.
(Aleurites Triloba.)

A member of the Spurgeworth family and a native of India, Malay, and Japan, and the islands of the Pacific Ocean where it is cultivated for its fruit. It also yields large quantities of oil.

No. 36. ALLIGATOR PEAR.
(Persea Gratissima.)

A native of tropical America and the West Indies. The fruit is a drupe, but in size and shape resembles a large pear, In some regions the avocado fat is recovered for industrial purposes. It is primarily a salad fruit.

No. 37. ROSE OR MALAY APPLE.
(Jambos Malaccensis.)

Is indigenous to the East Indies, and attains a height of twenty-five feet. The fruit is used chiefly for preserves.

No. 38. SOAPBERRY.
(Sapindus Saponaria.)

A slender tree with winged leaves of the soapberry family, native of the West Indies, and in many parts of tropical America. Its fruit is used by the natives as a substitute for soap.

No. 39. SILK OAK.
(Grevilla Robusta.)

A tree of the Protes family, native of Queensland, it attains a height of from fifty to one hundred and fifty feet, with a diameter of from six to eight feet; its timber is very valuable.

No. 40. BRUCEA ANTIDYSENTERICA.

This plant is named after James Bruce, a noted African traveler. The leaves possess many medicinal properties.

No. 41. CALABASH TREE.
(Crescentia Cujete.)

A small tree common in tropical America. The wood is tough and flexible, but by far the most useful part is the hard shell of the fruit, from which, under the name calabash, are made numerous domestic native utensils as well as pipes.

No. 42. BANANA.
(Muss Abysinnica.)

The banana is a tropical fruit grown for its fruit, fiber and foliage. Most of the varieties commonly eaten raw belong to the species Sapientium.

No. 43. SCREW PINE.
(Pandanus Utilis.)

Attains a height of fifty feet in its natural habitat, Madagascar, where it is used for making baskets and other articles. It is said that the idea of the first thimble was conceived from the tip of the arial roots.

No. 44. COMMON ORANGE.
(Citrus Sinensis.)

Its economic importance lies in its valuable fruits. It is cultivated in almost every part of the world of which the climate is warm enough, but succeeds best in the warmer temperate or subtropical climates, as in the peninsula of Florida and the warmer sections of the other Gulf States.

No. 45. SWEET BAY.
(Laurus Nobilis.)

A native of Southern Europe where it attains a height of forty feet. The leaves are aromatic, and used for flavoring custards, puddings, and a few are often packed in fig boxes to give the figs a flavor.

NEW VEHICULAR TUNNEL.

(*Continued from page 625.*)

Toll booths, 14 by 5 feet, will contain two collecting stations, each with a separate door, one opening at its end on one side and the other at the other end on the opposite side. The three doubles cover the six ways, one collector for each separate string, all converging into one at the base of the fan.

Ventilating screens at near intervals continue in the ceiling of the tube from end to end, with the constant stream of fresh air pouring in at all times from a continuous narrow opening extending the entire length of the tube.

WORK BEING RUSHED.

Work is being rushed by the City Public Works Department on Cross street widening, from Hanover, opposite the tunnel entrance to Haymarket square. Merrimac street widening to Chardon street will provide a through approach from the Chardon and Bowdoin square area. To prevent traffic jams in Chardon from Bowdoin square the proposal has been made that the street be made a one-way thoroughfare coming from Haymarket square. It has been argued that by such a traffic ruling Sudbury street would then become jammed with operators seeking to get into the Haymarket square-Cross street thoroughfare to the tunnel without going into Hanover street.

Direct Cambridge street travel to the tunnel at present seems to be most practical by way of Scollay square down Hanover and into the Cross street tunnel entrance.

NEWTON REDUCES WATER RATES.

The city of Newton reduced its water rates 10 per cent in 1932, from 25 to 22.5 cents per 100 cubic feet, and for 1934 has reduced them 11.5 per cent, to a flat price of 20 cents per 100 cubic feet. This reduction was made possible by savings effected by reorganizing the administration and maintenance methods and equipment of the department before and since the beginning of the city's "four-year plan" of water development in 1931.

PROPOSALS ADVERTISED.

Bids have been asked by advertisement in the *City Record* for the following departments. The attention of contractors and others is especially called to the closing time of receipt of such proposals. This will be published weekly.

DEPARTMENT OF SCHOOL BUILDINGS.

Advertises for proposals for roofing work, etc., in the Atherton School. Surety bond will be required in a sum equivalent to the full amount of the contract price. Blank forms for proposals may be obtained at the office of the Department of School Buildings, 11 Beacon street, Boston. Bids, accompanied by certified check in the sum of $500, to be filed at the same office. Duplicate bid, without check, to be filed with the City Auditor.

Bids close Monday, July 2, at 2 p. m.

Advertises for proposals for roofing work, etc., at the Sherwin School. Surety bond will be required in a sum equivalent to the full amount of the contract price. Blank forms for proposals may be obtained at the office of the Department of School Buildings, 11 Beacon street, Boston. Bids, accompanied by certified check in the sum of $500, to be filed at the same office. Duplicate bid, without check, to be filed with the City Auditor.

Bids close Monday, July 2, at 2 p. m.

Advertises for proposals for roofing work, etc., at the Hull School. Surety bond will be required in a sum equivalent to the full amount of the contract price. Blank forms for proposals may be obtained at the office of the Department of School Buildings, 11 Beacon street, Boston. Bids, accompanied by certified check in the sum of $500, to be filed at the same office. Duplicate bid, without check, to be filed with the City Auditor.

Buls close Monday, July 2, at 2 p. m.

Advertises for proposals for erecting and completing fire escapes on the Atherton School. Surety bond will be required in a sum equivalent to the full amount of the contract price. Blank forms for proposals may be obtained at the office of the Department of School Buildings, 11 Beacon street, Boston. Bids, accompanied by certified check in the sum of $400, to be filed at the same office. Duplicate bid, without check, to be filed with the City Auditor.

Bids close Monday, July 2, at 2 p. m.

Advertises for proposals for installing two new boilers in the Ellis Mendell School. Surety bond will be required in a sum equivalent to the full amount of the contract price. Blank forms for proposals may be obtained at the office of the Department of School Buildings, 11 Beacon street, Boston. Bids, accompanied by certified check in the sum of $250, to be filed at the same office. Duplicate bid, without check, to be filed with the City Auditor.

Bids close Monday, July 2, at 2 p. m.

Advertises for proposals for erecting new chain link fence at the Hol a·t Street School. Surety bond will be required in a sum equivalent to the full amount of the contract price. Blank forms for proposals may be obtained at the office of the Department of School Buildings, 11 Beacon street, Boston. Bids, accompanied by certified check in the sum of $300, to be filed at the same office. Duplicate bid, without check, to be filed with the City Auditor.

Bids close Thursday, July 5, at 2 p. m.

Advertises for proposals for removing present engine and piping and for installing new motor in the Wyman School. Surety bond will be required in a sum equivalent to the full amount of the contract price. Blank forms for proposals may be obtained at the office of the Department of School Buildings, 11 Beacon street, Boston. Bids, accompanied by certified check in the sum of $250, to be filed at the same office. Duplicate bid, without check, to be filed with the City Auditor.

Bids close Monday, July 9, at 2 p. m.

Advertises for proposals for installing new radiation in the Wyman School. Surety bond will be required in a sum equivalent to the full amount of the contract price. Blank forms for proposals may be obtained at the office of the Department of School Buildings, 11 Beacon street, Boston. Bids, accompanied by certified check in the sum of $250, to be filed at the same office. Duplicate bid, without check, to be filed with the City Auditor.

Bids close Monday, July 9, at 2 p. m.

Advertises for proposals for roofing work, etc., at the Francis Parkman School. Surety bond will be required in a sum equivalent to the full amount of the contract price. Blank forms for proposals may be obtained at the office of the Department of School Buildings, 11 Beacon street, Boston. Bids, accompanied by certified check in the sum of $500, to be filed at the same office. Duplicate bid, without check, to be filed with the City Auditor.

Bids close Monday, July 9, at 2 p. m.

Advertises for proposals for roofing work, etc., at the Franklin School. Surety bond will be required in a sum equivalent to the full amount of the contract price. Blank forms for proposals may be obtained at the office of the Department of School Buildings, 11 Beacon street, Boston. Bids, accompanied by certified check in the sum of $500, to be filed at the same office. Duplicate bid, without check, to be filed with the City Auditor.

Bids close Monday, July 9, at 2 p. m.

Advertises for proposals for grading, paving, fences, etc., at the Morrison Building. Surety bond will be required in a sum equivalent to the full amount of the contract price. Blank forms for proposals may be obtained at the office of the Department of School Buildings, 11 Beacon street, Boston. Bids, accompanied by certified check in the sum of $500, to be filed at the same office. Duplicate bid, without check, to be filed with the City Auditor.

Bids close Monday, July 9, at 2 p. m.

Advertises for proposals for installing two new boilers in the Joseph Tuckerman School. Surety bond will be required in a sum equivalent to the full amount of the contract price. Blank forms for proposals may be obtained at the office of the Department of School Buildings, 11 Beacon street, Boston. Bids, accompanied by certified check in the sum of $250, to be filed at the same office. Duplicate bid, without check, to be filed with the City Auditor.

Bids close Monday, July 9, at 2 p. m.

Advertises for proposals for making certain changes in the heating system of the Gaston School. Surety bond will be required in a sum equivalent to the full amount of the contract price. Blank forms for proposals may be obtained at the office of the Department of School Buildings, 11 Beacon street, Boston. Bids, accompanied by certified check in the sum of $250, to be filed at the same office. Duplicate bid, without check, to be filed with the City Auditor.

Bids close Monday, July 9, at 2 p. m.

Advertises for proposals for making certain changes to heating system in the Bunker Hill School. Surety bond will be required in a sum equivalent to the full amount of the contract price. Blank forms for proposals may be obtained at the office of the Department of School Buildings, 11 Beacon street, Boston. Bids, accompanied by certified check in the sum of $250, to be filed at the same office. Duplicate bid, without check, to be filed with the City Auditor.

Bids close Monday, July 9, at 2 p. m.

Advertises for proposals for erecting and completing fire escapes on the Howard Avenue School. Surety bond will be required in a sum equivalent to the full amount of the contract price. Blank forms for proposals may be obtained at the office of the Department of School Buildings, 11 Beacon street, Boston. Bids, accompanied by certified check in the sum of $400, to be filed at the same office. Duplicate bid, without check, to be filed with the City Auditor.

Bids close Thursday, July 12, at 2 p. m.

Advertises for proposals for furnishing and setting up steel lockers in the East Boston High School. Surety bond will be required in a sum equivalent to the full amount of the contract price. Blank forms for proposals may be obtained at the office of the Department of School Buildings, 11 Beacon street, Boston. Bids, accompanied by certified check in the sum of $200, to be filed at the same office. Duplicate bid, without check, to be filed with the City Auditor.

Bids close Thursday, July 12 at 2 p. m

Advertises for proposals for furnishing and setting up a new chemical laboratory in the Mechanic Arts High School. Surety bond will be required in a sum equivalent to the full amount of the contract price. Blank forms for proposals may be obtained at the office of the Department of School Buildings, 11 Beacon street, Boston. Bids, accompanied by certified check in the sum of $700, to be filed at the same office. Duplicate bid, without check, to be filed with the City Auditor.

Bids close Thursday, July 12, at 2 p. m.

Advertises for proposals for plumbing work at the Louis Prang School. Surety bond will be required in a sum equivalent to the full amount of the contract price. Blank forms for proposals may be obtained at the office of the Department of School Buildings, 11 Beacon street, Boston. Bids, accompanied by certified check in the sum of $1,000, to be filed at the same office. Duplicate bid, without check, to be filed with the City Auditor.

Bids close Monday, July 16, at 2 p. m.

Advertises for proposals for furnishing and delivering electrically driven air compressor in the Boston Trade School. Surety bond will be required in a sum equivalent to the full amount of the contract price. Blank forms for proposals may be obtained at the office of the Department of School Buildings, 11 Beacon street, Boston. Bids, accompanied by certified check in the sum of $500, to be

filed at the same office. Duplicate bid, without check, to be filed with the City Auditor.

Bids close Monday, July 16, at 2 p. m.

PUBLIC WORKS DEPARTMENT.

Advertises for proposals for sewerage works in Ashmont street, between Adanac avenue and Neponset avenue, and Ashmont street outlet in private land between Neponset avenue and Ashmont street, Dorchester. Surety bond will be required in a sum equivalent to the full amount of the contract price. Blank forms for proposals may be obtained at the office of the Public Works Department, Room 508, City Hall Annex, Boston. Bids, accompanied by certified check in the sum of $2,000, to be filed at the same office. Duplicate bid, without check, to be filed with the City Auditor.

Bids close Tuesday, July 17, at 12 m.

Advertises for proposals for sewerage works in Hyde Park avenue, Hyde Park and West Roxbury. Surety bond will be required in a sum equivalent to the full amount of the contract price. Blank forms for proposals may be obtained at the office of the Public Works Department, Room 508, City Hall Annex, Boston. Bids, accompanied by certified check in the sum of $2,000, to be filed at the same office. Duplicate bid, without check, to be filed with the City Auditor.

Bids close Wednesday, July 18, at 12 m.

PUBLIC WORKS DEPARTMENT (Sanitary Service).

RECEIPTS AND EXPENDITURES, FISCAL

POPULATION OF BOSTON, BY SEX, NATIVITY, ETC., 1930.

Total population, 781,188 (383,454 males and 397,734 females); ratio of males to females, 96.4 to 100 as against 97.2 to 100 in 1920. Native white, 529,400 (260,419 males and 268,981 females) or 67.77 per cent; sex ratio, 96.8 to 100. Of the 529,400 native whites, 200,130, or 37.80 per cent, are of native parentage; 248,653, or 46.97 per cent, are of foreign parentage and 80,617, or 15.23 per cent, are of mixed parentage (*i. e.*, one half native). Foreign-born whites, 229,356 (111,261 males and 118,095 females) or 9,563 less than in 1920; sex ratio 94.2 to 100. The foreign-born whites are 29.36 per cent of total population. Negroes, 20,574 (10,223 males and 10,351 females) or 2.63 per cent of population; sex ratio, 98.8 to 100. The Negro population has increased 4,224 since 1920 and 4,993 since 1915. Other races, 1,858 (1,551 males and 307 females), or 0.24 per cent, comprise 1,595 Chinese, 69 Japanese, 43 Indian, 26 Mexican and 125 miscellaneous. Total foreign white stock, 478,009 (viz., 229,356 plus 248,653) which is 61.19 per cent of all inhabitants.

POPULATION OF UNITED STATES, NEW ENGLAND AND MASSACHUSETTS.

Continental United States (*i. e.*, 48 states and the District of Columbia) in 1930, 122,775,046; outlying possessions, 14,233,389; total, 137,008,435; New England, 8,166,341; Massachusetts, 4,249,614 or 52.04 per cent of New England and ranking eighth in the Union. In density of population Massachusetts ranks second, *i. e.*, 528 per square mile of land, Rhode Island ranking first, with 644 per square mile of land.

Population of the other New England States in 1930, ranking from the highest total: Connecticut, 1,606,903; Maine, 797,423; Rhode Island, 687,497; New Hampshire, 465,293; Vermont, 359,611. Density for New England, 132 per sq. m.; for U. S. (48 states and the District of Columbia) 41 per sq. m.

The population of the United States increased 16.1 per cent since 1920; that of New England 10.3 per cent and that of Massachusetts 10.3 per cent.

CHICAGO POLICE.

Although the numerical strength of the Chicago police department has been reduced in the last two years from approximately 6,700 to 6,000, the number of men on foot patrol has been increased 150 per cent, or about 1,900.

BUILDINGS RAZED.

The Mayor has approved the request of the Building Department to be permitted to raze the following structures as fire menaces or nuisances:

To take down the building at 39 New street, Ward 1.

To take down the building at 337 Marginal street, Ward 1.

To take down the building at 385 Bowdoin street' Ward 15.

To take down the building at 379 Bowdoin street, Ward 15.

To take down the building at 15 Tyler street, Ward 3.

To take down the building at 223½ West Fourth street, Ward 6.

The buildings at 92 and 94 and 96 and 98 Gold street, Ward 6, are in an unsafe and dangerous condition, dilapidated and a fire hazard. The owner, Mary E. Kiley of 325 Reservoir road, Brighton, has been notified of the unsafe condition of the buildings, but nothing has been done to remove the cause of complaint.

The building at 39 New street, Ward 1, the front section is torn away at foundation, open to wind and weather and a fire menace. The owner, Salvatore DiGiovanni of 33 New street, East Boston, was notified of the unsafe condition of the building, but nothing has been done to remove the cause of complaint.

The building at 337 Marginal street, Ward 1, the entire structure is badly dilapidated, posts, sills, girts and studding show dry rot; structure out of plumb. We have been unable to locate the owner of record, Massachusetts Air Ferries, Incorporated, but a notice of the unsafe condition has been posted on the external wall of the building. Nothing has been done to remove the cause of complaint.

The building at 293 West Fourth street, Ward 6, is in an unsafe and dangerous condition, dilapidated and a fire hazard. The owner, William F. Gaffney of 5 Gates street, South Boston, has been notified of the unsafe condition of the building, but nothing has been done to remove the cause of complaint.

The buildings in the rear of 451 Washington street, Ward 17, and reported as follows: Wood and metal building, roof is all open, building in bad repair. Wood building, building is badly dilapidated; in bad state of decay; all open to elements. The owner, Jacob Cohen of 54 Brainerd road, Allston, has been notified of the unsafe condition of these two buildings, but nothing has been done to remove the cause of complaint.

The building at 14, 16 and 18 Brighton street, Ward 3, is dangerous and a fire menace; fire occurred in building and was never repaired; section of rear wall fell out; front wall bulged and loose at stair iron; building vacant and partly boarded up. The owner, Elizabeth Peyser of 28 Burgess street, Dorchester, has been notified of the unsafe condition of the building, but nothing has been done to remove the cause of complaint and the owner informs us that she is financially unable to have the building removed.

CITY PURCHASING UNDER THE CODES.

Caught between two fires, American cities are feeling the influence of the National Industrial Recovery Act codes in their purchasing in a way they had not foreseen. On one side taxpayers ask for economy in budget-making. On the other, application of codes, which has resulted in collective price-fixing, has increased prices of supplies for city use to an almost prohibitive point.

CONTRACTS AWARDED.

Permission to award contracts for work, materials and supplies, in accordance with recommendations of department heads, has been approved by the Mayor.

DEPARTMENT OF SCHOOL BUILDINGS.

Upon June 22, the Mayor approved a contract with Fred Medart Manufacturing Company, Thorp & Martin Company, agents, for gymnasium equipment at the William Barton Rogers School. Bids, opened on June 21, 1934, were as follows:

Singarella Company, $51,526; Carilli Construction Company, $50,138.44; Baker, Matz & Co., $46,786.75.

* Contract awarded.

WITHOUT ADVERTISING.

Upon varying dates as indicated the Mayor has approved contracts with the several firms indicated for supplies and work. Communications from the heads of the departments interested were as follows:

PUBLIC WORKS DEPARTMENT.

Upon June 19 the Mayor approved a contract for sewerage works in Everett street, Brighton. A communication from the Commissioner of Public Works was as follows:

BOSTON, June 2, 1934.

To the Mayor of Boston.

It is the intention of this department to construct sewerage works (a concrete conduit and pipe sewer) in Everett street, Brighton, which will run under the Boston & Albany Railroad tracks.

This is a section of the easterly branch of Shepard brook, a P. W. A. project.

It is customary for the railroad to assume all the responsibilities and do all the construction work necessary to support the tracks to carry traffic while work of this kind is in progress.

Conferences have been held with the railroad for this work and contract forms have been agreed upon by the legal department of both the city and the railroad.

The estimated cost of the work is $22,500.

Your permission is requested for the award of a contract, without advertising, to the New York Central Railroad, lessee of the Boston & Albany Railroad, for doing the work above outlined at a cost not to exceed $22,500. This work can be done only by the New York Central Railroad.

Respectfully,

C. J. CARVEN,
Commissioner of Public Works.

LAND-TAKING IN WEST ROXBURY.

The Mayor has approved the order of the Board of Street Commissioners for the taking of land for a public improvement consisting of the laying out and construction of Peak Hill road, West Roxbury district, as a highway, from Cerdan avenue to West Roxbury Parkway, bounded and described as follows:

A highway named Peak Hill road is hereby laid out, from Cerdan avenue to West Roxbury Parkway, and ordered constructed.

Said highway and the land, exclusive of trees or structures standing upon or affixed thereto, in which an easement for street purposes is hereby taken, is bounded and described as follows:

Southeasterly by Cerdan avenue, sixty and 6–100 feet; westerly by the westerly line of said Peak Hill road as hereby laid out, sixteen and 13–100 feet on a curve of ten feet radius; southwesterly by the southwesterly line of said Peak Hill road as hereby laid out, nine hundred twenty-five and 88–100 feet; westerly by West Roxbury Parkway, forty-two and 7–100 feet; northerly by the northerly line of said Peak Hill road as hereby laid out, twenty feet; easterly by the easterly line of said Peak Hill road as hereby laid out, eleven and 99–100 feet on a curve of ten feet radius; northeasterly by the northeasterly line of said Peak Hill road as hereby laid out, nine hundred sixteen and 1–100 feet; and northerly by the northerly line of said Peak Hill road as hereby laid out, fifteen and 29–100 feet on a curve of ten feet radius.

Trees or structures standing upon or affixed to the aforedescribed land shall be removed therefrom within sixty days following a notice of the city's intention to enter upon said land for the purpose of constructing said improvement.

Betterments are to be assessed for the making of the aforesaid improvement.

Ordered, That this Board estimates that the abutting lots of land on both sides of Peak Hill road as laid out under this order, from Cerdan avenue to West Roxbury Parkway, will receive benefit or advantage, beyond the general advantage to all real estate in said city, from the improvement herein ordered; each of said lots to the amount hereinafter respectively set against it; said lots and the supposed owners thereof being shown on a plan marked "City of Boston, Peak Hill Road, West Roxbury, Assessment Plan, June 11, 1934, William J. Sullivan, Chief Engineer, Street Laying-Out Department," and on file in the office of said department.

Voted, That this Board determines that no person sustains damages in his estate by the making of the public improvement, consisting of the laying out and construction of Peak Hill road, West Roxbury district, as a highway, from Cerdan avenue to West Roxbury Parkway, under the order of the Board of June 26, 1934, and awards no damages therefor.

POLICE DEPARTMENT ORDERS.

General Order No. 509.

The resignation of Patrolman Henry S. Muldoon of Division 13, having been presented, while charges against him are pending, it is hereby accepted to take effect Friday, June 29, 1934, at 5.45 o'clock p. m., seven days' notice waived.

The Superintendent of Police will promulgate this order.

EUGENE C. HULTMAN,
Commissioner.

LAND-TAKING IN DORCHESTER.

The Mayor has approved the order of the Board of Street Commissioners for the taking of land for sewerage works, to be constructed as follows:

The right and easement is taken to lay and maintain sewerage works in the following described lands, exclusive of any interest in trees, buildings or other structures standing thereon, reserving to the owners thereof the right to use the lands for any purpose except such as may injure or obstruct said works, and except for placing or maintaining any structure on said lands not authorized in writing by the Mayor of said city; trees, buildings or other structures standing upon or affixed to the land in which an easement is hereby taken are to be removed therefrom within sixty days following a notice of the city's intention to enter upon said taking for the purpose of constructing said sewerage works. Said lands are in that part of Boston formerly Dorchester and are bounded as follows:

A parcel of land, supposed to belong to Dorothy Dyer Murphy, bounded:

Northwesterly by Ashmont street, ten and 5–100 feet; northeasterly by easement taken by the City of Boston for sewerage purposes in December, 1895, one hundred feet; southeasterly by land hereinafter described as taken from Cornelius J. O'Brien and Helena A. O'Brien, ten and 4–100 feet; southwesterly by other land supposed to belong to said Murphy, one hundred and 3–100 feet, containing one thousand square feet, more or less.

A parcel of land, supposed to belong to Cornelius J. O'Brien and Helena A. O'Brien, bounded:

Northwesterly by land hereinafter described as taken from Murphy, ten and 4–100 feet; northeasterly by easement taken by the City of Boston for sewerage purposes in December, 1895, one hundred eighty and 80–100 feet; southerly by land hereinafter described as taken from owners unknown (Coffey street), ten and 65–100 feet; and southwesterly by other land supposed to belong to said O'Brien *et al.*, one hundred seventy-eight and 6–100 feet, containing seventeen hundred and ninety-four square feet, more or less.

A parcel of land, owners unknown, being part of the private way known as Coffey street, bounded:

Northerly by land hereinbefore described as taken from O'Brien *et al.*, ten and 65–100 feet; easterly by another part of Coffey street, sixteen and 27–100 feet; southerly by easement taken by the City of Boston for sewerage purposes in November, 1897, ten and 56–100 feet; and westerly by another part of Coffey street, sixteen and 25–100 feet, containing one hundred and seventy square feet, more or less.

A parcel of land, owners unknown, being part of the private way known as Coffey street, bounded:

Northerly by easement taken by the City of Boston for sewerage purposes in November, 1897, ten and 52–100 feet; easterly by another part of Coffey street, sixteen and 45–100 feet; southerly by the southerly line of Coffey street, ten and 40–100 feet; and westerly by another part of Coffey street, sixteen and 26–100 feet, containing one hundred and sixty-eight square feet, more or less.

A parcel of land, supposed to belong to Lawrence Realty Corporation, bounded:

Northerly by land hereinbefore described as taken from owners unknown (Coffey street), ten and 40–100 feet; easterly by other land supposed to belong to said corporation, one hundred forty-two and 43–100 feet; northeasterly by the same, fourteen and 92–100 feet; again northerly by the same, forty-four and 94–100 feet; easterly by other land hereinafter described as taken from said corporation, ten and 6–100 feet; southerly by land supposed to belong to Robinson, sixty-five feet; and westerly by other land supposed to belong to said corporation, one hundred sixty-four and 30–100 feet, containing twenty-two hundred and thirty-three square feet, more or less.

A parcel of land, supposed to belong to Lawrence Realty Corporation, bounded:

Westerly by land hereinbefore described as taken from Lawrence Realty Corporation, ten and 6–100 feet; northerly by other land supposed to belong to said corporation.. sixty-five feet; easterly by other land hereinafter described as taken from said corporation, ten and 6–100 feet; and southerly by land supposed to belong to Robinson, sixty-five feet, containing six hundred and fifty square feet, more or less.

A parcel of land, supposed to belong to Lawrence Realty Corporation, bounded:

Westerly by land hereinbefore described as taken from said corporation, ten and 6–100 feet; northerly by other land supposed to belong to said corporation, sixty-five feet; easterly by land hereinafter described as taken from said corporation, ten and 6–100 feet; and southerly by land supposed to belong to Robinson, sixty-five feet, containing six hundred and fifty square feet, more or less.

A parcel of land, supposed to belong to Lawrence Realty Corporation, bounded:

Westerly by land hereinbefore described as taken from said corporation, ten and 6–100 feet; northerly by other land supposed to belong to said corporation, one hundred ten and 33–100 feet; easterly by easement taken by the City of Boston for sewerage purposes January 25, 1893, ten and 20–100 feet; and southerly by other land supposed to belong to said corporation and by land supposed to belong to said Robinson, one hundred seven and 18–100 feet, containing ten hundred and eighty-seven square feet, more or less.

A parcel of land supposed to belong to Lawrence Realty Corporation, bounded:

Westerly by easement taken by the City of Boston for sewerage purposes January 25, 1893, one hundred fifty-six and 76–100 feet; northerly by other land supposed to belong to said corporation, ten and 20–100 feet; easterly by the same, one hundred thirty-six and 84–100 feet; northeasterly by the same, fourteen and 84–100 feet; again northerly by the same, by two measurements, one hundred eighty and 93–100 feet and seventy-nine and 52–100 feet; easterly by Neponset avenue, eleven and 2–100 feet; and southerly by land supposed to

belong to Hagan, Perriello *et al.*, Massachusetts Co-operative Bank, Burnett, Riley *et al.*, and Tyrrell, by two measurements, eighty-four feet and two hundred two and 71–100 feet, containing forty-three hundred and seventy-four square feet, more or less.

The sewerage works to be constructed are as follows: 285 linear feet of 3-foot 6-inch and 850 linear feet of 3-foot 3-inch circular concrete conduit and 80 linear feet of 24-inch d. s. pipe surface drain, in the above described premises, being private land between Ashmont street and Coffey street, part of the private way known as Coffey street, and private land, between Coffey street and Neponset avenue.

Voted, That this Board determines that no person sustains damages in his estate by the taking of an easement for sewerage purposes and the construction of sewerage works therein, under the order of the Board of June 25, 1934, and awards no damages therefor.

CIRCULAR LETTER NO. 11.

MAYOR'S OFFICE, June 22, 1934.

To all Heads of Departments.

GENTLEMEN,—The following information is requested with regard to your department:

1. Internal Departmental Organization.

Description of manner in which departmental duties are separated, between divisions or otherwise, and names of divisions, if any.

2. Kind and Volume of Work.

Please express this in sufficient detail to give an adequate description by divisions, or by other method of separating departmental duties.

3. Personnel.

By division or other internal separation. Give total number of permanent and of temporary employees as of June 1 for each of the past five years. If temporary personnel fluctuates greatly during the year please tabulate by months for 1932 and 1933.

4. City Property.

(Other than current supplies and office equipment and the like.) Give location and description of such city property held or maintained by the department on January 1, 1934.

5. General.

Brief history of the department under present charter. Brief history of more important departmental changes since 1909, and any statutes relevant to the functions of your department not listed in the 1933 Municipal Register.

Please forward detailed information to this office at your earliest convenience.

Very truly yours,

FREDERICK W. MANSFIELD,
Mayor.

PLUMBING PERMITS ISSUED JUNE 21 TO JUNE 27.

REPORT TO THE BOARD OF COMMISSIONERS OF SCHOOL BUILDINGS BY THE SUPERINTENDENT OF CONSTRUCTION OF A SURVEY AND STUDY TRIP THROUGH SOME OF THE PRINCIPAL CITIES OF THE COUNTRY.

The following is the report of a trip made by William W. Drummey, Superintendent of Construction, Department of School Buildings, to several cities of the West, in the line of ascertaining information on their methods of operation, construction, etc.

Your superintendent left on February 24, accompanied by a secretary. He proceeded by rail, and planned, as far as weather permitted, on a visit to St. Louis, Chicago, Detroit, Cleveland, Philadelphia and New York.

In the report herewith appended these cities will be called A, B, C, D, E and F, without reference to the order above, so that comments can be made freely without what might be violating hospitality. The commission will be informed privately in another communication which of the cities is assigned to the different letters.

Everywhere your superintendent was received with the greatest courtesy and every facility for making inquiry was extended.

In each city we consulted the existing authorities of the school systems, investigated actual buildings, studied their office system, secured copies of their plans and specifications and studied them, besides going into conference with the individuals in charge.

Before leaving Boston, each of the division heads and the deputies of the department were requested to submit to me questions on points of construction in which they desired information, in so far as it applied to their particular work, and from these questions I compiled a questionnaire of some forty items, which were answered in each of the respective cities.

While weather conditions throughout were continually stormy, nevertheless, we were able to hold to our schedule and complete the information sought, despite personal illness during the last several days.

SECTION II.

Construction.

Herewith please find the questions and answers to our questionnaire.

1. Of what are exterior walls composed?

"A," Solid brick, Indiana limestone trim, local granite, practically sandstone for base courses. "B," Terra-cotta trim used throughout with very unhappy results. Seems to be forced on the city. Cracks badly. "C," Brick veneer. "E," Brick and limestone trimming. "F," Brick and limestone, some terra cotta.

2. Of what are interior walls composed?

"A," Terra-cotta block tile. "B," Tile partitions, corridors glazed brick. "C," Glazed brick finish. "E," Tile partition, cement mortar. "F," Steel channel studs, wire lathed, back plastered.

3. What is the backing of exterior walls?

"B," Solid masonry. "C," Hollow tile. "E," Almost entirely solid brick. Have used terra cotta. Dissatisfied with it and are getting away from it. "F," Some terra cotta.

4. Do you use a patented structural floor system?

"A," Do not use any patented system. Space between beams is filled with terra-cotta block, plastered direct, occasionally long-pan. The direct plastering of ceilings on terra-cotta block fill is unsatisfactory. Plaster falls. "B," Reinforced concrete and steel tile arches, one way. No patented system. "C," Tin pan construction, one way. "E," Joist construction, one way. "F," Reinforced concrete, two ways.

5. Of what is the material of your finished classroom floors?

"A," Cork carpet, linoleum or mastic tile. "B," Wood. "C," Maple. "E," Maple. "F," Maple.

6. Of what is the material for your shop floors?

"A," Wood, blocked wood. "B," Printing granolithic, all others wood. "C," Edged grain fir. "E," Maple. "F," Machine shop granolithic, others wood.

7. Of what is the material for your gymnasium floors?

"A," 1¼-inch Maple. "B," Maple. "C," Maple. "E," Maple. "F," Maple.

8. What do you use for trim on classroom doors and windows?

"A," Wood, mostly oak. "B," Wood. "C," Wood trim. "E," Wood. "F," Metal trim occasionally.

9. Are stairs in towers or at end of corridors, and if so, how protected?

"A," Concrete stairs, with terrazzo treads, treads made with alundum grit. "B," Four stories towers, three stories corridors. "C," Corridors.

10. What is your method of fire protection?

"A," Seem to have no law on egress or smoke hazard. Stairs entirely unprotected. No smoke partitions or towers. Occasionally hand extinguisher. Each school has city fire alarm box and has its private break-glass system.

11. What is your experience with cast stone?

"A," Where used on exterior, unsatisfactory. They are all through with it. "B," Do not use. "C," Not now. Have tried it and found later soaking through. "E," No. Tried it and it was not satisfactory. "F," Not used.

12. Do you use standard exterior brick?

"A," Do not use any standard face brick. They can purchase good local brick at $20 a thousand on the job. "B," Stone trimming or terra cotta. "C," Yes; for appearance principally. "E," Red face-brick. "F," Has not proven satisfactory.

13. What is your experience with exterior brick walls leaking?

"A," They do not have the driving rain which we do on the Coast, but they do have leaking walls and have come to the conclusion that their mortar joints are too wide, having gone up as high as one half inch with it. They were using too much cement in mortar. There are many signs of leaks. "B," Existing brick walls leak. All exterior walls are furred. "C," Due to higher percentage of cement in mortar, they leaked. "E," Yes. "F," Not troubled at all.

14. Do you use vaulted wall construction?

"A," Do not use vaulted walls, but are trying to lay emphasis and supervision on well-shoved bricks and well-filled end-joints. "B," Do not use. "C," Yes; sometimes. "E, No. "F," Do not use.

15. What do you use besides slate for blackboards?

"A," All slate. Back of rooms usually omit blackboards but use tackboards. "B," Slate. "C," Slate. "E," Slate. "F," Slate.

16. Have you ever used a reinforced concrete building?

"A," They have none, never have, and have not even thought about it. "B," Have some erected in this manner. Experience satisfactory. "C," Reinforced concrete, skeleton construction sometimes. "E," No. "F," No; reinforced concrete is slower to construct. Better brick construction than concrete.

17. Do you use screeds under wood floors over concrete?

"B," Wood; fir creosoted. "C," Wood sleepers impedded in cinder concrete. "E," Long yellow pine, dipped in creosote. "F," Spruce.

18. What is the size of your standard classrooms for Elementary, Intermediate and High Schools?

"A," Have abandoned Intermediate Schools and in general their classrooms are bigger than ours, averaging 32 by 44. Height of classrooms, 12 feet 6 inches. "B," Elementary and Intermediate, 24 by 30; High Schools, 22 by 30. "C," Elementary, 24 by 30; High Schools 22 by 30. "E," 23 by 30, all types. "F," Elementary, 24 by 28; Junior High, 24 by 28; High Schools, 23 by 28.

19. What is your procedure on faithful performace bonds, in so far as it applies to the amount of the bond?

"B," Full face of contract. "C," Full face. "E," Full face of contract. "F," Full face.

20. What guarantee bond do you use on maintenance other than roofing?

"B," One to two years. "C," Two years. "E," 3 per cent of contract held back one year. "F," Two years.

21. Do you use a unit price for blasting, filling, piling and concrete?

"B," Unit price. "C," Unit price. "E," Unit price. "F," Unit price.

22. When you have waterproofing, do you use any particular system.

"B," Depends entirely upon selection of their own architect. "C," Integral waterproofing, Ironite system. "E," Western Waterproofing Co. "F," Membrane.

23. Do you use sand-lime bricks?

"B," Common brick used throughout. "C," Yes. "E," No. "F," For backing.

24. What is your height for five courses of brick?

"B," 2¼ inches to 2¾ inches per course, depending upon design. "C," 13¾ inches. "E," 12½ inches. "F," 13 inches.

25. What has been your experience with terra cotta, or cinder or concrete, tile back?

"B," Do not care for it, as it opens up. "C," Not used generally. "E," Do not use terra cotta. "F," Do not use terra cotta.

26. What do you do to keep granolithic floors from dusting?

"A," They have better results with their granolithic than we do, and it seems for that reason that there is one change in the aggregate. For their stone they use trap

rock as coarse as it is possible to trowel. They do not use any hardening and it does not dust. "B," Do nothing at all. "C," Repello light oil. "E," Three coats of floor hardener when building is completed (Sonneborn Co. Mfg.). "F," Paint floors.

27. Do you use any patented composition floors?

"A," They do not use any proprietory composition floors. "B," Use rubber tile floor in corridors, selected by architect. "C," Do not use. "E," Do not use any. "F," Not used.

28. Do you have standards of colors for classroom walls?

"B," Buff, lower portion darker buff. "C," Buff. "E," Buff. "F," Buff.

29. Do you weld your structural steel?

"B," Do not weld. "C," In isolated cases. "E," No. "F," Do not weld.

30. Do you use Bar-Z studding or Truscon framing?

"B," Not used; not desired. "C," Never used. "E," Do not use. "F," Not used.

31. Is your School Department amenable to local building laws?

"B," Mayor has no control. "C," Mayor has no jurisdiction. "E," Yes; only connection with the City Government. "F," Mayor has no control.

32. Do you use austral windows?

"B," Yes. "C," Yes; satisfactory for particular types of rooms. Not used in general. "E," In auditoriums only. "F," Yes.

33. Do you use steel sash windows?

"B," Yes. "C," In particular cases. "E," Do not use. "F," Not to any extent.

34. What wood do you use for interior finish?

"B," Oak. "C," Red oak. "E," Northern white pine. "F," Pine generally, with white ash muntins.

35. What wood do you use for classroom floors?

"B," Maple. "C," Maple. "E," Maple. "F," Maple.

36. What do you use for classroom wardrobe floors?

"B," Lockers used entirely. "C," Metal lockers are used entirely, 15 by 15 by 60 and 15 by 15 by 72, two shelves. "E," Wardrobes not used. "F," Maple.

37. What is your experience with acoustical treatments?

"A," They find acoustical plaster is not desirable and does not work, but where they have used acoustical material, such as acoustic-celotex panels, it is satisfactory. "B," Gymnasiums, swimming pools, libraries and band rooms; satisfactory. "C," Musical rooms and gymnasiums celotex, U. S. Gypsum also. "E," Do not use. "F," Acoustical plaster on auditoria, music rooms and cafeterias.

38. Do you use Master Keys?

"B," Yes. "C," Yes. "E," Yes. "F," Yes.

39. Do you use burlap?

"B," Canvas throughout as dadoes in classrooms. "C," No. "E," No. "F," No.

40. Do you use any particular kind of glass for windows?

"B," $\frac{3}{16}$-inch plate or D. S. glass. "C," Pittsburgh-Burman standard double strength. "E," No special kind. "F," Crystal glass.

41. What is the net height of classrooms in your Elementary, Intermediate and High Schools respectively?

"B," 13 feet 6 inches 22-foot rooms' 14 feet 6 inches 24-foot rooms. "C," 12 feet in all. "E," 12 feet 4½ inches for all. "F," 15 feet 1½ inches all types.

42. Do you use metal ceilings?

"B," No. "C," No. "E," No. "F," No.

43. What is the height of your parapet walls above roof at the roof?

"B," Depends in every case upon design of building. "C," 18 inches to 5 feet depending on type of building. "E," 4 feet 6 inches. "F," 3 feet by law, depends on design.

44. What are your provisions for making parapet walls tight?

"B," Face brick front, interior pavers, copper flashing. "C," Membrane waterproofing underneath coping, copper strip underneath coping. "E," Double-faced 13-inch wall, reinforced waterproofing under coping. "F," Flashed carefully and stone coping with few joints.

45. What are your means of accessibility to the roof?

"B," Stairs leading to fireproof door. "C," Scuttle to roof, also strairway. "E," Stairs leading to fireproof door. "F," Stairs to roof fireproof door.

46. Is your roof slab construction the same as your floor construction?

"B," Yes. "C," Yes. "E," Yes. "F," Yes.

47. Do you use pitched roofs?

"B," Yes; when design calls for it. "C," Occasionally. "E," No. "F," Use occasionally.

48. Where does the responsibility for physical property, old and new, lie?

"B," Board of Education entirely. "C," Superintendent of School Properties and Landscape Gardens. "E," Entirely under their Building Department. "F," Superintendent of Buildings has complete charge.

49. Do you paint the plaster in a new building immediately?

"A," Do not paint a new building for approximately one year after erection, which gives the cracks a chance to show up, and with a sanded finish the plaster does not give a displeasing effect. ("B," "C," "D," "E," "F," no experience.)

50. Do you use auditoria for study rooms?

"A," Built as such. Auditoria rarely used for study rooms. Offhand, their study rooms are really two or three classrooms and planned accordingly.

51. Who does your field inspection?

"B," Own supervision. "C," Own inspectors. "F," Own inspectors.

52. What particular kind of sizing do you use on plaster before painting?

"C," Wall hide, manufactured by Pittsburgh Paint and Glass Company. "F," Not used, paint direct.

53. What do you use for furniture in Science Room?

"B," Wood. "C," Ordinary chairs and tables. "E," Tables, average size for that room, eight to a room, four students to a table. "F," Standard wood furniture.

54. Do you use Kewanee furniture?

"B," No. "C," Yes. "E," No. "F," No.

55. Do you specify any particular manufacturer by number or name for furniture?

"B," No. "C," No. "E," No. "F," No.

56. Is your furniture movable or fixed?

"A," In general they use movable, adjustable chair and desk (one piece). Except back seat and top, it is made of tubular steel. (Those parts are wood.) Great latitude seems to be allowed teachers in twisting furniture any way which seems good to them, with no regard to aisle space or lighting. Where furniture has to be fixed, it is screwed to maple floor, which is made fast on beveled screeds set in concrete. "B," Both movable and fixed. "C," Movable generally; depends upon master of school. "E," Fixed. "F," Mostly fixed; experience satisfactory.

57. Do you prefer lockers or wardrobes?

"A," Lockers are located in corridors, recessed. "B," Recessed lockers in corridors only. "C," Lockers recessed in hall, wardrobes not used at all. "E," In Elementary Schools, cloak rooms; Junior High and Senior High Schools, lockers with combination locks in corridors. "F," Wardrobes located in classrooms.

58. Do you use high or low pressure or vacuum systems for heating?

"A," High or low pressure steam without any direct radiation, relying on forced fan system of temperature control, air recirculated and washed through both oil and water filters. "B," Use both high and low. "C," Low pressure. "E," Low pressure. "F," Low pressure as a rule.

59. Have you abandoned the central fan system in new building?

"B," No. "C," No. "E," Yes. "F," Vent units in classes, fan system for auditoria.

60. What do you think is the best type of unit heater?

"A," In general they do not use unit heaters but have tried in auditoria and similar places one or two Sturtevant blowers. "B," Uni-vents generally used, Sturtevant or Herman Nelson. "E," Never experienced with same. "E," Strongly "Nesbit." "F," Peerless Uni-Vent, Moline, Herman Nelson.

61. Are your new installations oil or coal burning?

"A," Coal is used exclusively as fuel and is purchased very cheap. The coal varies between what we know as soft coal and screening and the larger pieces which are known as Cannel coal. "B," Coal. "C," Coal. "E," Coal. "F," Coal.

62. Who furnishes temporary heat?

"A," Furnished by City. "B," Furnished by Contractor. "C," Furnished by Board of Education. "E," Furnished by Contractor. "F," Furnished by Contractor.

63. Do you use gravity vents?

"A," Gravity vents in all classrooms. Panels in classroom doors. Fans above vents at roof for toilets only and baffle plates at bottom of classroom windows made of glass and non-adjustable, set in rubber. "B," Yes. "C," Yes. "D," Yes. "E," Yes. "F," Yes.

64. Do you use sprinklers?

"A," Sprinklers are not used anywhere. "B," Not used. "C," In shops. "E," No. "F," Hazardous shops only.

65. Do you use fire risers?

"A," Fire risers are only in the so-called vocational schools, which are in town high buildings. "B," Not used. "C," No. "E," Yes. "F," Required only in five-story buildings.

66. Do you use self-closing faucets?

"A," All faucets are self-closing. "B," Self-closing. "C," Self-closing. "E," Self-closing. "F," Self-closing,

67. Do you use soapstone sinks where hot water is connected?

"B," No. "C," Isolated cases only, chemical laboratories. "E," Yes. "F," Yes; in laboratories.

68. What do you use for waste from chemical laboratory sinks?

"B," Durion. "C," Durion. "E," Soapstone. "F," Durion.

69. What type of floor pipes from water-closets and urinals?

"B," Durion. "C," Cast iron. "E," G. I. water pipe for both. "F," Cast iron.

70. Do you use any particular kind of water-closets and urinals?

"A," Water-closets, seat split fronts and are automatic flushing upon being relieved of weight. The urinals are porcelain battery controlled by flushometer, being one step off the floor on platform. "B," Wall hung closets and floor urinals. "C," Ordinary fixtures, water-closets split seats. "E," Standard Plumbing Co. make. "F," Standard Plumbing Co. sanitary wall urinal, automatic flushing; toilets open front seats.

71. What type of bubbler head do you use on drinking fountains?

"B," Standard make, Crane Manufacturing Co. "C," Halsey-Taylor No. 612, or similar, side stream. "E," Halsey-Taylor No. 612. "F," Standard, with head guard.

72. Do you use gang showers in High Schools?

"A," Boys have gang showers, girls individual showers. "B," Yes. "C," Both gang and individual. "E," Yes. "F," Gang showers for boys, individual showers for girls.

73. Do you use a yard shower for playgrounds?

"B," No. "C," Do not use. "E," Not used. "F," No.

74. What do you use for toilet room floors above the basement for waterproofing?

"B," Concrete floor, tile finishing. "C," Lead pans. "E," Do not waterproof floors except showers. Use lead pans and brick reinforced. "F," Membrane.

75. What is your experience with streamline copper piping for water supply pipe in place of brass?

"A," All supplies are run in brass. "B," Use G. I. steel. "C," Steel pipe. "E," Brass. "F," Brass throughout.

76. Do you use instantaneous or storage heaters for hot water?

"A," Domestic hot water is dependent upon operation of hot water boilers. In the summer they do not have any hot water. "B," Storage. "C," Storage. "E," Storage. "F," Storage.

77. Who does your domestic engineering?

"B," Furnished by their own Building Department. "C," Have outside firm draw plans, subject to check and Architect's approval. "E," Furnished by their own Department. "F," Furnished by their own Building Department.

78. What is the distance from the bottom of your electric fixtures to the floors in the classrooms?

"A," 10 feet 6 inches in classrooms. "B," 9 feet. "C," 10 feet. "E," 9 feet or 10 feet. "F," 9 feet generally.

79. What is the wattage used in shops, gymnasiums and classrooms?

"A," Shops are about 200 watts and in gymnasiums 300. "B," Classrooms 100, shops 200, gymnasiums 300–500. "C," Standard classrooms 150 each, gymnasiums 300 and higher, shops 12 foot candles. "E," 200 and 300 in drawing room, classrooms 150 R. R. filter, No. 250. "F," Classes 100, shops 200, gymnasiums 300–500.

80. What unit do you use in shop lighting?

"A," In shops, unit is RLM Benjamin. "B," Glass steel diffuser. "C," RLM reflector. "E," Glass steel diffuser. "F," Benjamin steel diffusing globe.

81. Are your fixtures direct or indirect?

"A," All fixtures are direct. "B," Semi-indirect. "C," Semi-indirect. "E," Shop indirect, classroom semi-indirect "F," Semi-indirect.

82. Do you use three-case glass for fixtures?

"A," Single-case glass is used. "B," Not used. "C," Now using it; satisfactory. "E," Not used. "F," Do not care for it.

83. Do you use rectifier system or low tension?

"A," They do use a rectifier system. "B," Just on transformers, dismissal bell operated 100 lighting circuit. "C," Battery system. "E," Rectifier. "F," Off house current.

84. If rectifier is used, do you float a battery for emergency use?

"A," Float battery on to the line for emergency use. All clocks are master clock with secondary electrics. "B," Use triple charger. "C," Float battery on line. "E," Yes.

85. Is your fire alarm system connected to the city system?

"B," Not at present, but plan to. "C," Yes. "E," No. "F," Yes.

86. Do you use radio and inter-communicating telephone?

"A," Radio is not used in the classes or are they wired for it in general. Intercommunicating telephones in all buildings. "B," Yes. Radio wired, but not in use. "C," Radio, yes, but have temporarily suspended telephones. "E," Telephone, yes, Radio, no. "F," High Schools, yes; Elementaries, not as a rule.

87. What is the foot candle furnished for gymnasiums, classrooms and shops?

"A," Foot candle in classrooms 5, shops 7. 150-watt lamps, 4 outlets in classrooms. No provision is made for teacher's light. There are two switches controlling 4 outlets. The switches are not lock switches in general. "B," Gymnasiums 3, classrooms 508, shops 8. "C," Gymnasiums 5, shops 8, classrooms 5–8. "E," Gymnasiums 12–18, classrooms 2 watts per square foot, shops 16–18. "F," Elementaries 5 in a classroom, High Schools as high as 11, gymnasiums and shops, both 6.

88. Do you use auxiliary lighting in assembly halls, gymnasiums and shops?

"B," No. Hooked on line switch, separate meter. "C," No. "E," None at all. "F," No.

89. Do you use sound amplification in assembly halls?

"A," Sound equipment is being installed in new auditoria as a new policy. "B," Yes. "C," Yes. "E," No. "F," Larger schools only.

90. Is your manual training carried beyond the elementary stage?

"A," In general, vocational manual training is carried a bit farther than we do, more classroom hours are spent on it. Their equipment is more elaborate. "B," Yes. "C," Some cases carried past elementary. "E," Yes. "F," No.

91. Are your band saws electrically controlled?

"A," Band saws are electrically controlled with guards. "B," Grilled. "C," Electrical controlled lock. "E," Grilled. "F," Inclosed in grille, electrically controlled.

92. What is your experience with portables?

"A," Portables are practically the same as ours. "B," Wood, metal covering. Heated with coal stoves. "C," Wood, heated with hot air furnaces. "E," Metal, heated with coal stoves. "F," Wooden buildings, composition asphalt roof. Coal furnaces for heat.

SECTION III.

General.

Herewith below please find miscellaneous and general information as applied to City "A."

They do not use any burlap. All buildings are cork-carpeted. They are thoroughly sold on cork carpets, claiming everything for them and apparently with some justification.

In the Elementary Schools, auditoria is simply a space in the basement occupied by loose bridge chairs. In the High Schools, the auditoria consists of wood opera chairs on a pitched or flat surface and fixed in every case.

The City furnishes the children's lunch at cost and manages to come out just about even. It does make enough to maintain in each school the upkeep of the original equipment. Cooking is taught, but not on the whole as extensively as we teach it, and without nearly as elaborate equipment. They have given up the idea of suites altogether.

Custodians report to the department, which is comparable to ours. They do not make any repairs. They are not on a contractual basis.

They are not bound up to any particular make of furniture.

All physical property is entirely controlled by the Building Department of the Board of Education. The Mayor has absolutely nothing to do with the school system.

Where pressed, they use the two-platoon system.

They break their contracts into four parts, heating, plumbing, electric, and general.

They do not let their furniture on a yearly basis, but buy as needed.

They use movable furniture throughout and, therefore, all their floors are linoleum, except the first floor corridors, which are terrazzo, to receive the mud and dirt.

All toilet partitions are paneled wood and seem to give entire satisfaction.

Their tackboard space on all classroom walls is equivalent nearly to the blackboard area.

They are getting away from all blackboards in the rear of classrooms.

Almost all their stools are brick or tile.

In some of the schools they are furnishing a central vaccum cleaning system.

Gymnasium roofs are celotex, finished inside with celotex, used as a form for the poured gypsum roof.

There is some direct radiation in the corridors and the radiators are covered with shields.

In the gymnasiums the radiators are not grilled but are recessed into the walls. There is no ceiling in any gymnasium, the trusses are allowed to be exposed.

In one auditorium they have movable furniture, which, when folded up, is placed in trucks on unusual casters and then shoved home under the stage.

They have one gadget, called NYCO Display, which is put along top of blackboard, having removable hooks to display maps or pictures, and which seems to be part of their regular equipment and is pretty well liked.

In general, their prices are appreciably lower than ours, due to their ability to buy materials nearer the source of manufacturer. In addition to material prices being lower, labor does not get as high a price per hour, by 10 per cent, as is paid in Boston.

Their biggest school is the R——t High School, which accommodates 3,000

pupils. Their newest school is the G——l W——r. Both of these schools I inspected.

They fix up their kindergartens appreciably more elaborate than any other room in the building. In general, the kindergarten is the same as two connecting classrooms.

In the High Schools they make their own electric current.

In general, their entrances, vestibules and kindergartens are more than elaborate, with the classrooms cut down to a minimum. They use plenty of marble in walls and vestibules.

All High Schools have swimming pools, with which they claim they have no trouble at all.

They use the stage of the High School of the auditorium for the Boys' Gymnasium and on the other side of the proscenium wall at the same level is the Girls' Gymnasium.

Their new High Schools will not contain over 2,000 when built.

Their fair average cost is 37 cents per cubic foot.

They have a double panic bolt an all exterior doors.

Occasionally they use a tablet armchair in their auditoria.

They do all their repair work themselves, employing the trades direct.

They have an unpaid board of ten elected commissioners, which is divided into five divisions, one of which would correspond to our department. They are incorporated by the State since 1885. They have their own treasurer, auditor, send out their own checks and pay their own bills.

They buy their land by purchase through a dummy.

Their extras to contracts on their last five completed buildings would average about 7 per cent.

They had 125 portables in use at their last census and 137 schools in 262 buildings, consisting of 123 main buildings, 14 branch buildings, 125 portables and 2 resident buildings.

In most cases they pay a mileage automobile allowance rather than own their own cars, although they do own some cars.

The last census of children shows 124,742 out of a population of 831,859.

They, too, find that the extended use of schools greatly increases the wear and tear on the buildings.

Their oldest school goes back to 1867.

They segregate the black children from the white.

They have eight High Schools.

There does not seem to be any rule that they follow on the amount of land they purchase for any particular case.

There were extras of $73,429 on the H——t S. H——y School which cost $1,665,919. The pupil capacity of 2,700 was for vocational purposes.

There were extras of $50,166.40 on the J——n H. G——h School, which cost $355,055 and has a capacity of 855.

There were extras of $23,950 on the Power House, which cost $392,076.

They have 125 portable buildings, 9 are steel, the rest are wood.

They have 262 buildings, 2 residences and 14 branch buildings besides the portables.

In the years 1931–32, with a city population of 831,859, the general appropriation was $3,595,829 and $1,004,923 was spent on new buildings.

They have 118,462 pupils.

They get into the little theater movement and green houses.

CITY "B."

Generalities as covering City "B."

Elementary schools 328, population 325,000.

High schools 34, population 122,000.

Costs in all three types of schools have varied anywhere from 30 cents to 50 cents per cubic foot.

Auditoria does not usually go over 50 per cent of the school population per building.

Children's lunch furnished by School Department at cost. It is not a part of the cooking class.

Their lunchroom system has never been intended to return a profit.

Auditoria is seldom used for study rooms.

Their custodians do minor repair work.

Compensation, as laid down by A. I. A., is not followed.

They do not operate the two-platoon system.

Where troubled with vermin and rats, bids are let out to local exterminators for this work.

They make a charge of $50 for plans and specifications, same being returned at the time contract is granted.

Contracts for miscellaneous furniture are let out as the need arises. They have their own repair department for repairing furniture and all general repair work.

Their own architect's office, Department of Schools, makes their plans at a cost of 1½ to 2 per cent.

An elementary school made at the time of the World's Fair contains a gymnasium and lunchroom combined. There are corridor lockers and small work rooms for handling small groups of children, no basement except a boiler room.

The attendance is 485,000 in 401 buildings.

I should say the buildings are badly overbalanced. They assign one carpenter permanently to each high school. Work is done on a 50–50 basis by contractors and employees. Jobs over $200 are done by contractors.

High Schools cost 40 cents a cubic foot, Intermediate 47.5 cents, Elementary 41 cents and additions 48 cents.

CITY "C."

Generalities covering City "C."

There were 247,145 children in 1931. They also run five municipal colleges, Teachers, Medicine, Pharmacy, Law and General.

Their latest school, the M——r Intermediate, contains 248,200 cubic feet at 35.7 cents a cubic foot.

The capacity is 1,000.

In 1931 their maintenance was $948,457.

The valuation of land building and equipment is $84,000,000.

At the R——t Plant there are grouped High, Intermediate and Elementary Schools.

They have 193 Elementary Schools under the two-platoon system.

All their schools are much more elaborate on the exterior.

Their gymnasium is on the interior plan.

They, too, get into the little theater movement and greenhouses.

Their Shop Work is carried much further than ours, covering jewelry, farming, etc.

Almost all the schools have swimming pools.

They have orthopedic service for the children.

There is a solaria for boys and girls.

They use their lunch rooms as playrooms.

Cost per cubic foot, Elementary 32 cents, Intermediate 33 cents, High 35 cents.

Number of buildings, Elementary Schools 193, Intermediate 21, High Schools 14.

Number of children, Elementary Schools 163,818, Intermediate 36,608, High Schools 44,627.

Auditoria does not generally go over 50 per cent of school population per building.

Children's lunch system is operated at cost. It is not a part of the cooking class.

Auditoria used for study room, fixed seats, ordinary type.

Custodians do repair work of minor nature.

Fee paid architect is 5 per cent.

Two-platoon system in some cases.

Not troubled at all with vermin and rat nuisance.

$25 check is required for specifications and plans, which are then returned at time of the granting of contract.

Contracts for miscellaneous furniture are let out on a yearly basis.

Plans are made by own architect and engineers, who are appointed by the Board of Education. Occasionally outside architects are hired.

CITY "D."

Generalities covering City "D."

The extended use of schools in 1931 cost $77,509 and for rented properties $12,197.

Distinction is made in all cities between repairs and alterations.

It cost $2 per pupil for repairs, $6.53 maintenance, and $13.15 for operation.

The attendance is 140,000.

J——n M——l is the latest high school. This building cost $892,287, and has equipment and furniture worth $115,500.

They have tried cheaper construction, namely, mill type and second class, but have gone back to first-class construction, as the maintenance charges killed the new construction savings.

Sketches are being made for a $2,000,000 educational building.

They all own their own lunch room food and equipment.

CITY "E."

The latest building is a High School for girls, five stories high, with 27 classrooms, and play spaces on the roof.

The gymnasium 22 feet 10 inches high cost 30.8 cents a cubic foot.

There are 317 buildings, 177 of which are not fireproof, and 33 vacation sites.

They spent $2,642,615 on new buildings in 1932 and $18,700 for broken glass.

The Board of Education is selected by judges of the Courts of Common Pleas.

They take care of their own food complete in all lunch rooms.

They are totally independent of city government but are aided financially by the state.

Cost per cubic foot, Elementary, Intermediate, and High Schools: Elementary, 33 cents; Intermediate, 35 cents; High Schools, 31 cents.

Number of buildings: Elementary Schools, 312; Junior High Schools, 23; High Schools, 13.

Number of children: Elementary, 175,495; Junior High, 45,575; Senior High, 45,953.

Auditoria generally goes over 50 per cent of school population per building.

The Board of Education approves contracts.

Board of Education furnishes the children's lunch. It is not part of the

cooking class. Any profit derived from this source is used to improve old equipment in the various lunchrooms.

When auditoria are used for study rooms, opera chairs are used, every other one having an arm. This system works out satisfactorily.

Custodians do very little minor repair work.

Two-platoon system is not used.

Bids are let out to public exterminators to rid buildings of vermin and rats.

A $10 charge is made for plans and specifications and refund made at time the contract is awarded.

Contracts for miscellaneous furniture are let out as the need arises.

Their own architect makes the plans.

Compensation, as laid down by A. I. A., is not followed.

CITY "F."

Generalities covering City "F."

Cost per cubic foot, Elementaries, 57 cents; Junior High School, 45 cents; High Schools, 47 cents.

Auditoria do not generally go over 50 per cent of school population per building.

Children's lunch is furnished at cost in both Elementary and High Schools. It is not a part of the cooking class, although they tried it out in one of the Elementary Schools without any success.

Auditoria are used for study rooms, opera chairs for furniture.

Minor repair work not done by custodians.

Compensation, as laid down by A. I. A., is followed.

Two-platoon system is in operation.

No charge is made for specifications and plans.

Contracts for miscellaneous furniture let out as the need arises.

Their own architect makes all plans.

SECTION IV.

Comparisons.

A comparison of Elementary, Intermediate and High Schools of cost per cubic foot, cost of heating and ventilating, plumbing and electric work is respectively submitted herewith.

Cost on Cubic Foot Basis.

	Elementary.	Intermediate.	High School.
"A"	$0.457	Missing	Missing
"B"	.418	$0.476	$0.405
"C"	.358	.40	.36
"D"	Missing	Missing	Missing
"F"	$0.46	$0.47	$0.46
"G"	.358	Missing	Missing
"H"	.402	Missing	$0.37

Expenses seem to be distributed as follows: 10 per cent for walls and partitions, 2 Per Cent for flues and ducts, 20 Per Cent for stairs and corridors, 16 Per Cent for administration, 1 Per Cent for accessories, 1 Per Cent for various and 50 Per Cent for construction.

Cost of Heating and Ventilating and Installation in Per Cent against Total Cost of Building.

	Elementary.	Intermediate.	High School.
"A"	11 4/5%	Missing	Missing
"B"	14 1/2%	17%	14 2/3%
"F"	12%	11%	7 3/5%

They find the low pressure plant the best.

Cost for Plumbing.

	Elementary.	Intermediate.	High School.
"A"	4 9/10%	Missing	Missing
"B"	4 9/10%	5 1/2%	6%
"C"	Missing	Missing	Missing
"F"	4 1/2%	5%	5 3/10%

Cost for Electrical Work.

	Elementary.	Intermediate.	High School.
"A"	Missing	Missing	Missing
"B"	4 4/5%	8 4/5%	9 4/5%
"C"	4 1/2%	5 4/5%	6 2/5%
"F"	3 2/5%	3 2/5%	5 9/10%

"B," If very busy, finds the cost of preparing drawings slightly less than contractual architects, but when not busy it is much more. In the final analysis they find the cost of single contract more economical. Two schools are to be closed because of faulty construction. It takes 37 operations for "B" to purchase school land.

SECTION V.

We compared a new High School in City "F" with our Jeremiah E. Burke High School, where they have 66 rooms to our 46. The particulars of this comparison may be of some interest.

There are 46 rooms in the J. E. Burke High School which compares with 66 rooms in the A——m L——n High School of City "F." We have 1 science room where they have 4. We have 1 chemistry room against 3. We have no hygiene room against their 2. We have 3 typewriting rooms and 2 stenographers' rooms. They have 3 typewriting rooms and no stenography rooms. We have 3 art rooms against 4 drawing rooms. We have 1 music room against 2 music rooms. We have 2 biology laboratories against 3 biology laboratories. We have 1 physics room against 3 physics rooms. They have 1 office practice room which we have not. We have 2 sewing rooms against 1. We have 2 cooking rooms against 1. They have 2 corrective training rooms and we have none, except possibly that the posture room in connection with the gymnasium would serve the same purpose. They have a general shop, we have none. Same gymnasium and operation equipment.

The cubic contents of the High School in City "F" is 3,773,816 feet. The cubic contents of the Jeremiah E. Burke High School is 2,425,672 cubic feet. The High School in City "F" has an area of 72,695 square feet, the Jeremiah E. Burke has an area of 50,576 square feet.

I desire to call your attention to the fact that the High School in City "F" is for boys and girls while the Burke School is for girls only. This would account for the difference in the special rooms. One noticeable feature of these 2 buildings is the area of the building as effected by the use of wider corridors, also the large amount of basement space which is used for boiler rooms, engine rooms, fuel storage and janitor's accommodations and plenum system.

Another item which holds throughout all the schools for which plans were received is the great difference in the amount of plumbing fixtures provided for the pupils.

The boys' toilet rooms contain 4 toilets, 2 lavatories, 8 urinals. The girls' toilet room, 6 toilets and 2 lavatories. The girls' toilet room in the gymnasium contains 4 toilets and 2 lavatories. This school also has a rifle range. Toilet rooms are located on each floor and in all cases the boys' toilet rooms contain the number of fixtures which I have enumerated for the basement.

The exterior of the building is very expensive as the spandrels and windows have framed architraves. Cornice ornamental frieze, gable, wall and copings, all of architectural terra-cotta and very ornate.

The floor framing appears to be done with steel and short span flat concrete arches.

The first floor has marble wainscoting and all their corridors have salt-glazed brick dadoes and plaster above. All partitions throughout are terra cotta. All classroom ventilation is vented to ducts in ceiling spaced under corridor slabs. Corridors have cement floors.

Classrooms are typical in most cases, 24 feet by 27 feet. Their classrooms are sometimes as short as 24 feet.

Further Comparison—A Junior High School in City "F."

A Junior High School in City "F" has a basement area of 13,686 feet devoted to a lunch room space, dish washing room, preparation room and a bicycle room with an area of 900 square feet, which leaves approximately 12,000 square feet for the heating and ventilating plant, which comprises boilers, engines, fans, plenum system and duct space. The day lighting of this basement is almost entirely by means of areas. Salt-glazed brick used in walls in lunch room and floor is of cement, presumably granolithic.

This building has sheet metal, electric wiring, dressmaking, novelty and woodworking rooms. There is a playroom on the first floor and an auditorium 86 by 58 feet with stage and footlight equipment, and 2 dressing rooms. In the auditorium there are 96 mushroom diffusers, 8 inches diameter, placed under seats for heating. The floor of the auditorium is cement. Wainscot and door trims are of marble on auditorium side. There are no public toilets.

There are no toilets except for the janitor in the basement. There are toilet rooms through the building, on first and fourth floor for boys, having 10 toilets, 20 urinals and 2 lavatories. The toilet rooms for the girls are on each floor, except the second, where there is a toilet room for the teachers. There are 26 toilets and 2 lavatories on the first floor and 4 toilets and 1 lavatory on the third floor.

There is a gymnasium for boys and one for girls on separate floors.

The classroom floors are of wood and all partitions are 4-inch terra cotta. The classrooms are 23 feet 4 inches by 28 feet 2 inches. The 2 gymnasiums are 89 feet by 58 feet.

The exterior of the building is granite to the water table and face brick with terra cotta trimming above. Windows grouped in pairs, architraves and mullions are terra cotta. The cornice and second floor belt is very heavy and highly ornate. Owing to the fact that such a large area of the basement is devoted to machinery for ventilation purposes, it was necessary in my opinion to put on an upper story in part that might have been dispensed with. We had no specifications with these plans however.

Comparison of an Elementary School in City "B."

I had one set of plans for an elementary school in City "B." The exterior brick

work was of apparently local face brick with terra cotta trim, coigns, architraves and mullions, granite grade courses. The plans are prepared by architects same as here.

The boiler room extends from the center of the building to the rear. Interior corridors have glazed brick dado, walls plastered above. The entire basement where excavated is taken up for boiler, engine rooms, plenum space and pump room.

Assembly hall and balcony, 57½ by 42 with stage 28 by 16, equipped with footlights. At entrance of vestibule there is a man's and women's toilet room with 1 toilet and 1 lavatory in each. There is a kindergarten with storeroom and wardrobe and vestible for separate exit. The library is 30 by 34, this, of course, is an unusual feature in an elementary school. The boys' toilets have 2 toilets, 2 lavatories and 9 urinals. The girls' toilet rooms have 9 toilets and 2 lavatories. There is a gymnasium of 76 feet by 42. There is a manual training room 60 by 24. In this school the women teachers prepare the meals for the teaching force. They have a kitchen with a range and sink. This room is lighted from the skylight above. In connection with this room there is a teachers' lunch room which is 12 by 28 feet. There is also an art and a household art room in this building.

The corridors are 10 feet in the clear. Scholars' clothes are kept in lockers on either side of the clear spaces against the partitions. There are 17 classrooms and a kindergarten. The floor construction is of long-pan system concrete supported on the outside walls. The corridor floor is linoleum tile with terrazzo borders.

Further Comparison of a School in City "E."

I have noted the plans for 3 "E" schools. The plans are prepared by the Board of Public Education. The first school appeared to accommodate upper and lower elementary grades. It contains a large lunch room with a preparatory kitchen. The lunch room area was 144 by 29 feet. Practically the remainder of this basement was taken up with coal storage space, boiler room, blower and engine room and plenum chamber. There were 13 toilets for girls and 8 for boys and urinals were of the trough type of marble.

The first floor included kindergarten, assembly hall 48 by 68, with large stage and footlights. There is a toilet room for men and one for women, principal's office and clerks' office and 9 classrooms.

Second floor contains 10 classrooms, 2 toilets for girls and one for boys with marble urinal, women teachers' room, teachers' dining room with preparatory kitchen, doctor's room, cloak rooms parallel with corridors at sides of room. These were 20 feet long by 5 feet 4 inches wide. The egress is poor from the classroom because of having only one door which goes through a vestibule formed by the wardrobes, also the exit from the wardrobe goes into this same vestibule, and one door from the classroom entering the wardrobe at the further end from the exit of the wardrobe. In such a case if scholars were sent in to get their clothing in case of fire or drill the others in the room coming from the classroom door would meet those coming from the wardrobe to the exit.

On the third story there were 11 classrooms with the same cloak rooms. The boys' toilet rooms on the third floor contain 1 toilet and 2 urinals and the girls' toilet room contains 2 toilets. The width of the classrooms, the cloakroom and half of the corridor in this school is 35 feet 11½ inches. Our classrooms are to the same point 29 feet in width with the wardrobes at the end of the room. The wardrobes in each classroom are 2 feet 3 inches. The roof of this building is a pitched roof, slated and with sheet copper treatment. There were several expensive projected stone bay windows but the other exterior decoration is moderate. Limestone and face brick were used. No grass course, the steps and platform were granite.

Another School in City "E" for Further Comparison.

This school is a Junior High School. In the basement there is a transformer room of approximately 253 square feet, custodian's room 268 square feet, a service room for women of 225 square feet, an ice machine room 336 square feet, a text-book storage of 1,750 square feet, a battery and storage room of 225 square feet. There are 4 unassigned rooms, total area, 3,834 square feet, 2 small-size spaces for 2 elevators, an incinerator room, a lunch supply storage 364 square feet, a band instrument room 725 square feet, a dressing room, a blower 1,295 square feet, a vent chamber of 4,692 square feet.

The first floor in addition to the classrooms has a faculty room, principal's office, clerks' room, clerks' storage, auditorium of 6,000 square feet with 660 feet additional on stage, a music room of 960 square feet, a library 1,150 square feet, an infirmary room and a doctor's room. There were also toilets for men and principals.

The second floor had 2 rooms for heads of departments and the auditorium balcony of 161 seats.

The third floor had 3 rooms for heads of departments, a conference room, chemical laboratory, preparation and storage room, physics laboratory, 2 freehand drawing rooms, a physical director's room, a gymnasium 5,760 square feet.

The fourth floor has a faculty dining room with serving space, a dietitian's room, lunch assistants' room, men's room, a kitchen 874 square feet, and 3,844 square feet lunch room. There is a unit suite, a home economics room, a conference room, a shower room with 11 showers, a gymnasium and a locker room.

In the attic there are 2 blower rooms, the rest of the space is used for ducts and plank walks.

On the fifth floor there is a biological laboratory, preparation room, conservatory and a roof play space of 8,900 square feet, which also includes a covered pavilion amounting to 1,000 square feet. There are 22 designated classrooms. This building apparently is for girls entirely and there are only 38 toilet fixtures, including lavatories, in the whole building for pupils.

The exterior of this building is very ornate, stone ashlar to second floor stone cornices, stone pilasters with carved capitals. The structure is built on caissons and piers, no boiler room shown, so heat must be obtained from other sources.

Another School in City "E."

There are 2 elevators in this building. The entire basement, with the exception of a lunch storage room, 2 small storage rooms, 3 unassigned rooms smaller than classrooms, gymnasium locker room, with a shower room attached, total area of which is 1,974 feet is taken up with plenum chamber, meter room, cleaners' room, 4 blower rooms, and fresh air intake. An engine room with 2 engine installations, an ejector room, a boiler room, 3 high-pressure boilers, a large ash, coal and incinerator room. An ash hoist, chief engineer's room with toilet and shower, fireman's room with showers and toilet.

The first floor contains besides an assembly hall of 5,300 square feet a stage area of 730 square feet, in addition, a faculty room, 3 food rooms, including 2 closets and 2 small storage rooms, total area 2,900 square feet. Food rooms are what we call cooking rooms. A domestic suite, boys' gymnasium 5,400 square feet, conference room, girls' locker room, infirmary, doctor's room, principal's office with a general office and public space. There are 2 wood-working shops and a machine operation project and storage space. These shops are in a series and separated on the end by grilles only. There is a metal working shop and tool room. These shops are approximately equal to our type of shop.

The second floor contains a balcony with 140 seats, a library of 1,500 square feet, 4 classrooms 30 by 22 feet 6 inches, a girls' gymnasium 3,850 square feet with an apparatus storage, a gymnasium locker room, a shower room with 6 showers and one toilet, a physical director's room, a wash room which is simply a small anteroom to the regular toilet room which contains 3 lavatories.

The third floor has 8 classrooms and 3 clothes rooms which I presume are sewing rooms. 2 junior business classrooms. The girls' gymnasium locker room with 7 showers, the boys' locker room with several small storage rooms. There are two indoor play spaces with an area each of 2,300 square feet and an outside play space on roof 15,800 square feet. I wish to call your attention that in this building the toilet accommodations for boys is 12 toilets and 18 urinals, for girls 21 toilets and 13 lavatories.

The exterior of this building is in modernistic style, on vertical lines with brick header treatment and certain panels full height. There is a granite grass course with steps and platforms. Limestone ashlar to basement window sills and at entrances to top of gables is approximately 20-odd feet high. It is quite pleasing in appearance. The classrooms are 30 feet long by 22 feet.

The principal thing that has impressed me in the plans I have examined is the large amount of space devoted to mechanical ventilation of these buildings.

We proceed under rules which were adopted before there were intermediate, junior high and the modern high schools. I believe that in the upper elementary schools unless the laws dictate otherwise that a great amount of money might be saved in cutting down, perhaps not too closely, the number of conveniences devoted to sanitary purposes for pupils.

SECTION VI.

Conclusion.

With the exception of City "C," the spirit in these cities was, at least, a fighting one and in the case of City "E," a confident one. They all apparently have sufficient funds to meet their obligations except two that are using scrip, and, while they are particularly cautious when they do make an expenditure, they try to buy the right thing for the right place rather than the cheapest thing which will fit in for the time being.

Almost all of these cities build a bigger school than we do until finally they approach a condition where it is not

possible to give satisfactory teaching administration.

I do believe, however, that we could go further than we do in increasing the cubical contents and the program of our buildings with a definitely lessened cost to the City because it is much cheaper, for instance, to build one fifty-room High School than two twenty-five room High Schools, these numbers being taken arbitrarily.

I think I might say at this time that we are building a building that is as good or better from a construction viewpoint than any of the cities which I have visited.

Respectfully submitted,

WM W. DRUMMEY,

Superintendent of Construction.

TRAFFIC COMMISSION RULINGS.

Voted, That as urgently required by considerations of public safety and convenience, during the period of sewerage construction, estimated to be thirty (30) days, vehicles are excluded from Norfolk avenue, Roxbury district, between Burrell street and Shirley street, effective June 27, 1934.

—

Voted, That as urgently required by considerations of public safety and convenience, during the period of roadway resurfacing, estimated to be four (4) weeks, vehicles are excluded from Merrimac street, between Haymarket square and Portland street, effective June 27, 1934.

—

Voted, That as urgently required by considerations of public safety and convenience, during the period of roadway reconstruction, estimated to be thirty (30) days, Alford street, Charlestown district, is a one-way street, from Arlington avenue to the Boston-Everett line, effective June 28, 1934.

—

Voted, That as urgently required by considerations of public safety and convenience, during the period of the Circus, parking of vehicles is prohibited in Dorchester avenue, Dorchester district, between Andrew square and Leeds street, from June 25, 1934, to June 30, 1934, inclusive.

—

Voted, That as urgently required by considerations of public safety and convenience, during the period of sewerage construction, estimated to be six (6) weeks, vehicles are excluded from Southampton street, South Boston district, between the east side of the bridge over the New York, New Haven & Hartford Railroad, Midland Division, and the west side of the bridge over the New York, New Haven & Hartford Railroad, Midland Division, effective June 22, 1934.

—

Voted, That as urgently required by considerations of public safety and convenience, during the period of games under the auspices of the Brook Farm Civic Association, vehicles are excluded from Temple street, West Roxbury district, between Vermont street and Lasell street, on July 4, 1934, from 8.30 a. m. to 12 o'clock noon.

—

Voted, That as urgently required by considerations of public safety and convenience, during the period of bridge repairs in Harrison avenue, estimated to be two (2) weeks, parking of vehicles is prohibited in Washington street, both sides, from Broadway to Castle street, effective June 22, 1934.

CIVIL SERVICE EXAMINATIONS. (STATE.)

STATE EXAMINERS OF ELECTRICIANS.

Examinations, 1934.

Examinations will be held at the following points and on the following dates:

Boston, Monday, September 17.
Worcester, Wednesday, September 19.
Springfield, Thursday, October 25.
Pittsfield, Friday, October 26.
Boston, Monday, November 5.
Lowell, Wednesday, November 7.
Boston, Monday, December 3.
New Bedford, Thursday, December 6.
New Bedford, Friday, December 7.

RULES FOR EXAMINATIONS.

All examinations shall be given in English.

Applicants for Class B or journeyman's certificate must be at least eighteen years of age and have had at least two years' practical experience or the equivalent in the installation of wires, conduits, apparatus, fixtures and other appliances for carrying or using electricity for light, heat or power purposes.

Applicants for Class A or master's certificate must be at least twenty-one years of age and have had at least two years' experience in the business of installing wires, conduits, apparatus, fixtures and other appliances for carrying or using electricity for light, heat or power purposes.

Examinations shall consist of applicant's knowledge of the National Electrical Code and practical electrical work.

All persons desiring to be examined, either for a Master or Journeyman Certificate, shall have application on file at least ten days previous to the date of such examination.

Applicants for examination will be required to obtain at least 70 per cent in order to obtain a certificate.

Applicants who fail to obtain the required 70 per cent will not be entitled to re-examination until a period of three months has elapsed, and those who receive less than 50 per cent, or who fail on the practical demonstration, will not be re-examined for a period of six months.

Any person found referring to notes or books, or misbehaving during an examination, will be debarred from that examination.

Notice will be sent to applicants for certificates when and where examination will be held, and only those so notified will be examined on that day.

JAMES M. HURLEY,
PAYSON SMITH,
STEPHEN C. GARRITY,
State Examiners of Electricians.

—

For application blanks or other information apply to State Examiners of Electricians, Room 413A, State House, Boston, Mass.

CIRCULAR LETTER NO. 10.

MAYOR'S OFFICE, June 22, 1934.

To the Heads of Departments.

GENTLEMEN,—You are directed to grant leave of absence, without loss of pay, to employees in your department who are members of the Army Reserve Corps, the Naval Reserve Force, the National Guard, or the United States Citizens' Training Camp, to attend the annual tour of duty or Service School.

Very truly yours,

FREDERICK W. MANSFIELD, *Mayor.*

AMENDED DAMAGES.

The Mayor has approved the following vote of the Board of Street Commissioners:

Voted, That the order of the Street Commissioners and Mayor of June 13, 1933, as amended August 26, 1932, determining damages caused by the making of the public improvement consisting of the extension of Orange street, be, and the same hereby is, amended, by adding to said order the amount $40 as an award to Mary F. Cotter; that the amount $40 be, and the same hereby is, awarded to Mary F. Cotter for the damages so sustained.

CLAIMS ALLOWED.

The Mayor, upon recommendation of the Corporation Counsel, has approved the following claims:

Eugene C. Webster, 899 Boylston street, in the sum of $50, as compensation for personal injuries caused by projecting granolithic block on the sidewalk in front of 851 Boylston street, Boston, February 14, 1934.

Mrs. B. Libby, 9 Hamilton road, Brookline, in the sum of 90 cents, for refund on six unused refuse tickets purchased on March 18, 1930, for Dr. B. Libby, 50 Scollay square, Boston.

CONSTRUCTION WORK.

The Mayor has approved the request of the Public Works Department for the following construction work:

A concrete conduit 15 feet by 13 feet and 11 feet by 10 feet 6-inch concrete connection with Canterbury branch of Stony brook, Stony brook conduit, Section 13 (P. W. A., Docket No. 4193), in private land, between 30 feet southeast of Neponset avenue and 1,074.50 feet southeasterly and southwesterly, in the West Roxbury district, at an estimated cost of $92,000.

BUILDINGS RAZED.

The Mayor has approved the request of the Building Department to raze the following structures as fire menaces or nuisances:

To take down the building at 14, 16 and 18 Brighton street, Ward 3.

To take down the two buildings at 451 Washington street, rear, Ward 17.

To take down the building at 293 West Fourth street, Ward 6.

The building at 113 A street, Ward 6, is in an unsafe and dangerous condition dilapidated and a fire hazard. The owner, Francis O'Rourke Estate, care of Elizabeth F. Nolan, trustee, of 176 Trapelo road, Belmont, has been notified of the unsafe condition of the building, but nothing has been done to remove the cause of complaint.

The building at 83 Burrell street, Ward 8, is in an unsafe and dangerous condition, dilapidated and a fire hazard. The owner, Jacob Green, of 13 Coolidge street, Brookline, has been notified of the unsafe condition of the building, but nothing has been done to remove the cause of complaint.

The building at 61 Lowell street, Ward 3, is vacant and open to trespass; a fire menace and dilapidated. The owner, Raymond T. Parrott of 125 Broad street, Elizabeth, N. J., has been notified of the unsafe condition of the building, but nothing has been done to remove the cause of complaint.

POPULATION OF BOSTON, BY DISTRICTS.

DISTRICT.	U. S. Census 1920.	State Census 1925.	U. S. Census 1930.
Boston Proper	181,193	172,101	151,818
East Boston	63,051	66,534	61,454

Roxbury	126,525	129,883	122,509
Dorchester	156,006	167,015	187,103
West Roxbury	63,067	73,621	88,327
Brighton	42,102	47,900	56,362
Charlestown	34,272	37,918	31,663
Hye Park	18,029	19,845	23,913
All Boston	748,060	779,620	781,188

POPULATION AND LEGAL VOTERS BY WARDS, MARCH 31, 1925.

Ward.	DISTRICT OR LOCALITY.	Population.	Legal Voters.
1	East Boston (including islands)	66,534	13,726
2	Charlestown	37,918	12,766
3	Boston Proper	73,670	10,515
4	Back Bay, South	34,286	10,904
5	Back Bay, West	37,036	10,734
6	South Boston, North	39,539	11,331
7	South Boston, South	34,999	11,433
8	Roxbury, North	35,611	10,421
9	Roxbury Centre	37,706	10,770
10	Roxbury, West	30,647	11,344
11	Roxbury, South	29,567	10,954
12	Roxbury, East	33,890	11,177
13	Dorchester, North	29,266	11,509
14	Dorchester, West	46,406	11,414
15	Dorchester, North Central	27,831	11,498
16	Dorchester-Neponset	26,546	10,767
17	Dorchester Centre	26,604	11,527
18	Hyde Park-Mattapan	32,020	11,469
19	Jamaica Plain-Roslindale, East	24,132	10,846
20	West Roxbury-Roslindale, West	22,915	10,484
21	Brighton, South	26,387	10,618
22	Brighton, North	26,110	9,588
	City Totals	779,620	245,795

The population by the new wards, as shown above, is all that this abbreviated census was permitted to include. For purposes of comparison the enumeration by the permanent districts was more needed because the wards are no longer comparable since the recent changes of their areas.

VALUATION AND TAX RATE, 1930 AND 1931.

PROPERTY.	1930. (April 1.)	1931. (April 1.)
Real estate	$1,827,460,600	$1,814,789,000
Personal estate	144,687,600	143,221,000
Total	$1,972,148,200	$1,958,010,000
TAX RATE:		
City	$27 21	*$27 66
County	1 73	1 89
State	1 86	1 95
Total rate	$30 80	$31 50

* $9.04 is for school expenditures.

BOSTON'S LIABILITY FOR METROPOLITAN DEBT, 1931.

Boston's liability for this contingent debt of the State (*i. e.*, in the form of annual assessments for sinking funds and interest) incurred for Metropolitan parks, sewers, water, etc., was $26,903,967 (net) on July 1, 1931, or $289,750 more than in 1930. It is divided thus: Water Debt, $20,643,247; Park debt, $2,645,646; Sewer debt, $2,534,029; Charles River Basin debt, $1,081,045. The percentages paid by Boston in 1931 64.923 on water debt; 51.9224 on most of the park debt; 37.24 on most of the sewer debt, and on Charles River Basin debt the same as on park debt.

Metropolitan assessments paid by Boston in 1931 amounted to $5,042,924, of which 56.3 per cent was for debt requirements and 43.7 for maintenance. Water assessment, $2,819,697 (paid from water revenue); park $1,336,430; sewer, $456,126; Charles River Basin, etc., $430.671.

BOSTON'S LIABILITY FOR METROPOLITAN DEBT, 1932.

Boston's liability for this contingent debt of the State (*i. e.*, in the form of annual assessments for sinking funds and interest) incurred for Metropolitan parks, sewers, water, etc., was $25,859,329 (net) on July 1, 1932, or $1,044,638 less than in 1931. It is divided thus: Water debt, $20,332,795; Park debt, $2,168,456; Sewer debt, $2,359,383; Charles River Basin debt, $998,695. The percentages paid by Boston in 1932 were 64.0598 on water debt; 49.7502 on most of the park debt; 35.32 on most of the sewer debt, and on the Charles River Basin debt the same as on park debt.

Metropolitan assessments paid by Boston in 1932 amounted to $5,137,448, of which 64.62 per cent was for debt requirements and 35.38 for maintenance. Water assessment, $2,945,390 (paid from water revenue); park, $1,423,820; sewer, $432,689; Charles River Basin, etc., $335,549.

BOSTON'S POPULATION ON APRIL 1, 1930, BY WARDS.

Ward 1, 61,454; Ward 2, 31,663; Ward 3, 66,219; Ward 4, 31,010; Ward 5, 30,771; Ward 6, 34,689; Ward 7, 32,482; Ward 8, 31,943; Ward 9, 30,362; Ward 10, 29,694; Ward 11, 30,034; Ward 12, 36,123; Ward 13, 29,019; Ward 14, 55,914; Ward 15, 27,729; Ward 16, 31,329; Ward 17, 30,099; Ward 18, 41,152; Ward 19, 27,423; Ward 20, 31,540; Ward 21, 29,752; Ward 22, 30,987.

Total population by U. S. Census, 781,188.

HISTORICAL DATA ABOUT WARDS.

The term "ward" first appears in a fire-protection order, approved by the Town on August 29, 1679, dividing the Town into 4 quarters with 2 wards each. The 8 wards had previously been military districts.

On August 11, 1713, the Selectmen "agreed upon a distribution of the Town into distinct Wards or Precincts."

On February 1, 1715, it was "voted to make a new division of the Town into eight distinct Wards."

On March 9, 1735, it was voted to divide the Town into 12 wards to facilitate the work of the Overseers of the Poor.

On March 13, 1822, the Selectmen divided the Town into 12 wards on the basis of the U. S. Census of 1820.

By an ordinance which took effect on the second Monday of December, 1838, there was a revision of the wards.

On April 29, 1850, the City Council accepted Chap. 167 of the Acts of 1850, which altered the wards on the basis of legal voters rather than on the number of inhabitants.

By ordinance taking effect on November 15, 1865 new ward lines were established.

In the annexation period, 1865-1875, the number of wards was increased from twelve to twenty-one.

By Chap. 243, Acts 1875, the City Council was ordered to cause a new division of the City into twenty-four wards in the year 1875 in such manner as to include an equal number of voters in each ward. This division was made, taking effect on December 13, 1875. On May 27, 1876, the City Council, in accordance with Chap. 242, Acts of 1876, divided one of the wards in two, making a total of 25 wards for the City.

By ordinance passed April 20, 1895, under authority of Chap. 437, Acts of 1888, and Section 96 of Chap. 417, Acts of 1893, ward lines were established on the basis of the number of voters registered at the City election of 1894, there still being 25 wards.

The annexation of Hyde Park, effective January 1, 1912, made an additional ward.

By enactment of December 28, 1914, under authority of Chap. 630, Acts of 1914, the City Council redivided the City into 26 wards.

The latest redivision, established December 30, 1924, under authority of Chap. 410, Acts of 1924, consists of 22 wards.

TAX LEVY, 1932.

Total, $67,574,773 ($5,414,540 more than in 1931) or $62,260,762 on realty, $4,834,415 on personalty, and $479,596 on male polls.

PROCEEDINGS OF CITY COUNCIL.

Wednesday, June 13, 1934.

Adjourned regular meeting of the City Council in the Council Chamber, City Hall, at 10 a. m., President DOWD in the chair and all the members present.

THE BUDGET.

Coun. NORTON, for the Committee on Appropriations, submitted the following:

The Committee on Appropriations, to which was referred on May 21 and May 28, respectively, the budget recommendations of the Mayor for the County of Suffolk and City of Boston, having considered the subject, respectfully recommends, with certain members reserving their individual rights, that the same ought to pass as submitted.

For the Committee,
CLEMENT A. NORTON, Chairman.

WAYS AND MEANS OTHER THAN TAXES FOR 1934.

An estimate of the ways and means, other than taxes, of meeting expenditures of the City of Boston and County of Suffolk for the year ending December 31, 1934:

Building Department	$30,000 00
City Clerk Department	27,000 00
Collecting Department	47,000 00
Fire Department	60,000 00
Health Department	24,000 00
Hospital Department	300,000 00
Institutions Department	8,900 00
Interest	650,000 00
Library Department	23,000 00
Licensing Department	45,000 00
Liquor Licenses	1,000,000 00
Market Department	92,000 00
Mayor	58,000 00
Park Department	85,000 00
Pedlers' Licenses	4,000 00
Police Department	58,000 00
Public Buildings Department	18,000 00
Public Welfare Department	1,600,000 00
Public Works Department	160,000 00
Registry Department	21,000 00
Soldiers' Relief Department	95,000 00
Street Laying-Out Department	40,000 00
Weights and Measures Department	14,500 00
County of Suffolk	250,000 00
	$4,710,400 00

APPROPRIATIONS AND TAX ORDERS FOR THE FINANCIAL YEAR 1934.

Ordered, That to meet the current expenses payable during the financial year beginning with the first day of January, 1934, for performing the duties and exercising the powers devolved by statute or ordinance, or by vote of the City Council during the year, upon the City of Boston, or County of Suffolk, or the departments or officers thereof, and to meet the obligations for interest on debt, sinking fund requirements and maturing debt not provided for by sinking fund, the respective sums of money specified in the tables and schedules hereinafter set out be, and the same are, hereby appropriated for the several departments and for the objects and purposes hereinafter stated.

Ordered, That the appropriations for Water Service, current expenses, and the payment to the state under the provisions of chapter 488 of the Acts of 1895, and acts in addition or amendment thereto, and for the interest and debt requirements or for loans issued for water purposes be met by the income of said works and any excess over income from taxes; that the appropriation for East Boston Traffic Tunnel be met by the income from tunnel tolls and any excess over income from taxes; that the appropriation for Printing Department be met by the department income and any excess over income from taxes; and the appropriation for *City Record* be met by the income of said publication and any excess over income from taxes; that the other appropriations hereinafter specified be met out of the income of the financial year beginning January 1, 1934, and the balance from taxes to be assessed on the polls and estates of the City of Boston.

Ordered, That all sums of money which form no part of the income of the city but shall be paid for services rendered or work done by any department or division for any other department or division, or for any person or corporation other than the City of Boston, be paid into the general treasury, and that all contributions made to any appropriation be expended for the objects and purposes directed by the several contributors thereof.

Ordered, That all taxes raised to meet the appropriations of the city and county and all taxes assessed for meeting the city's proportion of the state tax for the year 1934 be due and payable on the fifteenth day of September, 1934; that interest shall be charged on all taxes remaining unpaid after the second day of October, 1934, in accordance with the provisions of chapter 59, section 57, of the General Laws, until paid, except the taxes assessed upon shares of national banks, which shall bear interest at the rate of 12 per cent per annum from the fifteenth day of September, 1934, until paid; and that all interest which shall have become due on taxes shall be added to and be part of such taxes.

Ordered, That except as the appropriation for any purpose or item shall be increased by additional appropriations or transfers lawfully made, no money shall be expended by any department for any of the purposes or items designated in the tables and schedules hereinafter set out in excess of the amount set down as appropriated for such specific purpose or item.

The report was accepted and the question came on the passage of the budget.

Coun. NORTON—Mr. President, I am going to be very brief, as I believe we have all made up our minds as to the positions we are going to take.

My position, primarily and fundamentally, is this, that we are spending more money than we are receiving, and we are simply postponing the day of judgment when we must inevitably face facts. If we do not face them now, we will have to do so later on, when it will mean chaos. "Later on," I believe, means the ending of 1934 or surely in 1935. It will mean chaos for city employees; it will probably mean that we will be held up on the matter of welfare for unfortunates. It will mean that the entire financial structure of the city will be in jeopardy. No man or no city can spend more than it is receiving. The budget should be returned to the Mayor with a request that a million dollars be cut from it. Two-thirds of the requests can be granted now. The Appropriations Committee might then work with the Mayor on the balance over a period of months. It is unfair to ask the Appropriations Commissioner to cover over 350 items in a few days. The budget calls for over $800,000 more than last year's budget. It means a true tax rate of about $39. Only $7,100,000 has been appropriated for welfare in this budget. Where is the difference coming from? The Mayor has not definitely outlined in writing his plan. Welfare expenses will run up over $12,000,000 this year in Boston. Orally, the Budget Commissioner has explained. This is the chief weakness of this budget. The Council is on a par with the Mayor in the matter of the budget. The budget is the chief function of the Council. Only a few days ago did the Council Committee receive the full printed, documented budget. The city is spending beyond its means. This means financial chaos by the end of 1934 or surely in 1935. In 1932 the city had a floating debt of $8,000,000. This is most unusual. In 1933 this amount was $13,500,000. Floating debt means generally the temporary loans that the city doesn't pay back in the year in which the money was borrowed. This year the floating debt will be even higher. Boston now has approximately $17,000,000 in uncollected taxes. Boston is now borrowing at low rates of interest, but this is so of even New York City which has an acute financial problem. Money today is scared away from the stock market, there is little industrial long-term financing, and tax-exempt Municipal bonds and other obligations are preferable. But this won't last. It may change next month. Last year's appropriation limit was $36,750,000. Every cent was appropriated. Last year the city's debt requirements called for $9,555,000, making a total of $46,705,000 in the Mayor's budget. This year, with a Mayor pledged to economy, elected on that platform, the tax limit set by the Legislature allows the Mayor to appropriate $36,054,000. Debt requirements call for $11,055,000. Interest on temporary borrowings will run up to at least $400,000, making a total of $47,509,000. The Mayor must face the issue now. To postpone it means chaos. We are spending more than we are receiving. To continue means bankruptcy. It means payless pay days, discharges and general confusion. It means the welfare recipients, the poor, may have to suffer. Now is the time to face the facts. Otherwise, we will face them near the end of 1934, and surely in 1935, and most surely during the remaining years of Mayor Mansfield's administration.

Coun. WILSON—Mr. President, I will try to be reasonably brief, although I know of no reason why the Council should endeavor to hurry on the most important matter that will come before us for the entire year 1934. But for the purposes of the record, and to explain the vote I intend to cast in this matter, unless some constructive suggestions are made by the committee, I will make this statement. For the year 1933, the final year of former Mayor Curley's last term, the budget presented by the Mayor, after paring slightly over five million dollars from departmental estimates, as shown by Document 56 of 1933, and as passed by the City Council, amounted to $36,750,000. After relief requirements of the Public Welfare Department had later required loans totaling $4,100,000, I understand expenditures for the year amounted to $40,928,835. During the hectic autumn days of 1933, incident to the city election, the voters were told, (1) that the mortgaging of the future by borrowing to pay current operating expenses in any one year was financial folly leading to eventual bankruptcy; (2) that there was no real need for further pay cuts or discharges among city employees and, in fact, no need for a continuation of the 5 to 15 per cent salary and wage reductions which went into effect by executive order of April 21, 1933, because (3) some 65 per cent of city expenditures was directly due to graft, waste and corruption in our city government. We, therefore, started the year 1934 with a new deal. There would be no borrowing of money to take care of the current operating expenses of this year with money to be paid back in the future; city and county employees could feel secure for the future; and taxes would presumably at once reflect the saving of the millions formerly squandered each year wastefully and corruptly! We, therefore, have before us Document 61 of 1934, the budget for the first year of the new era. It may be that present economic conditions make the proposed financial policy for this year necessary or advisable, just as in the past. But let us face the issue. Let us not attempt to decoy the taxpayers of Boston into any belief that heroic savings have been effected. City Document 61 of 1934 isn't a budget; it's the expression of a hope! Setting it up under the name of a budget, without some added explanation, is like trying to sell a pair of No. 6 shoes to a man with size 8 feet! The Mayor says, on page 10 of the budget, dated as late as May 28, 1934: "It will be noted from the foregoing table that despite material increases in snow removal costs and debt requirements for the current year, the estimated net budget requirements for those divisions of the tax rate determined under the direction of the Mayor indicate at the present moment a reduction in excess of $300,000 from similar requirements at this time last year." Those words "indicate at the present moment" have a world of meaning. In the first place, a reduction of $300,000 represents not a 65 per cent reduction from the 1933 figures, but nearer .007 per cent! But I don't want to linger long on that 65 per cent story. No one ever seriously believed that. There are two far more important issues. First, are the reductions from last year's figures the result of ferreting out waste and fraud? Second, is this a budget, viz., does Document 61 even roughly represent what it will inevitably cost to run the city this year? Consider the first question. What are some of the items that are reflected in the 1934 reductions,—such as they are? (A) The 5 to 15 per cent pay reductions, first made effective on April 21, 1933, for about two thirds of last year, when made effective for the entire year 1934 mean close to $800,000 additional cut. (B) The large amount of repair work carried on in city departments so far this year under C. W. A. and E. R. A. projects, it is stated, make possible reductions totaling $285,000. (C) Because of the reported uncertainty, as late as May 28, regarding the amounts of loans issued in anticipation of taxes and for P. W. A. projects, and the interest requirements for those loans as well as the East Boston Tunnel bond issue, no appropriations for those purposes are submitted for the present. The final and most important issue of all, is whether the present appropriation order is really a budget, honestly calculated to balance contemplated 1934 departmental expenditures against anticipated 1934 revenue,—independent of later special loans, or some change in the tax law, as earlier suggested by Councilor Shattuck this year. The total appropriations recommended for 1934 amount to $36,054,063.30 as against some forty-four millions requested in original department estimates. This item definitely allocates only $7,085,694.50 to the Public Welfare Department. Even adding to welfare the Mayor's entire suspense item of $2,582,361.55, makes only $9,668,056 available for a welfare budget which the Overseers themselves estimate will perhaps equal thirteen million, viz., $1,100,000 less than in 1933. The suspense item can't all be used for welfare, but even if it could, there is still a $3,330,000 spread. Take just one other department, such as the Police Department. Even ignoring the eleven sergeancy and 215 patrolman vacancies, the Police Commissioner stated flatly that the $550,000 cut in his estimates would not permit him to properly operate the department, and his representative stated that undoubtedly $250,000 of the present cut would be absolutely required later in the year. In brief, on the present set-up, we are upwards of four million short. Some of that I believe will be saved in the proposed purging of the welfare lists,—but not all. And the interest requirements on the P. W. A. project loans, and on the East Boston Tunnel and other 1934 loans, are still to be taken care of. If further cuts cannot be made in the budget, and if in 1934 we must again revert to the financial policy of borrowing against the future to pay the current bills of the present, and if the 1934 tax rate is to be held down by that method, then all concerned should be sufficiently on the level with the taxpayer, and with the employees of the city, to admit that the new deal is still the old deal, even if it is a new deck of cards. It was with that in mind, and although I am not a member of the committee, that I yesterday suggested to the Appropriation Committee the advisability of inviting the Mayor to confer with the committee as to what the real financial program of 1934 is to be. I of course, am not so impractical as to have expected the Mayor to sit in day after day with the committee on detail work, but I do feel that the Mayor and the City Council should not be at arm's length in the consideration of important questions of general policy. And I believe that neither the Mayor nor the City Council, nor both, should attempt to make the public believe that the expenses of operating the city have been substantially reduced as the budget taken alone would imply, or attempt to make the public believe that the financial policy of borrowing to pay current expenses has been abandoned for one moment.

Coun. SHATTUCK—Mr. President, this budget was submitted to your Committee on Appropriations in installments, beginning about two weeks ago, but the printed document, containing all the details and showing the picture as a whole, so far as it is shown, was not submitted until last Thursday, six days ago. So we have but six days to examine this voluminous document as a whole. Now, what do we find? This budget is based on a deficit. Only a little over seven million has been appropriated for Public Welfare, and the amount still available for appropriation within the tax limit is only $2,582,000. If all of this were added to the appropriation, the total would be only a little over $9,500,000. Last year the Welfare Department expenditures were over fourteen million. This year it is estimated that they will be at least twelve million. We have already spent about half that sum. It is apparently proposed to use two million of the reserve for welfare and to borrow three to four million to cover the rest that is needed. Some of the balance of the unappropriated reserve (about $100,000, I believe) is to be used for restoring step-rate increases to those employees on the city budget who formerly were on a graded salary scale. What is to be done with the $400,000 or more remaining we have not been told. I am opposed to any more bond issues to meet operating expenses. We are already too heavily bonded. The annual debt-service charges have reached the huge total of eleven million. Of this, about $1,800,000 is attributable to the operating expense borrowings of last year. The inevitable result of following this course is bankruptcy. The Mayor is aware of all this, and in his budget has made some cuts in appropriations, but, in my opinion, he has not gone far enough. There are still many departments which are overmanned. The Fire Department is a notable example. There are still some activities which are let out on contract which might be attended to by persons who are on the pay roll and not fully employed. The welfare problem has only recently received the attention it deserves. I am satisfied that a more vigorous pruning might reduce the budget outside of welfare expenses by $750,000 to $1,000,000, and that it should be possible to cut welfare expenses below $12,000,000. The savings from consolidation of departments have not yet been explored. In these and other ways the indicated deficit of about $3,500,000 should be cut to about $2,000,000. I do not propose that any essential service shall be given up. I merely suggest that we cut out the waste, even if by doing so we disturb the positions of some individuals who have jobs in departments which do not need their services. There probably is waste to the full amount of the indicated deficit of three and one-half millions, but some of it cannot be removed at once. Furtheremore, our dilemma arises in large part from the volume of welfare payments due to unemployment, and from the heavy debt charge, much of which is due to past folly. The real estate tax has reached the point of diminishing returns. We have already demonstrated the fact that a higher rate will not produce more revenue. Tax delinquencies increase as the rate goes up. If we make a further cut of about one and one-half million in the budget (including welfare), as I believe we can, for the reasons stated above,—our problem is only partly solved. We should still need two million more to balance our budget without borrowing, and the real estate tax would still be more than the traffic will bear. The remedy for this, in my opinion, is new sources of taxation other than real estate. Unfortunately, the Federal Government has seized the principal other sources of taxation to such an extent as to leave small pickings for state and municipal governments. Under the new deal, the Federal Government has dealt to itself the aces and the picture cards. We should demand some of these for the essential service of local government, but in the meantime we must do what we can with the pickings. I repeat the suggestion that for this purpose we insist on a temporary increase, say for two years, in the state corporation and individual income taxes, the proceeds to be divided among the cities and towns. If a 50 per cent increase were made, this would raise the individual rates from 6 per cent to 9 per cent on income from dividends and interest, from 1½ per cent to 2¼ per cent on earned income, and from 3 per cent to 4½ per cent on gains. Boston's share would be about three millions. This, with the budget reductions suggested would wipe out the deficit and leave about one million toward a lower real estate tax than would otherwise be required. Neither retrenchment nor an increase in income taxes on top of those we already have, even though temporary, is pleasant. But, circumstanced as we are, waste is indefensible, and payment of our bills as we go is better in the long run than drifting into bankruptcy. The present tax limit is based on the assumption that part of our operating expenses will be met from borrowing. This should be amended at once, and at the same time the Legislature should provide additional revenue, at least in the amount indicated, for the relief of stricken real estate. This will not only help Boston, but will also help every other city and town in the state. For the reasons stated, I cannot vote for the budget in its present form. Some of the changes needed—as, for example, raising the welfare appropriation to an amount sufficient to cover estimated expenditures, and taking the whole amount from current revenue—are beyond the power of the Council. Others—such as careful downward revision of all items in which waste can be found—involve a detailed study for which the Council has no adequate facilites and has been given no sufficient time. Others involve legislation. The only course open, therefore, appears to me to be absolute rejection of the budget as submitted, or resubmission to the Mayor for further consideration along the lines indicated. I am agreeable to either of these courses.

Coun. ROBERTS—Mr. President, it is not necessary to inform any of the old members of the Council, those who have served here for more than one term, that the principal matter to be acted upon by this Council is the budget, and that after the budget is passed, there is very little power that the Council has. In Document No. 1, I will refer to the inaugural address of his Honor Frederick W. Mansfield. On page 2 he says:

"It is not my intention to accept a tax rate increase without great effort to prevent it. I shall

undertake every proper effort at the city's disposal to keep the tax rate at the lowest possible figures. Non-welfare expenditures can be cut down; this will be done. Welfare expenditures are, of course, too definitely bound up with economic trends all over the nation to permit any definite promise."

The result, as far as those two items are concerned, is evidenced in Document 61. I would refer again to page 3 of the inaugural address:

"In 1932 the tax rate was $35.50. A reduction to $32.80 was effected in 1922, but this figure did not represent the true state of affairs. The reduction of $2.70 was far more than accounted for by two loans and a grant, a municipal relief loan of $3,500,000, a Welfare Department loan of $3,800,000, and a Federal welfare grant of $1,994,000, or a total of $9,292,000."

That is what the Mayor said at the inauguration this year, in January, but when it came to submitting the budget, after numerous radio addresses in which he broached the matter of reducing the tax rate in the City of Boston by small discharges in a few of the departments, although naturally some constructive work might have been expected, such work does not seem to be reflected here. What he complains of in his inaugural with reference to the Curley administration does not seem to have been remedied in this budget. I submit that this budget message should be sent back to the Mayor and that he should be given an opportunity to refer to his inaugural address and also to his campaign promises in the line of reducing the tax rate in the City of Boston before the budget is taken up and acted upon by this body. I propose to vote against the budget.

Coun. SELVITELLA—Mr. President, as a member of the Committee on Appropriations I want to make my position very clear in voting in favor of this budget. As a new member of the Council I do not pretend to know the technical operations in budget making. Neither am I going to give the Mayor of Boston an opportunity to have a Roman holiday by discharging ruthlessly and relentlessly city employees, in addition to those who have already been treated in a ruthless manner, an opportunity of which he might take advantage if the suggestions advanced by some members of the committee were put in operation. I read with interest this morning the reported statement of the Mayor that it would be his pleasure to have this Council reduce the budget. Of course, it would be his pleasure, and it would simply mean another holiday for the Mayor in going ahead and discharging employees. For that reason, I am going to vote for the budget, but with certain reservations, and I think it is within our rights to direct attention to certain departments where we believe—or, at least, it is my opinion—that savings might be effected. I am going to direct your attention to the budget for the Long Island Hospital. There we are told that budget includes two newly created positions that have never before existed in the City of Boston,—first, the Superintendent of Works at Long Island, a position never heard of before, at $2,500 per annum, to which, I suppose, are added his food, heat, light and power. Then the Mayor has seen fit to appoint an assistant to the Medical Director at Long Island, another position that was never in existence before. At this particular institution the Mayor has used the pruning knife to reduce expenses, exercising an apparent economy, but what he has done in reality is to take from one pot and put into another one, saving enough to take care of his friends through the creation of two new jobs. I have no objection particularly to the creation of jobs, because I would like to see everybody get a job. But I would like to direct your attention to what has happened in the food item at Long Island Hospital. The budget comes before us with an estimated figure of $212,500 for food during this year. That figure was submitted by the head of the department. The Mayor then cut that food budget down to $175,000, which means that almost 25 per cent has been taken off the food for the inmates at Long Island, despite the fact that Commissioner Washburn before the committee said that the number of inmates had increased 10 per cent in the first four months of the year. But instead of increasing the estimated allowance submitted to the Mayor, we find that the food budget has been cut 25 per cent, despite the 10 per cent increase in the number of inmates at the Island. So I am going to vote for the budget with the reservation that at least $4,000 be stricken from the budget for the Long Island institution, abolishing the two newly created jobs, for which money has been saved at the expense of the poor, suffering inmates of that institution.

Coun. NORTON—Mr. President, if in order at this time, in order to expedite business, I would like to offer a motion to the effect that this budget be sent back to the Mayor with the request that more time be allowed to study the budget and that the Mayor and the Appropriations Committee work together to see if we cannot find ways and means of reducing the budget.

The question came on Coun. Norton's motion.

Coun. SHATTUCK—Mr. President, I have no objection to recommittal to the Mayor, but I do object to the terms upon which the recommittal is suggested. I believe that the straightening out of this budget is largely a responsibility of the Mayor, as I said before. Many of the things that have to be done are things that this Council cannot do. They involve, for instance, raising the appropriation for welfare up to the amount that is actually going to be spent, so far as can be estimated. Instead of providing in the budget for that purpose about $7,000,000, we all know that that amount is a great deal less than will be spent, and there is the question of providing ways and means for raising the amount of money that is really going to be spent. I have no objection to referring it back to the Mayor, but I don't think it should be referred back to the Mayor simply so that he may sit down and confer. I think he has to do some work himself.

Coun. NORTON—Mr. President, I shall be glad to amend my motion, adopting Councilor Shattuck's suggestion in regard to ways and means for obtaining new revenue, and for the consideration of various matters that he has suggested. In other words, I believe there should be a general review of this whole business.

President DOWD—Will the councilor please specify the motion that he desires the Chair to put?

Coun. NORTON—Mr. President, it would read as follows: "Ordered, That the City Council of Boston returns the Mayor's 1934 budget to the chief executive with the suggestion that more time be allowed for further study of that budget."

Coun. WILSON—Mr. President, speaking on that motion, I object to it on two grounds. I will reiterate what I tried to say yesterday and what I said earlier today, that I think the Council and the Mayor should not deal at arm's length. I think the Mayor should lay his cards on the table; I think the Appropriations Committee and the other members of the City Council and the taxpayers should be told what the proposed financial policy of the city for 1934 is to be, and what the plans of the Mayor are,—whether he intends to float loans to pay current expenses or whether he intends to comply with the request made here awhile ago that an attempt should be made, through the Legislature, to aid us through legislative sources. I think he should confer with the Council on questions of policy. I believe that the Mayor should sit in with the Committee on Appropriations. I agree with the Mayor's reported statement that the Council have some duty in the matter of rejection of items in this budget, and I believe that the Mayor should sit in with the committee. But I do not believe we should toss the budget back in the Mayor's lap simply with the suggestion that he shall take $1,000,000 more out of the appropriations. If there were a conference, we might agree upon items, and it is a fact that we can reduce, but we have no right to increase a single item. But I can't see what will be accomplished by simply throwing it back to the Mayor and asking him to reduce. A conference upon the whole thing, having in mind possible increases and reductions, might accomplish something.

Coun. SELVITELLA—Can the President tell what effect it will have on departments if this budget is not passed this morning?

President DOWD—In the event of the budget not being passed before Tuesday of next week, some of the employees in departments of the city will not receive any salaries.

Coun. SHATTUCK—Mr. President, I would move to amend the order offered by the councilor from Hyde Park (Coun. Norton) by substituting the following: "Ordered, That the budget be returned to the Mayor for further study and for revision, so as to bring about all possible economics and to produce a balanced budget."

President DOWD—Does the councilor from Hyde Park (Coun. Norton) accept that amendment?

Coun. NORTON—Yes, Mr. President.

Coun. BRACKMAN—Mr. President, I am opposed to the motion made by the councilor from Hyde Park and amended by the councilor from the Back Bay. This is the latest date I can remember that a budget has ever been submitted to the Boston City Council, and I am unalterably opposed to further delay in passing the budget. The budget is the life blood of the city. If the Committee on Appropriations has not by this late date been able to sit down with the Mayor on these questions that have been suggested, I think it is evident that they have been somewhat derelict in their duty; and I do not think they should at this late stage of the game expect the Council to aid them in trying to send back or delay this budget. I am opposed to the shutting down of city departments or to having employees go payless while the Council is playing with the budget.

Coun. WILSON—Mr. President, while I am not a member of the Committee on Appropriations, and while they are able to defend themselves, I believe it is a little unfair to blame them for any delay in this matter, bearing in mind the fact that they received the budget three weeks later than any budget has ever been received in the last ten years, as far as I know, and only received the printed figures less than a week ago. For that reason I believe criticism of the committee is a little out of order. I might say that the Budget Commissioner stated to the committee that he would have available early this morning, if we should need it, the information as to the various departments that would go out of business if this budget were delayed ten days or two weeks.

Coun. Norton's motion as amended by Coun. Shattuck was lost.

Coun. NORTON—Mr. President, I have another motion here that I would like to offer, if in order. Under legislative enactment this year we have been given authority to expend half of last year's budget. There is now an opportunity to pass a budget for eight months of the year. The amount for six months has been practically spent, or will be by July 1. Eight months would bring the period through July and August. In other words, if two-thirds of the year's budget is provided for at this time, it will give the Council the opportunity in the next couple of months to look into various matters concerning the finances of the city under the Mayor's maintenance budget. Therefore, if in order, I would respectfully introduce the following order: "Ordered, That the present budget be passed to the extent of two-thirds of the amounts requested under the individual items as submitted to the Council by the Committee on Appropriations."

The question came on the adoption of the order offered by Coun. Norton.

Coun. SHATTUCK—Mr. President, I question whether under the law we can do that. There was some discussion of that point yesterday, if I understood it correctly. Commissioner Fox pointed out that under the special act of the Legislature fixing the tax limit of the City of Boston for this year, we were merely allowed to go forward for six months on the basis of last year's appropriation, that that was the limit; that we had no power to go forward on that basis for more than six months.

Coun. NORTON—Mr. President, I don't understand that there is any law against passing an eight months' budget, or even a monthly budget, something that I had in mind last year. I certainly see no reason under the law why we cannot pass at this time an eight months' budget. That will give us an opportunity, working with the Mayor and the Appropriations Committee, to see if something cannot be done on the last four months' budget. This budget means an actual tax rate of $39 or more, and it certainly does seem as if we should have an opportunity to look more carefully into the financial condition of the city. This is the one extremely important function in the year of the City Council. The gentleman from Ward 5 stated several years ago that after we had passed the budget our work for the year was practically finished. Now, if there is a possibility here of passing an eight months' budget, the Council will then have some opportunity to examine into the situation confronting the city, and we will be able to keep in touch with that situation. I find no law preventing the Council from passing a budget for two-thirds of the year.

Coun. Norton's order, that the present budget be passed to the extent of two-thirds of the amounts requested under the individual items as submitted to the Council by the Committee on Appropriations, was declared rejected. Coun. Roberts doubted the vote and asked for the yeas and nays.

The order was rejected, yeas 2, nays 20:

Yeas—Coun. Norton, Roberts—2.

Nays—Coun. Agnew, Brackman, Doherty, Donovan, Dowd, Englert, Finley, Fish, Fitzgerald, Gallagher, Gleason, Goldman, Green, Kerrigan, McGrath, Murray, Selvitella, Shattuck, Tobin, Wilson—20.

Coun. WILSON—Mr. President, I now press the motion that the budget be referred back to the Committee on Appropriations with instructions to request the Mayor to confer with the committee with reference to his financial policies for the year 1934—whether or not he has taken any steps to comply with the suggestion that Councilor Shattuck made earlier in the year, and the possibility of further reductions in the 1934 budget.

Coun. McGRATH—Mr. President, I would like to make a "maiden speech," if I may have the temerity to do so at this time! I approve the motion of the gentleman from Ward 17 (Coun. Wilson), although when the final vote on the budget is taken, today or a week from today, I will most certainly vote for the budget, regardless of the fact that I am not on friendly terms with the gentleman who submitted it. But year in and year out in this Council I have voted for certain amendments to the budget that have been introduced, and when those amendments have been lost I have then voted for the budget; and I have done so on the ground that it is absolutely ridiculous to vote against the total budget. If the budget is not voted for, the Hospital Department will cease to function, the Fire Department will cease to function, the Police, Sewer and other departments so vital to the people of our city will cease to function. Now, that brings us to this point, sir, that for years across the street, in that building over there, there was a Good Government Association, which used to say that under Mayor Curley 65 cents out of every dollar spent by the city went for waste, graft and corruption. And they used to say, "Allow us to go in there and take charge of this government and we will show you what we will do for the taxpayers of this city." In the last mayoralty contest a gentleman by the name of Mansfield campaigned through this city, raising his right hand and saying, "I am an honest man." Well, I always love to meet an honest man. He said, "I am an honest man. I say to you that 65 cents of every dollar contained in the budget for the last four years has gone for waste, graft and corruption, and if you elect me I will immediately save the homes of the taxpayers of this city by cutting out that 65 cents for waste, graft and corruption." Six weeks ago, sir, I introduced an order, which is in the records, asking two questions—"Were those statements made by you in the campaign unwarranted and false, or is there still an amount of 65 per cent in this budget

as submitted by you that represents waste, graft and corruption?" Up to the present time Mr. Loeffler, the man who dictates the policies of this administration, has failed to answer, or those running the government have failed to pay any attention to those questions. And so we turn to the Good Government Association, which has been in office across the street here for twenty years, and ask, "What have you to say?" Well, we find that they are disorganized, that they won the fight and then ran away, and they tell us, "There is a man from Detroit, named Loeffler, whom you must hold responsible. It is true that Sherman Shepard, for years the secretary of our organization, is secretary of the new organization, but we have washed our hands clear of the whole affair. We have given you this man, and have now walked out. You cannot hold us responsible. We are out of it and have turned it over to the gentleman from Detroit." Mr. Loeffler didn't have a good job, this Thurston, this magician, and so he was brought into the cabinet of his Honor the Mayor. He then found that we had to close the smallpox hospital to save $6,000, because Loeffler said that the financial future of this city was at stake. We were borrowing money for less than 2 per cent, but yet the flag of panic was flying from the top of this hall and we were told that it was necessary to close that smallpox hospital, because we couldn't find $6,000 to carry it on; that it was necessary to jeopardize the lives and health of little children there, subjecting them to contact with contagious disease, because $6,000 could not be raised. We found that we couldn't have ice water in the fountains when the temperature got up to 85 degrees above zero; that when the thermometer got to 6 below zero a poor old fellow, who had been a prosperous professional man in his earlier days, had to be put out on the streets to wander around, because we could not find food for him. They found out that the financial condition of the city was tottering, and they took as Mayor a big man, an outstanding man, a mental genius, an attorney, who knows all things; because we have found in recent years that if we want a man who can settle an estate or run a steamship line, we must take an attorney. And so we have down there a man who has been the head of the Bar Association, a legal expert. And so they decided that they could not find $6,000 and had to close the smallpox hospital; and because they could not find $5,000 they had to stop icing the water in the fountains in hot weather. And so we have this Mayor, who has two hats,—a tall hat and a derby hat, although he doesn't wear the derby very often,—and this magician, this Thurston, reached into the closet downstairs and took $480,000 that was in the derby hat, in the closet, that they didn't even know about, to appropriate for other purposes. When they wanted to raise money for certain things it could be found. For other things, the financial future of the city was at stake, when it came to a matter of paying for the food of a poor old professional gentleman who had seen better days, they allowed him to wander out alone on the streets when the weather was 6 degrees below zero. The financial future of the city was then at stake, as it was at stake when the thermometer was 85 degrees above zero, and the ice water was taken away from the parched throats of the little children; as it was at stake when it came to take care of little children of big families by the health nurses, the only mothers they knew. Loeffler said, "No, you will never find that tender touch again, we must have economy." And nurses who had previously gone around in different sections of this city, thirty-seven messengers of mercy, cannot go into homes to give little children a bath or the tender care and soothing touch of a mother. But when political expediency called for it, $480,000 could be found to increase the salaries of those already getting salaries; while forty-three men were turned out of the City Hospital, seventeen of whom applied to Public Welfare for assistance. That was economy. That was the economy of political expediency. When they sent up the trial balloon and found that this man's administration was the worst since that of George A. Hibbard, they then resorted to the same practical politics that the so-called gang fellows have always played in the city. It is economy if it hits at the head of a political enemy, but it is not economy if it means that you are going to put fifty constables who are friends of yours in jobs, or if you are going to give a juicy contract to a fellow who has helped you in politics, or a juicy position to a brother-in law. And so from every platform in this city in the last campaign, men who had been in this Council for the last four years, as I was,—in two years of which I occupied the position you now occupy, Mr. President, as President of this body,—every member who voted for the budgets that came in was branded as a thief, because in those budgets there was an amount of 65 cents in every dollar, it was claimed, representing waste, graft and corruption. And this man who was elected Mayor said, "I am an honest man. If I am sent to City Hall as Mayor I will restore the salaries of city employees. I will not cut the departments, as those opposed to me say that I will. I will not discharge employees. But I will, simply by giving an honest administration, eliminaet waste, graft and corruption, thereby cutting the taxes. I will restore pay and I will drive the chiselers out of the bonding market, and there will be no such thing as preferred contractors." The people took this man at his word and elected him, sir, and we are now living under a reform administration. You are now seeing a reform administration that throws all of these employees out of the hospital, discharging health nurses, that attempts to close the smallpox hospital, that takes away the ice from the children, but that is willing to furnish $480,000 when it means votes and political preference. And so the Good Government Association have walked out, and have left this situation with us. As for the Municipal Research Bureau, they were invited to sit in with the Committee on Appropriations and give the committee the benefit of the knowledge they have. They have sent out voluminous reports, they have told what they would do were they in control of the situation, and the chairman of the Appropriations Committee had their representative sitting here every day looking over the most highly segregated budget of any big city in America in the hope of getting their advice. They were told to put up or shut up, and they didn't give any advice that amounted to a single thing, sir. And we are now told to send this back to the Mayor, with a blanket request to him to cut off a million. What will he say? His reply will be, "I can only do this at the expense of salaries, and when the City Council ask me to cut salaries I object,"—because he is the same Mayor, sir, who sent in to this body an appropriation of $1,800,000 for a City Hall. He lobbied every member of this Council, with few exceptions, for that project, and we fought it. He finally decided that he had better withdraw, quit, and did so, and the following night he appeared as the chief speaker before the Boston Real Estate Exchange and misrepresented our position. There is a great organization, sir, containing men from Belmont, Needham and other places, who would like to run our government. When you invite them in here, as Mayor Curley said, to make suggestions, they are away playing golf or having an outing down at Swampscott. They cannot get here when they are called on. But the Mayor stood up before that body and said, "Do you want to know what we are doing to reduce taxes and relieve you people? Why, only yesterday I took from that body a ridiculous appropriation of $1,800,000 for a new City Hall." So they handed the bag to the City Council and we were left holding it, and in the minds of the small taxpayers it looked as though this body had fought deliberately to put over the very thing which they defeated in spite of the lobbying of the man who is Mayor. And if we sent this budget back to the Mayor in any such way as is proposed here, he would immediately continue in his capacity of Doctor Jekyll and Mr. Hyde and declare that the Council had requested him to cut further a budget that had already been cut to the bone, in spite of the fact that he had cut only one per cent from it and had left the other 64 per cent he talked about, as representing waste, graft and corruption. He will say, "Mr. President and gentlemen of the Council, the only way I could cut would be to take out of the pay of city employees, and if you think I will ruin one home or cause discomfort to one city employee, you are mistaken." The city employees would then go out and say, "What a horrible body that City Council is!" No. Mr. President, I am a firm believer in giving to this reform Mayor, the Municipal Research Bureau, and the now defunct Good Government Association—that will not be rehabilitated for three years —full swing. They are in authority. Of course, in three years the Good Government Association will repudiate the present Mayor, as George A. Hibbard was repudiated, and will back John Jones or somebody else "to save the city," because the present Mayor has failed. But while they are in they are going to take the responsibility for the budget and for other administration of city affairs. They are then going to condemn themselves, even if they haven't the courage to say that they made a mistake when they asked me and other members of the Council to vote for a budget "reeking of graft, waste and corruption." They, Mr. President, are taking the responsibility. I know those responsible for the election of Mayor Mansfield, and they are already trying to get from under. They say, "I had nothing to do with the election," but they did. He is their baby, and they are going to fondle him, cuddle him and stay with him. No matter what sort of baby he becomes, they will have to stay with him and run this city—without waste, graft and corruption, showing what an honest, capable man, brought from as far away as Detroit, can do for this city! They have not saved one cent up to date. But the thing will have to go on, and when the Good Government Association and the Municipal Research Bureau have used him, when they have done with him, they will treat him as poor Hibbard was treated. They will cast him aside and point the finger of scorn at him as the horrible example of what a Mayor should not be. As I have said, Mr. President, when this budget comes before us for final passage, I shall vote for it. I do not believe in sending it back to the Mayor. I believe it should, rather, go back to the Committee on Appropriations, where it rightfully belongs. I agree with the position taken by the gentleman from Ward 17 (Coun. Wilson). I think the chairman of that committee and the other members of the Committee are all more capable than the Mayor of Boston. There are men on that committee far better qualified, Republicans and Democrats, than the Mayor of this city, because they have been taught by experience. A man may be an able lawyer, he may be an able business man, but if he has not had practical experience he cannot properly handle matters of this kind. Send it back to the committee, and let them demand that the Mayor come in, and even demand that the Municipal Research Bureau come in, and make concrete suggestions as to specific items, before they fold up and go out of town. Certainly the chairman of that committee is an honest man, and the other members of the committee are honest men, and they have a right to demand that Mr. Loeffler not only sit in with the committee, but that he furnish any information he may have which will be of assistance. The books are open to those men, and let us have their suggestions, let them take the responsibility, and if the result is failure they then condemn themselves. I will vote for the budget, I will vote for the amendment to send it back to the Committee on Appropriations, and I trust that the committee will obtain whatever information it can from Mr. Loeffler and the rest of these brainy men. Give them the budget. Give them specific things to do, and when they fail the Mayor can be condemned for saying that 65 cents out of every dollar in last year's budget went for waste, graft and corruption.

Coun. KERRIGAN—Mr. President, I am opposed to sending this bill back. I am going to vote in favor of the passage of the budget. His Honor the Mayor has been using and is using every effort to administer the affairs of the city in such a manner that the welfare of all the citizens is considered. There is no doubt in my mind that he is honest and sincere; he is trying to do his best under very trying conditions. Such difficulties as are facing the Mayor are conditions which are beyond his control and for which he is in no way responsible. They are conditions which were placed in his lap. The Mayor has discharged in the past month men who were in the employ of the city. He has made these discharges on the advice of the heads of the departments. There is no doubt in my mind that these men will be put back to work by the Mayor when the financial set-up of the city is in better condition, and I have every reason to believe that the honest city worker will be happier under the present Mayor than he has been for a long, long while. The Mayor has cut the budget $300,000 this year, and to my mind as he goes along he will do his best to give the citizens of Boston an honest and sincere administration. The Mayor has made a change in the Welfare Department which, to my mind, will effect a large saving for the city. The various heads of departments have appeared before the Appropriations Committee in the past few weeks, and I think the committee at this time—if, as was claimed, the budget could be cut one million or two million—should be able without recommittal, to show where such a cut can be made, and should be able to point out where the city will be able to save money. So at this time, Mr. President, I make the motion that the budget pass in its entirety.

President DOWD—There is at present another motion before the house.

Coun. SHATTUCK—Mr. President, I listened with interest to the address of the gentleman from Ward 13 (Coun. McGrath). About 90 per cent of it seemed to be denunciation of various persons and things. So I gathered that he, on the whole, would vote for this budget although he didn't like it. I was not quite sure why he did not like it, but I gathered he didn't like it because it was not big enough. So I would like to ask him, through you, Mr. President, what items he would add to the budget to increase it, and what taxes he would impose to meet that added expense?

Coun. McGRATH—Mr. President, I would add to the budget an item restoring the salary of every person attached to the present administration, and, so far as the question of raising additional taxes is concerned, I would notify the assessors to go out for increased personal taxes on the wealthier districts of the city, where they could pick up thousands of dollars if they made an honest survey.

Coun. FITZGERALD—Mr. President, I dislike to speak upon this matter, because I do not wish to add to the remarks that have already been made. I do not think, however, that it should be referred back to the committee or to the Mayor. We should either pass the budget or reject it. It seems to me the chairman of the committee, who has made a great study of budgets and finances and who can quote figures from every city in the country, ought to be able to furnish any additional information that may be required at the last minute. Personally, while I do not object to coming here at any time to serve the city, I could see no reason why this budget might not have been acted upon at last Monday's meeting. Many of the members come here at great sacrifice, and all this talk amounts to nothing, because practically everybody admits that in the final analysis he is going to vote for the budget, anyway. I am not here defending the Mayor. He has other defenders. But I cannot let the opportunity go by to answer the statement that the Good Government Association elected Mansfield, because anybody who has been in politics for any length of time knows about the support that was given to Mayor Mansfield in the election in this city. The fact is that Mansfield carried some of the rock-ribbed Democratic wards in this city, as well as other wards. Ward 17, no longer a Republican ward, was carried by Mansfield. You will find, going down the line, that he did pretty well in the Democratic wards—that he had the support of "Billso" Hickey, of Congressman McCormack, of Arthur Sullivan in Charlestown, Joseph Mulhern and others; that any number of

others were pretty well lined up with the present Mayor of the city. I trust that there will be no more talk on this matter, but that we will either pass or reject the budget.

Coun. NORTON—Mr. President, I am glad that the councilor did not move the previous question. We started to argue here at quarter of eleven, and it is now only ten minutes of twelve—the shortest debate on the most important budget that this Council has had in recent times. Action upon the budget is the only function of this body that amounts to anything. Why should we rush it through? Since the new legislative enactment went into effect in 1916, every Council in every year when the Mayor has submitted a budget, has given up its authority, the only authority we have, and acquiesced, agreed with the Mayor in every request he has made. That has been the story on every budget that has come here year after year, since 1916. What I am saying is, the only power that this City Council has it has bargained away to the Mayor every year. Now, this is a beautiful time to criticize the Mayor. It is the popular thing to do, but it is not the right thing to do. Any man sitting as Mayor of Boston today has a terrific problem before him. It is easy enough to criticize; it is easy enough to bring in personalities. How easy it is to talk about the Municipal Research Bureau or about the gentleman from Detroit. But what has that to do with this matter? If the Municipal Bureau gives me information, I welcome it. I welcome information in regard to the City of Boston from any bureau, from any organization. Of course, I have the right to interpret it, but I welcome it, whether the man who gives it to me comes from Kalamazoo or from the lowest part of Africa. You have a city government here that costs twice as much as the government of any city of like size in America, of any large city with the exception of New York. Let some friends of the people answer this question, Where is the money coming from? The gentleman from Ward 3 (Coun. Fitzgerald) refers to my bringing comparable figures into this body from other cities. Where can we get our figures? Was there ever a study made where comparisons did not have to be brought in from other cities and other places? We are now having a budget that means an actual tax rate of $39 or more. It means that a thousand homes in my ward alone will be sold because of inability to pay the tax. There is a section of the ward known as "the deserted village," where people who had bought homes have lost them because they were unable to pay the highest tax rate of any city of a comparable population in the entire world. And we hear complaint because people have referred to waste and extravagance in the city government of Boston in the last twenty years. Attacking somebody here this morning is not going to help that situation. One thing we can do is to send the budget back to the Mayor. It was only a few days ago that the printed document came to our committee, and still we are told here that we have had time enough to consider it. I have moved, and have been defeated on the motion, to send the budget back to the Mayor and the Appropriations Committee. I have been defeated on a motion that we pass an eight-months' budget that will give the Council at least control of the budget for the last four months of the year. Now, you are asked, under the motion before the body, to refer the entire matter back to the Appropriations Committee. You can exercise your judgment as to whether or not the matter requires more study or whether we should have more time on it. The gentleman from Ward 3 (Coun. Fitzgerald) complains about the chairman of the Committee on Appropriations desiring to have more information and desiring to have more study and attention given to this matter. Do you think that only three days on a budget with over three hundred fifty items is sufficient, when we don't even know where the money is coming from on the one important item of welfare?

Coun. FITZGERALD—Mr. President, will the gentleman yield for a question?

Coun. NORTON—Certainly.

Coun. FITZGERALD—Has the information received upon this budget been any different from what has been received from any former Mayor since the new system of electing the Council was inaugurated?

Coun. NORTON—In justice I must answer your question in the negative. But two wrongs do not make a right. You have now had an opportunity, however, to do something about it. You have done the same thing since 1916, have sold your birthright to the Mayor. You have never objected to a budget that has been submitted here. You have acquiesced when he increased the tax rate and the expenditures. Every time when we go before a legislative body, the chairman of the legislative committee says, "You were a member of the body that appropriated this money were you not? "Yes." "That is all." In other words, the responsibility for these tremendous expenditures rests right with this Council as well as with the Mayor. We now have a chance to exercise our prerogative. This is the only time when we stand on a level with the Mayor, so far as the powers given to us are concerned.

Coun. SHATTUCK—Mr. President, will the gentleman yield for a question?

Coun. NORTON—Certainly.

Coun. SHATTUCK—I wish to ask the gentleman whether I am correct in my understanding that he does not believe in being a rubber stamp?

Coun. NORTON—Well, the question itself is so infantile that it does not require an answer. (Laughter.) I am not going to take the time to indulge in any political pyrotechnics here. This is a budget of the City of Boston. This is the time when you are putting an additional burden on the homes of our section and of other sections of this city. It is not a time to be wasting millions of dollars when thousands of people today are hungry. This is the time when we might try to save a little something in order to make sure that 100,000 men, women and children, in this greatest cataclysm that has ever struck our city, will be fed and cared for. $5,000 would do much towards providing milk for those who need it, much might be done in other ways which could be accomplished by savings in the budget. And still we are proposing to vote for a budget containing $900,000 over that of last year. And then we are told that we are rubber stamps! Yes, we have been since 1916, but I don't see how any man can stand on this floor at any subsequent meeting and talk about the Mayor of Boston if he votes "yes" on this budget at this time. I believe that the Mayor could further reduce this budget, that he can be shown where it can be done. I specifically noted in my minority report of last year where the former Mayor could reduce the budget. But what is the use of talking here about Mr. Loeffler or Mr. Sherman Shepard or the Good Government Association? What has that to do with this budget? I asked those organizations to come here. They gave me valuable suggestions. They will give any member of this body their ideas along certain lines. And just let me call this to your attention, while you are berating the Mayor of Boston. He has fired very few. There are some who have been placed on furlough, but that is merely a temporary expedient, and I believe some of those who have been dropped will be taken back. He has had an opportunity to be extraordinarily vicious along certain lines in his attitude towards certain things connected with the previous administration. But he has not been. This Mayor downstairs a few weeks ago could have brought certain members of the city government into disrepute by saying the word, but he did not do it. This man is not the terrible man he has been pictured. Don't jump on him simply because it is considered the proper thing to do. Let us forget animosity. Let us look at these different items from the standpoint of fairness, not bringing in these extraneous matters which have nothing to do whatever with the question before us. This body is going to pass this budget, with all these millions of dollars, $900,000 more than last year, without having looked into it properly. In doing so, yes, we are rubber stamps for the Chief Executive. The law that established this body never intended that you should bargain away your rights for a mess of pottage. Each of you represents 30,000 or 40,000 people. You represent your individual sections. The matter should have further study. We have not had sufficient time for it. This printed document in detail came to the committee less than five days ago. Do you believe we should have more time? Reduce the tremendous tax burden that is destroying business in this city and driving inhabitants away. Give us more time on the budget.

Coun. McGRATH—Mr. President, I would like to see this go back to the committee. The chairman of the committee has made reference to the fact that the representative of the Municipal Research Bureau gave him some very valuable assistance. I think we are entitled to the information he received. I think if this is referred back to the committee we may be able to get in writing specific suggestions from the Municipal Research Bureau. I understand that the gentleman representing the Municipal Research Bureau is sitting in the gallery at the rear, and I understand that he likes to hear me talk! I say to him, when he comes in, let him bring in a signed statement in writing as to what he wants cut, and if there are valuable suggestions from this organization to the chairman of our committee, perhaps we can hear what they are, when the budget comes back to us again.

Coun. GOLDMAN—Mr. President, perhaps this is an opportune time for saying that you were very wise in your appointment of a chairman of the Appropriations Committee, that you couldn't have selected a more careful watch dog of the treasury——

Coun. ROBERTS—Mr. President, I rise to a point of order, that the gentleman is not speaking to the amendment.

Coun. GOLDMAN—I am, Mr. President.

President DOWD—Kindly stay on the amendment.

Coun. GOLDMAN—You could not have selected a more careful watchdog of the treasury, Mr. President——

Coun. ROBERTS—Mr. President I rise to a point of order, that the gentleman is not talking to the amendment.

President DOWD—The Chair will again warn the councilor to talk to the amendment.

Coun. GOLDMAN—I am on that, Mr. President, and I reiterate that the President could not have appointed a better chairman or a better committee. Clem Norton, I think, is as fine a man as we could have in that place. We have here, in spite of Councilor McGrath's reference to lawyers, able lawyers——

Coun. ROBERTS—Mr. President, I press my point of order, that the gentleman is not talking to the amendment.

President DOWD—The Chair will state that the point of order is well taken, that the councilor must talk to the amendment, if he desires to address the body.

Coun. GOLDMAN—Mr. President, I am on that amendment, and will reach the point of my argument in just a moment, as I think will be clear, in spite of Councilor Roberts' objection. I don't think I have to preface my remarks by saying, first of all, that I am opposed to the amendment. But I am opposed to it, if that is what the gentleman wants, and my reasons are as follows: We have on that committee four able lawyers—Councilor Roberts, in spite of his objections, Councilors Tobin, Selvitella and Agnew. We have a very fine business executive in Councilor Gallagher, and the treasurer of Harvard University, Councilor Shattuck, is on the committee. They have gone into each and every budget requirement of each department, and there is no need of going over the same matters again. I now move that the previous question be called for.

The previous question was ordered.

Coun. Wilson's motion to recommit the budget was declared lost. Coun. ROBERTS doubted the vote and asked for the yeas and nays. The motion was lost, yeas 5, nays 17:

Yeas—Coun. Fish, McGrath, Norton, Roberts, Wilson—5.

Nays—Coun. Agnew, Brackman, Doherty, Donovan, Dowd, Englert, Finley, Fitzgerald, Gallagher, Gleason, Goldman, Green, Kerrigan, Murray, Selvitella, Shattuck, Tobin—17.

Coun. GOLDMAN—Mr. President, I now move that the appropriations for the City of Boston for the fiscal year 1934, contained in Document 61, be passed.

President DOWD—The motion is out of order. The question now comes on the passage of the budget, and the clerk will call the roll.

Coun. MURRAY—Mr. President, I want to ask if the county is included in that?

President DOWD—Yes.

Coun. MURRAY—Then, Mr. President, I move that all printing done for the City of Boston or the County of Suffolk be done in the Municipal Printing Plant of the City of Boston.

President DOWD—The Chair will state that a motion in that form is out of order.

Coun. FISH—Mr. President, I move that the county budget be voted upon separately from the city budget.

Coun. Fish's motion was lost.

Coun. FISH and MURRAY jointly submitted the following: "That the budget be amended by laying on the table the following items:

Superior Court, Civil Session, Clerk's Office, B, $9,900, and D, $13,000.

Superior Court, Criminal Session, D, $14,500.

Probate Court, B, $9,650, and D, $8,000.

Registry of Deeds, B, $1,600, and D, $4,000."

Coun. FISH—Mr. President, we had quite an argument last year on the printing in the county budget, and voted 21 to 1 in favor of having the printing done in the City Printing Plant. For that reason I now call upon the Mayor of Boston to see that that printing is sent to the City Printing Plant, where it rightfully belongs.

Coun. BRACKMAN—Mr. President.

President DOWD—The Chair will rule that the motion is not debatable.

Coun. BRACKMAN—Mr. President, I ask unanimous consent to make a statement.

President DOWD—If there is no objection, the councilor may proceed.

Coun. BRACKMAN—Mr. President, I was one of those who voted last year to lay this item on the table, but I find that we cannot tie up the courts in this matter. The Council has no power to compel the clerk of courts or the county officials to do this, because the courts and the county officials have to function, and there is no way of compelling them to do what is here proposed. Therefore, as it is a useless gesture and after all causes some hardship—as it did last year, when there wasn't even a slip of paper available at times to mark up cases for trial—I trust that it will not prevail. We cannot tie up the courts and penalize the people because clerks of courts will not give their printing to the City Printing Plant. I wish they would do so, but we cannot compel them to do so. Therefore, I hope the budget will pass without this amendment.

Coun. MURRAY—Mr. President, the previous Mayor believed, and I understand that the present Mayor acquiesces this year, that such printing should be done by the City Printing Plant and not by outside concerns. So I trust that the motion will prevail.

The motion to amend the budget was declared lost. Coun. FISH doubted the vote and asked for the yeas and nays.

The amendment prevailed, yeas 13, nays 8:

Yeas—Coun. Donovan, Englert, Finley, Fish, Fitzgerald, Gallagher, Green, Kerrigan, McGrath, Murray, Norton, Selvitella, Shattuck,—13.

Nays—Coun. Agnew, Brackman, Doherty, Dowd, Gleason, Roberts, Tobin, Wilson—8.

President DOWD—The question is on the passage of the budget as amended and the clerk will call the roll.

Coun. TOBIN—Mr. President, I would like to speak on the passage of the budget.

President DOWD—The Chair will rule that, the roll call having been ordered, the gentleman is out of order.

The budget as amended was passed, yeas 18, nays 4:

Yeas—Coun. Agnew, Brackman, Doherty, Donovan, Dowd, Englert, Finley, Fish, Fitzgerald, Gallagher, Gleason, Goldman, Green, Kerrigan, McGrath, Murray, Selvitella, Tobin—18.

Nays—Coun. Norton, Roberts, Shattuck, Wilson—4.

ADDITIONAL AMOUNT FOR MUNICIPAL EMPLOYMENT OFFICE.

President DOWD—The Chair will now call up assignment, the order providing $2,000 extra for the Municipal Employment office. The question is on the passage of the order.

Coun. NORTON—Mr. President, there, again, we are going to spend money that we haven't got on a useless experiment. I have opposed this for a number of years, and I still oppose it.

Coun. McGRATH—Mr. President, I want to strongly urge this appropriation, because if we do not vote for the appropriation we are voting for the discharge of four trusted employees of the City of Boston. I think it would be shortsighted on our part to close that office, which is at least trying to do something. The moment we close that office on Church street, that during the depression has been trying to do something, although perhaps failing at times, we are transferring all those applicants to this Council. I certainly believe that this Council, or a majority of them, are not in favor of discharging those faithful city employees, and have so recorded themselves many times by vote.

The order was passed, yeas 20, nays 2:

Yeas—Coun. Agnew, Brackman, Doherty, Donovan, Dowd, Englert, Finley, Fitzgerald, Fish, Gallagher, Gleason, Goldman, Green, Kerrigan, McGrath, Murray, Selvitella, Shattuck, Tobin, Wilson—20.

Nays—Coun. Norton, Roberts—2.

PETITION OF URSULA M. LOUGHRAN.

A petition was received from Ursula M. Loughran for children under fifteen years of age to appear at the Hotel Somerset on June 15, 1934.

The petition was granted under the usual conditions.

COUNTY EXPENDITURES, PRINTING AND BINDING.

Coun. FITZGERALD offered the following:

Ordered, That the Committee on County Accounts investigate the expenditure for printing and binding by the County of Suffolk.

Passed under suspension of the rule.

LEAVE WITHOUT LOSS OF PAY.

Coun. GREEN offered the following:

Ordered, That his Honor the Mayor be requested to instruct all department heads to grant leave of absence, without loss of pay, to employees who are duly elected delegates to the Department Convention of the United Spanish War Veterans, to be held at Nantucket on June 22, 23 and 24, 1934.

Passed under suspension of the rule.

UNITED STATES CITIZENSHIP OF DOCTOR EINSTEIN.

Coun. WILSON, for the Committee on Rules, submitted the following:

1. Report on order (referred June 11) that City Council approve bill now before Congress that would make Dr. Albert Einstein citizen of United States—recommending that same ought to pass.

Report accepted; said order passed.

CONFIRMATION OF CONSTABLES.

Coun. GOLDMAN called up, under unfinished business, appointment by the Mayor on June 4, 1934, of Joseph O. DeSantis and Marks Goldstein, to be constables, authorized to serve civil process.

The question came on confirmation. Committee, Coun. Finley and Kerrigan. Whole number of ballots 12; yeas 10, nays 2, and the appointments were confirmed.

PAYMENT OF EMPLOYEES.

Coun. DOHERTY offered the following:

Ordered, That the Institutions Department Commissioner continue to pay employees when absent on account of death in the family.

Coun. DOHERTY—Mr. President, it has been called to my attention, in connection with one of the nurses at the Long Island Hospital whose father died last week, that the usual procedure of allowing three or four days' pay when the nurses are out because of a death in the family has been discontinued in the Institutions Department. I move, therefore, the passage of this order under suspension of the rule.

The order was passed under suspension of the rule.

THE NEXT MEETING.

On motion of Coun. GOLDMAN it was voted that when the Council adjourn it be to meet on Monday, July 2, 1934, at 2 p. m.

Adjourned, on motion of Coun. GOLDMAN, at 1.20 p. m., to meet on Monday, July 2, 1934, at 2 p. m.

BOSTON AS A TOWN.

From its foundation until 1755, or a period of 125 years, Boston was not only the most outstanding but the most populous town in the American colonies. In 1760, Philadelphia's population was ahead, viz., 18,756, Boston's then being 15,631 and New York's about 14,000. In the last year of town government, viz., 1821, Boston's population was about 45,000 and its public debt $100,000, all incurred for new county buildings.

The history of Boston as a town during a period of nearly two centuries surpasses in civic interest that of Boston as a city because of the untiring zeal and successful efforts of its townsmen to realize more of true democracy than had ever been attained before. Their obligations were held as sacred as their liberties.

CITY OF BOSTON.

PUBLIC WORKS DEPARTMENT.

TRAFFIC TUNNEL REGULATIONS.

Voted, That, inasmuch as considerations of public safety or convenience urgently require that the City of Boston Traffic Regulations, as most recently amended, be further amended by inserting after Section 51 thereof the following new section, to be operative for a period of two weeks commencing June 30, 1934:

"SECTION 51–A TRAFFIC REGULATIONS RELATING TO THE USE OF THE TRAFFIC TUNNEL."

ARTICLE 1.

Definitions.

Vehicle—Any contrivance on wheels used in the roadway of streets for carrying persons or things.

Operator—The person who is in actual physical control of a vehicle.

ARTICLE 2.

Types of Traffic Excluded. General.

1. Vehicles which are loaded in such a manner or with such materials or which are so constructed, operated or equipped as to be likely to endanger persons or property, or which are likely to render the use of the tunnel unsafe, shall not be allowed in the tunnel. The following types of vehicles being likely to endanger persons or property or to render the use of the tunnel unsafe shall not be allowed in the tunnel:

(*a.*) Vehicles with persons standing on the outside thereof, or sitting on the rear with feet dangling.

(*b.*) Vehicles having flat tires.

(*c.*) Vehicles in charge of incompetent or intoxicated operators.

(*d.*) Push carts, wheel barrows, perambulators, velocipedes and similar vehicles.

(*e.*) Self-propelled vehicles or trailers with metal tires.

(*f.*) Vehicles loaded with animals or poultry not properly confined.

(*g.*) Vehicles loaded with garbage, loose hay, straw, or similar material not sufficiently covered.

(*h.*) Vehicles overloaded to such an extent that the means of propulsion are insufficient.

(*i.*) Vehicles with inadequate brakes.

(*j.*) Other vehicles which in the judgment of the Supervisor of Tunnels are likely to endanger persons or property.

(*k.*) Vehicles having an axle load in excess of 12 tons or wheel loads exceeding 800 pounds per lineal inch of tire width.

(*l.*) Steam rollers, bicycles, horse drawn vehicles, double deck busses and busses with passengers standing.

(*m.*) Vehicles loaded with explosives.
